HEALTH authorities warn that every precaution should be taken to check colds promptly. Colds pull down body resistance, and often pave the way for an attack of flu and its serious complications. Don't take chances. For greatest safety and protection, follow Vicks Plan for better Control of Colds. With certain simple rules of health, the Plan, briefly, is this:

TO PREVENT MANY COLDS: At that first feeling of stuffiness or nasal irritation, sniffle or sneeze-Nature's usual warning that a cold is coming on-use Vicks Nose & Throat Drops, the new aid in preventing colds. This will check many colds at the nose and throat-where most colds start.

TO END A COLD SOONER: If a cold has developed, or strikes without warning, vigorous measures are necessary. Rest as much as possible, preferably in bed. Take a mild laxative, if needed. At bedtime, apply Vicks VapoRub, the modern external treatment, for its direct, double action while you sleep. During the day, use the convenient Vicks Nose Drops for added comfort and relief while you

AUSTIN—In its campaign to disclose to taxpayers the evils of the fee system of compensation for public officers, the senate fee investigating committee has made public a table showing that only 22 out of every 100 persons accused of crime are finally found guilty of the commission of crime. "This table would indicate," the committee said in an accompanying statement, "that the apprehension and conviction of criminals has become only an incidental to 49,829 Dismissals.

49,829 Dismissals. "It shows, too ,that the number members of the committee of outright dismissals without trial W. E. H. Beck, chairman, was 49,829, or about twice the num-
