

GIRL "JUDGE" TO QUIT FEDERAL COURT "BENCH"

U. S. Commissioner's Secretary and Friend To Take Part In Double Wedding In Ecuador, Then Live In Peru

Miss Leila Faulkner, the "little judge" of United States Commissioner McMahon's office, is going to forget bonds, bootleggers and other federal court business and take up the responsibilities of home in Peru for "the lucky young man," who is R. E. Perry, an International Petroleum Company employe.

The "little judge" is going to change her jurisdiction. For more than a year Miss Leila Faulkner, the diminutive young woman who holds that honorary title in federal circles, has acted as secretary to United States Commissioner McMahon. The big parade of bootleggers, dope addicts and other federal law violators pass through the commissioner's office. The "little judge" writes up the complaints and keeps tabs on bonds and bondsmen.

Amiability and efficiency won her title.

She keeps order with reports that is apt to be every bit as good as the wily ones reads, and keeps court running smoothly with unflinching good humor.

But next week she will quit the bench. On April 30 she and a young woman friend, Miss Leona Strauss of Los Angeles, will sail from New York for South America.

Both will carry heavy luggage, for they are going to set up housekeeping in Negritos, Peru.

R. E. Perry, the "lucky judge's" fiancé, and Curtis Carroll, Miss

Strauss' fiancé, will meet them in Guayaquil, Ecuador. The American consul will perform the double wedding ceremony.

The two couples then will go to Negritos, where Perry and Carroll are employed by the International Petroleum Company. (Houston Post, April 11, 1932.)

The above appeared in the Houston Post of Monday, April 11th, and the subject is a well known Santa Anna girl. Miss Leila is the charming daughter of Mr. and Mrs. G. W. Faulkner of this city. She is a native of Santa Anna and a graduate of Santa Anna high school of the class of 1926. She also received her degree from Southern Methodist University, Dallas, later going to Houston and accepting the very responsible position in the office of the United States Commissioner.

Miss Leila visited her parents and other relatives here last week, before leaving on her long journey. She sailed from Houston Monday for New York, where she will embark Saturday of this week for her new home in South America.

Mr. Perry formerly lived in Coleman, where his mother still resides. The happy young couple were sweethearts during their tenure in S. M. U.

Friends here will join in extending good wishes for a successful and happy climax to their rich romance, lasting over a period of years.

RUPTURE

SHIELD EXPERT HERE

H. M. SHEVNAN, widely known expert of Chicago, will personally be at the Brownwood Hotel, Brownwood, Thursday and Friday only, May 5th and 6th, from 9 A. M. to 5 P. M.

Dr. Shevnan says: The Zort's Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly but increases the circulation, strengthens the weakened parts, thereby closes the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume no matter the size or location. A nationally known scientific method. No under straps or cumbersome appliance pads and absolutely no medicines or medical treatment.

Dr. Shevnan will be glad to demonstrate without charge or fee them if desired. Add. 6535 North Talman Avenue, Chicago. For 15 years assistant to P. H. Beeley, famous rupture expert of Chicago.

Sweetwater Is Making Plans To Entertain WTCC

Governor Sterling Will Speak At 14th Annual Convention, May 12-13-14

The officers and directors of the West Texas Chamber of Commerce, joined by local talent in Sweetwater, are making great preparations for the entertaining of the several thousand visitors who will attend the 14th annual convention there, May 12, 13 and 14.

Governor Ross S. Sterling will be among the speakers on the opening day, Thursday, May 12.

The one hundred and fourteen directors are being called upon to actively participate in the preparations.

Seven ways in which the directors are asked to assist are as follows: (1) secure the nomination of directors in the affiliated towns to be elected for the next fiscal year; (2) obtain participants in the My Home Town Speaking Contest; (3) have the local chamber of commerce in each town to place an exhibit advertising the town in the exhibit hall at the convention; (4) name a Gypsy Girl from each town to participate in the Gypsy Girl Revue to be given during the convention; (5) have local public expenditures and taxation committees attend the public expenditures and taxation group conferences being held by the central committee on two days of the convention; (6) have local beautification committee to participate in the West Texas beautification group conference to be held at the convention; and (7) have livestock and agricultural interests of the towns represented at the agricultural group conference.

The directors will be guests at a luncheon in their honor to be given on the second day of the convention at which Houston Harte, president of the regional organization, will be the principal speaker. Mr. Harte will emphasize the duties of the directors, and the part they have

THE TURKEY EGGS ARE COMING IN!

Recently a happy thought occurred to us and we decided to pass it on to our readers. It occurred to us that it might be a favor to some of our subscribers if we would accept turkey eggs in payment for their paper. Last week we made the announcement and the result has far exceeded our expectation. Several have brought us eggs by the dozen and others in other numbers. This is to advise that the offer still stands, and we will continue to accept turkey eggs on subscription at \$2.00 per dozen. This is your opportunity, but this offer must be withdrawn soon. If you have some extra turkey eggs and know them to be fresh and fertile, bring them in and get credit for two years subscription for each dozen eggs.

In the success of the work program of the West Texas Chamber. D. A. Clark, Sweetwater's director, will be toastmaster at the luncheon.

Mrs. F. B. Shaw Dies At Home

Mrs. Fannie B. Shaw, 72, passed away at her home near Jordan Springs on Wednesday morning, April 13th, after a long illness. She had been living in Brown county for 27 years and was well known and highly respected by a wide circle of friends.

Funeral services were held at Bangs Thursday morning at 11 o'clock at the Church of Christ, Elder Mosier of Coleman officiating. Interment was made in Bangs cemetery.

Mrs. Shaw made her home in Bangs for several years before moving to Jordan Springs community and has many friends in this section of the country. She is survived by two children, S. B. Shaw and Mrs. Earl Fitzgerald, both of Jordan Springs community. Another son, Seth S. Shaw, lost his life in the World War.

As We Sit and Think
(Sometimes Just SIT)

The editor accepted the courtesy of Rev. M. L. Womack to ride in the family car last week to Junction, for the district meeting of Lions Clubs of Group 22 District 2-A. We joined the preacher, who was accompanied by his good wife and son, Ernest Lee, at our gate early Wednesday morning, and had a very delightful trip over to Junction, where we greatly enjoyed the hospitality of the Junction Lions and the citizenship of Junction in general. Santa Anna won the prize, a beautiful banner, for having the largest percentage of her members present at the convention, and is now hailed as "The Go-Getter Club."

Julien C. Hyer, International President, was the principal speaker of the day, and delivered another of those masterful addresses. It makes a Lion feel good to hear the International President tell what wonderful work the Lions are doing over the country.

After the business hour, the preacher and his party, including the editor, left Junction for the famous Alamo City. The drive from Junction through the hill country by way of Kerrville, was very picturesque. A portion of the roads were under repair, necessitating several detours, but rough roads could not fully mar the pleasure of seeing that beautiful hill country with its budding spring boat of scenery.

Arriving in San Antonio late in the evening, the preacher and his splendid family, drove out to the home of a relative, with the editor took up domicile in one of San Antonio's hotels. Being tired from the day's long journey and the activities at the convention in Junction, we soon retired for the night and a much needed rest.

Thursday morning, shortly after emerging from our room, we made for a barber shop and was lucky again to run into our good friend, W. T. Wheatley, who soon had our face in a more presentable appearance. Later in the day, after we had completed a routine of work, we called back at the shop for a little rest, and was advised that Tom, Jr., was taking advantage of the school holiday and left for Waco to spend the week-end, and we were invited to share Mr. Wheatley's apartment with him for the remainder of our stay in the Alamo City, which we accepted with pleasure.

The South Texas Press Association met in the city Friday for a two-day session, and we would have been delighted to stay over for the convention, but the party was ready to return home and kind enough to make it convenient for us to return with them, so we left the convention and made our journey home Friday afternoon. The only way we could have made such a trip, ride eat and sleep, was at the other fellow's expense.

We found in our rounds that people are trying to adjust themselves to the prevailing conditions and set a new pace for economical living in the future. In this connection, we are reminded of the utterance of former President Woodrow Wilson, who once said:

"America's economic salvation depends upon her spiritual redemption." This was not an expression from a religionist—but the utterance of a profound economist. We did not heed his words, and collapse was inevitable.

"Good Cheer" comes from within the soul; it is a moral and spiritual quality.

"These moral and spiritual qualities are essential to thrift of mind, body and the material resources we handle and control. Therefore, the admonition to 'Cheer Up' and rise above our material surroundings is timely and appropriate for spring time,

especially. "As the spiritual and mental powers do increase proportionately material conditions will be improved, for it is man's mission and destiny to have power and dominion over the world to subdue it and control it and it shall be unto him for meat."

"Of all times of the year, spring time is the time to rise up from depression, overcome gloom and take on new hope and courage.

"The whole of nature is assuming an atmosphere of 'Good Cheer'. On every hand life is bursting anew from the gloom and depression of winter. In rising sap, budding leaf, greenening fields, blooming flowers, is seen the Spirit of earth's Creator in resurrecting power.

"In mating animals, in home-building birds and their migratory flights and the ringing song from field and forest, we see and hear and feel life's recreating power.

"In the kicking, squirming, squealing, tiny baby, in the flashing bright eyes, the pink cheeks and laughing lips and playhouses of our little boys and girls, and in the busy bustle and romp and merriment of our school folks, we sense the beginning of a 'new heaven and a new earth'.

"Adult man and woman alone shall not be left out of all this return to new life, but are now and will continue to respond to the resurrecting forces at work, and most of them will 'Cheer Up' regardless of conditions. Then, too, conditions will every day become better as they do so.

"New spring and fountain heads of resources are being discovered in human hearts. New foundations are being laid deeper and better than before. New plans and better programs for simpler and saner living are being formulated and adopted. New hope and better courage are being engendered by these very times of hardships. A new national-life as well as individual is being born."

Some people seem to hink they have any thing to do but work editor of a country weekly don't have anything to do but work and should always take his pay in glory. Well, we like our work, are thoroughly sold to our job, and if we could pay our bills in glory, just plain old glory, we might be willing to accept a portion of our pay in like manner, but in as much as bills cannot be paid in anything but cash, we find it necessary to make a little charge for some of the services we render. In fact, our advertising space is our stock in trade, and if we did not think our services well worth the price charged we would cut our overhead to where we could render service worthwhile and change our tactics. When you have advertising, and know it to be advertising, and the only object you have in getting it published is for monetary gain, don't bother us with it unless you expect to run it as an advertisement and like to pay for it.

There are several different kinds of dogs in the world. Some are big, some are small, some are big dogs and have some value, while some are just dogs without any breeding. Just plain pot-bellied hounds are the class of dogs most despised of any, and some people remind us of just such hounds. We believe in the human race; we believe in mankind; we believe in well doing and elevations in thought; but some people, apparently, never advance an elevated thought or try to elevate mankind. People usually get pay for what they do. If they do good in this world their pay comes in the satisfaction of having done a good deed, but if they do an un-becoming, their pay comes in misery. We suggest you think right do right, act their pay comes in misery. We suggest you think right, do right, act right, and keep your conscience clear.

SUNDAY SCHOOL LESSON

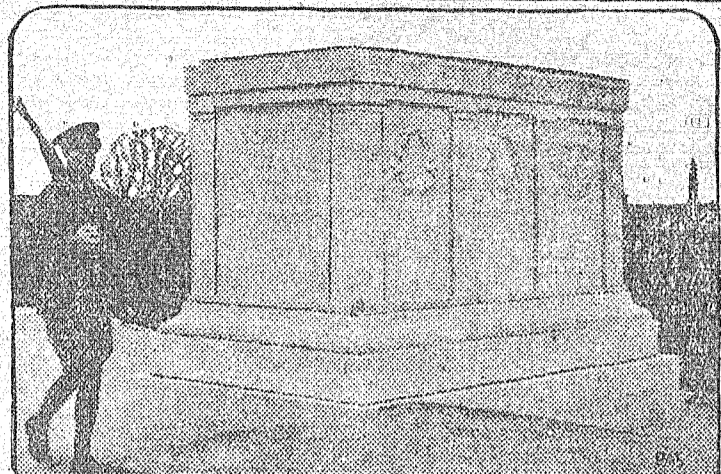

by REV. SAMUEL D. PRICE, D.D.

International Sunday School Lesson for May 1
ISAAC AND HIS WELLS
Genesis 26:12-25

Isaac, the son of Abraham and father of Jacob, is just an average man in comparison. There is, however, much that is interesting in this patriarch. He was the son of promise and was born when Abram was close to the century mark. The tragic event in his life is when he was about to be offered up as a sacrifice by the father on Mount Moriah, in Jerusalem, which later became the sight of the Temple, Genesis 22:3-14. A fine love story is developed when a proxy is sent back to the old home country to get a wife for Isaac. Rebekah is the fair maid who was found by the side of the well. It is interesting to note that likeness to the love of Isaac and Rebekah is mentioned in the marriage service of today.
Great herds of cattle and flocks

of sheep were the possession of this progenitor of the Hebrew race. These animals needed water and prolonged strife developed over this with the Philistines who were the earlier inhabitants in the land. Abraham had dug numerous wells in his day but the Philistines, out of pure contrariness filled up these sources of water supply. Thereby they endangered their own cattle. Now read through the lesson text and see how Isaac departed from Abimelech rather than create trouble by insisting on his rights at the water supplies. Then, in turn, three wells were dug as he migrated but in two cases the watchful enemy managed to fill up the holes. A name is given to each well which describes the trouble that took place. Finally a well was dug at Rehoboth and the gentle patience of Isaac was rewarded for trouble ceased at that point. The Golden Text is rich in its meaning and declares: "A soft answer turneth away wrath; but a grievous word stirreth up anger," Proverbs 15:1.

A Balanced Program for Safe Farming

The individual farmer has it in his power to greatly improve his own living conditions and assure at least some measure of security and profit by a program of balanced farming.

The experience of the past few years proves that the Southern States, as a whole, are out of balance in their system of agriculture, and something must be done at once if the farmers of the South are to be saved from the most disastrous condition in our history.

Live stock, chickens, feed and home gardens, in addition to the main cash crop, constitute a program of balanced farming that will assure a harvest of rich rewards to the individual farmer, his community and to the South generally.

ALGERIA

THE STALK IS SWEET, CONTAINING A LARGE AMOUNT OF SUGAR, AND LIVESTOCK EAT THE ENTIRE STALK WITH RELISH. STALK GROWS FROM 4 TO 5 FEET TALL, WITH 15 TO 20 HEAVY LEAVES. THE HEADS ARE 12 TO 18 INCHES IN LENGTH, AND WEIGH FROM 3/4-LB. TO 1-LB. PER HEAD. THE GRAIN IS LARGER THAN MAIZE AND MUCH SOFTER. THE PLANT STOOLES OUT WELL AND MAKES SEVERAL STALKS.

The following is a brief account of my experience with ALGERIA in 1931:

I purchased 40 pounds of ALGERIA seed in the Spring of 1931, and planted it on about 9 acres. I intended to plant 5 pounds to the acre, but did not plant more than 4 or 4 1/2 lbs. per acre. The soil was fairly good, but it was planted late. The land was bedded and planted the third week in May. The only rain we had after April 28 was on June 9, until after the feed was harvested. I gathered about 15 tons of heads from the 9 acres. I have never fed a better bundle feed than the bundles cut with a row binder. Stock relish my bundle feed and eat it all. ALGERIA has roots similar to corn, except they grow straight down. I found ALGERIA to be the greatest drouth resister of any of the eight varieties planted in 1931.

Agents are selling ALGERIA seed for 25c, 50c, 75c and some are taking orders for the seed for as much as \$1.00 per pound. I paid a high price for my seed, but, under the circumstances, I will offer it for sale at only 6c per lb.

Several of the merchants have agreed to sell ALGERIA seed for me, and the seed will soon be placed on sale in Santa Anna and Coleman.

We took first and second prizes at the Coleman County Fair last Fall.

Precinct chairmen will be held in May for the purpose of electing delegates to the county convention to be held May 10th. The county convention will elect delegates to the state convention to be convened May 24 and the state convention will elect delegates to the national convention to be held in Chicago in June.

An effort will be made at the state convention to select a delegation to the national convention pledged to support Congressman Garner as long as his name shall appear before the convention.

Reports from other states indicate the Garner boom is growing and if the split between Governor Franklin D. Roosevelt and Alfred E. Smith continues there is a very good chance for the native Texan to receive the nomination and become democracy's standard bearer. William Gibbs McAdoo, titular head of the dry forces in the United States, is a staunch friend of Garner and is stumping California in the Texan's behalf and has promised a delegation to the national convention from there favorable to the nomination of Garner, and other distinguished members of the late President Wilson's cabinet. —(Coleman Democrat-Voice.)

ASK YOURSELF

Am I hitched up right, or am I a round peg in a square hole?
Am I backing up my chance in life in every possible way, or am I sliding along the lines of least resistance?
Am I strengthening my weak points making my strong points stronger, and eliminating the things which are keeping me back, the enemies of my success?
Have I the initiative which brings things without being told to; which does things without waiting for others' instruction?
Do I dare to attempt the thing I instinctively feel capable of doing and I know that I ought to do?
Do I try to develop that bigger man back of the smaller man I am by obeying the God-urge that ever bids me up and on to greater endeavors?
If you can answer the above questions in the right way, you will bring out a hundred per cent of your ability instead of the fifty per cent that the majority of young men are content to develop; you will attain your ambition and be what you long to be.

TICKET SALE ON

Classes are busy selling tickets for the senior play, "The College Hobo."
The seniors have offered a free ticket to the individual in each class who sells as many as five.
The class has worked hard and hopes to realize a representative sum from the play, thereby enabling them to leave a needed gift to S. A. H. S.
Come aid these boys and girls in their loyalty campaign!

TESTS POSTPONED

Four tests, the first one to be given last Monday, were to determine the winner of the bronze medal for this year. Now, however, the tests are postponed indefinitely, due to the illness of Mrs. Bartlett, history teacher.
It is not known when Mrs. Bartlett will be back at school; but the students are hoping it will not be long. Mrs. Leeper Gay is teaching in Mrs. Bartlett's place.

SOPHOMORE DEBATING

Being able to reason is a great accomplishment. The Sophomores have found that anything can be proved true by inductive or deductive methods. But these methods of proof have possible errors—in assuming a thing to be true, and insufficient evidence.
In our debates we are to weigh facts carefully before presenting any definite conclusions. We believe that good citizenship depends largely on deliberation and decision.

SOMETHING ABOUT SENIORS

- Elsworth Brandon is a student who has traveled many miles to get his education and has been very faithful to his class and football team.
- Robert Curry has not only kept up with his school activities but has been a faithful worker on the football team for the past two years.
- Ruby Davis, although she does have red hair, is sweet-tempered. She has always been loyal and faithful to her school and her friends.
- Wilma Davis is quiet and demure and liked by all. She is very studious and serious minded (oh, yeah!).
- Morell Dick is a cheerful boy and is kind to everyone. Morell means well.
- Mary Ola Dockery has been in this class just this year but is a friend to all. She comes here from Cross Roads.
- Mattie Ella Estes is a very studious girl. She is one of our class members from Rockwood.
- Besse Evans is an honor roll student. She is secretary-treasurer of the Senior Class. Besse has been a member of this group since she was in the second grade.
- Clay Fletcher has only been in the class this year, but he has proved to be a co-operative senior.

CUP FOR GIRLS

Mrs. Comer Blue, our jeweler, has generously offered a loving cup to the girl in high school who wins the greatest number of honors during the year. This applies to regular school work and all extra curricula activities. We appreciate Mrs. Blue's kindness and feel that her interest will cause many to strive for the lovely symbol of good sportsmanship.

Richland Springs High School Changes Its Name

Richland Springs High School has changed the name to W. H. Gibbons High School, in memory of W. H. Gibbons, a pioneer of Richland Springs.
Mr. Gibbons has had a large share in building of the town and maintaining the school of the district and also supporting the officials of the school.

A GREEN ROSE!

Students have been interested in a truly green rose, which is growing in Mrs. Wallace's yard. Groups have stopped to view this freak of nature, and marvel at the size and shape of the petals. Indeed, Mother Nature speaks "a varied language."

INITIATIVE

Initiative was studied and discussed by sophomore and senior girls in the study hall and sophomore and senior boys in the auditorium, last Monday morning.

Elbert Hubbard's definition, which is "Doing the right thing with out being told," was accepted as the best.
The last topic to be studied by these character Education groups is Thrift.

D. D. C. IS ORGANIZED

D. D. C., Dandy Debater's Club, was organized Friday by English II class. Armenta Ragsdale was elected president, Robert Hunter, secretary, and Irene Rountree, reporter. The president appointed Lena Jane Bartlett, Alberta Banks, and Samuel Everett to choose the subjects for the debates.
In this club the students will learn to reason correctly and to stop noises which lead to the gossip's haven.

RESTFUL SLEEP
for FRETFUL,
FEVERISH CHILD
—With Castoria's regulator

When your child tosses and cries out in his sleep, it means he is not comfortable. Very often the trouble is that poisonous waste matter is not being carried off as it should be. Bowels need help—mild, gentle help—but effective. Just the kind Castoria gives. Castoria is a pure vegetable preparation made specially for children's ailments. It contains no harsh, harmful drugs, no narcotics. Don't let your child's rest—and your own—be interrupted. A prompt dose of Castoria will urge stubborn little bowels to act. Then relaxed comfort and restful sleep! Genuine Castoria always has the name:

YES OR NO

DO YOU KNOW THAT:
Students received a half holiday Tuesday?
Freshmen had a picnic Wednesday?
Leon Ward won second place in both tennis and declamations at the district meet?
Bess Inez won second place in tennis?
The track meet was held Tuesday?
The Senior play will be given Friday night?
Only three weeks of real school work are left, as the last week is to be devoted to exams and to Graduation Night?
A cup has been offered by Mrs. Comer Blue to be given each year to the girl in high school who makes the highest average for the year?

SENIOR CLASS NEWS

Seniors are proud to report that they had more students on the honor roll than any other class. Seniors are working hard so that they may graduate either with honors or without.

An invitation was received by the senior class last week to attend the Junior Prom at Howard Payne College May 6th. Seniors appreciate this invitation and hope that they will be able to accept.

Work is going on for the senior class play, "A College Hobo." Characters are learning to do their roles very well and are ready to present it.

TRACK MEET

Track events of this district were postponed from last Saturday until this week because of the muddy field. Because so many were anxious to attend, the periods were cut short so that the students and teachers could get to the meet in time for the finals at three P. M. The meet was held in Brownwood.

SPRING

Do you enjoy beauty? Drive by the high school and "let your illumined being overrun with the deluge of summer" it will receive.

Everything is in harmony. The grass, shrubs, ivy and children feel an impulse that "reaches and towers."

The songs of birds mingle with plans of boys and girls.

We agree with Tennyson: "In the spring a lark's first changes on the burnished dove—
In spring, a young man's fancy lightly turns to thoughts of love"

Beth Barnes will represent the Freshman class on the next P.-T.A. program, discussing the subject: "Benefits Derived from a Definite Character Education Program."

Clete Pope visited the high school Monday morning.

Alton Eblevins of San Antonio visited school Monday. He has a leave of absence from his repair headquarters. We are all

ways glad to have ex-students visit us.

June Bond of Texas Woman's College, Fort Worth, had as her guest Miss Catherine Maully during the week-end. June was crowned Freshman Queen of the college last week.

Robert Hunter will represent the Sophomore Class on the P.-T.A. program next Tuesday afternoon. Irene Rountree will write the essay which Robert, as class speaker, will deliver.

A flea and an elephant walked side by side over a little bridge. Said the flea to the elephant: "er sure had crossed it, "Boy, we sure did shake that thing!"

FAILURE

E. A. Guest

Failure's just a resting-place
On the road of try again;
Just a slackening of the pace
And a pause for sturdy men,
Just a temporary halt
On the march to wealth and fame,

Where you can correct the fault
And go on to play the game,
Failure's not a thing to dread,
It is just a hint to you,
Ere you dash too far ahead,
To be careful what you do,
It's the side-track where you wait

For the passing fast express,
Get up steam! The run is straight
Our failure, railroad to success.

CONSISTENT COOKERY . . .
with a Modern Electric Range

You CAN eliminate the disappointment of cooking "failures" . . . can be assured always of perfectly cooked, attractive and appetizing foods . . . can feel secure in the knowledge that your every meal will please the most particular—by entrusting your cooking responsibilities to the never-failing Electric Range!

Results obtained this modern way are ever the same, because Electric Cookery is scientifically accurate and controlled. Thus, perfect results always can be duplicated. You merely set the controls at the proper point each time—and uniformly delicious meals are produced automatically.

. . . And you will find that when meals are cooked electrically foods won't bake dry, flavors are not lost, sauces do not dry up, breads and cakes bake evenly, and roasts are done to juicy perfection. And because of controlled electric heat and the use of a minimum amount of water, your foods will contain all the vital mineral salts, soda ash and vitamins necessary to proper body tone.

Call in at the Merchandise Showroom and ask to see the new Hotpoint Ranges. They are moderately priced, and a convenient payment plan simplifies immediate purchase. Profit by Electric Cookery advantages, benefits and economies without delay. Call a salesman now.

Call us for an individual investigation of your use of electric service, to determine the cost of cooking by electricity in your home. You may be surprised to know that there are many cases where electric cookery actually decreases the total of electric and gas bills.

Planting Seed!

I have a few clean, first year run LANKART COTTON SEED at 50c per bushel. I will bring the seed to Santa Anna or will fill your orders at my home, 5 miles north of Rockwood, in the late afternoons. I also have plenty of ALGERIA SEED, and do not hesitate to recommend it as being the best all-purpose feed I have ever seen grow in Coleman county. Fine, large heads, and the stalks make fine bundle feed. Highly recommended for its drou h resisting qualities. Any orders filled, large or small, at 5c per pound.
