SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY MARCH 25, 1938

NUMBER 12

"He Profits Most Who Serves Best"

## SMOKE FROM THE MOUNTAIN

This week a Lion member invited a well-known farmer in this community to be his guest at the luncheon hour but the man refused because he said he'd feel embarrassed with all those "big bugs" there. Now we don't believe the Lions feel that way about themselves and they don't want any farmers or any other citizens to feel that way about them. If there was any "big bugging" done the farmers of Santa Anna should be the ones to do it since their business and industry here makes Santa Anna and its clubs possible. And we'd bet if you just got down to brass tacks, most of the Lions were originally farmers or farmers' children.

Have you asked Bill Mitchell why he haunted the News office so much last week and why, after he saw the paper last week, he said he could go home and sleep in peace?

A perfectly innocent question can mean so much as we learned Sunday morning. A visitor in town who stopped for a cup of coffee asked where he could locate his old friend, Claude Reid. He was told that since it was about Sunday School time Reid would probably be coming through town on his way to Sunday School. The fellow in all seriousness asked, "Are there two men by that name here?"

Americans apparently have queer ideas of patriotism and to a foreigner we must seem very unpatriotic. Recently a newly naturalized citizen of the United States and now a resident of Texas was naturalized along with a large group of other new citizens and was given a small silk flag of the United States for a souvenir. He was very proud of his new flag and took it home for safekeeping. On the back of the United States flag he saw the words "Made in Japan." It must have seemed shocking indeed to a new, proud citizen of our country to learn that our flags, no matter how small, are made in a foreign country.

Quoting from the Dallas News where the account of this happening appeared, another instance is cited:

"While many women prominent in D. A. R. work in Dallas were attending a meeting of the organization at Temple, Mrs. Austin Wier, chairman of the Americanism committee, said the matter had often been discussed by them.

"It seems that the flags can be made so cheaply in Japan that Americans cannot afford and do not compete," she said. "We buy the flags in large quantities. Another strange thing in this connection was a recent visit I made to an American Legion meeting, at which I found the favors of swords and caps for the legion party had all been made in Germany."

## Game Warden Aids In Restoration Of Country's Wildlife

Game Warden John Wood of Brownwood visited Santa Anna Saturday and distributed literature and posters for National Wildlife Restoration Week, which began Sunday, March 20 and continues through March 26. This week has been set aside for special emphasis to restoration of the nation's wildlife, although closed seasons for hunting and fishing extend several weeks over this special observance.

Because hunters and fishers and natural causes reduce the country's wild animals and fish, it has become necessary to stress the importance of game and efforts are made each year to restore much of the game killed during the hunting seasons.

Mrs. Roy Reid and Betty Jo Reid of Market visited here Sunday.

## Santa Anna Band Receives High Contest Rating

Santa Anna High School Band made an excellent showing at the Stephenville meet Saturday according to the rating received by judges, when 16 bands in this section of the state were passed in review.

The local band was judged "excellent" in sight reading and was given a grade of 82 in marching. One judge praised the group of 34 members highly, saying that "the Santa Anna Band should be complimented on their rendition especially for such a small organization."

The chief fault found with the local band, members reported, was the lack of low or brass instruments. The band and local citizens will endeavor to remedy this lack as soon as possible.

## Cream Buyers Are Warned Against Illegal Products

The following letter has been sent to cream dealers over the state by the Texas Cream Improvement Association and contains important information for both cream dealers and farmers who sell cream.

It is published to give this information so that all cream sellers and buyers may conform to the legal requirements set forth in Texas, since it has been found that many farmers are selling or cream buyers are accepting products not up to the required standards. It is to be understood by the farmers that if a cream buyer does not accept cream brought to them they are doing so to stay within the laws or they will be fined heavily.

All cream buyers in Santa Anna are enthusiastically cooperating with the cream improvement program and are striving to fulfill every requirement of the law, local dealers stated.

Coleman County citizens are proud of their soil and water conservation projects and have a right to be boastful about them, but it always sounds better for the other person to do the bragging.

Coleman County's Enterprise

Coleman County has shown its 253 neighbors in Texas some genuine enterprise in the nationwide field of soil and water conservation and the Texas press is extremely generous in congratulation.

Coleman County obtained from the State Legislature authority for the establishment of a conservation system of closely linked lakes and dams. The citizenship supplied the funds. The plan includes erosion prevention, soil rehabilitation and the retention of all of the water eventually to fall upon the area.

## SCHOOL NEWS Primary Room

We have been studying about Holland this month. We have learned many things about Holland and the Dutch people. We made a pretty Dutch panel for our wall. The first and second grades drew original pictures of windmills and made toy windmills. We made a tulip flower garden, too. We looked through books for stories and poems about Holland. Then we wrote original stories and poems. Mrs. Baker read us many Dutch stories and poems, but the ones we liked best were "The Dutch Twins" and "The Leak in the Dike."

Here are some of our own stories and poems.

### "In Holland"

In Holland the tulips are in bloom. The windmills are working. They pump water to the fields and gardens. Everything is pretty and bright. The sea goes splash splash against the dikes.

### Murrel Menges "Dutch Children"

Dutch children have blue eyes and light hair. The girls wear wide skirts with short tight waists, and the boys wear long baggy trousers. They all wear wooden shoes called klopers. Most of them are fat. They have happy times in their pretty clean homes. All would like to meet a real Dutch child.

### Rex Williamson J. D. Jackson

The wind blows  
And the windmill goes.  
The little children like to see  
The water flow so merrily.

### Rex Williamson

In Holland the wind does blow  
And the windmills do go,  
While the miller grinds his corn  
And the ships sail at morn  
To the lands that are far away,  
To return with jewels some day.

### Mary Lois Leady

Friday afternoon we dug up flower beds in front of our building and set out flowers. It makes our grounds look much nicer.

We will not have school Friday as many of us are going to Coleman to the Interscholastic League Meet. The ones who are entering events are Rex Williamson, story telling; Jewel Farris, junior declamation; Ernestine England and Freda Heallen, spelling VI and VII; Reba Griffin and Billie Leady, spelling VIII and above.

## Support Your Candidate for Rodeo Queen

Students of SAHS, are you supporting your candidate for Rodeo Queen? No, you are not! Why aren't you? Can't you show the citizens that you are interested in what is being done in your own home town? Isn't there a girl in the contest you would like to have win? We know there is. So why don't you get out and work up a few votes for her?

Students, this is the first time Santa Anna has had a rodeo queen. So support your candidate, whether it be Elsie, Elizabeth, Carolyn or Mickie.

## A Good Winner

Are you a good winner? Are you a good loser? Next week Santa Anna goes to the Interscholastic League meet in Coleman. Are we going to be good winners or losers? It's not whether we win or lose that counts. To be a good sport one must "Take it on the chin and grin" regardless of the decision.

## State Protects Children Through Highway Safeties

Austin, Texas, March 24. — There are fewer children killed on Texas highways each year principally because the children themselves are being taught to protect themselves from highway hazards, according to Dr. Geo. W. Cox, State Health Officer, who cites the work of the Department of Public Safety among school children as being one of the chief factors in the protection of life.

Despite every effort of the State Highway Department to build highways as safe as it is possible to make them, the per-

## Band Attends Contest

The Santa Anna High School Band attended a contest held at Stephenville Saturday, Mar. 19. They played in the concert contest, then went to the sight-reading contest. After that they marched in a contest on the athletic field and then marched in parade through town.

Ever notice how much quicker a job is done when everybody connected with it minds his own business?

sonal element remains. The Texas Department of Public Safety, through the Safety Division, is working to make the personal element a factor for safety, he said.

Particularly gratifying to the members of the State May Day Committee has been the complete cooperation by the Safety Division in all activities directed toward increased protection for children.

Personnel of this division receive vigorous training after passing the examination before they go on duty. The effectiveness of this training is shown by comments given on increased efficiency and the aid extended by members of the department to motorists.

Not only is this department propounding questions, but is attempting to bring proof of the answers by safety demon-

## Pep Squad Will March With Band

Mr. Harris: I don't recall but it must have been grindstone.

keeping the passengers from sticking their arms and heads from windows, keeping the aisles free of obstacles over which children might trip, and assisting the pupils to leave the bus in a safe manner.

Texas is among the leading states in safety work among school children and highway pedestrians, and while much progress has been made toward elimination of accidental death and injury, much work still remains to be done, and it remains for the entire citizenship to aid in doing it.

## BOOST THE MOUNTAINEERS!

Many communities have not taken advantage of the splendid safety talks made available through the Texas State Police.

Ignorance of the following laws lead to the loss of life and serious lack of responsible driving on Texas highways:

1. The negligent driver in any accident is responsible for all damages.

2. Failure to stop and render aid to an individual struck by his car makes the driver guilty of a felony.

3. Driving under the influence of liquor is a violation of the law.

In the interest of the children of Texas, the May Day Committee is glad to endorse these activities directed toward safety. Make the man behind the wheel the child's friend.

More than 150 Texas cities have adopted student patrols to protect the school child going and coming from his home. It is said that not a single child has been hurt at intersections where the patrol is directing traffic, and in schools where safety courses have been given, great improvement has been noted. Highway patrolmen and other personnel of the State Department of Safety are working constantly with school children to make them safety conscious. It is showing definitely encouraging results.

The department is planning to expand the patrol system to the rural buses where certain students will be named to assist the drivers in safety work.

# Why Newspapers Lead All Other Advertising Media!

- 1 Newspaper reading is a universal habit. Newspaper advertising, therefore, reaches virtually all who read and buy.
- 2 A newspaper advertisement can always be seen by the reader.
- 3 The newspaper advertisement, as part of the complete paper, goes into the home as a welcome guest.
- 4 The newspaper advertisement can have as much reader interest and news value as the news item.
- 5 Newspaper advertising enables manufacturers and dealers to state where their products may be bought.
- 6 Newspaper advertising is inexpensive. Merchants have learned that it covers more families for less money than any other form of advertising.
- 7 Newspaper advertising results may be checked.
- 8 Newspaper circulation is known and is comparatively unaffected by daily change.
- 9 Nearly all of a newspaper's circulation is concentrated in its own market.
- 10 Newspaper advertising reduces selling costs because it entails no waste of circulation. This helps reduce cost for the consumer.
- 11 NEWSPAPER ADVERTISING BUILDS CONFIDENCE AND GOOD WILL . . . ATTRACTS NEW CUSTOMERS . . . INCREASES SALES . . . AND STABILIZES MERCHANDISE, METHODS AND PRICES.

12 The Santa Anna News affords full circulation coverage of the city of Santa Anna and the Santa Anna Retail Market that is made up of this trade territory.

The lives of quite a number of interesting characters are to be outlined during the remaining school weeks.

## Some of the Trail-Makers

Buffalo has a very interesting history that has fallen behind the present generation and has almost been forgotten. People who are not familiar with the history of Buffalo might find a few interesting facts in this article.

In the pioneer days, a certain man, Mr. Hunter, and his son drew reins on Brushy Top hill near the present site of Buffalo. As they viewed the creeks and vales below, they saw hundreds of herds of buffalo. The father told his son that they would name the small creek and surrounding territory after these thundering herds. The aforementioned Mr. Hunter and son were the father and grandfather of the present Mrs. Oscar Curry, a citizen of Buffalo community.

In 1892 the first school was built in the Buffalo community a very short distance south of the present location. Naturally, it was named Buffalo because of the creek's bearing the same name. Later it was moved about one and one half miles farther south. At this time the tax rate was fifteen cents. In 1914 Buffalo, Winn and Cross Tank schools consolidated, one of the first school consolidations in Texas. A bond of three thousand two hundred and fifty dollars was issued and the tax rate was raised to fifty cents. The building consisted of four rooms and an auditorium. Soon after the consolidation, a new step was taken toward better training for the boys and girls of the community. Manual training (taught to the delight of the and Home Economics were be-yonthis of the day.

The important men who were prominent in the building of Buffalo were E. F. George, J. E. Whiteside of Devine, Will Swan, J. J. Andrews, deceased, Uncle Will Curry, deceased, and R. R. Powell, deceased. The lives of these important men and their children who are carrying their work on are to be considered in later articles.

Dr. and Mrs. J. Paul Board returned Saturday morning from Houston where they were called because of the illness of Dr. Board's uncle. They found him much improved. A. Preston Bailey went to Houston Wednesday on business.

Lubbock, Texas, March 24. — Dosh T. McCreary, a junior student, is president of the Society of Geological Engineers.

## Cream Buyers - -

(continued from page one)

required 937,500 pounds of 4 percent milk to produce this cream - which if it could have been used would have made 46,800 pounds of butter. It represents all the milk that 288 average Texas cows would give in an entire year. Think of the feed, time, labor and money wasted. Are you one of the buyers who did nothing to stop this loss?

Men, women and children who eat butter are demanding that you quit buying rotten cream - they expect you to carry on a grading program -

they expect farmers to take greater precautions. Government Officials intend to see that they get protection - our Association and the Butter Industry expects to help get this job done.

The responsibility for accepting bad cream (in every community) rests with the men who purchase it from the farmer. Poor cream (No. 2) must be improved - it must be purchased on a graded basis - and illegal (No. 3) cream must not be purchased for any consideration.

Many buyers have already been hauled into court and paid fines and costs of from \$34.00 to \$42.50 each for violating the law by purchasing unfit cream - accepting same in unsanitary or illegal containers, or for having dirty cream stations - manipulating cream tests, etc. Court cases are increasing every week.

There are already 14 State Inspectors on the job - they have their records from last year, which show who cooperated and who did not. There will be no way of helping the man who gets caught this year, because Officials consider every man has had all the time necessary to get right on this proposition.

Don't forget - your activities will be watched from many angles - by many people, and there will be those who will inform the Authorities about what you are doing.

Dairy and Health enforcement Officials from surrounding states recently met with Texas Authorities for the purpose of bringing about cooperation where cream is shipped from one state to another. Therefore regardless of where your cream goes it will be inspected.

Creameries that pay you for illegal cream incriminate themselves by becoming traffickers in a food product unfit for human consumption. According to our Texas Health Laws - "If it is paid for it constitutes prima facie evidence it was intended to be manufactured for sale."

Creameries cannot afford to become involved by paying any buyer for illegal cream delivered to their plant. Butter manufacturers cannot use this class of cream - they don't want it to be found in their plants. Therefore if a buyer purchases illegal cream from the farmer, it must be his (the buyer's) loss.

We therefore urge you upon receipt of this letter to get busy on plans for your own local grading campaign - arrange for meetings with others who are interested for the purpose of discussing your problem of eliminating unfit cream, and improving the quality of all the cream marketed in your town.

Responsibility for what takes place in every town belongs to the local buyers - the question is, what do they intend to do about it? You can take your choice - get busy - start grading - cooperate and get results; or do nothing - get caught - pay fines and court costs - and then start grading anyway. Why not avoid trouble and save enormous losses by getting your part of this job out of the way?

Looking ahead - No man can stay in the cream business and ignore his responsibilities as far as quality improvement is concerned.

## Ranch Folks of Half Century Ago Swapped Food, Work and Pleasures

By Miss Luella Chambers

In 1897 the Culverwells came to Coleman County. How rejoiced we were when the house was finished and they moved in. They were just one more good family added to our nice neighborhood so we called a bunch together and went in a body to welcome them at night.

Among those who were there were the Olivers, Boyds, Grandma Thornton, Mrs. Poe, Emma Poe and Paralee Thornton. We had a fine time. Dr. Sealy, a boy then, brought in a big tray of apples. We sang and Evan Boyd and I would play our guitars. We often went over to our neighbors at night, ten or fifteen in a group. After the Thomtons and Poes moved to town the Catons moved in and were members of our circle. In summer we had ice cream or lemonade and cake parties.

If one neighbor had no fruit or vegetables the ones who had would divide. Threshing, cattle roundup, or branding time came and every neighbor was willing to help. At these times every family had extra good dinners and lots of it and of

course lots of extra dishes to wash.

George and Jim Thornton and their mother were good neighbors, often bringing us meat, fruit, melons and vegetables, big cakes and other things. They had traded in our store in Waco. Grandpa and Grandma Fuller brought us many nice things. The Dunns and Hollingsworths were fine people.

The Dunns sold out to Mr. Robert Kirkpatrick. We all knew them and were glad to have them near us. Hollingsworths sold to the Blake family who were nice neighbors, but did not stay many years.
