 Of course honesty is the best policy—when it wins.
 A secret is something you are just dying to tell.
 It is difficult to convince another of the soundness of your position unless you feel your self that it is so.

S. A. H. S.

The Senior class of 1922-23 held a meeting Wednesday afternoon, Sept. 13, 1922 for an election of class officers. The following were elected:
 President—Miss Ruth Stephenson.
 Secretary—Miss Madora Kirkpatrick.
 Treasurer—Hubert Turner.
 Reporters—Shield Brown and Garner Morgan.
 During our meeting our president suggested that an annual be produced for this year. The class members were at once intensely interested. We hope with the co-operation of our business houses to put across an annual worthy of Santa Anna. We realize that this will be no small job but we also feel that we are capable of doing the work.
 We plan to make this our greatest school year and intend to put a report of our activities in the News as often as we can.

SENIOR CLASS

Santa Anna High School.
 C. R.
 Note.—The News force will give the class our co-operation and we heartily endorse your organization. Let us know when you are ready to begin your efforts on the annual and we will assist you in the work.—Editor.

WOODWARD-KINGSBERY

A very beautiful church wedding was solemnized at the Methodist church in this city Tuesday evening, the contracting parties being Mr. Lee Woodward and Miss Merle Kingsbery.
 The church was beautifully decorated for the occasion and a large number of relatives and admiring friends were present.
 Rev. O. F. Sensabough, uncle of the bride, who is Presiding Elder of the Cisco District, of the Methodist church, officiated with a very impressive ceremony.

Mr. Woodward is manager of the Santa Anna Gas company in this city and is a popular and promising young business man. Miss Merle is the attractive and accomplished daughter of Col. H. W. Kingsbery, one of the best citizens in Coleman County.
 The bridal party left shortly after their marriage for a honeymoon trip in south and east Texas.

The News joins in best wishes and congratulations.

SANTA ANNA HIGH STARTS FOOT-BALL PRACTICE

On the first afternoon of practice on last Monday the material for this season's squad showed up well. About 30 men were in suits for a light workout and it is a noticeable fact that there is more beef and brawn in the line-up than has been in Santa Anna High for some time.

With a number of last season's players still in high school, combined with the new material a heavy line and a speedy back-field can be picked.

Those on last year's squad, who have reported for practice are: H. Turner, captain, Greer, Brown, Hensley, Todd, Dick Bartlett, Land, Gassiot, Hill R. Turner and Polk.

Many of the new men all showing up exceptionally well in the first work-outs. Parris, of Arlington High, shows plenty of speed as well as ability to handle a foot-ball. W. Sims and M. Sims, both are showing up well and having both speed and size will make somebody work for places on the team. Davidson, a local product is proving an asset to the High school team. Jones and Haynes, altho both new to foot-ball, show the ability to make good players. Fulton, Duggins and Pearce also new to foot-ball, promises material for a line upon which to build a good High school team. Mobley, Harrod and Morgan, are some other men persistent in the first practice periods.

Games are scheduled with Coleman, Ballinger and Brady, definitely, and it is probable that games will be played with Menard, Ranger, Richland Springs and Brownwood. The completed schedule will be published later.

SANTA ANNA PUBLIC SCHOOLS OPENED MONDAY

The public schools in this city opened Monday morning with a large attendance, considering the rush of the cotton picking season. There were about 400 present the opening day.

A large number of parents were present at the opening, and all seemed to be pleased with the outlook. All the teachers were at their post and the large student body put on every appearance of eagerness and anxiety.

The Parent-Teachers Club is working in harmony with the faculty and through their efforts better progress will be made in the great effort of learning, as well as added convenience on the grounds.

We believe the school board has been very fortunate in securing the services of a strong faculty for this year, and we bespeak for the co-operation of the patrons, and should they meet with such co-operation there is no reason why great progress cannot be made in learning.

SANTA ANNA BOY MAKING GOOD PLAYING BALL

Carl Williams, whose home is south of town in this county, is making good on Bristol League. A paper printed in the city of Bristol Tenn., on the line of Tennessee and Virginia, and maintains a good league. A clipping from a Bristol paper has the following comments about Mr. Williams, which will be read with pleasure by his friends here:

"Carl Williams, popular State Line pitcher, has been sold to the Seattle Washington, team of the Pacific Coast League, Manager J. Pasty O'Rourke announced yesterday. The consideration of the sale has not been announced. Williams is one of the oldest men of the Bristol line-up and one of the most dependable pitchers. Bristol fans will be glad to learn that he has been sent "up" where his chances for acquiring fame by his puzzling delivery are greater than in the App League. But whatever stage that fame may reach, his work will probably never be more appreciated than it has been by the hundreds of fans of Bristol and the entire circuit, who have little less than idolized the lanky twirler.

"Williams' success in the Appalachian League has placed him in the limelight of the pitchers of the loop. In the last 35 innings that Carl has pitched for the State Liners he has only allowed one run to be scored by the opposing team. His hitting in pinches has also helped to save many a game for the Bristol aggregation, and his modest ways and constant endeavor to do everything in his power for the success of the plan has endeared him to the hearts of local fans."

Misses Edrine Tyson, Mildred Gibson, and Inez Marshall will leave this week for Fort Worth, where they will enter the T. C. U. for the ensuing year. Eugene Polk and Marvin Sheffield have already gone. Loris Faulkner expects to enter the A. & M. College at College Station, Texas.

Mrs. Bessie Evans of Slaton, Texas, jumped from the West bound passenger train near Goldthwaite last Friday evening and was carried to a Temple sanitarium for treatment. She was reported to be in a critical condition. No cause was given for the rash act. She removed her shoes and put them in her traveling bag, threw her suitcase and other possessions out at the window and then proceeded to jump, hitting a rocky place on the side of the railroad.

The local company of the Texas National Guard were called to Denison this week, leaving Wednesday evening, for guard duty in connection with the big railroad shopcraft strike. Denison seems to have more disorders than any point in Texas where the railroads have large shops. About twenty of the boys are gone.

Wasps never make noise. They only cause them.

DAVIDSON VISIT TO PIONEER AND STAGE REAL HOUSE CLEANING

Various Places Visited and Much Alleged Booze Seized—several Arrests.

The following from the Sunday issue of the Cisco News described the recent raid made in Pioneer by federal prohibition officers:

"There was consternation in the oil town of Pioneer Saturday evening when a party drove into town, seemingly harmless fishermen, as on their car were attached numerous fishing poles and pedestrains surmised that they were just returning from a fishing expedition, so they stopped at certain thirst joints and called for refreshments, the accommodating dispenser did not fail to supply them at the modest price of 50 cents per glass.

"But the bunch were no harmless fishermen. Heading the list was Dry Agent Gonzales, principal prohibition officer in Texas. Gonzales, it will be recalled, received some advertising a few weeks ago, in connection of the death of a justice of the peace at Beaumont.

"Headed by Gonzales the federal officers first dropped in at Todd's place, where they made some discoveries, but were not ready for the raid which followed later. Next the officers visited several drug stores, at some of the places it is alleged certain beverages prohibited by the Volstead act were found; at others there were no evidence that the merchants kept in stock was of that brand prohibited by the 18th amendment.

"Returning to Todd's place they proceeded to destroy about 30 cases of chock and some corn whiskey, it is stated. A party who remained in Pioneer until dark Saturday stated he saw Gonzales come in from another part of the town carrying a couple of suit cases, but did not examine the contents.

"Information given the News was that the officers closed one drug store, which was reopened later. It was also stated that there were six or seven placed under arrest but Kid Jordan, who is alleged to be the owner of a gambling resort, was not molested. At the time of the raid, about 6:00 o'clock, his place was not open.

"A Cisco man stated that he remained in Pioneer for about two hours after the raid and all was quiet when he left for Cisco Friday evening. In fact, he stated, the raid was conducted in a very quiet manner, as only a few knew anything unusual had happened.

"It was stated that one of Gonzales men has been in Pioneer for several days and when the officers came to make the raid, all was ready for them. The advance man had all matters located and all that was necessary was to round them up.

"Following the raid Cisco was visited by a number of refugees from the oil town, but the police force were soon wise to them and they were informed that their kind could find no harbor here. Hotels were notified that their presence was undesirable. Acting upon the advice of Cisco's vigilant police force, these refugees bought tickets out of town, some going west and others east over the T & P."

PATIENT KILLS HIMSELF WITH BROKEN GLASS

Dallas, Sept. 11.—Herbert N. Goodson, 42, a resident of Comanche, slashed his throat with a piece of broken glass at a private sanitarium here early today. He was dying when attendants at the sanitarium found him. The body will be sent to Comanche for burial.

Goodson has been ill for some time and went to the sanitarium Friday. Sunday he broke out 1 of the windows. Attendants said they thought all pieces of the broken glass had been gathered up. Goodson found, or secreted, one of the glass splinters. It was beside him.

Necessity is the mother of many invention that won't sell.

BONUS BILL IS PASSED

Washington.—The four billion dollar soldier bonus bill was passed by the senate and now goes to conference.

As amended by the senate, the soldiers bonus bill would become effective June 1, 1923, and would provide three optional plans for veterans of the world war other than those whose adjusted service pay would not exceed \$50. These would be paid in cash. The options are:

Adjusted service credit, payable in 20 years or sooner at death and containing loan provisions.

Vocational training aid at the rate of \$1.75 a day up to a total of 140 per cent of the adjusted service credit.

Aid in purchasing a farm or home, the total amount to range from 100 per cent of the adjusted service credit if the money were advanced in 1923 to 140 per cent of the adjusted service credit if the payment was made in 1928 or thereafter. Adjusted service pay, or adjusted service credit, would be figured on the basis of \$1 a day for domestic service and \$1.25 a day for foreign services, less the \$60 paid at discharge.

But in no event could the amount of credit of the veteran who performed no overseas duty exceed \$500 and the amount of the credit of the veteran who performed any overseas service exceed \$625.

PRESS SERVICE OF THE

Texas Public Health Association
 Austin, Texas.—Texas school children are the happy winners of six national pennants in the seventh National Tournament of the Modern Health Crusade. These pennants are awarded twice each year by the National Tuberculosis Association for health work done in schools all over the United States. The Texas Public Health Association, which sponsors the Crusade in this state, states that the health work done in the Texas schools the past year has been exceptionally good and that they are to be congratulated for having won so large a share of the national honors. Among other states winning awards are Colorado, Florida, Illinois, Idaho, Michigan, Montana, New York, Pennsylvania and South Dakota.

The victorious Texas schools are:

- Bellaire School, Bellaire—Miss Vertna Osborne, teacher.
- Bellaire School, Bellaire—Mrs. W. A. Lang, teacher.
- Bellaire School, Bellaire—Mrs. Laura Todd, teacher.
- Garfield School, Grade 1, 2 and 3, Del Valle—Miss Edith Philor, teacher.
- Garfield School, Del Valle—Miss Louise Byrne, teacher.
- Livingston School, grade 7, Livingston—Miss Henrietta Burke, teacher.

A quadruple killing took place in the city of Sealy one evening last week over a dispute in election affairs, said to have been the outgrowth of a dispute arising from the Ku Klux Klan issue. Four prominent people were killed.

HOW TO FIGURE OUT YOUR INCOME TAX

Follow these instructions in figuring out your income tax:

In the first place it must be worked by algebra, astronomy, trigonometry and syntax, hat may be correct or may not. If your income is \$2,400 a year and you have a diamond ring and automobile and are married to a brunette girl 26 years old, take the amount of your income add your personal property, subtract your street number, multiply by your height and divide by your telephone number. If you have a child in your family you subtract \$200 from your income, add the amount of your personal property, multiply by your waist line measure, subtract the size of your collar and the child's age, multiply by the amount you have given to the church during the year, and divide by the number of your automobile tag. If there is a second child, you deduct \$400 from your income, add the weight and age of one child, divide by the date of your birth, multiply by the size of your hat, and subtract the weight of your mother-in-law.

After you get it all figured out they can't collect it, for they will have you in the booby hatch strapped down.—The St. Louis Post Dispatch.

WHAT CO-OPERATION MEANS

The word "co-operation" is almost as common in farm journals and daily papers as was the word "propaganda" during the war. Every farmer ought to know what it means, but not all practice what they preach in connection therewith.

Co-operation means the sinking of selfish, individual interest for the general welfare of the community, or for the association of individuals organized for some specific purpose. If the co-operative movement is to succeed, there must be a broad, generous interpretation of the term. Co-operators must be loyal to each other and to their organization. If their affairs should, by any chance, be mismanaged, each individual should hold himself partially responsible, and if convinced that the plan of operation is correct, loyally support the organization and correct past errors.

Co-operation, however, should be given a broader meaning than just loyalty to some organization. Farmers should co-operate with merchants and bankers, seeking to be helpful in making their community a desirable place in which to live; assisting in making their community prosperous in order that they themselves can prosper. Co-operation means being a good neighbor, a friend of education and an active exponent of the Golden Rule.—Farm and Ranch.

HOLD COTTON AND GET BETTER PRICES, ADVICE TO GROWERS IN TEXAS

Austin, Sept. 10.—In a statement issued by George B. Terrell, State commissioner of agriculture, he reviews the cotton situation and appeals to farmers and business men not to force cotton upon the market. He insists that conditions justify 30 cent cotton at the present time.

He said: "I do not advise, I give facts and sensible men ought to reach sensible conclusions. The cotton crop this year, as estimated by the Government in the report of Sept. 1, indicates a yield of 10,575,000 bales.

"The Texas crop is estimated at 3,644,000 bales, which I believe to be one million bales too high. The reports furnished my office from reliable men in all

parts of the State indicate a crop of 2,462,400, as compared with a crop of 2,179,145 last year."

Let every member of the Parent-Teachers club be present Friday afternoon, at school building at 3:30 for first meeting of the new school year. Also social meeting Friday night for every patron of school—be present.

IF ALL WHO HATE
If all who hate would love us,
And all our loves were true;
The stars that swing above us
Would brighten in the blue.
If cruel words were kisses
And every scowl a smile,
A better world than this is
Would hardly be worth while;
If purses would not tighten
To meet a brother's need,
The load we bear would lighten
Above the grave of greed.

If those who whine would whistle,
And those who languish laugh,
The rose would rout the thistle,
The grain outrun the chaff;
If hearts were only folly,
If grieving were forgot,
And tears of melancholy
Were things that now are not,
Then lovee would kneel to duty,
And all the world would seem,
A bridal bower of beauty,
A dream within a dream.

If men would cease to worry,
And women cease to sigh,
And all be glad to bury
Whatever has to die.
If neighbors spoke to neighbor
As love demands of all,
The rust would eat the saber,
The spear stay on the wall;
Then every day would glisten,
And every eye would shine,
And God would pause and listen,
And life would be divine.
—Washington Star.

THE BIG KEY TO SUCCESS

There is no class of employees that find a more regular and constant demand for their services than Telegraphers. The capable Operators can always command a good salary, and the opportunities for promotion are unlimited, as witnessed by the number of operators who have risen to the position of railroad heads.

The largest of Telegraph and Radio school in America, equipped with over a hundred sets of instruments, a train wire of a main line railroad, all telegraph and freight blanks and books of record, tickets, and in fact everything just as complete as found in the best equipped railroad offices or Western Union, the best practical teachers to be obtained, thoroughly experienced in commercial and railway telegraphy, station and freight work—The Tyler Commercial College of Tyler, Texas, is unable to supply the demands of the railroads, Western Union and Postal Telegraph companies for operators.

Read the following letter from the Superintendent of Telegraphy of one of the largest Railroad systems:

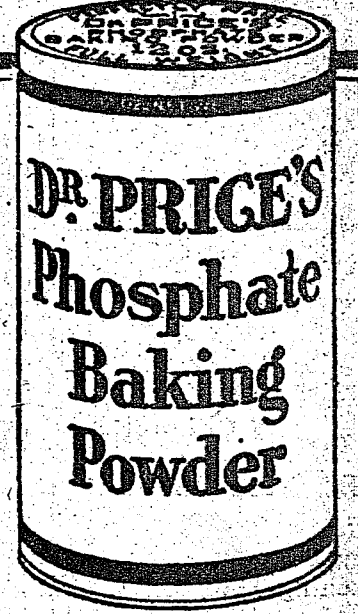

Tyler Commercial College, Gentlemen: If you will send us the high class students you have been sending, we can use all that you can send. Could use a large number at the present time if you have them. In this connection will say what students you have sent us have been very satisfactory and have developed into some of the best telegraphers and agents that we have. Trust that you will be able to send us more of your graduates at once and keep them coming as fast as they are capable. I had the pleasure to visit your great school and made a personal investigation of the methods used by you in preparing student telegraphers, and I find they meet with all the requirements of my road, and I wish further to say you have the largest and most complete and thorough business college that I have ever seen.
R. F. Frenzer, Supt. Telegraph, Union Pac. Ry.

Our telegraph students are on all the leading Southwestern roads and in Western Union and Postal Telegraph offices. With our help you can be a bigger success. Write for free catalogue. We place graduates promptly free of charge. Tyler Commercial College, Tyler, Texas.

The oil refining industry always accumulates a stock of gasoline in the winter and early spring in order to take care of the heavy summer demand. During the first five months of this year, the unsold accumulation amounted to 11.8 per cent of the total production for that period.

A barrel of crude petroleum contains 42 gallons and yields 10.8 gallons of gasoline, 4.1 gallons of kerosene, 20.1 gallons of fuel and gas oils, 1.8 gallons of lubricating oil and 3.5 gallons of wax, coke, asphalt and miscellaneous products. The loss in refining amounts to 1.7 gallons.

GONE TO MEXICO

An unusual experience is related by a Texan traveler. Living in an East Texas town, he was out of work, and his family lacking the necessities of life when he was waited upon at night by a band of masked men and given a severe whipping and told to "find work and support your family." He said he went to Marshall and secured a position in the railroad shops, but the second night after he began work he was visited by a band of floggers "who treated me worse than the first bunch" and he was warned to quit working there at once "under threat of death." He says he is now on his way to Mexico, where he is going to take out naturalization papers as a Mexican citizen.—Exchange.

BACK IN SCHOOL AGAIN

That means much to the children of this community. It means a continuance of the campaign of knowledge that is to turn them out finished and useful citizens of our country.

But our duty to them does not end in returning them to their instructors. The latter will govern and guide them while in the halls of learning, but the teacher cannot follow them after they leave its doors.

Ours is the duty of sheltering and protecting them from the pitfalls of the street and the open, from the snares which to them appear to be but innocent forms of pastime.

The responsibility of the teacher is heavy, but ours is infinitely more so.

HONOR AND INTEGRITY

We have heard the question often discussed as to whether the world is growing better or worse, and many good people are in serious doubt as to which is true. There is one thing that we do know, and that is that there is not as high a sense of honor among the great mass of the people of the south as was once our proud boast. There was a time in this country when a man's word was as good as his bond, and when he was as jealous of his honor as a woman was of her fair name. That was in the day of real southern chivalry when to challenge a man's honor was to invite a duel.

People who contend that the world is growing better often refer to the great movements for the relief of those who are in distress in all parts of the world to show that there is a greater disposition now than ever before to sacrifice for others; but we must remember that the western world where these great movements have been promoted is fabulously rich compared to what it was in former years, and that the suffering is more general and widespread than it was in the days gone by. There is no evidence that we can see that there is more real charity in the hearts of the people that leads them to help the needy than when our foreparents ministered to the wants of those around them who appealed for aid.

That there is less confidence in the honor and integrity of those among whom we associate and do business today than there used to be cannot be denied. A man makes a promise, but many do not seem to regard that promise as binding and it is found that so many do not live up to them, and confidence in humanity in general is thus shaken. Children of today are not being taught to regard their word as sacred and thus the standard of honor is being lowered with each generation.

Some say that present conditions are an argument that Christianity in this country, which boasts of its great progress along moral lines, is a fail-

ure. But this is not true. It is the absence of real Christianity that causes men to disregard their obligations and to compromise their honor by failing to keep their word. The churches are undoubtedly giving more attention today to the enactment of laws to stop the use of liquor as a beverage than they are to the laying of a foundation of upright conduct in daily transactions between man and man.

We have heard business men say that they were glad to extend credit to a man who was a member of a certain church, because they knew he could not be a member in good standing in that church unless he paid his debts; but they did not feel the same way about those who belong to other churches. And these merchants were fully justified in their statements. Men who get drunk are often ostracized in the community when men who habitually beat their debts are looked upon as leading members of society and given a front seat at the Sunday service.

It is time we were giving a little more attention to those principles that lie at the very root of character—to honor and integrity which should adorn the lives of men who make pretensions to respectability. As chastity should be the crowning virtue of the daughters of our land, so should uprightness and fidelity to a sacred trust be the standard of life among the men. A man who does not recognize the obligation he owes to those who have trusted and favored him and who disregards all sense of honor in his dealings, is not entitled to the respect of good people.

Let us teach our children that to live uprightly and honorably upon this earth, to fulfil our every obligation to our fellowman, is the highest service we can render and that any religion that does not have sincerity and integrity as its foundation is a fraud and a delusion and of no value to us in this life or in the life to come. The churches should make this a test of membership and by so doing raise that sacred institution to its rightful place in the estimation of the world.

TO TEACH HONESTY

Courses in honesty, taught in the public schools to counteract the general disregard by both men and boys for the property rights of others, have been proposed by the National Surety Co. So appalling are the number of thefts and embezzlements reported that there is surely need for some more effective teaching of the commandments, "Thou Shalt Not Steal," than the adage that honesty is the best policy, which used to adorn the tops of the old copy books. Honesty must be taught as an "active virtue" says Dr. W. B. Forbush, author of "The Boy Problem," and a specialist in the psychology of youth, who has been chosen head of the movement to teach honesty. Lives of boys who have stolen and are now in jail will be debated on the subject with "mental exercises," stories and examples to enliven the discussions and make honesty more "active."

Chamber of Commerce, boards of trade, social agencies and boy welfare organizations will be asked to pool their energies in organizing social "honesty committees" to help the movement

along. Although it is proposed to begin by interesting the teachers in the schools, Dr. Forbush hopes in time to interest also the homes and churches, also the parents and captains of industry, in giving object lessons in honesty to the boys.—Oil Belt News.

J. J. GREGG, Editor and Publisher
Friday, Sept. 15th, 1922
Entered at the Post Office at Santa Anna, Texas, as Second Class Mail.

France has her millionaires, and England her billionaires. Why should the people of America be taxed for fifty years to pay the expenses incurred by those countries in the world war? The burden of the war on the part of the United States is being borne by the producers of this country, but why should they be crowded further to the wall to relieve the people of Europe. Let the barons of England, France, and Italy be made to disgorge and let our people enjoy some of the fruits of their labor. All of this talk about cancelling the debt of Europe to the United States that William J. Bryan is indulging in is "bunk," as the producers of this country have enough to carry in discharging the obligations that already rest heavily upon them.

C. W. Woodruff, cashier of First National Bank called the editor's attention to a photograph of the city, taken from a point on the mountain about 17 years ago, when there were only about three or four rock and brick buildings in the city and all the block north of main street was a row of shacks. There is a possibility of Santa Anna growing even more in the next 15 years than it has the 15 years just passed, however, there are but few people who are visionary enough to see such possibilities. Another 15 years at the same ratio of the 15 past years and Santa Anna will have out-grown the expectations of her most optimistic citizens. We predict

even a greater growth in the future than we have ever had in the passed.

Several of the defeated candidates who made the race for state offices are now howling about the primary system of nominating candidates and advocating the convention system. Well, when we lost our favorite candidate in a convention we were inclined to want to resort to the primary system, and now when we lose in the primary we are inclined to want to go back to the convention system. When a man gets beat in the convention he howles unfair and when he gets left in the primary he squeals just the same, so it seems that mistry is the secret of success and the man who can make the most noise and get by with it is the lucky guy, but if he makes a noise and gets caught at it then he will say the still sow gets the slop. Politics is politics and the more we learn about them the less we know about them.

In looking over the several exchanges that come to our desk each week, we cannot help but take notice to reports of revival meetings held throughout the country, and compare the difference to the reports of previous years. A lack of interest seems to exist throughout the country in church work. We do not mean to say that interest is lacking on the part of every member of the church, but in a general way interest is lacking. There is a spirit of indifference abroad in the country just at this time, apparent to us, that has never existed before in regard to church work. The cause of this indifference is a subject that people will differ upon in their opinions, but regardless of the difference of opinions the cause is in existence and a peculiar crisis has been reached in church work that is not going to be overcome until the cause is removed. This is a matter that seem to us needs to be given some attention, and the cause or causes, whatever they are, overcome.

Without arguing the right and the wrong of the present railroad men's strike, without attempting to eulogize either side or berate them, any man must arrive at the conclusion that strikes are uncalled for and unnecessary in the dealings between organized labor and organized capital. In the present "dog eat dog," hand-to-hand tussel in which the devil is going to get the public while the factions quarrel and fight, a spirit of fair play on both sides could very possible have prevented a tie-up which now appears on the horizon as the possible greatest catastrophe in the history of American business. Greed and intolerance have been the causes of most of the great wars on the battle-fields; greed and intolerance are the basis of the present industrial upheaval in America's industrial battle-field. If the Golden Rule were laid down as a guiding principle on both sides for twenty-four hours, an amicable settlement could be reached in that time. How long is it going to be before the public is going to make these folks arbitrate their troubles while they continue to serve the folks who foot the bills?—Floyd County Hesperian.

Federal prohibition director Morris of Austin furnished the press of the state with a lengthy article this week, dealing with the progress of Commissioner Haynes as being the head of the prohibition enforcement work of the United States. He makes certain laudables concerning certain parties who have objected to the 18th Amendment being referred to as a joke, wonder what else he thinks it is.

A town will improve only so long as its citizens work together for its advancement. It takes broad-minded, public-spirited people to make a town what it ought to be, and the people must keep the highest interests of the community in view and strive constantly to promote them if that community is to prosper and its citizenship be contented and happy. Selfishness and narrow-minded policies will put any community in the non-progressive class.

AS THE EDITOR SEES IT
Henry Ford recently announced that he would close his great automobile works because the steel trust wants to rob him in the price of the raw material that goes into the construction of his cars. He asserts that he will not be a party to such profiteering.

Also the closing of the Ford industry will bring hardships to millions of people, the stand taken by Mr. Ford is commendable.

As long as the American people meekly submit to being robbed the robbers will pluck them to the bone.

And even the bone may soon disappear along with the pound of flesh.

If two valuable animals were fighting at death grips any person of intelligence would endeavor to separate them and preserve the usefulness of both.

The railroads and the coal mines and their employees are in just that condition of antagonism, with the entire nation facing appalling disaster as a result of the struggle.

Have we no public officials with sense and courage enough to step in and arbitrarily settle the strife in fairness to both sides?

Or is the welfare of the American people of less consequence than that of an animal?

Some people say that politeness costs nothing. But is that entirely true?

It is possible that a chronic grouch may at times assume a certain degree of courtesy, but it is invariably at the cost of a tremendous effort.

His natural inclination is to growl, and grumble, and snarl, and such people invariably follow the bent of their inclinations. To suddenly assume an attitude of politeness is foreign to his nature. It requires an effort, and no effort without its cost.

But the greater the cost the more precious the jewel.

Give the polite grouch the credit that is his due.

We all have our faults, but in our own eyes they are generally considered to be virtues.

When commenting upon the delinquencies of our neighbors it might be well to consider that what we term his faults he may deem to be virtues.

It is difficult at times to understand our own minds, and quite impossible to follow the minds of others.

For this reason it is possible that in judging the other fellow we may lay ourselves open to being judged even more harshly by him, and with some measure of justice.

Popularly speaking, charity begins at home, but from a practical standpoint there is little to be found in many of our modern domiciles.

A man will growl at his wife for some trivial act that is readily excused in another woman, while many a husband is roundly condemned for what is promptly condoned in other men.

It's a queer world, and some of us are even more so.

When you hear a windbag blowing off in public don't believe everything he says. He doesn't believe the half of it himself.

And when making a big noise yourself be careful of what you say, or others may hang a windy label onto you.

Some people believe in the prompt payment of debts, especially when they are coming to them, we are of the some, with a good many coming our way.

It is never amiss to speak of the good qualities of your neighbor. He might return the compliment.

RAILROAD STRIKE ENDED
Shopmen Vote For Peace; More Than 50 Lines Involved

Chicago, Sept. 13.—The Nationwide railroad strike was broken today when the policy committee of the Shopmen's Union voted for peace.

The vote will bring immediate peace on between 40 and 60 of the principal arteries of commerce, according to best information tonight.

B. M. Jewell, leader of the strikers, announced that he would issue a formal statement. This statement is expected to disclose the peace terms and the number of roads that have accepted the agreement.

Strikers Agree to Terms. Chicago, Sept. 13.—B. M. Jew-

ell, head of the striking railway shopmen announced tonight that the union's policy committee of 90 had authorized him to negotiate individual peace agreements with the railroads of the country based on the terms of a general settlement plan adopted by the policy committee. Jewell said:

"We have agreed to the terms of a settlement yielding wherever possible and standing where there was no other avenue open honorably to those we represent."

All men are to return to work in positions of the class originally held on June 20, 1922 at the same point, according to the statement issued by the policy committee.

"The method of procedure adopted by the policy committee at the meeting is that no men on any railroad, even though included in the settlement at this time, are to return to work until they have received the necessary directions from their respective system federation," the

policy committee statement said and added that the negotiations with the roads would be ordered at once.

PRESIDENT IS

HIGHLY PLEASSED
Washington, Sept. 13.—When Secretary of Labor Davis telephoned the White House shortly after 2 o'clock this afternoon and personally informed President Harding that the railroad shopmen's strike had been broken, the President expressed much gratification.

First announcement of the settlement whereby about 40 per cent of the roads of the country accept the Jewell-Willard plan, came to the Department of Labor in a long distance telephone message to Secretary Davis from Oscar F. Nelsö, commissioner of the Bureau of Conciliation, who has been representing the Department at Chicago during the rail strike negotiations. A few minutes later a brief telegram of conformation was received. It read:

"The Jewell-Willard plan just adopted."

52 Roads Will Sign.
At the Department of Labor it was stated this afternoon that 52 roads have signed or will sign the agreement within a week.

"American industry has overcome the last obstacle in the way of the greatest economic revivals the Nation has ever known," Secretary Davis declared this afternoon. He added:

"With the settlement of the strike of 400,000 railroad shop craftsmen assured, the whole industrial machinery of the country is ready for a forward movement unprecedented in our economic history."

Miners Back to Work.
The disturbances in the bituminous and anthracite coal mining industries are in the past, and 600,000 coal miners of the country are back at work. Our representatives in New England have advised me today that in the textile worker's strike there, settlements are rapidly enabling the mills to resume operations.

"These three great industrial disputes have been the only hindrance to the Nation in its rapid recovery from industrial depression which we faced a year ago. With them out of the way progress toward prosperity will be swift and sure."

Today there are fewer strikes in America than there have been in years. The commissioners of conciliation of the Department of Labor are using their good offices in only 34 pending industrial disputes involving some 30,000 men. Of these cases strikes have been withheld in 14 pending our mediatory efforts.

MISCELLANEOUS ADVERTISING HELP WANTED

We urge all customers who owe us either notes or accounts to make settlements as early as possible and thereby help us to re-establish our business. We hold all notes and accounts that have been made with us the past year and we will appreciate it very much if you will call at our store to make settlement as soon as you can possibly do so and save us the extra expense of having to go to see you.

TEXAS UNIVERSITY NEWS

Austin, Texas, Sept. 5.—The fall term of the University of Texas will open September 21. Examinations for admission will begin Monday, September 18 and will continue through Thursday. Registration will continue from September 21 through Saturday, September 23. Candidates for degrees in 1923 may register on any of the three days; other former students only on Friday and the afternoon of Saturday; first-year students only on Thursday and the morning of Saturday. A fine of \$3 will be charged for late registrants. Postponed examinations, examinations for advanced standing, and examinations to remove course conditions will be held on Thursday, September 21. Applications for examinations must be made before September 14.

Austin, Texas, Sept. 5.—Football training at the University of Texas will start Monday, Sept. 11. It is expected that approximately one hundred men will report for practice. In anticipation of the record-breaking crowd that is expected to witness the Thanksgiving game with A. & M. the seating capacity of the Varsity playing stadium has been increased to 25,000.

Austin, Texas, Sept. 5.—Dr. Joseph J. Weber, formerly associate professor of education in the University of Kansas, has been elected head of the visual training division of the University of Texas Extension Bureau, succeeding W. R. Duffey, who resigned during the summer. Dr. Weber has made a special study of visual aids in education, and is particularly interested in the correlation of visual material with class room instruction.

Austin, Texas, Sept. 5.—Eligibility rules of the University of Texas Interscholastic League for the forthcoming year contain two important changes which apply exclusively to high school athletics. These are the transfer rule and the half-year rule, which went into effect September 1. Under the transfer rule a student is eligible to represent only the school district in which his parents or guardian reside; provided (1) a student is not barred under this rule who transfers to the higher class school located nearest his home; (2) one year regular attendance renders a student eligible to represent the school so attended in contests of the League.

*It was to destroy the rapidly increasing custom of inducing prominent athletes to transfer to a certain school that the new

transfer rule was put into effect. Bidding for athletes reached such proportions during the last year that nearly all of the Interscholastic League period at the State Teachers Association meeting held in Dallas in November was devoted to a discussion of this evil, and the present rule is the result. It is asserted that though the new rule may apply unfortunately in some isolated cases, no rule could be formulated with strength sufficient to reach the guilty without injuring a few innocent transfers.

Under the half-year rule no one shall take part in any athletic contest in the Interscholastic League who did not attend school at least one-half of the last year he was in school. This rule was made necessary, it is explained, because of the practice of keeping a certain undesirable class of young men in high school for only a few months in the fall for the primary object of playing football. As soon as the football season is over, or if the team has lost a few games, these boys drop out of school and remain out until the next football season. The Interscholastic League authorities take the position that high school football should be for bona fide high school students who attend long enough to feel a real sense of loyalty and love for the school and who participate in football for the honor of the school and not for personal publicity, reputation or other selfish reasons.

REPUBLICANS AND DISGRUNTLED DEMOCRATS TO PUT OUT TICKET

Not being able to get a majority report adopted in the State Democratic Convention last week at San Antonio, condemning and denouncing the Ku Klux Klan, Judge Barry Miller and Ex-Mayor Lindsey of Dallas announced their intention of joining with Republicans and putting out an Anti Ku Klux Klan ticket, which seems to meet with the approval of the Republican leader in the state.

Some of these same men now deserting the Democratic party are the ones who raised so much hell in the spring, trying to keep people from voting in the Democratic primaries this summer who deserted the party 2 years ago and voted the American party ticket.

There is only one Democratic party in Texas, and after the Populace or Third party died, those who voted with the party were privileged to join any party they desired and the Democratic party in most places were anxious to get them, and now the American party has died and those who voted the American party ticket of course will join the Democratic party, it being the white man's party in the south.

Judge Miller, Mr. Lindsey and the others who have fought a losing game in everything they have undertaken this year are now framing up for another losing in November. They have called the meeting to nominate a candidate to oppose Hon. Earl B. Mayfield for United States senator, said meeting to take place in Dallas on Saturday of this week. The biggest fight seems to be made against the Ku Klux Klan.

DIRECTORS OF INTER-SCHOLASTIC LEAGUE FOR COLEMAN COUNTY

At the Institute held in Brownwood last week, the Inter-Scholastic League for Coleman County was organized. An effort is being made to have every school in the county join the League this year. The basket-ball schedule has been made out and each school will receive a copy of this. Teachers should see that the fees for their school are paid as soon as possible. The directors elected for the county this year are as follows:

- R. D. Holt, Santa Anna, Director General.
- C. A. Freeman, Talpa, Director of Athletics.
- Mr. Kellett, Valera, Director of Debate.
- Miss Lurlee Casey, Watts Creek, Director of Spelling.
- Miss Myrtle Gaines, Director of Essay writing.
- Miss Powell, Rockwood, Director of Declamation.
- Miss Mayfield, Coleman, Director of Music Memory Contest.

CITATION
THE STATE OF TEXAS
 To the Sheriff or any Constable of Coleman County, Greeting:
 You are hereby commanded, that by making publication of this Citation in some newspaper published in Coleman County, Texas, you summon John Johnson, whose residence is unknown to be and appear before the Hon. District Court, in and for the 35th Judicial District at the next regular term thereof, to be holden in the County of Coleman at the Court House thereof in Coleman, Texas, on the 3rd day of October, 1922.

The number of said cause being 2706, then and there to answer the petition of Leslie Johnson filed in said court on the 24th day of August, A. D. 1922, against the said John Johnson and alleging in substance as follows:

That Plaintiff and Defendant were lawfully married January 1, 1918, and lived together as husband and wife until March 1, 1920. That Plaintiff is a bona fide inhabitant of the State of Texas and has been for more than twelve months and has resided in Coleman County, for more than six months. That during the time that Plaintiff and Defendant lived together as husband and wife the Defendant was guilty of excesses, cruel treatment and outrages toward Plaintiff of an intolerable nature, and for general relief, Heroin, Fall Not, but have you then and there before said Court this writ with your return thereon, showing how you have executed the same.

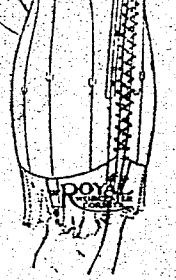

Given under my hand and the Seal of said Court, in Coleman, Texas, this 34th day of August, A. D. 1922.

Attest: W. E. Gideon Clerk District Court, Coleman County, Texas.
 B. H. Pittman Deputy. 35-4tc.

IT IS POSSIBLE

Fat people are dissatisfied with their lot, and skinny ones are equally so, while the betwixts and betweens long to be something else. Some day the Creator may be able to please people in the way He makes them—and perhaps not.

OIL NOTES

The quality of gasoline available in refinery storage on June 1, was 82 gallons for each of the 10,448,632 automobiles registered on January 1, as against an average of 87 gallons for each automobile registered on January 1 of the four previous years.

On January 1, the oil refineries east of the Rocky Mountains could handle 1,789,440 barrels of crude oil per day. Of these, the refineries in the Mid-Continent field, in Oklahoma, Kansas, Texas and Louisiana, had a total daily capacity of 956,060 barrels, or 53.4 per cent of the total.

TWO WAYS OF KILLING YOUR CAR

The first is by using a sledge hammer.

The second is by simple NEGLECT!

Either one is highly effective, and both should be scrupulously avoided.

You might just as well use a sledge hammer on your car as to continue running it when it is not in condition.

Please bear in mind that we do all kinds of automobile repair work, promptly, efficiently and economically.

When two fools begin an argument the wise man keeps still.

When a man has dyspepsia he feels it and his family knows it.

Every man has a right to his opinions, but they should coincide with our own.

The fellow who gets what he wants is seldom satisfied. It isn't just as he wants it.

If we could have the roses without the thorns we probably wouldn't want them.

People who laboriously climb to the top don't find so much trouble in sliding down again.

Never threaten to leave the old town. Your friends might be quick to speed you on your way.

It's fortunate we can't have everything we want. There'd be no joy left in anticipation.

Fortunately men are not required to dress according to their means. There's a law against public nakedness.

A pretty girl can not put sense into the head of a fool, but she can make a wise man act mighty silly.

Wives should be kind to their husbands. They are worth having as long as their money holds out.

Appointing women as judges and clerks of election is a mistake. It entitles them to demand the ages of their dearest enemies.

Be discriminating in the joys of youth, lest they lead to the follies of old age.

Keep your troubles to yourself. You may soon become tired of them and cast them aside.

People who have money to burn seldom carry matches.

Be careful to whom you give advice. They might take it.

There's nothing in a name—when attached to a worthless check.

BACK IN SCHOOL AGAIN

That means much to the children of this community. It means a continuance of the campaign of knowledge that is to turn them out finished and useful citizens of our country.

But our duty to them does not end in returning them to their instructors. The latter will govern and guide them while in the halls of learning, but the teacher cannot follow them after they leave its doors.

Ours is the duty of sheltering and protecting them from the pitfalls of the street and the open, from the snares which to them appear to be but innocent forms of pastime.

The responsibility of the teacher is heavy, but ours is infinitely more so.

A Pessimist is a man who wears both belt and suspenders and has faith in neither of them.

An Optimist is a man who has both a Checking and Savings Account and believes in both of them.

HOLD COTTON AND GET BETTER PRICES, ADVICE TO GROWERS IN TEXAS

Austin, Sept. 10.—In a statement issued by George B. Terrell, State commissioner of agriculture, he reviews the cotton situation and appeals to farmers and business men not to force cotton upon the market. He insists that conditions justify 30 cent cotton at the present time.

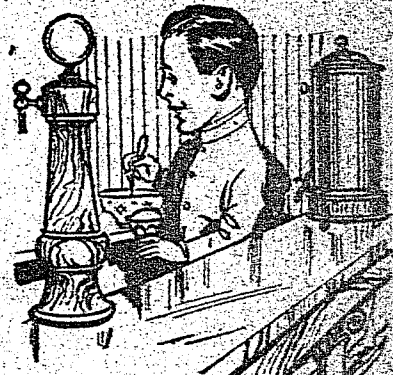

He said: "I do not advise, I give facts and sensible men ought to reach sensible conclusions. The cotton crop this year, as estimated by the Government in the report of Sept. 1, indicates a yield of 10,575,000 bales.

"The Texas crop is estimated at 3,644,000 bales, which I believe to be one million bales too high. The reports furnished my office from reliable men in all parts of the State indicate a crop of 2,462,400, as compared with a crop of 2,179,145 last year."

Ross Kelley had business in Brownwood several days this week.
