VOLUME 52

SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY JUNE 21, 1938

NUMBER 25

"He Profits Most Who Serves Best"

SMOKE FROM THE MOUNTAIN

The News is heading the list of firms who plan to close July 4. We have not contacted any other firm, but we will start the ball rolling by saying that whether the rest of the town closes or not, we are. The list must be published in next week's paper and we are asking the stores who wish to have their name on that list to phone 45. Usually we come around to the stores, but in this hot weather we might get heat prostration and it will be just as convenient for you and lots cooler on us, if you will phone your name in. We will accept names until Wednesday at 7 p. m.

Don't ever think you can't catch big fish at the city lake. Loyd Burris caught a 180-pounder and if you don't believe it, he can prove it by several who saw the hooks in the "Fish's" forehead. He swings a wicked line.

You readers probably remember some weeks back that we mentioned the omission of the pictures of J. L. Boggus and R. L. Hunter when their businesses were having a special observance. Here's what State Press in the Dallas Morning News says about it:

"Have mercy on them. Be kind to R. L. Hunter and J. L. Boggus. Their dread of having their pictures in the paper no doubt is well founded. * * * We are persuaded that Messrs. Boggus and Hunter are not as ill favored as they pretend to believe. * * *

We dare say you have printed pictures of worse-looking men than the two above named. Some of the pictured ones being local, some foreign. Besides you have printed pictures of equine, bovine and ovine specimens which interested your readers. A newspaper these days needs to use pictures of interesting subjects. If Mr. Hunter and Mr. Boggus are not what you would call decorative, they at least must be worthy of Coleman County citizenship. Candid cameras are now so plentiful it probably would be no trick at all to get an unposed photograph of Boggus and Hunter, singly or in a pair. All the expense you would be put to as editor would be the cost of the engraving, a dollar or two. Surely the experiment would be worth the price."

If Maurice Bell saw and did all the things at Fort Worth local people asked him to do while he attended the Pharmacist's convention, we are afraid he didn't see much of the convention. He reports a very good meeting—but we wonder if he kept all those promises he made instead.

Oh, for a scorekeeper at the baseball games, who would keep the score and then bring it in to the office in such a shape we could read it. Now, we'd like to go to all those games ourselves, but we probably couldn't keep score if we did. The association got a score book to keep it in this last week, and we have that but we can't make out what is in it the writing is so little and so dim. Maybe our eyes are to blame but until we get a score card we can read or new specs to read with we will just have to forget about it. WILL SOMEONE VOLUNTEER TO BE THE NEWS' OFFICIAL BASEBALL SCORE KEEPER? Maybe we can work up a trade of some kind.

Save up, folks, for your annual good laughing spree, for on July 18 the Texas Ranger Donkey Baseball Club of Dallas will play another game here under the auspices of the local Athletic Association. Those who went last year were sore for days from laughing, and those who didn't go were sore at themselves because they didn't go. There'll be more about this later.

Mr. and Mrs. R. B. Archer were business visitors in Santa Anna Tuesday from their home in the Parralito community.

Mr. and Mrs. W. B. Griffin, who left Sunday for a week's vacation to Corpus, were called to the bedside of her mother, Mrs. M. A. People hospital.

Two Girls Drown Near Rockwood; Three Rescued

Two Mexican girls were drowned Sunday afternoon at Chaffin Crossing of the Colorado River near Rockwood. Their two sisters and mother were rescued by three Rockwood men.

Those dead were Semoura Randonado, 10, and Andrea, 12. The two girls were wading when the strong current carried them down the river. The mother and two sisters jumped in and tried to save them, but they were rescued by A. W. Box, Jim Rutherford and S. H. Estes.

About 50 volunteers aided in search for the bodies. They had not been found at the last report.

Committees Make Report to Lions At Tuesday Meeting

Two committees made reports Tuesday at the Lions Club, one announcing that Santa Anna has been named as the meeting place of the Ex-Ranger Association next year, and the other reporting the beginning of work on the city's recreation department wading pool project.

A committee from the Lions Club visited the Ex-Ranger Association meeting Friday in Coleman and extended the invitation in behalf of the Club to visit Santa Anna for the 1939 reunion.

Workers arrived Monday to begin work on the wading pool to be built in the south part of town near the Church of Christ. All material was reported donated except 20 sacks of cement which is still needed.

Those present at the meeting were D. L. Pieratt, Hardy Blue, J. V. Davis, M. L. Womack, W. H. Ragsdale, Claude Reid, W. H. Thate, O. A. Etheredge, Geo. Johnson, R. Elmer Dunham, R. H. Spencer, R. L. Hunter, J. W. Riley, E. R. Lovelady, A. D. Pettit, J. C. Scarborough and J. F. Turner.

Wading Pool To Be Built Soon

Work on the city wading pool, to be placed on a city owned lot near the Church of Christ in south Santa Anna, will begin July 1. NYA workers will furnish labor. Rocks for the pool have been donated by V. L. Grady and supervision work has been donated by the father of Mr. Lawrence, who is directing the NYA work here.

Clarence Gilbert of Santa Anna designed the pool and will assist in the plans. Cost of the construction, not counting all the material and work donated will be approximately \$137. It is hoped that later the land around the pool, which will be made into a park, will be beautified.

Money donations toward raising the \$137 will be received at the Santa Anna News office.

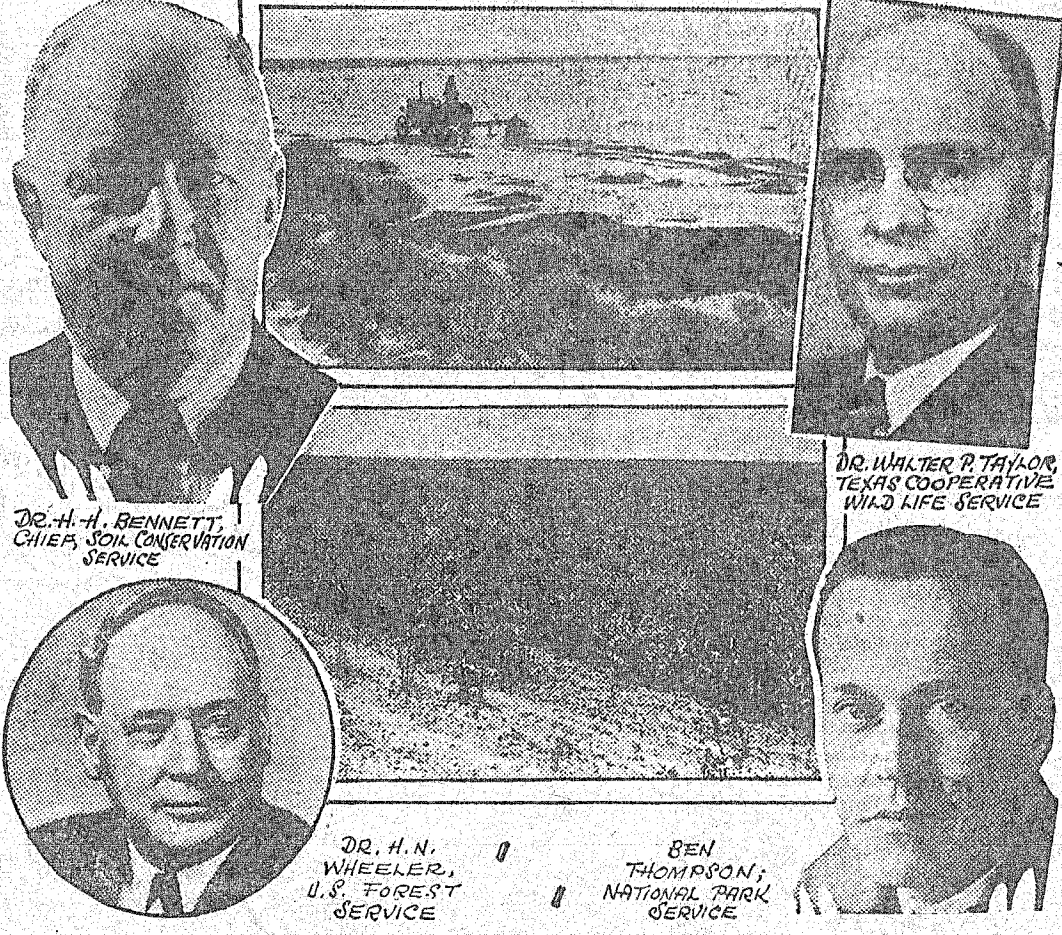

John R. Banister Elected Captain of Ranger Auxiliary

The Ex-Ranger Auxiliary met in Coleman last week at the same time the Ex-Ranger Association held its annual reunion. The auxiliary felt honored, according to the officers, by the invitation of the Rangers to merge the two organizations, but details must wait until the 1939 reunion.

The office of Captain was created and John R. Banister of Rockspings, son of an Ex-Ranger of Santa Anna and Coleman County sheriff who died in 1918, was selected to fill the post. He will act as spokesman to the parent organization.

Officers who served last year and who will again serve this next year are Coe McLeroy of Cisco, president; Mrs. Della Stubblefield of O'Donnell, vice president; Mrs. C. D. Bruce of Santa Anna, secretary-treasurer; and Mrs. Tom Bradley of Life reporter.

Experts Discuss Farm Field Re-Building

DENTON, Texas — "Blowing out" wheat fields like the one in the upper picture can be returned to paying crops like those shown in the second picture, according to U. S. Soil Conservation officials. This is but one chapter in a dramatic conservation story to be told by 24 lecturers, including 13 federal experts, in a course in conservation of natural resources now being held through July 16 at the North Texas State Teachers College. The two farm pictures are of the same field. The lower was taken after the field had been terraced and planted to milo maize in the contour.

Assessments For Candidates Made At Coleman Mon.

Coleman — No new candidates filed their names for places on the ballot for the first Democratic primary, July 23, before the deadline passed Saturday night.

Meeting Monday, the county Democratic committee made assessments of \$1340.50 against the candidates, to cover expenditures in holding the primary elections, and drew names to determine their order on the ballot. Candidates have until Saturday night to pay their assessments.

Final arrangements for the July 23 ticket will be made next Monday when the county Democratic committee will again meet, according to Chairman F. B. Simmons.

Assessments are as follows: county judge, one candidate, \$100; district clerk, three candidates, \$50 each; sheriff, three candidates, \$50 each; county treasurer, one candidate, \$75; county superintendent, two candidates, \$75 each; assessor-collector, three candidates, \$50 each; county attorney, two candidates, \$50 each.

County surveyor, one candidate, \$10; commissioner precinct 1, \$30; commissioner precinct 2, six candidates, \$20 each; public weigher, precinct 1, one candidate, \$5; public weigher, precinct 7, two candidates, \$5 each; public weigher, precinct 6, one candidate, \$2.50; constable precinct 7, one candidate, \$5; justice, precinct 1, one candidate, \$10; justice precinct 7, two candidates, \$5 each; constable precinct 1, two candidates, \$7.50 each; commissioner precinct 3, one candidate, \$30; commissioner precinct 4, \$30.

The state ticket will appear on Coleman county ballots exactly as it was certified to Mr. Simmons. Other names on the ticket will appear as follows:

For congressman, 21st district: Charles L. South of Coleman county; state senator, 25th senatorial district: Penrose B. Metcalf of Tom Green county; Ross K. Prescott of Brown county; E. M. Davis of Brown county.

State representative, 125th representative district: Edward J. Ferrell of Brown county; W. R. Chambers of Brown county; Roland Boyd of Brown county; J. G. Harwell of Coleman county; William R. Murphy of Coleman county.

- 2:00 p. m.—County canned Tomato Products and Judging Contest for 4-H Garden Display, directed by Doris Jean McKee, Brown Ranch 4-H club.
- 2:30 p. m.—Presentation of Stunts by each 4-H club, Mary Frances Herrington, Whop 4-H Club, Chairman.
- 3:30 p. m.—Presentation of Awards—Mrs. Willie Henderson, Chairman Coleman County H. D. Council.

Masonic Lodge To Install Officers Publicly Tonight

Officers of Mountain Lodge No. 661 AF and AM for the ensuing year and all of the elected and appointed officers of the 76th Masonic District will be installed at a public installation at the Masonic Hall in Santa Anna, Friday night, June 24. The public is invited to attend the installation ceremony.

Those chosen by the Mountain Lodge No. 661 to fill offices during the year are: Worshipful Master, J. Norman Hosh; Senior Warden, A. B. Carroll; Junior Warden, Pascal H. Hosh; Treasurer, D. L. Pieratt; Secretary, O. L. Cheney; Senior Deacon, E. W. Gober; Junior Deacon, E. W. Gober; Senior Steward, B. T. Vinson; Junior Steward, W. J. McClure; Chaplain, S. L. Weaver; and Tyler, Roy Bledsoe.

Rangers Vote To Visit Santa Anna For 1939 Reunion

Santa Anna was unanimously chosen as the next meeting place of the Ex-Ranger Association in the final session of the group Saturday in Coleman. Santa Anna also was again reaffirmed as the permanent home of the Ex-Rangers, who are hoping next year to meet in the building planned for the Texas Ranger Park.

The group voted to retain the name of the organization, composed of men serving Texas in the 1870's. Santa Anna was voted again as permanent headquarters, the group selecting the offer of San Antonio to come to that city permanently. It was further decided by a vote that the children and descendants of Texas Rangers will be admitted in the organization merging the auxiliary and the association.

A motion, proposed by Hadley Robert of Albany and seconded by C. M. Grady of Brownwood, was adopted accepting the offer of space in the memorial building at San Antonio for placing of relics.

Officers re-elected at the session Friday were Major George B. Black of Comanche, Capt. John R. Hughes of El Paso, First Lieut. R. G. Kimball of Alamo, Second Lieut. G. W. Ellington of Lubbock, Color Bearor R. W. Hardesty of Houston, Chaplain P. B. Hill of San Antonio, Assistant Color Bearer Glen Rehm of Santa Anna, Ruby Green Smith of Odessa, secretary-treasurer, Mrs. Beatrice Gay of Santa Anna assistant secretary-treasurer and Le Nell Furnell, Austin, sweetheart.

Dona Roy Smith of Odessa, granddaughter of Major W. M. Green, organizer of the ex-Rangers, was elected mascot. Rangers registered included J. E. Tucker, Sunset; H. T. Mitchell, Lampasas; W. N. Roberts, Llano; John Menges, Slator; John F. Oliver, Dallas; Thomas M. Dunagan, Dallas;

Candidate List Complete

With the closing of the county and district filing for candidates last Saturday, the voters now have a chance to take a look at the long state, district and county list from which to select those who will govern them for the next months.

The campaign will be getting really hot now, since filing days are over and the candidates themselves are sure who their opponents are. Those without opponents are really lucky for they can sit back in comparative ease in this hot weather and watch the other candidates make their campaign.

The voter has a certain serious responsibility, too, in this campaign, although some feel that the rest of the doings now until July 23 is up to the candidates. A good voter should study the long list of candidates for each office on which he will vote and learn as much as possible about the merits of each for the office he wishes to hold. Too many voters go to the polls on election day, glance over the ballot with a lick and a promise, admit they don't know anything about any of those running, but they paid their poll tax and feel obligated to vote for some one to get their money's worth. A voter should have some definite, logical reason for voting for a candidate and as equally as logical a reason for scratching a prospective office holder.

If the voters persist in voting in a haphazard manner, it is a wonder our government is as stable and satisfactory as it is. The voters make the choice of the office holders. If it's a bad choice, no one is to blame but the voters themselves. Therefore, a voter has a big job ahead of him until July 23. He should find the facts about the merits of these candidates and vote accordingly. Be appreciative of the fact that at least here we have a choice. In some countries, there is one name on the ballot and you vote that ticket—or else.

J. C. Morris

Methodist Church

J. VIRGIL DAVIS, Pastor
S. S. 10:00 A. M.

Morning Worship at eleven o'clock. Sermon by the pastor. At the evening hour, 8:15. Bro. Leverage, one of our honored Superannuate preachers, who resides in Coleman, will preach for us. Bro. Leverage and his wife worshiped with us last Sunday morning, and the pastor asked him to fill the pulpit for us Sunday evening, and he kindly consented to do so. Come out and hear him, and see how the man who led in many religious crusades in the years gone, preaches today. There was a day when people looked with more tolerance and reverence upon the ministry than they do today. But the same man who was loved and believed in by his people in other days, is just another preacher today, and has about the same heed given his preaching, as all of us now have. Yet these men have not changed but only the attitude of people toward the preachers. But at any rate it will be a change to hear this servant of God, and will give him joy to tell the old story as he once proclaimed it in the years that have gone.

On the first Sunday in July, the annual revival meeting effort begins with us. The pastor will be assisted by some pastor, preferably of the Brownwood District, if one can be procured. Look for announcement of the helper next week. The following committees were appointed and announced last Sunday morning at Church. Committee on arrangements: W. H. Thate, J. Frank Turner Sr., and Jim Daniell. Committee on Publicity: Mrs. Jim Bob Gregg and Mrs. Griffin. Let all who have recommendations, which I am sure will be appreciated, be made to the committees. The first name at the top of each will be chairman. Please read the announcements from time to time, which will appear in the Santa Anna News. All the churches of the town are cordially invited, and solicited to come worship, and

work with us. You will be appreciated by all.

Gladhand Class
There were thirteen present in the class last Sunday morning.

We welcomed Mrs. Belle Caldwell and Miss Juanita Clearman as visitors and invited them to meet with us again. Miss Clearman is the house guest of Mrs. W. E. Rust, one of our new members.

We accepted the invitation extended to us to meet with the Lula Verner Wesley class Sunday in the absence of their teacher, and enjoyed a most interesting lesson with Mrs. Chap Eeds as teacher.

Christian Church

Beginning next Sunday, June 26 the Christian Church will reverse the order of services. The preaching service will come first and will be held at 10:00 o'clock. Immediately after the preaching service the Bible school will be held. The subject for the sermon on next Sunday will be "The Fruits of the Holy Spirit."

SOCIETY - CLUBS

Mrs. Charles Roehr Entertains Friday For Gladhand Class

Mrs. Charles Roehr entertained members of the Gladhand Sunday School Class Friday afternoon at the home of Mrs. Harry T. Caton. The class at this meeting exchanged gifts with their "Sunshine Sisters" and drew names for new ones for the next three months.

Two of the class members, Mrs. Jim Daniell and Mrs. A. L. McGahey, were celebrating birthdays on this day and they were remembered with special gifts.

Games and confests were enjoyed throughout the afternoon. Refreshments of punch and chocolate and banana cake were served to Mesdames Chap Eads, Henry Cook, W. B. Griffin, Adrian Davis, Collin Price, Wesley Bryant, A. L. McGahey, Tom DeArmon, Jim Daniell, Jim Bob Gregg, Harry Caton, W. E. Rust, Miss Juanita Clearman of Bangs, little Miss Annabelle Price and Master Elden Bryant and the hostess, Mrs. Roehr.

LOCAL H. D. CLUB

The Santa Anna Home Demonstration Club will have a regular meeting Friday, June 24 at 2:30 p. m. at the City Hall. Miss Chrystene Trowbridge, the county home demonstration agent will meet with the club and will give a lecture on "Vegetable Salads."

CLUB MEETINGS SOCIAL ACTIVITIES June 24-July 1

Whon News

By Mrs. Warren Gill
The Baptist meeting will begin June 29. Everyone is urged to Rev. Dunham will be the evangelist.

Mrs. N. E. Blackwell is visiting relatives at Whon.

Mr. and Mrs. Jack Black and son, Sammie Jack, have returned from an extended visit in Hobbs, N. M.

Master Roland Miller is visiting Sammie Jack Black.

Mr. and Mrs. Max Prater of San Benito, Texas, visited Mr. and Mrs. Jimmie Gill and Mr. and Mrs. Bert Turney last week.

Mr. and Mrs. Clyde Kuykendall of Waxahachie and grandson, Bobby Coffee, visited on the Gill Ranch this week.

The Intermediate Sunday School class with Mrs. Jimmie Gill as teacher, had a picnic Wednesday.

Miss Charlene Standifer of Lowell, Arizona, is visiting Mr. and Mrs. Charlie Gill.

Mr. and Mrs. W. B. Griffin and daughter, Coyita, left early Sunday morning for a week's vacation at Corpus Christi. They were accompanied by Mrs. C. A. Walker who will spend two weeks visiting her niece and nephew at Corpus.

Flower Arrangement Discussed Recently At Buffalo H. D. Club

"Flower arrangements and the use of flowers in the home" was the subject of discussion before the Buffalo Home Demonstration Club when it met Friday, June 17 in the home of Mrs. George Green.

"Never decide on the flower container until you have seen the flowers," stated Mrs. Myers in her demonstration.

Refreshments were served to five club members and the following visitors: Mrs. Orville Allen, Mrs. J. J. Gregg, Mrs. Mauldin, Mrs. Shackelford and Beatrice Hamlett.
The next meeting will be on July 1, in the home of Mrs. George Bivins. Miss Trowbridge will give a demonstration on Vegetable Salads.

Farmers Short Course Presents Unusual Program

College Station — Farmers' Short Course visitors to A. and M. College, July 13-15, will have their first headline program feature in the Tuesday evening meeting in the stadium with C. W. Warburton, Washington, D. C., Director of Extension Service, for the whole country, as speaker and H. H. Williamson, Director of Texas Extension Service, presiding. The motion picture truck used by LSU Extension Service has been loaned by Louisiana for demonstration purposes and will present pictures and music as part of the evening's entertainment. Donald Lindee, of the University of Louisiana, will have charge of the machine.

Hon. Harry Brown, Assistant Secretary of Agriculture, will be the speaker at the formal opening of the Short Course Wednesday morning with President T. O. Walton making the address of welcome. Grog singing at this and other meetings will be led by Walter Jenkins, Rotary International Song Leader, who has twice before led the rural crowds at A. and M. College, to great enjoyment in music.

Thursday, with Extension Vice Director Mildred Horton

Sectional meetings for farmers and ranchmen and rural homemakers will fill the hours after the general assembly until noon each day. Afternoons will be filled with meetings, tours and demonstrations for various groups.
Farmers and ranchmen who attend the Farmers' Short Course will be offered a real agricultural problem. Farmers, ranchmen, county judges and county commissioners will headline the three day session with talks about their experiences in agriculture.

The morning session of Wednesday, July 13, will be devoted to a discussion of soil conservation. Members of commissioners' courts will be present to explain their system of terracing with county owned equipment, according to C. E. Bowles, cooperative marketing specialist of the Extension Service and chairman of the committee that arranged the program.

In 1937, 189 counties made county equipment available to farmers at nominal rental figures, and 373,000 acres of land were terraced by this method. M. R. Bentley, extension agricultural engineer, said.

Sectional meetings on various phases of livestock and crops will take up the afternoon of the first day of the Short Course.
Cotton will be the topic during the entire second day, July 14. Bowles said. Farmers will again take the front with reports of the success of one-variety cotton communities, while P. K. Norris, Washington, D. C., of the U. S. D. A. Bureau of Agricultural Economics, will discuss American cotton in foreign markets. Another speaker will be Burrus Jackson, chairman of the Texas Improvement Committee.

The forenoon of the third day will be devoted to the economic situation facing Texas agriculture. Featured speakers will be Dean E. J. Kyle of Texas A. and M. College and J. R. McCrary, president of the

Cooperative Council.
Sectional meetings, similar to those of the first day, will be held on the afternoon of June 15, the last day of the Short Course.
"We have been assured that facilities are available to house any number of men during the Short Course, and there will be no restrictions on attendance," Bowles said.

Solution of consumer problems will feature the women's Short Course program.
In the field of electricity in the home, wiring, lighting the home, and choosing electrical equipment will be taken up in a series of meetings when principles, precautions and illustrations will be presented.
Getting your money's worth in textiles, as household buyers, in drugs and cosmetics, in kitchen equipment, meat, nutrition, and housing will all be discussed and good buying standards illustrated by outstanding men and women in these fields.
Wild flowers and their legends, book reviews and plans for beautifying neighborhoods will be presented by another group of speakers.

Home sanitation will be discussed under the title "Safe Water — In and Out."
There will be a youth panel to give the elders a better insight into the problems of young people of this generation. And there will be times for new games and songs to be learned and played.

Food will have its place on the program from both the production and the nutrition angles. On production are listed fruits, dairy products and poultry, which will be a joint program with the men.
Outstanding speakers on the homemaking program are Miss Jane Alden, stylist, from Chicago, Illinois, Miss Mary Anna Grimes, specialist in textiles for the Texas Experiment Station, A. and M. College, Mrs. Virginia Scarborough, of the University of Texas and Barbara Van Heulen, Washington, D. C. of the Farm Credit Administration, as well as extension specialists in various home-making problems.

John R. Banister of Rock-springs visited here Friday and Saturday with relatives and friends and attended the reunion of the Ex-Rangers at Coleman.

Wooten, Dean of Women, Texas presiding. Mrs. Mattie Lloyd State College for Women, will be the speaker of the morning general assembly. Thursday night, President Walton presents M. M. Harris, editor of the SAN ANTONIO EXPRESS to speak in the stadium on the People's Library Movement.

Friday, Congressman Richard Kleberg will be the speaker of the morning at the general assembly with Vice Director Jack Shelton presiding over the meeting. Friday nights the crowds will be entertained in the stadium with a picture show.

Sectional meetings for farmers and ranchmen and rural homemakers will fill the hours after the general assembly until noon each day. Afternoons will be filled with meetings, tours and demonstrations for various groups.

Farmers and ranchmen who attend the Farmers' Short Course will be offered a real agricultural problem. Farmers, ranchmen, county judges and county commissioners will headline the three day session with talks about their experiences in agriculture.

DAIRY DAY PLAN IS POPULAR WITH BREEDERS

College Station — A series of "Dairy Days," held at 15 dairying centers of Texas during the past six weeks, attracted 9,162 visitors and the entry of 1,045 dairy animals, according to E. R. Eudaly and G. G. Gibson, dairymen of the Extension Service of Texas A. and M. College.

The dairy day plan is a new development, and differs from the livestock fair idea in that the animals are classed on a non-competitive basis. Animals compete with the score card, not with each other.

Under the plan, dairymen are given an opportunity to have their cows rated under the classification system. D. T. S-

mons of the American Jersey Cattle Club was present at all the meetings and assisted in the classing.

"We found the plan to be very popular with the 932 breeders who exhibited animals," Eudaly said. "Under the

Co. Home Demonstration Women Practice "From Rags to Rugs" Policy in Club Work

"From Rags to Rugs" is an art in Home Demonstration Club work that Coleman County Club women are finding most useful and interesting. The Rae-Echo Home Demonstration Club members have already made thirty hooked rugs and mats for their homes and will complete many more this year.

Home Demonstration club members find that hooked rugs and mats add much to the comfort and charm of a home. Too, hooked rugs and mats are something which every woman can have since they are inexpensively made from scraps of materials, left-over pieces of materials and the cast-off garments which could not otherwise be used.

Either wool, cotton, or silk may be used for making hooked rugs and mats. However, only material of the same fiber should be used in one rug. Many club women are making soft durable hooked rugs from old woolen or cotton blankets. Silk underwear and hose are pleasing in rugs and especially in mats since they give a lovely sheen. Effects to the finished product. Materials for rugs are torn or cut into strips about one-fourth inch wide. Knitted garments are cut lengthwise. For making mats, materials are cut from one-eighth to one-fourth inch wide.

Before actually planning the design, color and size for a hooked rug, club members determine the use of the rug. A rug to be used in front of the fireplace should be approximately as long as the hearth. The space beside a bed requires a somewhat larger rug than one to be used in front of a dressing table, while a still smaller rug is suitable for a doorway. An oval rug usually fits in better with most furnishings than a round one and a rectangular rug is more usable than a square one. To be pleasing the ratio of the length to the width should be something near three to two.

Well-balanced colors that harmonize with the colors of the room should be used in

hooked rugs and mats. Two-thirds of the rug should be neutral in color, as beige, tan, soft tones of brown and gray or green, and the other one-third of the rug may be the brighter, more intense colors. Two or three colors in several different shades are more attractive in rugs than a larger number of colors. Black, dark blue, or dark brown may be used as a border for a rug.

The design for hooked rugs should be conventionalized forms of a floral or leafy pattern or a geometric figure such as circles, squares, or triangles. Naturalistic designs, such as houses, dogs, shops, or bouquets of flowers are not desirable. The design is stamped in a piece of burlap and the burlap is tacked or sewed tightly into a wooden frame. Crochet hooks, colonial rug hooks, and mechanical rug hooks are used for hooking rugs.

The hooking of rugs and mats is done by pulling loops of the material through every second or third mesh of the burlap foundation. The loops should be pulled about one-fourth to one-half inch high and when a loose end of the strip of material is left it is pulled to the top to be clipped off. If the rug is made of wool material or silk, the loops should be clipped to give a softer texture, but if of cotton, the loops should not be clipped as cotton ravel too easily.

When completed the rug is removed from the frame and a hem is turned down around the edges and finished at least one and one-half to three inches wide. Rugs may be lined with burlap.

Each Coleman County home demonstration club woman is to make a hooked rug or mat. After making one rug or mat, club women usually find it such interesting and pleasing work that they make two or three. All the hooked rugs and mats made by club women this year will be displayed at the County Hooked Rug and Mat Show to be held in October of this year in Coleman.

\$SAVINGS\$

— Year after Year

—That's why we're so glad we bought

THEY all run good, while they're new! But let these owners (below) tell you how Servel Electrolux, the Gas (or kerosene) refrigerator, runs, after years and years of use. "Still less than \$1 a month to operate. Not 1c for repairs!" Servel Electrolux savings keep on, year after year. Because its freezing system has no moving parts. Nothing to wear, to cause trouble and repair bills. Just a tiny gas (or kerosene) flame. These neighbors of yours are certainly glad they bought Servel Electrolux, years ago. Will you be just as glad in 1950?

Hot Weather Dishes Perk Up Appetites

With hot weather's sudden descent, appetites are flagging accordingly, and so the following recipes, ranging from orange biscuits to "angel pie," are given as suggestions for something different to tired housekeepers. Just to read a good recipe gives one a lift. Trial of some of these will give a hefty heave to the appetites of the family.

Russian Salad

- 1 cup diced cooked carrots
- 1 cup diced cooked potatoes
- 1-4 cup chopped parsley
- 2 tablespoons chopped onions
- 2 tablespoons chopped sweet pickles

- 1 cup diced cooked beets
- 1 cup cooked asparagus
- 1-2 teaspoon salt
- 1-4 teaspoon paprika
- 1-3 teaspoon celery salt
- 1-4 cup French dressing

Mix and chill ingredients. Serve in a bowl which has been lined with crisp salad green.

Orange Biscuits

- 2 cups pastry flour
- 4 teaspoons baking powder
- 1-4 teaspoon salt
- 2 tablespoons grated orange rind
- 4 tablespoons butter
- 1-3 cup orange juice
- 1-2 cup milk

Mix together the dry ingredients and orange rind. Cut in the butter. Slowly add the rest of the ingredients. Pat out the soft dough until it is half an inch thick. Cut out biscuits. Bake.

Baked Fruit-Date Pudding

- 1 cup chopped dates
- 1 cup water
- 1 teaspoon soda
- 3 tablespoons butter
- 1 cup light brown sugar
- 3 eggs, beaten
- 1-2 cup grated pineapple
- 1 teaspoon vanilla
- 1-4 teaspoon almond extract
- 1-2 cups flour
- 1-4 teaspoon salt

Cook dates and water together for three minutes over a low fire. Add soda and cool. Cream butter and sugar. Add all of the rest of the ingredients, including the dates. Beat well and pour into a shallow pan which has been lined with waxed paper. Bake for 25 minutes in a moderate oven. Cool and serve topped with pineapple or orange sherbet or small amount of vanilla ice cream.

Piquant Salad Dressing

- 1/2 cup salt
- 1 teaspoon powdered mustard
- 1 teaspoon celery seed
- 1 teaspoon paprika
- 2 teaspoons chopped onion
- 1 tablespoon Worcestershire sauce (optional)
- 3 tablespoons castor oil
- 2-3 cup vinegar
- 2 tablespoons lemon juice
- 2-3 cup salad oil

Mix salt with seasonings and sugar. Slowly add rest of the ingredients. Beat until thick. Store in a covered quart jar in the refrigerator.

Angel Pie

- 4 egg whites
 - 1-4 teaspoon salt
 - 1 teaspoon cream of tartar
 - 1 teaspoon vanilla
 - 1-4 teaspoon almond extract
 - 1 cup granulated sugar
- Beat whites until stiff. Add salt, cream of tartar, and extracts. Beat for one minute. Fold in the sugar and mix lightly. Spread two inches thick in a shallow pan which has been fitted with waxed paper. Bake for 50 minutes in a slow oven. Cool and carefully place on a serving dish. All filling.

Filling

- 4 egg yolks
 - 1-2 cup granulated sugar
 - 2 tablespoons flour
 - 1-4 cup lemon juice
 - 1-4 cup boiling water
 - 1-8 teaspoon salt
 - 1-2 teaspoon almond extract
 - 1 cup whipped cream
- Beat yolks. Add sugar and flour. Add juice and water. Cook in a double boiler until the mixture thickens. Stir constantly to prevent lumping. Cool. Add extracts and salt. Chill. Add whipped cream and spread on top of baked mixture. Chill two hours.

Spinach Soume

- 3 tablespoons butter
 - 2 tablespoons flour
 - 1-1-2 cups milk
 - 1-2 teaspoon salt
 - 1-4 teaspoon paprika
 - 1-2 teaspoon minced onions
 - 2 tablespoons chopped pimientos
 - 3 cups cooked spinach
 - 3 egg yolks
 - 3 egg whites, beaten
- Mix butter with flour. Add milk and cook slowly until a creamy sauce forms. Stir constantly. Add seasonings and

spinach. Beat for two minutes. Add rest of the ingredients, mixing lightly. Fill a buttered mold two-thirds full. Bake soufflé for 30 minutes in a pan of hot water in a moderate oven. Let stand for five minutes. Unmold carefully and surround with hot creamed hard-cooked eggs.

Beets a Relish

The beet is a vegetable that has been neglected because of the time required for cooking. But since they are canned, whole, sliced or diced, there is more incentive to use them, and menus gain much in color and flavor by their addition.

Beet relish makes the perfect complement for roast beef. Beets and Chinese cabbage with mustard dressing make a delicious salad. Beet soup with a splash of whipped cream is a colorful first course for dinner.

Frozen Fruit Dessert

- 4 egg yolks
 - 1-1-2 cups granulated sugar
 - 2 tablespoons flour
 - 2 cups milk
 - 1-4 teaspoon salt
 - 2 cups crushed strawberries
 - 1 cup raspberries
 - 1 cup crushed pineapple
 - 2 egg whites, beaten
 - 2 cups whipped cream
 - 1 tablespoon vanilla
 - 1-2 teaspoon lemon extract
- Beat yolks. Add sugar and flour. Add milk. Cook in a double boiler until thick. Cool. Add the rest of the ingredients. Freeze.

Floods and Forests

Rushing waters from mountain streams resulting in flooded lowlands and deplorable losses in human lives and property brings home to our people in no uncertain terms the folly of forest devastation by fire and unwise cutting in years past. To say that forests prevent floods would be a misleading statement, but proof that forests are an important factor in the reduction of flood waters has long been an established fact.

Under natural forest conditions, rainfall is retarded by the trees and forest litter and the absorbent top soil which lies just under the forest litter. In this manner the forest acts as a regulator in permitting a controlled passage of water from the hillsides to the streams. Tests conducted by scientists have proven in some instances as high as fifty percent of the rainfall on heavy forested slopes is carried to the streams by springs as a result of underground seepage. This seepage is made possible through tree roots and the protected top soil.

Clear or heavy cutting of forests removes the trees and destroys their valuable protective action. Forest fires and overgrazing destroy not only the trees but also the forest litter. With the litter burned, the top soil is left barren, and the runoff of rainfall is so accelerated that soon the top soil is carried to the stream bed and erosion is started. Continued erosion means the filling of the stream bed and the forcing of the water from its regular course, thus causing floods.

Establishment by the U. S. Forest Service of National Forests in the mountainous areas of our southern states is part of a program of sound forestry development that will permit the forests in these areas to exert their greatest influence on the regulation of water flow by protection of the forests from fire, reforestation of denuded lands unsuited for agriculture, regulation of grazing and selective cutting of timber for sale.

Public ownership of lands in critical watershed areas has proven the only practical method of providing "protection forests," as this enables such activities as cutting and grazing to be subordinate to protection, while private owners in a majority of cases are primarily interested in revenues.

It should be emphasized, however, that it is not proposed to supplant forestry for engineering works in flood control, but that forests located in the watersheds of large rivers be permitted to play their important part by the restoration of watersheds to their natural state for prevention of accelerated run-off of rainfall. Thus, with the engineering developments at the point of flood, this yearly national catastrophe will be greatly reduced.

(U. S. Dept. of Agriculture)

The fact that pigs would live longer if they didn't make hogs of themselves ought to be a warning to all little boys not to eat too much.

Another fellow who has a hard time building up his list of personal friends is the one who thinks that a perpetual frown makes him look dignified.

STOCKMEN WARNED TO PREPARE FOR SCREW-WORMS

College Station — "Prepare for the screwworm in great numbers," R. R. Reppert, entomologist of the Extension Service of Texas A. and M. College, has warned Texas ranchmen.

The bureau of Entomology and Plant Quarantine of the Department of Agriculture has forecast a severe infestation, probably worse than that of 1935, in many parts of the Southwest, especially Texas and Arizona.

The screwworm fly has started earlier than ever before. The infestation in extreme Southwest Texas had been held down by dry weather during the first part of the season, but the weather in other parts of the state has favored the rapid development of the insect.

The best way to protect livestock from screwworms, Reppert points out, is to examine animals frequently so that wounds may be treated before they are seriously infested. Many ranchmen report that they have found it advisable to hold infested or infested animals in small hospital traps, located on a high, open part of the range where flies are less abundant.

Reppert endorses the Bureau's recommendation for killing the maggots. The procedure is to treat the infested wound with 60 percent commercial benzol. The wound is then plugged with clean cotton saturated with benzol. Reinfestation is prevented by strictly covering the area around the wound with dehydrated pine-tar oil of 1.965 specific gravity.

The advantage of the benzol lies in its low cost and in the fact that it does not cause shock to animal tissue. It does not deteriorate with age but is highly inflammable and will evaporate readily. It is this last property which makes it valuable in screwworm control, for the maggots are killed not by the liquid but by the fumes.

Reppert also emphasized that the common pine-tar oil will often burn the animal while the dehydrated form will not.

Civil Service Examinations Announced

The United States Civil Service Commission has announced open competitive examinations for the positions listed below: Public health nurse, \$2,000 a year; graduate nurse, hospital staff duty, \$1,800 a year; nurse technician, hospital staff duty, and radiology combined, \$1,200 a year; Indian Field Service, including Alaska Department of the Interior. These positions are subject to 1-12 percent reduction in pay and other conditions will be indicated in the job list and other information when furnished by the Government.

Certain offices have been vacated and experience are required, varying with each position. Applicants must not have passed their fortieth birthday. For positions in Alaska, they must have reached their twenty-sixth birthday, but may not have passed their fortieth birthday. There are limits will not be waived in any case. The closing date for receipt of applications from States east of Colorado is July 18, from Colorado and States westward July 21, from points in Alaska south of the Arctic Circle, November 7, and from points in Alaska north of the Arctic Circle, January 9, 1939.

Assistant gardener, green-house, \$1,200 a year, Bureau of Plant Industry, Department of Agriculture. Competitors will be rated on the subject of practical questions pertinent to the duties of the position. Two years of full-time paid experience in the care of trees, shrubbery, lawns, flower-beds, and greenhouse plants, including, or supplemented by, at least 6 months of greenhouse experience, are required. Applicants must not have passed their fiftieth birthday. The closing date for receipt of applications from States east of Colorado is July 11, and from Colorado and States westward, July 14.

WHEAT GROWERS FACE POSER IN LOAN DECISION

College Station — Under the new farm act, a wheat loan must be offered at the rate of 52 to 75 percent of parity if the June 15 price of wheat is below 52 percent of parity or the July crop estimate is above normal domestic and export needs. It is generally agreed that the loan will be offered on both counts.

"The amount of the loan will have a long time bearing on the welfare of wheat growers, and they should study the matter

from all angles before they ask for a loan on any definite level," W. E. Morgan, economist in agricultural planning of the Extension Service of Texas A. and M. College, has pointed out.

With the parity price of wheat at \$1.15, the loan may vary from 60 to 85 cents per bushel.

"The loan rate on wheat this year will have a bearing on the price of the entire crop," Morgan said, "so we must think not only about the 200 million bushels put up for loans but also about the price on the other 750 million bushels of wheat."

"We have a carryover of around 200 million bushels, and it is estimated that the winter wheat crop will be 760 million and the spring crop another 250 million. That gives us a total supply of about 1,200 million bushels.

The normal domestic consumption and export of wheat is around 750 million bushels a year, so we will have left some 450 million bushels to store. We can figure on exporting between 80 and 100 million bushels.

The prospects for the export trade holding up are pretty fair, but if we put the loan far above the world price of wheat, we will shut off our exports. That would mean that we would face a carryover of some 500 or more million bushels of wheat in 1939.

List Completed Of Candidates For State Office

Voters at the polls July 23 will have a long list of political candidates to choose from in state offices. Filing for state and district offices was closed Monday, June 6. At closing time 13 candidates had filed for the governorship, six for lieutenant governor, five for attorney general, seven for railroad commissioner, three for comptroller, four for land commissioner, three for treasurer, three for state superintendent of public instruction, four for commissioner of agriculture, three for associate justice of the supreme court and four for two places on the court of criminal appeals.

gubernatorial entrants who have filed are William McCraw of Dallas, Ernest O. Thompson of Amarillo, Clarence E. Farmer of Fort Worth, Tom F. Hunter of Wichita Falls, Karl A. Gray of Fort Worth, P. D. Renfro of Beaumont, S. T. Brogdon of Stamford, Joseph King of Houston, W. Lee O'Daniel of Fort Worth, Thomas Sell of George, Clarence R. Miller of Dallas, Robert A. Ferguson of Dallas, and J. M. McCoy, Houston.

For lieutenant governor, Coke Lee of San Antonio, G. H. Nelson of Lubbock, F. Pierce Brown of Dallas, John Lee Smith of Tirockton, George A. Jackson Jr. of Eastland and Allan McInrad of San Angelo.

The attorney general's race includes Gerald C. Mann of Dallas, Ralph W. Yarborough of Austin, Walter F. Woodul of Houston, Robert W. Calvert and Lewis Goodrich of Shamrock.

Those out for railroad commissioner are G. A. Jerry Sadler of Longview, Robert A. Stude, November 7, and from points in Alaska north of the Arctic Circle, January 9, 1939.

Assistant gardener, green-house, \$1,200 a year, Bureau of Plant Industry, Department of Agriculture. Short Course Is Planned Specially For Young Groups

College Station — About 2,500 boys and girls from Texas farms and ranches will have the undivided attention of Texas A. and M. College July 6 to 9 when the Junior section of the annual Farmers' Short Course will be held at College Station. This is the first time that adult and junior Short Course visitors have met on different dates, according to Roy W. Snyder, Short Course general chairman.

The arrangement has been made because the yearly increasing attendance at Short Course has taken place at the same time when summer sessions of the College have also been growing. Each year it has been harder to make room for both groups, and this year it was impossible.

General assembly every morning and the night programs will be joint meetings of the boys and girls, with music in charge of the famous Rotary International song leader, Walter H. Jenkins, of Houston. Speakers and picture shows will feature these meetings. A tea honoring the gold star boys and girls will be given one afternoon.

Programs for the boys have been arranged on the subjects of livestock; field crops; entomology; horticulture; plant propagation; cotton classing; and meat. For the girls, the program will center around home-making subjects, wild-flower legends, and "The 4-H Club Girl's Dollar and Sense." One series of talks by the girls themselves will be presented under the title "How I got on friendly terms with the things around me."

What 4-H Experience Means to a College Girl is the subject of a talk by Ruth Foshee, former Hunt county 4-H club girl, winner of the Texas Home Demonstration Association college scholarship. "A 4-H Club Girl as a Homemaker" will be discussed by Mrs. Paul Stauffer, former 4-H club girl of Wheeler county.

The Washington trip winners will tell about the club camp.

Ex-Ranger Reunion

By Mrs. R. C. Gay
The nineteenth annual Reunion of the Texas Ex-Ranger Association is again a matter of history. As the mists of bewilderment incidental to the bustle of crowds, greeting of old friends and welcoming new ones, added to the press of tedious business sessions, all crowded into three short June

days slowly clear away, and we have time to take stock, we find all that is lacking is a final "Thank you."

The city of Coleman has every reason to feel that their self appointed task of entertaining the handful of old boys, the last of the Indian fighters of this section of Texas, was ended well done. Everything that could be done for the pleasure and comfort of the Ex-Rangers and Auxiliary was cheerfully and quickly accomplished. No slightest wish of any one of them was left unheeded. A fine spirit of cooperation between the citizens of Coleman and their working committees was at all times apparent. Headed by Mr. S. W. Cooper, president of the Coleman Chamber of Commerce and his son, Charles Cooper, who was at our command at all times, C. W. Woodruff, cashier of the Coleman County State Bank, City Commissioners H. H. Scotland, S. H. Shore, Joe Stevens and Jack Bower—the committee in charge never loafed on its job.

The National Guard provided tents which were conveniently arranged around the platform in the beautiful Pecan grove, which had once been the camp ground of many an old boy present way back in the seventies. The Executive sessions were held in the fine Replica of old Camp Colorado which like a beautiful cameo, adorns the park.

The meals were served at the National Guard Commissary and too much praise can not be given the efficient cooks who prepared them. The tempting pies we had each day ran "Mother's Cooking" a close race.

All in all the "Sum Cum Laudum" was best expressed by one of the boys himself when he bade his comrades farewell for another year when he said, "This was the best meeting we ever had."

Some Highlights of the Program

On Thursday morning, after the welcome address by Mayor E. P. Scarborough and response by Major Black, Mrs. R. C. Gay of Santa Anna introduced the honor guests to their hosts of the meeting. As each name was called, the answer came with a cheering smile and sprightly nod of his head. Eighteen members responded at this time. Four more names were added next day. A toast to the valiant old Indian fighters was given by C. H. Hufford, Superintendent of the Coleman City Schools, after which some one started that grand old song of the South, "Tenting on the Old Camp Ground," and all joined in. As the quavering voices rose in the familiar strains of the old song, the years fell away from the stooped shoulders and the fires of youth glowed once more on each furrowed cheek.

Col. M. L. Crimmins of San Antonio was the principal speaker of the afternoon. He told the story of old Camp Colorado and the gallant soldiers who won their first laurels in the west in service there. The Lees, Lieut. Fitzhugh, Sul Ross, Gen. Cosby, Maj. Van Done, G. E. Kirby Smith and Lieut. Thomas O'Hara headed the illustrious list.

Col. Crimmins, U. S. Army retired, one time member of Teddy Roosevelt's Rough Riders and who saw some service at San Juan Hill, is writing the history of all the old army forts. Judge J. K. Baker of Coleman followed Col. Crimmins in a stirring address to the Ex-Rangers. On adjournment a visit was made to old Camp Colorado and the Sackett home.

Friday morning at 9:30, Capt. Jack Elgin, also of San Antonio, age 88, gave a most engrossing account of his experiences as Minute Man, trail driver and surveyor in this area of Texas. He gave us first hand stories of his acquaintance with Lieut. Edward Burleson, who brought the first Ranger Co. to Coleman County in 1856; of Lieut. Sul Ross whose first commission was to Camp Colorado; Col. Ben McCullough, George B. Erath and Rip Ford, all of whom won fame and honor in the Civil War.

The rest of the morning was taken up in business session. The report of the nominating committee which recommended the re-election of the old officers was accepted. The offer of a permanent home in Santa Anna was reaffirmed and the vote to meet here next year was unanimous. After lunch the old boys once more bade each other goodby with a hearty hope that they be reassembled neath the purple shadow of old Santa Anna Mountain in June 1939.

Santa Anna's thanks are due the city of Coleman which through S. W. Cooper, secretary of the Chamber of Commerce, pledged us loyal support in securing the building in the Texas Ranger Park here and assistance in any way possible in the further entertainment of the Ex-Ranger Association.

Cowboy Reunion Plans Complete

STAMFORD, June 23.—Some 200 top cowhands from Texas ranches will compete for \$2,300 in prizes in the rodeo contests during the ninth annual Texas Cowboy Reunion in Stamford July 4, 5 and 6. The rodeo is the central attraction in an elaborate program of entertainment for the three-day celebration which is expected to bring 75,000 visitors to Stamford.

R. M. Swenson, rodeo director, announced this week completion of arrangements for a line of rodeo stock calculated to give contestants plenty of difficulty. The Reunion's own herd of 25 bucking Brahma steers has been increased to 40 by animals secured from J. P. McFarland of Weatherford, assuring plenty of action in the steer-riding contest. Stock for the wild-cow-milking contest and the calf-roping event was selected in south Texas by "Scandalous John" Selmon, arena director and Bill Lyons of Pethro. Sixty Brahma calves were picked from a large number to secure uniformity of size and ample speed.

The distinctive feature of the Reunion rodeo is that its contestants are actual cowhands from the ranches rather than professional rodeo performers. Three performers will be held daily—8:30 a. m., 2 p. m. and 8 p. m. Besides the regular rodeo contests in bronc-riding, calf-roping, steer riding and wild-cow-milking at all nine performances, a cutting horse contest will be held on the morning of July 5. Oldtime cowboys, over 55 years of age, will compete in a special calf-roping contest.

In addition to the daily cash prizes, five special made saddles will be presented as championship awards.

Santa Anna members of the Texas Cowboy Reunion Association, composed of oldtime cowhands, which will hold its annual meeting during the Reunion in Stamford July 4, 5 and 6, include: J. N. Brannon, Chas. Haynes, Dr. T. Richard Sealy.

Dr. T. Richard Sealy is a member of the Board of Directors.

Maybe you never noticed it, but occasionally even the wisest owl hoots at the wrong time.

The only kind of good nature worth having is the kind that holds to you all day and still sticks to you when you get home and find that supper isn't ready.

Health Officer Urges Care In Milk Selection

Austin, Texas — In view of the fact that Governor Allred has proclaimed the month June 9 to July 6 as Milk and Dairy Products Month, Dr. Geo. W. W. Cox, State Health Officer, urges with this more extensive use of milk, that both producer and consumer be concerned as to its quality. The use of clean safe milk is a health measure.

Local interest in improved methods of producing wholesome milk has increased greatly in the past two decades and the striking advance in milk control has been responsible for the enormous saving in infant life.

Milk is perishable and especially during hot weather. To insure milk of good quality requires cleanliness, sterile utensils, protection against flies, careful bottling and maintenance at low temperature. The presence in fresh milk of large numbers of bacteria, due to insanitary methods of production is a health hazard.

Among the diseases which may be transmitted through milk are tuberculosis, typhoid fever, scarlet fever, diphtheria,

septic sore throat, undulant fever, diarrhea and enteritis. Numerous milk-borne outbreaks of disease occur every year in this country and from the use of milk that might have been safe with proper care.

We should firmly insist that the milk we drink be carefully produced, so that we will have the maximum practicable protection along the line from the cow to the consumer.

Here's Good Health, Governor!

AUSTIN, Texas—The milk route to good health was recommended by the Governor and the State Health Officer of Texas as Governor James V. Allred (right) issued a proclamation recently declaring June 9 to July 6 as Milk and Dairy Products Month. With him in the picture is Dr. George W. Cox, state health officer.

Letter From India Missionary Tells Of Landing and Joy at Return to Work

The following is a part of the letter from Miss Lena Boyd, missionary to India, who visited relatives here last fall. A portion of her letter was carried last week.

Feb. 24—Mediterranean Sea. "We had four hours in Gibraltar to put off passengers, mail and cargo. Others in party went off, but I had seen the historic port before and, as the weather was so bad, I did not go. I enjoy viewing it from the boat. We were at Gibraltar on our niece's birthday (22nd) and she enjoyed the day. The rest is helping her and she enjoys every minute that she's awake. It's noon now and we are to arrive at Marseilles at 2 p. m., having the remainder of the day and all of tomorrow there, leaving after midnight. There will be plenty of sight-seeing and last shopping. The sea is calm.

Feb. 25th—"Enjoyed seeing the city of Marseilles of 900,000 people."

March 1st—"We are due to arrive at Port Said, Egypt tomorrow morning for two and one half hours. Then through the hot Suez Canal and Red Sea. We've had so much cold weather we'll be glad for hot weather again. All well and enjoying the trip.

March 4th—Port Said. Arrived here at 4 p. m. and gre to leave at 8; took a little boat across the water to the district of stores where some bought sun helmets (hats) and posted letters.

March 6th—Aden, Arabia. "Are to be here from 11 a. m. to 2:30 p. m. All very interesting on the edge of a desert. A week from tomorrow morning I shall be in Rupa! (the mission station). I'm getting so excited about it.

Our niece likes the ship life and doesn't care to land. Some passengers are bound for Australia, while a woman and her daughter are going to the Fiji Islands arriving one month later.

Only six more days and we shall eat lentils and whole-wheat bread in my own house! I'm so glad. No one knows how glad—to be getting back.

We passed through Messina Straight between Italy and Switzerland. I had never gone that way before, but around

Sicily by Malta. Saw volcano Stromboli in action, not violent. Saw many porpoises and flying fish.

It's been a pleasant voyage and we've almost forgotten the two rough days on the Atlantic and one on the Mediterranean."

March 9th—"There are only seventy-two hours and thirty-two minutes to Bombay. Eron and I are glad to land."

March 10th—Bombay. "We are mooring and will land in a few minutes. Thankful for sailing mercies."

March 31—Rupa. "Last Friday we went to Hardwar (birthplace of the sacred Ganges River) to see the Kimbh Mela (religious fair) which is held every twelve years. Eron and Dick were amazed at the number of holy beggars, maimed, halt and blind and at the awful idol-worship.

My cat gave me one kitten on my birthday. A man from the village gave me two orphan girls, five and ten years of age, his nieces. Eron and Dick gave me one hundred rupees, all very nice gifts."

The following lines were written by Miss Boyd's sister enroute to America on May 3rd.

"We are 1848 miles from South Hampton, Eng. and 1498 miles from Baltimore, Md., our landing place. We dock at Norfolk, Va. where we spend one day.

We've had plenty of rough weather on this small vessel of 13,000 tonnage, but we let the "Queen Mary" go by, remaining in London for nine days to get this one in order to land at Baltimore nearer Washington, D. C. where our car is.

Plan to visit sister in Knoxville, Tennessee via New Orleans to Houston before going to College Station, then home.

We left Lena happy with her big family."

May 6th—"We are within five hours of the United States. The sea is smooth. I'm standing on deck in the sunshine, writing, hoping to see a whale (my desire was to see a whale and a volcano in action). We did see "stromboli" in the Mediterranean, just a big painted mountain with three villages at its feet.

We were very near and could see the hot lava trickling down its sides where it reached the water, causing steam to rise. At Bombay we decided very hurriedly to take a boat which had only two vacancies. All traveled first class, with "Royalty" as the family of the Viceroy of India was returning to London.

There was the mother, two sons—the eldest being Earl of

Winners In 4-H Wardrobe Contest To Be Announced By Judge Saturday

The clothing contest for Coleman county 4-H club demonstrators closed last Wednesday and Thursday, June 15 and 16, as the clothing contest judge, Mrs. J. H. Greenway, made her final inspection with Miss Christine Trowbridge, county home demonstration agent. Mrs. Greenway visited each of the demonstrators early in the year before the girls actually began work as clothing demonstrators, and visited each demonstrator again Wednesday and Thursday of last week to judge final improvements.

Seven clothing demonstrators have made excellent improvements and have completed interesting demonstrations. Winners will be announced at the 4-H Rally Day on June 25 at City Park, Coleman.

The 4-H club clothing demonstrator was to make an inventory of her clothing, list her clothing needs, and keep a list of clothing purchases made through the year. Each girl was to work with improvement in personal appearance, the care and repair of clothing, and a better storage space for clothing. Also, each girl has made four garments throughout the year's work.

Each clothing demonstrator has written a detailed story about her work as clothing demonstrator. Excerpts from some of the stories follow:

Willa Ann Holder, Echo 4-H club: "At our first club meeting in October, my club elected me as clothing demonstrator. I decided that since my club elected me I would do my very best. The first thing I did was to take an inventory of my clothing to see what I really had that I could use. Then I could mend all my clothing, and make a list of my clothing needs for the year. I have kept a record of my clothing expenses this year and I found that my wardrobe had cost me \$18.68.

Zelda Smith, New Central 4-H Club:

"When I began work on my closet, it was papered with a light paper, but the rod for hanging garments was hanging cross-wise and was so high that I could hardly reach it. I lowered the rod and placed it length-wise in the closet. Then I painted the door of the closets, the floor, shelves and rod a light cream color. The lowest shelf in my closet is the shoe shelf, with plenty of room for my shoes, and a shoe polish box which is certainly convenient for polishing my shoes. The second shelf is divided into compartments by using the bottoms and tops of empty paste board boxes, and is a good place to keep my folded garments, socks, and handkerchiefs. For the top shelf, I made hat racks and keep my hats there. Now, I have a light, dust-proof closet at the cost of only 30c for paint."

Doris Walker, Cross Roads 4-H:

"In my clothes closet, I only had one shelf and it was so

high that I could hardly reach it—and I had to hang my hats on nails on the wall which made them dusty looking and out-of-shape. My closet, too, was a little dark looking. In improving my closet, I papered it with a light paper and I painted it with ivory paint. I lowered the shelf and made two hat racks to use on the shelf for my hats. As it was still difficult to find things in my closet at night, I made a flashlight pocket for my closet door."

Mary Frances Herring, Whon 4-H Club:

"You will never know how much fun it is to be a clothing demonstrator until you have tried it. Just think all the nice things I have done in making and caring for my wearing apparel. Now anytime I get ready to go, my wardrobe is in 'tip top' order, and I can't help but feel proud of my accomplishments."

Zelma Sikes, Brown Ranch 4-H Club:

"I have certainly enjoyed being clothing demonstrator. I have learned so much about sewing and how to wear my clothes. Too, I have learned to care for my hair by brushing it 100 strokes every night before retiring so that it is soft and glossy, and easier to arrange. I think that the things I have learned as clothing demonstrator will help me all through life to be a better member of my home."

Dairy Day Plan - -

(continued from page three)

oid system, most of the first places were gathered by one or two breeders, but the classification plan may result in a number of blue ribbons being awarded. Often there is only a very small difference between first and second animals in a class, and under the dairy day plan, both would receive equal prizes.

Of the 1,045 animals exhibited, 179 were awarded blue ribbons, 474 red, and 363 white, while 129 were not placed.

In addition to the classification of the animals, a course in judging was offered in which 508 4-H club boys, 789 Future Farmers, and 576 adults took part. A course in judging dairy products attracted the participation of 531 persons.

The afternoons of the dairy days were devoted to a discussion of breeding, management, feeding, pasture, and trench silos.

Meetings were held at Lamesa, Tulia, Abilene, Gatesville, Westaco, Fairfurnas, Wharton, Temple, Carrollton, Grapeland, Sulphur Springs, Mt. Pleasant, Canton, Corsicana, and Decatur. Breeders from adjacent counties were represented in addition to local dairymen.

City Fire Marshall Tells Regulations in Use of Fuses

City Fire Marshall J. C. Morris announces regulations in use of fuses for residences and business houses this week.

Residences should use 15 amp fuses and not over 20 at the most while business houses should not use over 30.

These regulations are in keeping with information received by Mr. Morris to keep down fire and fire insurance rates.

Uruguayan Girls Will Go to Bat

Demonstrating the "new" game she is taking back to Uruguayan girls, Miss Alcira Barburu explains to her mother the idea behind a baseball bat. After a year as a foreign exchange student at Texas State College for Women she plans to teach the girls in her country the sports and activities she learned over here. Her mother, who speaks no English, traveled twenty-eight days from their home in Montevideo, Uruguay, to see Alcira graduated.

Out-Of-Town Guests Honored At Picnic

Mrs. R. C. Gay and Mrs. J. R. Banister entertained several friends at the Texas Ranger Park last week, honoring several out-of-town guests.

A picnic supper was enjoyed during the evening and old time songs added pleasure. The honor guests were Mesdames Ruby Westerman of Hotavilla, Arizona, Myra Scott of Brownwood, Leta Heath of Denver, Colo., Myrtle Norwood of San Antonio and Brownie Ray of Longview. Local guests were Mesdames W. R. Kelley, W. E. Wallace, Will Hayes, H. W. Kingsbery, M. L. Guthrie, W. O. Garrett, J. R. Gipson, Jess Owen and Emma Ratliff.

Take Precautions Against Typhoid

Austin, Texas, June 16.—No matter how busy you are just now planning your vacation, looking up road maps, camping sites and equipment stored since last summer, Dr. Geo. W. Cox, State Health Officer, advises all Texans to add one extra item to their list of things to be done before vacation starts.

The advice: "If you have not been vaccinated against typhoid fever within the last year or two, go to your family physician and have him give you the three 'shots' that will protect you against the disease. It takes several weeks for the protective treatment to establish itself throughout the system so it is an undue risk to wait until just before starting your vacation to attend to typhoid vaccination. Begin the treatment without further delay," Dr. Cox admonished.

"Typhoid fever is much less of a menace than it was a number of years ago. But it still is the cause of much unnecessary sickness. Typhoid fever is contracted through the mouth. You either eat or drink the germs. Typhoid is transmittable through the use of water, milk or other foods that are contaminated by typhoid germs passed on by someone ill with the disease or someone who has had the disease.

"Vigilant protection of public and private water supplies from pollution, pasteurization of milk, protection of food supplies from contamination and such sanitary precautions have reduced greatly the incidence of typhoid fever in Texas.

"But there are certain other sources of danger that cannot be reached by public precautionary measures. Certain persons who have had typhoid fever continue to pass the germs that cause the disease long after they have recovered from the illness—these persons are called typhoid 'carriers.' When they are careless in their personal habits they are likely to leave typhoid germs on any food they touch. In recent years some of the more serious outbreaks of typhoid over the state have been due to careless carriers.

"There are other sources of typhoid: a stream or spring along the highway may be clear and sparkling but that is no guarantee the water is free from contamination. Milk may be a source of danger. If un-

sure of the safety of your milk or water supply, it is a good practice to always boil them before using. The Texas State Department of Health can warn you against sources of infection—but vaccination is the only sure way against contraction.
