Santa Anna, Coleman County, Texas, Friday, July 15, 1921

Number 28

COUNTY ROAD BUILDING SHOWS PROGRESS

(Democrat-Voice)

The Coleman-Gouldbusk road is graveled for a distance of nearly four miles out, and the concrete structures are open to traffic. The grade work is completed to the precinct line, nearly seven miles, and workmen are pouring concrete for the 111 feet low water bridge over Home creek. A similar bridge is yet to be built over Wildcat creek.

Highway 23 Ready for Bids

Plans for highway 23, Coleman to Callahan county line via Burkett, distance 22 3/4-100 miles, will be submitted to the state department next week, and the court will likely advertise for bids during July. Engineer Dickerson is now investigating gravel pits for this road.

Valera-Leaday Highway

The Valera-Leaday road, via Voss, distance 18 miles, will likely receive attention of the court at next term in July, when bids will be advertised for.

Highway No. 7, from the northwest line of precinct No. 1 through Coleman and Santa Anna to the Brown county line, will receive attention of the commissioners' court during August. Plans are being drawn for this road by the county engineer.

Building in Precinct No. 2

The court, at its July term, will advertise for bids on the Santa Anna and Rockwood road, distance 6 miles south from Santa Anna.

All the drainage structures and grade work on the Santa Anna to Whon road, distance 18 2/3 miles, are completed and gravel is laid for a distance of over 9 miles.

On the Santa Anna to Red Bank road, distance 12 miles, the grade work is complete, gravel has been laid a distance of 3-4 miles, and workmen are placing a low-water concrete bridge, 145 feet in length, over Red Bank creek.

CLOTHING SPECIALIST GIVES DEMONSTRATION TO SANTA ANNA AUDIENCE

Last Saturday Mrs. Dora Barnes, clothing specialist of the Agricultural & Mechanical College extension service, accompanied by Miss Mayesie Malone, went to Santa Anna, where Mrs. Barnes assisted by Miss Malone made a number of interesting demonstrations in the presence of a large number of people from Coleman, Santa Anna and other localities. The demonstrations included dress form, pressure cooking, canning, special work in dress making and cream cheese demonstration work. The work was highly appreciated by those who had the good fortune to be present and see it and expressions of satisfaction were heard on every hand. Mrs. Barnes returned to Brownwood in the evening and yesterday left for Coleman where for several days she will continue the same line of work in that county. Mrs. Barnes has charge of this work in Texas, in the extension service of the A. & M. college, and since last November she has carried on demonstrations in forty-nine counties, all of which were successful in the highest degree.—Brownwood Daily Bulletin.

METHODIST CHURCH

Sunday school 9:45 a. m. Let all members and friends be present to make that two hundred and fifty.
Preaching at 11 a. m. and 3:30 p. m.

Although we are having warm weather the attendance was fine. Yet we are anxious to see many more in the services. Rev. R. W. Oakes, who is visiting his mother and brother, preached for us on Sunday night with some clear, concise presentations of the Word of God as in former years. We are glad to see this good man getting in the homes again. More than anything else, a preacher loves to preach.—R. A. Crosby, Pastor.

SINGERS, ATTENTION

The people of Liberty community are preparing for a song service on the fourth Sunday afternoon. A number of prominent singers from different parts of the country have promised to be in attendance and all are expecting a great song service and a general good time. If you sing or like to hear good gospel songs, make your arrangements to be on hand Sunday afternoon at 2:30 and enjoy the afternoon with us.

The editor, accompanied by W. S. Watson, cashier of the First State bank of Stephenville and H. P. Hudgens of Winters left last Friday night for Lubbock on business. The editor and Mr. Hudgens also looked after some business in Dawson and Gaines counties while gone, and returned home Sunday night.

TIDWELL HAS 50-BARREL WELL ON BABINGTON TRACT

(Democrat-Voice)

The most important oil strike yet encountered in the several fields of Coleman county was struck Wednesday on the Babington tract 3 miles southwest of Coleman by Tidwell and associates. At a depth of 1062 with the bit twelve feet in sand the well is standing 300 feet in oil and showing from 40 to 60 barrels production. There is very little gas but the well will flow by agitation.

Specific Gravity Test 51

The remarkable feature of the Babington production is its shallowness and the high grade of the oil which, by actual test, has a specific gravity of 51 per cent. The commercial value of the Babington oil is at the least fifty per cent greater than other crude oils.

The well is shut down pending arrival of the owners from Fort Worth, who should reach here Thursday by automobile. The location of the Tidwell strike is approximately 350 feet north, little west, of the first producing well on Babington tract and which has been yielding from 10 to 15 barrels on the pump for several years from the level of 1057 to 1100 feet.

Nelson to Build Refinery

H. G. Nelson of Fort Worth was in Coleman this week and closed a deal for acreage abutting the Santa Fe right-of-way on which he will at an early date begin construction of a one-unit refinery which may be enlarged at any time production necessitates. The acreage secured was block 2 embracing two acres and is situated near the old compress in the northwestern part of the city. Upton Henderson is the owner of the property which Mr. Nelson secures under lease for a term of twenty-five years.

TWO QUARTS OF WHISKY IS FOUND BY HUNTER

Last week the 12-year-old son of John Sanders took his dog and started out for a rabbit hunt, on the Sanders place, one mile east of town. A rabbit was soon jumped and finally treed in a hollow tree. But when young Sanders went to investigate, he found, not only the rabbit but two quarts of good whisky. Instead of taking the booze home with him, he left it in its hiding place and reported the find to his father in the evening. Next morning Mr. Sanders and his son went to the tree to take an other look at the whisky, but they arrived too late, for some one had already visited the hiding place and removed the booze. A car had driven up to the fence and the driver or some one with him had crossed the fence and removed the bottles from the hollow, then the car turned and came back into the main road and its tracks were lost. It is supposed a peddler left the booze in the hollow for a customer, who came and removed it in the nick of time.

It is expected that young Sanders will be offered man trades for his famous dog, to be used to trail down caches of contraband booze.—Bangs Advocate.

TAFT SWORN IN AS CHIEF JUSTICE MONDAY

Former President Taft was sworn in Monday as chief justice of the United States supreme court. "We Sell For Less"

Our business is increasing every week. There are reasons for this and we think the main reason is our prices are right and our merchandise dependable. Anything bought from us must be what we tell you it is or your money will be refunded. Our prices are right for three reasons: 1st, our stock is new, no high priced merchandise on hand. 2nd, we buy for cash and sell for cash, no losses or bookkeepers expenses for you to pay. 3rd, we do our own work and sell our own merchandise, hence a minimum expense account. We do not sell at cost, but a reasonable profit. Smaller profits and more sales has always been our idea of successful merchandising. It is a pleasure for us to show you.

TEXAS PEOPLE TO PASS ON FIVE AMENDMENTS

People Will Vote July 23 on Questions Submitted By the 37th Legislature

The people of Texas will be called upon to vote on five amendments to the state constitution on July 23, the fourth Saturday in July as the legislature designated it in passing the bills. All five amendments were passed at the regular session of the 37th legislature.

The amendments are:
Amending the constitution to abolish the board of prison commissioners and so that the legislature may provide for administration of the prison system as it may see fit.

Amending sections 5, 21, 22, and 23 of article 4 of the constitution so that the salaries of the executive officers of the state can be raised.

Amending the constitution so that the legislature can raise the tax from 5 to 7 cents for Confederate pensions and authorize the legislature to aid Confederate soldiers, sailors and their widows who have been a resident of Texas since January 1, 1920.

Amending the constitution to reduce the mileage and increase the pay per diem of the legislators.

Amending the constitution so that only native born or naturalized citizens of the United States shall be allowed to vote in Texas and providing that either the husband or wife may pay poll tax of the other and receive the receipts therefor and permitting the legislature to authorize absentee voting.

On account of an error in copying the original bill, the prison commissioner amendment may be stricken from the ballot. It seeks to amend article 16, section 58 of the constitution, which provides for the board of prison commissioners, while the bill as passed read "article 17, section 58." There is no article 17, section 58, that article having but one section, providing for the manner in which the constitution shall be amended. It was the intent of the legislature to amend article 16, but whether this intention will offset the typoographical error remains to be decided. The opinion of the attorney general has been asked.

The prison commissioner amendment was introduced by Representative Satterwhite and followed the report of the penitentiary investigating committee, authorized to investigate all phases and charges of the penitentiary system. It intends to allow the legislature to abolish the three prison commissioners' offices and provide for the administration as it may see fit. It is believed that a more efficient and economical administration can be worked out through other methods. It has been suggested that the legislature intends to place the system under the control of one direct head, as are the other state departments. A change in the system may save taxes, supporters of the change pointed out.

Allowing the legislature to raise the salaries of the governor, attorney general, treasurer, comptroller, land commissioner and secretary of state is the object of amendments to sections 5, 21, 22 and 23 of article 4. The present salaries of these executives are as follows: Governor, \$4,000; attorney general, \$4,000; treasurer, comptroller and land commissioner, \$2,500 each, and secretary of state, \$2,000. These salaries were fixed under the constitution of 1866—35 years ago—when living expenses and responsibilities of the offices were less than now.

Under the proposed amendment the legislature can pay the governor not to exceed \$8,000 annually; attorney general, \$7,500; treasurer, land commissioner, comptroller and secretary of state \$5,000 each. The amendment does not provide that the salaries of

the officers shall be the maximum amounts but that the legislature can fix their salaries at any sum not to exceed those named in the amendment. The legislature can pay them less than they are receiving now if it should so desire. It has been pointed out that the taxes will be increased but 5 cents on every \$10,000 worth of property in order to meet these raises.

The Confederate pension tax of Texas is now five cents on the \$100 valuation. By the amendment this tax would be increased to seven cents. The Confederate veterans and their widows are passing away slowly, the state of old age having reached all of them that are benefitted by the tax. It will in course of time be automatically erased from the tax books of Texas as the last of the veterans pass away. The two cents increase in the tax is to allow the legislature to increase the aid of the Confederate veterans and their widows. By the terms of the amendment only those who (came to Texas prior to January 1, 1910, and who were married prior to that date will be benefitted by the tax. The word "widow" also applies only to women born before 1861.

The members of the legislature now receive \$5 per day for regular sessions of 60 days and \$2 per day thereafter with \$5 per day for special sessions of thirty days. The amendment to be voted on seeks to raise the pay of the legislators not to exceed \$10 per day for regular sessions of 120 days and \$5 per day thereafter, with \$10 per day for special sessions. It also seeks to reduce the traveling expense or mileage one half of its present amount. This rate of pay was fixed in the constitution of 1866. The legislature is authorized by the bill to fix the pay of the members not to exceed the sum named. They could fix it at \$5 per day, or reduce it if they so desire.

Under the present constitution of Texas foreigners are allowed to vote as soon as they declare their intention of becoming citizens of the United States. If the proposed amendment is adopted they must have become fully naturalized before they can vote.

In towns and cities of more than 10,000 population all voters must get their poll tax receipts in person. If the proposed amendment is adopted either the husband or wife can pay the poll tax of the other and get the receipt therefor regardless of residence.

If the absentee voting amendment is adopted the legislature can authorize a voter to vote in a general election without being present at the polls as is now permitted in the primary elections.

WILLOW TREE GROWING HIGH IN AIR AT ICE PLANT

A willow tree that is now weathering its third summer is growing thriftily at the plant of the Brownwood Ice & Fuel Company, and its location is fifty feet or more from terra firma. The little tree, now four or five feet in height and with several thrifty branches, is located on top of the structure used for cooling and filtering the water used at the plant, and apparently has root only in decaying timbers, there being no earth at the spot. Plenty of water is obtained by the tree, and it is expected to continue to grow for several more seasons with sustenance of air and water only.—Bulletin.

Friday, July 15, 1921

Entered at the post office of Santa Anna as second class mail.

There is no law against swatting flies in Santa Anna.

Preventative is better than cure. Prevent disease by destroying the flies.

Wonder if it is too late to have a general weed cutting and clean-up in the town?

There is no natural cause in Santa Anna for flies and mosquitoes, but both are here in untold numbers.

Cleanliness is next to Godliness; one can be physically clean and not be Godly, but you cannot be Godly without being clean. Moral—Cut the weeds and destroy the flies.

Dry Closets, out houses, hen houses, cowlots, barns and places where stock are kept in town where filth accumulates are hibernating places for flies and other insect pests that are detrimental to mankind, and can be greatly benefited by the constant use of dry lime.

We don't want to appear pessimistic, dictatorial or otherwise sarcastic, but there is too much filth, too many weeds, flies, mosquitoes and other detrimental and disease spreading germs in town that could be eliminated by the use of a little physical exercise. Let's do it now.

So far, the present staff has not been able to stir up very much here in town since our recent advent, but we are not one bit discouraged, if our plan of publishing a live, local newspaper followed up with personal work fails to stir up things, we will try one of our new methods. They always work.

Be sure and read the ads each week found in our columns, and not that we have it in for those who do not advertise, but because we have a very tender feeling for those who do advertise and want them to get value received for their money spent in advertising, we want to insist on our readers trading with the merchants who advertise. Read the advertisements and take advantage of the offers by patronizing the advertisers.

The editor has made several campaigns among the business men of the town in search of some advertising, and to say the least of it, we have found a few merchants in the city that are wide enough awake to believe in advertising to the extent they will patronize their home paper. Our readers are first in our mind and heart, and our advertising customers, dear to us because they make it possible for us to exist and publish a newspaper, therefore, the attention of our readers is called to the local advertising found in our columns, and we hope you will find it profitable to patronize the merchants who advertise in the home paper. An honest man wants to do an honest business and we honestly hope that every dollar spent with us for advertising will bring results.

The past several days of the week have been record breakers according to the weather bureau, a similar intensity of heat not being recorded since 1880 in the country generally at large. In the northern cities it is reported that people are dying with heat who never died before, Detroit seeming to be the middle of the frying pan. Fact is, we had not discovered that one day was any hotter than the other, we being a warm weather bird and probably would not have given the condition passing notice if we had not heard several people who continually are hunting for something to worry about, comment relative our fine cotton weather. Up in this part of Texas a good breeze seems to prevail when a man gets out and hunts for it, and if he is kept real busy he does not care whether or no. Its only the idle men who notice the heated condition. Its only the very bilious and malarial-laden who succumb to heat. Keep the liver in good condition and the system will remain as cool as the tail of a salt mackerel. Try it.—Delta Courier.

Honoring Miss Mae Allen-Blue

Friday-afternoon the lovely home of Mrs. S. W. Childers was thrown open to the many friends of Miss Mae Allen-Blue, for a miscellaneous shower. At the door the guests were served punch from a punch bowl which was daintily presided over by Misses Lela Faulkner and Annie Phillips. The guests were then ushered into the hall where a register was presided over by Mrs. G. W. Faulkner. Miss Margaret Philips gave a lovely violin solo after which Miss Price played the wedding march and Mrs. Blue was ushered in by two cupids, Misses Elizabeth Greer and Alma Brandon. Mrs. Blue was led to the door over which a large umbrella was hanging and suddenly a shower of packages fell. The bride was assisted by the cupids, in opening them and she found many beautiful and useful gifts.

More musical numbers were enjoyed and then cake and ice cream were served to the following: Misses Nettie Turner, Kate May, Katherine Price, Margaret Philips, Nellie Richardson, Kate and Annie Phillips, Lillie Hoshch, Myrtle Gaines, Faye Childers, Mrs. J. L. Phillips, V. L. Grady, J. Ed Bartlett, G. W. Faulkner, Eugene Greer, Jas. R. Gipson, Lee Hunter, E. M. Raney, J. O. Martin, N. Mitchell, Leman Brown, Allison Weaver, C. B. Rendleman, C. G. Erwin, R. L. Todd, J. W. Parker.

Splash Party

Wednesday afternoon a large crowd went to Idlewild and enjoyed a picnic supper and swim. Mr. and Mrs. S. W. Childers and Mr. and Mrs. Sam Collier and mother were chaperons and the crowd spent some time singing after a lovely picnic supper. Those present were: Misses Eudora Garrett, Ruby Brannon, Ruth Stephenson, Louvene Brandon, Ora Mae Harper, Mrs. Whiting, Nettie Turner, Doris Gilmore, Annie Lou Parker, Georgia Gilmore, Inez Marshall, Billie Shotwell, Lucille and Kate May; Blanche Collier; Messrs. Dewey Pieratt, Max Woodward, Duane Holland, Arch Hunter, Jess Hunter, MacMasters, A. Davis Smith, Ogden Brown, Homer May, Homer Hill, Jess Garrett.

Embroidery Club Meet

Mrs. Allison Weaver was hostess last Thursday afternoon to the Embroidery Club and a few invited guests. The house was made very attractive with nasturtiums and marigolds, artistically arranged in vases and bowls throughout the reception room. A clever contest pertaining to "A romance in flowers" was held and much fun was derived.

Misses Sibyl Simpson and Catherine Price of New Orleans, rendered beautiful vocal and piano solos throughout the evening.

A delicious refreshment course consisting of ice tea, frozen pies, apple salads, sandwiches, olives and cakes were served to the large number of guests.

Singletary-Hayes

Tuesday afternoon of this week, Miss Velma Singletary of the Poverty Flat community was married to Mr. W. T. Hayes of Houston, Judge S. T. Pieratt officiating.

The fine young couple left on the six o'clock train shortly after the marriage for Houston where they will make their future home.

Miss Velma is one of the beautiful and accomplished daughter of F. P. Singletary of the Poverty Flat community, but no such girls as Miss Velma is, could make believe that she grew up in poverty.

Personally, the writer could not learn much of Mr. Hayes, but his appearance was good, and he is to be congratulated for having won such a companion as Miss Velma for his life partner. Best wishes and congratulations.

Watson-Vanderford

Mr. Raymond Watson of the Plainview community and Miss Lela Vanderford of Santa Anna were quietly united in marriage Saturday afternoon at Coleman.

The wedding was quite a surprise to the many friends of the young couple as only a few relatives and intimate friends being present.

The bride was very charmingly dressed in white crepe de chine.

IMPROVED UNIFORM INTERNATIONAL Sunday School Lesson

(By REV. P. B. FITZWATER, D. D., Teacher of English Bible in the Moody Bible Institute of Chicago.) (©, 1921, Western Newspaper Union.)

LESSON FOR JULY 17

THE CONVERSION OF SAUL.

LESSON TEXT—Acts 9:1-19a.

GOLDEN TEXT—This is a faithful saying, and worthy of all acceptance, that Jesus came into the world to save sinners; of whom I am chief.—1 Tim. 1:15.

REFERENCE MATERIAL—Acts 22:1-23.

PRIMARY TOPIC—Learning to Obey Jesus.

JUNIOR TOPIC—Saul Becomes a Christian.

INTERMEDIATE AND SENIOR TOPIC—The Pharisee Becomes a Christian.

YOUNG PEOPLE AND ADULT TOPIC—A Study of Paul's Conversion.

I. Saul's Burning Hatred of Jesus

(vv. 1, 2). Saul knew full well that unless the movement set on foot by Jesus was stopped it would supersede Judaism, but he was entirely ignorant of the genius of Christianity. Christianity thrives on persecution. Prosperity may ruin the church, but persecution never.

The noble display of faith by Stephen in sealing his testimony with his blood did not soften Saul's spirit, but rather intensified his hatred for Jesus and His disciples. It made him more determined than ever to stamp out this Nazarene heresy. The intensity of his madness and the extent of its operations are best set forth in his own words (see Acts 22: 4 and Acts 26:10-12). He obtained authority from the chief priests to carry on this murderous work.

II. Saul Kicking Against the Pricks (vv. 3-9). The figure here is that of the eastern ox-driver following the ox with a sharp iron fixed to the end of a pole. The animal is prodded on with this instrument and if it is refractory it kicks against this sharp iron and injures itself. This is a picture of Saul as he was madly fighting against Jesus.

1. A light from heaven (vv. 3, 4a). The time had come for the Lord to interfere. Saul is stricken with blindness and falls to the earth. This physical demonstration accentuated the workings of his conscience which doubtless were going on, quickened by the Holy Spirit as He used Stephen's testimony.

2. A voice from heaven (vv. 4b, 5). This was the Lord's voice calling Saul by name and asking, "Why persecutest thou me?" This moved Saul to inquire, "Who art thou, Lord?" The answer came, "I am Jesus whom thou persecutest," as if to say persecution of the church is persecution of Jesus.

3. "What wilt thou have me to do?" (v. 6). The dictator is now willing to be dictated to. The Lord told him to go into the city where information would be given him as to what he must do.

4. Saul entering Damascus (vv. 7-9). The haughty persecutor goes quite humbly into Damascus led by his attendants. For the space of three days he remained in blindness and fasting. What went on in his soul in those days no mortal can know, but we may be assured that he, like the Lord in the wilderness, was too deep in meditation and prayer to desire food. Doubtless in this time he got hold of the truths which he later proclaimed to the world; for his conversion was the basal fact of his theology.

III. Ananias Sent to Saul (vv. 10-19a).

Here appears upon the scene a hitherto unknown disciple.

1. Ananias' vision (vv. 10-12). In this vision the Lord appeared and instructed him to go to Saul. He gave him the name of the street and Saul's host, and informed him that Saul was now a praying man and that he had prepared Saul by the vision for the coming of Ananias.

2. Ananias' fear and hesitancy (vv. 13-16). He knew of Saul's mission and the authority by which he came. The Lord encouraged him to go, assuring him that Saul is no longer an enemy, but a chosen vessel to bear His name before the Gentiles, kings, and the children of Israel.

3. Ananias' obedience (v. 17). His fears being removed, Ananias went to the house where Saul was staying, put his hands on him and affectionately addressed him as "brother." The savage persecutor is now a brother in Christ. He informed Saul that the Lord had sent him with a twofold mission: (1) "That thou mightest receive thy sight;" (2) "Be filled with the Holy Spirit." He received sight forthwith. It is not said as to whether he received the Holy Ghost then, but his life's work proves that he did.

4. Saul baptized (vv. 18, 19a). After Saul received his sight, Ananias baptized him.

God Gives Light and Strength. Give yourself to God's perfect love to work out His perfect will. For

all He means you to do, He will surely give light and strength. The throne of the Lamb is surely proof that there is no surer way for us to riches and honor than through His poverty.—Rev. Andrew Murray.

Life.

Life alone can rekindle life; what others claim from us is not our thirst and our hunger, but our bread and our guard.—Amiel.

"The Fellow that Your Mother Thinks You Are."

While walking through a crowded downtown street the other day, I heard a little urchin to his comrade turn and say:

"Say, Jimmie, let me tell youse. I'd be happy as a clam if I only was de feller dat me mudder tink I am."

"Gee, Jim, she tink dat I'm a wonder, and she knows her little lad Could never mix wid nothin' dat wuz ugly, mean or bad.

Lots er times I sits and tinks how nice t'would be, gee whiz, If a feller only was de feller dat his mudder tinks he is."

My friends, be yours a life of toil or undiluted joy.

You still can learn a lesson from this small, unglittered boy; Don't aim to be an earthly saint with your eyes fixed on a star; Just try to be the feller your mother thinks you are.

CZAR OF SMOKESTACK WORLD

THERE are some smokestacks that are unbelievably big—too big to be true—but the one recently completed for the reduction works of the Anaconda Copper Mining company at Anaconda, Montana, sets up a new world record.

The concrete base on which this gigantic structure stands required 118 cars of crushed rock, 50 cars of sand and 20,890 sacks of cement to complete and weighs approximately 9,250 tons.

The stack proper is constructed of specially shaped blocks or bricks about two and one-half times the size of the ordinary brick and it took 2,494,672 of these larger units to complete the job.

To make the mortar necessary to lay these brick required 77 cars of sand, 37 cars of fire clay and 41,860 sacks of cement. The estimated weight of the brick work is 23,310 tons.

The exterior diameter of this smoke-and-gas elevator is 80 feet at the base, while the interior diameter at the top tapers down to 60 feet. The wall is 22 inches thick at the top. The maximum height of the stack and its base is 585 feet 1 1/2 inches.

Smokestacks of extreme size are desirable and in fact necessary, in connection with certain classes of mining operations, to prevent the destruction of vegetation by the extensive quantities of strong and poisonous fumes and gases which result from the reducing operations.

When the News editor returned from a western trip first of the week, we found placed in our sanctum sanctorum, three of the finest old silver-skin white onions that we have seen in a coons age. After making some investigations, we found that a real farmer by the name of J. Tom Newman had called in Saturday and exhibited twelve onions that weighed over twelve pounds and left five of the larger ones for the editor and staff. We thank you Mr. Newman, and hope the next time you come in to see us that you will find the editor at his post where he stays the most of the time.

Marvin Sheffield, Eugene Polk, Gordon Bargett and Urban Voss left this week for San Antonio, where they will spend a month in the Citizens Military Training camp. The term lasts from July 15 to August 14.

LANTERN AND CRUDE OIL EFFECTIVE TRAY FOR BOLL WEEVILS SAYS V. C. MILLER

From Brady Standard:
Some few weeks ago the Standard published a remedy for the extermination of boll weevils as used and recommended by a Bangs farmer. It was simply to place a tub partly filled with water and with a quantity of crude oil poured over the surface of the water, in the cotton patch. Then at night a lighted lantern was hung over the tub, serving to attract the boll weevils, moths and millers, and which would meet a quick fate upon falling into the crude oil in the tub.

V. C. Miller of the Voca community tried the plan, and this week reports himself delighted with the results. The boll weevils, which had been giving him cause for anxiety, have apparently all disappeared. Mr. Miller says he has obtained better results from the use of lanterns than from candles, as the lantern seemed to have caused the pests to fall directly into the tub, while the candle would apparently scorch them and cause them to flutter away.

It is claimed that one tub will suffice for about four acres, and that only a couple of nights are required to trap all the weevils, moths and millers within reach of the tubs.

The News office received a copy of the premium list of the state fair, which will open in Dallas on October 8 and close the 23rd. The management of the fair are working to make this the banner year of the fair and exposition.

The local I. O. O. F. officers-elect for the ensuing term were installed last Thursday evening as follows: J. S. Jones, N. G.; E. W. Marshall, V. G.; S. J. Pieratt, secretary; W. T. Vinson, conductor; H. L. Lackey, warden; B. W. Wilson, H. S. N. G.; J. E. McAlbrath, R. S. N. G.; Henry Campbell, chaplain.

Encouragement

Oftimes we have, and we are sure you have also, noticed that men need encouragement to combat the conditions which they meet. A kind word a pleasant smile, costs no one anything. Yet they are appreciated and it is so with the words of encouragement.

We find that in our association with our customers many hints of helpful information which gives us encouragement are given to us. Our aim is to make this association mutually profitable.

The Thrifty Person

- There is not a successful business nor an independent fortune that did not have its beginning with a thrifty person.
- Somewhere, some time, some one began to save—to save regularly, and the first step toward fortune was taken.
- Since time immemorial it has been the thrifty person—the saver, who has attained success and financial independence.
- Are you headed toward success?
