Weathers, Santa Anna; Pleas Williamson, Santa Anna; Hardy Blue, Santa Anna; Joe Mellvain, Rockwood.

**THE PASSING OF HERMITS**

Hermits live to themselves. But who wants to be a hermit? And besides it is a difficult thing to live alone in this day and age. You link lives with your neighbor across the streets, across the continent. You are influenced by what he wants, buys, uses, enjoys.

When enough of your neighbors want, buy, use and enjoy the same thing, you begin to see advertisements about it — advertisements to arouse you to similar use and enjoyment. They paint glowing, truthful pictures — try to get you interested in what will really interest you.

Convenient, courteous information is yours at a minute's glance — style, variety and price, and where to get it. That minute's glance may be the difference between buying unworthy wares and the best.

You don't want to be like a hermit — even in your judgments. Read the advertisements to be guided by other's choice. When they choose something again and again, it must be good.

Each advertisement is written to you — to help you choose — to save you money.

Hailstorms are frequent and severe in subtropical regions and are rare in the coldest parts of the earth.

An Oregon town has set aside parking space on one of its main streets, three miles long. "For Tourists Only."

Iron was smelted to make hoes and sickles as far back as 1,200 B. C.

It is said that a rope is ten per cent stronger when wet, and the same variety must be 100 per cent.

These Merchants are Earnestly Striving

Whom News

Last Friday night quite a large crowd enjoyed the B. Y. F. U. Social at the home of Mr. and Mrs. Oscar Lovelady. They were anxious to serve their turn in entertaining the young folk in their beautiful new home. Games were played in which every one took part and enjoyed. We hope Mr. and Mrs. Lovelady will invite us back soon. Delicious homemade candy was served to the large crowd present. We all bid the host and hostess good night at a late hour.

We are sorry to report little Wanda Joyce Gill on the sick list this week.

Mr. and Mrs. George Hunter were mountain city visitors Tuesday.

Mr. Guy Ellis of Woodson visited friends here Saturday and Sunday.

Miss Madie Bell Forehand of Miles is visiting in the Sam Rutherford home this week.

Dr. Cheatham and family of Ballinger spent the week end with Dr. Cheatham of this place.

Miss Ruby Lee Hill of Santa Anna is visiting with her sister, Mrs. Tommy Holmes.

Guests of Lela Herring Sunday were Misses Mattie Clifton, Druzel Huddler and Mrs. T. B. Forehand.

Miss Louise Cooper of Waldrip is visiting with her grandparents, Mr. and Mrs. J. A. Freeman.

Mrs. Tommy Holmes and Mrs. Ernest Norris were business visitors at Brady Monday.

Misses Mattie Clifton, Druzel Huddler and Mrs. Ida Herring and little daughter, Mary Frances, visited with Mrs. Tom Bradley of Five Sunday evening.

**INVESTMENT OR SPECULATION**

Every time you buy something you are either speculating or making a definite investment? Few people can afford to speculate, yet many do it continually in making their everyday purchases. And it is so unnecessary. The advertisements make it easy for anyone to avoid taking a chance.

The merchant who advertises, realizes that the good will of his customers means money in the bank to him. He knows that public respect for his own character are as valuable as his credit at the bank.

So he makes the individual satisfaction of his patrons, their loyalty and their friendship paramount, issues in his business.

When you buy an advertised product, you can know in advance what to expect in return for your money. You can count on its being right. You are making an investment.

But when you buy nameless merchandise, that has never known the light of publicity, you are taking a chance — you are speculating.

If practice makes perfect, most married men should be able to produce convincing fiction.

Blue stain in wood is caused by minute fungi.

Iceland's population is about 103,000.

**District Nurses Convene Here**

Tuesday, about thirty registered nurses from the 16th district, composed of more than twenty counties in the southwestern portion of the state, met at the nurses home of the Sealy Hospital in their regular spring convention. The visiting nurses were entertained by the nurses and management of the Sealy Hospital, and the meeting was interesting to those present. San Angelo furnished more delegates than any other city, and there were others from Brownwood, Ballinger, Coleman, Brady and several other places. The regular reporter who was supposed to furnish a report on the convention failed to reach us with the report in time for this issue of the paper.

**Make Your Paper Pay for Itself**

You will find some real bargains in merchandise and service advertised in this issue of the News. It will pay you to read them before you come to town, then look up the advertisers while here. One subscriber told us last week they saved the price of their subscription to the Santa Anna News for a year most every week by taking advantage of the advertisements. That sounds good to us — and we hope many others do the same thing.

American farmers buy 700,000 heating stoves yearly.

There are about 23,000,000 pear trees in the United States.

**Plenty of Variety In Picture Shows For Next Week**

The Queen Theatre is showing three distinct types of all-talking pictures next week in "The Virginian," "Little Johnny Jones," and "The Lost Zeppelin." "The Virginian" is an American classic of the pioneering days in Wyoming. This epic theme of red-blooded drama and beautiful romance is so stupendous, so vast in its great outdoors scope, that "all-talking" alone can do it full justice.

Photographed and "miked" in the open spaces of the Western cattle country, the film presents to the eye and ear of the beholder every living detail of this thrilling story.

"The Lost Zeppelin" is the first picture dealing with a giant Zeppelin starting out on a big exploration trip, ever to be made in talking and sound form. The real story, however, revolves around a woman's love.

Eddie Buzzell, one of Broadway's favorite comedians, will sing for you in "Little Johnny Jones." Alice Day plays opposite Buzzell in a very novel and appealing love story, and Edna Murphy as a blonde vamping actress teaches the hero about women and about New York night life.

**Entertainment at Rockwood Friday**

A program of entertainment has been arranged for Friday night of this week at Rockwood. The program will be given in the auditorium of the Rockwood School building, and the talent will be selected here and at Coleman. Miss Palma Robinson, small daughter of County Agent C. V. Robinson, is said to be a great entertainer, her main act being one of contortion. She will also give other features of entertainment that are said to be great. She has had two years' training in New York, and considerable other training. V. Vanzant and his son Ernest will put on an acrobatic feature, the Santa Anna Band will furnish music, and the Misses Elwell will also furnish piano and violin music. The program will be filled with high class entertainment, thrills and fun, and it will all be furnished free. Any one seeing this before time for the entertainment Friday night, will find a pleasant evening well filled with wholesome entertainment if you will go to the Rockwood school building Friday night of this present week.

**National Guard Banquet**

On Wednesday evening, March 26th, the members of Howitzer Co. 142nd Inf. National Guard, accompanied by their wives and sweethearts met at the Armory, where they were most royally entertained by their Captain, Sam H. Collier.

Mr. Collier, assisted by Mrs. Collier, in her never failing hospitality, gave us one of the most enjoyable affairs of the season. There were nearly one hundred people present, and every National Guard boy and his guest enjoyed themselves to the fullest.

Mrs. Collier had used her usual talent in decorating the tables, and did not fall short in any way in planning the menu. But this was not merely a "feed." Unless one has attended one of these affairs they will fail to appreciate the good derived from one of them. We mothers, who ever strive to keep our sons like infants, would not be so alarmed at their reaching manhood if we could but realize the very personal interest Captain Collier takes in each and every one of them. We can't keep them babies always and how much we should appreciate having the guiding hand of a man who understands boys, to instruct them at the time they enter into life's most important stage. All of you who understand Captain Collier's loyalty will fully appreciate this, and I am sure would wish to join me in expressing our appreciation to him.

Lt. Pieratt gave the boys a talk which will be very beneficial to them if they will heed it. Mascot Page Mays returned thanks for us at the table and Miss Lankford told the boys a few things they will not forget soon.

As one of the guests, I wish to thank Captain and Mrs. Collier for their interest in our boys and to assure them that in years to come these boys will remember and thank them for their goodness. —A Guest.

**Singing Convention At Coleman Sunday**

**ALL SINGERS INVITED TO ATTEND AND BRING THEIR FAMILIES**

The News has been requested to announce the regular Fifth Sunday Singing Convention will meet with the class at the South Side Baptist Church in Coleman next Sunday afternoon, March 30. All singers are urged to attend and bring their latest Song books.

There is no substitute for Newspaper Advertising.

More than 500,000 foreign birds were imported into the United States last year.

The gulf stream has the bluest ocean water, whereas the Arctic ocean is the greenest.

The light in the lighthouse at Jupiter Inlet, Fla., has 1,500,000 candle power.

**The Cumberland Presbyterian Church**

There will be preaching services at the Cumberland Presbyterian Church, Sunday, March 30, both morning and evening. The fourth Sunday in each month is our regular time; but we did not have our services last Sunday on account of the illness of the pastor.

Sunday School every Sunday at 10 o'clock in the morning. We extend a hearty invitation to every one to attend our services; and assure you that you will be more than welcome to come and worship with us.

—J. W. West pastor

### Farmers Giving Their Quota For Texas Prosperity

**CONDITIONS BETTER**

In looking over our exchange, published in various parts of the state, we judge conditions have improved in business circles and the outlook is growing brighter. People in most places are becoming more optimistic and signs of new life appear. Especially is this so in communities where farmers have adopted the cow, the sow and the hen principle. Occasionally, we notice where some farmer who has been farming on a rather large scale has adopted dairy cows and poultry for their main money crop are leaving off cotton entirely. Some claim there is no money in poultry and cows at the present prices of eggs and cream, but we believe there is as much money in eggs and cream as there is in cotton at the present prices of the fleecy staple. Besides, eggs and cream are a fine substitute for something to eat. Anyway, we notice farmers who have milk cows, plenty of poultry and a few hogs on their premises are not so badly worried about what the banks are going to do with regards to financing them for a crop. We are for the cow, sow and hen and if we are ever fortunate enough to be a farmer, that will be our route of procedure.

**Constructive Journalism**

No feature of newspaper work is recognized as more important than the constructive force of journalism in promoting goodwill and cooperation among all classes and all sections of our country. Harmony and prosperity and our financial and industrial welfare depend upon the understanding of one class or section by another. It is a well established fact of history, that newspapers have enormous latent constructive or destructive powers — they can make a war or spoil a peace. Their influence in either direction is tremendous — possibly greater than many editors are willing to admit. Newspapers are an institution of democracy, but their power and influence can be no greater than the thought prompting and supporting of their editorial policy. Some folks 'never' turn their eyes toward heaven until an airplane passes over. Close planting forces trees up in order to secure light and thus produces a rapid height growth.

### St. Patrick's Party For S. S. Children

One of the most enjoyable and unique entertainments of the season was given the Young People's Sunday School class of the Presbyterian Church last Saturday evening by Mrs. VanZant, in her home which was lovely in its decorations of green and white. Quite a bit of thought was shown by the well planned program, "Kissing the Blarney Stone" and many other games and contests appropriate for St. Patrick's Day created much interest and laughter. Then came the unique luncheon in ST. Patrick symbols, consisting of pie, sandwiches, green and white salad in potato cups, and pipes of pickles and olives, green and white cake, hot chocolate with marshmallows. Favors were small green and white baskets filled with candy. At a late hour the young people bid Mrs. VanZant good night, each declaring her and ideal hostess.

A rebel is sometimes a fanatic with a gun.

Many a husband's pocketbook is suffering with cosmetics.

Unemployment must not be a problem in Europe. Cabinet officers quit their jobs too often.

Wichita Falls with its irrigated district will have several acre-plots planted to baby lima beans, heretofore largely grown in California where yields of as high as 3,500 pounds to the acre have made it a very profitable crop. It is adapted to hot, dry climates where irrigation is available.

The Borden plant at Waco, built less than a year ago, is receiving 60,000 pounds of milk a day and wants to reach 100,000 by May 20, its first anniversary. Ballinger is shipping two cars of eggs a week to Eastern markets and expects an income of \$50,000 from that one source during the spring season. Slaton is running two hatcheries with a combined capacity of 600,000 eggs and is expecting a profitable poultry season.

Cooke County, seeking 300 dairy cows for a co-operative creamery, has 200 of them already pledged. Cold frames in East Texas have millions of tomato plants for the big acreage to be devoted to that crop this year, following the profitable season of 1929. McLean has established a big new incubator handling 150 dozen eggs and is expecting to put out a big poultry crop this spring.

The instances cited are just a few of the scores that might be listed. They are mentioned only because they are typical of what many other sections and areas are doing this year.

That automobile accidents are increasing everywhere. Most automobile accidents are caused by careless driving, or due to the failure of the drivers to observe the traffic laws.

There is quite a change from the old days when only horse-drawn vehicles used the public highways.

When horses were the motive power, there were few accidents. Of course, traffic was lighter and horses were intelligent animals, while today many of our reckless drivers seem to be short of the intelligence the horses had in the old days.

The automobile is different; it is a thing that needs human guidance at all times, and when the driver does not know how to manage it or does not know the rules of the road and is allowed to use the highways, accidents occur.

Day by day we see accidents caused by carelessness that a lifetime cannot repair.

Traffic laws are made to be obeyed. If they are obeyed there will be less accidents.

After reading in last week's paper about an egg laid by a Rhode Island Red, Nath Cole from out Triekham way, called in and presented us with a Leghorn egg that is larger than most turkey eggs. That old Leghorn hen is no slouch when it comes to turning out a fine example of what a really ambitious hen can do.

The average American eats about four pounds of cheese in a year; whereas the average in Switzerland is twenty - three pounds and in France, Denmark and Holland thirteen pounds.

#### SQUILL KILL KILLS RATS AND MICE

Squill Kill can be used in the home with safety. Has been proven by actual test that it kills rats and mice and does not injure other animals. Kills more rats and mice per dollar. Not a poison. Price 50 cents.

Squill Kill Drug Co., Barnesville, Ohio, Corner Drug Co., Santa Anna, Texas.

### Birthday Surprise

Honoring her husband's sixty-fourth birthday, Mrs. J. S. Jones surprised Mr. Jones Monday by preparing for him a huge cake and decorating it with 64 candles. Mr. Jones greatly enjoyed the occasion but refused to admit that at 64 years a man should be considered old. Well, 64 is not near as many as a hundred.

Texas has many good hotels, is going to have many more. The new \$120,000 Hotel Gregg, Longview, was opened in February. A \$300,000 hotel at McAllen has reached the project stage. Dallas capital will spend \$125,000 on a new fireproof hotel at Quanah. The Helzig, Beaumont is to be remodeled into an apartment hotel at a cost of \$150,000. Belton is to have a completely remodeled and modernized hotel at a cost of \$125,000. The Marshall will be opened at Marshall in April. Contract has been let for a \$280,000 hotel at Stephenville.

The rate of twin birth is unusually high in Ireland.

It requires at least thirty minutes ordinarily for the sun to put a layer of tan on the skin.

### FIRST NO PARKING SIGN WAS BY JULIUS CAESAR

Julius Caesar is accredited by the City Builder with originating the "no parking" rule. He issued an edict forbidding vehicles to enter Rome during business hours because he saw that parking of chariots and other vehicles of that era tended to injure business in Rome. Similar regulations were put into effect in other large Roman cities.

And schools! . . . Lubbock is to spend \$850,000 on a new high school. Plainview will spend \$120,000 on increasing its public school facilities. Plans are being made for a \$300,000 high school at Mercedes. Crystal City has let contract for a \$80,500 high school building. Much of the new public building program in Texas for 1930 is in new schools and equipment.

It is at least encouraging to note that according to current advertisements safety razors are being made safer nowadays.

### Three Days of Racing at Brady

BRADY, Texas, March 25 — Three days of fast horse races will again feature Brady's annual July Jubilee, which has been announced for July 3, 4 and 5.

The biggest and best aggregation of race horses ever assembled at Brady is predicted for this year's events, since the prizes will be greatly increased over former years, according to J. E. White, manager of the races.

At a meeting of the July Jubilee officials, it was decided to enlarge Brady's present 4,000 capacity grand stand, in order to accommodate the crowds. Last year's July 4 race crowd vastly overflowed the grandstand and quite a number were turned away.

Brady's half-mile regulation size race track and its seventy stalls are accounted among the best in the state.

Plans are also under way for a rodeo and other features to amuse the spectators during the race intervals. This feature will be in charge of James Brook, local ranchman.

Besides the races, there will be plenty of other entertainment at Richard's Park, Brady's 45-acre amusement ground, at which also the race track is located.

Ed Broad is general chairman of the July Jubilee.

### Cold Checker Landed In Jail

E. R. Purdy, Ross Kelley, J. C. Welch and Sam J. Floyd were called to Brownwood Tuesday, to identify a man who was reported to have forged several checks in Santa Anna. The man was also charged with giving bad checks in Brownwood and other towns in adjoining counties. He was given a two years suspended sentence in Brown county, and brought to Coleman to face the courts in this county. His name is said to be Henry Taylor, and his home is in Comanche county. He signed checks here in several different names, such as Jim Tucker, Henry Taylor, Bill Busby, C. E. Watson, Bill Etheridge, E. G. Hale, Will Adams, and possible others. It is said he ran out of names or he would have given more checks. Taylor is said to have a wife and small child living on a farm in the western part of Comanche county. E. R. Purdy and Ross Kelley identified the man as the one giving them checks in exchange for merchandise.

### Students of Schools Guests of Lions Club

The entertainment committee of the Lions Club presented a number of the honor students of the Santa Anna schools who brought back the bacon from the County Interscholastic meet at Coleman last week end to the club at the regular weekly luncheon Tuesday. After hearing the members of the debating team give a portion of their winning speeches, we do not wonder at their success. Miss Velma Oder and Miss Irene McCreary very ably discussed the State Highway systems and proposed plans of improvements.

W. H. Pierce, deputy District Governor of Menard, was a guest and delivered a short talk. Several other guests were also present, including a representative of the Abilene Reporter and Morning News, who is working on a special edition of those publications to be circulated over the state just prior to the annual convention of the West Texas Chamber of Commerce, which meets in Abilene in May of this year.

### Crash Victims On Road to Recovery

Oran Traylor and the members of Burl Seale's family, who were hurt in an automobile crash here Wednesday night of last week, are reported improving. Mr. Seale is still in the hospital, and little Maurice, the three year old daughter is still in a very critical condition, not having regained consciousness. Oran was carried to his home Wednesday. The others are reported recovering, and some homes are held for the recovery of all without a fatality.

Newspapers which are subjected to much handling in libraries are made three to four times as durable when covered with Japanese tissue.

How times have changed. The efficiency expert of today was once called a meddler a few years ago.

### Presbyterian Church

Services were well attended last Sunday. There were some others who were not present because of sickness. Others were absent for other reasons or excuses that were not stated. You are invited to come next Sunday. We want every Presbyterian in the community to be present for all the services. Yes, you are very welcome if you are not a Presbyterian. If you are a stranger in town over Sunday come to church, and surprise the home folks by writing them about it.

Take account of your time. See just how you use it. Perhaps you will find an hour for church services.

—M. L. Womack, Minister.

### Pecan Growers to Meet in Coleman

COLEMAN, Texas, March 25 — The West Texas Pecan Grower's Association will meet in this city Saturday, to discuss topics of interest to the industry in this section of Texas. The association will be entertained by the Chamber of Commerce and C. V. Robinson, county farm agent. Men familiar with pecan culture will appear on the program at both morning and afternoon sessions.

### Egg Circle Elects Officer In Meeting

After holding several meetings the organization of an Egg Circle was perfected here Wednesday afternoon when the following officers were elected: W. L. Alford, president; G. O. Herring, Secretary-treasurer; Mrs. J. W. Johnson, Neely Evans and J. D. Henderson, Directors. The next meeting date is Saturday, April 5th.

### Do You Want To Attend A Business College?

Realizing that a great number of young people are deprived of an opportunity of attending a business college because of the lack of money, our STUDENT LOAN FUND ASSOCIATION was created for the express purpose of furnishing the necessary help to worthy boys and girls.

We have selected the Tyler Commercial College of Tyler, Texas, as the college we can most consistently recommend. This is one of the oldest business schools as well as one of the most widely known for its thorough work and its successful graduates out in the world of business.

We have made arrangements with the Tyler Commercial College by means of which we can take care of a limited number of young people through our loan fund.

If you are in good standing in your community and can furnish the best of references, we will be glad to help you. We have helped a number of deserving young people in the past who are now independent wage earners and enthusiastic boosters for our Association.

We are especially interested in helping young men and young women who have been forced, on account of financial reasons, to drop out of high school or college.

In order to receive help from this Association it is only necessary to clip the coupon attached and mail it to us or to the Tyler Commercial College. We can then work out a plan whereby you will be enabled to enter the College even though your funds are limited.

Clip out the coupon and mail it today either to Tyler Commercial College, Tyler, Texas, or to

THE STUDENT LOAN FUND ASSOCIATION, Box 826, Tyler Texas

### Short Staple Mill Demand Is Light

(Star-Telegram)

WASHINGTON, March 22 — Studies now in progress in the Division of Cotton Marketing on the grade and staple of American cotton indicate that cotton growers are not now producing cotton of the various staple lengths in proportion to domestic consumption, says W. B. Lanham of the Bureau of Agricultural Economics, United States Department of Agriculture. They are producing a preponderance of the shorter staple lengths which, of necessity, compete with the short cotton produced in foreign countries, he says.

"American cotton farmers, like the producers of all other commodities, are presumably interested in growing the kind of cotton which they believe will return to them the greatest net profit. Since there is a good mill demand for cotton around one inch in staple, it is reasonable to suppose that an increase

in production of these lengths would return enhanced profits to many growers."

Much Short Staple Grown.

Of the 14,187,000 bales of cotton which the Bureau of the Census reported as having been ginned from the crop of 1929-30, up to Jan. 16, only about 1,650,000 were 1 to 1 1/2 inches in staple length according to Lanham. If the staple lengths from 15-16 to 1 3/4 inches, inclusive were grouped together, they would represent only about one-third of the entire production. More than half of all cotton produced was 7/8 of an inch or shorter. Inch cotton represented only a little more than half as much as did 13-16 inch cotton. It should be borne in mind, he says, that cotton less than 7/8 of an inch in length is not tenderable on future contracts.

"In considering the reduction of cotton production," Lanham asks, "should we not particularly stress the need for reduction of short staple production?"

### All States Grow Long Staple

"It should be encouraging," he says, "to recall that production of cotton around an inch in length is not restricted to a few limited areas in the cotton belt. The studies by the Division of Cotton Marketing show that some inch cotton is being grown in practically all cotton growing sections. There must be, therefore, some other reason for the production of such large quantities of short staple cotton."

"Individual growers receive little encouragement to produce anything but the shortest cotton so long as buyers roughly average the grade and staple length and buy on this average. So long as this practice prevails there is little hope that growers will plant varieties producing superior staples. They feel that very short staple varieties produce more pounds of lint per acre than do varieties producing an inch or longer in staple."

### Texas Growths Compared

"Buyers commonly pay for cotton on the basis of the average quality marketed at a given

shipping point. Studies indicate that the average price received does bear some relation to the average quality produced in that district. For instance, recent studies in Texas show that cotton produced at Henderson averaged about 1-16 of an inch shorter than that produced at Hillsboro. The average price received by Henderson farmers was about \$5 per bale less than the price paid to Hillsboro farmers."

At the present time, says Lanham, the difference in price between middling 13-16 and middling 1-inch cotton is \$5 to \$10 per bale on the spot market.

## B. A. Creamer Dies Of Blood-Poisoning

WELL-KNOWN CITIZEN OF  
SANTA ANNA FOR OVER  
TWENTY YEARS

Elder B. A. Creamer, fifty-seven, died at the Sealy Hospital, March 22. He had been carried to the hospital on Wednesday, suffering from blood-poisoning. Little hope was held for his recovery.

B. A. Creamer was born at Pensacola, Florida, October 25, 1873. He moved to Bastrop County, Texas, with his parents, when a very small child. He was married to Miss Susie Smith, March 27, 1904, in Santa Anna, where they have made their home. Elder Creamer is survived by his wife and nine children, as follows: Mrs. Juanita Campbell of Flomot, Mrs. Viola Rainey of Beaumont, and Bill, Kathryn, Gladys, Earl, James, Nell Sue and Mrs. Opal Voss of Santa Anna. All of the children were present at the time of their father's death.

Funeral services were conducted by Rev. A. L. Oder and Rev. Fred Ross, of Coleman, at the First Christian Church, Saturday afternoon. Active pallbearers were D. C. Neal, George Richardson, Mace Blanton, Curran Pieratt, J. C. Scarborough, and F. M. Rudder. Honorary pallbearers were members of the National Guard, as follows: Sergeants Virgil Fulton and Clitis Miller; Corporals Wesley A. Davis, Floyd Lackey, Ray Taylor and Willie A. Henry.

The body was laid to rest in the local cemetery. The New joins with other friends in extending sympathy to the bereaved family.

Many a man who has "gone over the top" would shrink from acting judge of a baby show.

## Mrs. L. G. Bobo

Mrs. L. G. Bobo, forty-four years, died at the Sealy Hospital March 21. The following data was read at the funeral conducted by Rev. Hal C. Wingo at Trickham, Friday:

"Mrs. Eva J. Johnson was born in Delta County, Texas, July 3, 1865. She was married to L. G. Bobo on November 7, 1907. To this union was born one child, Miss Clide Bobo.

"Mrs. Bobo was converted at the old Bethel Baptist Church in Lamar County in 1906. At the time of her death, Mrs. Bobo was a member of the Baptist Church at Trickham. Interment was made in the Trickham cemetery.

Mrs. Bobo is survived by her husband, her daughter, Miss Clide, and one sister, Mrs. Johnston of Trickham.

Mrs. Bobo numbered her friends by her acquaintances, having lived in and near Trickham for the last twenty years.

The News extends sympathy to the bereaved family and friends.

There is some hope for the unemployed this year, in that they will be kept in campaign cigars.

## Sealy Hospital Has Official Inspection

On Tuesday of last week, Dr. Chas. Moots, official representative of the American College of Surgeons, of Chicago, was here and made a thorough inspection of the Sealy Hospital. Dr. Moots, after going through all the records of the past year's work, interviewing the management and employees of the hospital, and tabulating his findings of records, expressed himself as being surprised at the record made by the hospital here. There were 72 minor and more than 400 major operations performed in the Sealy Hospital last year, with less than a one percent mortality rate. This record, according to Dr. Moots, is very unusual and deserves the highest commendation. The doctor said, in fact, the record of the Sealy Hospital was far ahead of any he had examined in the state, and he could hardly conceive of such an institution as this to be found in a town the size of Santa Anna. The ownership and managers of the hospital were elated to have a representative of the American

## Burns Is Returned To Coleman Jail

COLEMAN, Texas, March 25.—Deputy Sheriff R. W. Sumrall has returned to this city from Houston with L. H. (Shorty) Burns, who is one of a trio who made a spectacular escape from the local jail on the night of March 8 when Sumrall went upstairs to feed prisoner. Davis Trammell, another of the three was captured near Glen Cove the day after the escape. Jess Riordan, third member of the trio, is still at large. In searching Burns before returning him to his cell in the local jail Sumrall found two hacksaws sewed into his coat.

College of Surgeons visit the hospital, and were also proud to be able to furnish him with a record that met with his approval and commendation. Dr. Moots recommended that the Sealy Hospital be rated as one of First Class and that it have full recognition with the American College of Surgeons.
