VOL. NO. 45.

SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY, MARCH 21, 1930

NUMBER 14

"He Profits Most Who Serves Best"

SIX PERSONS INJURED IN AUTO SMASH-UP WEDNESDAY NIGHT

Burl Seale and his three little girls, Burline, 7, and two twins, Maurice and Maurine, 3 years old, and Oran Traylor, 19, were seriously injured in front of the Seale home about nine o'clock Wednesday night just as they alighted from the Traylor car. The family had attended prayer meeting at the Baptist church and accepted the courtesy of young Mr. Traylor and his sister, Miss Pearl Traylor, to carry them to their home after the services. The Traylor car was headed south on Second Street, between the depot and the High School building. The car was standing at the curb, with lights burning, and Mr. Seale, his wife and Mr. Traylor were getting the children out of the car and into the yard when they were struck. The car which hit them was a light Chevrolet coupe, occupied by J. T. Harrod, Roy (Cotton) Wood and two women, one, Miss Josie Lykins, and the other said to be a Mrs. Monahan, both of Coleman and both having questionable records here. The car approached from the south, cut in from the main driveway and ran between the Traylor car and the Seale residence, hitting the entire Seale family and young Mr. Traylor.

Mr. Seale suffered a broken leg and body injuries. Traylor was injured about the body and may have a fractured spine. His body and lower limbs are paralyzed. Maurice, one of the twins, was so badly bruised about the head and body it is said to be impossible for her to live. The other two Seale children and Mrs. Seale were injured, but not so seriously as the others. Burline, the seven-year old girl is said to be in the most serious condition. Mr. Seale, the Traylor boy and Maurice were carried to the hospital, where they are being treated, but in a deplorable condition. Mrs. Seale and the other little girls are being treated at the home of Mrs. A. C. Watson, a neighbour.

Harrod and Wood were both raised here and have lived here for most of their lives. Harrod has been living in the state of Oklahoma for several months with his wife, and just came back to Santa Anna Tuesday. Wood has been living in Arizona for the last few months and only came back to Santa Anna on Wednesday of last week. All of the party were riding in the

coupe and were said to show signs of being intoxicated. Other signs indicated that liquor had been used by the party. Harrod and Wood were arrested and placed in the county jail at Coleman. The women were carried back to Coleman and are being retained for further investigation.

The tragedy is one of the most deplorable and regrettable that has occurred in Santa Anna in many years. At this writing, at Thursday noon, the outcome of this tragedy cannot be determined. Apparently the Seale family, one of the most respected families in Santa Anna has been wrecked for life and young Traylor will probably be crippled for the rest of his life.

Mother - Daughter Banquet to be Given

The High School P. T. A. and Ward School P. T. A. are making great preparations for a mother and daughter banquet to be given on the night of March 28, at a place not yet determined.

The two Parent-Teacher Associations sponsor the two Girl Scout and Brownie Troops of Santa Anna, and the banquet is to be given in their honor.

The main purpose of the banquet is to bring mothers in closer relationship with the girls of the community and to better acquaint them with the activities of the Girl Scouts.

A most interesting program is being arranged in which there will be good music, talks on Scouting, and three short plays given by the three troops.

Every lady who is interested in Scouting is invited to come and bring either a Girl Scout or an eligible Girl Scout with her. Reservations at fifty cents per plate may be made by seeing or telephoning Mrs. W. I. Mitchell or Mrs. P. P. Bond.

Mrs. A. R. Brown, Mrs. J. W. Kirkpatrick, Mrs. Francis Adams, Mrs. Ed Baxter and Miss Dorothy Baxter were Brownwood visitors Wednesday afternoon.

M. D. and Ozro Eubanks were business visitors in Coleman Tuesday afternoon.

Mrs. J. R. Banister returned home Sunday, after a visit with her daughter, Mrs. James Sedon of Houston, and with Grady Banister of Rosenberg, Texas.

T. B. Forehand Dies School Trustee Buried at Whon Election, April 5

T. B. Forehand, 78, died at his home in the Whon community last Friday night and was buried there Saturday afternoon. Mr. Forehand was born in Travis county, Texas, March 25, 1852. He was first married to Miss Dalton Story in Williamson county in 1872. He came to Coleman county about fifty years ago and has lived here since. He has been a member of the Baptist church since early life, and the funeral was conducted in the Baptist church at Whon by a good friend, Rev. Dave McDonald of near Bangs. Mr. Forehand was once a member of the Texas Rangers and saw service during the Indian days in this part of Texas. He was last married to Mrs. Alma Derrington of Whon, September 4th, 1920. Surviving are six children, Mrs. Madie Black of Mullen, W. W. Forehand of Miles, Sam Forehand of Santa Anna, Mrs. Ellie Keeting of Comanche, Mrs. Madie Fiveash and Mrs. Sam Rutherford of Whon; Mrs. Forehand and one step-daughter, Miss Nella Derrington, a student in Howard Payne college. He is also survived by two brothers, B. B. Forehand of Blanket and Joe Forehand of Bangs. All the above surviving ones were present at the funeral Saturday.

Time is Short In Which to Place Orders for Seed

In regard to the car of Lankart cotton seed that is being made up by your editor, we wish to announce that the time is short in which to get your order booked, and if you wish to come in on this very special proposition, you will have to get your orders in soon. We were notified this week that all the seed on hand had been booked, and orders were being returned every day, due to the supply being exhausted. We were just in time to get a carload booked, and as soon as this car is sold it will be shipped and no other orders can be filled this season. We want as many farmers to buy these seeds as will, give it a thorough test, and save the seed from the planting this year for your next year's crop. By buying State Certified seed enough each year to plant a few acres and saving the first year run seed, for the main crop, the farmers can soon redeem themselves and get back on a paying basis. No farmer can produce cotton at the present prices and make a profit. There is only one solution and that is adopt a better staple variety and then pick the cotton and put it on the market in a more marketable condition. It is folly to expect a profitable price for something the world doesn't need and doesn't care to use. It costs no more to cultivate, harvest and market good, merchantable cotton than it does junk, and junk can only be placed on the market at junk prices. This is an opportunity that does not come your way often, and we want you to take advantage of it, for we believe it means a great deal to you, and in return it means a great deal to the business men of the county. If the cotton crop can be sold for a hundred thousand to three or four hundred thousand dollars more by offering good cotton than it can for a poor cotton, when it is just as easy to produce good cotton, why not do it? Let's get on a better staple and the sailing will be smoother.

W. L. Constable, E. M. Niell and J. G. Williamson, Mrs. Williamson and Mrs. J. T. Garrett attended the State I. O. O. F. and Rebekah convention in Abilene this week. From reports a very interesting convention was held.

Mrs. S. S. Nichols and son returned to their home here Tuesday night after an extended visit with relatives of Morgan.

Mr. and Mrs. R. A. Milligan of Rockwood were visitors in the mountain city Friday.

Mr. and Mrs. R. A. Milligan of Rockwood were visitors in the mountain city Friday.

On Saturday, April 5th, the patrons of the Santa Anna Independent School District will elect a board of trustees to serve the ensuing two years. The present members of the board are W. Ford Barnes, W. I. Mitchell, I. O. Shield, Dr. R. R. Lovelady, Stafford Baxter, G. W. Faulkner and W. DuBois. The terms of four of the above expire this spring, and they will either be up for re-election or some others will be elected to take their places. Ford Barnes, W. DuBois, W. I. Mitchell and Dr. Lovelady are the retiring trustees.

It is very important that the patrons of the school turn out and take part in this election. The Santa Anna News is not dictating who you should elect, but we do insist upon your taking an interest in the affairs of your school. Last year less than thirty people voted in the trustee election, less than one-fourth of the patrons of the school. Let's show a greater interest this year.

The Board, at their regular monthly meeting Monday night, passed a resolution adopting Tuesday, March 25th, as Clean-Up day for the High School premises. Wagons will be furnished and it is hoped the premises will be thoroughly cleaned up.

Merit Merchants Enjoy Increased Patronage Here

Several of the MERIT MERCHANTS who advertised special bargains for Monday and Tuesday were delighted with the number of sales made. Others report different. Those who advertised real bargains and properly displayed them for the two-day period enjoyed a nice business, but those who just advertised the bargains and made no showing of them during the designated days, naturally did not receive much increase in business. Would that all the merchants cooperating in the MERIT event would arrange a display of the goods they advertise for the two days and show a little better cooperation. It will surprise you to see the difference. Prepare your copy for next week's paper early, select some real hot ones and then give us a display for the two days they are offered and we believe you will enjoy a noticeable difference in the number of sales.

To Our Several New Subscribers

We confess that more families live here who were not subscribers to the Santa Anna News than we had thought. Our special offer for Trade Merit Days, Monday and Tuesday, brought several of them in. We are very glad to enroll you as paid up subscribers, and hope when your time expires you will come in and renew with us. We must have money in order to carry on our business, but we often make the proposition that you will take the Santa Anna News for a year and are not satisfied that it has been worth the price. We will give your money back—we have never been called upon to refund a dollar yet. We think our paper is worth the money and we believe in what we are doing. Thank you for responding to our offer, and we hope to make the paper worth the price to each of you. Following is the list of our new subscribers, beginning with last Saturday: D. S. Phillips, Mrs. Pleas Williamson, Mrs. G. E. Conklin, J. O. Owen, O. J. Brown, J. D. Bates, Roy Wilson, A. S. Hart, Mrs. E. W. Bible.

A. F. Jackson and Mrs. W. W. Stephenson visited in the Clyde Weathers home of Whon Sunday.

Barney Lewellen of Shield was a business visitor here Tuesday.

Mr. and Mrs. M. W. Vance of Shield were shopping here Saturday.

The fur industry uses from 400 to 500 trade names for furs.

COLEMAN COUNTY BANKERS URGE REDUCTION OF COTTON ACREAGE

Lions Club Enjoys Musical Program

The committee to furnish entertainment for the weekly luncheon of the Lions Club selected another team of splendid entertainers this week in the persons of Misses Maurice Kirkpatrick and Mary Harriett Simpson. The young ladies rendered several vocal numbers with Miss Marie Blewett at the piano.

Visitors at the meeting were R. R. Browning of Coleman and J. W. Nichols of Waco. Both men are interested in the Lankart variety of cotton, and were here to encourage the move started recently in this county to adopt a uniform, long-staple cotton. Mr. Nichols, a cotton buyer on a large scale, stated the Lankart variety of cotton had won more premiums in the four main cotton producing states the past four years than all the other leading varieties put together.

Egg Circle Not Yet Perfected

Several men and women met in the City Hall here Wednesday afternoon in a further effort to perfect the organization of a local Egg Circle. After considerable discussion, a committee was appointed to meet with the county wide meet of Home Demonstration clubs at Coleman Saturday, and also to investigate home markets and report back at another meeting here next Wednesday afternoon. A general invitation is extended to all who are interested in poultry to come in and take part in the meeting, and join the organization if you care to do so. The meeting will be held at 2 p. m., Wednesday, March 25.

B. A. Creamer In Serious Condition

Elder B. A. Creamer, local minister and carpenter, of Santa Anna citizen for many years, is said to be lying at the point of death in the Sealy hospital as the News goes to press. He is suffering from blood poisoning, caused from a scratch on one of his hands the latter part of last week. Very little hope is held for his recovery.

Miss R. V. Casey of Bangs was shopping here Saturday.

In this issue of the Santa Anna News will be found a large display advertisement signed by all the banks of Coleman county, urging farmers to reduce their cotton acreage and plant more feed. We are glad to see the banks of Coleman county take this important step. The farmers in this country are facing a crisis comparable to any they have ever faced in the history of this country, and those engaged in the banking business realize the gravity of the situation and the importance of the people producing more of their necessities at home. It can be done, and not only that it must be done.

It occurs to us that most of farmers who borrow money at the banks from year to year, and often have to be carried over without making settlements in full are those who try to produce cotton to buy feed, teams, tools and everything else they use on the farm. The farmer who is able to tide himself over the crisis is usually the one who produces feed enough to feed his own stock, and those who are able to operate on a strictly cash basis generally raise their own bacon, keep one or more milk cows, and usually when they come to town bring a few dozen eggs and occasionally a few extra chickens to sell. We believe any farmer in Coleman county can get on a cash basis in one or two years by adopting the Cow, Sow and Hen route, and by producing their feed at home. If it is unprofitable to raise so much cotton, why in the name of sam hill don't they change the system and adopt another one. In few instances have people failed who adopted the diversified system of farming, and in still fewer instances have people prospered who clung to the old one-crop cotton system of trying to farm. Take heed and take warning from your banks and change your system.

Mrs. C. C. Cornells and son of Coleman were visitors here Monday.

Mrs. E. R. Purdy left Saturday night for Beaumont to visit her daughter, Mrs. Ireland Hubbard.

Mrs. A. R. Brown accompanied by Mr. and Mrs. J. R. Hewitt Jr. and Mrs. J. R. Hewitt of San Angelo visited Mrs. A. D. Bee of Brownwood Friday afternoon.

A Good Bank

Connection Can Do Much for You

A good bank connection offers you not only a most business-like way of handling your personal funds, but also a friendly helpful co-operation, which proves invaluable in many ways.

It offers you expert advice on business and financial problems. It gives you utmost safety and protection. It is a friend in need.

We Invite Your Account

Whether it is a checking account or a savings account for we cannot serve you unless you give us the opportunity.

We especially invite your savings account for we know that through this branch of our service we are offering you the best and most helpful service possible.

A savings account is your staunch friend and most beneficial asset.

The State National Bank

Your Ambitions Must Be Backed with Ready Funds

No matter what ambition you may foster or how well organized your plans may be, you'll find that it will take money to realize its fulfillment.

Many an opportunity has been lost when the favored person did not have the ready funds to develop it.

SAVE YOUR SURPLUS EARNINGS

You can save regularly if you will start an account at this bank and you run no risk—our bank has adequate capital and excellent experience behind it that make it a sound, reliable institution with which you will be proud to do business.

Let us be your financial advisers.

Special Service at Methodist Church Sunday Night

LEAGUE ANNIVERSARY DAY

Next Sunday is the occasion of celebrating the anniversary of the beginning of work with the young people in the Methodist Church. This is called League Anniversary Day, and the service of worship for the evening hour will be in the hands of the young people of the Epworth League.

At this time the young people will give an historical play presenting some of the activities of the church and showing the League's part in them.

The following cast of characters will tell you enough to let you know that this service will be interesting, informing and inspiring:

The play: "Children of Light". Director: Mrs. Joe Mathews.

Prologue: Mary Harriet Simpson.

Church: Maurice Kirkpatrick. Epworth League: Annie Stiles. Hand Maidens:

Spirituality: Eva Williams. Evangelists: Lena Bob Pillow.

Social Welfare: Bernie Vinson. Missions: Lonella Taylor.

Vision: Rebecca Turner. Consecration: Aline Harper.

Two Oxford Student: Max and Jack DuBois.

Two Women of Wesley's Day: Katherine Rose Pinney and Hettie Faye Todd.

Two Workmen: Robert Curry and Lynn May.

Francis Asbury: Marvin McLaughlin.

Mrs. Asbury: Lona Newman. Walter Russell Lambuth: Myrton L. McDonald.

Mrs. Lambuth: June Bond. Missionary Maurice Curry.

Minister: Leon Polk. Procession of young people.

—Jos. I. Patterson, Pastor.

DO THIS AND BE HAPPY

Promise yourself:

To be so strong that nothing can disturb your purpose of mind.

To talk health, happiness and prosperity to every person you meet.

To make all your friends see that there is something in them.

To look at the sunny side of everything and make your optimism come true.

To think only of the best, work only for the best, expect only the best.

To be just as enthusiastic about the success of others as you are about your own.

To forget the mistakes of the past and press on to greater achievements of the future.

To wear a cheerful countenance at all times and give every living creature you meet a smile.

To give so much time to the improvement of yourself that you will have no time to criticize others.

To be too large for worry, too noble for anger, too strong for fear, and too happy to permit the presence of trouble.

To think well of yourself, and to proclaim this fact to the world, not in loud words, but in good deeds.— Selected.

AN OPTIMIST

In a late address before the Lions Club at Colorado, Texas, Fred B. Whipkey, publisher of the Colorado Record, and a former publisher at West, McLennan county, told what constitutes an optimist by relating the following story:

A fellow in the town was bitten by a dog. In a few days he became sick; the doctor came and told him they had found the dog to be mad. The fellow, who was in bed instantly jumped up, grabbed his tablet and pencil and began to write rapidly. The doctor said: "Hold on, you may not have rabies; I may be able to cure you. You need not make out your will yet. The fellow stopped his writing, looked at the doctor, and said: "Will the dickens! I am not writing a will; I'm writing down the names of the people in this town that I'm going to bite when I go mad." That man was a true optimist.

Then as a concluding thought, Fred gave the following quotation:

"Give me a sense of humor. Give me the grace to see a joke. To get some happiness from life and pass it on to other folk."

All who know Fred B. Whipkey will unite in saying the above shows he is a true optimist, even if he does claim to only "loaf" around his printing office these later days.—Fred B. Robinson in Waco News-Tribune.

Mrs. R. F. Miller and children of Brown ranch were shopping here Monday.

Willie Gibson of McCamey came in Sunday for a visit with his family.

Mayor Baxter Proclaims Spring "Clean-Up Week"

It has become an established practice in every wide awake community to clean house in the Spring of the year.

Much of our cleaning is due to a desire to make everything attractive, yet there is another important reason why our efforts in that direction should be thorough and complete. I refer to fire and disease prevention, and it is to that feature of the Spring Clean-Up activities that I am directing the attention of our people at this time.

Safety from fire and disease is a matter of supreme importance. Wherever there is dirt and disorder there is danger. A pile of trash may start a conflagration; a few ill-kept homes, dirty yards or stagnant pools may easily become the source of an epidemic. There is a marked similarity between fire and disease hazards. They have a common cause—dirt and carelessness. They have a common cure—constant care to prevent their existence.

Now, therefore, I, W. E. Baxter, Mayor of the city of Santa Anna, do hereby designate the period from March 30 to April 5 (inclusive), as Spring Clean-Up Week in Santa Anna, and I call upon every man, woman and child to diligently observe the occasion by clearing away all things that menace our safety from fire, or the public health.

I suggest to housekeepers that they begin in the attic and remove everything from the home that has outlived its day of usefulness. And, when that task has been completed, turn attention to the yard, garage and outhouses.

And I call upon every business man to thoroughly inspect his buildings and premises, removing therefrom rubbish and other combustible materials that may have accumulated during the winter season.

This Spring Clean-Up Campaign should be carried into every section of the city, and the time to begin making preparations for it is now.

Let us enter actively into the work, and thereby contribute to the safety, health and happiness of ourselves and our neighbors.

Given under my hand and seal of office, this the 19th day of March, A. D. 1930.

(Signed) W. E. Baxter, Mayor

THE RIGHT ROAD

For the past fifteen years we have noticed at this time of the year the farmers lining up at the bank president's office, each in turn to make his "arrangements" for the current year.

It is the same this year, and many of them are the same ones we have seen every year. One thing we have noticed is that not one of these "first of the year arrangers" is noted for selling eggs, cream, hogs or potatoes.

Another thing we have noted is that some of those whom we have seen in this line in previous years are no longer seen there, and those who are missing we invariably find are men who have gone to raising chickens, cows, hogs, fruits or truck on their farms. These by-products have put them on a cash basis and they no longer have to "arrange." It seems to us that this should be demonstration enough that the road to economic independence is not through the cotton patch.—Mabank Banner.

AND THEY GOT THE POINT

A negro evangelist was preaching concerning the horrors of hell. In front of him was a coffin piled high with flowers. Newspapers had announced that it was to be the funeral of a neighbor. There was no word of praise from the preacher's mouth. "Brethren an' sistahs," he shouted, "ouah deceased friend heah done committed every sin in de catalogue. He wasn't ready when de trumpet ob de angel called him. He was unprepared. He was wicked and had to face judgment in his wickedness."

At the end of the sermon every member of the congregation was eager to crowd forward and view the remains. Solemnly they filed past the coffin. It was empty but in the bottom was a mirror that reflected the face of every "mourner" that looked in. The lesson went home.—Exchange.

Mr. and Mrs. Raymond Hubert of Coleman Junction were shopping here Monday.

Mr. and Mrs. Ed Stafford of the Line community were buying Trade Merit Specials here Monday.

COLEMAN COUNTY BANKERS

To The Farmers of Coleman County:

Do you want to take 10c or less for your cotton this year? That prospect is before us. What can we do about it? The most practical thing, in our opinion, is to plant enough feed on your farms for your own use. This can be done by every farmer in Coleman county. It has never yet been done. If we will only do this one thing we will be able at least to get by even if cotton does sell for 10 cents.

Reduction of cotton acreage is the only possible thing that will prevent a low price for cotton this year. This is being advocated by the Farm Relief Board and the Agricultural Departments of our State and Nation. It is self evident.

Raising enough feed for our own use is not all that is necessary to correct the situation but it is a step that is easy and practical.

We strongly urge upon our farmers that they do this thing.

Unless some change is made in our farming operations, the day is coming when the banks will be unable to safely advance money to finance production of cotton alone.

My Favorite Stories
by Irvin S. Cobb

THE ORIENTAL VIEWPOINT

THIS story, it seems to me, is more or less illustrative of a cardinal point of difference between the Oriental philosophy and the Occidental viewpoint as it is reflected in some of the larger American cities. Moreover it has the added advantage of being the record of an actual occurrence.

A distinguished Japanese sociologist, who spoke good English, was touring the country a few years ago with a view to studying our ways and institutions. He reached New York, bringing letters of introduction to a well-known native scientist. The New Yorker arranged a day of sightseeing for the distinguished visitor.

The latter was quite anxious to study traffic conditions. He had heard of the Brooklyn bridge rush. So the American began the forenoon by taking his guest to Park row, where the Jap spent an interested half-hour observing the jam of humanity. The next event on the program was to be a study of uptown congestion.

When the two observers were ready to leave the bridge no taxicab was available, so the guide steered the Japanese aboard a subway local at City Hall station. At the bridge station he hurried the foreigner out of the car, dragging him through the crush on the platform, and jammed him forcibly aboard a northbound express.

At Grand Central the same thing was repeated. The Oriental was hurried across another platform, led at a trot through a long and winding tunnel, up one flight of stairs and down another and shoved in at the door of a second train from which, eventually, they emerged and climbed to the street.

The American led the way to the lobby of a nearby hotel where, by appointment, the two of them were to meet an official of the police department who had agreed to escort them through Fifth avenue and upper Broadway. They sat down to await his arrival. He was not due for perhaps a half-hour yet.

The Japanese, like most of his countrymen, was a small man. In the journey he had been sorely buffeted about. A careless elbow had jammed his hat down over his eyes, his morning coat was rumpled and his slender toes had been trodden upon. As he rearranged his disordered wardrobe, he said to his companion:

"Would it not have been possible for us to have made the entire journey from where we started to this point where we are now by remaining upon the train which we originally boarded?"

"Oh, yes," said the American, "but you see, by changing from the first local to the express and then back again to another local, we saved three minutes."

"Ah," said the Japanese, "and now what are you going to do with the three minutes?"

TWO WITH A SWEDISH BACKGROUND

PERSONALLY, I do not know a great many persons of Swedish birth. But those Swedes I have met struck me, nearly always, as being unusually keen-witted. Nevertheless, it is customary among after-dinner speakers, when telling a yarn purporting to deal with slow thinking, to make the central character of it a Swede, and preferably a Swede farmer.

For instance, there is the classic of the Wisconsin politician who, in the Presidential campaign of eleven years ago, toured the back districts of his native state to electioneer for his party. In a remote neighborhood he came upon a tall Scandinavian sitting on a log in a clearing. The stranger hopped up his team and greeted the resident, who replied with a nod.

The politician explained that he was sounding out the sentiment in the district.

"What do you think about Wilson?" he asked.

"Aye don't know," drawled the other.

"Well, how about Roosevelt?"

"Aye don't know."

"Maybe you like Taft?"

The alien shook his tawny head, dumbly.

"Well, now, look here, then, you must have some opinion," said the visitor. "You and your neighbors must have talked things over among yourselves. Who do you think has the best show?"

The simple Swede gave this question lengthy consideration. Then, with a faint tinge of expression, he said:

"Aye tank Hingling Brothers got the best show."

Then there is the time-honored yarn of the Swede furnished up in Minnesota, who, on the witness stand, was called upon by the attorney for the railroad to furnish details touching on the tragic death of a companion.

"Aye tell you," he answered. "Me and Ole, we bane walkin' on railroad track. Train come by and aye yump off track. By and by, when train is gone, aye don't see Ole any more. So aye walk on and pretty soon aye see one of Ole's arms on one side of the track and both Ole's legs on other side of the track. And then pretty soon again aye see Ole's head, but Ole's body is not there. So aye stop and say to myself, 'By Hingling's name, aye don't see Ole!'"

(By the McNaught Syndicate, Inc.)

Boy Scouts Spend Night on River

On last Friday the Boy Scouts of Troop Fifty-five of the Chisholm Trail Area were excused from school at two-thirty to make a trip to the Colorado river. The Santa Anna Motor Co. furnished the truck and the boys went about twenty-five miles to a place near Whon, where they camped for the night.

The boys came in Saturday, looking rather worn and sleepless, declaring an enjoyable time. The following Scouts made the trip: William Earl Ragsdale, Russell Hale, Brownlee Hunter, Robert Hunter, Carl Flores, Jim Bob Gregg, Eugene Watkins, Garland Close, Wendell Sparkman, Jesse Lee Sparkman, Jack Gregg, Clovis Fletcher, J. D. Plerait, Howard Marshall, Max DuBols, John David Harper, and Leon Bartlett. They were accompanied by Scoutmaster W. R. Keiley Jr., and J. Ed Bartlett.

CLEAN-UP SEASON

The clean-up season of the year is close at hand. Every housewife is now waiting for the first sign of spring in order to begin her annual task of making every thing bright and clean.

The spring clean-up is an individual matter. No amount of organization will bring about a spic and span community unless citizens feel a certain pride in their own homes and premises.

Taking it for granted that Santa Anna people will fall in line when the time comes for this clean-up, this matter recalls another house-cleaning which can be applied to every individual, if he will adopt a set of rules for his own campaign.

Each person should consider "my housecleaning" along with other applications to which housecleaning is applied. A good code of ethics for "my housecleaning" may be found in the following:

"I will repair my friendships that show signs of wearing out, not through use, but through the abuse of neglect."

"I will consign to the scrap heap my disappointments and blasted hopes, just as a housekeeper throws away a cracked vase."

"I will air my smites and good will instead of my personal opinion, in the humble hope that my neighborhood may be a bit better for my so doing."

"I will beat my past production record even if it takes considerable effort to do it."

"I will scrub the grimy footprints of fear from my mind and put up a sign 'No trespassing.'"

"I will take a definite and defiant stand against waste and extravagance as a good housekeeper takes against dirt and disorder."

Darst Oil Field

Developments in the Darst oil field are so rapid that estimates of production made one week are below the figures the next. These estimates are now from 100,000 to 150,000 barrels daily. The field is nearly equally distant from Luling and Seguin, both towns claiming it as theirs. Both are progressive little cities and entitled to much credit for their progress. The worst objection to either place applies about equally to both—that is the bad road that is between them, which indicates to visitors that they do not want to be on very friendly terms with each other and do not care much for folks to come to see them.

President Rubio of Mexico is taking steps against gambling. Senator Rubio took one of the biggest gambles of all when he came out for election to the office he holds.

Horse Racing to be Held at San Angelo

San Angelo, March 16—When the first annual Spring Race Festival opens at 2:30 p. m. Wednesday, March 19, at the San Angelo Fair Grounds, horse racing fans will be afforded an opportunity of witnessing some of the fastest races ever run here. About one hundred horses are already stabled at the grounds, and in the number are horses that have made history in southwest circuits.

Three horses will be shipped Sunday from the famous Waggoner stables at Arlington Downs. The First Cavalry at Marfa is bring seven horses, and stalls are reserved for many more horses from Oklahoma, and other parts of Texas. Dr. Bloss, owner of Foreign Relations, the horse that thrilled spectators at the West Texas Exposition last year, is returning this horse and several other fast horses from New Orleans. Frank Norflett, the famous layman detective, is bringing from two to four horses from his stables in the Panhandle country. The races will continue all this week.

Extending Poultry Plants

The Poultry Producers Association of Texas, with headquarters at San Antonio, is establishing candling, packing and shipping plants at New Braunfels and Victoria. It already has plants at Comfort and Runge and is making overtures to Robstown for a plant. It purposes cooperative organizations for marketing purposes throughout the State along lines that will get recognition and marketing aid from the Federal Farm Board.

According to a survey of the National Industrial Conference Board the theoretical wealth of each person in the United States is \$3000. Since reading this report we've decided to try to eke out an existence on our actual and buy a nice, theoretical automobile with the theoretical three thousand.

Favorite Bible Passages

George H. Moses
U. S. Senator from New Hampshire

pleasure in them; while the sun, or the light, or the moon, or the stars, be not darkened, nor the clouds return after the rain:

In the day when the keepers of the house shall tremble, and the strong men shall bow themselves, and the grinders cease because they are few, and those that look out of the windows shall be darkened, and the doors shut in the streets, when the sound of the grinding is low, and he shall rise up at the voice of the lark, and all the daughters of music shall be brought low;

Also when they shall be afraid of that which is high, and fears shall be in the way, and the almond tree shall flourish, and the grasshopper shall be a burden, and desire shall fall: because man goeth to his long home, and the mourners go about the streets: or ever the silver cord be loosed, or the golden bowl be broken, or the pitcher be broken at the fountain, or the wheel broken at the cistern. Then shall the dust return to the earth as it was; and the spirit shall return unto God who gave it.

Comment: For nobility of English and wealth of imagery, I know nothing to surpass this. (Compiled by the Bible Guild.)

Two Week's Revival At Baptist Church Brought to a Close

The revival at the Baptist church the past two weeks came to a close Monday night with a Baptismal service. Evangelist Rowan and the singer, Rev. Rucker of Bangs returned to their homes and other fields of work Monday. The revival was a great success and we feel the church and community have enjoyed a great spiritual feast. There were about fifty conversions during the meeting, and 54 additions to the church. Thirty-eight were baptized Monday night and two of the candidates were unable to be present. Pastor Wingo, cooperating with a number of the church workers, made much preparation for the revival by carrying on a series of prayer meetings prior to the opening of the revival, and it had its telling effect during the revival services. Much good was accomplished during the revival, and we think the town and community have received a great blessing.

"You can't believe anything the Republicans say," remarked Uncle Bill, Democrat, in front of the bank today. "Why, there's Congressman Beck," he continued, "who says Prohibition is a 'monstrous compound of iniquity and folly,' and only a white back another prominent Republican called it 'a noble experiment.' Now who are you going to believe?"

Al Smith's defeat doesn't seem to have interfered with his golf, and to some golf players that would mean more than the Presidency, anyhow.

Again this year many a good hat will get spoiled by throwing it in the ring instead of keeping it on the head.

A doctor says the talkies do not hurt the ears. Not only that, but some of them are good for sore eyes, too.

The greatest disappointment to some boys is when the house next to the school building is destroyed by fire.

A one-man one-motor combine of Australians invention is being tried on western grain fields.

Only three feet under the surface of the ground the temperature is as cool at midday as at midnight.

Agricultural agents are employed by thirty-two of Montana's fifty-six counties.

In constructing the Graf Zepelin 52,000 square yards of cotton fabric were used.

Santa Anna Gets a Much-Needed Rain

Last Friday evening, Santa Anna and the territory north was treated to a fine rain. About one inch fell in Santa Anna and it was reported to have been heavier north of town. About thirty inches of water was caught in the lake, which prevents a water famine for the near future but is not enough to relieve the situation for the year. It is very necessary that users of the city water conserve all they can, in order to avoid a panic later in the year. In the event that we fail to get sufficient rains during the remainder of the Spring. It is early in the season yet, and most of the heavy rains generally fall during April and May, but it would not be wise to rely on them. The rain last week was a great relief to many, and we hope, before the season closes, all will be blessed with a good season.

Favorite Bible Passages

Harold Bell Wright
Novelist

Inasmuch as ye did it unto one of these My brethren, even the least, ye did it unto Me.—Matthew 25:40.

And behold, a certain lawyer stood up and made trial of Him, saying, Teacher, what shall I do to inherit eternal life? And He said unto him, What is written in the law? How readest thou? And he answering said, Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy strength, and with all thy mind; and thy neighbor as thyself. And He said unto him, Thou hast answered right: this do, and thou shalt live.—Luke 10:25-28.

The life is more than food, and the body than the raiment.—Luke 12:23.

Comment: To me, this last sentence expresses what, with no irreverence, I like to think of as the earthly philosophy of Jesus. As a single grain of wheat holds a germ of life, which is capable of producing all the bread the world will ever need, this saying holds the vital germ of all that Jesus taught concerning man's right living here on earth. (Compiled by the Bible Guild.)

Shop-Girl Life Basis Of Clara Bow Picture

Clara Bow will be seen and heard in her third all-talking picture when "The Saturday Night Kid" is shown at the Queen Theatre next week. It will be here for three days, Sunday, Monday and Tuesday.

The picture deals with the lives of employees in a large city department store. The dialog is the real talk of workaday Americans—snappy, fast, supercharged with flash and pep, comedy and heart-throbs.

James Hall, who played opposite Clara in "The Fleet's In," has the leading male supporting role.

Mr. and Mrs. A. O. Stearnes and son of Trickham were visitors in the E. R. Purday home Sunday.

Chas. Ford Chambers spent the week end with his grandparents, Mr. and Mrs. C. H. Ford, of Goldthwaite.

L. D. Sanderson of Rockwood and W. F. Burns of Whon were business visitors here Tuesday.

The average person spends one-fourth of his lifetime in bed due to illness.

HARRY MILLER FILES FOR PLACE ON BALLOT

ABILENE, March 17.—Lieut. Gov. Harry Miller Monday mailed his application for a place on the Democratic ticket as a gubernatorial candidate to D. W. Wilcox, chairman of the party's State Executive Committee.

Miller forwarded the application shortly after he had been relieved of his duties as grand master of Texas Odd Fellows at the organization's convention here. He had announced his intention of seeking the governorship several months ago.

Asked if he thought Governor Moody would run again, the Lieutenant Governor said:

"I do not know. I hope not. I like that boy, and if he runs he'll get the worst defeat of his life."

Less than 3 percent of the paper now made in this country is rag paper.

Iron pavements have been tested in France and pronounced cheap and durable.

SERVICE!

Can't Be Shipped

—and speaking of Service—are these services of any real value, or do you just "take them for granted"?

When the teakettle leaks you want it fixed right now. If you drop your watch the repair man is nearby.

Every tire—wherever bought—will welcome "free air." A suit isn't easily pressed or repaired by mail.

If the battery goes dead, the oil needs changing, or the radiator thawing out, there's service at hand.

When buying a hat, suit, dress, coat or a pair of shoes—it's the trying on and the careful fitting that gives you the assurance of comfort and becoming style.

Food ordered by phone and delivered—the radio fixed promptly when it balks—new soles on Johnnie's play shoes—an urgent prescription quickly filled—checks cashed after banking hours. These services can't be had over "long distance".

YOU NEED YOUR STORES! BY SERVING YOU CHEERFULLY AND WILLINGLY THEY MERIT YOUR TRADE. USE THEIR SERVICE AND THEIR GOODS.

The Foundation of a Merit Merchant's Business is Service

Texas and Texans

By WILL E. MAYS

Largest Egg Market
Editor Bost of the Schulerberg Sticker, claims that Schulerberg is the largest egg market in Texas and he quotes figures—too big to be remembered—to prove it. He also says that the milk products plant at Schulerberg is "leading them all" in volume of business.

Making Poultry Pay
Lampasas has a newspaper correspondent who is great at using figures in the daily papers to show how easy it is to make money in Lampasas county. Mrs. Howard—notice it is Mrs. Howard—according to this poultry auditor, has 110 white leghorn hens that have earned a net revenue of \$597.76 in a year. She has the itemized statement to prove it. In a little while Mrs. Howard should be making more money than a member of the Texas legislature, who draws his salary from the State and works at something else the while.

Milk Products Plants
Not only are Texas milk products plants increasing their capacity, but new ones are being built all the while. Lamasa is to have a three-day celebration of the opening of its \$200,000 plant and a 66-page booklet will be distributed describing the plant and the dairy industry of the section. Mount Pleasant has started a brick building for a \$200,000 plant. Wisconsin dairy farmers in greater numbers will soon be moving to Texas, where cows do not have to be kept in stalls, but live out in the sun shine.

Opportunity is always beckoning, but he never sends out a sheriff with a search warrant.

The three highest mountains in the world are in India; Mt. Everest, Kangcheh Junga and Kabru.

Explanation About Cotton Seed

Our attention has been called to the fact that cotton seed of the Lankart Variety is being offered for sale in the community by farmers who grow the Lankart cotton, but they are not the state certified seed, and those buying such seed will not be permitted to gin with those who buy the Lankart certified seed. There is no restriction on those who buy the certified seed as to where they gin but a number, in fact most all who are buying the certified seed expect to have gin protection against all other kinds, and the move is intended for the betterment of cotton growers in Coleman county. A matter of fact, the public is easily confused, and to avoid confusion next fall at the gin, or gins, it would be well to start right this Spring and all plant the same kind of seed. Personally, the only interest the writer has in it is to help those who want to help, and realize the value and importance of growing a uniform cotton and keeping it pure. To gin alternately with second or third-year run seed would cheapen the entire run and largely defeat the purpose we have tried to do. So keep your britches on and your shirt in, then when the ginning season opens there will be no differences to settle. Believe it or not, we are doing our darndest to help redeem a sinking ship, so to speak, and cooperation is the word.

REV. RAY JOHNSON TO PREACH SUNDAY AT METHODIST CHURCH

In the absence of the pastor a young ministerial student of Daniel Baker College, Rev. Ray Johnson, will preach at the Methodist Church at 10:50 a. m., Sunday. You are invited to hear the message this fine young man will bring. Come praying God's blessings upon the service and be blessed of Him.

THAT'S SOME EGG BOY

Jim Lannon brought a Rhode Island Red egg to our office last week that measured 9 1/4 inches length wise and 7 1/4 inches in circumference, and weighing six ounces. Now boy, that's some egg, and if you had some five hundred or a thousand laying Rhode Island hens like that it would beat an oil well all to thunder. Then besides, a flock of laying hens multiply, so does Jersey cows and pigs. While that of an oil well pinches out, runs dry. But a nice little farm stocked with poultry, pigs and Jersey cows is eternal. Be it said that Jim Lannon, that is we expect maybe-so, it's Mrs. Lannon who is long on turkeys, chickens, cows and butter. They sell some four or five hundred dollars worth of turkeys nearly every year, then added to this, chickens, cows and butter, hence they are on prosperity lane. Of course Jim raises a little cotton, but that's a side issue with him. Yes, Jim is one of our diversificationists, he illustrates just what can be done in this county on the small farm and ranch, if one will just put harness on all the factors that belong to the stock farming business. It don't matter where you farm, in the Delta of the Mississippi or in rich black land of Central Texas, if you bet all your money on one crop, and stick to it, you'll go broke, wear your land out and finally lose your seed. The one crop system is a menace to the welfare of the farm folks. Out there in the Northwest, in the great wheat belt of the nation, the wheat men stuck to wheat, made it one crop, flooded the market with wheat, and today they are bankrupt. Now at this late date they have waked to the fact that they must diversify, hence they are turning their attention to the Hen, the Cow and the Sow. Why? The product of the American Hen, the Cow and the Sow is the staple diet of the nation. But Lordy boy, at the breakfast table this morning one hundred and twenty five million folks sat down to fried ham, eggs and cow butter and rich cream, fat juicy steaks. Oh yes, this diversification diet tickles the palate of the nation, and it's growing all the while. And why not cater to it? That's what Mr. and Mrs. Lannon are doing. Of course we don't know, but we are betting on a general average that there is no mortgage on the Lannon farm, and we will bet six bits that they don't owe any long past due bills at our stores. Cash on the barrel head, eh? Financial freedom, eh? The Hen, the Sow, and the Cow.—Albany News.

Our English language is strange. We attempt to prevent scraps by scrapping our armaments.

Y. W. A. HOLDS MEETING

The Y. W. A. held their regular weekly meeting last Tuesday afternoon at the home of their counselor, Mrs. W. I. Mitchell.

The roll call was answered by each girl reading a passage of Scripture from the Bible.

The president, Miss Irene McCreary, presided as chairman over a short business meeting in which it was decided that each auxiliary member bring a towel to be sent to the Buckner Orphan's Home.

An outing was planned for next Monday afternoon at which time a test will be given on the manual, after which supper is to be cooked over a camp fire. After the business meeting Miss Lula Jo Harvey conducted a class in the Y. W. A. Manual.

Following this, thirty minutes were spent in Choral Club work, which was directed by Mrs. Mantine Gattys with Miss Mattie Ella McCreary as accompanist.

Suggested Change In Merit Bargain Days

Some have suggested a change in the days of our MERIT MERCHANTS specials, using Saturday and Monday instead of Monday and Tuesday. This might meet with the approval of all, and in event it does, we will be glad to make the change. We are trying to make the merit plan a real feature, and want it to grow bigger and better with each passing event, and if it is more desirable to have the specials offered on Saturday and Monday than Monday and Tuesday, we will cooperate with you to see that you get the very best results from your advertising. The next MERIT MERCHANTS SPECIALS will be for Monday, March 31, and Tuesday, April 1. If you want to make a three-day event of it, prepare your copy and as we pass around after your ads next week, we will take your vote on the subject and report our findings. It might be better to have it on Monday and Tuesday the first week in each month, on account of our regular established Cow Day event, and then have it Saturday and Monday for the third week, but whatever suits you will be our pleasure to give. We will be glad to make the change for your benefit. What we are trying to do is to make the Santa Anna News worth all to Santa Anna that it is possible for us to do, and we hope there is nothing short on our part. Continue to give us your cooperation and we will continue to give you our very best service. It takes all of us to make Santa Anna and the writer is just one. However, we are here to serve and the better service we can render to our advertising customers and subscribers by bringing them closer together, the more pleasure we receive from our business.

Business Is Good

I have been in at least 50 Texas towns in the last month, from cross roads villages to the largest cities, and have seen evidence of prosperity everywhere. Whether this depends on the mental attitude of each individual.

Lankart Cotton

combines all the desirable qualities--largest stormproof bolls, most production, high lint percent, premium staple.

More First Premiums in Four States (Texas, Okla., Ark. and La.) Than All Other Varieties of Cotton Combined.

No Seed Are Apt to Cost So Much as Seed That Cost So Little.

Season 1929-1930

Data Taken From W. S. Mason & Co.'s Records Comparing Prices Received for Lankart Cotton With Average Central Texas Cotton

August 29— Sold for Warner Gin Co. 228 bales cotton 142 points on Oct. New York. Price .2025.

At this time the prevailing basis for Waco and Central Texas average receipts, nothing below 15-16 inch, unculled ranged from 35 to 60 points off Oct. Premium paid for Lankart Cotton, 177 to 200 points, or \$8.85 to \$10.00 for 500-lb. bales.

September 5— Sold for Warner Gin Co. 431 bales cotton 132 points on Oct. New York. Price .2025.

At this time the prevailing basis for Waco and Central Texas average receipts, nothing below 15-16 inch, unculled ranged from 50 to 70 points off Oct. Premium paid for Lankart Cotton 162 to 202 points, or \$9.10 to \$10.00 for 500-lb. bales.

September 14— Sold for Warner Gin Co. 425 bales cotton 135 points on Dec. New York. Price .2000.

At this time the prevailing basis for Waco and Central Texas average receipts, nothing below 15-16 inch, unculled ranged from 75 to 90 points off Dec. Premium paid for Lankart Cotton, 195 to 220 points, or \$9.75 to \$11.00 for 500-lb. bale.

October 1— Sold for Warner Gin Co. 568 bales cotton 101 points on Dec. New York. Price .2005.

At this time the prevailing basis for Waco and Central Texas average receipts, nothing below 15-16 inch, unculled ranged from 80 to 100 points off Dec. Premium paid for Lankart Cotton about 200 points, or \$10.00 per bale.

This cotton was ginned on a standardized Lankart gin (Warner Gin Co., Waco, Texas) and owing to long staple and excellent grade caused by stormproofness of cotton more than 90 per cent of this year's crop sold for over 20 cents per pound.

Gin Turnouts

We give below weights of a few bales of Lankart Cotton, 1929 crop, selected at random, showing lint turnout.

Grower	Bale No.	Wt. Seed Cotton	Wt. Bale
Robt. Fryson	307	1320	535

INTERSCHOLASTIC LEAGUE

Cries such as, "Old S. A. H. S. must win this year!" and "Don't worry—we will!" are being heard as the days roll by nearer to March 21st, especially from those who are entering Santa Anna...

ORCHESTRA BROADCASTS FROM BROWNWOOD

Sunday, March 16, members of the orchestra and students of Prof. Bohlin, broadcast from the Southern Hotel, at Brownwood. There was a vocal solo by Celia West, a violin solo by John Walker Taylor...

BASKETBALL TOURNAMENT

Saturday, March 15, Santa Anna's girls' basketball team entered the play-day meet at Coleman. There were six teams entered in the tournament...

SANTA ANNA VS. LIVE OAK

Santa Anna girls won another basket ball game last Wednesday when they defeated the Live Oak girls 15-7.

SCRIBBLERS CLUB PARTY

Miss Olivia Land gave the Scribblers Club and a few friends a party Thursday night. A large number of the Scribblers could not be present...

BOY SCOUT HIKE

The Boy Scouts in Troop 55 of the Chisholm Trail area were excused at the end of the sixth period Friday to make a trip to the river. The boys said they were not rained on, which rather surprised the stay-at-homes...

Mr. Scarborough: "Now in this experiment I'll take some acid and then I'll take some chloroform."
Wendell: "That's a good idea."

HOME ECONOMICS CLUB

The Home Economics club sent in three dollars to the American Home Economics Association at Austin, Friday, March 7, in order to obtain affiliation for the club. The membership card was received Thursday, March 13...

Last week Mr. Blinn carried several of the boys to Ft. Worth, where they represented the school in the relay races. The following boys made the trip: Richard Jennings, Elon Cheatham, Buster Turner and Marcus Johnson.

CHAPEL PROGRAMS

Chapel four times in one week! Almost impossible to imagine, yet it happened last week. On Monday eliminations in the Senior Girls and Boys' Declamation and Extemporaneous speaking were held...

FIELD TRIP

The second year Home Economics class made a field trip to the Coleman Steam Laundry on Thursday of last week which was their regular Home Project day. Only one girl in the class, Ruby Vanderford, failed to go...

JUNIORS ARE TAKING BIG PART IN INTERSCHOLASTIC LEAGUE ACTIVITIES

The Juniors are taking quite an active part in Interscholastic League activities. The following will defend S. A. H. S.'s title next Friday and Saturday at Coleman. Fred Faulkner and Wm. Earl Ragsdale in senior spelling. These boys won the contest last year and we hope they will be able to keep the cup this year.

SOPHOMORE PROGRAM

The Sophomores put on a good program Friday. After the student body had sung a song, there was a prayer by Mr. A. Ben Oliver. Then the following program was given.

"THE STUPID WITNESS"

A Farce
Scene: Court Room.
Characters: Judge — Evans Burden. Lawyer — Edwin Rollins. Witness (very stupid) — Emmett Stiles.

LOVING CUPS AT S. A. H. S.

Santa Anna High School has had a good record in the past Interscholastic League meets. They expect to keep these records up. They have six loving cups in their trophy case. Three out of the six cups are permanent property of the school.

DEBATING TEAMS

The girls' debating team, composed of Velma Ode and Irene McCreary, accompanied by Mr. A. Ben Oliver and the boys' debating team, John Franklin Turner and Wilburn DuBois Jr., went to Brownwood Monday night.

My Favorite Stories

by Irvin S. Cobb
A LITTLE STORY FOR HUSBANDS TO READ

JONES, who had been married a considerable number of years, took counsel with one of his bachelor friends. "It seems to me," he said, "that my domestic affairs are slipping into a rut. I'm afraid my wife is getting bored. There don't seem to be any of the romance left that we had in our early married life. I wish I knew what is the matter."

Rockwood News

The girls and boys indoor baseball teams played the Waldrip teams last Thursday evening. The girls' scores were 21 to 10 in favor of the Waldrip team, and the boys' scores were 18 and 9 in favor of the Waldrip team.

Miss Pebble Steward entertained a small group with a play party last Saturday night. Vernon Johnson, J. B. Richardson, Bernice Johnson and Lois More, students at John Tarleton at Stephenville, spent the week end with friends and relatives here.

Mr. L. D. Sanderson made a business trip to Bangs last Saturday. Mrs. S. C. Webb of Nevada visited with her sister, Mrs. J. H. Dixon the first part of last week. Grandmother Rutherford is reported to be on the sick list this week.

Mr. and Mrs. Frank McCreary and family visited in Dallas last week. Miss Wilma McIlvain who is attending school in Lubbock was at home last week end.

Mrs. John McIlvain, Mrs. E. E. Abernathy, Mrs. Herbert McIlvain and Mrs. A. S. Hart went to San Angelo last Friday night. Mrs. J. H. Dixon returned last Thursday from Mineral Wells, where she attended the funeral of her father, Mr. J. H. Smith. Mr. Smith has visited in this country many times and had many friends in and around Santa Anna.

Mr. and Mrs. Tom Johnson went to Fort Worth last week. Boss Estes, Matt Estes, Carl Buttry and Nelson Rhem all attended the Fat Stock Show in Fort Worth last week.

After the word "hunch" gets an education, it ceases to be that and becomes an intuition.

For speed there is nothing that equals a coal pile during a cold wave.

Making of pottery is regarded as the oldest of the arts, unless you count making a living as the oldest.

If you can make a better mouse trap than your neighbor, you will catch all of the mice in the neighborhood.

Self Culture Club

March 28th
1. In what sense were Richardson's and Fielding's first novels both accidental?
2. What is meant by the term "Gothic Romance"?
3. What does the list in Moody and Lovett, page 357, indicate as to the growth of Scott's range of subjects?
4. How was Dickens' early life a training for his novels?
5. What evils did he oppose in them?
6. What sort of life did Jane Austen portray with most success?
7. What traits of the classicist in literature are found in Thackeray?
8. What sort of reaction is seen in Stevenson's novels?
9. Contrast Meredith's and Hardy's interests in life.
10. From what class are Thackeray's characters chiefly drawn?

Wisconsin Men Converted

A train load of Wisconsin men, including representatives of the department of agriculture and the secretary of the real estate brokers' board, visited Texas the last week in February, going as far south as the Rio Grande Valley. They were surprised and delighted at what they saw and heard of this great State, and the result will likely be that the ban against Texas realtors will be removed.

They brought with them baggage cars containing Wisconsin products, such as cheese, condensed milk, grain, flour and Christmas trees. Doubtless they learned while here that Texas is producing all these things and much more at far less expense than they can be produced in Wisconsin.

Wharton Hemp Factory

Wharton county farmers and business men have met all the requirements as to acreage of hemp to be pledged, site for mill, etc., and it is reported that a flax mill will be constructed right away, thus opening a new industry in Texas. Those back of the surprise are certain that the lower Colorado river valley is well adapted to hemp culture.

Four Eclipses Are Scheduled for Year

Four eclipses, only two of which will be visible in North America, are scheduled for 1930. Dr. Paul M. Batcher, adjunct professor of pure mathematics at the University of Texas at Austin has announced there will be two eclipses of the moon and two of the sun.

The first eclipse will occur April 13 when the moon will be partially shadowed. This will be visible in North or South America. A central eclipse of the sun is scheduled for April 28 and may be seen in the northern part of the United States and Canada. The first part of this eclipse will be total and the later part annular.

On Oct. 7, there will be an eclipse of the moon, which will be visible in Europe, Asia, Africa and Australia. An eclipse of the sun is scheduled for Oct. 21 and 22. The path of totality will cross the Pacific Ocean, touching a few small islands, and will be visible in the eastern part of Australia, New Guinea and the southern part of South America.

Butter Plant Succeeds

The Hale County Dairy Association owns and has been operating a \$30,000 butter plant at Plainview for nine months. In that time it has shipped 428,435 pounds of butter and paid for buttermilk and operating expenses \$189,819 paying an average of 41.7 for No. 1 buttermilk and 39.3 for No. 2. Eight hundred farmers belong to the association. Cream stations are maintained at three neighboring towns from which cream is delivered daily. This is a splendid lesson for others in the advantages of co-operation.

Backache

If functional bladder irritation disturbs your sleep, causes burning or itching sensation, backache or leg pain, making you feel tired, depressed and discouraged, feel not try the Cystex 48 Hour Test? Don't give up. Get Cystex today at any drug store. Put it to the test. See how fast it works. Money back if it doesn't bring quick improvement, and satisfy you completely. Try Cystex today. Only 60c.

A Few Things Worth Knowing

Tanneries in Holland are highly specialized, each tannery usually producing only one type of leather.

Spontaneous combustion is listed as the greatest cause of fire on farms, with lightning ranking second.

American skunks are being sought by Swedish fur farmers.

Japan now enrolls 99 percent of its children in schools.

More than 100 chemicals are used in automobile manufacturing.

Airplanes cross the Grand Canyon of the Colorado in about thirty minutes.

Italy is taking steps toward standardizing weights and measures throughout the country.

Lichens and mosses do little harm to old buildings, but ivy and other creepers may cause serious decay, a British expert asserts.

A Filipino woman from the Philippine bureau of agriculture is visiting Florida to learn American methods of conserving tropical foods.

Where Helena, Mont., now stands, on Last Chance creek, a rich gold placer deposit was discovered in 1884 which produced more than \$16,000,000.

Spain is to have a model automobile road 260 miles long.

Red brick owes its color to iron oxide in the clay; buff brick is the result of iron sulphide.

Macaroni and spaghetti, originally European foods, are now exported by American factories.

Neon light signs are now popular in China to advertise restaurants, business houses and newspapers.

When tobacco was introduced into China, in the seventeenth century, its use was prohibited by imperial edict.

Two-thirds of the young doctors graduated from medical schools in the United States this year held college degrees as well as medical.

Peach trees sometimes produce nectarines—peaches with fuzzless skins.

A new long handled floor brush is equipped with rubber bumpers so that the corners do not mar furniture.

A Swiss engineer has invented apparatus to lower small packages of mail from an airplane in flight.

The largest land mammal that ever existed was the baluchitherium, a prehistoric relative of the rhinoceros.

Scientists are not agreed as to how long ago man learned to speak.

The average worker loses seven days a year from work because of illness.

Overcoats for bananas that are shipped in cold weather are a recent invention.

Almost one-half of the tea importations of the United States are received from Ceylon and India.

The symbol for zero was invented in India about the sixth century.

Sailfish sought by fishermen off the Florida coast average seven feet in length and weigh eighty pounds.

A survey of stores in cities shows that the heaviest shopping business is done between 11 a. m. and 3 p. m.

The journey from New York to Boston by coach used to take six days.

The Roumanian government is considering changing its military uniforms, and is studying the American service man's garb.

The Liberty bell weighs about a ton.

Seven-eighths of Japan is mountain country.

Three times as many men committed suicide as women in 1934 last year.

The female of one species of spider carries her young on her back.

The tales of "glass snakes" that break in pieces if struck are entirely mythological.

Plans are being made to furnish airplane service to Iceland for both passengers and mail.

It is estimated that 1,000,000 persons in the United States have some form of speech disorder.

America imported \$7,000,000 worth of black pepper last year.

Eight Wisconsin mayors work without pay.

Plate glass windows for shops are a current improvement in old Jerusalem.

Pick's Topics
By THOS. E. PICKERELL

April fools are just as likely to be seen any other month of the year.

The carriage is horseless, all right, but money still makes the mare go.

The anti-prohibitionists think the dries are all wet, but the dries know the wets are.

The "friends" who usually request a man to become a candidate are sometimes sorry afterward.

Badio is all through its experimental stage and is now well into its lack of mental stage.

Maybe that Ohio prisoner who refused to accept his parole had a wife waiting for him at home.

The older they get the harder they fall, The younger they are the quicker.

The faster they are the sooner the squall, The slower they are the stickier.

Representatives of the various nations at the London conference have been trying to talk one another out of armaments, which is infinitely better than shooting it out.

In these days of trying to keep up with the Joneses a tax on

one's income isn't as bad as would be a tax on one's outgo.

Prohibition is hard to get out of the country's constitution. But, then, in the old days strong drink was had to get out of a man's constitution.

Speaking of talking machines, the Congressional Record plays both sides against the middle.

Card of Thanks

We wish to extend thanks to all who rendered aid and extended sympathy during our bereavement, in the illness and death of our companion and father, T. B. Forehand. We fail to find words to express our gratitude but feel grateful to you for your help and sympathy.

Mrs. Forehand and the children

Factors which make for strength in brick walls have been studied by the United States bureau of standards.

Chickens Kept Healthy
STAR Parasite Remover

is a highly concentrated lime-sulphurous compound recognized for its germ destroying and health building qualities. If given freely in their drinking water or in a mash feed one day each week and sprayed in pens and on coops every fifteen days as directed, we will positively GUARANTEE to keep your flock in better health and egg production, eggs will hatch better, with a stronger and more vigorous young chick. Also will keep them FREE OF LICE, mites, fleas and blue bugs or you will refund your money. Begin its use NOW and your flock will be free of disease germs and destructive insects before baby chicks come. It is no trouble to use, costs less than three cents a year per fowl. STAR TABLETS for Baby Chicks prevents and relieves head trouble and A.T. diarrhoea or your money back. HOOP, COLDS, SORETHROATS quickly relieved with STAR TABLETS. Sold and GUARANTEED by

Corner Drug Co. Santa Anna — Texas

COMPARE VALUES BEFORE YOU BUY AN AUTOMOBILE

Low charges for distribution of the new Ford save you at least \$50 to \$75 in addition to the many savings in making the car

THESE are days when every dollar counts. The period of reckless spending is over. People are going back to the good old-fashioned principles of thrift and economy. Value is again being carefully considered.

Nowhere is this more important than in the selection of an automobile. For the purchase of a car represents a considerable investment. It should not be decided on hurriedly, but only after analyzing every important factor that concerns cost, value and performance. The time to do this is before buying—not afterward when it is too late.

ON THE basis of cost, performance and the actual comparative worth of every part, the new Ford is a value far above the price you pay. It is made of better materials and with greater care and accuracy because of the recognized efficiency and economy of Ford manufacturing methods.

The value of these methods is known and understood by millions of people. It is not generally realized, however, that these same principles of efficiency and economy are applied also to every step in the distribution of the Ford car. The low cost of selling, financing time payments, etc., means a direct saving to you of at least \$50 to \$75 in addition to the money saved by Ford economics in making the car. Here are three reasons why this is so.

(1) The Ford dealer does business on a smaller margin of profit because of the greater number of

cars he sells. His discount or commission is the lowest of any automobile dealer. The difference in your favor, ranging from 25% to nearly 50%, comes right off the price you pay for the car.

(2) The Ford charges for financing are low.

(3) No expensive extra equipment is needed when you buy a Ford. The car leaves the factory ready for use. The f.o.b. price includes a Triplex shatter-proof glass windshield and an extra steel-spoke wheel, in addition to four Houdaille double-acting shock absorbers and fully enclosed four-wheel brakes. Any accessories you may wish for your individual taste are sold considerably below the usual prices. None of these charges for selling, financing or accessories is marked up or increased to cover a high trade-in allowance on a used car.

Get all the facts, therefore, before you buy and figure out just what you are getting for your automobile dollars. Go beyond the f.o.b. price and find out how much more you pay the dealer than the dealer pays at the factory. Analyze the used-car allowance. Compare all charges—item for item—value for value.

WHEN you do this you will have a new appreciation of what the Ford Motor Company and Ford dealers are doing to keep down the cost of Ford cars. You will also know why it is possible to put so much real value into the new Ford and still retain the low price. The money you pay goes for value in the car. It is not wasted in excessive costs in manufacturing or selling.

Our Next Governor

by
 Wm. A. Black
 San Antonio, Texas

Another candidate for Governor announced last week. The list grows apace and with ten weeks more for the hesitant ones to offer. One must have a good memory to call the roll to date, and a still better memory to check up on the claims of each for preferment.

Suppose we forget candidates for the time and check up some of the outstanding needs of the State. What should come first as an issue? Economy? Every candidate will stand for that and emphasize it to your heart's content. Penitentiary reform? The only issue here is one of expediency. No principles are involved. Highway building? Again the issue will be one of expediency and not of principles.

These and many other questions are important and offer fine topics for the stump, but they all root deep into the one overwhelming problem of how to get the money with which to carry on. Confusion, ill feeling and dilatory tactics maintain in our Legislature because of the need of money and how to get it. If Governor Moody and his automatic tax board had added five cent to the State levy more than \$2,000,000 would have been available for summer schools, penitentiary, etc. But no, we must save the farmers. Save them \$1.00 in direct taxes and pile \$2.00 additional on their backs in indirect taxes. It is an old appeal resorted to mainly through ignorance. It is all too familiar to need comment.

With this background what shall we demand of our candidates? Some of them have declared for a "reform" of present tax methods but all of the "reforms" so far announced pro-

pose heavier loads on the backs of the toiler. We either make tax collectors of our utilities and other corporate interests or else drive them out of the State.

Will our farmers and wage earners continue to fall for this sort of buncombe? Steadily and surely the line of distinction is being drawn between "farmers" and "land owners". Once clearly seen we will find much of the talk for tax relief of "farmers" is in fact tax relief for "land owners." The working farmer is a greater sufferer than our wage earners. Some of us indulge the hope that a man big enough and capable enough for Governor will accept the challenge of these tax shifting demagogues and have the courage to go to the farmer and tell him the truth.

INVENTIVE MINDS

A British scientist named Dr. C. J. Hedley Thorton, going to British Guiana ten years ago to look for gold and diamonds, found treasure more homely, but perhaps no less valuable.

He noticed humming birds lining their nests with a soft fluffy, durable material whose nature was a mystery. The treasure hunter watched one of the tiny nest builders until he saw her go to a certain weed, strip the bark from it, extract with her beak the stringy fibrous interior, fly to a pool of water and dip the fiber in to soften it, then take it to her nest and work it deftly into the lining.

The scientist thereupon set to work to utilize that weed for the lining of human nests and making human garments. After years of experimentation, the agricultural and industrial processes are said to be perfected.

With the proper handling, the weed can be grown in almost any country.

"Artificial cotton" they call it. Production this year in England runs into millions of pounds. The stuff is said to be cheaper than ordinary cotton, free from boll weevil and other pests, and to possess special merits for various purposes. It may seriously affect the world's cotton market before long.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

Lesson for March 23

JESUS TEACHING AND HEALING

LESSON TEXT—Matthew 13:53-58; Luke 4:16-21
 GOLDEN TEXT—Ask, and it shall be given you; seek, and ye shall find; knock, and it shall be opened unto you.
 PRIMARY TOPIC—Jesus' Kindness to a Stranger
 JUNIOR TOPIC—Jesus' Kindness to a Stranger
 INTERMEDIATE AND SENIOR TOPIC—Faith that Wins
 YOUNG PEOPLE AND ADULT TOPIC—Faith Tested and triumphant.

The material embraced in this section of Scripture is too abundant to attempt to cover in one lesson, therefore selection should be made in keeping with the lesson topic.

I. Without Honor in One's Own Country (13:54-58)

Jesus shared the common fate of men—unacknowledged in His own country. Even his own brothers did not believe on Him until after His resurrection (John 7:3-8; cf. Acts 1:14). Familiarity has a paralyzing effect, and at times breeds contempt. Because of unbelief only a limited work could be done there.

II. Jesus Healing the Multitude (14:13, 14)

1. He retired to the desert (v. 13).

The news of the cruel death of John the Baptist brought grief to the Master's heart and he withdrew to a place of quietness to commune with His Father. The best thing to do in time of sorrow is to flee into the presence of God. Jesus accepted John's death as typical of His own.

2. Followed by the people (v. 14)

He could not be concealed. The people's interest was such that they followed him on foot. Where Jesus is, the multitude gathers.

3. Jesus healing the sick (v. 14)

Although the rulers had broken with Him, He did not abandon his work. He continued to preach and work for the good of those who would hear. Though desperate and hopeless cases were brought to Him, nothing was found too hard for Him. The people's great need excited His sympathy. He is just the same today.

III. Jesus Healing the Daughter of the Woman at Canaan (Matt. 15: 21-31)

The first twenty-one verses of this chapter should be considered in connection with this topic. The force of the lesson can only be seen in contrast with the failure of the people. Verses 1-20 represent the apostasy of Israel and her rejection of the Savior. In sharp contrast, we see in the healing of the woman, salvation typically going forth to the Gentiles.

1. The mother's awful distress (vv. 21, 22)

Her daughter was grievously vexed with a devil. The sufferings of the mother were perhaps as intense as those of the child. The Gentile woman had doubtless heard of the fame of Jesus. His power to heal had come to her notice and many times she longed for him to come her way that her daughter might be healed. Now that He was in her neighborhood she came straightway to Him. Let parents be encouraged to bring their children to Jesus, even though they be demon-possessed.

2. The woman's fervent appeal for help (vv. 22-25)

She fell at His feet and pled for mercy. She besought Him to cast the devil out. Her appeal may be considered as a model prayer.

(1) She was sincere and earnest.
 (2) The prayer was brief and definite.
 (3) It was personal and humble.
 (4) It was believing and persistent.

3. The woman's faith rewarded (vv. 26-28)

(1) The Lord's apparent refusal (v. 23). He answered her not a word. The reason for his silence was that He was sent to the lost sheep of the house of Israel. This woman was a stranger to the Covenant people. Her appeal was on the wrong basis. She addressed Him as the Son of David, which only a child of the kingdom had a right to do. She must come in the right way. (2) The woman's quick response (vv. 25-27). As soon as she perceived the difficulty, she worshiped him as Lord and cried for help. While only the Israelites could approach Him as the Son of David, all could come to Him and own Him as Lord. She willingly took her place as a Gentile "dog," recognizing that salvation is of the Jews. (3) The glorious issue of her faith (v. 28). She received more than she asked. Her daughter was healed at once and the instruction she received was worth much to her. She goes down in history with the Savior's commendation of her faith.

GLYCERINE MIX REMOVES CAUSE OF STOMACH GAS

Simple glycerine, huckthorn bark, saline, etc., as mixed in Adlerika, acts on BOTH upper and lower bowel, removing poisons you never thought were there and which caused gas and other stomach trouble. Just ONE spoonful relieves GAS, sour stomach, sick headaches and constipation. Don't take medicine which cleans only PART of bowels, but let Adlerika give you a REAL cleaning and see how good you feel! It will surprise you! Sold by all leading druggists.

Worms fed on a scientific diet are more attractive as bait to fish, experiments are said to show.

Citation by Publication

THE STATE OF TEXAS,

To the Sheriff or any Constable of Coleman County—Greeting:

You are hereby commanded, that you summon, by making Publication of this Citation in some newspaper published in the County of Coleman for four consecutive weeks previous to the return day hereof, R. P. Lightfoot and J. M. Senter, whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Coleman at the Court House thereof, in Coleman, Texas, on the 14th day of April, then and there to answer a Petition filed in said Court, on the 12th day of March, A. D. 1930, in a suit numbered on the Docket of said Court No. 4727, wherein Dale Smith is plaintiff and R. P. Lightfoot and J. M. Senter are defendants.

The nature of the plaintiffs demand being as follows, suit on account for the amount of \$1308.05, on contract and labor done and performed by Plaintiff at the special instance and request of defendants, all cost of suit, special and general relief.

Herein fail not, and have you before said Court, on the said first day of the next term thereof, this Writ, with your endorsement thereon, showing how you have executed same.

Given under my hand and seal of said Court, at office in Coleman, Texas, this the 12th day of March, A. D. 1930,
 W. E. Glidgen,
 Clerk District Court, Coleman County, Texas.

Santa Anna Form No. 5, Unit No. 5.

NOTICE TO ALL OWNING OR CLAIMING ANY PROPERTY ABUTTING UPON THE HEREINBE-

LOW MEASURED PORTION OF NORTH SANTA FE AVENUE IN THE CITY OF SANTA ANNA, TEXAS, AND TO ALL OWNING OR CLAIMING ANY INTEREST IN ANY SUCH PROPERTY:

The Governing Body of the City of Santa Anna has ordered that the hereinbelow mentioned portion of North Santa Fe Avenue be improved by raising, grading and filling same, and paving with 6-inch Concrete pavement, the avenue hereinbelow shown as Unit No. 1; such Unit to be further improved by making and construction of such incidentals and appurtenances to the improvements expressly mentioned in accordance with the specifications therefor. Contract has been made and entered into with Joe McCarthy, Contractor, for the making and construction of such improvements. Estimate of the cost of such improvements for such portion of said avenue has been prepared and approved.

The said portion of said avenue to be improved, together with the estimated cost of the improvements for such portion of avenue, and the amount or amounts per front foot proposed to be assessed against the abutting property and owners thereof on such portion of said avenue are as follows, to-wit:

ON NORTH SANTA FE AVENUE, from its intersection with the East line of Second Street to its intersection with the West line of First Street, known and designated as Unit or District No. 1; the estimated cost of improvements is \$4,177.17; the estimated amount per front foot to be assessed against abutting property and owners thereof for curb is \$0.63; the estimated amount per front foot to be assessed against abutting property and owners thereof for improvements exclusive of curb is \$4.85; total estimated amount per front foot to be assessed against abutting property and owners thereof is \$5.515.

A hearing will be given and held by and before the Governing Body of the City of Santa Anna, Texas, on the 14th day of April, 1930, at 10 o'clock P. M., in the City Hall in the City of Santa Anna, Texas, to all owning or claiming any property abutting upon said portion of North Santa Fe Avenue, and to all owning or claiming any interest in any such property. At said time and place all owning or claiming any such abutting property or any interest therein, shall be and appear and will be fully heard concerning said improvements, the cost thereof, the amounts to be assessed therefor, the benefits to the respective parcels of abutting property by means of the improvements on the portion of said avenue upon which the property abuts, and concerning the regularity, validity and sufficiency of the contract for, and all proceeding relating to such improvements and proposed assessments therefor, and concerning any matter as to which they are entitled to hearing under the law in force in the City and under the proceedings to said matters. Following such hearing assessments will be levied against abutting property and owners thereof, and such assessments when levied, shall be a personal liability of the owners of such property and a first and prior lien upon the property as provided by the law in force in the City and under which the proceedings are taken, being the Act passed at the First Called Session of the State of Texas, and known as Chapter 106 of the Acts of said Legislature.

Done by order of the Board of Commissioners of the City of Santa Anna, Texas, this the 10th day of March, A. D. 1930.
 Grace Mitchell,
 City Secretary, City of Santa Anna, Texas.

TEXAS AWARDED MORE LAND

(By Associated Press)
 WASHINGTON, March 17.—Texas gained approximately 28,500 acres or 44.6 square miles of land from Oklahoma, when the Supreme court Monday approved the location of the boundary line between the two states, running north from Red river, as surveyed and marked by Samuel S. Gannett.
 The eastern boundary of the Texas Panhandle, which the Supreme Court decided should be along the one hundredth meridian, was found by Commissioner Gannett to have been erroneously located by Jones Brown Clark survey in 1859-60, 4,040 on Texas territory at its southern end on Red river and 885 feet at its northern end, at the north east corner of Texas.
 Oklahoma, since its admission into the Union as a state, has exercised jurisdiction over this strip of land which now passes to Texas.

LEGISLATURE PROVIDED FOR LAND ACCEPTANCE

AUSTIN, March 17.—The Texas Legislature had refused to enter into a compact with Oklahoma under terms of which the area shifted from Oklahoma into Texas would have remained a part of the Sooner State.

Under a law passed by the Legislature last March, the new area will become a part of Lipscomb, Hemphill, Wheeler, Collingsworth and Childress counties, in the Panhandle.

It directed that the land shall not be subject to sale or other disposition until such time as the Legislature may provide.

The commissioner of the general land office was directed immediately to ascertain the number of acres, its probable value per acre, the nature and value of the improvements thereon, the nature of the occupancy and the length of time of same by those who are occupying it under any claim of title.

Attorney General R. L. Bobbitt announced Texas would do everything under the law to protect the vested rights of those holding title to the land.

CALENDAR REFORM

Much talk has been heard again in recent months concerning the adoption of a new 13 month calendar and those back of the proposed plan wish to have things in shape by January 1, 1930. On that date, they say, the year, month, hour, minute and second to be marked together for their annual race. In other years there are always handicaps.

There are arguments for and against any calendar reform, and this is a matter that can bring out much comment if placed before people for discussion.

Making perfect calendars is a science in itself. Nature after all was rather inconsiderate when she determined the courses of the earth and moon. The day is the natural measure of time, but three hundred and sixty five and 242-1000ths of them, which represent one course of the earth around the sun cannot be divided readily.

The League of Nations has given each nation two years in which to gather material on the calendar, and some time in 1931, an international conference will be held. In the United States, a national committee, headed by George Eastman and Dr. Marvin is sounding out business and popular opinion and collecting valuable data.

Our idea of the zero point in usefulness is to be a back seat driver in an airplane.

Dieting may be a bad and many women are losing their minds to lose a few pounds.

Pritchard-Vanderford

Mr. William Pritchard and Miss Ruby Vanderford, accompanied by one or two friends, drove out to the Presbyterian Manse last Sunday afternoon, and took the solemn vows that united them in marriage, with Rev. E. L. Womack officiating. The young bride is the charming daughter of Mr. and Mrs. W. E. Vanderford, living just east of town, and the groom is the son of Mr. and Mrs. M. A. Pritchard, who live just west of town. William spent last week in Stephenville, secured the license and returned here Saturday. Immediately following the ceremony the young couple left for Stephenville for a few days' visit before returning here to make their home.

A Better Training For Less Money

The students and management of Tyler Commercial College publish a magazine called "Success." Not long ago, a letter was received from a former student who is on the mailing list to receive every issue of "Success" and he writes as follows:

A recent article in your SUCCESS magazine set me to do a little figuring for myself. I have been attempting to figure out just what my Tyler Commercial College training has been worth to me. And the longer I figure, just that much more do I pat myself on the back for having had foresight enough to take one of your courses.

"In the first place, before I enrolled at T. C. C., I investigated a number of other schools. I found they required all the way from a year to two years for the same course you people offered me to complete in seven months, or less, time.

"I completed my course in a little less than five months. The way I figure it, my course did not cost me a single dime. Now I have you guessing, but let me explain.

Tyler, being a small city, living expenses are much lower there than in larger cities. I was able to secure both room and board considerably cheaper than I could have secured it in any other city. What I saved in this item alone in the five months I was in Tyler almost paid for my entire course.

"But there my savings were just begun. If I had attended any other school, I would have found it necessary to pay for my room and board for anywhere from twelve to twenty-four months instead of five months.

"Wait a minute; I am not through yet. When I was ready to graduate, you placed me in a position which paid me a salary of \$130.00 a month. Having graduated from five to seventeen months earlier than I could in any other school, I had earned from \$650.00 to 2,210.00 before the date on which I would have received a diploma elsewhere. Certainly I am justified in saying that the short time I spent at Tyler added at least \$1,000.00 to my purse.

"I started to work with graduates of other schools, who are still at the same desk on which they started. I know that the Tyler Commercial College training has enabled me to advance when other have stood still. I know it has taken me—a \$20-month farm boy—and made of me a \$2,500-a-year accountant. And I know of many others for whom it has done far more. I would choose T. C. C. every time."

Just what a young man of energy, perseverance, natural ability, can accomplish and save by attending TYLER COMMERCIAL COLLEGE is well exemplified by this young man. Now, fill in and send the coupon for the large, free book, "Achieving Success in Business." This book will tell you how YOU can prepare within a short time to accept and hold a position. Send for it NOW. It is FREE.

(We have no branch schools anywhere. We lead; other follow.)

How to Raise Poultry
 By Dr. L. D. LeGear, V. S.
 St. Louis, Mo.
 Dr. LeGear is graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

Blackhead Is Turkey Raisers' Bugaboo

Strictest Measures Necessary to Prevent This Scourge from Wiping Out An Entire Flock

The bugaboo of turkey raising is that dread disease Blackhead. The name itself is misleading, for it does not describe the symptom. In other words the head of the turkey does not necessarily turn dark or black.

First we must get clearly in mind that there is no cure for Blackhead. That is a hard thing to say but it is true nevertheless. Someone bobs up every day with a new "cure" and we are glad so much interest is manifested in the subject. The day will come perhaps when a real cure will be found. But right now we are interested in a far more valuable movement, that of preventing blackhead. For, after all, prevention is the best cure in the world.

Blackhead is an infectious disease. It is caused by a germ that affects the liver and the blind gut or caeca. If you have a microscope that will magnify several hundred times you may see the germ. But you don't need glasses even to see its effect, which is more important.

Young turks are most susceptible, although it affects the grown as well. The germ enters with the food and is found in infected ground, where droppings from birds that have had blackhead or droppings from chickens contaminate the soil.

The blackhead germ attacks the liver first and from the diseased tissues of the liver these germs pass through the bile duct and into the intestines, from whence it completes its deadly circuit by returning to Mother Earth via the droppings.

It takes from ten days to two weeks for the disease to show itself after infection. The greatest source of danger is for the young turkeys to run with chickens or to be exposed to older birds from flocks that have had the disease, and on ground that has been contaminated. That is about as close to turkey suicide as you can come.

But even on fresh ground, if the young birds are allowed to be with the older birds that are infected the danger may be almost as great. Young turkeys have ravenous appetites. They pick at everything in sight. Fresh contaminated droppings contain the blackhead germ in its life's most dangerous stage. To show you how insidious the disease is, turkeys have been known to contract blackhead when placed with incubator chicks. Infected ground that has been plowed and seeded has been known to carry the lurking danger. Hens are carriers of the parasite and when allowed to roam with turkeys may infect them. Your books will carry the germ from infected ground into the new, fresh yard.

It is easy to spot the first appearance of the disease in a flock if you are at all observant. When poults appear lazy and lag behind the rest of the flock look out. They are not lazy at all, but ailing. As this weakness grows they take on a droopy appearance. They walk with slow, measured tread, head down and wings carelessly dangling. Loss of appetite and weight are the inevitable results.

In the adult turkey the symptoms are practically the same except that they do not appear as quickly as in the young birds. And they die in a few days after you note they have it.

Put your flocks on clean, uncontaminated ground, clear away from your other poultry yards. Above all keep your turkeys away from your chickens. Don't make the mistake, for instance, of building your brooder house with a cement floor that can't be moved. You want that brooder house as far away from the farm buildings as possible. It's a splendid thing to give growing a change of ground and pasturage every few weeks. Alfalfa, sweet clover, or a plot of rape that is away out on the farm is the finest thing in the world to prevent blackhead during these dangerous early growing weeks.

A reproduction of Columbus ship, the Santa Maria, was built for the Seville exposition.

DRESSING PARTICULARLY

"Dress well and succeed," is a phrase much in use but often misconstrued. Clothes don't make the man, as anyone with a spark of intelligence knows, but they do have some influence. You wouldn't expect a ditch digger to work in an expensive suit of clothes and you would think insane an attorney who argued a case in court attired in overalls.

Custom as to men's attire does figure in politics as some notable examples from public life amply illustrate. President Harding, a conservative, was always immaculately attired in most approved fashion and he never affected any other manner of dress, regardless of where he spoke.

President Wilson, coming from the formal east, donned a sack suit on his speaking trip through the west where democracy means equality and the people do not like to feel that the idol of the moment is any better than they.

Theodore Roosevelt appreciated this, gaining much of his popularity with his slouch hat, soft shirt, tweed coat and breezy manner. William Jennings Bryan likewise understood the west and dressed usually in a badly cut, dust-stained coat bordering on shabbiness, loose, ill-fitting shoes, long flowing necktie and had a general air of disarray. He never left the impression of being a dude.

President Hoover would look out of place in a long coat and his customary clothes are the

R. Q. Lee Suffers Stroke of Paralysis

R. Q. Lee, congressman from this district suffered a stroke of paralysis last Thursday while at his post of duties in Washington and his condition was thought to be hopeless for several days. He was reported to be convalescent this week and hopes are now held out for his recovery. Mr. Lee is serving his first term in office, and is a candidate for re-election. Friends in Texas wish for him a speedy recovery.

A jackrabbit can run thirty-five miles an hour, a government scientist found when one raced ahead of his automobile.

Many a man will smile when patted on his head, but after all that is probably his funny bone.

The same is true of many individuals who wear particularities, eye glasses and the like. They would not look like themselves if they changed their style of such accessories.

No man in everyday life dresses beyond his means and gains anything by it. Some men have eccentricities of dress that mark them as men apart, and they are known more by the clothes they wear than by what they do for a livelihood.

Clothes are a very good index to a man's habits and traits. If sloven, he leads one to believe that he is a careless worker and probably not a very clear thinker. If neat and carefully attired, a man gives the impression of being punctual and business-like.

Clothes don't make the man, but they are an important factor in determining the public's opinion of him.

EAGLE KILLED NEAR MARLEY

A large gray eagle was killed near Marley Sunday afternoon by R. M. Hall. The bird measured six feet and eight inches from tip to tip, and had long curving talons that have probably clutched many chickens in poultry yards in the vicinity in which it has been preying. Mr. Hall killed the eagle with a 22 target as it perched in the top of a tree. The big gray bird attracted much attention here Monday when Mr. Hall brought it to Graham to make arrangements for having it mounted.—Graham Leader.

FOREST LANDS INCREASE

The total area of state forests is 6,550,735 acres, according to reports to the United States Forest Service.

The State of Washington alone has added 1,200,000 acres. Pennsylvania has added 167,786 acres, and Michigan has made an increase of 167,000 acres. Three states—Delaware, Georgia and South Carolina—which had no state forests three years ago reported forest lands under state administration at the beginning of this year. State parks areas include 436,077 acres. Municipal and county forests and parks total 726,577 acres.

The aggregate area of forest land owned by states, municipalities and counties in the United States on January 1, 1930 including other forest land beside that in forests and parks, was 12,138,945 acres.

It is a fine record in behalf of keeping a forested area in the "great out of doors" for posterity.

Financial reverses never take the starch out of some men. They probably have none to lose.

CHEVROLET

Chevrolet announces

A NEW SERVICE POLICY

The Chevrolet Motor Company and its dealers are pleased to announce a new service policy—one of the most liberal ever offered on a low-priced automobile.

Put into force as a written agreement given to the purchaser by the Chevrolet dealer when the car is delivered—it offers the following provisions:

- 1 Every Chevrolet owner receives his car from the dealer in perfect condition—thoroughly lubricated, properly adjusted, and ready to operate efficiently from the first mile of ownership.
- 2 Every Chevrolet owner is entitled to free inspection and adjustment of his car at the end of the first 500 miles of usage.
- 3 Every Chevrolet owner is entitled to free inspection of his car every 1000 miles thereafter, so long as the car is in operation.
- 4 Every Chevrolet owner is entitled to free replacement of any part which may prove defective in workmanship or material, within the terms of Chevrolet's standard warranty. This includes both parts and labor.
- 5 Provision number 4 will be carried out by any Chevrolet dealer in the United States. As a result, the Chevrolet owner may travel to any part of the country, with assurance that the guarantee on materials and workmanship will remain in force.

This new policy constitutes proof of Chevrolet's high quality—for such liberal provisions could only be made in connection with a car built of fine materials to exacting standards of workmanship.

Back of this policy, and assuring its successful operation, is one of the most complete and efficient service organizations in the world.

There are more than 10,000 Authorized Chevrolet Dealer Service Stations in the United States alone. Each employs skilled mechanics thoroughly trained at Chevrolet Service Schools. Each has specially designed tools and machinery developed exclusively for Chevrolet service work. And each has on hand, at all times, an adequate stock of genuine Chevrolet replacement parts.

Chevrolet's flat-rate charges, including both parts and labor, are the lowest in the industry on many service operations!

In considering the purchase of a low-priced automobile, think what this service means—in terms of lasting satisfaction, as well as in increased economy.

Chevrolet cars range in price from \$495 up, f. o. b. factory, Flint, Michigan.

Established 1889

THE WINCHESTER STORE

For sale at a bargain: One Double Row Rock Island Cultivator, and One Double Row Rock Island Planter. These plows have been used only one season. See S. W. Childers.

Mr. and Mrs. W. R. Stacy and daughter, little Miss Tavy-Marie, of Trichham were visitors here Tuesday.

J. W. Barton of Shild was a business visitor here Saturday.

Mrs. J. V. Bean of Coleman spent Monday night with Mrs. Minnie B. Planey.

Mr. and Mrs. G. P. England of the Plainview community were shopping here Tuesday morning.

Mr. and Mrs. Jess Hunter of Albany are visiting relatives here for a few days.

Wash Dresses— You can't find a prettier or a more complete line than Mrs. Shockley's.

Miss Louise Blagg of Coleman spend the week end with Miss Ruby Vanderford.

Mr. and Mrs. J. W. Dulligham of Shild were Tuesday shoppers here.

P. P. Bond and S. W. Childers were business visitors in Cross Plains Monday afternoon.

Why is the Rock Island Cultivator so easy shifting? Why does the Rock Island Planter use less seed and yet produce more cotton? Come in and let us show you. — S. W. Childers.

Mr. and Mrs. H. G. Switzer and Mrs. Mandy Hicks of Coleman were visitors in the home of W. O. Garrett Sunday.

Mrs. H. I. Marshall, Jack Woodward, E. K. Blewett, A. L. Oder and Allison Weaver; Misses Christine Marshall, Marie Blewett, Velma Oder, Mary Le-la Woodward and Queente Gregg; and Messrs. Alpheus Boardman, John William Burden and Wilmot Smith were in Brownwood Sunday for the broadcasting of the high school orchestra over station KGKB.

Miss Leta Ragsdale, who is attending Baylor College at Belton, spent last week end with her parents here.

Make your farm life easier. Use Rock Island Farm Implements.

Miss Hettie Faye Todd spent last week end with her sister, Mrs. Cruz Hardy of Brownwood.

Oliver McClellan left Saturday for Houston, where he has accepted a position with the Petty Geological Co.

Mr. and Mrs. Robert Roach announce the arrival of a fine baby boy, born Sunday March 16th.

Mrs. Howard Lovelady and son spent the week end with her sister, Mrs. Otto Simpson, of Goldthwaite.

Mr. and Mrs. Chas. Martin of the Clabber Hill community, of Brown county, were buying Trade Merit specials here Monday.

New hats every few days at Mrs. Shockley's Store.

Misses Zora and Nora Burns of Whon were shopping here Monday.

Mrs. Comer Blue spent Sunday in Coleman with Mrs. Leona Hicks.

Roy Parker of Coleman was a Monday visitor here.

We have received a new car load of Rock Island Implements. Come in and see the new models. — S. W. Childers.

Mrs. Nealy Evans of the Mayo community visited her mother, Mrs. W. W. Stephenson, here Tuesday.

Mr. and Mrs. Tom Woodard of Coleman visited in the W. E. Vanderford home Sunday.

J. J. Mickle and son Omar and wife of Eastland were Sunday visitors in the mountain city.

Mrs. J. B. Steel of Eastland spent the week end here with her husband. Mr. Steel accompanied her home Sunday, and had a short visit with his family.

Mr. and Mrs. H. R. DeBerry of Pittsburg, Pa., are visiting in the home of Mrs. DeBerry's cousin, Mrs. Will Parker. This is their first visit to Texas.

The editor enjoyed a social visit Saturday morning from our good friend H. J. Parker, who is slowly recuperating from injuries received last November in an accident caused from dynamite explosion. Mr. Parker has recovered sufficiently to be out but is badly handicapped by being almost blind. One eye was removed and the other has a badly blurred vision.

B. and Barnes Weaver shipped two cars of sheep to the Ft. Worth market Tuesday.

Mr. and Mrs. Tom Hays and son of the Buffalo community were Santa Anna visitors Tuesday.

"CIRCUS DAY"—at High School auditorium, Tuesday night, at eight o'clock.

Leon L. Shild of Coleman was a business visitor here Monday afternoon.

J. L. and W. T. Stewardson of Shild shipped two cars of fed cattle to the Ft. Worth market Tuesday.

Mr. and Mrs. V. Van Zant and Mayor and Mrs. Ed Baxter attended the funeral of G. W. Fry of Abilene Sunday. Mr. Fry was president of the West Texas Utilities Co.

Mayor Ed Baxter and Rev. A. L. Oder were Abilene visitors Tuesday.

"CIRCUS DAY"—home talent operetta at High School on Tuesday night.

Mrs. James Blanton of Shild is a patient in the Sealy hospital.

L. A. Kille of Fisk was a business visitor here Tuesday.

Just received a beautiful line of Chiffon,orgette and Crepe dresses. Don't miss seeing these creations. Mrs. G. A. Shockley.

Liberty School to Put on Minstrel

There will be a Negro Minstrel Show at Liberty School House, Thursday night, March 27, for benefit of the Liberty School Library.

This is a home talent show and is a big laugh from start to finish. Come and help in a good cause and have a good time.

Mr. and Mrs. T. Ray Garrett, and daughter, Devera Ann, of Brownwood spent last week with Mr. Garrett's parents, Mr. and Mrs. W. O. Garrett, and Mrs. Garrett's parents, Mr. and Mrs. E. A. Harris.

Dutch Yancy of the Red Bank community was brought here Friday and is a patient in the Sealy hospital.

Little Eulin Sue, infant daughter of Mr. and Mrs. E. S. Lewis, of the Junction community, died Sunday and was buried Monday at Shild. A suitable lot was not available here.

Why wear yourself out using an old worn out cultivator when you can buy a New Rock Island Cultivator. Come in and let us show you how easy you really can buy one. — S. W. Childers.

Joe and Sam Bridges were visitors in San Angelo Tuesday. 15c and 30c admission to "CIRCUS DAY", Tuesday night.
