SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY OCTOBER 24, 1930

NUMBER 45

SENATOR WOODWARD AUTHOR OF PROPOSED AMENDMENT MERCHANTS OFFER REAL SPECIALS ON LAST MERIT DAY

Would Regulate Salaries and Terms in Step With More Modern Times

Coleman, Texas, Oct. 23.—Senator Walter C. Woodward, author of the Constitutional Amendments affecting the terms and salaries of the Legislature, discussed the proposed changes in an address here today. He described the difficulties that are inherent in the present Legislature procedure, and outlined the course of legislation showing how the pending Amendments would enable the Legislature to expedite its work and permit interested citizens to be more effectively heard by committees. He said the Amendments would bring about more careful legislation, prevent numerous special sessions, and reduce the expense of the Legislature. His address in part, follows:

"Under our present Constitution, a regular session of the Legislature may continue twelve months, there being no time limit. The Constitution fixes the per diem of legislators at \$5.00 per day for the first sixty days of a Regular Session and thereafter after the pay is reduced to \$2.00 per day. It provides for Special Sessions whenever the Governor sees fit to re-convene the Legislature in Special Session and the diem of the Legislature is \$5.00 per day.

"The result, or rather the effect under the present Constitution is that Regular Sessions never extend longer than sixty days except once in awhile, three or four additional days will be taken by the members in order

to wind up pending measures. This means that Special Sessions are frequently called by the Governor and the result is that the Legislature does not conclude its work during the Regular Session but depends upon Special Sessions. Special Sessions are limited to thirty days. In addition to the per diem which is paid members of the Legislature, per mile in going and returning from each regular Session and they now receive twenty cents each Special Session when the Special Session is called later than one day after adjournment of the preceding session.

Under the Amendments it is proposed to have a Regular Session of not to exceed one hundred twenty days; that the first thirty days be devoted to the introduction of bills, acting upon the appointments of the Governor and emergency matters. The following thirty days is devoted to committee hearings during which period the public may keep informed as to what's going on in and about the Legislature and have ample time within which to appear before the various committees and discuss legislative matters and during which period the Press of Texas will have ample opportunity to inform the reading public as to the merits or demerits of pending legislation and during the last sixty days or so much thereof as is necessary, action will be taken upon bills which have been in-

JUNIOR MOUNTAINEERS LOSE TO COLEMAN KITTENS HERE 18-12

Santa Anna Grammar School football team was defeated by the football team of the Coleman South Ward. Five touch-downs were made. Coleman making three of them. Both teams played a good game.

Wallace made the two touch-downs for us. A complete pass was made by both sides.

The line up was:

Santa Anna
Pittard, left end; Tabor, left guard; Baird, right guard; Taylor, right half; Snook, left half; Wallace, fullback; Brewer, center; Powell, left tackle; Oakes, right tackle; Cheney, right end; Jones, quarterback.

Here on Business
Judge-elect O. A. Newman of Coleman had business in our city Monday.

Visits in Santa Anna
Judge S. J. Pieratt of Coleman was a visitor in Santa Anna, Monday.

WARD SCHOOL P. T. A.

Ward School P. T. A. met Oct. 7, with 37 mothers, 11 teachers and a number of children present. Mrs. Mathews urges more mothers to be present Tuesday November 4.

A group of seventh grade students presented a fire prevention play, which was instructive as well as entertaining.

Through the hearty co-operation of Mrs. Sealy, Lovelady, McDonald and Tyson it has been made possible for us to conduct a clinic at the Ward Building each Monday afternoon until each child is examined. Mrs. Harris, health chairman, explained the necessity of parents co-operation with these doctors who are giving their time to our children.

Mr. Byrne made a talk on our school equipment which was encouraging.

Ladies, keep a quarter on hand because sooner or later Mrs. Clifford Verner's market basket will reach you.

Santa Anna Boy Football Fan

Weatherford, Okla., October 16.—The enthusiasm of A. D. Donham, cheer leader at Southwestern State Teachers college, led last Friday to a rather unique case of stowing away. On the way to Ada, where the Bulldogs were going to engage the East Central State Teachers college, Tigers, in a game of football, someone found Donham hid under the football clothes, a stow-away.

"I wanted to see that football game" was Donham's only explanation of the reason for his being in the athletic bus.

Coming here from Santa Anna, Texas, Donham has in only a month's time made himself one of the best known students on the campus.

Visits From Winters
Miss Fay Donham of Winters was a guest in the home of relatives here last week-end.

Here From Ft. Worth
Bob Moore of Fort. Worth was a business visitor here Saturday.

Santa Anna Boy Hon. at Trinity

Waxahachie, Oct. 24.—Ernest Womack of Santa Anna qualified for membership in the Players Club of Trinity University by tryouts recently held here.

The Players Club, which is composed of those students talented and interested in dramatic arts, is one of the largest and most active organizations on the campus. Making the club is considered quite an honor as only thirty new members were selected from sixty who tried out.

Three full length plays are presented during the year and two one-act plays are given each month for laboratory work. The club is also a member of the Texas Little Theatre Association and sends a play to the Little Theatre tournament each year.

Ernest is a son of Pastor and Mrs. M. L. Womack of the N. S. A. Presbyterian Church and we congratulate them on the showing their son is making in the University.

President State Federation Woman's Club Favors Amendment

Support of the pending constitutional amendments was termed a civic duty by Mrs. R. F. Lindsey, president of the Texas Federation of Woman's Clubs. Mrs. Lindsey says:

"The constitution amendments that have been submitted to be voted on in the general election will result in wholesome and desired changes in our fundamental law, and I hope that the voters of Texas, both men and women, will not be negligent of the civic duty that good citizenship imposed upon them, but vote without regard to party or factional differences for these wholesome changes.

"The amendment enabling the Supreme Court to sit at any time has long been needed. The measure permitting the taxing of university lands by the counties in which they are situated meets a just need, and the one broadening the investment field for university funds will increase the income of this institution. The legislative amendments, providing as they do for an improved legislative procedure and for more appropriate salaries, are deserving of passage."

TEXAS UNIVERSITY TO MEET ENGLISH IN DEBATE AT AUSTIN

Debatists representing the University of Texas will meet a debate team from England in Austin on December 15, with the British supporting the affirmative side of the subject. "Resolved, That the Principles of Democracy Have Been Tried and Found Wanting." The English team will be composed of B. J. Crehan of the University of Liverpool and B. Hope Elletson of Oxford University.

Other debates tentatively scheduled for the University include contests with the University of Missouri, the University of Colorado, the University of Oklahoma and perhaps the University of Kansas and the University of North Carolina in Austin, and

with the University of Kansas, the University of Louisiana and perhaps Tulane University and another Southern team away from home.

Monday is Gala Day For Navy

Monday, October 26th is Navy Day, the one day in the year which has been set aside to better acquaint the American people with their Navy, its wonderful history, its peace time missions and its ships and men. It is fitting that the birthday of President Theodore Roosevelt has been designated as the day on which to celebrate. On this date also is the anniversary of the first resolution to authorize American War ships that was introduced into Continental Congress (1775).

In order to fittingly celebrate the occasion, the entire United States Fleet is divided, and ships singly and in groups, are sent to all sea ports. Flags are flown from every mast head. Parades of Bluejackets march the streets ashore and all ships are thrown open for inspection by their shareholders, the American people.

Moves to California

Rev. J. W. West and wife and two daughters Misses Cula and Juanita, left this week for Fresno California to make their future home. They have lived there before and have a daughter living there. This family will be greatly missed in Santa Anna, where they have been active in every good work.

Visits at M. E. Parsonage
Rev. and Mrs. Lightfoot and children of Coleman were visitors at the Methodist Parsonage Monday.

Prices at Lowest Level in Many Years; Specials Offered are Real Bargains

This is the last time the merchants will advertise the Merit specials. Many wonderful bargains have been offered to the people of Santa Anna in the past few months because of this Merit Special advertising, but none more striking than the ones offered this week.

The News as the first one on the roll gives a clubbing offer with Semi Weekly Farm News and will extend this offer with The Star Telegram later. Mathews Motor Company says real bargains in Used cars. Everyone is looking for bargains and they invite you to look their Used cars over. No. 3 is one of the pioneer firms of the city and has been able to stay in business here because of the excellent service they have given and the true worth of their merchandise. No. 4 is a next door neighbor of No. 3 and is also a pioneer in business here. No one could question this bargain offered. One Lumber Company offers something for your home, other something for your chickens; read both ads. Mrs. Comer Blue is Number 24. The ladies will be interested in what she has to say. And be sure to look at Mrs. Shockley's special. Did you ever see a better one? She is No. 9. Phillip's Drug No. 12 advertises a novelty merchandise and The Corner Drug No. 8 says

theirs is reasonable. No. 10 offers help to hunters. No. 14, 23 and 17 offer aid to all of us. Ragsdale Bakery makes a specialty of making good things to eat. Try them. Mr. Pittard will sell a Feed Mill along with what he has advertised at a real bargain. See him today, if you are interested. All men should read Baxter's Variety Store ad. Purdy Mercantile Co. has two specials. Have your radio tubes tested. See W. C. Ford & Son about them. Number 13 is going to be a lot of help to the ladies. No. 15 comes away down on the price of two important house keeping items. No. 21, 6 and 7 are firms who have offered their service and merchandise to the Santa Anna people for years, as a "special". They hope to continue to do so. It has been a pleasure for the merchants to offer these special prices to you and they hope you have profited greatly by them.

Attends Funeral
M. D. Eubank and family were in Ellis county last week to attend the funeral of his brother's wife.

Spends Day in Brownwood
Mrs. E. E. Chambers and Othia Croft, attended the funeral of Mrs. John H. Barber at Brownwood Monday.

SANTA ANNA LIONS CLUB HOLDS INTERESTING MEETING TUESDAY

The regular weekly meeting of the Lions Club Tuesday at noon was well attended and the business program was warm with enthusiasm.

Chief Executive Ed. Shumway of the Chisholm Trail Area, Boy Scouts, J. W. Weems and Byron England, committeemen of Abilene, were all here on a goodwill trip in the interest of the Boy Scout program in this area.

The Boy Scout work in this section has made progress and much good has been accomplished, but the Scout Masters are calling for help. Men are needed as well as finances, and those who are leading in the work are in need of your help and co-operation.

N. P. Woodruff Funeral Here Wed.

One of the old settlers of Santa Anna passed to his final reward Tuesday night when the death messenger came to N. P. Woodruff who had been in failing health for a year or more, being confined more or less to his home for the past three or four months.

Nicholas Pierre Woodruff was born in Penola County, Mississippi, August 12, 1854, being 76 years, 2 months, and 9 days old at death. Mr. Woodruff came to Texas in 1875 first settling in Lamar County where he resided for about one year, then moving to Bell County where he lived until 1898 when he came to Coleman County. He has lived in and around Santa Anna for the past 32 years and was well and favorably known by the majority of our citizens.

He was married to Miss Mattie Mills December 10, 1882. Five children were born to this union namely: Charlie Woodruff, of Coleman; Mrs. W. H. Culver, of Corpus Christi; Pinckney Woodruff, of Brownwood; Earl Woodruff, deceased since 1900; and Judge Woodruff, of Corpus Christi. Besides the companion and children there are four grand children and other relatives to mourn his going.

Mr. Woodruff was converted when about 21 years old and united with the Baptist Church of which he remained a member until death.

The funeral services were held at the Baptist church Wednesday afternoon at 2:30 conducted by Rev. Hal C. Wingo. Interment at Santa Anna cemetery.

HIGH SCHOOL HONOR ROLL

FRESHMEN
Lena Jane Bartlett, Russell Hale, John David Harper, Robert Hunter, Brownlee Hunter, Lavada May, Ruth Niell.

SOPHOMORES
Robert Dempsey, Clifford Oden, Catherine Rollins, Ruby Williams.

JUNIORS
Bessie Evans, Carl Flores, Weidon Clark, Arthur Lewis, Kathryn Rose, Pinney, Jesse LeSparkman.

SENIORS
Geneva Caldwell, Fred Faulkner, William Foley, Irene McCreary, William Earl Ragsdale, Ona Mae Smith, A. G. Weaver.

CARD OF THANKS

When friends are so kind and helpful in time of trouble and grief, as friends and neighbors have been to us, words are inadequate to convey our expressions of thanks. We pray that you may have just such good friends to comfort you when an hour of trial comes to you.

Sincerely,
Mrs. N. P. Woodruff and family

Quarterly Conference

The 4th and last quarterly conference of the local Methodist church will meet next Wednesday night at the church.

Visit in Arkansas
E. M. Niell and R. J. Broadway, returned Monday from a visit to Arkansas.

Seventh Grade

This six weeks both of the sections received no demerits. We are all going to try and keep our record free of demerits through out the year.—Reporter.

Visits in Abilene
Mrs. Johnson was in Abilene over the week-end visiting with her son who is attending the Christian College there.

Simmons Student Home
Leon Bartlett attending school at Simmons University in Abilene spent the week-end here with his parents. Tuesday.

RAMBLING THOUGHTS

Distant hills appear steep and difficult, but as one approaches them, they immediately seem to flatten and to climb them is not nearly the task that it seemed from a distance. Everyone has had that experience, a broad highway, leading over hills and inclines that seem to be great bluffs until a driver comes nearer what appears to be insurmountable is easy and sure.

Such with all problems of life, as we view difficulties from the distance they are big, insurmountable, magnified to the extent that some are prone to reverse their onward goal, go backwards, and to hopelessness.

Others view the incline, go onward and what appears to be a bluff is but a miniature, is merely one of life's bluffs trying to "bluff" one to turn back.

And with Santa Anna, many difficulties that lie in the way of progress of this city may appear from a distance insuperable, and as we look forward at the things that lie in the path of Santa Anna, we are prone sometimes to believe that it is futile to overcome them.

But like the hill in the road as we resolutely push forward and look only at the object to be attained, the difficulties seem less formidable. The way will always open up if we will but persist and if rather together all energy and resources for the building of our home town, we can accomplish wonders, as Santa Anna has done in the past.

Someone has said: "If you don't give up too soon, you're bound to get what you want, no matter if the whole world says you can't do it."

And with individuals, let not the meager incline "bluff" you. Whether your problem appears to be insurmountable, whether it seems that your goal lies too far beyond your scope of attain-

ments, never weaken, to weaken at the signs of difficulty indicating deficiency, lack of strength, lack of power. He who weakens thus, is simple, foolish, deficient and incompetent.

He who never weakens rides over the hills of life, forgetting the problem fate has put his way in its effort to hinder the attainment of a goal or perhaps fate by so doing, tests man's strength and capabilities, the weak, the simple and the foolish turn back at the first hill, and travel over the path that in feeble eyes may seem to be the easier, the path that leads to poverty, to degradation. The determined deer lets not troubles, trials or tribulations hinder in their travels over the highways that lead to the fulfillment of ambitions, the realization of goals of progress happiness, greater future attainments.

All together!

PROBLEMS OF TEXAS

Texas in area and natural resources often has been called and rightly an empire. It is the coming empire State and within a generation will be admittedly a leading commonwealth in the Union.

But this coming leadership demands that those who control the destiny of the State should have vision and foresight sufficient to plan in a large way a program as a guide for action in later years. Topsy "just grew," but scientific growth is based on intelligent surveys of situations and wise judgements.

Texas has enormous natural wealth, but the wealth from production of it enriches outsiders; little remains within the State. It has much capital in its financial centers, but comparatively little of it is invested in Texan industry. The purchasing power of its almost six million of population is huge in amount, but the goods purchased mostly come from outside States.

Through ignorance the fertile lands of Texas are declining in fertility because of erosion and a one-crop system; its magnificent forests have been shamelessly wasted and practically no attempts made to reforest cut-down areas suited only to timber. Texas is an empire, of natural wealth, but its economic leaders accumulate wealth for themselves with forethought for the future generations of Texans.

The best wealth of Texas consists of the energy and brain capacity of its people. Among these is much dormant talent that should have opportunity for expression in action. But more than half the population are so poor that standards of living are necessarily low. In consequence their children are worked prematurely and obtaining merely the rudiments of education; they become stunted in body and in mind—the greatest waste of a wasteful State.

What Texas needs is a definite program set for the younger generation to accomplish in the next twenty-five years. The resources of Texas should enrich Texas and Texans. Its farming population should own their lands not be tenants in a condition quite like serfdom. Its empty forest lands should be protected, restored, and exempted from taxation for the period of growth. Small industries should be established in every village and town of the State to supply work and to put on sale Texan made goods. "Made in Texas" should be a guaranty of excellent material and manufacture. Above all, the younger generation should be free to acquire a generous education, combined with a training for vocations on the farm and in the future industries of Texas.

Texas needs local Chambers of Commerce, civic improvement societies and city planning. It needs a new Constitution, a reorganized government, wise legislators who can think in terms of an empire State. It should place obligations on its professions to give to its people health good laws, spiritual insight. It should aim to develop that broad intelligence that appreciates the value of the artistic in connection with vigorous applications of the many various science problems of the State.

Talk Texas, think Texas, help make Texas famous for its comfortable homes and its wide-awake intelligent citizens.

Texas and Texans

By WILL H. MAYS

Farming Increases in Texas

Everybody knows that Texas cities have been making fine growth the last ten years for the papers in the rival cities have been keeping the figures before their readers, but until census figures were available it was thought that farming was decreasing. The census bureau gives Texas a gain of 30,360 since 1925 and 59,974 since 1920, or a growth of 13.8 per cent in ten years. The number has increased from 436,033 to 496,997. The greatest increase has been in a small group of countries on the western border of the South plains, where there was but little farming five years ago. Cochran county leads with an increase of 408 per cent in the last five years.

How Cities Have Grown

Twelve American cities in the 100,000 class have increased more than 45 per cent since 1920. Of these four are in Texas: Houston, with a growth of 75.3 per cent; Dallas, 72.6 per cent; San Antonio, 67 per cent; Ft. Worth, 45.2 per cent. Texas cities in the 50,000 class have made an equally good showing. Where there has been a decrease in urban population in Texas, it has been in the small towns that have made little effort at real growth.

Texas Wealth Shown

Reports of the State Comptroller's Department indicate that the total wealth of Texas is now more than twelve and a half billion dollars. The tremendous growth and financial progress of the State is shown in an annual increase of more than three hundred million dollars for the past eight years. With the impetus of its present vast wealth to which will undoubtedly be added in 1936 the enthusiasm of a suitable celebration of a century of progress showing the possibilities of future growth, the next ten years will bring the largest development the State has ever had.

Duval County Sulphur

The Texas Duval Sulphur Company, whose sulphur mines are about 20 miles west of Alice on the Texas-Mexican Railway has received an order for 240 cars of sulphur to be shipped to different States in this country and to Mexico and Europe. It is stated that even if mining operations are conducted as fast as possible there is enough supply of sulphur in Duval county to last 25 or 30 years.

Not Finding Times Hard

One of San Antonio's big department stores that uses large advertising space, pays good money to the local papers to tell the people that its business in July was 23 per cent better than in June, and that it increased 19 per cent in August and 20 per cent in September. This store is too busy making times good to be worrying about hard times.

Where Trade Goes

A subscriber to the Bastrop advertiser who lives "a little nearer Bastrop" than to the other towns, says that, although the Advertiser is constantly urging its readers to "read the advertisements and trade at home," Smithville papers and finds that the Lockhart paper carries 32 "big advertisements quoting prices and inviting people to come to their stores," the Smithville paper 28 advertisements of the same kind, and the Bastrop paper only 7. Public roads lead to all these towns. Where should he be expected to trade?

NEWSY NEWT

HAROLD HIGHPOCKETS, PROMINENT MAN ABOUT TOWN AND CHIEF AT "THE OLD COLONIAL HOT DOGGE SHOPPE," HAS SENT FOR A "ROLLS-ROYCE" AUTOMOBILE CATALOGUE—THIS SURE PUTS OUR BEAUTIFUL LITTLE CITY ON THE MAP

It is announced that Kerrville will grow Bermuda onion plants on a commercial scale this winter and that 2,000,000 plants are now growing within four miles of the town. The growers say that soil and climate are favorable to the new industry.

The American-made goods shipped through the port at Laredo during September were valued at \$2,900,000. This is but one of many ports through which Mexico imports merchandise, and the figures show that, whatever may be our opinion of Mexican prosperity, that country is buying heavily from other nations and especially from the United States.

THE REAL ESTATE MAN

The real estate broker fills a useful place in business. He is useful as a go between buyer and seller, lessee and lessor and for the handling of properties for owners. But the real estate broker has assumed a place that is dangerous to every interest including his own. Carlyle said that it is the very nature of evil to be self destructive. The propaganda of our real estate boards confirms that statement. In a recent statement Secretary Hyde announced that the only profit the farmer had made was the advance in the price of his land and strange to say the Secretary seems to approve, not realizing that the high price of land is the main factor in eliminating the independent farmer.

One of the recent stories from the National Real Estate Board is of Voltaire and his experience. Voltaire headed his complaint with the truth that "Under All Is Land". He said that he had become a landed proprietor and

Six Cylinder Sentences

By DR. JOHN W. HOLLAND
Many a man has found a good point in disappointment. There is nothing so flat as gushing and insincere flattery.
A good way to whet one's appetite is to whittle down one's meals.
Blessed is that boy whose father forgets not his own boyhood.
If it were as easy to live well as to find fault, we should find ourselves wealthless.
The highest art in life is to practice forbearance toward the unforbearing.
(© by Western Newspaper Union)

that his estate would be worth 40 crowns a year were it not for the 20 crowns that he had to pay the State. One would be justified in asking what business Voltaire had with land as he was not a farmer, but there is ever a more important question involved than this particular ownership. Students of history generally agree that if that great statesman, Turgot, who served as finance minister for a brief period in France had been allowed to carry out his tax program there would have been no French Revolution. The church owned one third of the lands of France, free of taxes. The great nobles owned the major part of the balance with the power to oppress that always goes with monopoly of land. They would have none of Turgot and his statesmanship; and saw to it that he did not long remain in office to annoy them and tamper with their privileges. The

revolution was the fruitage. Real estate boards might well take as their motto: Under All Is The Land. Land is the one and only prime necessity of life, and on it men must live and work. It's value is measured by our necessity and its monopoly by individuals and the extravagant price at which it may be held breaks down industry, and all progress is halted.

We are suffering today more from the wild speculation in land than all other causes combined and "hard times" will continue until the "water" is squeezed out of these values so that we can again economically use our rich natural resources. Increased taxes on land opens it for use and makes jobs for willing hands.

SUCCESS

Voyager upon life's sea,
 To yourself be true;
 And whatever your lot may be,
 Paddle your own canoe.
 Never, though the winds may rave,
 Falter nor look back,
 But upon the darkest wave
 Leave a shining track.

We are given these words by Mrs. Sarah L. Bolton, a noted

poet. In this poem we are given the true philosophy of life. As we are sailing upon the sea of education one must be true to himself and always do his work. No matter how hard the grade may be let us resolve never to look back over the course and be afraid.
 Let us be determined to span the darkest wave with victory in order that those who follow us may be encouraged.

SANTA ANNA MOUNTAINEERS DEFEATED BY WINTERS TEAM

The Santa Anna High Mountaineers suffered their first Class B. defeat last Friday, when they journeyed to Winters and were trounced by the top-heavy score of 33-0. The final score does not reveal the stubborn resistance shown by the Santa Anna eleven. Every man was in there fighting every down and the large score is due to the fact that all the breaks of the game seemed to be in Winters favor.

The brilliant running attack of Coley and Baldwin, and the pass interception by Pratt, were outstanding features of the game. Coley, quarterback for Winters, is one of the most flashing broken field runners ever seen by the local squad in any football circuit.

The team who wins this district will have to put at least two men on Coley and Baldwin ever play for with the interference that they always have they are in scoring distance anywhere on the field.

Winters, also has a nice pass combination composed of Pratt, left half to F. Smith left end.

For the Santa Anna squad, Captain Brookie Turner, Rollins and Voss played in their best form and in the backfield Oakes, Pieratt and W. DuBois showed up well. M. DuBois substituting for Voss, also played a very good defensive game.

Although this game was lost, Santa Anna is still in the race and running strong. It will take more than one such defeat to cause the Mountaineers to lose their confidence and fighting spirit. This fact will clearly be shown Friday, Oct. 24, when the Highlivers will take a jaunt over to Eden and show a group of Concho County Clod-hoppers how to cross a thin line of lime with the burden of an inflated pigskin.

Although the item in the "Mountaineer" last week concerning the pep squad caused a great deal of misunderstanding it had the desired effect for the girls rallied around their leader, Annie Wilson, who managed to get ways for a great number to go to Winters where they gladdened the hearts of the football team at a time when they needed it most.

PEP SQUAD

The pep squad had a meeting Monday during the home-room period. We shall keep the pep squad organized during the entire school year. We shall have two meetings each week, a regular meeting on Monday and one Thursday or Friday, during the home-room period.

The girls decided to have the black suits with the gold S. A. Fourteen of the girls ordered sweaters. These sweaters are black with the gold S. A. Twenty six girls ordered the gold S. A. which they will wear on a black waist. Every girl must wear her suit at the next game here which is the game with Ballinger. We shall go to Eden next Friday and we want a large group to go to back up our team.

We are planning to make an S. A. on the field at the Ballinger game. We shall start practicing next Monday and we need every girl in S. A. H. S. We also need the support of the entire school body.

Come on girls let's make the pep squad the peppiest and best organization S. A. H. S. has ever had.

Yea pep squad!
 —Pep Squad Reporter
 S-A-H-S

Freshman Class

The Freshman are going to make a new resolution for this next six weeks to do our best.

One of our cleverest girls originated some Freshman incidents.

Wonder what would happen if:?????

class. Mary Harriet is a popular member of the Senior class. They are both great favorites of S. A. H. S. They have given much of their time to see that all the girls get to go out of town games. They have worked faithfully and their work can not be overestimated.

Come on girls and co-operate with them in order to have an A' pep squad.

Characteristics of The Seniors

William Foley

William Foley, quite but quizzical, makes excellent grades and is noted for his voluminous vocabulary.

James Gipson

James Gipson is not only able to play football but is the county champion in tennis.

Aline Harper

Aline Harper, jolly and jovial, is not only able to make a piano talk but is a talker herself.

Muriel Hefner

Muriel Hefner, fussy and frivolous, is noted for her ability to have a good time no matter where she is.

Prominent Senior Leaves Santa Anna

The Senior class was deprived of one of its best workers this week when Cula West, moved to Fresno, California. Cula has been with us for our entire high school career and by her going she leaves a place which can not be filled. She has helped in many ways and in many local activities, by adding to the program with her voice. She has a wonderful talent and is always ready to use it for others.

In her class she has stood in fight and in fun. She was always ready to do what is best in order to promote the welfare of the school. Not only is she a favorite with the Senior Class, but of the entire student body and faculty.

She is not only a great singer but has a talent for the piano and expression. She has a very winning personality which enables her to have a host of friends that are made sad by her departure.

JOKES

Eddie Paul. "Will these shoes wear long?"
 Clerk. "Wear long? Nobody has ever come back for another pair."

Myrtón. "Why don't you like girls?"
 Fred. "They're too biased."
 Myrtón. "Biased?"
 Fred. "Yeh, whenever I go out with them, it's always bias this and bias that till I'm broke."

John E. "Ona Mae, will you marry me?"
 Ona Mae. "No."
 John E. "Well, please don't tell Mary Harriet that I asked you first."

Mrs. Scarborough. "What tense is the verb in this sentence, I am a singer."

Billy Ford. "Pretense."

Motor cop. (producing notebook) "What's your name?"
 Speeder. "Aloysius Alistair Cholomodeley Coypean."

Motor cop. (putting notebook away) "Well don't let me catch you again."

TOLD HE MUST DIE MAN FINDS LIFE IN CRAZY WATER

Deputy Sheriff Wants World to Know His Crazy Story

In the year of 1923 I was living at Altus, Okla. I was confined to my bed with a complication of diseases. It was diagnosed by different ones as being Bright's disease, Paralysis, Neuritis, Rheumatism, and a dead liver.

When it was decided to take me to Mineral Wells, the doctors did not believe that I would live to get there, and the doctors in Mineral Wells when I arrived did not think that there was any chance for me to recover.

I drank Crazy Water for four months and was, so far as I can tell, completely well. I gained 94 pounds in weight, and took a job as deputy sheriff which necessitated my being on my feet from eight to twelve hours every day, and often-times doing a lot of night work.

Crazy Water certainly pulled me out of the grave.

Geo. Hensley, Granite, Okla.

Mrs. Scarborough. "Use the word 'torture' in a sentence."
 Becky Turner. "I torturous gonna give us a vacation today."

Little boy (in park) "Lady, my brother here does fine imitations. Give him a penny and he will imitate a hen."
 Old lady. "Dear, dear, and will he cackle and scratch for worms?"
 Little boy. "Scratch for worms! He won't do no cheap imitations like that. He'll eat a worm."

Miss Land, Richard tell me what you know about the Mongolian race?"
 Richard White. "I wasn't there I went to the football game."

Mrs. Barnes. "Billie, why did you get a whipping at school today?"
 Billie. "Mrs. Scarborough told us to write a theme on the results of Laziness, and I handed in a blank sheet of paper."

Mary H. "I know why Morell parts his hair in the middle."
 Charles. "They say to have his brains balanced."

Mrs. Winnifred Margaret Switzer

Mrs. Winnifred Margret Switzer was born Nov. 26, 1848 and died Oct. 17, 1930. Would have been 82 years old 26 of next month. She was born in Oakland, Maryland, moved to Texas with her husband and two children in the year 1882. Has resided in or near Santa Anna since 1904. Her husband S. E. Switzer died May 5, 1913.

Her daughter Mrs. Nettie E. Boardman died April 13, 1928. Her son M. L. Switzer died on December 28, 1929. All are buried in the Santa Anna cemetery. One daughter Louilla Switzer died at the age of two years and was buried in Oakland Maryland.

She leaves grand children Earnest and Lawrence Switzer, of Valley View Texas. Arthur and Clifton Switzer of Santa Anna and Roy Switzer of Shawnee, Oklahoma. Mrs. Annie Burden, Mrs. Ardis Shannon Lee, Jesse and Alphens Boardman of Santa Anna and Ross Boardman of Lamesa, Texas. She also leaves 18 grandchildren.

She professed faith in Christ and united with the Presbyterian Church in early childhood, and lived a consistent Christian life until death.

The active pall bearers were Earnest, Arthur, Lawrence, Roy and Clifton Switzer, Lee Jesse and Alphens Boardman.

Honorary pall bearers were: J. M. Byrd, Henry Campbell, Paul Van Dolson and Curren Pieratt. All grand children were present with exception of Ross Boardman of Lamesa, who was unable to attend.

In accordance with Bill Talbot's program, "Texas Products for Texas" and "Keeping Texas Money in Texas," the above picture shows him with a complete outfit of Texas-made garments utilizing Texas cotton. The hat was made by the Florence Hat Company of Dallas, Texas; the suit, shirt, necktie, socks and undergarments were made by the Pool Manufacturing Company of Sherman, Texas. The suit retails for approximately \$15.00 and at the present price of 10c per pound for cotton, there is about 15c worth of cotton in this suit. Had the suit been purchased, as is done by a lot of unthinking people, from mail-order houses, the 15c would have been the net profit to Texas and the \$14.85 would have been contributed to the prosperity of the North and East.

By purchasing these clothes in Texas, the entire amount remains in Texas to be distributed among Texas farmers, Texas laborers, Texas manufacturers and Texas merchants. If we will all buy clothes made of Texas cotton from Texas merchants, the increased consumption of cotton will have a tendency to raise the price of cotton and will also increase the purchasing power of Texas laborers and Texas merchants to where they can buy more of the farmer's other products at a better price.

Texas has been in the position of two men who owned a cow. One claimed the front half of the cow, and the other the milking end. So one of the men fed the cow while the other got the milk. The man who was feeding finally got wise and quit feeding his end. The other end died. This is the position of Texas today. The time has come to quit feeding the cow for the North and East to milk. Let's spend all our money in Texas for Texas-made products where all of us will have a chance to get a portion of it back. Only by doing this will we ever build the state of Texas into a vast empire in which we can all be prosperous and happy.

The restaurant owner who painted his flies red so that the customers would think they were lightning bugs.

Times are a little tough right now and the average thing has to hold up at least two pedestrians a night in order to break

Cast Expresses Their Appreciation

Saturday night October 18, Cula West was honored with a shower by the cast of the Senior play—Aaron Boggs, Freshman.

They did this to show their appreciation for what she has done to put the Senior play over. Many beautiful and useful gifts were presented. They, however, are only representatives of the love we have for her.

To The Voters of Precinct 7

I wish to announce that I will be a candidate for constable, and having experience in this line for the past two years, I feel that I can render you service that will meet with the approval of all good, law abiding citizens.

I love our laws and believe in living up to them and enforcing them. If elected your constable, I will endeavor to make you a real constable and citizen, enforce the law to the best of my ability, all alike.

As the time is so close at hand for the election, it will be impossible for me to see you all and should I fail to see you, remember that I will appreciate your vote and influence just the same.

Very respectfully,
Political adv. A. Jess Ray

Moody Wears Texas Made Clothes

Governor Dan Moody, guest of honor at the all East Texas Products Dinner last Saturday night wore Texas Made Clothes from head to toe. The suit shirt, socks, necktie, underwear and hankerchief were made for the Governor by the Pool Manufacturing Co. of Sherman and are all made of Cottonfabrics. Shoes were furnished by the H. J. Justin & Sons of Ft. Worth and hat by Willard Hat Co. of Dallas. John W. Carpenter, toastmaster for the occasion also wore Texas Made Clothes including a hat furnished by the Davis Hat Co. of Dallas.

The dinner was served under a large circus tent erected for the purpose on the State Fair ground and the food was furnished by 43 counties of the eastern half of the State.

NURSERY AT CHURCH HOUR AT METHODIST CHURCH

At the last Workers Council it was suggested that there were a number of mothers who could attend the services of the church if they had some one they could leave the baby with.

The Workers Council has met this problem by establishing a Nursery in the basement of the church, for the benefit of all mothers who will leave their babies there during the morning church worship service. Miss Velma Sealy has gladly consented to take charge of the nursery and with her helpers, take the best possible care of the children. Baby beds will be provided in which the babies can take their morning nap.

The Workers Council is very grateful to Miss Sealy for gladly accepting this service which she can so well perform.

At Lions Club in Brownwood Ed Baxter and Judge South, of Coleman were guests of the Brownwood Lion's Club Tuesday Noon.

Miss Aletha Biewert is spending the week in Dallas visiting Miss Vera Gieber and attending the fair.

Visits in Hardy Blue Home Mrs. John Allen of Buffalo, Gap visited with her daughter Mrs. Hardy Blue this week.

What will they think of next? Somebody is suggesting a State Manager now. At that it might not be so bad.

Radio Offers Great Future

The world is moving at a faster
gait now than ever in its history.
Within the last decade we have
seen things actually happen that
ten or fifteen years ago we would
have said were impossible. Nothing
seems to be impossible. A record
that is made today will be broken
tomorrow, whether it be tree-sitters,
airplane or radio. Only a few years
ago Marconi was tinkering with his
"wireless" while people shook their
heads and laughed and now more
than ten million families in the
United States have radio receiving
sets in their homes and are hearing
programs from all over the country.
More than six hundred broadcasting
stations are providing entertainment
and Radiograms are almost as
common as telegrams, yet Radio is
still in its infancy.

Everywhere young men are asking
"How can I enter upon a career in
radio?" And to answer this question
many fly-by-night concerns have
opened so-called Radio Schools,
mostly to teach by mail. Two or
three of the large schools, however,
have established schools of radio.
One of these is the Tyler Commercial
College and School of Business
Administration at Tyler, Texas.
This school has been serving the
South for over a quarter of a
century and is now reorganized as
one of the largest schools of its
kind. More than 50,000 graduates
are witnesses to its success.

Graduates from T. C. C. School
of Radio are upon all the seven
seas and many a liner owes its
existence and safety to the
alertness of those young Radio
Officers.
The Government requires that
every ship of importance have at
least two licensed Radio operators,
and all graduates from Tyler
Commercial College and School of
Business Administration are
required to pass the Government
tests for Radio license held in
the class rooms before they are
given their Operators card.

Young men interested in this
fascinating profession should
write the Tyler Commercial College
and School of Business Administration
at Tyler, Texas, for the special
Radio Catalog. Young men and
women who are planning to enter
the business world should ask for
the General Catalog. Either will be
sent free upon request. Clip and
mail this coupon.

AGRICULTURAL THOUGHTS

By J. M. Binion, Instructor in
Vocational Agriculture

The usual machinery equipment
of a well-regulated farm of 160
acres consists of the following:
1 manure spreader; 1 walking
plow; 1 riding gang plow; 1
smoothing harrow; 1 disc harrow;
1 plank drag; 1 land roller; 1
seed drill; 2 cultivators; 1 corn
planter; 1 mowing machine; 1
hay tedder; 1 hay rake; 1 hay
loader; 1 corn binder; 1 grain
binder; 1 potato digger. Two heavy
farm wagons and a hay rack will
be needed to handle the crops,
fertilizer, etc. The cost of this
equipment will come near to \$900.
The annual cost per acre of these
tools figure about as follows:
Walking plow, 7.2 cents; gang
plow, 18.3 cents; smoothing harrow,
1.9 cents; disc harrow, 4.9 cents;
plank drag, 0.8 cents; roller, 2
cents; cultivator, 4.3 cents; horse-
weeder, 3.3 cents; corn planters,
8.1 cents; seed drill, 13 cents;
mowing machine, 10.5 cents;
tedder, 16.4 cents; hay rake, 5.5
cents; hay loader, 24.8 cents;
grain binder, 26.4 cents; corn
binder, 36.9 cents; corn shocker,
34.2 cents.

BAPTIST CHURCH

Regular services at the Baptist
Church Sunday Night service at
7:30, with B. Y. P. U. at 6:30
Sunday School at 9:45
Especially do we urge you to
come to the mid-week prayer
meeting. A great deal is being
said about a revival meeting. You
cannot work them up, they must
be prayed down. We strive to
make these services highly spiritual
and keep them within one hour.
Glorious gospel singing and old
time Bible preaching awaits you
at the Baptist Church. We invite
you to worship with us.
Hal C. Wingo Pastor

The Santa Anna News Page For Women Readers

Here From Plainview
John Lucas of Plainview was visiting friends and relatives and looking after business interests here the first of the week.

Reckless driving is the thing that's responsible for most of our tree sitters.

Spends Week-end With Family
Ben Parker was home last week-end with home-folk after a week spent in Waco and Bonham making a deal for a newspaper. He and Mr. Faulkner are buying the Herald at Bonham instead of going to Waco as they first intended.

With every merchant in town reducing the price of merchandise especially in the grocery line we really enjoy buying things for the table. Never have we seen fresh grapes so cheap, bananas are only half what we usually pay at this time of the year. It is highly important that the growing child have a lot of fresh fruits and there are no better ones than these two. They are rich in vitamins and contrary to the old belief, bananas are now considered of wonderful food value.

Meat too has dropped in price and one of the best ways to serve it is as a Swiss Steak. Have the butcher cut the steak about 2 inches thick, rub with salt and pepper, hack in flour, sear in grease, pour in enough water to keep from sticking, bake in slow oven until meat begins to tender, chop in medium size onion, cook until done, make gravy by stirring flour to thicken into a meat stock and adding small can of tomatoes. Cabbage is another good food that we can buy economically now. One doctor has said that every one should eat some raw cabbage every day. The most delightful way we know to serve it is in salad. And a good cabbage salad is made by shredding half a head, dicing three medium size carrots (another health food) you may not care for but try them this way and see how they taste. Chop a small onion and mix all three with plenty of salad dressing, sprinkle with celery seed and you have a salad that tastes like a spring dish. Another way to economize is to make your dressing and it is fully as good. One can of salad oil will make three times as much dressing as you can buy for the same money.

Potatoes fixed your favorite way, green beans can be found in the stores, there is a certain brand of canned corn that can be cooked like corn cut from the cob or any fresh vegetable will be good with this meal. Have you ever tried a cobbler made from dried fruits? All varieties of dried fruits can be bought at a bargain in any of the Santa Anna stores. Be careful to soak well and cook soft before putting into the crust. When done serve with sauce made by stirring two table spoons flour into two table spoons melted butter add cup sugar and two cups milk. Let thicken add tsp vanilla. Serve while hot.

Some people do not like fruit pie and if they are fortunate enough to have a bunch of laying hens we offer two recipes.

Dream Pie

Beat the whites of four eggs dry, add four teaspoons sugar, beat until stiff add four more teaspoons sugar and beat. Add cup of pecan meats or some well drained and dried fruit, such as pineapple or cherries, turn into browned crust and set in oven and brown.

Syrup Pie

Beat four eggs add cup sugar, spice to taste add cup Blue Label Kero, and if desired a cup of chopped pecans, turn into an uncooked crust, be sure it is a deep one, and bake in a slow oven.

Here is a Delicious Pie That is Seasonable Pumpkin Pie

1-1-4 cooked or canned pumpkin, 1-2 salt, 1-4 hot water; 2 1-2 teaspoons orange juice; 1 cup brown sugar; 2 eggs; 1 teaspoonful cinnamon; 1 teaspoon ginger; 1 cup milk.

Mix the pumpkin, salt and sugar. Beat the eggs until the yolk and whites are well mixed together. Stir them into the pumpkin and sugar mixture. Mix the spices with hot water next with the orange juice and milk. Add to the pumpkin mixture. Pour into an unbaked pastry shell. Bake at 425 degrees F. for twenty minutes then lower the regulator to 250 degrees F. and bake forty minutes longer.

THE FEMINE FORUM

MRS. A. L. ODER, Columnist

HEALTH

At the High School P. T. A. last week, an interesting program was carried out. "Health" was the central theme. The freshmen girls put on the program which included a two-act playlet. Dr. McDonald gave a wonderful talk. Among other good things he stressed the need of annual physical examinations. The Doctors are co-operating with the Grammar school P. T. A. in examining the children in that school, and it is likely a similar work will be done at the High School. Dr. McDonald said in his talk, that we are likely to have an epidemic of Palegra, because of the difficulty of many families to obtain food sufficiently nourishing. It is up to the house wife to make every food dollar buy as much nourishment as possible.

Dr. Clendening says that Lima beans are about the most nourishing and most complete vegetable food and that they have wonderful food value. In California, where this bean is extensively grown, the growers have done quite a lot of advertising in an effort to increase its popularity, and they have made quite a success of it. It is said that one egg has as much food value as a dozen or more oysters. This being so we would be inclined to eat more eggs, but if the market keeps mounting soon the price of one egg might be equal to the value of a dozen oysters.

Mrs. W. K. Richardson's Canned Kraut

Kraut is a popular food and is better home made than bought and at the present price of cabbage is very cheap. Have cabbage cut fine, put in sterilized quart jars put one teaspoon of salt on top of cabbage, fill jar with water which has been boiled and is lukewarm or cooler. Put on lid and rubber, but do not screw the lid down. On fourth

day take off lid and add sufficient water which has been boiled but nearly cold, to replace that which escaped in bubbles. Screw lid on tight.

Mrs. J. T. Bloodworth Speaks at Methodist Church

Mrs. Bloodworth, speaker and organizer for the Woman's Christian Temperance Union, spoke at the Methodist Church Sunday morning. She took as her text, "She hath Done What She Could." She gave a review of the work of the W. C. T. U. from the founding of the work to the present time, Francis E. Willard became the first president, born in prayer, this organization has had a marvelous growth. Beginning with a hand full of women in Hillboro, Ohio, it now numbers nearly one million women in America. It is the pioneer, or mother of all woman's organizations. The women of all the churches co-operate in the work. Mrs. Bloodworth quoted Woodcock and Irving Fisher, two of the best authorities in America, as saying that drinking had decreased. One stated 65 per cent and the other 90 per cent since prohibition has been in force. An organization of the W. C. T. U. is being formed in Santa Anna. A meeting was held at the Baptist Church for this purpose Monday afternoon.

Women Smoking

The fad of women smoking has not reached our town as we know of, and we hope it does not. That cigarettes are harmful to men and boys has long ago been proven. Then why should women wish to take up a habit that is injurious, expensive and of no value whatever. A woman, who formerly smoked, said recently in a confession, that she quit because her husband would no longer kiss her, and her children did so reluctantly, and she was accorded no courtesy in elevators or on street cars. She decided that was too dear a price to pay for the right to do as a man does. The beauty specialists say that regular smoking makes a woman of twenty eight look like one of forty. A great deal of their work consists in trying to undo the effects of smoking. Many learned physicians warn against the effects of women smoking. Children born of parents both of whom smoke are not as healthy as otherwise. A nervous tendency is inherited. Besides men, like to have some prerogatives which they do not care to share with women. The author of Broadway writes the following:

WOMAN HATER

Damitall Johnson the Woman Hater of Longacre Square, says he's quit cigarettes.

"After servin' twenty-five years come next Whitesuntide," avers Mr. Johnson, "I'm givin notice I'm through."

"Th' sight o' women all around me, in taxicabs, restaurants, in th' lobbies, has prompted me to switch to seegars. It's my protest against the feminine invasion of an outstanding male prerogative."

"If the wimmin switch from cigarootts to seegars, I'll take to chawin' terbaccor. If they take blowup chawin' I'll try snuff. If they foller me up an' begin snuffin' I'll blow my brains out!"

Now that would be just too bad. Let's not do anything to cause men to blow their brains out. You know Isaiah prophesies the scarcity of men. He tells us of a time when seven women shall lay hold of one man. Not many men know of this Scripture, not being given much to Bible reading. And of course no man is going to read this column they might become puffed up as they vision the probability of seven women clinging to them. In view of the fortoold masculine shortage, let's not do anything to cause even one of them to blow his brains out.

Revival of Interest in Home
Mrs. Emily Newell Blair, prominent politician, writer and speaker on a tour of the country says she sees a revival of interest among women in home making. It seems that in some instances, women are tiring of their progress in business, and are reverting to homemaking. The great interest everywhere by women and girls, in the Home Demonstration and 4 H. Clubs, is a good sign. Many living rooms have been improved at small expense and home grounds beautified. Coffee, parties and second hand stores have yielded

Local Epworth Leaguers Attend Meet, Coleman

Burkett, Crosscut, Talpa, Coleman and Santa Anna Epworth Leaguers were represented by about sixty members at meeting of the County Union of Epworth Leaguers at Coleman, Tuesday evening.

While the secretaries of the different chapters met for a short business session, a devotional program on The Meaning of Prayer, by Fosdick, was led by a Talpa leaguer and a part was given by speakers from Coleman Burkett and Santa Anna.

Coleman League won the banner this month from Burkett, for the most points in efficiency.

The Coleman Chapter entertained the visitors, royally, took them on a trip through Carlsbad Cavern and gave them the thrill of a life-time. Refreshments of sandwiches, cake and hot tea were served.

Nine girls were there from the Santa Anna League, chaperoned by Mesdames Turner and Curry.

The next meeting of the Union will be in Santa Anna November, 18th. The officers meet in Council, on the 11th of November at Coleman, for the purpose of making plans of work to be accomplished by the Union.

Railroad President: We've got to do something to provide more room for our passengers.

Traffic Manager: Yes, why not take some of the seats out of the cars?

Reformers: were invented so that bachelors could have somebody to do their thinking for them.

METHODIST CHURCH NOTES

Surely by now we have become adjusted to the rain; its novelty has passed; it seems to have settled down to a regular part of our week-end experience. So let us expect a rain next Sunday and come on to Sunday School and to Church through the rain. The larger congregation last Sunday indicates that is what we have already decided to do. So rain or shine next Sunday let us observe Rally Day, by being present, everybody come out, to Sunday School and Church. A number of boys and girls will be received into the church during the Decision Day service at the close of Sunday School.

There are some very attractive certificates to be awarded to those who are promoted from one department to another; and promotion cards to be awarded to those who are promoted from one class to another. And for one department there are some very pleasant surprises to be presented. So let us all unite together once more for worship at these services Sunday Morning.

Sunday Schedule:
 Sunday School 9:45
 Morning Worship 10:45
 League 6:30
 Evening Worship 7:30

The classes of the Sunday School will meet in session at 9:45. The whole Sunday School will assemble for the closing Decision Day Service at 10:20.

The pastor will preach at the morning and evening hour.

Sermon Subjects: Morning: "Mans Supreme Task."
 Evening: "Who Is Your Master?"

Come on Everybody, Let's Go to Church Next Sunday.

PRESBYTERIAN CHURCH

Long have we wished for rain. It has come, abundantly. We have remained at home because the showers which we see much wanted made the roads muddy. We need to launch in to the deep, that our work may live and grow.

Next Sunday at ten o'clock let everybody be present for Sunday School. Stay for church. Come back for Endeavor and preaching in the evening.

Remember that your presence is always helpful.

M. L. Womack, minister

Where Quarters Count

I am 25 cents.
 I am not on speaking terms with the butcher.
 I am too small to buy a quart of ice cream.
 I am not large enough to purchase a box of candy.
 I am too small to buy a ticket to a movie.
 I am hardly fit for a tip, but believe me, when
 I go to church on Sunday I am considered some money!

Former Santa Anna Pastor in Revival Meeting

We clip the following from the church notes in the Brownwood Bulletin of last Saturday, under the heading of the Coggin Avenue Baptist Church.

The pastor will leave Sunday night after the service for Wichita Falls, where he will conduct a 10 days revival in the Lamar Avenue Baptist church, Rev. Sidney F. Martin, pastor. Rev. Martin has done a wonderful work since going to Wichita Falls from Santa Anna, Texas. There have been more than 500 additions to the church in a little more than 18 months. In this revival emphasis will be placed on deepening the spiritual life of the church rather than upon gaining new members. Prayers are asked from Brownwood friends for the success of the meeting.

W. R. Hornburg, Pastor.

W. S. Hornburg has conducted several revival meetings in Santa Anna, and was with Pastor Martin here several times during his pastorate here.

Church of Christ

E. J. Smith of Stacy, minister of the Church of Christ, will deliver sermons at both the morning and evening hours here Sunday, it was announced yesterday. Elder Smith is a splendid speaker and an authority on the Bible. "Come and let's reason together," is the invitation which is extended the local congregation and public in general.

Business and Social Meeting of League

Monday night, October 20, Rebecca Turner favored the members of the Epworth League with a party at the home of her parents; Mr. and Mrs. J. F. Turner. A number of interesting games were played, then the business of the League was transacted.

Officers for the next year were elected. The plans of going to Coleman, October 21, were discussed.

Hot chocolate, cream and cakes were served to:
 Messrs. Scott Wallace, Clifford Wheeler, Louis Pittard, Willis Pace, John F. Turner, Leo Scott and John Walker Taylor. Mesdames: Jas. I. Patterson and J. F. Turner; Misses Jane Whitlow, Lonella Taylor Helen Hall, Ruth Polk, La Rue Curry and the hostess.

Marriage is the thing that causes most of our divorces.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

(By REV. F. M. FITZWATER, D. D., Member of Faculty, Moody Bible Institute of Chicago.)
 (© 1929, Western Newspaper Union.)

Lesson for October 26

SPIRITUAL WEAPONS IN A WORLD WAR
 (World Temperance Lesson)

LESSON TEXT—Galatians 5:13-26.
 GOLDEN TEXT—And every man that striveth for the mastery is temperate in all things. Now they do it to obtain a corruptible crown; but we an incorruptible.

PRIMARY TOPIC—Learning Self-Control.

JUNIOR TOPIC—The Law in One Word.

INTERMEDIATE AND SENIOR TOPIC—The Secret of Self-Control.

YOUNG PEOPLE AND ADULT TOPIC—Making Prohibition Effective and Permanent.

The lesson topic is not a happy one. The Scripture text chosen clearly refers to the inner conflict going on in the believer. Having been born of the flesh and of the Spirit (John 3:6), there is an unceasing conflict going on between the two natures (Gal. 5:17). The insurrection springing out of the carnal nature cannot be put down by the Law of Moses. Victory can only be accomplished through the energy of the indwelling Holy Spirit.

The committee has further designated it "a temperance lesson." It has a real bearing on temperance in that it shows the only way to destroy the infernal liquor business; namely, to lead individuals to a personal knowledge and experience of Jesus Christ.

Having in Galatians 3 and 4 shown that the believer is free from the law as a means of justification, Paul makes practical application of this doctrine as follows:

1. Christian Freedom (vv. 13-15).
2. It is not an occasion to the "flesh" (v. 13).

Liberty is not license. The notion that when one is free from the law he is free from constraint, is woefully erroneous. License of the flesh means not merely the indulgence of the flesh in actual, material sins, but in the expression of a self-centered life (v. 15).

2. By love serving one another (v. 13).

Freedom from the Mosaic law means slavery to the law of love. Love thus becomes the fulfillment of the law—"Love thy neighbor as thyself" (v. 14).

1. Walking in the Spirit (vv. 16-18).

Walking in the Spirit results in:
 1. Loving service to others.
 2. Victory over the flesh (vv. 16, 17).

By the "flesh" is meant the corrupt nature of man expressing itself in the realm of sense and self.

- III. The Works of the Flesh (vv. 19-21).

By works of the flesh is meant the operation of the carnal nature. The one who chooses to live according to the impulses and desires of his natural heart will be practicing the following sins:

1. Sensuality (v. 19).
- The sins enumerated here, practiced in the sphere of the body, are:
- (1) Fornication. Fornication includes all sexual sins in married and unmarried life.
 - (2) Uncleanness. This includes all sensual sins, open or secret, in thought or deed.
 - (3) Lasciviousness. This means the wanton, reckless indulgence in the shameful practices of the flesh.

2. Irreligion (v. 20).
- These acts take place in the realm of the spirit and are:
- (1) Idolatry.
 - (2) Witchcraft or sorcery. This means all dealing with the occult, such as magical arts and spiritism.
 - (3) Sins of temper (vv. 20, 21).

These take place in the sphere of the mind and are:

- (1) Hatred. (2) Variance, which means strife and contention. (3) Emulations; jealousy. (4) Wrath; bursts of passions. (5) Seditions; factions in the state. (6) Heresies; factions in the church. (7) Envyings. (8) Murders.

3. Sins of excess (v. 21).
- (1) Drunkenness. This means indulgence in intoxicating liquors.
- (2) Revelings, acts of dissipation under the influence of intoxicants.

- IV. The Fruit of the Spirit (vv. 22-24).

This indicates action in the realm of life. The product of the Holy Spirit indwelling the believer.

1. Love to God and man.
2. Joy; glad-heartedness because of what God has done.
3. Peace with God and fellow-men.
4. Long suffering; taking insult and injury without murmuring.
5. Gentleness; kindness to others.
6. Goodness; doing good to others.
7. Faith; believing God and committing all to him.
8. Meekness; submission to God.
9. Temperance; self-control in all things.

It's easy to find a girl who wears well, but it's hard to find one who wears much.

Less Hard Work
 NO Guess Work

Blue Tag Egg Pells take the guess-work out of the feeding of laying hens. Here is the perfect hen-food, at last. Only one feed—yet in Blue Tag Egg Pells she gets everything she ought to have—the egg food, the bone food, the feather food, the body food, the minerals and the salts—all blended and pressed into pellets—each one a balanced ration.

Egg Pells feed and handle like grain. They're about the size of buck-shot. A hen's nature calls for feed in the form of grain. And here it is, yet with exactly the balanced ration that will make the most eggs on the least feed. Start them on it today.

Blue Tag Egg-Pells

"You Can't Afford to Miss Electric Range Conveniences"

"Hundreds of progressive and enthusiastic housewives have told me about the many electric range advantages, and I feel sure that now we've adopted this new, convenient and more economical system of rates, even more of you will profit by the superiorities of electric cookery, and at the same time lower the average rate for any other additional service used."

"You see, an electric range uses about 125 kilowatt-hours a month, and under the new rate system, practically all of this current would come on the lowest rate."

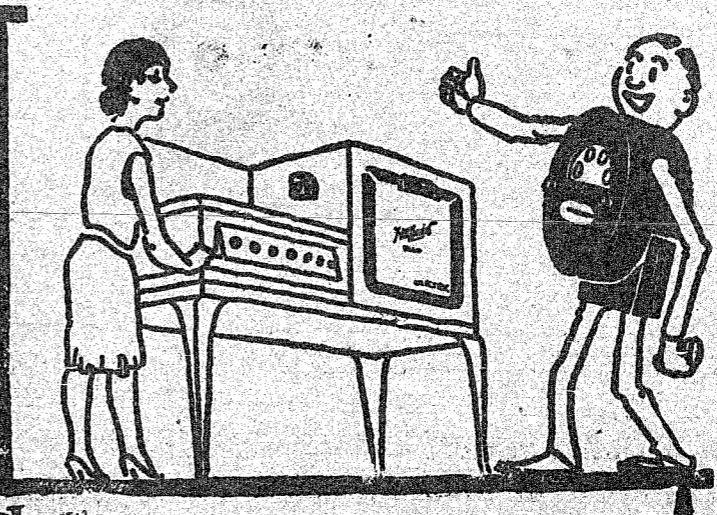

"In the average five-room house, normal use of electric service, without an electric range, water heater or refrigerator, will consume most of the 45 kilowatt-hours of the initial and second rates, after which all service—electric lighting, refrigeration, heating, cooking or any other use, will be figured on the 3c basis, when you use an electric range or water heater—4c when service does not include heating or cooking."

"Under the new one-meter rate an electric range will be appreciated more than ever, and is no longer a luxury."

"I have some more important messages for you, so meet me here next week."

And Remember—You Can Make Your Own Average Rate

Initial rate 12c
 2nd rate 7c
 Low rate 4c-3c

At The Queen Theatre

Two players practically new to the movie fans of Santa Anna play in *Under Montana Skies*, Friday and Saturday at the Queen.

This story abounds in plot and moves swiftly from one situation to another, sometimes funny, sometimes suspenseful, sometimes dramatic, but always interesting.

The mere idea of a cowboy playing godfather to a stranded girl-trope is a promise of romance excitement and fun. Kenneth Harlin has his hands full and his wits and fists are kept busy.

A bad man just out of jail and with a grudge against the hero, complicate matters, while an old skink of a hotel manager and his silly wife not only get the plot beautifully tangled but they supply a lot of humor.

When it comes to singing and dancing, Dorothy Gulliver, Nita Martin and the specialty troupe know their notes and step some good numbers.

Jack Oakie, is another new star who plays at the local theatre soon. He stars in the *Social Lion* the picture to be shown the first of next week. Skeets Gallinger is also a versital artist on the program, Mary Brian long ago won her place in the hearts of the public. She will carry the female lead.

The *Social Lion* is the hilariously funny story of a young garage mechanic who gets into high society and his subsequent troubles.

Two Southern girls carry the leading feminine roles opposite Jack Oakie in "The Social Lion," showing at the Queen theatre this week.

Mary Brian the wholesome sweetheart, was born in Corsicana, Texas. Olive Borden, the ritzy society girl, was born in Richmond, Va.

Both girls went to Hollywood directly from high school. Miss Brian was educated in Dallas.

Miss Borden attended a convent school in Baltimore. Oakie himself is a near product of the cotton belt. He was born at Sedalia, Missouri and lived in Oklahoma for several years during his boyhood.

CARD OF THANKS

CULLEN F. THOMAS

Cullen F. Thomas a generation ago a youthful member of the Legislature from Waco, is heartily in favor of the proposed Legislative amendments to the Constitution. As the outgrowth of his experience and observation, he hopes for its adoption. Today he gave his reasons briefly, as follows:

"The framers of the Texas constitution planned well. To them this generation owes a debt of gratitude for their wisdom and patriotism. They builded for their day. However, they never meant to hobble succeeding generations.

"All of the great company who sat in that convention, save one, are gone. As the dead wrought for their day, let the living be free and unfettered to make such changes as time, experience and wisdom shall dictate.

"When Richard Coke was governor sixty days allowed ample time for consideration of the State's needs by the Legislature, and \$5,000 per day and 20c per mile were considered appropriate allowances for compensation and mileage.

"Today this once sufficient per diem is wholly inadequate recompense, and the allowance of 20c per mile is obviously too great. This antiquated limitation on the pay of Legislators was dictated as a bulwark against the riot of extravagance during the carpet-bag days. As such, let this out-growth provision be liberalized.

"Again the Legislative problems that were then comparatively simple have grown now to be intricate. A single session does not suffice to meet them.

"The tremendous growth of Texas, and the complex question that press on every session for solution requires that the Legislature be permitted to modernize its procedure, as proposed

DID YOU Ever STOP TO THINK?

That local newspapers are great boosters. They boost the home city at every opportunity and in every way possible.

They boost the churches, the schools, the civic organizations and everything that promotes happiness and is for the welfare of the people.

They boost for better streets for the city and better roads for the country; they know that good roads lessen the distance between city and country make better business and a better community.

They boost to promote friendliness and harmony between all people.

They boost for a square deal for everyone in the home city.

They boost for better business and for everything that helps to develop industry.

They boost to bring new capital and new industries to the home city.

They boost everything possible to help in developing the natural resources surrounding their city, which will increase payrolls and bring increased population.

Fools write where wise men telephone.

Nowadays if a Chicago kid plays with anything smaller than a machine gun he's considered effeminate.

When a man tells a girl that he's nobody's fool, she doesn't know whether he's bragging or proposing.

Dens were invented so that a husband would not have to glow all over the house.

In these Amendments, their adoption will make for efficiency, for the elimination of the waste and for the banishment of so many special sessions."

RAGING TORRENTS HELD BACK BY UTILITIES DAMS AT SAN ANGELO

Abilene, Texas, October 24—Buffeted fiercely for 32 hours by raging, storming flood waters from the South Concho, Spring and Dove Creeks, the West Texas Utilities Company Dam at San Angelo held back and controlled billions of gallons of water pouring from the Concho watershed which if it were not for the dam might have brought incalculable damage. Electric service was continued from the Concho Plant above the dam without a moment's interruption throughout one of the worst floods in West Texas history.

First flood waters stormed into the lake at approximately 1 a. m. Monday morning, when the big rise of the South Concho river made necessary the opening of the first sluice gates. By 4:00 o'clock Monday afternoon the South Concho had receded, and Dove Creek started flooding. By 11:00 o'clock Monday night Dove Creek had receded and torrents of water flowed from Spring creek, this last flood lasting until 10:00 o'clock Tuesday morning.

The highest water recorded was at Lone Wolf Dam, north of the new Nashworthy Dam, where flood waters were roaring fourteen feet over the top of the wall. At the Ben Fickland Dam, the South Concho was estimated to be more than three quarters of a mile wide. The fourteen foot rise at the Lone Wolf Dam was considered to be the crest of the flood.

Sluice gates in the new Nashworthy dam are fifteen feet high and twenty-five feet long. It took thirteen of the fifteen gates each gate discharging in excess of 50,000 gallons of water per

second to control the flood. When the first rise of the Concho flowed into the lake, water could not be discharged fast enough. At one time it was twenty inches above the top of the sluice gates, but was brought rapidly under control.

Through the use of the Nashworthy Dam as a controlling element, it was possible to keep the water in the lake at an even level, and discharge flood waters in such time as to almost completely eliminate the high crests which might have resulted in damage to property. The only damage reported was the loss of several boat landings and boats, and the washing away of a small amount of fence.

West Texas Utilities Company engineers, from both San Angelo and Abilene, spent the greater part of two days and nights contesting the supremacy of the man-made dam and the raging elements. The Nashworthy Dam survived the gruelling tests with out damage, it was reported.

Here From Little Rock

Mr. and Mrs. C. B. Rendleman of Little Rock, Arkansas are visiting and looking after business matters in the Santa Anna vicinity this week. Glad to note Mr. Rendleman is improved in health since he was last here.

It has been the experience of our country that all progress in the solution of our problems, be they tariff or any other great issue, have been achieved thru compromise.—Rep. Bertrand H. Snell.

SENATOR WOODWARD IS AUTHOR OF A PROPOSED AMENDMENT

Continued from first page

roduced and reported out of the Committees. This procedure will permit the Legislature to dispose of the State's business within the one hundred and twenty day period and would enable the Legislature to dispose of all emergency matters, including the appropriation bill, which has nearly always been passed over to the Special Session. It will bring about careful legislation and prevent numerous special sessions and reduce the expense of the Legislature.

One of these amendments increases the per diem from \$5.00 to \$10.00 per day but decreases the mileage from twenty cents per mile to ten cents per mile. A careful investigation of preceding Legislature indicates that under the Amendments, altho the members' pay is increased from \$5.00 to \$10.00 per day not to exceed one hundred and twenty days, the reduction in the mileage and the saving of the expense of Special Sessions will, in fact, cost the people less than under the present constitutional provision. It is a well known fact that members of the Legislature scarcely pay their expenses with the \$5.00 per day now paid and if, while increasing their pay and at the same time reducing mileage and avoiding the necessity of numerous Special Sessions, the State's business can be carried on with approximately the same expense, I see no good reason why the people would object to the amendments, especially in view of the benefits the public will receive as a result of dividing the legislative work into sections which will permit

a more careful consideration of bills and opportunity for the people to become informed thru the press as to what is going on in and about the Legislature.

Under the present system of legislating, sufficient time is not allowed for committee hearing and it frequently happens that important bills are hurriedly considered and hurriedly passed through both Houses without the public being informed as to their merits or demerits. I have experienced an embarrassing situation because of this system.

A bill is pending before the Senate and representative citizens from my district want to appear before the committee and discuss the legislation but when they arrive, they are given possibly thirty minutes or maybe an hour, when as a matter of fact they should be given two, three or maybe six hours in which to present their views and in which others may likewise present their views. The public is becoming more interested in legislative matters, but under present regulations, sufficient time is not allowed in which legislative matters can be discussed and publicity given.

Both of these amendments passed the Senate and the vote was unanimous.

So far as I know, practically every newspaper in Texas which has given any attention to these amendments, favor the amendments. The newspapers realize the importance of publicity, and the newspapers realize that under the proposed amendments they will have ample opportunity to get information and study proposed legislation, so that they can intelligently inform the reading public of what is going

on in and about the Legislature. The proposed amendment in reference to dividing the work into sections is not new nor is it novel; it successfully operates in other states.

These amendments carry a provision whereby the Legislature, if it catches up with its work, may suspend the rule and dispose of measures without having to wait to the end of the period allotted to any particular work.

Under the present system of legislating important measures are introduced, considered by a committee and passed by both Houses before the general public know what has happened. Under the proposed amendments the public will be given ample opportunity to know what is going on and may then confer with their representatives and thus bring about safe and sane legislation. These amendments should by all means be adopted.

RED CROSS RELIEF FUND DRIVE

Call and Relief Fund Drive will be made the last week in October this year, instead of beginning on November 11th, Armistice Day, as before. Sunday October 26 will be observed as Roll Call Sunday. This change in dates is made because of the great need of money to aid in the drouth relief and other work in addition to the many other calls that come to the Red Cross.

Each year the Red Cross gives relief in scores of disasters, where ever fire, flood, explosion or other catastrophe takes life or destroys property there is to be found the banner of the Red Cross first on the job and the only generally recognized agency for administering relief.

C. W. Martin of Coleman is County Chairman, J. C. Scarborough is local chairman for the

membership drive and Ed. Baxter chairman for the Relief department.

Brown Ranch News

Our school opened Monday morning, October 13th, with a good number present in spite of the disagreeable weather. The faculty consists of: Reginald Owen, principal, Mary Middlebrook, sixth and seventh, Halle Shamblin, third and fourth and fifth, and Mary Lou Smith first and second. Judging from the display of co-operation shown between the teachers and students during the past week, the prospect of a successful school term is evident; and, if the parents will co-operate with the school, there isn't any reason why it not be.

Brown Ranch is also strong for athletics, and is going to work hard to keep the cup that was won last year. The team alone can not win the county championship again, so let's attend the ball games and let our boys and girls know that we are for them.

A meeting was called of the basket ball boys and girls Thursday at noon, by coaches Owen and Smith, to decide the colors, names and reporters for the respective teams. Navy blue and gold were the colors chosen by both teams. The boys have the honor of bearing the title of "Cowboys" and the girls "Cowgirls." J. B. McQueen was elected reporter for the boys and Beatrice Yates for the girls.

Those that are coming out for training for the "Cowboys" are: Bill Roberts, Bill Jones, T. T. Scarborough, Claude, Lawrence and Owen Moore.

The "Cowboys" have started their training for the season and will show interest for the other teams of this district. The "Cow-

girls will start their training later.

The yell leaders are Miss Mary Lou Smith and Claude Lawrence. Make the "Pep" squad one-hundred per cent.

A large crowd was entertained at the home of T. L. Graham, Thursday night by a musical concert presented by four Mexicans.

Miss Jennie Mae Fields was a Thursday night guest of Miss Ola Belle Wiginton.

Oscar Yates and family spent Saturday night and Sunday in the home of his parents at Watt Creek. Granvil Roberts was also supper guest in the senior Yates home 42 was the entertainment for the evening.

Miss Oleta Estes entertained with a play party at the home of her parents, Friday night.

Prof. Reginald Owen moved his wife and infant son out to their new home Saturday morning. We welcome them to our community.

Notice! All who have news to contribute to this column please have same at the school house by Monday morning of each week.

Miss Ola Harvey had as Sunday guests Misses Mary Lou and Ola Belle Wiginton.

The Seniors of Brown Ranch Hi called a meeting Monday morning to organize their class. The class officers are: Owen Moore, president; Claude Lawrence, vice-president; Beatrice Yates, secretary and treasurer. Ralph Boone, reporter and Mr. Owen, Sponsor. Class colors will be pink and white with pink and white roses as the class flowers. The motto is "Hitch Your Wagon To a Star."

Sunday was another rainy-day. Four rainy week-ends have been the answer to the pleas of a drouth-stricken people. Now almost every one is crying enough. What changeable people we are!

As a rule a man's a fool. When it's hot he wants it cool. When it's cool he wants it hot. Always wanting what is not. If all wants were filled-what a turmoil this world would be.

What The Normal Man Should Weigh

AGES 45 TO 49

According to Leonard Williams M. D., a gifted writer on Obesity—a man's normal weight at ages 45 to 49—

5 Ft. 7 inches	156 Pounds
5 Ft. 8 "	161 "
5 Ft. 9 "	167 "
5 Ft. 10 "	172 "
5 Ft. 11 "	178 "
6 Ft. 0 "	184 "
6 Ft. 1 "	191 "
6 Ft. 2 "	198 "

These weights include ordinary in-door clothing. Get on the scale and see if you are overweight and how much.

The modern way to take off fat is known as the Kruschen Method—and is well worth a four weeks trial.

Cut out pies, cakes, pastry and ice cream for 4 weeks—go light on potatoes, butter, cheese, cream and sugar—eat moderately of lean meat, chicken, fish, salads, green vegetables and fruit—take one half a teaspoon of Kruschen Salts in a glass of hot water every morning before breakfast—don't miss a morning.

An 85 cent bottle of Kruschen lasts 4 weeks—get it at Turner's Drug Store or any drug store in the world.

H. K. Kelley and R. J. Miller spent the week-end in Fort Worth.
