EDITOR OF NEWS GOES ON TOUR OF CO. POLITICKING

Saturday morning the editor, accompanied by a daughter, Miss Eris and small son, John, hoarded the family car with a supply of literature and drove out to the western part of the county, where we started the drive in earnest for the nomination for Representative in this district.

In Talpa we visited all the business houses and called upon as many voters as we could, and solicited them to vote for us when they go to the poll Saturday of next week. After working the place as thoroughly as time would permit, we retraced back to the nice little town of Valera, where we spent some time canvassing for votes. Shortly after noon we made our way into Coleman City, and spent a couple of hours campaigning among the people there. Leaving the Capitol City about 3 p. m. we meandered our way out to Fisk, and after a short stop, extended the trip on to Gouldbusk, where several of the district and county candidates were assembled for a general party.

Several candidates had made their announcement before the writer reached Gouldbusk, but fortunately, the candidates for Representative were not called for until after we arrived on the scene. Spending some two and one-half hours mixing and mingling with the good-natured crowd, passing out our platform in printed form, we at least created some interest in the campaign, and feel safe in expecting a few votes in that part of the county. After leaving Gouldbusk, we drove home by way of Shield, where we made a short stop and supplied the citizens there with copies of our platform.

We feel greatly encouraged since getting out from home in the interest of our campaign. People received us nicely, and several promised us a vote. That was what made the trip interesting. We believe our trip was worth the time and effort, and unless some unexpected thing happens before the first primary, Saturday of next week, we will receive a creditable showing in the western part of the county.

We purpose to spend the greater portion of our time during the remainder of this week, and next out among the voters of Brown and Coleman counties, and trust our home people will bear with us. If you call at this office to see us and we are not here, just leave the word, and we will see you as soon as possible. And to our good friends here in Santa Anna and this part of the county, permit us to say that, we are depending

Sealy Hospital To Be Host to Children Born There Since It Opened

On Monday, July 18, between the hours of 1 and 5 p. m. the Sealy Hospital will give a home coming and hold a free Clinic for all children born in the hospital since it was founded.

A large group of registered nurses will be present to register, weigh and measure the babies.

Refreshments will be served to the children on the lawn at the hospital.

All the parents of children born in the hospital are urged to come and bring their children, as we are very anxious to see them, examine them and get a check on their health.

Comanche Postmaster Is Guest of Lions Club At Regular Luncheon

Geo. B. Black, Comanche Postmaster, also president of the Comanche Lions Club, was a guest of the Santa Anna Lions Club last Tuesday at its regular luncheon. Mr. Black was here to meet the committees which are in charge of arrangements and entertainment for the meeting of the Ex-Rangers Association of Texas which is to be held in Santa Anna on Aug. 1, 2, and 3. He made a very interesting talk at the luncheon, going somewhat into the history of the Ex-Rangers Association. Mr. Black is Captain in the association.

Every citizen of Santa Anna and surrounding communities is expected to co-operate in trying to make this a pleasant meeting for the old pioneers and heroes to whom we owe much.

We are asking that every organization in the town join in and help in the work of handling the meeting. More detailed information will be given next week as to the program and entertainment that has been arranged. The following committees have been appointed to serve: Committee on Grounds, Sam H. Collier—Chairman, Fred W. Turner, J. Frank Turner and Ollie Floyd. Committee on Entertainment, Mrs. J. R. Banister—Chairman, W. E. Baxter, Mrs. R. C. Gay, R. D. Kelly and Mrs. J. R. Gipson.

In Loving Memory of Willie Laughlin

Gloom and sadness reigned over the Trickham and neighboring communities Tuesday when the message was received of the illness and later the death of one so loved by all. Willie Laughlin passed away at her home at Cherokee, Texas, after an illness of several days. Willie was born near Trickham November 4, 1904, and lived there until a few years ago, when she moved to Cherokee, San Saba county with her family. By her winning ways and sweet disposition she had won a place in every heart, so that her absence was greatly felt by all the friends she had left at the home of her childhood.

When the message of her illness was received Tuesday morning, her brothers and sisters left immediately, but she had lost consciousness before they arrived, so that she did not recognize them. The dearly beloved family physician, Dr. Sealy reached her bedside only a few minutes before the end came. Throughout her illness Dr. Felts and the nurse labored so faithfully and untiringly that they might save her, but it was the will of the Heavenly Father that she be called to her reward. Were it not for those precious words that have consoled so many the loss would be almost unendurable to her loved ones.

She is survived by her mother Mrs. J. S. Laughlin, three brothers, Roy, Elmer and Grey and two sisters, Mrs. Carl Sheffield and Mrs. Harry Wilson. The father to whom she was so devoted during life preceded her in death seven months.

Willie obeyed the gospel and became a member of the Church of Christ eight years ago, having been baptized at Brooksmith by Bro. Homer Davis.

The body was brought to Trickham for burial Wednesday. Funeral services were held at the Trickham church with Rev. E. H. Wylie of Santa Anna officiating. Active pall bearers were her cousins Preston and Clark Miller, Fred Haynes, Cecil Bowden, H. B. and Jack Dockery.

DR. JAS. B. LEAVELLE

The militant preacher of righteousness who will do the preaching in the open air revival at the Baptist Church, beginning Sunday, August 14.

DATES SET FOR DEEP CREEK CAMP MEETING

The fourth annual Deep Creek meeting will be held in August, beginning on the 18th and closing on the 28th.

W. E. Hawkins, Jr., of the Radio Revival, of Fort Worth, will conduct this meeting, as has the three previous meetings. He will be assisted by others whose names will be announced later.

The Deep Creek Camp Ground is adjoining the Lone Star Tourist Camp on the Bankhead Highway, ten miles east of Baird and is an ideal location, the tabernacle, which is large and comfortably seated, is nestled among the large pecan trees on the banks of Deep Creek and the grounds afford a nice place for camping. There is also a roomy cook house and meals will be served in cafeteria style.

A cordial invitation is extended to all to attend this camp meeting. Come and camp for the full ten days.

SHOWER FOR BRIDE

Mesdames Jimmie Gill, Homer Schulze, and E. M. Tisdell entertained Monday afternoon at the Tisdell home in Whon with a miscellaneous shower for Mrs. Alfred Cooper, who was formerly Miss Rexadae Schulze.

The color note of pink and green was carried out in the decorations and refreshments. Following the program, the honoree was presented with a number of lovely gifts.

About fifty guests were present for the occasion.

ANOTHER HUGE CUCUMBER

W. A. McKean was in this office Tuesday with a cucumber which measures 63 inches in length. The cucumber was grown in his garden back of Campbell's Gulf Filling Station, in the east part of town.

The cucumber is on display in the J. L. Boggus & Co. Grocery Store.

Local Pastors Will Speak on Prohibition

We will discuss the eighteenth amendment as a moral rather than a political issue at the morning preaching service Sunday, July 17, at the Baptist, Methodist and Presbyterian churches.

This is, perhaps, the most vital question before the American people today. It has to do with their happiness, prosperity, and eternal destiny, and we feel that it is our solemn duty under God to discuss the same. General public invited. "Come thou with us, and we will do thee good."

Mrs. Comer Blue Marries Druggist Of Forney, Texas

Friends here were notified Tuesday of the marriage of Mrs. Comer Blue of this city to Mr. C. W. Terry of Forney, Texas.

The marriage ceremony was performed at the home of Mrs. Blue's sister, Mrs. Joe Duncan of Kaufman, Texas.

Mrs. Blue owns the Jewelry store here, bearing her name, and has been identified with the business interests of Santa Anna since the death of her former husband some twelve years ago. She possesses a progressive spirit, has always maintained a neat, clean and creditable business, friendly and possessed with a splendid disposition. She has fought the world single handed, relying at times upon the advice of friends, maintained a splendid business which has ever been an asset to the town, and formed many lasting friendships.

The Santa Anna News regrets losing Mrs. Blue from our circle of friends and business customers.

Mr. Terry is a registered pharmacist, who owns a drug store in Forney, Texas, where the newly married couple will make their home. He is known here, and at one time was a druggist in Santa Anna.

The message received here stated they were married Tuesday morning and were leaving immediately for the Ozarks where they plan to spend several days before returning to their future home. The writer wishes them much happiness in their future lives.

Santa Anna Guest Honored at Dance

(San Angelo Morning Times) Honoring her sister, Miss Mary Harriett Simpson of Santa Anna, Mrs. Clarence Webb gave a dance last evening at her home, 1215 West Avenue D. Music for the hours were played by Wilson Humbler's Rainbow Serenaders. Supper was served at a late hour.

Guests included: Misses Simpson, Janet Pilcher, Minnie Mertz, Hunter, Marie Quarles, Jane Schneemann, Vina Griffin, Ione Williams, Topsy Linthicum, Rogene Lacy, Evelyn Kilpatrick, Dorothy Miller, Dorothy Cowden, Lela March Neill and Virginia Smith; Ford Boulware, "Shorty" Birdwell, Jimmy Russell, Bill Noelke, Jackie Johnson, Reburn Crawford, James Blair, Bill Slaughter, Bill Harrison, Latham Birdwell, Cook Daniel, Armistead Rust, Robert Carruthers, Zay Kimberlin, Louis Brothers, Bomar Horton, Walter Smith, Jack Linthicum, Howard Smith, Dwight Hunter Jr., E. Y. King Jr. and Bernard Jones.

4-H ENCAMPMENT IS POSTPONED INDEFINITELY

The 4-H Club Encampment which was announced in last week's paper to begin Thursday of this week, has been postponed indefinitely, probably until sometime in August. Most of the boys who were planning to attend are too busy threshing now to attend, and will be busy with other things for the next few weeks, according to C. V. Robinson, County Agent.

ASSOCIATIONAL B. T. S. AWARDS MADE SUNDAY

The Coleman County Associational B. T. S., which met at the First Coleman Church Sunday afternoon, made the following awards: First Coleman Prizes, First Coleman Intermediates, Coleman Junction Seniors, and First Coleman Adults. Young people from Whon, Rockwood, Santa Anna, First Coleman and Coleman Junction were present.

INTERESTING LETTER FROM LEON POLK

The following letter was written by Leon Polk to his parents, Mr. and Mrs. E. W. Polk of the Liberty community. Leon left about two years ago and joined the navy.

U. S. Naval Hospital Corps School, Portsmouth, Va., June 15, 1932.

Dear Mother and Dad:

Ten days ago the U. S. S. Nitro docked here. It surely does seem good to be back in the States after over a year in the Hawaiian Islands.

On April 13, after Fleet Manoeuvres in Hawaii, I put in a request to have my rate changed from seaman to hospital corpsman. This was promptly approved of by the Bureau of Navigation. I was to be sent to the training school in San Diego.

On May 2, the U. S. S. Jason arrived at Pearl Harbor, Hawaii, enroute from China to Bremerton, Washington. I boarded her for transportation to the west coast.

May 13 upon my arrival at San Diego, I found that the school there was going out of commission. So was sent to the Nitro for transportation to Portsmouth.

We shoved off on May 18. One week later we landed in Corinto Nicaragua. Were there only a few hours. Just long enough to land a detachment of marines.

Two days later, on May 27, we reached Panama. Docked there overnight and got under way early the following morning to go through the Canal. It required about six hours to pass through. That afternoon we docked in Colon on the Atlantic side.

The Canal is truly a wonder. After one passes through he can easily understand why it is reputed as being the greatest engineering feat in world history.

Midnight of the 29 we again got under way.

Three days later we landed in Port of Prince, Haiti. This is a beautiful little port surrounded by towering mountains. When we entered the harbor a fleet of small boats came out to meet us. In some of the boats natives carried many varieties of novelties, and the others were loaded with coin divers.

We left there the same day and arrived in Guantanamo Bay, Cuba, next morning. Were there just long enough to unload some cargo. We then proceeded on to Portsmouth, and got here Sunday June 5.

As a whole the trip was pleasant.

I shall like it here very much. Also this branch of the Navy. Will close here for this time.

Yours truly,
Leon.

Local Citizens Attend Birthday Anniversary Of Col. Burns, Age 100

Several from here went to Burkett Tuesday to join in the celebration of the One Hundredth Birthday of Col. T. A. Burns. Col. Burns is still hale and hearty, and says he feels as well as he did when a young man.

A lengthy mention was made of Col. Burns in our issue of last week, and most we could say would be a repetition of what has already been said.

We wish Col. Burns many more years of happiness and good health.

CANDIDATE SPEAKING SAT.

Happy Days Are Here Again

Texas Must Get Ready to Invite World to its Birthday Party

"The proposed Amendment to the State Constitution, to authorize an official celebration of the 100th anniversary of Texas' Independence in 1936, should carry overwhelmingly at the polls next November.

"The Texas Press Association gave that opinion in resolutions adopted at its latest annual convention, in Mineral Wells.

"Practically every civic body that has met in Texas recently has gone on record similarly; and not a dissenting voice has been heard from any quarter.

"Of course, just now the citizen is more concerned about reducing government expenses and obtaining much needed tax relief than about any other public question.

"Still, he should bear in mind that adoption of this amendment would not impose any new tax.

"It is purely an enabling act, conferring certain authority upon the Legislature.

"Should a majority of the lawmakers consider it unwise to hold a Texas Centennial Exposition in 1936, they would be under no compulsion to act contrary to that judgement.

"On the other hand, sponsors of the program confidently expect that better times will come before 1936, and that Texans will desire to profit by this exceptional opportunity to promote the State's industrial and cultural development."—San Antonio News.

HONDO—The contrast between 20 cents and more per pound for large soft-shelled pecans from budded trees and 3 and 4 cent nuts from native trees has led Medina county farmers to go in strong this year for improving native trees, says C. M. Merritt, county agent. In two months time 20,000 buds have been placed on native trees by 96 farmers in 10 communities.

REVENUE AND MORE REVENUE

This much can be said for the new revenue bill—it will probably balance the budget and remove the present danger to American credit.

This can be said against it—it takes us another long step toward a tax condition similar to that of England, Australia, Germany, and other tax-distressed countries. The levies against gasoline, lubricating oil, tires, electricity, the check and bond taxes, the theatre tax etc, will work hardships on millions of our citizens. The inevitable result is a lowered standard of living. The income tax increases will doubtless cause a further flow of capital into tax-free government bonds, thus taking money out of the channels of trade, and away from industries sorely in need of funds. To this extent, it will hamper employment and a return to normal conditions.

There is one lesson we should have learned—that undeviating watchfulness is the price of economical and efficient government. If we have to pay greatly increased taxes, we have ourselves principally to blame—we gave office holders all the rope they wanted and they are slowly strangling us. The American has been indifferent to the operation of his government. He has been a poor stockholder. He is paying now.

The tax fight never ends. It is time we laid our plans for doing what we can, through the power of the ballot, to make tax reduction a reality in the future.—Jaytown Chronicle.

Alice Joy, radio dream girl, is being surrounded by such stars as Henry Santrey's band, Henderson sisters, Lillian Lawson, Isabel Mohr, Joe Thomas Saxtette, Moss and Manning, Kirby and De Gage, and other stellar performers for the "Dream Girl Follies," which will be featured in the auditorium during the 1932 State Fair of Texas, according to Roy Rupard, secretary.

Cheer up! The less you have the more there is to get.

Explanation of Rules of Voting On Exemptions

With the first democratic primary near at hand it is time for voters who expect to participate to check up and see if they are ready to vote. In order to vote in the election July 23 persons residing within the Santa Anna city limits must have paid their poll tax or secured exemption certificate from Tax Collector Jettie Kirkpatrick if eligible for exemption. Voters living outside the city limits in rural or other town precincts of the county must have a poll tax receipt or may vote without an exemption certificate if they are eligible for exemption.

"The following classes are exempt from poll taxes: Those who have become twenty-one years of age since the first of January, 1931; those who became sixty years of age before the first of January, 1931; those blind, deaf or dumb, or permanently disabled or who have lost one hand or one foot. Citizens of the above classes can vote without paying poll taxes but must secure exemption certificates if they vote in the city boxes. Such certificates may be secured from the tax collector any day before election day. Voters who are exempt from poll tax and live outside the city are not required to have exemption receipts. Voters must be twenty-one years of age by the time of the primary to be eligible to vote.

Exemption Certificates
"Exemption certificates to young voters are not continuous. Other exemption certificates once given, need not be renewed unless the voter moves from one box to another. In case of removal of a voter who holds an exemption certificate to another voting box which requires such exemption certificates, the voter must present his certificate to the tax collector for endorsement, which endorsement will show the date of removal, the date of endorsement, the new address and precinct to which the voter has removed and be under the seal and signed by the county tax collector.

"Election judges in the primary have instructions to observe rigidly the regulations concerning exemption certificates. Voters entitled to such certificates who have not secured them should take notice and apply at once by appearing at the tax collector's office."

Picnic Is Planned For Red & White Stores of Section

A big picnic at Buffalo Gap for managers and employees of Red and White stores of West Texas, including the Coleman unit of stores, is being planned for Wednesday, July 20, it was announced this week.

Members and employees of the Red & White stores, as well as customers, who desire to attend, will each bring a basket lunch. This will be supplemented by the grounds committee with coffee, lemonade and ice water.

The program will include readings and music during the morning and swimming, baseball and other games in the afternoon.

Plans for the affair were made at a recent meeting of representatives of eight units of Red & White stores.

All Red and White stores will probably be closed for the event.

Cotton Acreage Shows Decline of 9.5 Pct. This Year

WASHINGTON, July 9.—Cotton under cultivation July 1 was reported today by the department of agriculture to total 37,290,000 acres, or 9.5 per cent less than a year ago, when 41,189,000 acres were in cultivation.

An indication of the condition of the crop was not given as the law prohibits issuance of a condition report until the August canvass.

Abandonment between July 1 and picking time during the last ten years, 1922-31, has averaged 3.1 per cent.

The area in cultivation, by states follows:

Virginia 77,000 acres, North Carolina 1,261,000, South Carolina 1,773,000, Georgia 2,969,000, Florida 96,000, Missouri 350,000, Tennessee 1,063,000, Alabama 3,079,000, Mississippi 3,743,000, Louisiana, 1,771,000 Texas 10,419,000, Oklahoma, 3,052,000, Arkansas 3,494,000, New Mexico 114,000, California 124,000, Arizona 114,000, and all other states 18,000.

Lower California, old Mexico (not included in U. S. figures), 27,000 acres.

Pima Egyptian long staple cotton acreage, (included in Arizona) 22,000 acres.

Prosperity and easy living seem to weaken everything except the mosquito.

ON TEXAS FARMS

By W. H. DARROW, Extension Service Editor

People wonder every now and then about what becomes of the dairy calves of these bright 4-H club boys. As calves these bovines get into public print, but as cows their identity is submerged in the herds of the fathers, or so it is commonly thought. But here comes one Charlie Haselaff of Foard county to upset popular opinion. He started in 1927 with a registered Jersey and now has from her and her heirs a herd of 7 registered cows. The business is handled as a demonstration with the county agent.

Beef calves rose in the estimation of Uvalde county folks somewhat this spring when it was found that 12 4-H club youngsters had made an average profit of \$9.50 per head on 14 calves after charging in all home-grown feed at market prices and allowing for the original cost of the calves.

Home-grown hen rations are rare. Mrs. Morris Anderson in Hemphill county comes along with a demonstration that shows a home mixed ration is satisfactory. Out of 870 hatched she had lost only 3 per cent at six weeks, and of 600 hatched later she lost only 3 per cent. She feeds all the clabber they will eat and 300 pounds chacked milo and wheat, 50 pounds cottonseed meal, 3 pints codliver oil, 1 1-2 pounds charcoal, and 3 pounds salt. It costs 95 cents per hundred.

Two dollars wouldn't buy much of a summer wardrobe for most women but Mrs. Bill Day of the Spade home demonstration club in Lamb county is getting along on that amount this season and her neighbors agree she is well dressed. With \$2 won as a premium on cottage cheese she bought the materials for three dresses and two suits of underwear. She is a wardrobe demonstrator.

To The Voters of Precinct No. 2

I take this method of thanking all who have given me encouragement in my race for commissioner.

I have been very busy lately and have not been able to canvass the precinct as closely as I would like to. To all of you I will say that I am standing firm on the proposition of reducing taxes which means the reduction of expenditures, also officers salaries. For it is impossible to reduce taxes if every fellow who has his feet under the public table expects to continue getting his fair piece of pie.

Yours for success July 23.

Among the many things bobbing up for attention, we are reminded of the general conditions and appearance of the town. Warm weather, the fine rains and splendid growing conditions have brought us a bumper crop of grass and weeds. If you think these things are sanitary, just take a little walk out in them and see what you will find. There are dead cats, probably dead dogs, chickens, rodents, and many other obnoxious smelling things, surrounded with flies, mosquitoes, gnats and most every other kind of pest, some of which are very detrimental to the health and general well-being of the citizenship.

The writer tries to be alert to all things necessary to the general improvement and welfare of the people among whom we live, and I'm sure you will not think we are too presuming, when we call your attention to the unhealthful conditions existing in the town.

We know the weather is warm, the days are long and the outdoors is becoming for people who work indoors to take their vacations, but your health is vital to your future well-being, and the general unhealthful conditions now existing in Santa Anna are sure to have a telling effect sooner or later. May we admonish you to take a little weed cutting and trash burning exercise around your premises. These unsightly growths are hibernating places for germs and germs are carriers of disease. Should an epidemic of fever or malaria break out in the town, it will cost a great deal more than it would to take a little time off and clean up the town. And, another thing, all victims of fever don't recover.

SUNDAY SCHOOL LESSON

by REV. SAMUEL D. PRICE D.D.

SUNDAY SCHOOL THE PASSOVER Lesson for July 17 Exodus 12:21-28.

Golden Text: I Cor. 5-7 One of the first impressions which will come to the reverent student of the Bible is the unity of the Book. It has one theme from beginning to end: Redemption. There is no subject which is prominent in the New Testament which is not foreshadowed in the Old.

The Passover is an Old Testament version of what becomes the central truth of the New Testament—God's plan of Salvation. As one looks closely at the narrative each word is charged with spiritual meaning; the whole Gospel story is mirrored in a few verses. Egypt is a clear type of the world of sin, and Israel a type of unsaved men and women. The passover lamb is a wonderful type of Christ, while the sprinkled blood speaks of His atoning sacrifice. That this is the true method of interpretation is shown by our Golden Text, "For Christ our Passover is sacrificed for us" also by such passages as, "Now all these things happened unto them for examples (types)" I Cor. 10:11.

The deepest spiritual lesson, of course, is that which concerns the result of simple obedience to God's saving plan. Those individuals or families of Israel, who took God at His word and evidenced their faith by seeking the shelter of the blood sprinkled door, were infallibly secure, good or bad, wise or ignorant, strong or weak, rich or poor, bond or free.

The truth taught in this lesson lies at the heart of all that the Bible teaches. The one who apprehends the meaning and unmeasured efficacy of the blood-sprinkled lintel insures, will have the key to the greatest mysteries of Scripture. He will, too, have found for himself the pearl of great price.

Presby'rian Church

Sunday morning the pastor will speak on temperance. This is a live question today. We surely ought to be awake to the dangers that surround us.

Jointly the Santa Anna pastors have announced the subject as Prohibition, Politics as to party will not enter into the treatment of this subject. This is a moral subject. It has to do with our souls. Drunkenness ban man from the Kingdom of Heaven.

Come, this will be a very religious service. We want to protect youth, we desire to have soberness in our homes, we want our nation to be exalted by righteousness.

M. L. Womack, Minister

Baptist Church

Sunday school at 9:45, and preaching at 11 a. m. At the morning hour the pastor will preach on the subject: "Prohibition a Moral Issue Rather than a Political Issue." You are urged to attend this service and weigh the evidence presented. This will not be a partisan discussion, but rather a religious one. B. T. S. will meet at 7:45.

Remember the mid-week prayer service Wednesday evening at 8:30. Let's be much in prayer about our revival which is to begin August 14.

SINGING AT ROCKWOOD

Friday evening of this week there will be a singing at Rockwood. Professor G. W. Bobo who has been teaching singing schools at Whop and Rockwood for the past month will be in charge.

Singers from over the county have been invited to attend and the singing will be one of the best in recent months.

Instead of bothering with trick guarantees, phony inducements and special deals, smart car owners ask themselves:

Why buy any SECOND-CHOICE Tire when FIRST-CHOICE costs no more?

Right now you car-owners are "sitting pretty" . . . You can buy more safe, comfortable, trouble-free mileage for a dollar than in any previous summer . . . You don't have to put up with second-choice tires for reasons of economy, because first-choice tires cost you no more! . . . Goodyear Tires—the kind we sell—are first-choice here, throughout the state, throughout the nation, by more than 2 to 1! . . . They outsell all others not because of any trick guarantees, or phony inducements, or special deals, but simply because they give people the biggest money's worth, and people know it! Don't be argued out of the benefits to be had from the leading tires and our service.

Washington, June 7, 1932
No. 12768

In the Matter of
THE STATE NATIONAL BANK
of Santa Anna, Texas
To All Whom It May Concern:
WHEREAS, upon a proper accounting by the Receiver heretofore appointed to collect the assets of "THE STATE NATIONAL BANK" of Santa Anna, Texas, and upon a valuation of the uncollected assets remaining in his hands, it appears to my satisfaction that in order to pay the debts of such association it is necessary to enforce the individual liability of the stockholders therefor to the extent hereinafter mentioned, as prescribed by Sections 5151 and 5234 of the Revised Statutes of the United States, Section 1c 156, Act of June 30, 1876, and Section 23, Act approved December 23, 1913, known as Federal Reserve Act.

NOW, THEREFORE, by virtue of the authority vested in me by law, I do hereby make an assessment and requisition upon the shareholders of the said "THE STATE NATIONAL BANK" of Santa Anna, Texas, for FIFTY THOUSAND (\$50,000.00) DOLLARS, to be paid by them on or before the fourteenth day of July, 1932, and I hereby make demand upon each and every one of them for the par value of each and every share of the capital stock of said association held or owned by them, respectively, at the time of its failure and I hereby direct John A. Best, the Receiver heretofore appointed, to take all necessary proceedings, by suit or otherwise, to enforce to that extent the said individual liability of the said shareholders.

IN WITNESS WHEREOF I have hereto set my hand and caused my seal of office to be affixed to these presents, at the City of Washington, in the District of Columbia, this seventh day of June, A. D., 1932.

There will be an interesting lesson in B. T. S. next Sunday night. We hope all members will be present and visitors are invited.

The candidates are all on the go these days, rain or no rain. They are hunting votes harder and harder as the day of the first primary grows nearer and nearer. We are sorry they can't all be elected, and yet darn glad they can't be, too. It's going to be hard to pay those that will be chosen and it would be utterly impossible to pay all of them if it were possible to elect them all. We are hoping that the best qualified for the jobs will be elected, because this is one time when the best will be none too good to be placed at the helm of the ship of state to guide the old over-loaded boat to a safe landing. Folks, if you believe in Divine guidance, now is one time when you need to pray before voting.—Ex.

The News is just going to press, and we regret very much to report that Mrs. W. E. Smith, who has been dangerously ill since last Friday night, is still very low.

Modern Electric Refrigeration Will Help You Cut Expenses

Acclaimed for its great convenience, its value as an essential health safeguard, and for the delicious frozen desserts and salads available through its use, modern Electric Refrigeration is a household necessity for yet another important reason . . . the substantial cash savings it will bring you.

With Electric Refrigeration, "left-overs" are not wasted . . . but safely and conveniently preserved for future use in novel and tasty dishes. And in addition to the economies realized in this manner (statistics show that over 10 cents a day is lost by throwing out usable "left-overs"), further savings can be made through the safe refrigeration of "bargain day" quantity purchases . . . through buying larger sizes of canned goods—at a much lower cost per ounce . . . and through the elimination of food-spoilage.

These important savings are possible with Electric Refrigeration because the constant low temperature necessary for the safe preservation of perishable foodstuffs is maintained automatically.

Let Electric Refrigeration help you cut expenses. Ask a salesman to show you our new models . . . or see your nearest electrical dealer . . . Today!

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and adds only a small amount to your total bill?

SURPLUS DENOTES DISCOURAGING OUTLOOK FOR SCHOOL TEACHERS

Of all the professions, perhaps none is so overcrowded in Texas at this time as the profession of teaching. The young person preparing for a career as a teacher faces rather a bleak prospect.

According to Dr. King Vivion, president of Southwestern university, there are 45,000 teaching positions in the schools of Texas, and during the last two years 28,000 young men and women have been graduated with training for teaching from colleges in this state.

This clearly reveals that there is a heavy overproduction of teachers in Texas, and explains why every school board is deluged with applications for positions from teachers. The surplus is made larger at this time by reason of the fact that many schools are curtailing their teaching forces. Expansion of faculties has practically stopped everywhere. With revenues for school purposes seriously cut down, the schools are being forced to adopt economy programs that not only reduce teachers' salaries, but deprive many of them of positions.

Multiplication of teachers' colleges in Texas within the last few years is responsible in part for the present teacher surplus. The legislature yielded to pressure from various sections of the State to give those sections colleges for the training of teachers until the thing was overdone. Young people flocked to these schools in great numbers, lured by free tuition and the prospect of getting good salaries as teachers when they finished their courses.

During the last few years the teaching profession has been able to absorb recruits rapidly because of the steady increase in school enrollments. Between 1920 and 1930 enrollment in high schools in the entire country almost doubled and the number of high school teachers almost doubled. It is hardly likely that the next decade will witness a repetition of that.

Teaching has been especially attractive to women. Women teachers outnumber men at the rate of five to one in the secondary and elementary public schools and in the primary and secondary grades women practically monopolize the field. In universities and colleges more men than women teach, and in the last ten years more men have been entering the high school faculties because of the higher salaries.

Three and five-tenths per cent of the people gainfully employed in the United States today are in the teaching profession, their number totaling 1,037,605. It would be interesting to know how many persons with certificates to teach are out of employment. Certainly, the number runs up into many thousands.

S. J. PIERATT Candidate For County Judge of Coleman Co.

One of the fundamental duties of the County Judge and the Commissioners Court is to levy taxes for the general running expenses of the county. Every unit of government from the Federal down to the smallest district can reduce its expenditures without interfering with the necessary service, if the spending officer has the will and courage to do so.

If elected, I shall recommend to the Commissioners Court that the salary of the County Judge be reduced. Then in turn I shall ask that the salaries of the Commissioners be likewise reduced. With this beginning, I will use every effort to reduce or eliminate all unnecessary expense incident to the administration of the affairs of the County. If I fail in this economy program, the public will be advised with all details through the press.

We are facing the most trying times of recent years, times that demand concessions from every one, but with the will and determination we will come again. I am willing to do my part.

I wish to assure each and every one of my appreciation of any support and will do my best to merit your confidence.

S. J. Pieratt.

FARM PRICES AND RECOVERY

The latest report of the United States Department of Agriculture gives the general index of farm prices as of March 14th, at 61 per cent of the average for the years 1909-1914, while the average price paid by farmers for necessary commodities was 117 per cent of this pre-war figure. In other words, the exchange value of farm products was only 52 per cent of what it had been before the war.

This lack of balance between agricultural and other prices has existed in somewhat less degree for the past eleven years and is a striking example of what is wrong with business in the United States today. Although generally overlooked in the hysteria of the stock market boom, this gradual curtailment of the farmer's buying power was bound sooner or later to upset our business structure even if there had been no other unfavorable factors in the equation. It tends to illustrate a basic principle of modern economics, often lost sight of by otherwise competent business men, and that is that no permanent degree of prosperity can be sustained if that prosperity is not shared by every large group of producers.

All talk of economy and retrenchment, of lowered taxes and more liberal credit, of bonus and public works programs, will not get at the root of our present difficulties. Modern business, in this day of mass production and rapid transportation, depends on wide-spread and strongly supported buying power. If business as a whole is to prosper, our standards of living must be maintained, not for the few, but for the great mass of the country's population, and this necessary means for purchasing the things they want. Unless and until our two largest groups of consumers, the farmers and the wage earners, are able to exchange their products and services on an equitable basis, we can orate and legislate "until the cows come home" without finding a safe and lasting foundation for economic improvement.

JUDGED BY THEIR CATS

Irish Maid's Unique Way of Estimating Employers' Character

"No, ma'am," said an Irish maid of much experience as she returned to a New York intelligence office the other day. "I didn't engage with that family. I didn't like the looks of their cat." "Of their cat!" repeated the owner of the office in amazement. "Why, Katie, I'm sure they wouldn't keep a cat that was in any way dangerous." "Not dangerous, no ma'am, but restless, unhappy looking creature that didn't speak well for the family," replied the girl. "I always judge a family by their cat. A sleek, comfortable pussy who comes up and rubs against you means a quiet, good natured family, and one that's not worrying about ways and means, but a nervous, unfriendly looking cat, reflects a household which is on the verge of nervous prostration or financial ruin or some other horrible trouble. I've been living with families and studying their cats for 25 years, and I've never known the sign to fail. A family that can't make its cat happy is one to make any servant miserable."—Exchange.

MARCUS LISLE GRAVES

Marcus Lisle Graves died at the home of his brother-in-law, Will Mills in Santa Anna June 30. He was born in Miller county, Ark., March 16, 1871, being 61 years, 3 months and 14 days of age. He came to Texas when a young man and settled in the Salem community. He was married to Miss Lenora Curry of Salem October 8, 1895. He was a member of the Salem Methodist church and funeral services were held at Salem Saturday morning, his pastor, Rev. E. P. Swindall, officiating.

He is survived by his wife and three children, Wilburn and Miss Myrtle Graves of Salem, and Mrs. T. D. Moren of Bangs. Interment was made at Salem with H. L. Allcorn in charge of funeral arrangements. Pall bearers were V. S. Ragsdale, J. J. Andrews, Wade Rosser, W. L. Lancaster, C. H. Heath and Arnold Ragsdale.

WHAT THE NEW TAX MEANS

A recent Associated Press dispatch from Washington gave an interesting insight into what the new revenue bill will mean to the wage earner.

A married business man with one child having a net income of \$6,000 will pay an income tax to the Federal Government of \$124 as against \$23.63 in the past. If he buys a \$600 automobile he will have to pay a tax of \$18 plus 60c for taxes on tires, etc. If he uses 700 gallons of gasoline during the year and 30 gallons of lubricating oil, he will pay a tax of \$8.20, in addition to state gas and oil taxes. If his wife gets a \$200 fur coat the tax will be \$20.

If he make home brew he will pay about \$3 in taxes on malt. His wife's perfumes, powders, etc., will call for another \$3.00 in taxes. If he buys a \$75 radio and buys a \$100 electric refrigerator the taxes will be \$3.75 and \$5 respectively. He will pay increased taxes on cameras, electricity, matches, the telephone and a hundred other commodities and services. If he spends \$2 a week for shows and movies the Treasury will get \$10 from him by the end of the year.

His total direct taxes will be about \$310, as against about \$174 under the old rates—an increase of \$236.

It looks as if the new bill will fatten a depleted treasury—but it is going to make a deep hole in the public pocketbook. And these taxes are only a beginning unless definite steps are taken to curb the expense of government, the cost of which increases like compound interest as the number of public

TEXAS RAILROADS PAY SUBSTANTIAL PART OF STATE'S TAX BURDEN

● Taxes is one of the large fixed charges connected with the operation of Texas railroads. From the standpoint of the welfare of state, counties and communities, railroad taxes are of much importance. This annual obligation must be met from the earning capacity of the rail carriers.

In 1931 the railroads of Texas paid a total of \$8,303,108.47 in federal, state, county, municipal and miscellaneous taxes. The distribution of this amount to the various tax funds is shown below:

	Amount Paid	Per Cent of Total Tax Paid
U. S. Government	\$ 61,270.13	.74
State	1,954,435.47	23.54
County	1,146,669.97	13.81
Roads	1,699,764.15	20.47
Improvement Districts	175,606.87	2.12
Schools	1,437,152.74	17.31
Cities	1,792,994.61	21.59
Miscellaneous	35,214.59	.42
Total	\$8,303,108.47	100.00

It can thus be seen that railroad taxes represent an important and indispensable factor in the economic life of our state. They help in a large measure to pay the expense of our state, county and municipal government, build and maintain highways, pay the cost of drainage and other improvements, and support our schools and educational institutions.

It is the desire of Texas railroads to extend this helpfulness to Texas counties and communities in carrying this heavy burden. However, their ability to meet these obligations as they become due depends upon their ability to earn sufficient revenue with which to pay this and other heavy expenses connected with their operation.

● RAILROADS HAVE ALWAYS SHOULDERED THEIR SHARE OF RESPONSIBILITIES TO THE NATION, THE STATE, AND THE CITIES AND COMMUNITIES THEY SERVE, AND WILL CONTINUE TO DO SO TO THE EXTENT OF THEIR ABILITY.

JUDGE E. J. MILLER PRESENTS INTERESTING FACTS AND FIGURES

I have been sick and confined to my room for ten days and do not know when I will be able to be out. My candidacy is based upon my record and the time honored custom of according a second term to officers who have made good, consequently it seems pertinent to give facts revealing my record. I was elected upon the following declaration of principles, to-wit:

"More work and less play
More trials and fewer continuances."

The following facts and figures taken from statements of the Clerks of the Court and verified as best I can, show that I have lived up to that platform 100 per cent.

Jury cases tried the first three years of my administration:		
Brown County	Coleman County	McCulloch County
Civil 50	Civil 31	Civil 11
Criminal 144	Criminal 89	Criminal 88
194	120	99
Jury cases tried the three years preceding my administration:		
Brown County	Coleman County	McCulloch County
Civil 21	Civil 21	Civil 4
Criminal 71	Criminal 45	Criminal 27
92	66	31

From this statement it appears that I tried more than twice as many jury cases as were tried the preceding three years and with no more expense. A comparison of all the Courts in the State would show twice as many cases tried as the average District Court.

If you believe in industry, dispatch of business and saving the taxpayers' money, is not this record worthy of your endorsement—your active support for re-election?

A judge's appellate court record is a fair indication of his ability. Exact and absolutely correct figures on this point have been difficult to obtain, but the following compilation is taken from statements of the Clerks, checked and verified as best I can.

Cases Appealed and Reversals:			
BROWN COUNTY	Appealed 33	Civil 13	Criminal 20
COLEMAN CO.	Appealed 45	Civil 14	Criminal 31
McCULLOCH CO.	Appealed 18	Civil 6	Criminal 12
Rev. 8	Rev. 20	Rev. 3	
Total	96	33	63
			31

This has been checked and verified until any material variance cannot represent an honest effort to state the truth. This shows less than 33 per cent of reversals, while the average for the State during the 10 year period from 1920 to 1930 was 46 per cent. Therefore my appellate Court record is much above the average of the State. Any effort to discredit my ability or fairness on the bench cannot be corroborated by facts nor by the good lawyers of the District. Many people capable of passing judgement have been generous enough to say that I have made the best District Judge this District has ever had.

The efficient business basis upon which the Court has been run, and the way business has been dispatched, necessarily contribute to economy, law enforcement and good government. If you are for these things, and believe in a square deal in politics, I can expect and will very much appreciate your active support and vote on July 23rd.

The fact that I adopted the policy of trying cases rather than wearing them out by continuances; the fact that I try the majority of criminal cases at the same term the indictment is returned—which was never before the practice in this District—and the fact that criminal lawyers have had to try more than twice as many criminal cases as ever before in the same length of time, is the reason that my opponent and one other criminal lawyer are trying so hard to defeat me. On which side do you stand?

I have not undertaken to write divorce laws, as my opponent charges, nor have I made rules contrary to law. I have attempted to enforce the spirit and purpose of state laws, and slow down the divorce mills. I have required reasonable corroboration of the one-sided, and often grossly exaggerated charges made by applicants for divorce. This is done by a great many courts and is amply justified upon established legal principles. For this I have no apology.

Yours for efficiency, economy and dispatch of business,
(Political Advertisement) E. J. MILLER.

Mammoth Cave on Route of H'way 66 Has Possibilities

D. E. Colp, Chairman of the Texas State Parks Board, announces the recent exploration of a gigantic cavern on State Highway property in Burnet County, extending underground at least eight miles and containing "underground chambers and passage ways spectacularly decorated with glittering cave formations."

Mr. Colp says "from all evidence it will rival any other cave on this continent, one room is so immense as to be utilized as a theatre. The natural architecture of this chamber is that of an auditorium—stage boxes, proscenium arch, sloping parquet floor, etc. When equipped with seats, lights and other paraphernalia, it will seat several thousand people and will be the world's only underground theatre."

This announcement is of great significance to the terminal cities and towns along Highway 66, far greater than can at first be imagined. The cavern is within four miles of the highway and it is understood that the State has already signified its willingness to build a road to the highway to the mouth of the cavern.

Cannot Make Gas Without State Permit

Contrary to popular belief farmers and ranchmen cannot legally manufacture gasoline for their own private use without securing a permit from the comptroller's department at Austin and posting a bond of not less than \$2,500. This statement was made by Boyd Rhea, state tax supervisor, while in Coleman County Tuesday discussing local violations with County Attorney J. O. Harris. Those who violate the provisions of the law governing the matter are subject to criminal prosecution in the county where the act is committed and will be sued in Austin for the 4 cents per gallon gasoline tax on every gallon made. Penalty for violation of the law is not less than \$100 nor more than \$5,000, or be confined in the county jail not more than six months or both such fine and imprisonment.

The makers of gasoline are required by law to make a report to the comptroller every thirty days of the amount of gasoline made or sold and remit the 4 cents per gallon tax with the report. The department will refund the 4c per gallon tax on all gasoline used by the farmer or ranchman making his own gasoline if it was not sold or used on the public highways. In other words the refund will be made on gasoline used by the farmer in tractors, airplanes or other machinery not operated on roads and highways.

The law is as follows: Art. 7065-a (1) There is hereby imposed an occupation tax of four (4) cents on each gallon of gasoline or fractional part thereof, on every wholesale, or sale at wholesale, as defined herein, and wholesale sale shall mean:

(a) The first distribution, sale or use in intrastate commerce of gasoline refined, blended, imported into, or otherwise produced or brought into this state.

(b) The first distribution, sale or use in intrastate commerce of gasoline upon which no tax has previously accrued under subdivision (a) hereof.

(2) The tax shall accrue on the first distribution, sale or use, so that a single tax only will be collected on the same gallon of gasoline, it being intended to impose the tax at its

source in Texas, or as soon thereafter as such gasoline may be subject to bring taxes.

Mr. Rhea says that there has been violations of the law in several parts of the county and in some cases investigations have been conducted and the parties warned. The comptroller's department and local officials have no desire to prosecute offenders and are using their best efforts to have the law complied with so that prosecution will not become necessary.—Abilene Weekly Times.

This Man Had Faith Lost 24 Pounds

"Last November I weighed 172 lbs. Today, (February 5th, 1932) I am down to 148 lbs. and full of pep all day long—since using Kruschen I have not had to use the laxative that was customary."—Theo. A. C. LaFleur, Providence, R. I.

What do you think of this—you men who doubt—you stay fat—because you want to think that nature made you that way.

You're all wrong—most fat men were made fat because of their ability to handle a knife and fork in a business like manner.

Be frank with yourself. Are you too timid to take a safe, harmless conditioner that not only takes off surplus fat but is so helpful that it makes you feel years younger?

To reduce safely take one-half teaspoonful of Kruschen in a glass of hot water before breakfast every morning—cut down on fatty meats, potatoes and sweets. Kruschen is sold by druggists the world over. A jar that costs but a trifle will last four weeks—but be sure you get Kruschen—your health comes first.

A fish story that may possibly be true comes from Port Jefferson, N. Y. Two anglers fished with worms for several hours without much luck, because the fish stole their bait as fast as it was thrown into the water. Finally the fishermen began baiting their hooks with chewing gum and soon hauled a big catch.—Exchange.

There may be some difference of opinion as to whether men descended from the monkeys, but there isn't much doubt about the fact that men often make monkeys out of themselves.

WHY NOT LET UNCLE SAM SELL GROCERIES?

Why should Uncle Sam sell a commodity or service such as printing in competition with local, privately owned, tax-paying printing plants?

Why should 15,000 post offices be used as order takers for a service that is not an essential function of the post office department or a necessary service in handling the mails?

The reason for raising these questions is that Uncle Sam offers to print return cards on stamped envelopes. With a "local dealer," or sales agency, in the United States post office located in every center of population in the land, Uncle Sam does a volume of printing business that enables him to offer customers a ridiculous low price. The orders for printed stamped envelopes total a billion and a half a year—over 4,000,000 for each of the 365 days in the year.

The purchasers of this service offered by Uncle Sam are not the "common people," some of whom address letters improperly and thereby contribute to the cost of maintaining the dead letter office. Banks, retail merchants, professional men, manufacturers, the public schools, colleges, fraternal organizations—all depend upon prosperous towns, home trade, local payrolls, taxpayers able to pay their taxes—these constitute the customers who take advantage of Uncle Sam's bargain price on printing envelopes.

If it's O. K. for Uncle Sam to sell printing, why not extend a good thing and insist that he add to his line and thus serve a larger number of post office patrons? Why not add a grocer's apron to the printer's apron Uncle Sam now wears? Why not sell breakfast food, evaporated milk, butter, shoes, drugs, dry goods, clothing, et cetera, over the post office counter?

Unless Uncle Sam quits the printing business, printers should obtain signatures from post office patrons to a petition demanding that the post office department sell not only printing—that accommodates only a limited number of customers—but other products. Think of the saving in price that would be possible through enormous volume and frequent turnovers! And Uncle Sam is lucky; he doesn't have to pay taxes!—(Chester Herald-Tribune)

000 Texans go each year to Carlsbad Cavern at large expense, both for travel and for admission to the Cavern, it will readily be seen that a cavern in Texas of anything like the proportion of the Carlsbad cave, will soon attract to it every Texan able to make the trip and see this great wonder of his own state.

Estimates of out-of-state attendance at the Texas Centennial in 1936 range from twenty to twenty-five million, and every visitor to the State that year, wherever the exposition may be held, will be tempted to visit this great underground wonder of the world, creating a huge volume of travel over all the highways leading to it.

The cave is the property of the State of Texas, being one of the State parks, and will be beautified in a way to make it vastly attractive before the opening of the Centennial celebration.—Hico News-Review.
