Louis Newman et ux, to T. H. Gray, northwest corner of Bond & Sanders Survey No. 91; \$250.00.

Mrs. Sarah Dozier, et al, to A. L.

Man Badly Hurt When Hit By Auto- mobile Wednesday

Wednesday evening, just about the time the first rain and hail began to pour, Karl Price, Superintendent of the Live Oak school, was hit by a car in front of the postoffice and painfully injured. The accident was said to be unavoidable. Mr. Price had parked his car in the center of the street while he ran into the post office for his mail; after getting his mail, he rushed back to his car, probably excited and partly blinded by the downpour of rain and hail, failed to properly observe approaching cars, and ran into a Chevrolet Coupe, driven by Mr. Hamp Biler, a good farmer living in the Buffalo community. Mr. Biler also trying to get into a place of safety, failed to see Mr. Price until they collided. Prof. Price received a severe cut under the right eye, a badly lacerated hand and other minor bruises, and was breathless for a while. He was picked up by parties nearby and carried into the Taylor Furniture store, and immediately rushed to the office of Drs. Sealy & Lovelady, where medical aid was administered. He was later carried to the hospital where he is said to be recovering nicely. Mr. Biler, it is said, parked his car and rendered every service he could to the wounded man.

Friends of W. E. Wallace will be glad to learn that his health is greatly improved and for the past two weeks he and his family have been enjoying fishing and bathing at Corpus Christi. They expect to go on to Brownsville and other points in the valley this week, and will be at home in two or three weeks.

and L. G. Pearce, 10 acres off the east side of Block No. 14, Burnett County School Land containing 10 acres; \$10.00.

E. S. Cox, et al, to C. M. Root, 30 acres of land out of the southwest 1-4 of section 30, T H & B R Co; \$875.00.

W. A. Featherston, et ux, to C. M. Lewis, et al, 80 acres off the East side of that tract of land out of J. S. Martin Survey No. 221, and Brooks & Burleson Survey No. 1; \$200.00.

Mrs. M. A. Guthrie, et al, to O. L. Baker, et al, 80 acres of land in the A. S. Lipscomb survey No. 77; \$10.00.

L. E. Cullins, et ux, to C. E. Jordan, 140 1-2 acres out of the N. B. Tatum Survey No. 741, C. Trout survey No. 745; \$16.00.

J. S. Gilmore, et ux, to The Midwest Exploration Company, 105 acres out of Richard Perry survey No. 95; \$10.00.

E. C. Jones, et ux, to J. O. Brown, north 80 acres of 160 acres of land out of T & N R R Co. section No. 3; \$1.00.

What Is Advertising?

Advertising is nothing more or less than salesmanship. By advertising you sell to several hundred people at one time instead of to the single individual. Advertising does not belong to the realm of magic. It is ability to talk of the product in plain, honest and straightforward terms that appeal to the reason and desires of the people whose trade is sought.

How do you advertise?—There are no end of ways in which you may advertise; there is the bill-board, the circular, the poster, the window display, the circular letter, the personal letter, by word of mouth, and the newspaper, the best of them all.

What does advertising do for you?—All advertising is intended to create good will for the product or service advertised. Your advertising should create good will for your store through-out your trading area and thereby increase the volume of your annual turn-over.

Goods that are not good enough to advertise are not good enough for Santa Anna people. Shop in Santa Anna stores first.

E. B. DELLINGER DIES AT HOME IN DALLAS, TUESDAY

Friends of E. B. Dellinger were grieved Wednesday morning to receive the sad news of his death, which came at about midnight Tuesday night, at his home in Dallas, pneumonia being the cause.

Mr. Dellinger lived in Santa Anna for several years before moving to Dallas. He worked for L. W. Hunter, M. Tyson and probably others while here. He was married to Miss Mattie Stephenson, who with some children survive. Interment will be made at Terrell, Texas, Thursday afternoon.

WOODMEN CIRCLE TO ENTERTAIN FRIDAY NIGHT

The members of the Woodmen Circle will put on an entertainment at the W. O. W. hall Friday night, April 22. The program is full of interest, and will be worth your time. Admission charge 10 cents.

Mrs. Mabel Hensley.

Church Social

The members of the Methodist church had a church social Tuesday evening in the church. There was a good crowd present. The diversions of the evening were games and contests of which several were played. Music was furnished for the occasion by Mrs. Clifford Verner. A very jolly evening was spent. Later refreshments of red, white and blue ice cream and cake were served to the crowd.

Mrs. Elmer Easley Is Hostess

A pretty compliment extended to the Merry Wives Club was the forty-two party last Thursday afternoon with Mrs. Elmer Easley as hostess. Spring flowers in a variety of pastel colors provided an inviting setting for the four game tables, while an Easter them was shown in the tally and score pad designs, and in the ice frozen as Easter lilies, which were served with angel food cake at the conclusion of the games. Those enjoying this delightful hospitality were Mesdames Jack Woodward, G. W. Faulkner, Roger Hunter, G. E. Adams, Lee Hunter, Leman Brown, Burgess Weaver, D. J. Johnson, S. W. Childers, I. Williamson, Joe Robertson, Stafford Baxter, W. I. Mitchell, Roy McFarland, O. C. Petty, Misses Lela Faulkner and Betty Burge of Dallas.

In the evening Mr. and Mrs. Easley again entertained a number of their friends with forty-two. Those present were Mr. and Mrs. R. R. Russell, Mr. and Mrs. W. H. Thate and Mr. and Mrs. Willie Gipson.

Mrs. Herbert Hopper and Miss Corinne Wallace, teachers of the first grade in the Santa Anna school, presented their pupils in an Easter program Friday afternoon that was enjoyed very much by the mothers of the children. Following the program Mrs. Hopper and Miss Wallace took the children to the mountain where they had a jolly time hunting Easter eggs.

Miss Faytina Bartlett, who is attending Oklahoma University at Norman, Oklahoma, spent the Easter holidays with her parents, Mr. and Mrs. J. Edd Bartlett. Friends here of Miss Bartlett will be glad to learn that she has been offered a splendid position in one of the schools in Oklahoma City.

Santa Anna Now Has Abundant Water Supply

Tuesday and Wednesday of this week a petition was circulated and freely signed by the citizens, requesting the City Commission to employ the services of competent water engineer to ascertain at once the most practical solution to the serious water condition that was confronting us, but since the petition was prepared and delivered to the commission, the problem has been solved for some time to come. The fine rains Wednesday evening and during the night, filled the old lake to overflowing and put more water in the new lake than has ever been in it before. Approximately 33 feet of water is now in the new lake. Santa Anna now has a supply of water to last for several months, in fact, more than we have used during the past eighteen months, and it appears that our water problem has been solved, however, unless we succeed in connecting with a creek by pipe line, the time will come again when Santa Anna will be out of water, and in our judgment, a survey should be made and preparations made to connect our lake with the Jim Ned creek.

Very little damage was done except in local places from hail. The Culver Lowrey home in the Cross Roads community was demolished in a local twister, is the only damage reported by wind. Bangs community suffered some from heavy rains. From five to six inches of water fell in Santa Anna, and was said to be much heavier at Bangs. Railroad traffic was interrupted, and automobile traffic was almost blocked for a while.

Mr. and Mrs. R. B. Griffith returned Friday night from Rocksprings where they were called last Wednesday on account of the death of their son, H. B. Griffith and granddaughter who were killed in the cyclone at that place. They went on to Winters Saturday where the funeral took place. The wife and ten year old son of the deceased were seriously injured and are in a hospital in San Antonio. Mr. and Mrs. Griffith have the sympathy of this entire community. It is real pathetic, as well as interesting to hear Mr. and Mrs. Griffith converse about their trip to Rocksprings, and the awful sights they saw there following the tragedy that took so many lives. Mr. and Mrs. Fred Strange of Bangs accompanied the Griffiths on their trip. Mrs. Strange being their daughter and a sister to the man that was killed. Mr. and Mrs. Griffith visited the News office late Tuesday and requested us to express for them a word of thanks for the many expressions of sympathy and kind favors tendered them during their bereavement. Special mention was given Mrs. W. E. Baxter for a beautiful flower presented to them.

The Pioneer Belles

Mrs. R. D. Kirkpatrick assisted by her daughter, Miss Dora, was hostess to the Pioneer Belles on last Thursday afternoon. The house was very pretty in its decorations of pot plants and ferns. A very pleasant afternoon was spent by the ladies. Fancy work and conversation were the diversions indulged in. At a late hour, delicious refreshments of iced tea, potato chips, flakes, olives and fruit salad were served to the guests. Those partaking of this hospitality were Mesdames Wallace Kirkpatrick, L. W. Hunter, A. M. Pleasant, S. D. Harper, H. W. Kingsbery, W. B. Harper, B. F. Rothemel, W. T. Verner, W. B. Mitchell, S. G. Caton, J. M. Burrow, R. D. Kirkpatrick, S. L. Weaver and Miss Dora Kirkpatrick. The next meeting will be with Mrs. Wallace Kirkpatrick.

D. R. Hill spent considerable time out on his farm near Frickham Tuesday and Wednesday, where a prospective oil well being drilled had reached an interesting depth. The sand was reached Tuesday, and several bailers of oil were bailed out Wednesday morning. We have not been informed whether the well is considered a paying proposition or not.

The fire alarm was turned in Saturday morning. It was first reported to be Leman Brown's residence, but when the fire boys arrived upon the scene they found it to be an old car caught from a burning trash pile, which they were able to extinguish with the use of chemicals.

Hon. A. J. Lankford, branch manager of the Dallas District, embracing several of the western states, for the Ford Motor Company, paid the local Ford plant, the Santa Anna Motor Company a short visit Tuesday afternoon.

Mrs. Wayne Collins of Voss was brought to the Sealy Hospital this week for special treatment.

Election of Teachers Last Friday Night

At a called meeting of the school board of the Santa Anna Independent school district last Friday night the entire faculty of this year was re-elected for another year. This is a very unusual thing and bespeaks faithfulness, harmony and co-operation on the part of the different members of the faculty. Congratulations to a corps of public school teachers which is fortunate enough to be re-elected in toto.

HONOR STUDENTS OF THE SANTA ANNA SCHOOLS

Burgess Sealy and Jewel Jean Kirkpatrick won first and second honors in the senior class of the high school this year. Burgess will deliver the valedictory and Jewel Jean, the salutatory, in the annual commencement exercises which will be held Friday night, May 20th. Other members of the senior class with high averages were Elmer Pritchard, Beulah Williams, Era Oakes, Reba Greene, Lula Harvey, Curry Mills and Eureka Pleasant.

In the elementary school William Ragsdale won first place and A. G. Weaver, second, in the 7th grade. Irene McCreary and Fred Faulkner also had high averages. William Earl and A. G. will represent the class as valedictorian and salutatorian in the graduating exercises on Thursday night, May 19th.

CHILDREN'S DAY PROGRAM AT METHODIST CHURCH

A special Children's Day program has been prepared by the Sunday school at the Methodist church, and will be given at the 11:00 o'clock hour Sunday, April 24. The program is interesting and instructive. The public is invited, according to a request coming to this office, Wednesday for this notice to be published in the News.

A clipping from the sport page of a newspaper published in Highway, gives the following account of a Boxing Bout, recently staged. The Haynes mentioned is Clyde Haynes, son of Mr. and Mrs. Charley Haynes of Trickham. Clyde is doing service in the Marine Corps. "A newcomer treated the fans to a good show in the second fight. He was Kirby, 175 pounder of the R-13, making his first appearance in the ring. He lost the decision to Haynes, Marine Corps, but showed that he has the makings of a scrapper. A few more appearances and the lad will be able to appear in the headlines. Haynes is no apprentice when it comes to swapping punches. He gave a pretty exhibition for the four rounds. Haynes' weight was 172."

It Isn't the Principal-- It's the Principle

No need to worry about the size of the Bank Account. The important thing is to get it going.

The Principle of the thing will take care of the Principal of the thing.

Ask some friend of yours who is in position to know—then take his advice.

The State National Bank

The Greatest of All Joys

Is in Creating the Possibility of Having Things.

Learning how to Save Dollars is the Foundation of a Possibility.

When you save as much as you can; when you educate yourself for greater things—when you keep track of the small things, and have a Bank Account to do it with, you will accomplish what you set out to do—Use our bank for that purpose.

Lesson for April 24

PETER AT THE TRANSFIGURATION

LESSON TEXT—II Peter 1:16-18; Mark 9:2-8

GOLDEN TEXT—And a voice came out of the clouds saying, This is my beloved Son, hear ye Him.

PRIMARY TOPIC—Jesus Shows Peter His Glory

JUNIOR TOPIC—The Beauty and Glory of Christ

INTERMEDIATE AND SENIOR TOPIC—What Peter Saw and Heard in the Mount

YOUNG PEOPLE AND ADULT TOPIC—The Majesty and Glory of Christ

I. The Meaning of the Transfiguration (II Peter 1:16-18)

These verses are an inspired interpretation by one who was present and knew all that transpired. The hope of the disciples was crushed. When Christ announced His death which was to take place on the cross, they were unable to see how victory could issue from death. Jesus took with Him, Peter, James and John, and they went into the mountains by themselves. Before going into the mountain He declared that there were some standing in His presence who would not taste of death till they had seen the kingdom of God come with power.

Two men from the upper world were sent to converse with Jesus about His approaching death at Jerusalem—the very thing about which the disciples refused to talk. Then, too, God's own voice was heard in words of approval of Christ's course, directing them to hear the Master.

II. Jesus Christ Glorified on the Mountain (v. 2, 3)

He took the disciples "by themselves" and was "transfigured before them." This shows that the purpose of the transfiguration terminated upon the disciples and not on Christ. Christ's rebuke of Peter for his unwillingness to hear concerning His death apparently for a time estranged the disciples from Him. His appearance on the mountain typifies His visible appearances on the Mount of Olives (Zech. 14:4, 9).

III. Peter, James and John Represent Israel in the Flesh in Connection With the Kingdom (v. 2)

Christ is peculiarly the King of Israel. According to Ezekiel 37:21-27, the Israelites are to be the central people in the kingdom. This people shall be gathered from among the nations and united as one in that kingdom, in their own country.

IV. Moses and Elijah Appeared in Glory With Jesus (v. 4-13)

These men in the glorified state are typical of the saints in glory. Moses who was once denied an entrance into Palestine appears now in glory representing the redeemed of the Lord who shall pass through death into the kingdom. Elijah represents the redeemed who shall pass into the kingdom through transfiguration. Some shall be living upon the earth when the Lord shall come and they without dying shall be changed and thus pass into the kingdom (I Cor. 15:50-53; I Thess. 4:14-18).

1. Peter's proposal (v. 6, 7)

So definitely was the method of the kingdom unfolded before Peter that he proposed to erect tabernacles for Christ, Moses and Elijah. It is true that the unveiling of the majestic person of Christ and the panoramic display of the kingdom somewhat disconcerted Peter, yet he grasped its central meaning and proposed to celebrate the advent of the kingdom which had been prefigured in a tangible way.

2. The divine voice out of the cloud (v. 7, 8)

God declared Jesus to be His Beloved Son in whom He was well pleased. If one would know what is pleasing to God, let him study Jesus Christ who perfectly did His Father's will.

3. Jesus' charge (v. 9-13)

He charged them that they should tell no man concerning the things which they had seen until He had risen from the dead.

V. A Demonstration of the Purpose of the Establishment of the Kingdom (v. 14-29)

When they descended from the mountain of transfiguration they witnessed a great multitude in a state of perplexity. The immediate cause of this state was the grievous condition of a young man possessed with a demon (v. 18). This young man's state is representative of the nations who are oppressed by the devil. Just as this young man was grievously oppressed, causing him to cast himself into the fire and into the waters, so the nations today in their great perplexity are doing the things which will result in their own destruction.

Union Mission Study

Hostess—Mrs. Gipson

Time—May 2, 2:30 p. m.

Devotional—Mrs. Chas. Cakes

Scripture: Mat. 18:1-14; 23:13-20

Topic: Seeing the neglected. Our Neglected Hills, Chapter 3.

Discovering the neglected—Mrs. Marshall

Discouragement among rural people and financial difficulties—Mrs. Seba Kirkpatrick

The church and landless men (page 87 to page 94)—Mrs. Frank Turner

Churches bring town and country together—Mrs. Will Hall

Young people in an extension program (page 98 to page 104)—Mrs. Burrow

Discussion:

1. Only twenty per cent of rural America are church members and 75 per cent of these are inactive. Is this generally due to a lack of churches in the community? How do you account for this very low percentage in a so-called Christian nation?
2. What percentage of the population of our community are church members? What percentage of these are inactive members?
3. What groups of people in the country are generally unreached by the church? Why? Is this true in our community? What can be done to change this condition among the poor? Among the alien? Among the unreached tenant families?
4. What do you understand by a community survey? Is one necessary in our community? Who should make it? Why?
5. Name some of the causes of discouragement of the farmer. Is his situation getting better or worse? Can the church help to change these conditions? How?
6. Is there any feeling of distrust and antagonism between the country people and the village people in our community? If so, what causes it? What can our church do to overcome this feeling?
7. Suggest methods by which town churches and country churches might cooperate in breaking down the feeling of distrust and antagonism existing between the farmer and town dweller.
8. What is the attitude of our community toward the young people? How is this attitude shown in our church?
9. Suggest some practical changes in the organization of our local church and all its auxiliary organizations

CHEVROLET

The Most Beautiful Chevrolet

Compare it for

Appearance Performance Price

Only in cars much higher in price will you find such smartness of line, such beauty of design and such elegance of appointment as in the Most Beautiful Chevrolet.

The performance of the new Chevrolet is literally amazing. Incredible smoothness at every speed... effortless shifting of gears... finger-tip steering... flashing acceleration that is a delight.

Comparison of delivered prices reveals Chevrolet's value supremacy. Delivered prices are L. O. B. prices plus charges for handling, financing, etc. The financing charges of General Motors Acceptance Corporation are the lowest available. Handling charges in proportion. Thus Chevrolet delivered prices are even more amazing than the L. O. B. prices.

QUALITY AT LOW COST

which would give the youth their with an Easter egg hunt. Mary Alice Mitchell received the prize for finding the most eggs. Those attending were Mary Alice Mitchell, Helen Turner, Rebecca Turner, Beta Faye Post, Helen Thomson, Mary Tella Robinson, Merha, Francis and Johnnie Ruth Brown, Alva Wells, J. C. Wells, Ellen Tabor, Elmo Eubanks, Jr. and William Mitchell. After hunting the eggs the remainder of the evening was spent entertained their many little friends in playing games.

WILLIAMS-TAYLOR

A very pretty wedding was solemnized Sunday afternoon, April 3, at the home of Mr. and Mrs. Amos Taylor when Elder A. S. Werner pronounced the words that made Mr. Jesse L. Williams and Miss Lorena M. Taylor man and wife.

The rural home was beautifully decorated with ferns and cut flowers. Only the relatives of both families and a few very close friends were present. The bride was becomingly dressed in a powdered blue flat crepe, trimmed with silver and accessories to match. Mrs. Ruby West was the bride's maid and wore a white satin dress in advanced style.

Miss Taylor is the oldest child of Mr. and Mrs. Amos Taylor and has spent practically all of her life near Santa Anna and is dearly loved by every one in the Plainview community. Mr. Williams is the eldest son of Mr. and Mrs. P. H. Williams, and is appreciated and respected by everyone with whom he is associated.

The News joins the many friends of the young people in wishing them a long, happy, useful life.

We've asked ourselves a lot of hypothetical questions and we haven't yet been able to determine why a woman will give a signed "testimonial" to be used in a cigarette advertisement.

YOU SHOULD TRAIN

IN THE BEST EQUIPPED SCHOOL!

The reputation of TYLER COMMERCIAL COLLEGE INSURES success to YOU when you finish one or more courses. 'We Go the Limit to Please'

ST. AUGUSTINE
(By Mrs. S. L. Weaver)

When a person visits Florida if he fails to see the old historic town of St. Augustine he misses the best part of the trip.

St. Augustine is the oldest town in the United States and was founded by Menendez in 1565. As early as 1513 this location was visited by Ponce de Leon when he was searching for the fountain of youth, but Menendez was wiser than his predecessor and had foresight enough to know that if Spain accomplished anything in the new world it would have to be accomplished by colonization, therefore he brought over 2000 colonists and settled at St. Augustine.

To protect the town from Indian attacks and attacks of other foreign enemies it was enclosed with a stone wall. The gateway of this wall is still standing. The old stone house built of coquina shell rock, built in the sixteenth century by Don Toledo for his Indian bride is still standing and is used for a curio shop and museum. Here we saw a great deal of antiques furniture, hand carved and very ornate and massive in structure. There was also a very fine collection of old china and numerous other antiques. On the walls are some old and valuable paintings as well as some old deeds and other papers of value. In the yard is the old well which is now called the wishing well which still has water in it. The old slave market still stands where the slaves were placed on the block and sold to the highest bidder. Not far away is an old Spanish cemetery where reposes the dust of some of the Spanish nobility. So old are some of the tombstones that you can not read the inscriptions on them. Time and weather have so effaced them. The streets in the old part of town are so narrow that automobiles can not drive down them. Everywhere are giant water oak trees wreathed in festoons of long moss, which add much to the beauty of the scene.

Among the places we visited were the old Cathedral and the underground spring which tradition claims was the fountain from which Ponce de Leon drank. However, the place of most interest to me was old Ft. Marion. This building is built of coquina shell stone and was originally surrounded by a moat and a draw bridge. It was begun by the Spaniards in 1638, but was not entirely finished until a hundred years later. It was a very strong fortress and was then called Fort San Morco. The building is located on Mantanzas bay and there is a watch tower where the inhabitants of the fort could look out on the sea and spy any vessels which came into port. It was always heavily manned with cannon and the great doors made from heavy slabs of wood looked to be impregnable.

In 1763 Spain ceded Florida to Great Britain and the fort was under English control until 1783 when England ceded Florida back to Spain. In 1925 the United States purchased Florida and the old Fort's name was changed to Marion in honor of Francis Marion of Revolutionary. It was in this Fort that Oseola the famous Indian Chief was kept a prisoner. Our guide pointed out to us the room in which he and another chief whose name I do not remember were kept. There were horizontal iron bars over the windows and the proud chiefs had cut niches in the stone walls in order that they might climb up and look out on the land surrounding the fort. Finally they longed so for freedom that they decided to starve themselves until they would be small enough to crawl through the bars. Oseola's companion managed to get through and make his escape, but Oseola failed and died a month later of a broken heart.

The most gruesome thing I saw in the fort was the old Spanish death cell. This had been closed up and was not discovered until some twenty years ago. It is a low arched room and has no ventilation. You have to crawl on your knees to get into it. Inside it is dark as pitch, and when discovered it contained human bones. As I looked around I thought at once of "Poe's Pit and Pendulum." It was in this chamber that the Spanish placed their prisoners and let them die by suffocation. There is an electric light in it now, but the guide

Renew Your Health by Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs, once or twice a week for several weeks—and see how Nature rewards you with health. Calotabs are the greatest of all system purifiers. Get a family package, containing full directions. Only 25 cts. At any drug store. (Adv.)

A Wonderful Transformation.

For a good many years musical people and club workers have been advocating the observance of National Music Week, a week set apart and devoted to the best and most in music. It seems that the radio is making every week and month a time of music, transforming the lonely hours into harmony and the isolated spots into humming, throbbing activity.

And what the radio is doing to fill the silent moments with melody—not for one proclaimed week but throughout the whole year (or until the battery runs down), suggests that the time may come when all such "weeks" may become years. Take Thrift Week, Forestry Week, "Be Good" Week, "Pay Your Bills" Week, and all of the other dispensations conceived in the minds of forward-lookers and fostered and popularized upon a waiting and receptive world by press, club and pulpit: what might transform every one of them that are good into year-round activities? Or better still, what can make them a real part of ourselves, a second nature, so that their observance becomes a matter of course instead of a matter of form?

That time should be welcomed by all thinking people. And such a time may come. If, with all of our institutions, the world is not getting better what hope is there left? We owe to science and invention a debt of gratitude for comforts and conveniences and other material benefits that make life sweeter. But they are nothing without the moral consciousness behind them to adapt them to the moral and cultural purposes of life.

France has adopted the English word "home" because there is no equivalent in the French language. In America we have the word, all right, but not the thing it is supposed to mean.

turned the light off to let us see how dark it was.

The modern section of St. Augustine is very beautiful. Henry Elogies the great railroad magnate, spent millions of dollars improving it. His home alone cost over a million and the Ponce De Leon Hotel which was built by him covers five acres of ground, and cost four million dollars. The rates at this hotel run from \$10 to \$35 per day. President Harding was a guest of this hotel one week and his hotel bill was \$3000.

There is a fine light house at the entrance to the harbor and the harbor and bay are the prettiest ones I saw in Florida. There is a long tall bridge across the bay which has just recently been opened up.

The scenery in and around St. Augustine is very beautiful and really I think it is the most picturesque town that I saw in Florida.

He Swarmed Alone

Said a wise old bee at the close of day: "This colony business doesn't pay. I put my money in that old hive that others may eat and live and thrive; and I do more work in a day by gee, than some of the fellows do in three. I toil and worry and save and hoard, and all I get is my room and board. It's me for the sweets of my hard-earned pelf." So the old bee flew to a meadow alone and started a business of his own. He gave no thought to the buzzing clan, but ah! intent on his selfish plan. He lived the life of a hermit free. "Ah, this is great," said the wise old bee. But the summer waned and the days grew drear, and the lone bee wailed as he dropped a tear, for the varments gobbled his little store and his wax played out and his heart was sore, so he winged his way to the old home land, and took his meal at a side-door stand. Alone, our work is of little worth, but together we're the lords of the earth, so it's all for each and each for all—united we stand, divided we fall.—Michigan Bulletin

To Take Over Pasteur Institute

Tentative plans to take direct control of the Pasteur Institute were made by the state board of health at its first official meeting held in Austin on April 11th. Plans were also made for the manufacture and distribution at cost of rabies serum, which will be sent to any part of the state on application.

The present cost of a course of rabies treatment is around \$25.00, and the manufacture and distribution of this serum at cost would mean a big saving to victims using it, as it would also eliminate expensive trips to Austin to secure treatment, as is now necessary.

A supplemental budget to provide for the manufacture and distribution of the serum will probably be submitted by the Board of Control to the special session of the Legislature.

New Bulletin for Health Officers

The state board of health branched out in health education work this month by the issuance of an attractive Health Officers Bulletin, which will be sent monthly to all county and city health officers in Texas.

Among other articles of health interest which it contained, the following is given on malaria control:

"In districts where malaria is a problem, the biggest returns on money expended, can be secured by systematic control programs. A budget for this work should be provided by the city council, the size of the budget to be determined by estimated cost of such items as salary of inspector, ditching, filling of low places, installation of drip barrels, filling streams, and stocking ponds with minnows."

DIAMONDS

Reward one of life's greatest moments with something worthy of that hour.

A diamond is the supreme gift for the graduate, or any other gift occasion. Its beauty will never fade, its sentiment grow cold, or its intrinsic value diminish.

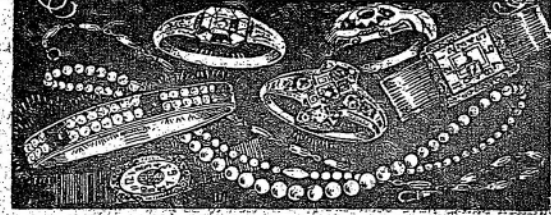

What more could you ask of a gift?

We have some very pretty diamond rings suitable for the graduate—both in solitaire and dinner rings—priced from—

TEXAS AND TEXANS

(By Will H. Mayes)

Increasing Use of Figs

The United States Department of agriculture says that it is estimated that 9,955,000 pounds of figs were preserved in Texas in 1926 as compared with 4,481,000 pounds in 1925 and 2,360,000 pounds in 1924. In 1926, 18 fig preserving plants were in operation in the State compared with 12 in 1925, and 6 in 1924. It is estimated that the total acreage of figs in the Gulf Coast country of Texas in 1926 was 16,200 acres. For No. 1 figs the growers received an average of 6 cents a pound in 1924, 5 cents in 1925, and 4 cents in 1926, the price dropping along with the increase in production. If Texans want to help a growing Texas industry they should buy Texas-made fig preserves, and there is nothing better that can be eaten. They are not in the same class with the almost tasteless jams and preserves of the Northern variety.

Help the Cotton Mill Industry

The Texas Legislature let die on the calendar, along with a lot of bills that should have died, a measure exempting cotton mills from taxation for a period of years. Right now, many Eastern cotton mills are looking for new locations where conditions are favorable and inducements are offered. Texas needs 2,500 cotton mills where it now has only 25. Other Southern states have been exempting these industries from taxation for a number of years to compensate them in part for moving. The Texas legislature should busy itself in offering every inducement possible to build up the cotton manufacturing industry. This should be a special work for the special session.

Another Growing Town

Pecos has raised \$18,000 with which it has bought a site for a \$150,000 hotel to be built right away by an El Paso hotel man. The site was given as a bonus to secure the hotel. A splendid investment this is for Pecos, and it shows that Pecos is the fine town—the prosperous town, growing town, the Pecos Enterprise has been picturing it.

Seeing Texas First

It is said that out Marfa way, the tourist parks are even this early in the season hardly able to take care of the tourist business coming that way,

but that, foreseeing the influx of summer tourists, provision is being made to make all who come comfortable. Unless all signs fail the Davis mountain section of Texas is going to attract more tourists this year than have gone out that way in any previous five years. Texans are beginning to find that they should "see Texas first," and they are going in great numbers to those places that show a real interest in having them come.

Cotton Dress Movement

The Dallas County Federation of Women's Clubs is going to put on a cotton styles show. Prizes are to be given for the most attractive cotton dresses costing not more than \$1.50, and it is said that all the clubs in the country will be represented in the show. This is a good idea that might well be extended to every county in the State. Dallas has no copyright on the movement.

Little Theatre Movement

The Little Theatre or Community Theatre movement, which has been growing in popularity so rapidly in Texas is on the way to end as speedily as it grew popular unless something is done to check the advancing prices charged patrons. When first organized these home talent companies charged a small admission fee, never more than \$1.00 and often as low as 25 cents, but there is a growing tendency to charge as much for these amateur plays as the professional companies charge for copyrighted productions. The high prices tend to make the audiences exclusive, and not the popular community gatherings of the early days of the Little Theatre movement.

Coolidge to be Invited

President Coolidge is to be invited to attend the Austin State Exposition to be held some time in the early fall to meet the Governors of all the other Southern States or as many of them as accept the invitation of the Exposition to be its guests. Along with these, Governors of all the states of Northern Mexico are to be invited. It is an ambitious program that is being planned and one that will draw large crowds if it is fully worked out and thoroughly advertised.

Big Bridge Celebration

It is announced that the Trinity river bridge connecting Freestone and Anderson counties will be completed in July and arrangements are already being planned for a monster celebration. The need for this bridge has been felt not only by the people of these counties, but by thousands of other people who have had occasion to try to get across the Trinity anywhere in that section of the State after a rain. Texas is badly in need of a road and bridge program adapted to the daily needs of the people.

Organization Worth While

South Texas onion growers have learned some costly lessons. Like people in some other lines of business they have learned that it does not pay for every onion grower to do his own marketing in his own way. The growers in Webb, LaSalle and McMullen counties where most of the Texas onions are grown will unite this season to control the sale of the 3,000 cars to be shipped from that section, restricting the shipments to meet the demand. If Texas producers would handle all their products in this sensible way, there would be less complaint about prices.

East and West

Although Berger continues to get the most "notoriety," Cherokee county in East Texas and Brown county in Central West Texas appear to be attracting the most attention just now from the real-oil operators. The oil development in both these counties is just now so inviting that the operators are kept in a quandary as to where to spend most of their time and are keeping the roads hot. There is a rumor that a regular air travel route is to be established between the two fields to speed up the travel. Don't conclude, however, that the oil interest is dying in other parts of the State. These counties are just the present centers of interest.

Another Trinity Project

Permission has been granted T. H. Harbin, of Waxahachie, to make a survey to determine the feasibility of diverting sufficient water from the Trinity to irrigate 90,000 acres of land. Of this, 50,000 acres are near the crossing of the Texas-Midland Railway at Lock and Dam No. 7; 30,000 acres are adjacent to the lands of the Trinity Farm Company between the East main forks of the river; and 10,000 acres are between Elm and West Forks. Watching Texas development is easy, but one has to hustle to keep up with it.

WHAT'S DOING IN WEST TEXAS

(By West Texas C. of C.)

Memphis—Work on installation of 10,000 feet of sewer for the northwest part of Memphis is under way here. The additional sewerage will cost something near \$6,000 and will be paid for by warrants on a ten year basis.

Clovis, N. M.—Clovis boasts one of

the most complete tourist camps to be found in this state. It is situated within 12 blocks of the business section of the city and is modernly equipped in every respect. There is a community house with a dining hall and recreation room; and public kitchen. Hot and cold showers, bath facilities are also provided.

Panhandle—Construction of a double track from this point to Pampa, a distance of 30 miles, is under project by the Santa Fe railway. The improvements are of an approximate cost of \$1,000,000. The forty-five miles of second main track underway between Canyon and Panhandle and this new section of thirty miles gives the Santa Fe about 75 miles of first class double track in this territory.

Childress—Plans for the next district convention of the West Texas Chamber of Commerce to be held here May 5 are being detailed. The convention will call together members of the Green Belt and Lower Panhandle region.

Wichita Falls—Twenty-six cities are already completing preparation to represent as many foreign nationalities in the huge Congress of Nations planned for the ninth annual convention of the West Texas Chamber of Commerce which convenes here May 16 and 17. Arabia, Egypt, Portugal, Spain, Italy, Turkey, England, American Indians, Holland, and many other picturesque alien races will be represented at the meeting.

Girard—Shoes and socks serve as money depositories in this section, or citizens carry their exchequers about their person. The reason for this condition is that Girard is in need of a bank. The town is located in a prosperous agricultural region and offers a good location for interested capital.

Levelland—Citizens of this progressive West Texas town and of the county voted a bond issue of \$150,000 for construction of a Hockley County courthouse here on April 5. Levelled is only three years old, but already has more than 20 modern brick business houses, and is making strides toward a real West Texas city.

Crosbyton—W. A. Wilson of Lamesa was chosen president of the South Plains Secretaries Association formed here at the close of the district convention of that section held April 7. S. W. Cooper, secretary of the local chamber of commerce, was made secretary of the association. The South Plains District Convention of the West Texas Chamber of Commerce met here April 7, was another record

breaker for the regional organization, with 1500 in attendance, and with over 500 registered delegates. The 1926 convention of the South Plains section went to Lamesa after a close contest with Tahoka for the honor.

Barstow—Franchise for power rights for installation of a power and ice plant and system for this town has been granted and developments are under way in this project.

Hedley—Construction is under way to shorten the road from McLean and Hedley to points south. It is aimed to have the roadway taken over by the State Highway System at an early date.

Kress—Contract has been let for three brick business houses and work has been started on the buildings.

STRAWS For Summer Style

Men of taste who demand style and quality at all times always rely on Parker Bros. for their Summer Straws. This year we are showing a much larger and more varied collection of the newest styles than ever before. Swiss Yeddos, Sinnets and Panamas in new shapes and with new fancy bands are stylish for summer wear. These will top the town in price and style.

CITATION BY PUBLICATION

THE STATE OF TEXAS, To the Sheriff or any Constable of Coleman County—Greeting:

You are hereby commanded, that you summon, by making publication of this citation in some newspaper published in the County of Coleman, for four consecutive weeks previous to the return day hereof, Emmett Moneyhun whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Coleman, at the Court House thereof, in Coleman, Texas, on the 19th day of September, A. D. 1927, then and there to answer a Petition filed in said Court, on the 30th day of November A. D. 1926, in a suit numbered on the Docket of said Court No. 4107, wherein Nettie Moneyhun is Plaintiff and Emmett Moneyhun is defendant. The nature of the plaintiffs demand being as follows, to-wit: Suit by Plaintiff against said Defendant for divorce, Plaintiff alleging that she is bona fide inhabitant of the State of Texas and has been for more than twelve months next before exhibiting her petition herein, and resides in Coleman county, Texas, and has resided in said county for more than six months next before filing this suit; that Plaintiff and Defendant were married in Coleman county, Texas, March 19, 1915; that by reason of cruel treatment, excesses and outrages of Defendant toward Plaintiff, their further living together is insupportable. Plaintiff prays judgment for divorce and for the custody of the four children of Plaintiff, to-wit: Gladys, Curtis, Thelvert and Mary Lois, and for costs of suit and general relief.

Herein Fail Not, and have you before said Court, on the said first day of the next term thereof, this Writ with your endorsement thereon, showing how you have executed the same. This is the second citation issued in said cause.

Given under my hand and seal of said Court, at office in Coleman, Texas, this, the 18th day of April A. D. 1927.

W. E. Gideon, Clerk District Court, Coleman County, Texas. 17-tf

Principal Points Texas School Law to be Remembered

A teacher's contract can not be approved by the county superintendent before August 1st, until the State per capita is announced officially.

In employing a teacher, the trustees should be called together by the president of the board, the secretary recording and the president presiding at said meeting.

When the funds of the school are exhausted even before the term contracted for has expired, and the trustees have not spent more than originally planned for local purposes, the contract automatically closes, without any recourse on the board of trustees. Local funds may be spent for any purpose that is considered for the best interest of the school. Stews and ice cream or other forms of food for school closing can not be paid for out of local funds.

State funds can be used to pay teacher's salaries only.

State aid fund can be used to pay teacher's salaries only.

Transfers can not be made after July 31st. The attorney general's rules that all applications for transfers that are filed according to law, must be made by the county superintendent.

Transfers can not be made from one county to another unless they are from districts that are adjacent.

Consolidations can be affected in the following manner: by election, by county board; by local board, for one year only; by county superintendent, provided the school has less than 20 scholars.

County school trustees can make changes in district lines, provided there is not an outstanding indebtedness, or that such change would not reduce the district below nine square miles. A district that is already below nine square miles can not be reduced in area. A new district can not be created below nine square miles.

The district trustees are the custodians of all the school properties within their respective districts.

The location of the school house can be decided on and made by the school trustees only.

Before a teacher can be dismissed the local trustees must file with the teacher a written statement setting forth their reasons why they request his resignation.

Three charges can be used as a basis for requesting the resignation of a teacher: Insubordination; inefficiency; immorality.—Stephenville Empire.

NEW STUDENT

Miss Lucile Cartwright of Santa Anna entered the Fine Arts Department of Daniel Baker recently. She is specializing in Expression, and came to Daniel Baker in order to finish under Miss Katherine Watson, professor of Oratory and Expression. Miss Cartwright had many friends in Brownwood before coming here to go to school, and she has acquired many more in the short time that she has been a student here.—Daniel Baker Collegian.

Methodist Missionary Society

The Missionary Society met at the church Monday afternoon and an interesting lesson was recited on the Budget System. The lesson was ably led by Mrs. Haney Voss. Others on program were Mesdames Hardy Blue, T. R. Sealy, Frank Turner, Will Hall, Seba Kirkpatrick and Anna Prickett.

Buy it in Santa Anna.

FOR HOME AND STABLE

The extraordinary Borozone treatment for flesh wounds, cuts, sores, galls, burns and scalds is just as effective in the stable as in the home. Horse flesh heals with remarkable speed under its powerful influence. The treatment is the same for animals as for humans. First wash out infectious germs with liquid Borozone, and the Borozone Powder completes the healing process. Price (liquid) 60c, 60¢ and \$1.20. Powder 30c and 60c. Sold by

THINGS WORTH KNOWING

(By Roy E. Harrod, Rushville, Ia.)

The greatest depth of the ocean has always been a perplexing question and many expeditions have sought to determine it. One has reported that the greatest depth to be found in the Atlantic ocean is 27,366 feet, the Pacific 30,600 feet, the Indian 15,582, the Southern 25,300 and the Arctic 9,000.

Chattering teeth are the result of a spasm of shivering over which the brain seems to have no control. The spasm causes the muscles of the jaw to contract very quickly and as soon as they are contracted, they let the jaw fall again of its own weight. This occurring many times in rapid succession results in the teeth chattering.

There is said to be no article or utensil of common use today that can trace an earlier origin than the spoon. From the Stone age on down through the Egyptian, Greek and Roman civilizations it can be followed in various forms and substances—wood, shell, flint, bone, ivory, bronze and the precious metals, gold and silver.

The term "A-1" now used to define a thing as perfect, was first a symbol in the code of a marine insurance company to designate shipping. "A-1" was the best rating given to the highest class vessels "A" standing for perfect condition of the hull and ship and "1" meaning that the rigging and whole ship was complete and in good order.

Men touching glasses together before drinking, as an expression of friendliness, has come down to us from the days of dueling. In order to make certain that no one had attempted to forestall the results of the duel, the duelists followed the habit of pouring part of the contents of a glass of wine held by each into the other, so that if either contestant was poisoned, the other would be too.

SOME OF MORE COMMON BABY CHICK DISEASES

(By F. W. Kazmeier, Bryan, Texas, Formerly Poultry Husbandman, A. & M. College)

At this time of the year, many people are having trouble with their baby chicks. It is a discouraging job to try to raise weak, and improperly hatched chick. It is a pleasure to raise strong, vigorous and healthy chicks. Many people are afraid of May hatched chicks. We have found this an out-of-date and unfounded belief. May hatched chicks can be raised, as readily, as earlier hatched chicks, provided comfortable surroundings are provided.

For May hatched chicks we would recommend the liberal feeding of sour milk or buttermilk. It will help correct bowel disorders and many forms of diarrhea and other digestive troubles. If you have enough milk, so they can have all they want, we recommend giving sour milk or buttermilk to drink and no water. If you do not have enough milk, to keep it before them all the time, then we recommend giving both water and milk. Feeding milk spasmodically is not as satisfactory, as when fed regularly. It must be given in containers so the chicks cannot get into it. We use a commercial product known as semi-solid buttermilk, when we do not have enough sour milk or buttermilk. We firmly believe the liberal feeding of milk, will help you raise your May chicks. Shade should, of course, also be provided and plenty of fresh and tender green food.

We have found May hatched Leghorn chicks to make the best of winter layers. They won't go into a Fall moult, which earlier hatched Leghorn chicks are apt to do.

Cleanliness, is perhaps the most important single factor in successful raising of baby chicks. Clean out from under hover early every morning and replace with clean litter. Clean entire house and disinfect once a week.

Watch your brooding temperature. Too much heat is as bad as chilling. If the whole house is kept too hot, you will have much trouble with chicks crowding in corners of house.

Ordinary Diarrhoea

The symptoms are droopy wings. Listless attitude. Pasted up around vent. Usually noticed first two or three weeks. Chicks lose their appetite and do not grow, in fact to grow smaller. The feathers around the vent become pasted up with a whitish material, which may accumulate into large amounts. Chicks appear sleepy. Usually considerable mortality. This disease is often confused with bacillary White Diarrhoea.

The chief causes are improper brooding temperature, either chilling or over heating. One is as bad as the other. Feeding too soon after hatching, causing non-absorption of the yolk may also cause the trouble. Over feeding is also a common cause.

The above are the chief causes for common diarrhoea among baby chicks. The logical thing to do is to remove the causes. Many people are prone to blame anything and everybody, but themselves.

Yet, in the majority of cases, the trouble was caused by the negligence or carelessness of the care taker. Be big enough to blame yourself, and make an effort not to make the same

mistake twice. After locating cause, and making arrangements to prevent its recurrence, flush the digestive system by giving epsom salts. To do this do not give anything to eat, night before. Dissolve the salts in a small amount of warm water, and moisten what wash the chicks will clean up in 15 minutes.

Also give plenty of sour milk to drink. Tomatoes mixed with a small amount of mash, to a crumbly state also will help. Give the chicks all the succulent, and tender green feed they can eat. Place hopper full of chick size charcoal before them.

Sore Eyes

This trouble is caused by some foreign matter such as dust, dirt, chaff, etc., getting into their eyes, causing them to water and become pasty and sticky. The litter sometimes causes this irritation. The proper thing to do is to remove the cause. Provide clean, dry and free from dust litter. Moldy litter is very bad.

Colds

In brooding chicks, colds in eyes and nostrils as well as other portions of the breathing system usually are caused by over crowding under brooder and in brooding house. Damp, dirty and poorly ventilated quarters also may cause the trouble. Floor drafts are another fertile cause. We repeat over-crowding is one of the greatest causes, and must be guarded against. Indigestion caused by over feeding also sometimes causes it. We do not recommend giving medicine, the proper treatment or procedure is to remove the cause and kill those affected badly.

Cannibalism

Eating each others toes, picking at wing and tail feathers, is what is called cannibalism. Over-crowding, and too close confinement are the chief causes, as well as a "improperly" balanced ration. We repeat over-crowding and too close confinement are serious causes. A house 14 by 14, with a 42 inch hover, will accommodate from 300 to 350 chicks until they are eight weeks old, when all the cockerels must be removed. Let your chicks run out doors every day, excepting on very bad days. Add milk for them to drink, also plenty of fine cut tender green food. Plan your method of feeding to keep them busy every minute.

When a jury turns a guilty man loose it becomes an injury.

Indigestion

bad spells relieved

"NOTHING can take the place of Theford's Black-Draught with us because we have never found anything at once so mild and so effective," says Mrs. Hugh Nichols, R. F. D. 4, Princeton, Ky.

"When the children have spells of indigestion and upset stomachs, I always straighten them out with a dose or two of Black-Draught."

"Several times I have suffered with bad spells of indigestion myself and found I would soon get relief if I took a course of Black-Draught. I was troubled with a bad accumulation of gas and severe pains across my stomach and lower bowels. Now when I feel a spell of this kind coming on, I head it off by taking Black-Draught—a dose every night for a few nights will prevent the trouble and save me much pain and suffering."

"My whole family uses Black-Draught for biliousness and constipation."

"It is a splendid medicine."

Sold everywhere. 25 cents.

No Community Ever Grew into a City Without the Loyal Support of the Local Citizens. Your Town Is Just the Kind of Town You Help Make

For Seventeen years the Santa Anna Mercantile Company has sold to the good people of this trade territory the best Merchandise obtainable and at the lowest possible prices. How well they have pleased the public is shown by their steady growth. They have pleased their Customers and as a reward have enjoyed a bigger share of their business from season to season. It is with pride that they point to those loyal Customers who look to this store for their Dry Goods wants and some of them have done this for the Seventeen years this Firm has been in business.

The Santa Anna Mercantile Company was organized in January 1910 by C. B. McCluskey, W. B. Woodward, Miss May Blue and Comer Blue, with W. B. Woodward as manager. In 1912 the interest of Mr. McCluskey was bought by W. B. and F. C. Woodward and continued under the management of W. B. Woodward until his death in 1913, at which time Miss May Blue and F. C. Woodward who had been with the business since organization took active charge. All stock in the company is now owned by Mrs. W. B. Wood-

ward, Miss May Blue and F. C. Woodward who devote their time and ability to making this a better Store in which to trade, in this they are assisted by Mr. Lloyd Burris and Miss Jimmie Vinson who have been with the Store for several years.

This Store is the Friendly Store, you are always welcome whether you come to buy or not. The customers of this store must be pleased, for a pleased customer is worth more than the profit on a sale. This store stands always for those things that are good for the Community for when its Customers profit so does a business.

This Store sells the best Merchandise obtainable and on the smallest margin of profit. It treats the new customers just as well as the old and tries at all times to tell you just what you are buying and whether it will meet your needs.

Join the hundreds of satisfied customers of the Santa Anna Mercantile Company and you will be pleased with your Dry Goods purchases.
