"He Profits Most Who Serves Best"

VOL. NO. 45.

SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY, AUGUST 23, 1930.

NUMBER 36

J. D. PIERATT BIDS FAIR TO REMAIN ALOFT

J. D. Pieratt, who took his nest Saturday evening, August 9, is staying on the job this week, and from all indications, he will make good his test of endurance to stay in the nest four weeks. He delivered a booster speech to a fair sized crowd last Saturday night, and is expecting to deliver another one Friday night of this week. He is keeping well and doing ok. He will have been in his nest 286 hours Thursday night, when this issue of the News is being put in the mails.

Mrs. Pauline Harper and children, Allie and John David, left last week for several weeks visit with relatives and friends at Lometa, Lampasas and Waco.

Mr. and Mrs. John Cox of Gouldbusk were visitors in the home of Mrs. Wallace Kirkpatrick last Sunday.

Dr. Hunt Spoke For Ross Sterling Here Last Saturday

Dr. J. W. Hunt, president of McMurray College at Abilene, spoke here last Saturday afternoon in the interest of Ross Sterling, one of the candidates for governor.

Dr. Hunt was very plain in his opposition to the candidacy of the Fergusons. He read from the records of the state some of the proceedings at the time of the Ferguson impeachment in December, 1917, and gave several illustrations of the Fergusons during their more recent administrations.

It seems to us more of a prejudice campaign than a business campaign, but maybe this week will end it. If Sterling is nominated, it will be just about settled, but if the Fergusons are nominated we'll bet a chicken gizzard the next governor of Texas is not a democrat.

Mrs. A. S. Wilson and daughters, Bobbie and Annie, returned Friday from Houston and Fort Arthur where they visited relatives.

EDITOR FINDS MOVING IS NOT AN IDEAL JOB

The editor has been engaged in the most disagreeable job this summer we have had for several years. The last two weeks in July we took upon ourselves to move our household effects to our recently purchased farm fourteen miles south of town and before we recovered from that ordeal we undertook to move our office fixtures, machinery and stock, which has been a much greater task of endurance than the first act. We are now situated in the Mathews building on Main street, where we have been wanting to occupy for a long time, have our machinery all set and most everything in place, but are so tired and worn out, it is difficult for us to generate enough energy to put out a paper. The paper will be printed, and we hope it will be readable, but we would hate to have to put out two papers feeling as we do after this awful grind of moving. We hope we don't have another moving period soon.

West Texas Utilities Reduces Rate For Domestic Purposes

Abilene, Texas, August 20. — A new system of domestic electric rates, measuring all service through one meter an affecting a 20 per cent reduction on the second and third blocks, has been announced from the General office of the West Texas Utilities Company at Abilene. The new rate schedule is effective on current billings.

With the object of encouraging a greater use of electric service, the new rate schedule allows a premium to those domestic customers taking full advantage of the conveniences of electric service.

The new schedule makes it possible to use all household appliances including electric refrigerators and ranges on a one-meter service. The company has been working the last two years adjusting its rate schedules through the properties so as to be able to perfect a plan allowing one-meter service and at the same time have a rate with a strong incentive for a customer to use several times as

(Continued on Page 3)

LEG BROKEN WHEN FORD RUNS AMUCK

W. E. Smith, representing the Sherman Nursery, is in the Sealy Hospital suffering with a badly broken leg. He was near Lohn in McCulloch county, Monday, when the radius rods in his Ford car gave way, causing his car to run into a ditch, turned over and badly crushed his left ankle. He is reported to be resting nicely and on the road to recovery.

Home Industry Market Reaps a Profit

Tyler — Dressed poultry was the best seller with fresh vegetables a close second at the Woman's Home Demonstration Market in the Court House. Total receipts for the month were \$187.52. Hooked rugs for bridge party prizes were the advertising novelty special pushed for the month.

Texas Cotton C. A. Has An Increase In Its Business

Dallas, Texas, August 20.—The declining cotton market has turned thousands of bales into pools of the Texas Cotton Cooperative Association this week from farmers who are unwilling to sell at present levels. The association has handled several hundred per cent more cotton to the present date than was ever before handled in the same period by a cooperative marketing association.

Eighty per cent or more is being advanced against the present value of cotton. In addition to low interest, insurance, and warehouse charges, the association pool gives an opportunity for the cotton grower to realize 100 per cent on his investment upon a two-cent market advance. Association officials point out that if five bales are placed in the pool, with a value on today's market of \$250 and the owner receives \$200 at once, he has invested \$50 in the

(Continued on Page 3)

THAT COTTON LEAF WORM MAY BECOME SERIOUS FEARED

College Station, Texas, August 20. — Predicting general damage to Texas cotton from leaf worm ravages should showers extend over the State, R. R. Reppert, Extension Service Entomologist, has sent emergency suggestions for control to all county agents. Scattered infestations of the leaf worm have been reported as far as the Oklahoma border, but a general campaign for control is unnecessary on the basis of early August information, he says.

In his letter to county agents Mr. Reppert says: "Dusting with calcium arsenic is the approved method of leafworm control, using from 3 to 5 pounds per acre. Where dews are not experienced spraying with the same material, using about 2 pounds to fifty gallons of water, will be the best method, keeping the mixture well agitated during application. As long as calcium arsenate can be obtained, we would advise against the use of Paris green, although where necessary this can be used. In the case of dry dust the addition of at least four or five parts of hydrated lime to one part of

poison should be used, and in the case of a spray at least an equal amount of the same material should be added. We advise against the use of white arsenic, mixtures of white arsenic and sal soda, or of stock dips.

"All the information that we have at present indicates that poison supplies are adequate to present needs. In the face of sudden demand, however, farmers in some sections may find it difficult to obtain the poison in time to save their crops. It will be well for individual farmers to anticipate their needs by laying in supplies of poison at once to meet their minimum requirements. As we analyze the situation it appears certain to us that farmers in general will have to fight the leaf worm before the present crop is made, except possibly in the extreme western part of the State and in sections of the coastal area where the crop has already been made."

There is really nothing wrong with the rising generation, once it gets up in the morning.

Interest In Library Growing

Each week adds new readers to the list of subscribers to the Public Library, and new books are added to the shelves at intervals.

Let your children have this advantage during vacation:

National Guard Returns From Summer Camp

The Howitzer Company, Texas National Guard, composed of 55 officers and men returned last Saturday from Camp Palacios, where they spent three weeks in annual encampment. According to data from some of the men, they had a great time in camp this year, and the Santa Anna unit won several honors. We will attempt to get a detailed report from some one of those who attended in the near future. The writer is not very skilled in writing articles on tactics pertaining to the work done by the National Guard.

Santa Anna Girl Marries Houston Man

The wedding of Miss Lelia Faulkner and Lester J. Clayton was solemnized Saturday, August 2, at eight o'clock, at the home of Rev. T. J. Windham, "The Marrying Parson," of Houston.

The bride was charmingly attired in a white sports suit. She was given in marriage by her brother, Loris Faulkner, of Dallas.

Mrs. O. C. Petty attended the bride as matron of honor.

The groom's best man was Mr. Clem Yeager of Houston.

Following the ceremony a small reception was held at the home of the bride and groom.

The rooms were tastefully decorated with cut flowers.

The dining table was laid with a lace cloth over green and held the wedding cake, surrounded by orange blossoms.

A refreshment course was served.

Mr. and Mrs. Clayton are at home at 3903 Woodleigh, Houston, Texas.

One Present.

MAIL ORDER HOUSES FLOODING COUNTRY WITH CATALOGUES

During the past two weeks, several truck loads of catalogues from a well known mail order house in Texas has been distributed in this territory, which indicates the mail order houses are going to be active this season.

The mail order houses believe in advertising, and keep an eye on the communities and small towns where the merchants are not advertising their wares and other merchandise. The mail order houses usually are alert to the situation, and most always get in their advertising just before the merchandise is in demand, so as to familiarize the public with their goods and prices. They prey heavily upon territory where local merchants let up in their advertising in the home town papers. Especially should dry goods merchants, hardware and furniture merchants take notice of this fact and start some advertising in their home paper. Your main competitors, the mail order houses, if you please, are going after the business early and it is going to require some effort

and printers ink to offset their bids already made for the ensuing seasons business. A word to the wise is sufficient, otherwise, see who gets the business!

Canning Garden Surplus to Increase Winter Rations

Cooper — Delta county merchants who have kept records report that over 3,500 cans have been sold this summer to 4-H party demonstrators and co-operators who are working to fill their canning budgets. These women, 109 in number, have a systematic plan to can a sufficient amount of vegetables, fruit and meat to meet the requirements of an adequate diet thru the winter months. Beans, peas, squash, greens, carrots, corn, okra, tomatoes, pickles, soup mixtures and chicken are some of the foods that have been canned from the farm surplus.

Front wheels of most automobiles toe in.

A Deserved Development

It is no mere accident that the growth of many Santa Anna and Coleman county commercial, industrial, ranching and farming institutions run parallel to the growth of the State National Bank. There is an essential relation between these varied lines, based on the bank's capacity for rendering financial counsel and guidance and summed up in the word—

Cost Old Alcalde Just "Four Bits" For Gubernatorial Nomination And He Borrowed It From A Bartender

By DABNEY WHITE
In Dallas News

All Texas is today uncertain as to the name of the next Democratic Governor of Texas, while under the old convention system that we had fifty years ago, we were equally uncertain as to who would be the Democratic nominee in the Hubbard-Throckmorton contest for the Democratic nomination. O. M. Roberts became the compromise nominee.

It will be remembered by a few that the Hubbard-Throckmorton contest was very acrimonious and exceedingly close. The delegates to the Democratic convention cast many, many ballots and so close was the contest that the change of the vote of even one minor county delegation would have made either Hubbard or Throckmorton the nominee of the convention, which, naturally, at that time would have resulted in the nominee being subsequently elected Governor of Texas. After many ballots had been cast, it was finally decided by the leaders of each faction that it would be impossible to secure the necessary number of votes for either candidate so at a midnight conference these leaders agreed to tender the nomination of Chief Justice O. M. Roberts, who was then living in Tyler.

Borrowed "Four Bits" In Bar.

It is now recalled by old-timers that Justice Roberts was then living in his suburban home near Tyler. A telegraph

messenger was sent to his home bearing the message, signed by the leaders of the Hubbard and Throckmorton factions, tendering him the nomination. A few days later he rode into Tyler on his fan-tail and spotted pony, wearing that historic Prince Albert coat and smoking that notorious cob pipe and dismounted and hitched his horse to a swinging limb on the courthouse square. He then walked over to a near-by groggery and met a group of his friends and neighbors who were waiting for him there. A moment later, these friends lined up with their feet on the brass rail and eagerly awaited the decision of Justice Roberts as to accepting or declining the tendered nomination. Every friend there urged him to accept the nomination. He hesitated for a few moments and finally called the bartender by name and said: "Lend me 'four-bits' and I will tell that convention now in session that I will accept the nomination." A few moments later the telegram was on its way and an hour later Justice O. M. Roberts of Tyler had been nominated. Judge Roberts was a very poor man then and he did not hesitate to ask the bartender for the loan of "four-bits" in order to accept by wire the honor of being his party's nominee for one of its greatest offices.

People Knew Roberts.

This instance is strikingly dis-

HISTORY'S MYSTERIES

Unsolved Riddles That Still Puzzle Authorities Here and Abroad

Who Killed James Maybrick?

BOTH on account of the fact that she was the daughter of a banker in Mobile, Ala., and because the death of her husband was surrounded by the most mysterious circumstances...

Following the brutality of her husband, Mrs. Maybrick sued for a divorce but, on account of the children, the couple were reconciled and lived together quietly for a short time.

In spite of the fact that minute examination of the body disclosed the presence of only one-tenth of a grain of arsenic and medical authorities stated that two grains was the smallest dose which could possibly prove fatal...

But, as the concluding statement of the counsel for the defense showed, Mrs. Maybrick had been the first to give the alarm when her husband had been taken ill and, as her lawyer put it, "if she had wished to set every one in the house and the doctors themselves on the scent of poison, she could not have acted differently."

Just Before the Battle
Wife—Good-bye.
Hubby—Why do you pity me?
Wife—When she got angry at Adam she couldn't threaten to go home to mother.

Tests recently made indicate that orange is the hardest wood grown in the United States.

THIS MALIGNED MONTH

Can anybody tell for sure why August is the month most maligned?

It is not our hottest month, as the United States weather bureau's records prove.

But since all decent people like dogs—man's best friend as our best poets assert—why assume that the meanest days of the year are good enough, but good enough only for dogs?

And if snakes go blind in August, which they do not, then it might be regarded as our best month.

Somebody said that the New England mothers used to frighten their children to sleep by saying Thomas Jefferson.

What ever we think of August it is doubtless the month during which fewest important events in American history have occurred.

Still, this month is the anniversary of the signing of the Declaration of Independence.

In Santa Anna the climax of summer comes in August and you get the first whiff of an autumn suggestion only "when the wind blows over the Oats stubble."

No time can you hear more often the plaintive night call of Mr. Whip-poor-will than in the balmy month of August.

The writer once knew a certain tree whereon in late August the reddest Sally apples were ripe for adventurous boys.

Choke cherries glistened along the fence row, and roasting ears were ripe.

Away with your August hoodoos! It is a glorious month and merits entomiums, not brick-bats.

PATIENCE

In retrospect, events may seem to have moved swiftly enough, and we may think also that other men make quick progress toward success, but it is rarely that our fate and fortunes unfold at the pace we would choose.

Interruptions and disappointments, irksome, trivial and beyond our anticipation and control, arise daily to check and prolong our labors, and it needs no less patience than endurance to weather small storms and accidents.

But the passage of "time" in itself contributes to achievement and for this we may forgive the delays that prevent us from too headlong a course.

True patience is not merely a dull endurance of the hazards of fortune. It is rather the habit of turning to some account the changes and chances that lie in our path, so that when our high opportunity comes we may be ready for it.

Things Worth Knowing

It is said that the Carthaginians once used leather as money.

Reindeer meat has become of sufficient importance for the United States department of agriculture to prepare a leaflet of recipes.

The custom of a man's removing his hat before woman may be a survival of the knightly custom of removing the helmet in the presence of women and other persons not feared.

Jupiter has at least nine moons, the largest being about four times the size of our moon.

A single mink has been known to catch as many as eighty fish in one night.

"GETTING SOMEWHERE"

Leaders of nation-wide prominence in the prohibition field took a great forward step by announcing a new attitude toward enforcement...

This move will not only place such zealous contenders for the success of prohibition on a more influential program of their work, but will serve to clear the minds of many honest persons who have not fully understood such basis of leadership.

Prohibition has caused a greater division of opinion than has any other subject before the American people.

But the Americans do not seem to start big things or finish big things in August, is there something sinister about the reign of the Dog Star?

This theory had its counterpart in the well-founded accusations of drys that many of the wets believed in and acquiesced in the violations of the liquor laws because they didn't approve of them.

From a legal viewpoint all articles, clauses and amendments of the Federal and state constitutions are of equal effect.

The question of the prolongation of human life has been revived by the visit to the United States of Doctor Serge Voronoff, surgeon of Vienna.

The public never has taken such assertions seriously, yet it must be admitted that processes in health, strange to the layman, have been introduced with considerable success by natural science.

Mr. S. H. Phillips returned last Saturday from Gonzales, where she has been the past several months with her mother.

Mrs. Lester Johnson and daughters Delia and Martina, and son Eldon, returned Friday from Goldthwaite, where they have been visiting relatives and friends for the past two weeks.

Oden Brown made a business trip to Fort Worth and Dallas last week.

Texas and Texans

By WILL E. MAYS

Forward, Texas!

With the heat of an unusually warm summer and the passion of politics following a season of talk of "hard times," there is a disposition to inactivity in some parts of the State from which it will be difficult to escape.

Even if one doesn't feel like doing much in August, it is the best of all months for making plans for fall activities.

Bastrop Pulling Up

For many years Bastrop seemed to have that "satisfied feeling." Most of its brightest young men and women left the old town for Austin and other progressive places, leaving the satisfied old folks largely to carry on as they might like.

The older folks who no longer care to see the town grow, are turning over the management of things to the younger and more active and Bastrop gives promise once more of being a leader among the progressive towns of its rich section.

Wimberley Summer Resort

At the invitation of friends this writer has spent a week-end at Wimberley, a Hays county village some 40 miles from Austin, located between the shaded banks of Cypress creek and the Blanco river.

Blaming the Press

Most of the defeated candidates are blaming the press for their defeat, claiming that the newspapers ignored them and gave prominence to the candidacy of their more fortunate opponents.

Enlarging Hatcheries

The announcement of the Leader-News that the Uvalde Hatchery is being doubled in capacity is in line with the progress of the chicken hatchery business throughout Texas.

SPEED AND ACCIDENTS

Does speed without any other consideration contribute to traffic accidents? This is a much mooted question, so much so that some of the States have removed speed restrictions by legislative enactments.

They are expert authorities who make a good case in favor of restricting speed, on the ground that speed alone is a dangerous factor.

If this particular case proves anything the situation is rather to be regretted. It has been hoped by many that speed of a car was not necessarily dangerous, and that other factors involving fewer questions of economy of time might be given attention.

Even with the test in question, we can not but believe that there are many elements of hazard greater than those of fast driving which is coupled with due care and consideration for traffic conditions at the time.

Mr. and Mrs. Ed Ewing, Mrs. J. W. Taylor and Mrs. G. W. Faulkner were San Angelo visitors Thursday.

The one tunnel on the Missouri-Kansas-Texas railroad is at Rocheport, Mo.

Trailers more than thirty feet long are against the law in Ohio, the attorney general ruled.

A single fly may lay as many as 600 eggs, which hatch in a day.

A flock of a few hundred egg producers, the profits from which will be as great as from the cotton crop.

So Much More For Your Money at MARSHALL'S A Good Store--with Lower Prices individually owned and operated by Santa Anna people. Spending at this store is saving! Let us help you be thrifty now, at a time when it counts most.

Cost Old Alcalde

(Continued from Page 1)

Similar to the experience that various candidates are now having in seeking the honor of being the next nominee of the Democratic party for the position of Governor...

Texas was in financial troubles when O. M. Roberts became Governor of Texas. In short, the people had been spending more money than the tax revenues amounted to.

All students of our State's history concede today that O. M. Roberts had during his entire lifetime a very beneficial influence over this State during the time he was active in its affairs.

No public man in Texas ever had a greater or better influence over the bench and bar of Texas than did Governor Roberts. As the head of the law department of the university his influence extends even to this day for many of the most outstanding lawyers now on the bench or practicing attorneys learned the rudiments of the law from his lips.

He never missed any opportunity to praise a great statesman or defend his party's principles and it usually required the time for his class recital for him to do either which saved many students from being unable to discuss intelligently the points for that day's lesson.

One of the old class discovered a letter recently that Governor Roberts had written to the regents of the university in which he declined positively and plainly a tendered pension for his old age.

This instance recalled to the mind of another the fact that a great lawyer from New York visited Texas about the same period, primarily to discuss a law point with Governor Roberts...

Oh, yes, I have ample provision for my old age, as I have provided for myself \$40 per month.

Texas had an exciting election during the Roberts administration. The voters of Texas were then called upon to select a permanent home for the to-be-erected University of Texas.

Under the present political conditions, may we not justly wonder if we are getting under the present primary election system better men or a better government?

Parenthetically — We who knew him intimately and loved him devotedly, believed Governor Roberts to be omniscient except in orthography. He could not spell correctly either one of the words in this paragraph.

CHALLENGE TO PARENTS

A challenge has been issued to the parents of the United States by the bureau of education that says that about half of the four million children who enter the first grade in the elementary schools each year fail to reach the second grade.

This represents an enormous waste in education from a financial standpoint because the cost of educating a child runs on the average to \$75 a year.

It also means a useless waste of time for a child to spend two years where one year should be sufficient.

The solution lies in the hands of parents. How well they will meet the challenge remains to be seen.

In the majority of cases, failure of children to make passing grades the first year, investigation has shown, is due to physical and mental defects.

The appeal then, is to parents to have children as near perfect as possible, physically and mentally, before entering school for the first time in September.

It is a problem that should command the serious consideration of every parent and school teacher.

The fellow who kept cool with Coolidge is getting hot with Hoover.

Silkworms have to be fed specially regulated diet in order to produce cocoons that are uniform in color and size.

Celebrates Birthday

On last Wednesday, August 13 Mrs. M. A. Collins, one of the pioneer settlers of this section, celebrated her 88th birthday.

Quite a number of children and grand children were there to enjoy the delicious dinner which was prepared by Mrs. Curtis Collins and Mrs. W. P. Collins of Lometa.

Clyde Weathers and family have moved back to town from Whon. He is working at one of the Gins.

Dr. Hunt Spoke

Dr. Hunt spoke for each 2-cent advance his profit will be \$50, that is \$10 on each of his five bales, and 100 per cent on his investment.

The company plans to release through the local newspapers in the towns served, a series of educational advertisements explaining the new rate schedule and enlarging upon the economical conveniences of the increased electric service.

No Preaching at Trickham-Cleveland Sunday, August 24

Pastor O. A. Morton of Rockwood requests us in a letter to announce that due to his being engaged in a revival at Fife, he will not be able to fill his regular appointments at Trickham on Sunday morning and night, or at Cleveland Sunday afternoon.

Hugh Phillips and family and Miss Velda Moore of Cleveland community left last week for Tipton, Calif., for a visit with Mrs. Phillips father, W. A. Mills.

Texas Cotton C. A.

(Continued From Page 1)

much service as under the old rate without materially increasing his total bill.

This is in line with long-established policies of the West Texas Utilities Company to lower rates as economies and increased business will permit.

The company plans to release through the local newspapers in the towns served, a series of educational advertisements explaining the new rate schedule and enlarging upon the economical conveniences of the increased electric service.

GIRL SCOUTS, TROOP NO. 1

During the summer the Girl Scouts of Troop No. 1 have made notable advancements. Through the warm days the girls have labored diligently in order to promote Scouting in Santa Anna.

Several of the girls are now wearing such badges as Child Nurse, Cook, Dressmaker, First Aid, Housekeeping, Home nurse, Hostess, Motorist, Scribe, Swimmer and Observer. The girls are better fitted to meet the problems of life.

Troop No. 1 now boasts of two first class scouts, namely: Bess Inez Shields and Beth Barnes. These girls have also earned a large number of merit badges. Bess Inez also has a Junior Life Saving badge. All the girls are to be complimented for their good work and faithfulness.

We hope to have in the near future a house that we can call our own for we feel that we can then do better work.

We wish to extend our invitation to all girls over ten years of age to come and join our troop. We meet each Wednesday afternoon at 4 o'clock at the City Hall.

Sec. oh see! The Scouts are coming in. Once they join, they stick through thick and thin. And when they play the game they're pretty sure to win. Come join us. We need you. Come in.

Rev. Jos. I. Patterson was not able to preach last Sunday on account of a tonsil operation a few days previous. His pulpit was filled Sunday morning by Mr. J. W. Goslin, a layman, from Coleman. At night A. L. Oder preached and the Rev. Jorgens of Houston led in singing.

Go to Church Sunday.

To The People of Coleman County

I have tried to see as many as possible to thank them in the first primary and to ask for a fair consideration in the run-off.

I have no relatives or group of people working for me on the account of any personal reason. I am running altogether upon what little qualification and ability I might have.

I shall appreciate a consideration from all the people of the county. If successful, I shall do my very best in every way for the rural schools.

Yours very truly, JOHN L. BEARD.

MAYO AND LONGVIEW HOME DEMONSTION CLUBS MEET

The home demonstration club met Monday, August 4, at 2:30 in the home of Mrs. Emory Brown, with fifteen present, including one visitor and five new members. New members were Mrs. A. Weaver, Mrs. D. Henderson, Mrs. L. Newman, Mrs. A. Stiles and Mrs. A. Guber.

Minutes of the last meeting were read and approved and Miss Gertrude Brent demonstrated several decorative stitches.

During the social hour, which followed the program, Mrs. Brown served refreshments of cake and lemonade.

The next meeting of the club will be September 2, at the home of Mrs. Jim Daniel. At this meeting Miss Brent will teach the making of rugs from gunny sacks.—Reporter.

Miss Edith Brannon of Brownwood visited in the home of Mr. and Mrs. Mace Blanton Sunday.

Miss Kathryn Rose Pinney was a week-end visitor in Coleman with Miss Eileen Barnes.

IT'S WISE TO CHEVROLET CHOOSE A SIX

Announcing a new production record

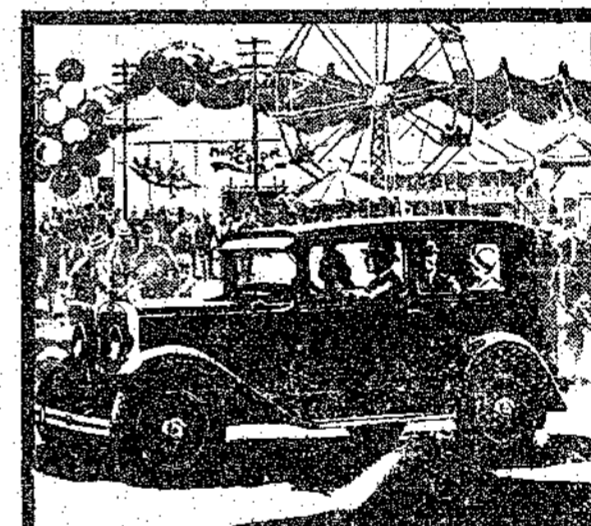

2,000,000 Chevrolet Sixes now on the road

Since January, 1929, Chevrolet has produced and sold over 2,000,000 six-cylinder automobiles—nearly five times as many as any other manufacturer has ever built in an equal length of time.

These 2,000,000 buyers have chosen Chevrolet because it offers many desirable qualities not obtainable in any other car so low in price—

—the smoothness, silence and flexibility of a modern six-cylinder engine—the comfort and roadability of a modern, full-length chassis—and the style, safety and distinction of bodies by Fisher.

Yet, despite these fine car advantages, the Chevrolet Six is unusually economical. Its gas, oil, tire and upkeep economy is unsurpassed. And

The Coach, \$565, J. O. b. Flint factory

any model can be bought for a small down payment and easy monthly terms! Come in today. Learn for yourself why two million buyers have agreed—"It's wise to choose a Six."

Some Distinguishing Features

50-horsepower six-cylinder motor... 48-pound crankshaft... full-length frame... four semi-elliptic springs... fully-enclosed four-wheel brakes... four Lovejoy hydraulic shock absorbers... dash gasoline gauge... Fisher hardwood-and-steel body... adjustable driver's seat... safety gasoline tank in the rear... non-glare VV windshield... and, for your protection, a new and liberal service policy.

Modern production methods assure high quality

This is the final week of the political campaign in so far as nominations are concerned for the Democratic party. Considerable interest is being waged in the governor's race and also for attorney general Ross Sterling and Jim Ferguson as shelling the woods, prairies and canyons trying to sell themselves to the voters, and both are claiming victory.

The Santa Anna News received a check for \$3.00 this week from J. S. Johnson, Prince Albert, B. C., Canada, to pay for his subscription to the News for a year. This is the only foreign subscription now on our list.

President Hoover has called in a dozen governors from as many states affected by the long, dry spell, and is busy trying to find a solution to the problem. The situation is reported to be much more serious in several of the Southern States than in Texas, and it is serious enough here.

SINGING EARTHWORMS

A German biologist claims to have established the fact that earthworms sing. There ought to be a moral to that for human beings who are permitted to live above ground.

The earthworm has a lonely existence and no hope for the future. The only ambition he can nourish is to become tempting bait for fish.

We who are favored with the sense of sight and hearing are taught that there is still more in store for us after life on earth, should never have reason to be discouraged.

A local butcher remarked the other day that his traveling boy had just returned from his third honeymoon.

The Seri Indians, who live on an island in the Gulf of California, have sometimes been called the "armless people in all of North America."

The first juvenile court in this country was established in Cook county, Illinois, in 1899.

HISTORY'S MYSTERIES

Unsolved Riddles That Still Puzzle Authorities Here and Abroad

The Origin of the Stars and Stripes

AT THE outbreak of the American Revolution most of the states adopted flags of their own. The Connecticut troops who participated in the battle of Bunker Hill had a banner bearing the coat of arms of their state with the motto, "Qui Trantullit Sustinet." The Massachusetts troops fought under the words, "An Appeal to Heaven," while early New York records allude to other different standards.

John Paul Jones has left it on record that the "flag of America" was hoisted by his own hand on his vessel, the Alfred, this being the first time that this emblem was ever displayed on a man-of-war, but no exact date for the display of the Jones flag is given.

According to the available records, congress adopted a resolution on June 14, 1777, which read as follows: "Resolved, That the flag of the thirteen United States be thirteen stripes, alternate red and white; that the Union be thirteen stars, white in a blue field, representing a new constellation."

It is claimed that the first use of the stars and stripes in actual military service was at Fort Stanwix in 1777. On August 2 of that year the fort was besieged by the British and Indians, and the garrison being without a flag, one was made in the fort.

There are several available answers to the question: "What suggested the Stars and Stripes?" Some authorities maintain that Washington found in the coat of arms of his own family a hint from which he designed the flag, this device being two red bars on a white ground, with three gold stripes above the top bars.

Got His Pipe Back

Two years ago a Holyoke (Mass.) man lost a favorite pipe on a fishing trip near North Dana. This year he visited the same district for the first time since the loss of the pipe, and stopped at a little store where he had bought ice cream on the former trip.

Game of Chance

Two parishioners were discussing the morals of their respective parish priests.

"Our clergyman," said one, "is so straight that he wouldn't even perform a marriage ceremony."

"Goodness," replied the other, "what has that got to do with his morals?"

HISTORY'S MYSTERIES

Unsolved Riddles That Still Puzzle Authorities Here and Abroad

The Wandering Jew

THERE is little mystery to the story of the "Wandering Jew," so far as the personage himself is concerned, but there is a deep and as yet unsolved mystery about the origin of this legend, dealing, according to the Jewish encyclopedia, with a shoemaker who, training Jesus on the road to Golgotha, was told by him to "Go on forever till I return"—or, according to the more popular version, "Tarry thou till I come."

No one seems to know just how this story started. So far as can be learned, the legend first appeared in a pamphlet of four leaves printed at Leyden in 1602 by Christoff Crutizer, but no printer of that name has ever been located, and the real place and printer cannot now be ascertained.

According to Behmer, one of the recognized authorities upon subjects of this kind, the legend is founded on the words given in Matthew 0:28, which are quoted in the earliest German pamphlets of 1602.

The action of Malchus is associated by several biblical commentators with the scolding of Jesus and an actual predecessor of the wandering Jew is recorded in the "Flores Historiarum" by Roger of Wendover in 1228.

Monseur D. Conway attempts to connect the legend with those of other "immortals"—King Arthur, Frederick Barbarossa, Don Sebastian of Portugal, Thomas the Rhymer and even Rip Van Winkle, claiming that all are founded on the same belief in the immortality of certain prominent personages, some of which are notable for their praiseworthy exploits and others for crimes which they must expiate by centuries of bodily suffering.

Numbers of persons have presented themselves as the "Wandering Jew" and have gathered varying numbers of believers in their statements during the past three centuries—the most notable of these being Count Cagliostro, the Italian impostor who stopped at nothing in order to attain his ends.

Another man representing himself as the same character appeared in the Netherlands in 1775, arriving at Strasbourg a few years later and presenting himself before the magistrates, informed them that he had visited their two cities two centuries before, which is said to be proved to be true by "reference to the registers of the town, wherein the stranger pointed out an entry about himself and also called attention to names which he mentioned before they were shown to him."

The "Wandering Jew" was next heard of in the West Indies and, in 1804, he made his appearance in France, where he caused a considerable sensation. On April 22, 1774, the Wanderer, or an individual who impersonated him, appeared in Brussels under the name of Isaac Laquedem and only a few years ago another claimant to the title made himself known in central Germany—but not one of these surrounded himself with the atmosphere and apparent sincerity of Cagliostro, a confessed impostor, who had so grounded himself in history and language as to be able to speak with apparent authority about every event of importance which had taken place since the beginning of the Christian era.

Know One of Them

An old negro, spending last summer in Massachusetts with his "white folks" near the South, believes there is nothing worth knowing that has escaped his employer's mind.

When he heard the cook reading from a paper that only 12 men in the world were capable of understanding the Einstein theory, he said: "Dinah, read dat piece again and see effen dat specify wuh de other seven men is 'Ades Kuntal Jackson.'"—Boston Globe.

Life's Unchanging Law

Blessed is he who gives, and he who receives. This is the universal law of life. The world is a storehouse from which we can take out no more than we put in. The returns we get are measured by the service we give.—Orin.

Go to Church Sunday

COAL BY-PRODUCTS

From 80 to 95 per cent of the energy stored in coal is lost when it is burned in furnaces or stoves. It is only the gas in the coal that is burned and much of the heat is lost, as well as all of the valuable by-products when coal is burned raw.

By modern gas-making methods each ton will produce approximately 11,000 cubic feet of gas, 1,400 pounds of coke which contains as much heat as an equal amount of coal, 5 pounds of ammonia liquor, one and one-half gallons of benzol, ten gallons of tar, and a considerable amount of sulphur and naphthalene.

The gas can be burned with an efficiency of 80 per cent; the coke can be used as fuel or turned into additional gas by the "airbretted" water-gas process; the sulphur, ammonia liquor and naphthalene can be converted into chemicals and fertilizer, and from the tar can be obtained lyes, perfumes and drugs.

THE SIZE OF THE APPLE

Commercial apple orchardists have long wanted to know how big their apples would grow. Sales of apple trees are contracted in some sections of the country early in the season and errors in judging the probable supply of large and small apples have frequently "upset the applecart" and disturbed the financial expectations of the orchardists.

According to the study made by the United States Bureau of Agricultural Economics in the Hood River Valley the amount of moisture during the fruiting season is held practically constant by irrigation and the little variation in summer rainfall, and summer temperatures have a marked effect upon the growth and development of the apple.

Extremes in temperature, either hot or cold, tend to check growth with consequent maturity at smaller sizes. In some years the length of the season and amount of rainfall in summer apparently have some influence upon size, but the effect of these factors is not as pronounced as that of temperature.

Pruning, cultural practices, and the use of fertilizer were management factors found to have an important influence upon the conclusion is reached that unless there is a marked shift in these practices from one year to another they are not likely to be important for the entire valley in any one year. No systematic record of thinning or other cultural practices, however, is available, so the influence of these factors can not be measured.

CAMPING SAFEGUARDS

An increasing number of people make a camping trip their vacation. And those who do not go camping frequently take part in picnic parties that lead them to the country for meals.

A word of caution about the dangers to be avoided by those unaccustomed to "roughing it" may be the means of saving lives.

There is plenty of advice to be found on this subject, the most important of which is making certain that the drinking water is pure. If there is any reason to believe that water for drinking purposes is contaminated, it should be boiled so as to eliminate all dangers of taking into the body germs that may bring on fatal diseases.

It is well to remember that rippling streams and bubbling springs, although beautiful to the eye, are not what they seem and are only in rare cases as healthful as water supplied by

the water companies and municipal governments.

A first aid kit is the prerequisite of any camping party, especially if the camp is situated far from a physician. A useful first aid kit should contain a few articles that would be helpful in giving first aid and a few simple remedies that may be taken without medical advice.

Wise campers will avoid flies and other insects and pests. Experienced campers say that tents should be pitched on the top of a low ridge or on the summit of a knoll with gently sloping sides. All underbrush should be cleared away because it is frequently a shelter for mosquitoes.

Kitchen and mess tents should be screened and dishes should always be washed in boiling water. All garbage should be placed in covered receptacles and promptly disposed of. The best method of disposing of all wastes is by burning.

Most of the trials of being a movie star seem to be held in court rooms.

It is no trouble to get a boy to take baths. Just let him water the lawn with the hose.

The only thing harder to carry than two watermelons is 3 watermelons.

Automobile drivers all agree that roads should be made wider—also shorter.

A man who weight 210 pounds on earth would weigh only thirty-five pounds on the moon.

Forty-eight of the ninety-two elements are known to exist in the sun.

The world's population is now estimated at more than 2,000,000,000, Asia having more than half of this total.

Farmall Price Reduced!
We have just received a big piece of power farming news—the McCormick-Deering FARMALL price has been cut \$60, and we are at once passing the information on to our customers.

We are glad to be able to make a reduction in the FARMALL tractor price at this time because right now the farmer is seriously in need of anything that will help him to cut down his costs of crop production.
"Due to manufacturing economies and anticipated reductions in material costs, we were able to reduce prices on the McCormick-Deering implement lines, effective for the present season.

Now, to complete our program of reductions, we announce a \$60 cut in the price of the FARMALL.
These price reductions, made during recent months, mean a saving to farmers of millions of dollars.

As the original all-purpose tractor the McCormick-Deering FARMALL has won tremendous popularity. More than 100,000 FARMALLS have been built. Already this tractor has created a real revolution in farming. It is the best investment a farmer can make.
The new price, \$990 delivered is the lowest ever placed on the FARMALL.

If it isn't a McCormick-Deering, it isn't a FARMALL.
Powell-Garrett Truck & Tractor Co. Santa Anna Coleman

Students Turning to Business Training

When economy becomes the rule, as it has during the last few months, the advantages of business school training, over four years academic courses, becomes more apparent than ever.

That is why an increasing number of young people are planning to enter the better business colleges this fall.

A large percentage of these young people in the Southwest will naturally select Tyler Commercial College and School of Business Administration, Tyler, Texas, the largest and one of the oldest schools in the entire South. Even now over forty universities and colleges are represented in their student body.

Three main factors confirm the choice of a business training school in the minds of ambitious young people. They are, first, the excellence of the training systems and the ability of instructors; second, the adaptability of the training to their own needs, or to put it another way, the number and variety of courses provided; third, the low cost of time and money.

The big school at Tyler provides thirty-nine different courses and combinations of courses, which makes it the logical place for any young man or woman to train for the particular business career he desires. Tyler Commercial College is said to be the largest business training school in America from the standpoint of ground covered in its courses.

Its faculty is recognized in educational circles over the Southwest for the high standing of its members and their accomplishments in the field of practical education.

The training system followed at Tyler Commercial College and School of Business Administration has been widely copied by other schools, but the progressive policies of the Tyler institution keep always in the lead. Students who enroll at Tyler Commercial College find the costs of living exceptionally low, and so rapid is their progress that they are able to save several weeks of training and earning time. The school maintains a loan fund which also helps greatly in simplifying the student's financial problems.

If you are ambitious to seek the success which so many others have found in the world of business, write to Tyler Commercial College and School of Business Administration, at Tyler, Texas, for a copy of the book "Achieving Success in Business," which will be mailed you free. New classes open each day. You may begin at any time.

Howard Lee, little one-year old son of Mr. and Mrs. Howard Lovelady, was treated to a birthday party last Friday evening, in honor of his first anniversary. Several little games were played and ice cream and cake were served to the following: Alice Jane Ray, Jr., Ruth Lovelady, Carleen Henry, Lee and Maudie Catherine Ashmore, Emma Lee Ledford, Fay, Ruth, Charles and Cleo Chambers. Several gifts were presented.

A bird's egg must breathe air or the embryo within is asphyxiated.

Baptist Church

Next Sunday starts another Association year and we are praying that it will be a far better year with us than the one just closing. Our report to the Association shows that we have received 39 into the fellowship of the church this year — 72 by baptism and 18 by letter. Our Sunday school attendance shows a good increase over last year.

Let's all prayerfully labor together to make this a better year in every way, especially in a spiritual way. Regular services Sunday with the pastor preaching at both hours. If you love the Old Book and like to hear it preached, come out. We invite all the heart hungry to come to our services. We will strive to help you by bringing a message from God's Word.

HAL C. WINGO, Pastor.

MISS THESALONE EUBANK
WEDS PAT H. PETTWAY

The home of Mr. and Mrs. Winston Palmer, 2311 Durham Street, was the scene of the wedding of Miss Thesalene Eubank, daughter of Mr. and Mrs. C. E. Eubank, of San Angelo, and Pat H. Pettway, of Austin, on Monday evening at seven forty-five o'clock. The marriage service, read by Dr. A. E. Prince of the First Baptist church, was performed before an altar of flowers and ferns and only close friends and relatives of the couple attended.

At the ceremony the bride wore an attractive model of navy crepe with accessories to match and for the wedding trip she chose an ensemble in black and white.

The wedding will be of interest to many friends here of the couple as they are both well known in Brownwood. The bride formerly made her home in Brownwood, attending high school at this place and later graduating from Howard Payne college. She was prominent in college life and social activities in this city.

Mr. Pettway is a graduate of the University of Texas and the son of an Austin doctor. He is connected with the Burroughs Adding Machine Company, in San Angelo. After a wedding trip to points in New Mexico, Mr. and Mrs. Pettway will make their home in San Angelo.—The Brownwood Bulletin.

The fourth assistant Postmaster General handles the mail department. We've often wondered what the Postmaster General and his first, second and third assistants do for a living.

C. H. Todd left Monday for a visit with relatives at DeLeon, and incidentally, prospecting for a job.

GOOD AS GOLD

Every day of your life you exchange real money for certain goods or services that you believe are "as good as gold."

You must have confidence in their merit or your exchange is a gamble; a blind horse trade that may mean loss.

The products you know best—the articles that represent the greatest value—are usually that products you have seen advertised.

Only honest products can thrive in the light of publicity. The honest dealer advertises his faith in his products to the entire world.

That is the reason you can place dependence in advertised goods. You may know that dishonest products will stand the constant scrutinizing of the buying public that advertising brings to them.

Read the advertisement and buy advertised goods. There is no way to get more "good" for your gold.

NOT SO BAD

Three women in New York took one-day flying lessons, after which each made a successful solo flight. This does not prove that all other normal persons could do that, or that any considerable number of persons could accomplish the art of a pilot in one day sufficiently to make a safe get-away, flight and landing. It doesn't prove that people are any more intelligent today than yesterday, but it does prove that planes are being made safer and better, and that women are quite capable of handling them.

The automobile was developed just that way. If one hundred automobiles of the vintage of 1905 or even 1910 were lined up on the highway and in running condition, and if one hundred men or women attempted to drive them today, they would have greater difficulty in knowing what lever to press, what button to push and what to let alone. Like one first owner did, they would have to try them all until the thing started and trust in the gas running out to get it stopped.

People aren't getting any smarter in driving. The smart ones are those who design and make the machines.

Representative Swing wants the U. S. to buy Lower California. Americans already have dropped enough money in Tia Juana to pay for the whole country several times.

Doctors at the Oldham infirmary, London, saved the life of a boy who had been carrying a penny lodged in his throat for three weeks.

REPORT FROM INTERNATIONAL SUNDAY SCHOOL LESSON

REV. F. B. STEWART, D. D. Member of Faculty, Moody Bible Institute of Chicago (66-789, Western New York Union.)

Lesson for August 24

JONATHAN AND DAVID: A NOBLE FRIENDSHIP

LESSON TEXT—I Samuel 17:1-4; 26:11-17, 32, 34, 41, 48; II Samuel 1:17-27.

GOLDEN TEXT—A man that hath friends must show himself friendly and there is a friend that sticketh closer than a brother.

PRIMARY TOPIC—Two True Friends. JUNIOR TOPIC—David and Jonathan's Friends.

INTERMEDIATE AND SENIOR TOPIC—Finding Worthy Friends. YOUNG PEOPLE AND ADULT TOPIC—The Friend Who Does Not Fail.

The friendship of David and Jonathan has become immortalized in the world's thought.

Jonathan was the crown prince, heir to the throne according to hereditary rights.

1. Friendship Established Between David and Jonathan (I Sam. 18:1-4).

1. Love at sight (vv. 1, 2). Following the interview of Saul and David, after the victory over Goliath, Jonathan's soul was knit with that of David.

2. A covenant established (vv. 3, 4). The bringing of David into Saul's home gave opportunity for expression of love between Jonathan and David.

11. Jonathan Defended David Against Saul's Frenzy (I Sam. 19:1-7).

David went into the battle with Goliath out of zeal for God and true religion, not for personal glory.

111. Jonathan Revealed to David Saul's Murderous Attempt (I Sam. 20:30-40).

The beginning of the new moon was celebrated by sacrifices and feasting at which all the members of the family were expected to be present (v. 5).

Concerning friendships, observe: 1. It should be made while both parties are young.

2. Real friends are few. Great care should be exercised in the formation of friendships.

3. Both parties must be God-fearing. David and Jonathan both recognized their obligation to the Lord.

4. David Mourns for Jonathan (II Sam. 1:17-27).

When David learned of Jonathan's death he sincerely mourned, remembering his undying loyalty and his personal worth.

Alaska's mineral production including precious metals and base metals as well as petroleum, amounted to \$14,001,000 in 1929.

Mr. and Mrs. Clinton Lowe and Mr. and Albert Lowe left Wednesday on a several days fishing trip.

DAIRYING

By Dr. L. D. LeGear, V. S., St. Louis, Mo.

Dr. LeGear is a graduate of Ontario Veterinary College, 1892. Thirty-eight years of veterinary work. Eminent authority on diseases and raising of dairy cows, other livestock and poultry. Nationally known lecturer, writer and author.

Editor's Note—This is another story in a series of articles on dairying written by the well known national dairy and poultry authority, Dr. L. D. LeGear, V. S., of St. Louis, Mo.

The Responsibility of Raising a Bull

Great Care Should Be Exercised In Feeding and Training of Young Animal Who Is to Play So Important a Role in the Herd

We have seen in a previous article how necessary it is in the success of a dairy herd to have a good sire.

Feeding is an important item in a young bull. For the first six months prior he should receive about the same rations as the heifer calves.

There is a strange notion among some breeders that bulls fed on silage will not be as potent as those to which no silage is given.

Be careful not to let the bull get too fat, especially after he reaches the age of service which is about six months of age.

You can prevent the growth of horns by rubbing caustic potash on the place where they appear when the calf is a day or two old.

It is true that bulls at the head of famous herds usually have horns. Some breeders feel that dehorning handicaps his breeding powers.

Do not let the bull run with the herd. Keep him in separate quarters altogether, if possible.

If you have a barn yard turn the bull in there after the cows have been sent to pasture.

Above all do not keep the bull in a dark, uncomfortable stall. He needs good ventilation and should be hardened to the weather.

Feeding a bull should never be allowed. They become vicious enough as it is. Sometimes it is best to have two persons handle him.

Remember this, proper exercise, proper feeding and comfortable housing will enable a bull to give service until eight or ten years of age.

One mistake breeders make is to dispose of a bull before his real value is known.

I have frequently been asked whether it is safe to keep a bull that is the first calf of a young heifer for breeding purposes.

I know that bulls from older cows command higher prices. About the only basis for such a feeding is that we do not know how old the mother is when she is a two-year-old heifer.

Presbyterian Church

There will be preaching services at the Cumberland Presbyterian Church, Sunday, August 24, both morning and evening.

Mr. and Mrs. Clegg Gassott are visiting in the home of the ladies' mother, Mrs. E. W. Bible.

It is sometimes safer to wait until she has proven herself before taking a son to be sire of a herd. As a final word of caution, do not give the bull a chance to demonstrate its physical powers.

A bull has enormous strength. It can break fences, untie straps, and gates with comparative ease and without much injury to itself if it wants to.

(Copyright, 1930 by Dr. L. D. LeGear, V. S.)

MARRIAGE LICENSES

Bee Crabb and Otto Klein-schmidt. Vera Sheffield and Orman Means.

Mrs. P. D. Harrison and little son, Werner, have returned after a visit in East Texas.

WOMEN EARN AND LEARN

Matador — Ninety-seven cook aprons, 97 dresses and 87 pillow cases constitute a recent record-making 100 per cent exhibit of the Motley County Women's Home Demonstration Clubs.

The records kept on time and money expended in the manufacture of the dresses showed a total of \$185.21. The appraisal committee estimated that they were worth \$244.31, making a saving of \$58.80.

The women taking part in the exhibit studied color, line and materials in designing their dresses and aprons. Household linens in general, and their quality, design, use and decoration were discussed while the work on the pillow cases was being done.

KNOW TEXAS

Texas cotton acreage for 1930 is estimated at 17,500,000. Cotton with 4,890,000 acres is in second place. Wheat 2,520,000 and oats 1,833,000 follow in the order given.

Seventeen towns in the Rio Grande Valley had 37,227 population in 1920 and 92,784 in 1930, average gain of 149.2 per cent.

Texas has thirty-six towns and cities of more than 10,000 population. Seven of them are newcomers in the list and one of them had only 987 inhabitants ten years ago.

Texas has three electrically lighted baseball parks for night games—Houston, Waco and San Antonio. In the United States 38 cities are playing night baseball.

Turtle soup is no luxury to the people of Ocracoke, N. C. Huge sea turtles weighing 200 pounds frequently are caught in fishnets.

HIGHWAYS AND BUY-WAYS

Everyone welcomes good roads.

There is a sense of freedom in the knowledge that we can travel far and wide with comfort, speed and safety.

Good roads are a blessing—but they offer a challenge, too.

Modern automobiles and modern highways exert a great influence upon buying habits. They might even tend to build up one community at the expense of another, but for one important fact.....They transport trade in either direction impartially.

MERIT Merchants of Santa Anna are meeting the challenge of good roads squarely and fearlessly. Well they know that trade goes where it is invited and stays where it is well treated.

Any advantages which the larger cities may claim in luring trade are more than offset by the enterprising merchant in the smaller city. The knowledge which he alone has of customers' needs and desires enables him to serve them with unrivaled efficiency.

Ease of access—saving in time and transportation cost—freedom from traffic congestion and parking problems—all weigh heavily in favor of the local market.

About the only advantage his big city brother can boast is larger sales volume, and even that will be eliminated through cooperation with and from the buying public. With your aid in building volume, your merchants can reduce costs surprisingly.

Savings thus effected will be promptly and cheerfully passed along to customers in the shape of constantly lowered prices.

Let's all work together and make the prosperity of our community keep pace with the improvements in Texas highways.

YOU NEED YOUR STORES! BY SERVING YOU CHEERFULLY AND WILLINGLY THEY MERIT YOUR TRADE. USE THEIR SERVICE AND THEIR GOODS.

Mr. and Mrs. Coe Cross of Brownwood and Miss Opal Cross of Boswell, Okla., spent Sunday in the E. W. Marshall home.

Mrs. Media Hunter of Waco was a week-end guest of Miss Kathryn Baxter.

Mrs. G. A. Shockley has returned from Dallas, where she went to purchase her fall merchandise.

Mr. and Mrs. Earl Brown and son, Earl Jr., and Mrs. Brown's mother, Mrs. Lillie Batten, all of El Paso, visited Ed Baxter and family last week-end.

Miss Jane Whitlow, who has been visiting here for the past two weeks is now visiting friends in Rising Star.

Miss Aldine Melton of Benjamin, Texas, is visiting Miss Elizabeth Wylie.

Miss Robble Lee Vestal is visiting her grandparents in Killen.

While Mr. Ed Chambers of Oklahoma City was in Rochelle on business for his company Mrs. Chambers and daughter, Miss Elizabeth, visited in Abilene, Richland Springs and Rochelle. They all spent the week-end with Grandma and Miss Lullia Chambers here.

After a two weeks visit here with her daughter, Mrs. Jim Harrison, Mrs. Reed returned to her home in Regency Thursday. Miss Ruby Harrison accompanied her home.

Mrs. Spencer and Mrs. Simpson went to San Angelo Saturday. Mrs. Simpson will visit a brother while Mrs. Spencer will visit Mr. and Mrs. Albert Shaw at Christoval, and her niece and nephews near Del Rio.

Lester Guthrie and family returned Saturday from a visit to Midland and Andrews.

Mrs. Jessie Turnbull and little daughter of Dallas are visiting her brother, Usco Huey.

Supt. M. B. Williams of the Rockwood school was in the Mountain City Saturday, preparing announcements for the opening of the Rockwood school Monday, September 8th.

E. R. Purdy is spending several days in Fort Worth this week partly in the interest of his store and incidentally, visiting with former friends.

There are two kinds of people in the public park; successful people enjoying the beauties of the park, and unsuccessful people enjoying its comforts.

Miss Zubanks formerly lived in Santa Anna, and her many friends here will heartily join the News in extending the happy couple congratulations and best wishes for the future.

Miss Ruby Willis has returned to her home after visiting her sister and friends of Regency.

Frank Lucas came in Sunday from Hereford, Texas, for a few days visit with relatives.

Mr. and Mrs. N. D. Wylie and Miss Margaret Wylie were in Brownwood Saturday.

Mr. and Mrs. V. Van Zandt and son, Ernest and Mr. and Mrs. E. K. Blewett and daughter and Edd Baxter attended a safety meeting of the West Texas Utilities Company at Ballinger, Texas Tuesday night. Miss Aletha Blewett remained for a visit of several days.

C. E. Welch left for his farm near Bay City the first part of the week. Mr. Welch has been so long identified with the business interests of Santa Anna that he will be greatly missed. His family will join him later.

Mr. and Mrs. Lloyd Burris, Miss May Blue and Miss Mary Lela Woodward are marketing in Dallas this week.

Mr. and Mrs. Jack Woodward and daughter, Mary Lela met relatives in Fredericksburg Sunday. Two of their nieces returned home with them for a visit.

Floyd Blair returned to Lubbock Wednesday after visiting here for a few days with his mother, Mrs. H. O. Blair.

Otis Smith of Dallas visited over the week-end with his mother, Mrs. H. H. Brown.

Jack Mobley and C. O. Bragg received their B. A. degrees from the Daniel Baker College at Brownwood Wednesday night at the close of the summer session of the college. The awards were made at the commencement exercises at the college.

Mr. and Mrs. H. D. Speck and little son, Adrian visited relatives in Llano last week.

Mr. and Mrs. J. E. Boston, Mr. and Mrs. Earl Hardy, P. J. White and family, joined Mr. and Mrs. W. A. Powell Wednesday and went to Sweetwater to attend the opening of the Sweetwater branch of the McCormick-Deering and International Harvester Company house. The Sweetwater Reporter published a special edition Tuesday, dedicated to the opening of the McCormick-Deering house in that city, and mailed several thousand copies to people over the state.

SEEKING AND CONCERT

There will be a band concert and public speaking at the Coleman Park tonight at eight p. m.

Judge Weathered and Judge E. M. Critz will speak in the interest of R. S. Sterling for governor. This will be the last meeting of the Sterling forces in this section before the primary next Saturday. Everybody invited to attend. You will hear good music and good speaking.

NOTICE

On account of the dry weather conditions we will not run Farmers Gin No. 2 this fall.

We will be glad for all of this gin's customers to bring their cotton to gin No. 1, just west of High School building. We assure you the same fair treatment and good service as we have always given.

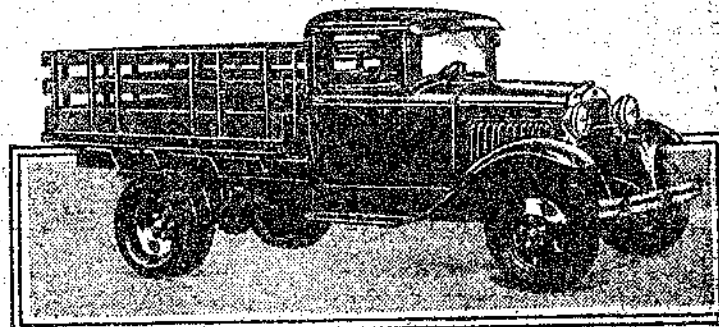

We will have plenty of good planting seed on hand to exchange with all the farmers who desire better planting seed than we have here at just what they will cost laid down in carload lots.

Thanking you for the favors you have shown us in days gone by and in return you will always find us and our gins ready to give you the best service that can be had.

Service and better ginning is our motto.

FARMER'S GIN CO.
J. Ed. Bartlett, Mgr.

New Ford Truck With Closed Cab.

NEW Ford Model AA trucks and Model A light delivery cars were announced this week by the Ford Motor Company and are on display in the show rooms of Ford dealers.

Changes in the trucks are principally in the front end, which has been completely redesigned, and in the cab. The radiator is higher with more cooling surface, fenders are wide and flowing, and a black cowl strip adds a note of distinction.

The new Model AA trucks with the four-speed transmission introduced several months ago may be had with enclosed or open cab. The enclosed cab shown above, is all steel, it is low in appearance yet with ample head room. The open cab is of black rubber top material

and is easily removed. Both cabs are equipped with windshields of Triplex shatterproof glass and vacuum type windshield wipers.

Model AA trucks may be had with a platform body, which can be equipped with stakes or a panel body. The chassis has many improvements, including the four-speed transmission, larger front brakes, stronger springs, power take-off opening and optional dual rear wheels.

The Model A-line of new commercial cars comprises a light delivery truck with pick-up body, a de luxe delivery truck, a small panel truck and a station wagon. These cars have the smaller wheels and larger tires of the new Ford passenger cars.
