The times are out of joint, of course, but there are lots of people in this country who are working hard and getting along very well. They are the ones who are not wasting their time in complaining about conditions. Every head is filled with something—a few of them with brains.

Now the tide is not off in Mexico. There are no floods.

LESSON FOR JULY 16

THE HANDWRITING ON THE WALL

LESSON TEXT—Dan. 5:1-31.
GOLDEN TEXT—God will bring every work into judgment, with every secret thing, whether it be good, or whether it be evil.—Eccl. 12:14.
REFERENCE MATERIAL—Gen. 19:1-28; Exod. 14:21-31; Ezek. 31:1-14; Acts 12:20-28.
PRIMARY TOPIC—Daniel Tells the King of His Wrong-Doing.
JUNIOR TOPIC—Belshazzar's Feast and Fate.
INTERMEDIATE AND SENIOR TOPIC—Judgment Against King Alcohol.
YOUNG PEOPLE AND ADULT TOPIC—How to Enforce the Judgment Against Strong Drink.

I. Belshazzar's Impious Feast (vv. 1-4).

1. Who attended (vv. 1, 2). Belshazzar, his wife and concubines and a thousand of his lords.
2. Behavior thereof (vv. 3, 4). (1) They drank wine; they engaged in revelry. (2) They committed sacrilege. In their drunken revelry they drank wine out of the sacred vessels which had been taken out of the temple of the house of God, which was at Jerusalem. When men are under the influence of intoxicating liquors they lose all regard for sacred things. (3) They worshiped idols. They prayed to gods of gold and of silver, of brass, of iron, wood and stone.
(II. The Handwriting on the Wall (vv. 5-16).
1. The time of (v. 5). It occurred in the same hour in which they were engaged in their drunken revelry.
2. The effect upon the king (v. 6). He was greatly disturbed; he was seized with consternation. "The joints of his loins were loosed, and his knees smote one against another."
3. The king's behavior (vv. 7-10). (1) He called forth astrologers and soothsayers, offering rewards of gold and position (v. 7-9). Their utter inability to interpret the writing left the king even more perplexed.
(2) Daniel brought to the suggestion of the queen (v. 10-16). The queen here was perhaps the wife of Nebuchadnezzar who remembered Daniel's service in interpreting his dream. For that reason he was sent for and promised great reward.

III. Daniel Interprets the Writing (vv. 17-28).

1. Daniel's address to the king (vv. 17-24). He brushes aside his promised gifts (v. 17). He would not have his speech limited by the king's gifts.
2. The interpretation of the writing (vv. 25-28). (1) "Mene" means "numbered" (v. 25). "God hath numbered thy kingdom and finished it." (2) "Tekel" means "weighed" (v. 27). "Thou art weighed in the balances, and art found wanting." (3) "Peres" means "divided" (v. 28). "Thy kingdom is divided, and given to the Medes and Persians."
IV. The Judgment Executed (vv. 29-31).
In that night was Belshazzar slain and Darius the Mede took the kingdom.
The Chaldean dynasty ended with Belshazzar. So we may interpret this whole scene as pointing to the conditions at the close of the times of the Gentiles and as adumbrating the prevailing conditions. Let us note:
1. The stupidity of men. They, like people today, would not learn by example. Nebuchadnezzar's fate should have deterred Belshazzar from such frivolity.
2. The magnificent splendor. This great feast was characterized by pomp, display, parade. How characteristic of this age!
3. Luxury. The famous hanging gardens of Babylon were a noteworthy example. Signs of luxury today are on every hand.
4. Licentiousness. The king with his wives and concubines. This is notoriously prevalent today.
5. Blasphemous sacrifice. And may not the sacrifice of today be in excess of theirs, expensing itself in (1) a profession of religion for pecuniary gain, social and political preferment; (2) use of the pulpit and of the ministry for display and notoriety, even for the propagation of false doctrine; (3) uniting with the church, attending the communion, so as to cover up secret sins; (4) the use of the Word of God to give point to a joke; (5) denying that the Bible is God's Word, making it a book of errors, myths and legends; (6) sneering at the Virgin birth, repudiating Christ's deity and setting aside His vicarious atonement.
6. Drunken carousals. The handwriting is on the wall. God will not endure this forever; His judgment shall fall. Conditions in the world indicate that the time is drawing near. Are you ready?

FOUR THOUSAND PAPERS GO OUT OF BUSINESS

Records recently compiled show that more than 4,000 newspapers of various sizes have suspended publication in the United States during the past four years. A printing journal ascribes to the rapidly mounting cost of publication, estimating that the cost of publishing a newspaper is now 300 per cent on an average above what it was fifteen years ago, most of the increase coming since the outbreak of the war. Time was when a man of no experience worth mentioning and a handful of type and a G. Wash. press considered himself a newspaper man and with a mission to reform the universe. In the general change of conditions the printing business has reached the level of a real business and that one requires brains as well as money to make it go. In the end it will be a survival of the fittest-Exchange.

I OWE IT ALL TO JESUS

I owe my life, my all, to Jesus
The dearest friend I have.
I want to live for Him
For He died for me.
Jesus blessed Savior
Lead me where Thou wilt,
Guide, protect and use me
While I am here on earth.
Thou knowest I love Thee
Love Thee more than tongue can tell.
Jesus, Thou art my Savior
The only Savior I have.
Lead me blessed Savior
Where Thou would have me go
Help me to do Thy will
And thy love to others show,
Thou knowest Savior I love Thee
More than I can ever tell
Thou who hast ransomed me
Help me to live for Thee.

MEXICO CITY GIRL WINS SCHOLARSHIP

Austin Texas, July 12
Miss Kathleen Clifton of Mexico City has been awarded the Texas Women's Press Association scholarship in the University of Texas for the year 1922-23. Miss Clifton is a student of journalism, and has had published numerous feature stories of exceptional value. She has earned her expenses while attending the University and has maintained a high academic standing.

BOND ELECTION CARRIES BY GOOD MAJORITY

In the election held here Tuesday, to determine whether or not the City Commission of Santa Anna should be authorized to issue bonds in the sum of \$25,000 for the purpose of building a new dam at the site purchased by the city three and one-half miles north of town several years ago, the proposition carried by a safe majority, the vote being 117 for and 72 against.

In our opinion this is one of the most important moves that has been made in years for the betterment of Santa Anna, as this will insure the town an adequate water supply for all purposes for many years to come. The present water supply is not only limited but is not sanitary, in that the drainage area is mostly cultivated land and the lake is fast filling up with mud and filth, which deteriorates and in a course of time will cause the water to become very impure. The new lake when completed, due to the natural lay of the ground, will furnish a more adequate supply and a much more sanitary quality of water.

There were a goodly number of votes cast against the bonds, but we believe it was largely due to fact that no campaign was made in behalf of the bonds and several of those voting were not fully aware of the seriousness of the water situation that is staring us in the face. The election went off very quietly and no harsh arguments have been reported from either side. The news is much gratified over the outcome of the election.

MOON-LIGHT PICNIC

Monday night the Senior Endeavor and a few friends, chaperoned by Bro. and Mrs. Williams and Dr. Tyson, enjoyed a nice ride on a truck to the City lake. After their arrival an argument followed as to who should eat the most pie. Then in a short while the beautiful moon began to shine, and all decided it was time to spread a real picnic lunch. This of course was greatly enjoyed; until some one hinted the boys had some cold water-melons hid in the truck, and of course you can guess what took place. So if you have not been attending the Senior Endeavor you are missing something.

CARD OF THANKS

We wish to extend our thanks and gratitude to our neighbors and friends for their kindness and many expressions of sympathy during our bereavement in the death of our father, F. B. Singletary. We also appreciate the attention received from the members of the I. O. O. F. lodge. Signed: His Children.

LET'S CLEAN UP

I want to make a plea to our Santa Anna citizens that we have a general clean up. We have the greatest crop of weeds in our town that I know of. Mosquitoes are as bad here as on the coast of our state, and that means sickness. Let every body who has a cistern put coal oil in it, and let us have a general weed cutting day, or we will pay for it by the death of some of our loved ones this fall. If I was one in authority, I would call for a day and I hope our Mayor or City Health officer will, that there may be a united effort to make Santa Anna clean.—A citizen.

MORTUARY

F. P. Singletary, 67, died at his home in the Buffalo community, Saturday night at 11 o'clock very suddenly from leakage of the heart. He leaves 9 children, five sons and four daughters, only two of whom are married; all attended the funeral Monday except two sons who live in the state of Oregon. The remains were placed in their last resting place in the Salem cemetery, Monday afternoon under the auspices of the Odd Fellow lodge, of which he was a member. Rev. the University and has maintained a high academic standing.

YOUNG MAN! YOUNG WOMAN! HERE IS THE PROOF

A few extracts from letters of prominent business men who have had proof as to the ability of our students:

"We have employed many of your graduates from time to time and have always found that they make excellent employees. We assure you that it gives us pleasure to so highly recommend them as well as your efficient school."

"Mr. Morris has proven to be absolutely reliable, conscientious and efficient. We gladly recommend him."

All the graduates you have sent us have been entirely satisfactory."

"The young lady has now been with us seven months and we find her to be very loyal and efficient in her work. She makes the best employee we ever had."

"If all of your graduates are as proficient as the three young men we have in our office, you are certainly doing a great work for not only the young people, but the business men as well."

"We have several of your students and all of them understand their business. Your courses are thorough or they could not take hold as they have done for us."

"If the several graduates of your school that have been in our office are fair samples, I cannot recommend your institution too highly."

Following are the names of some of the many prominent people who have visited our school and their comment. Many of these men have given free lectures to the student body:

Chas. B. Goddard, Community Service, Jacksonville, Florida. "The finest institution of its sort that I have ever seen."

Mr. and Mrs. A. J. Warman, Salesman of Cincinnati, Ohio. "Wonderfully Efficient."

Ernest E. St. John, Community Service, Jacksonville, Florida. "The finest institution of its kind anywhere. Absolutely thorough."

Virginia Koogle, one of Redpath-Horner Chautauqua, Kansas City, Mo. "The largest I have ever visited. A great institution."

H. H. Schivorz, Oil Operator, Fort Worth, Texas. "I have gone through quite a few of the larger schools—having graduated from Eastman, and find your school complete in every respect."

Dr. Bizzell, President Texas A. & M. College. "A great institution."

Dr. Hardy, President of Baylor College, Belton, Texas. "The most magnificent mixed student body I have ever seen."

Write for free catalogue containing hundreds of endorsements of business men who are now paying our graduates good salaries. With our modern systems we can give you a better course of Bookkeeping, Short-hand, Telegraphy, Cotton Classing, Business Administration and Finance or Wireless Telegraphy and Radio in half the time and at half the expense of any other school using other systems. ENDORSEMENT OF LON A. SMITH FOR COMPTROLLER

To the Voters of Coleman County:

Knowing that the office of State Comptroller is a very important one, and also realizing that the great majority of the voters never have any direct business dealings with that office and are, therefore, indifferent as to who fills the position, we desire to recommend to the voters of Coleman county the Hon. Lon A. Smith for re-election. He has served one term and is asking for the second.

As head of the Tax Assessor's and Tax Collectors department, we have always found him courteous, competent and efficient. Without attempting to say for whom you shall vote, we solicit for Mr. Smith your consideration, and believe that the people of Texas will make no mistake in re-electing him to this responsible office.

Very respectfully,
E. K. Thomson, Tax Collector.
Geo. M. Smith, Tax Assessor.

CLAIMS MADE BY BLANTON ATTACKED

De LEON, July 7.—Oscar Callaway of Comanche, Texas, candidate for Congress in the Seventh District, made the charge today in a speech here that the claim being made by Thomas L. Blanton, who is a candidate for re-election, that he had saved untold millions of the people's money by striking out items in appropriation bills on points of order was without foundation. After reviewing his own stand on national issues, Callaway said the following concerning Blanton:

"Most of you know if you will use a little common sense, that all legislation in Congress must be by a majority vote. The facts are these:

"An appropriation bill may properly contain only items which are authorized by an already existing law and whenever items which are not so authorized are included in an appropriation bill they are 'new business' and subject to a point of order by any member. If such an item is stricken out and there is behind it any real desire or intention to enact it into law, then there are two courses open. One is to take it over to the Senate and try to get it inserted in the Senate bill. If this succeeds and the bill with the item in it gets by the conference and back to the House, the item is then no longer subject to a point of order and is passed as a part of the bill if the majority of the House members are in favor of it, or defeated if a majority of the members are opposed to it. If this course should fail, then it may be introduced as a separate bill and take its regular course, being passed or defeated according to whether a majority of the members of the House favor or oppose it.

"Mr. Blanton's claim that he sits up at night sifting these appropriation bills, many of them hundreds of pages long for items unauthorized by law while his constituents sleep, is laughably absurd to any man who knows anything at all about congressional procedure. These bills are printed in plain face type, but all the new legislation is printed in italics so as to call the attention of every member of the House to each and every item in the bill which is not authorized by law. The committee attends to this sifting itself and saves Mr. Blanton the trouble. He needn't even read the items unless he chooses, in order to pick out the one which is subject to a point of order; so he ought not to lose much sleep over it.

"In most instances these items are inserted in the bills by members of the committee as a mere courtesy to the member introducing them with no expectation on the part of any member of the committee or the party introducing the item, that they will ever become law. Each and everyone interested in the matter of knowing if it ordinarily realize that the thing will be stricken from the floor of the House.

"Nor is the mere fact that Mr. Blanton is the first man to make a point of order on such item any indication that there are not 434 other members ready to do the same thing. A majority of the House must really oppose the appropriation before it is actually killed, for the reason stated that the objection can be got round in either of the two ways pointed out. I repeat that no man ever saved the country a dollar on a point of order. On items seriously presented striking them out could only force them into the proper channel."

Hon. James L. Slayden, for so many years the representative in congress from this section, had this to say of Oscar Callaway in a recent letter to W. D. Cowan, of the San Saba Star:

"I am proud to call him my friend and if I were a citizen of your congressional district I would be very proud to call him my representative.

"An honest man, I never knew. I don't mean honest in the money sense of the word only. He believes what he says, which means that he is no cheap demagogue. I never knew him to take a position on any public question of the righteousness of which he was not convinced. I never knew a more truthful man in all my public service nor a wiser one. I never knew him to consider taking a position against his judgment or conscience because at the moment it seemed to offer a larger return in votes." (Political Adv.)

**New Suits--
New Hats--
New Shoes**

We have the past week received a new lot of Men's Suits. The styles and fabrics of these suits are not excelled by any. A part of these are "CURLEE" brand which have an unqualified guarantee of satisfaction, or your money refunded. The prices are far below lots of other makes which carry no guarantee.

Most every one knows the value of a "WORTH" Hat. These hats are bought direct from the Manufacturer, thereby eliminating the jobbers profit. You can buy even jobbers hats at a cheaper price than you can a "WORTH" hat, but if you want real value for the money you spend there are none better.

"BROWN SHOES" are made, not to see how cheap they can be sold, but to give you real wear for every dollar you pay. Their Shoes are not all the best for they are sold at different prices, but when you buy a pair of BROWN SHOES, we stand absolutely behind them, they must give you service for the price you pay.

WE WANT YOUR TRADE.

Entered at the Post Office at Santa Anna, Texas, as Second Class Mail.

Only one more week after this and the tale will be told as to who will contest in the second primary for the various state and county offices. So far the biggest interest that has been shown in the county part of it has been among the candidates themselves. In our opinion, not more than thirty per cent of the people of Coleman county have attended a political meeting of any kind this summer, especially the boys generally referred to as "The boys in the forks of the creek." In our further opinion, the boys that have not been heard from are going to roll up some of the gold-firdest surprises on the night of July 22nd that has ever been heard of in modern politics. District and state candidates have been making all the noise they could, but they have not created much sensation. Many newspapers have gone the limit trying to create a sensation for their preferred candidates but they have not created much. This is one time the silent voter is going to swing the election and here's hoping, for when the voters of this country wake up to their own needs and quit listening to the fads and fancies of slick-tongued politicians who come out every two years and make a whirlwind campaign and then go into oblivion so far as their constituency is concerned, we think we stand a chance to get better and more sane men into office. At any rate the editor of this paper is going to vote with the boys from the forks of the creek.

Some three weeks back we called our readers attention to our announcement column, and asked them to select their choice of the candidate among those who had respected the newspaper in this part of the county, and we have received several comments on the article, quite a few have informed us that they expected to comply with our request, as they considered it was the duty of the county candidates to make their announcements through the columns of the county papers as has always

been the custom and no man that did not respect the local press in this part of the county would not receive any consideration at their hands. This is as it should be, and it gives us courage to hear them talk that way. As for the writer, we know that no one connected with the printing office would consider for a moment voting for a candidate that did not honor us with his announcement, in fact, the editor would bolt the ticket in the general election before we would vote for a candidate that tried to get the nomination without making his announcement in the county papers. Again we call the attention of our readers to our announcement column, and let us urge that you respect those who have respected us and publicly solicited your vote through the columns of the local press. The local newspaper is your friend, and we think that it is a valuable asset to your community, and without bias or prejudice, we cannot appreciate a man who does not respect it. Many private citizens do not patronize the local paper, but they should remain private for they are not public spirited enough to be other than a private citizen, and let's leave them in private.

TO THE VOTERS OF COLEMAN COUNTY TEXAS:

We take pleasure in recommending our fellow citizen, Mr. Dick Pauley, to the citizens of Coleman County for the office of Sheriff.

Mr. Pauley was born in Coleman County, Texas in the year of 1882.

He has been in the stock-raising business in this locality for a number of years.

He served very efficiently as deputy under Sheriff Bannister for four years.

We, the undersigned, believe him to be a man who will execute the duties of a county sheriff without prejudice or partiality.

JOSEPH B. DIBRELL JR.

FOR CONGRESS

Dear Sir:

I am writing you this letter because I know that you appreciate the great benefits of the Federal Land Bank and I want to tell you about a proposition to secure an Agricultural Credit System to loan money on crops and livestock at reasonable rates of interest on one to three years time.

If the farmers and stock raisers do not intelligently look after

their own interest no one else will.

The best way for you to serve your own interest is to vote for the man who has the ability and the will to do something for you. You are perhaps not aware that you have a candidate for Congress from this district whose principal purpose in seeking the position is to have the opportunity to devote his efforts to the establishment of an agricultural credit system by the Federal Government so that farmers and ranchmen will be able to borrow money for crop making and stock raising at reasonable rates of interest on one to three years time.

You, as a borrower from the Federal Land Bank, know of the great benefits that have already come from the establishment of the Federal Land Bank system and it is unnecessary for me to enumerate them. But the land banks alone do not solve the great problem of farm finance and credit. The Federal Reserve Banking system is essentially a commercial banking system, that is the basis of the system is short time loans, thirty, sixty, ninety and one hundred and eighty days. This adequately serves the needs of the commercial and industrial interests of the nation but does not serve the needs of agriculture.

The primary cause of the sudden drop in prices of all products of farm and ranch in the Fall of 1920, bringing ruin to many farmers and ranchmen, was the fact that all agricultural and cattle loans were short time loans and were due or nearly due. When payment was demanded everybody sold or tried to sell at the same time. The market was glutted and the prices fell like a plummet. But if the crop loans had been on twelve months time and the cattle loans had been on three years time the agricultural and cattle paper would not have been due, payment could not have been demanded and the farmers and stockmen could have gradually marketed their products at a fair price and deflation could have been accomplished gradually and billions of dollars would have been saved to the farmers and stockmen of the country.

The fact that Mr. Joseph B. Dibrell, Jr., of Coleman, Texas, is the only candidate for Congress in this district to point out the need of an adequate agricultural credit system for the farmer and ranchman is at once an indication of his superior ability as a statesman and a powerful reason why you and your neighbors should rally to his support because he stands for your interest. I do not hesitate to say that a vote for him is a vote for the farmer and stockman.

We can all heartily agree with Mr. Dibrell when he says "that agriculture is the basic industry of the country upon which all national prosperity and greatness rests and that Federal legislation should lend every economically and politically sound encouragement and protection to American agriculture that farm ownership and prosperity and contentment may increase among the agricultural producers of our country and form an invincible and indestructible bulwark against socialism, communism, anarchy and national decay."

The destruction of the Federal Reserve Bank system as proposed by Mr. Calloway and return of supreme financial power to J. P. Morgan & Company, where it resided before, will not help the farmer because the short time loans will continue and that is what has caused the farmers trouble.

Putting new teeth in the prohibition law as urged by Mr. Cunningham does not solve the farmers problems of long time crops and cattle and short time loans.

Fighting graft and labor unions, which seems to be Blanton's hobby, does not solve your problems. There has been graft every since governments were begun and doubtless there will be graft for thousands of years to come.

But there has never been in the United States an agricultural credit system where the farmer and the stock raiser could get loans at reasonable rates of interest on one to three years time; and there never will be such a credit system unless the farmers quit voting for people who merely appeal to their passions and prejudices and unless they get to voting for men who

have the brains and the purpose to do something to remedy the conditions that have made the farmer and stockman the easy prey and the helpless victims of those who live and prosper by exploitation of their fellowman.

Yours truly,
R. V. Wood, Secretary-Treasurer
Coleman National Farm Loan Association.

Mr. J. J. Gregg,

Dear Editor and Friend:

We are so anxious to always hear from home, I am writing you to not fail to send the Santa Anna News to Ed Sanderson, 316 North Emporia, Wichita, Kan. We receive all other papers from near home and all are read with joy, especially by Mrs. Sanderson.

There has sure been lots of rain fall since we reached this place, 16th of June, so much that there has been a very little grain threshed anywhere near here, and grain was damaged considerably by too much water fall and from hail streaks.

The grain that has been threshed is not turning out as well as should, being only a lit-

tle light in test, probably 56 to 60 lbs, and 18 to 25 bushels per acre.

I have not threshed any to this date but will begin at an early date.

Since I came up here I have been employed by the Illinois Threshing company of this place, loading and unloading and assembling machines, which is oily to say I have not been idle. The other boys who came with me have been employed most of the time at different jobs.

Myself and family have been hearty and well, gaining in weight.

Hoping everything is in good condition at Santa Anna.

Send the News or write.

Your friend,
 Ed Sanderson.
