

SANTA ANNA NEWS

VOLUME 34

SANTA ANNA, COLEMAN COUNTY, TEXAS, June 11th 1920

NUMBER 23

POPE NO. 5 HOLD- ING UP AROUND 800 BARRELS

Pope No. 5 of the Gladys Belle Company is flowing by heads every hour and a half. The well is thought to be improving, it is holding its own around 800 to 1000 barrels. A huge storage tank has been placed at the well and the oil is being pumped thru the Texas Best pipe line into tank cars. Many cars are being loaded each week, going out to be refined. The demand for the Santa Anna oil is growing stronger all the time. Refinery agents and pipe line men are here every week trying to engage the entire output. There are a number of wells now on the pump making big pay for the lease and royalty holders.

Knights of Pythias Lodge No. 275, Elect Officers

Last Tuesday night was the regular meeting night for the above stated lodge. The following officers were elected for the ensuing term: J. J. Hill, C. C.; Loyd Burris, V. C.; Lee Moberg, Prelete; Gec. Williams, M. W.; J. F. McKinney, K. R. S.; J. F. McKinney, M. Ex.; Ed Sewell, M. A.; A. B. Brown, J. G.; Jim Morgan, O. G.

J. P. Mathews Leases 40 Acres.

One of the most interesting deals pulled off this week was when J. P. Mathews leased a forty acre tract to the Ohio Fuel Oil Company for \$400 per acre. This lease joins the R. F. Campbell tract on the west. Leases are changing hands rapidly at an increasing price and the lease hounds continue to flock in on every train. Santa Anna oil field is attracting the eye of many oil men.

MRS. B. H. MELTON TRACT TO BE DRILLED SOON.

Dodwell, Whiting & Teatsorth have closed a drilling contract with Mrs. B. H. Melton to drill with a standard rig on the Melton holdings a short distance from the big Pope No. 5. Active work is to begin at once. This is a choice location and will hold the interest of the field during the drilling of the Melton No. 1.

We understand California operators are making a location in the Trickham field, which joins the Santa Anna field. They expect to do extensive development in the near future.

BROWNWOOD REFINERY TO HANDLE POPE OIL.

Brownwood, May 28.—This town is to have big and new industrial features. The production of the Gladys Belle Oil Company from its wells in Coleman county is to come here and be refined instead of going to a refinery in Pennsylvania. The deal which consummates this interesting feature was announced

SANTANTA CHIEF SURPRISES THE GENERAL PUBLIC

Santanta Chief Well on the Kingsberry farm, seven miles southeast of Santa Anna, drilling in some two months ago at 1,385 feet, is flowing by heads. This well has been shut down since it was drilled in sixty days ago waiting on pump and tubing. Saturday when tubing was set and the pump was started, the well began to flow and has been flowing at intervals, when agitated with the pump. Contract was today let for three more wells by this company to be drilled on their block of 600 acres, drilling to begin at once.

Magnolia Robertson well on Woodard farm 3 1/2 miles east of Santa Anna is setting casing at 2,337 feet, with a good showing of gas and oil. Scouts are watching this well and are expecting it to be one of the best wells in West Texas territory.

Pope No. 5, 3 1/2 miles east of Santa Anna, is holding up to usual production, flowing by heaps of an average of one hour and fifteen minute intervals. Contractors, drillers and investors, professional men of all kinds are filling the town every day looking for a chance to get in on the ground floor and be one of many to reap a fortune. All hotels and rooming houses are filled, the citizens of town are opening their homes so that the crowds can be cared for.

Merle Kingsberry, who has been teaching school at San Saba, has returned home for the summer. Miss Bruce Dixon accompanied her home to make her a little visit.

Take the home paper.

The price paid for the oil is the mid-continent market of \$3.50 per barrel. There has been a scramble for the Gladys Belle oil ever since Pope well No. 5 was brought in, the product being of a very high grade. The Texas Oil & Gas Refinery is just finishing a big lubricating oil refinery here which it is said will be operated in connection with the gasoline skimming plant, and is maturing plans for the construction of a refinery to produce all the by-products of petroleum oil.

The Texas Oil & Gas refineries of Brownwood have also contracted for considerable oil from the Trickham field.

The statement is also authorized that a pipe line is to be laid from Sipe Springs to May, the oil field in the northern part of Brown county, and the present northern terminus of the Brownwood North & South railway, and then shipped to Brownwood in tank cars, where it will be refined.

MEETING OF THE JACK LAUGHLIN WELL ATTENDED

The Legion held its monthly meeting Saturday night. The house was brought to order by the Post Commander, and the business of the Post was brought before the members. A committee was appointed to lease a building for a club room. The intention of the Legion is to have a first class club, that the people of the town and county will be proud of. This is not a club, as most people have an idea takes place in clubs, but we want a place down in town where we can meet and enjoy ourselves with our buddies and have some amusement and place to read. We are going to ask the co-operation of the public in this, as these post members are the same boys you were cheering on only two short years ago and wishing you could be with us, in the camps and on Flanders field. We are giving you the chance to help and we feel sure the public is going to respond whole heartedly.

The Legion now has 134 members but should have 200. So if any former soldier, sailor or marine happens to read this that are not already members get in line at once. The post finance officer at the postoffice will gladly enroll you (or any member of the post.)

The Post wants to thank the public for the splendid co-operation already shown, and we assure you that we will uphold that most important clause in our constitution, one hundred per cent Americanism. "Taps?"

NOTICE TO PUBLIC

In the past we have been allowing the public to use Woodmen hall for meetings of various kinds. We would like to continue this policy but find that we cannot do so with justice to ourselves and the other fraternal orders that use the hall, as these public gatherings usually leave the hall in a filthy condition.

The lodge has therefore, by unanimous vote, resolved not to allow the use of the hall for public or private gatherings of any kind, whatever, keeping it for exclusive use of the fraternal orders that meet there regularly.

Please do not ask us to deviate from this rule upon any occasion as it will be impossible to comply with the request.

J. E. Watkins
H. O. Blair
G. W. Faulkner
Managers.

Miss Annie May Jackson of Brownwood is here this week visiting the home of W. L. Mills.

Remember Dollar Day, June 16th.

KNIGHTS PYTHIAS CELEBRATED MONDAY EVE

With an attendance of about one hundred including several visitors from Santa Anna and Comanche, the Brownwood Lodge of Knights of Pythias held a celebration Monday evening in honor of Grand Inner Guard Chas. E. Baughman and Vice President W. P. Denny of the State Association of Keepers of Records and Seal, with Grand Chancellor Chas. Brewington of Stamford as an official visitor.

District Deputy Grand Chancellor S. C. Findly of Comanche occupied the chair during the open session of the lodge following a business session. The address of welcome to the visitors was by Rev. C. Moore of Brownwood who dwelt at length upon the principles of the order. Mr. Ed Baxter of Santa Anna responded, with flattering compliments of the work that the Brownwood lodge is doing. The Grand Chancellor, Mr. Brewington, delivered a short address in which he outlined the program that he has mapped out for this year, stating among other things that he wants to secure at least two thousand new members before the first of January. The Grand Chancellor's appeal for financial appeal for the Pythian Widows and Orphans Home at Weatherford was met by a pledge of \$150, in formally made, by the Brownwood lodge. The money is to be used in purchasing additional equipment for the home in which there are now 110 orphan children.

Grand Inner Guard Chas. E. Baughman, in a brief address, presented the short word "Pep" as an appropriate slogan for the Pythian lodges of this district. He reviewed the work of the Brownwood lodge during past two years and complimented the membership heartily.

W. P. Denny, for twenty years keeper of records and seal of the local lodge, told the assembled members "How to get results" the sum and substance of his advice being to "Do it now". Some interesting phases of the routine work that is done by the lodge secretaries were presented during the address. A refreshment course with cigars was served just before the mid-night hour. Brownwood Bulletin.

The following attended the celebration: Stafford Baxter, Ben Binson, John McKinney, E. E. Polk, and Ed Baxter, Mrs. Ed Baxter and daughter and Miss Lula Vollenine also spent the evening in the city.

Send the News to the folks.

COLEMAN COUNTY OIL NEWS; AND OTHER ITEMS

Jim Ned Setting Casing.

The Jim Ned well of the Garner Oil Company is preparing to set 6 5-8 casing by the tools. The well is cleaned to 2930, with 10-inch hole, and is showing two million feet wet gas.

Other Drilling Notes.

Prairie Company, Miller tract, rig; location 450 feet north of Miller No. 1.

Roth & Faurot, Overall, drilling after cleaning hole, depth around 1500.

Simms Company, Dibrell, fishing job, depth around 3200.

Seamans Company, Parker, swedging casing, depth around 1400.

Texas Company, Creswell, repairing rig.

Magnolia, Morris 10, no report.

Texas-Arizona Co., Adams, drilling up underreamer lug.

Gladys Belle, Campbell tract, standard rig.

This paper has no report on other wells drilling in Coleman county.—Democrat-Voice.

Oil Leases Filed.

J. P. Morris to J. K. Rosson Sr., of Fort Worth, 160 acres being northwest one-fourth of C. C. Crumpton survey 82; \$1,600.00.

Assignment: W. C. More to H. H. Hoffman of Houston, 159.1 acres being southeast quarter L. M. Biddle survey 284, also southwest one-fourth T. & N. O. survey 10.

Assignment: Cosden Oil & Gas Co. to W. Z. Champion, 160 acres contained in H. T. & B. survey No. 1 and northeast part of survey 62.

Assignment: W. Z. Champion to L. I. Dodwell, 160 acres contained in H. T. & B. survey No. 1 and northeast part survey 62.—

Deeds Filed.

Mrs. M. M. Taylor to Bryan Havens, lot 1 in block 2, Pearson's addition to Santa Anna; \$1,500.00.

W. L. Rose to J. S. Rogers, block 57, Phillips 2nd addition to Coleman, including gin fixtures and appurtenances; \$5,000.00

Mrs. Mary E. Powell to T. C. Ayers, 44x102 feet contained in block 10 Clow's addition to Coleman; \$1,200.00.

Mrs. J. S. Sanderson to W. O. Garrett, 484.6 acres contained in Jas. S. Martin survey 217; \$15,250.00.

M. Q. Martin to H. W. Sadler, undivided one-half interest 100x125 feet and being part of lot 30, Phillips addition to Coleman; \$500.00.

J. H. Livingston to J. P. Richardson, 78x140 feet being part of block 13, G. C. & S. F. addition to Santa Anna; \$3,250.00.

J. M. Summers to J. O. Coffey, lot 15 in block 11, townsite of Novice; \$4,000 and reservation of one-half interest in stone wall.

J. M. Summers to J. O. Coffey, lots 11 and 12 in block 2, townsite of Novice; \$2,000.00.

ITS EFFECT

"Here's a new play to be produced to be called 'The Hammer.'" "That ought to make a stunning hit."

DETERMINING STAR COLOR.

A new means of determining star colors, devised by Dr. E. S. King, is described in the Journal of the British Astronomical Association. Over the telescopic objective is placed a piece of plate glass (commercial glass is good enough for the purpose), which is coated with a gelatin film, one-half of which is stained yellow and the other half blue. The images of the stars are then photographed out of focus on isochromatic plates. Each image, therefore, appears as a disk, one portion of which shows the effect of the blue light, and the other the effect of the yellow light. The two halves of the image are then compared by means of a photographic wedge or by some similar means.

ARTIFICIAL FUEL.

From coal slack and dust, lignite, heat and a binder of pitch, says an article in Popular Mechanics Magazine, an excellent house or industrial fuel will be manufactured. The ingredients are pressed into blocks of any size, and of a layered or laminated structure that heightens the resemblance to natural coal. As the stuff is made from materials regarded hitherto as practically valueless, the market price will be less than that of the cheapest coal.

WOMEN VOTERS.

Massachusetts has the greatest preponderance of woman "voters," with 58,264 more women than men. North Carolina is next with a woman majority of 15,288, and South Carolina, with 10,307, is third. In Rhode Island women of voting age outnumber men by 3,196, and in Maryland by 1,292.

SARCASTIC.

"So the baseball season is on again." "Yes, and the husbands who couldn't possibly get home to dinner before seven o'clock, will be quitting their offices at three every afternoon."

FLYING FATALITIES.

Of the 74 flying fatalities in the United States air service during 1919, 83 per cent are attributed to the fault or carelessness of the pilot as the primary cause, and 8 per cent to the failure of the plane.

The paper currency of 30 principal countries of the world at the beginning of the war aggregated a little over \$7,000,000,000. At the end of the war, November, 1918, it was \$40,000,000,000, and in December, 1919, it totaled \$51,000,000,000, these figures being in round terms and exclusive of the currency issues of the bolshevik government, which alone are estimated at \$34,000,000,000.

ITS RESULT.

"There was one fact which gave color to the deportation scheme of the government." "What was that?" "It gave the reds the blues."

COMING CATASTROPHE.

First Young Hopeful—I read in the paper where folks over here are going to wear Dutch wooden shoes. Second Ditto—Gee, whizz! Ma's slipper is hard enough for me.

NOTICE OF SHERIFF'S SALE OF REAL ESTATE.

Whereas, on April 6, 1920, J. W. Gates recovered judgment, in District Court of Coleman County, Texas, against Bart Russel and J. F. Thompson for the sum of \$1,710.81, with interest there-

on from date of judgment at the rate of ten per cent per annum and cost of suit, in Cause No. 2374, J. W. Gates vs. Bart Russel et al, pending in said court which judgment is a foreclosure of vendor's lien on the following described property, to-wit:

A part of survey No. 84, pat-

ented to Adam T. Brown, assignee of W. H. Cooper, by the state of Texas, and described by field notes as follows:

Beginning at the northeast corner of said survey No. 86, and northwest corner of G. H. & H. Ry. Co. survey No. 84, from which a hackberry brs. N. 15 E. 130 vrs; Thence south with a line between said surveys Nos. 84 and 86, 960 vrs. corner, from pipe and stone mound; Thence west into said survey No. 86, 1194 vrs. to corner; Thence north 960 vrs to corner in the N. line of said survey No. 86; Thence east with N. line of said survey No. 86, 1194 vrs. to the place of beginning, containing 203 acres of land and being the same land conveyed by F. Graf to J. W. Gates, August 8, 1917, recorded in volume 100, page 92 of deed records of Coleman County, Texas.

And, whereas, on the 2nd day of June A. D. 1920, an order of sale on said judgment was issued out of said court by W. E. Gideon, Clerk thereof, demanding the seizure and sale of the above described land to make the amount of the above described judgment which order of sale came to my hands on June 2, 1920, at three o'clock p. m. and was by me executed at three-thirty o'clock p. m. on June 2, 1920, by levying upon the above described lands and premises as the property of the said judgment defendants.

Now, Therefore, this is to notify all persons that I will further execute the said order of sale by selling the above described lands and premises, to the highest bidder for cash, at public auction at the court house door in the town of Coleman in Coleman County, Texas, between the hours of 10 o'clock a. m. and 4 o'clock p. m. on the first Tuesday in July, same being the 6th

AREL BERTRAND, Prop.

Best of 22
 The Eldorado Stage Co. of Los Angeles tested 22 leading makes on 12-passenger Packard buses. Not a tire was found to match the Millers in that extreme service.

Some Costly Mistakes Men are Making on Tires

Men who buy tires on a guess, or on claims, are making some costly mistakes. Large tire users make tests and comparisons. And the results in late years are amazing.

Hudson Taxi Co. of Detroit, for instance, made a long test on Miller Cords. And the average was 15,000 miles.

Miller dealers get hundreds to compare Miller mileage with others. And they find an increased mileage of 50 per cent to 75 per cent.

Large truck users are comparing Miller Cords, passenger type, with all others. And they are coming in large numbers to Millers.

California stage lines are using Millers after million-mile tests with many rivals.

The Way to Know

At the Miller factory over 1,000 tires yearly are worn out in tests and comparisons.

They constantly prove that Miller is the best tire built.

In extreme rear-wheel tests they require an average of 15,000 miles on Cords.

They prove that the new Miller tread outwears the best of others by 25 per cent.

Such tires should be tested by every owner of a car. See what they give you. Compare with any tire on opposite rear wheels.

Miller experts, in late years, have doubled average tire mileage. Old-time figures do not apply today.

You will fix new requirements for your tires when you try a Miller. Do it now.

Treads Patented
 Center tread smooth with suction cup, for firm hold on wet asphalt. Geared-to-the-Road side treads mesh like cogs in dirt.

THE METHODIST CHURCH SANTA ANNA.

Everything on the move, the congregation continues to grow. The Sunday school is gaining rapidly, last Sunday we enrolled one hundred and seventy five and could we have gotten the number of those who came late we would have numbered not less than two hundred. The classes have all put on a campaign for greater work. We want every boy and girl to be on time next Sunday morning, we expect to show you those fine silver class pins which are to be given away. Every boy and girl can own one of those

silver class pins. If you have never been with us before come next Sunday.

The repairs on our church are almost completed, you who have not contributed to this expense please see Brother E. M. Raney, or J. Frank Turner. Our quarterly conference was a good one, quite a number of the church people remained for the conference and were pleased. If you are a real Methodist you want your church to be the very best. There is no reason why it should not be, every member of the church should feel that the success of the church depends on them. Do not forget to pray for

those of our members who are suffering. Pray for your pastor and your church. Our children's day was a great success, many thanks to the trainers. Joseph Lee, Pastor.

Announcement.

We wish to announce that we have purchased half interest in the Delco Light Agency for Coleman, Brown and Mills counties. We expect to carry a line of vacuum supplies, fans and electrical supplies. City Garage.

BIRDS MUST BE PROTECTED

Without the Native Songsters Successful Fight Could Not Be Waged Against Insects.

One of the most valuable assets our nation has is its native birds. Too much cannot be said or written in their favor. Destroy them and in a few years the injurious insects will have multiplied to such an extent that trees will be denuded of their foliage, plants and crops cannot be produced.

There are more than 2,200 species of our native birds, and millions of individuals. As a result of the extermination of more than 50,000 stomachs of birds, they established a reasonable doubt that birds are of economic value, first in eating harmful insects, their eggs and larvae. Second, in eating the seeds of noxious weeds. Third, in devouring field mice and other small rodents that injure the crops, and fourth, in acting as scavengers. While the economic value of birds should be kept in mind the esthetic value should also be considered. Man cannot live in a world alone. We

should protect them for their graceful forms, their charming beauty, their delightful melody and their joyous activity.—Thrift Magazine.

ODD "CURES" FOR SICKNESS

Bed of Old Cinders—Believed Efficacious in Greece—Preposterous Remedy for the Colic.

When a Greek baby is sick and all other remedies fail, a bed of cold cinders is very generally used as a last resort. The cradle is filled with old ashes and the infant is buried in them. The American nurses have never been able to discover what the benefit to be derived from this curious custom was supposed to be.

The cure for colic is even more curious. When the baby has a severe colic the ponds in the environs of the house are diligently searched by members of the family and all the frogs are captured. These are placed alive on the child's abdomen. It is a very tiresome treatment, as someone must sit and keep the frogs from hopping off the patient. No thought is given to the terror these jumping frogs may have for the child.

Among the gypsies that wander over the Balkans the work of the Red Cross nurses is more difficult. It will take years of preparation and education to enable them merely to begin to understand the idea of child welfare.

FORTIFICATIONS OF METZ.

An article by Coy. E. M. Blake, C. A., in the Journal of the United States Artillery, speaking of the modern Metz fortifications, says that the turrets containing the Krupp guns can be manned and supplied without ever exposing a man, as all batteries are connected with other works of the "Feste" by deep subterranean galleries. Miles of these galleries have been cut, with a cross section and grade to allow men to circulate rapidly when needed, and one finds complete kitchen, bakeries, bathing and toilet rooms for the garrison, large recreation rooms, electric lighting and power, and a complete system of forced draft ven-

CHILDREN AVERT PANIC.

A Jefferson City paper reports that a panic was averted in the largest motion picture house in the town one night recently by a number of children who occupied front seats. A terrific storm came up and in the midst of the tempest the lights went out. The crowd in the theater took fright, but the children immediately struck up "Over There," which nearly every one knew, the orchestra took up the tune and presently the entire crowd sang until candles could be brought to light the audience out.—Kansas City Times.

B. BOYLE, Editor and Owner

Friday, June 11, 1920

Entered at the post office of Santa Anna as second class mail

While Dr. Lee was enjoying the comforts of rest Sunday evening Mr. John Haynes and Miss Winnie Jennings presented them-

selves asking that they be joined together in the holy bonds of wedlock, Mr. Lee who is always ready to help in every good work or word, in his pleasant way soon had two hearts beating as one and the young married couple went on their way rejoicing. We will take occasion to say here that Dr. Lee believes in a good strong church and a good town for that church to live in and he never fails to recommend his town paper, knowing that the living newspaper always helps to make a living town.

And now what? The newspapers are facing the most critical period in their history, not in the matter of finance, not in raising prices, or the problem of print paper, but in their respon-

sibility to the people. The newspapers are on trial, just as the church is on trial, just as the great organizations are on trial. Important industries of a quasi-public character are measured in terms of public service. They will emerge from the crucible cleansed and more forcible only in proportion to their ability and willingness to add something to the improvement of human kind. The editor faces a new era, particularly the country editor. The old slipshod methods of newspaper making will no longer do. The people will not tolerate the careless publication of matter without thought of its effect on the public mind and a disregard of consequences. For years the metropolitan newspaper has been a bull in the literary china shop. Now a shocked public conscience calls for reform, and unless that reform is rapid and unequivocal the prestige of the newspaper will soon be on the toboggan slide.

The honest publisher seeks knowledge. He talks or gets into contact with the great men in the great industries and gathers their viewpoint. He asks questions. He listens, he reads, he studies. Then he is apt to reach intelligent conclusions on matters that affect the public welfare. He does not see a dangerous trust in every great enterprise, a villain in every man who has made a success, nor a crook in every man in public life. The successful publisher must be more than honest to himself, he must make his paper earnestly helpful to the people.

SPRING IMPROVEMENTS.

Few things give more pleasure and satisfaction than living in a beautiful town. One may not have much money to spend on the development of his home place. But whoever raises fine trees, shrubs, and flowers, gives pleasure to all his townspeople. And all can help maintain that order which is the foundation of all beauty.

To secure a town of this kind takes constant effort and vigilance. The general run of people are careless, and they are very busy. If a few people on a street are indifferent about maintaining order, the bad example infects the whole neighborhood. So there needs to be a persistent campaign to create higher standards of care of the homes and public places, such improvements as will beautify the community and all its dwellings.

Higher standards of care are necessary than formerly if a community is to acquire a repu-

tation for an attractive appearance. A stream of automobile visitors come through from early spring till winter. If the people of this community are slow to clean up their grounds and remove rubbish, if there is a general condition of neglect, no one of these visitors will have much to say in favor of Santa Anna. But if the spring clean up work is thoroughly done, if there is a general appearance of neatness and care, the word will be passed in every town within 100 miles that Santa Anna is one of the best looking places in the state.

AUTO SUPPLIES

WE AIM to carry in stock all the auto supplies you are likely to need. And we know our prices are lower than you would oftentimes pay, if you sent away. Besides, we save you the high express charges you have to pay on small orders.

For All Makes of Cars

We carry a large line of high quality tires in all the popular sizes. And you can always be sure of getting good, live, fresh goods when buying here.

Spark plugs, dry cells, horns, lamps and all standard supplies at prices that please.

"Same Goods for Less Money"

LETTER FROM CONGRESSMAN BLANTON'S CAMPAIGN MANAGER

To Voters of 17th District:

Determined enemies in his absence through false accusations are attacking your Representative. Don't condemn him without a hearing. He is faithfully performing his duties, attending to your business. Campaigns tempted many Members home. He sticks to his post, stays on the job and puts duty before personal interests. When Congress adjourns, he will answer his accusers to your complete satisfaction.

No time and no where has he ever opposed honest labor or lawful unions. His uncompromising fight has been against the deadly enemies of honest labor, anarchy, disloyalty, brigandage, inefficiency and the attempt of destructive radicals to throttle Congress and overthrow our Government. Statistics show that during 1919 unlawful strikes caused a loss of \$75,000,000 in wages, and \$1,250,000,000 in our production, and that railroad employees alone paid to their Unions last year the enormous sum of \$27,000,000, maintaining their leaders and agitators here in luxury. And the farmers and unorganized masses bear the burden.

Congressman Blanton is known from Seattle to Florida. His efforts to protect this Government, and save it from domestic enemies, to stop graft, waste and extravagance, to abolish useless Departments and clean them up, has given him a National reputation. His work is admired and appreciated by every posted, unbiased citizen in the United States.

There are seven Congressmen who belong to labor unions. When Congressman Blanton has refused to wear a yoke, and obey orders from Mr. Gompers; when he has forced Members to stay in Washington and attend to business; when he has prevented them from passing scores of private bills involving more than a hundred million dollars; when he has tried to reduce their mileage to actual expenses; when he has tried to abolish the practice of giving to every Member each year a Cedar chest, a pine chest and an oak chest at Government expense; when he has blocked all efforts to raise the Members' salary from \$7,500 to \$10,000; when he has denounced the frequent and expensive junketing trips and tried to abolish them; when he has blocked at every turn the annual \$300,000 garden seed graft; when he tried to pass his measure forbidding Members and Senators from appointing their relatives to office; and when by points of order, sustained by the Chairman, he has knocked out of appropriation bills over \$100,000,000 saved for the people, is it any wonder that some side-jobs and under-cuts have been made at him from the floor?

But radical leaders have sworn to defeat him. Samuel Gompers, the American Federation of Labor, the 168 Locals of Federal Employees, the I. W. W.'s, the Communists, the Socialists, and the pernicious Plumb Plan League, concerted to put "Blanton" at the head of their "black-list," and have sworn to defeat him regardless of cost. They publish in New York and San Francisco that they will go to any extreme to put him out of Congress. This is general knowledge over the United States. They have launched three new campaign publications here in Washington to deal out weekly attacks. They boast here they will spend \$100,000 to defeat him. The editor of the TIMES in Abilene asserted editorially that he was told by a Union member that they would spend \$200,000 or defeat Blanton. Unions paid for a whole page attack against him in the ABILENE REPORTER. The SWEETWATER REPORTER, owned by non-residents, publishes vicious articles and editorials, has printed circulars and in its envelopes has paid postage and necessary clerical fees to mail same over the district. Since its initial issue a few months ago, the so-called OLDEN ADVANCE, edited by Don H. Biggers from Eastland, but neither published in the town of Olden, or even in Eastland County, but elsewhere, has filled its columns each week with vicious attacks. May 15, 1920, it devoted its entire front page of 6 full columns, and practically all of its 2nd, 3d and 6th pages to misrepresentation

and abuse. On May 6, Biggers wrote certain editors for rates, asserting that before the Primary he was going to cover the district either with political supplements, 6-columns, 2 or 4 pages, inserted in all the newspapers, or else by printed circulars. Who is paying for it all? Is Mr. Biggers able and willing thus to spend his own money? Possibly so, but the following letter would not so indicate.

CLYDE GROWERS' ASSOCIATION.
Clyde, Tex., May 7, 1920.
Hon. Thomas L. Blanton,
Washington, D. C.

Dear Friend: I wish to advise you that Mr. Don H. Biggers, previously of Lubbock, Tex., has been owing the Clyde Growers' Association \$82.79 since 1917. The present manager, Mr. O. S. Maggart, and the previous manager, Mr. Carl C. Grubb, have repeatedly asked him by letter to settle, and he ignores their requests. The farmers who compose the association have shared in the loss. We still consider "our" Congressman "honorable."

Yours,
R. O. CARNES.

Is Mr. Grisham paying for this advertising? If so, he should explain why in the case of Tunstill vs. Grisham, now pending in the Appellate Court at Fort Worth, Mr. W. A. Tunstill claims that Candidate Grisham and his partner owe him \$80,000 which by contract they agreed to pay him out of \$240,000 he caused them to make on some oil business. Ask Judge Harry Tom King, of Abilene, what he knows about this case.

How else are Unions spending their boasted \$100,000 slush fund, if they are not paying for this Biggers and Sweetwater advertising? Illustrating how ridiculous some of Biggers' charges are, he asserted that Uncle Joe Cannon had to restrain Blanton to prevent his attacking Congressman Knutson whom he asserted was a small man about 50 years old. Mr. Knutson is a young, unmarried man, fully as large as Blanton, who has a letter from Uncle Joe Cannon stating that said newspaper concoctions had no foundation whatever, as he never held, or restrained, or even spoke to Blanton relative to any disagreement with Mr. Knutson.

The American Federation of Labor recently sent to every daily paper in the U. S. a carefully prepared attack, falsely charging that New England was furnishing Blanton's campaign expenses. Heretofore in every campaign Congressman Blanton has refused to accept proffered contributions, and has paid all of his campaign expenses himself. Various admirers who have daily read the Congressional Record and become familiar with his work here, have written deploring the fact that radical organizations are sending money to Blanton's district in an effort to defeat him, requesting that his campaign manager notify them when commencing his campaign, as they would deem it a privilege to contribute, in recognition of his efforts of national benefit.

To answer the false accusations of his enemies, and to let his people see his actual record here, I proposed having reprints made of the permanent Record for distribution. When I advised that this would cost \$1,054.36 merely to print same, he said he could not afford it. Ten years ago he was worth \$25,000. Today if he sold everything he possesses he couldn't raise \$3,000 in cash. Since war began he has used most of his salary in his private investigations to clean up Departments, in fighting anarchy, and in donating to the needs of others. Under the circumstances, I insisted upon writing to his friends who had asked that such be done and who wanted to contribute, and as campaign manager wrote them. They were men in every walk of life, one a member of a union for 30 years, and lived in El Paso, Houston, Galveston, Lufkin, Beaumont, Ft. Worth and San Antonio, Texas; Lebanon, Tenn.; Opelousas, La.; Tampa, Florida; Memphis, Tenn.; Macon, Ga.; Charleston, S. Car.; Richmond, Va.; Cincinnati, Ohio; Louisville, Ky.; Lynchburg, Va.; St. Louis, Mo.; Carrollton, Ky.; Chicago, Ill.; Portland, Oregon; Boston, Mass.; Kettle Island, Ky.; Tullahoma, Tenn.; Waterloo, Iowa, etc. Congressman Blanton absolutely required that I accept no contribution from a corporation, and I did not. His entire campaign will not cost over \$2,000. I

will gladly exhibit to anyone interested the campaign ledger showing all campaign receipts, the amount, name and address of each person contributing, and all disbursements.

Someone burglarized Congressman Blanton's office one night, rifled my desk and files, extracted certain copies including the letter to Boston, which the American Federation of Labor later published, falsely stating that New England was furnishing the campaign expenses. The Superintendent of the Building found that an elevator operator possessed a master key to my office, and discharged him.

The Dallas News, August 23, 1919, page 1, reports the successful fight made by Congressman Blanton in preventing cotton from being placed in the Food Control Act, his point of order being sustained, thus saving every cotton farmer from ruin, as otherwise the price of cotton would have been fixed at a low price. For months he has been working on a plan to bring the New England and foreign Spinners and the Southern Cotton Farmers together, so that they may no longer be fleeced by Wall Street Gamblers, thus stopping all speculative profits. Then Spinners would pay to the producing farmers for their cotton its real worth, putting gamblers out of business. In accepting invitations to address the business men of Boston, Providence, Fall River and New York, he has been moved by this motive in furthering his plan.

In trying to embarrass Congressman Blanton, and prejudice his Colleagues against him, Biggers has mailed his paper each week to certain Members, and has written personal letters to our Democratic leaders, Champ Clark, Claude Kitchin, Crisp, of Ga., Gard of Ohio, and Flood, of Va., and to big Republican leaders like Jim Good, Joe Walsh, John Tilson and Uncle Joe Cannon, endeavoring to get them to say that Blanton's work has not been valuable to the country, and Biggers can not produce a single line from a single one of them against Blanton. On May 3, Mr. Crisp wrote Biggers as follows:

"While Mr. Blanton and I have differed many times on questions of legislation, I consider him an honest, able, industrious and courageous Representative. His fight for economy in public expenditures, in my judgment, has been of real and substantial benefit to the country."

Biggers received a similar reply from another one of the above.

The following resolution was unanimously adopted May 4, 1920, by the Democratic Convention of Mills County, Texas, to-wit:

"WHEREAS, an unjust and unwarranted attack has been made on Hon. Thomas L. Blanton, our Representative in Congress, by a certain citizen of Eastland County, Texas, and

"WHEREAS, the said Hon. Thomas L. Blanton is making our district a competent, brave and efficient Representative,

"THEREFORE, BE IT RESOLVED, that the conduct of the said Eastland County citizen be and is hereby condemned as unworthy of a citizen of this district, and that this convention approve and commend the labor and efforts of our Representative, Hon. Thomas L. Blanton."

Gompers has just forced the term "National Emergency" to be stricken out of the army bill, because it permitted the National Guard to be called out when strikes menace the safety of a State. Congressman Blanton has fought for all of the people. Shall the United States or Mr. Gompers' Union be paramount? I am now having reprints of the Record made, which I hope to distribute by the latter part of June. The envelope will be entitled "LET THE RECORD SPEAK." Look for it, read it carefully, see that your neighbor reads it and preserve it. I hope that every man and woman in the district will read it. You will be surprised at just how much your Representative has accomplished. His people will never realize just how much work night and day he has done to better conditions. Should Congress recess or adjourn, he will report to you personally, and answer all criticisms to your entire satisfaction.

Sincerely yours,
WILLIAM W. BLANTON,
Campaign Manager.

Pull Together for an American Merchant Marine

The war resulted in the creation of a great merchant marine—10,000,000 tons of American ships which cost us \$3,000,000,000.

Everybody agrees that we must keep this fleet on the seas.

If we fall back to pre-war conditions—when only 9 per cent of our foreign trade was carried in American ships—

We shall be in the position of a department store whose goods are delivered in its competitor's wagons.

Congress is considering legislation which will perpetuate our war-built merchant marine.

Until this is done the ships we have should not be sold to face conditions which, prior to the war, resulted in the decline of our merchant marine to insignificance.

This Committee calls attention to these facts because a right solution of our shipping problem is vital to the future prosperity of shipbuilding, but equally vital to the safety and prosperity of the nation.

Send for free copy of "For an American Merchant Marine."

Committee of American Shipbuilders

"Travelers in the South seas found the primitive peoples of the Society Islands engaging in pastimes which they believe had a similar origin."

TYPICAL SCENERY OF FRANCE

Description of Landscape, as Henry James Saw It, Has Been Held to Be Perfect.

It was a perfectly rural scene, and the still summer day gave it a charm for which its meager elements but half accounted. Longmore thought he had never seen anything so characteristically French; all the French novels seemed to have described it, all the French landscapists to have painted it. The fields and trees were of a cool metallic green. The clear light had a sort of mild grayness; the sunbeams were of silver rather than gold. A great red-roofed, high-stacked farmhouse, with whitewashed walls and a straggling yard, surveyed the highroad on one side, from behind a transparent curtain of poplars. A narrow stream, half choked with emerald rushes and edged with gray aspens, occupied the opposite quarter. The meadows, rolled and sloped away gently to the low horizon, which was barely concealed by the continuous line of clipped and marshaled trees.—From "Madame De Mauves," by Henry James.

MINISTRY OF HUMOR.

P. McMahon Glynn, former minister for home and territories, will be much missed in the Australian house of representatives, which dearly loves its joke. Recently Mr. Glynn was giving evidence before

the Northern Territory Royal commission. Noticing that the former minister was standing, and not seeing that the court orderly had omitted to place a chair in the witness box, Mr. Justice Ewing said courteously: "Take a chair, Mr. Glynn." Looking at the empty witness box, the former minister replied: "I have not got one, your honor. I lost it at the last election!"

WOOD SUBSTITUTE.

The wood substitute of an English patent consists of sawdust and burnt magnesite mixed with magnesium chloride solution and reinforced with wood embedded in the material or molded into the surface. The exterior may be covered with wood or metal. The material is adapted for a variety of uses, but is suggested especially for such purposes as furniture, fittings and doors.

A BARGAIN.

It was evidently another case of the family trying to find a house to rent or buy that caused a small child in a picture show to pass the following remark as one of the homes of the "400" flashed on the screen: "Gee, daddy, if you could get that for \$300 you'd get a bargain, wouldn't you?"

QUALIFIED.

"Can you get somebody well fitted to fix up my advertising for these cabs?"

"Sure; I'll get you a good hack writer."

Be sure to come to town Wednesday, June 16th, Dollar Day.

STORIES TOLD BY DANCES

Popular Steps Said to Have Originated From the Customs of American Indian Tribes.

"Whatever one's view concerning the propriety of the 'fox trot,' the 'lame duck' and the 'grizzly bear,' one fact about them may be of interest—animal dances are not new," says a bulletin issued by the National Geographic society from its Washington headquarters.

"These dances recall the steps long practiced by the American Indians and also by some primitive peoples of the present day.

"The red men engaged in the buffalo, deer, bear and eagle dances with true poetry of motion and religious fervor. Modern ballroom artistry frequently is crude as compared with the dances which long existed among these earlier Americans.

"Ethnologists say the so-called animal dances originated in the stories which tribal braves told around their fires to illustrate their adventures and the actions of their prey during the hunt.

WHY TEACHERS SHOULD BE PAID MORE.

The fact that a man or woman having the intellect and education necessary to be a competent teacher can earn more in other pursuits than he or she can earn, at present rates of compensation by teaching is in itself sufficient reason why the salaries for teachers should be increased. It is even an imperative reason, since it is evident that only in this way can we have the services of men and women who are competent to teach. But although this is an imperative reason, it is not the highest one. We have a better one in the fact that nowhere will competent service be worth more to us than in the schoolhouse. We can better afford to endure incompetence almost anywhere than in the school houses. Aside from all considerations of social and moral consequences which come from an ill educated citizenship, we have in considerations of economy alone a sufficient reason for paying such salaries for teaching as will assure an ample supply of men and women competent for that service. Incompetent teaching is a waste of our total investment in education.—Dallas News.

BUILDING UP A COUNTRY TOWN.

The first step in building up any community should be to study its life and find out what it seems to lack most of all. Study the reasons why people have left it or have become dissatisfied with it in the past. The complaints most frequently heard against country towns are these: 1.—Lack of social entertainment and educational advantages. 2. Lack of business opportunity. Let us take these in order. The country town needs pleasant social life, wholesome and interesting entertainments, instructive lectures opening the mind to broader knowledge of the world and human progress, and good music. All these things are perfectly in reach for a town like this and are realized to a considerable extent already. Every country town should have its orchestra, which can give outlet for the musically inclined. In these days when musical education is common it does not cost much to secure excellent vocal and instrumental music for a course of concerts. There are plenty of competent speakers in reach of this town who would gladly come here for lectures. Moving pictures furnish one of the best means for making life pleasant in a country town. They bring the whole world to your doors. The quality of pictures desired in a community like this is different from what is wanted by the jaded appetites of city life. Clean, wholesome films are wanted here, and plenty of these are available. In ways like these country town life can be made so pleasant that people will leave it with great regret, and only if they find better opportunities elsewhere. But this motive for change is commonly ineffective.

When you goin' to pay me?

Polk Brothers Co.

Mr. and Mrs. E. W. Marshall spent last Sunday in Brownwood.

Miss Lillian Dalton left this week for her home in Dallas.

Misses Eva Freeman and Eldrine Tyson left this week to attend the commencement exercises of T. C. U. at Ft. Worth.

Mr. and Mrs. Roy Blevins spent Sunday in Coleman visiting with relatives.

Jay Wilson of Ft. Worth, is visiting relatives here this week.

Maurice Barnes of Coleman, has taken a position with the firm of Texas Mercantile Co.

Miss Ametta Tyson left Monday for a visit to relatives and friends in Temple, Texas.

B. L. Barker left Friday for Mullen, to visit home folks.

NOTICE OF SALE OF REAL ESTATE.

The State of Texas, Coleman County, in District Court of Coleman County, Texas.

Whereas, by virtue of an order of sale, issued out of the district Court of Coleman County, Texas on a judgment rendered in said court on the 7th day of May A. D. 1920, in favor of Virginia Hines against R. L. Steward and H. R. Steward, composing the partnership firm of Steward Bros., for the sum of \$709.63, with interest from 7th day of May 1920, at the rate of 10 per cent per annum, and on a judgment rendered in favor of R. L. Steward and H. R. Steward, composing the partnership firm of Steward Bros., defendants on their cross bill establishing an indebtedness against H. H. Thames, defendant, for the sum of \$2330.92, with interest at the rate of 8% per annum from date, in Cause No. 2140 on the docket of said court which judgments are a foreclosure against the lands and premises herein after described, I did, on the 2nd day of June A. D. 1920, at two o'clock p. m., levy upon the following described land and premises, situated in the County of Coleman, State of Texas, to-wit:

A part of block No. 19 of the subdivision of the Jacob Pevehouse survey No. 755, described by field notes as follows:

Beginning at the southwest corner of block 12, N. W. corner of block No. 19, both blocks being subdivisions of Jacob Pevehouse survey No. 755;

Thence south 435.6 feet with east line of Coleman and Flat Rock public road, paralleling 40 feet E. of the W. boundary line of said survey No. 755 a pine stake S. W. corner of this tract;

Thence east 300 feet to a pine stake set in ground for S. E. corner of this tract;

Thence north 435.6 feet to a pine stake set in line of said block No. 12 and No. 19 for N. E. corner;

Thence west 300 feet to place of beginning containing three (3) acres of land, more or less, as well as gin machinery, tools, emplacements, fixtures and appurtenances to said gin or used in connection therewith save and except the personal property set out and fully described in said judgment which was adjudged to the defendant, R. C. Bonham on his cross bill filed in said cause.

Now, Therefore, this is to notify all persons that I will further execute the said order of sale by selling the above described lands and premises, to the highest bidder for cash, at public auction at the court house door in the town of Coleman in Coleman County, Texas, be-

tween the hours of 10 o'clock a. m. and 4 o'clock p. m., on the first Tuesday in July, same being the 6th day of July, 1920.

Witness my hand this the 2nd day of June A. D. 1920.
 W. R. HAMILTON,
 Sheriff Coleman County, Texas.

Cases of oak or ivy poisoning should be treated with Ballard's Snow Liniment. It is antiseptic and healing and a splendid remedy for such troubles. Three sizes, 30c, 60c and \$1.20 per bottle. Sold by Corner Drug Store.

Miss Grace Baxter of San Saba has returned home after a visit to relatives here.

R. D. Moore of Ft. Worth, is visiting in Santa Anna and looking after business.

There's a Special Ingersoll for Each of These Folks

DID YOU ever "get fitted" to a watch? We mean, did you ever figure out exactly your watch needs and then see if you were properly equipped?

There are a dozen or more different Ingersolls—varying in price, varying in purpose—small watches, jeweled watches, radium dial watches for night use, and so on. For instance, if you have an expensive watch, you probably would choose a Radiolite for \$3.50. If you haven't a good serviceable watch, you'd be likely to buy a 7-jewel Reliance. The dealer will help you to select just the one for you.

"Ingersoll" has always meant the lowest-priced good timekeeper. Today, with present day costs and the 1920 purchasing value of a dollar, \$2.50 is the lowest price at which we can make a watch while keeping up the Ingersoll standard of quality. "Ingersoll" means "money's worth" whether it's for the \$2.50 Yankee or one of the Radiolites that tell time in the dark, or for one of the jeweled watches.

Ingersoll

Prices Include Government Tax

Yankee, the most famous \$2.50

Radiolite, tells time in the dark \$3.50

Midget, the smallest Radiolite \$3.75

Waterbury Radiolite \$6.25

Waterbury Jeweled \$5.50

Wrist Radiolite \$6.25

Reliance 7 Jewel Nickel case \$8.00 Gold filled \$11.50

ROBT. H. INGERSOLL & BRO., New York, Chicago, San Francisco

YOUNG MAN'S OPPORTUNITY.

There are from twelve to fourteen million bales of cotton raised annually. Every bale has to be classed from one to four times, seldom by the same man twice. Until the last five years, there have been no training schools in this line, consequently the supply of men for this work is limited. Again, there are being erected in this country thousands of warehouses, and every warehouse requires two or three men to handle the cotton. The Commissioner of the Market and Warehouse Department has appointed a Board of Examiners to examine applicants for license as Public Cotton Classers. To those passing a license is issued to engage in the business of Public Cotton Classing and to charge for his services. These examinations are open to both men and women. Practically every town and village where cotton is sold will employ one or more licensed cotton classers. The young man or woman trained in the cotton classing department of our school is in a much better position to accept one of these places than one who has learned by guess.

Every young man of the south should know the classification, preservation and handling of cotton. It is our leading product and will continue to be. More money is lost each year by the farmers on the marketing of this product than all other crops combined. The man raising it often knows nothing about marketing it, and is therefore wholly at the mercy of the man who is buying. The facts are we lose thousands of dollars each year for lack of trained men. Some buyers may grade your cotton Strict Low Middling, and pay you accordingly, when in reality, your cotton is Middling and you are entitled to the higher price, which is no small gain. You see the necessity of knowing how to grade your own cotton. In four weeks time, we can prepare you to save this year more than double the cost of your learning, which is only \$30.00.

We have been asked, "how you teach cotton classing so successfully?" The one answer is this: We believe the time has come when the south needs to know more about her leading product; when the farmer should know more about marketing the crop which he labors so earnestly to produce; and which means meat, bread and clothing to his family. To this end, we have equipped our department so that the most efficient teaching possible may be done. Our teachers understand classing, stapling, buying and selling from a practical standpoint, and are expert in the training of students. Our head teacher of this department is constantly in touch with the Agricultural Department at Washington D. C. and Austin, Texas, which lends much to his strength. We purchase samples in quantities of three to four thousand, in addition to the government types. For full particulars, fill and mail for free catalogue.

The OilPull in the Belt

To realize the proper return on the investment, a tractor must be an all purpose outfit—as efficient in the belt as in the drawbar. The makers of the Rumely OilPull knew that from the start and so designed the OilPull. Any OilPull owner will point with pride to the belt ability of this tractor. And these are some of the reasons why—

First, you'll find the belt pulley is where it ought to be—on the right hand side—up out of the dirt and directly in line with the operator's vision. The OilPull can be lined up with any belt driven machine, backed into the belt and the belt started and stopped by the operator without leaving the cab.

Moreover the pulley is mounted directly on the crankshaft—no bevel gears—no lost power.

Ample belt clearance is provided by a patented front axle shifting device. It makes the OilPull equally efficient in draw bar and belt work without the sacrifices in design so common in tractor construction—such as bull-dozer and goosenecked frames, small front wheels or wheels too close together.

Then there's the close speed regulation in the OilPull. It is governor controlled—the speed of the engine automatically and instantaneously regulated to meet any condition in the load. The OilPull gives as steady and smooth power as the best steam engine built.

Couple these facts with the OilPull 25% reserve power, guaranteed kerosene burning, and oil cooling, and you have some of the reasons why the OilPull record during the past eleven years is based upon its all around ability as a dependable, economical, long lived tractor.

And we can prove every claim we make. Four sizes, 12-20, 16-20, 20-40 and 30-60 H. P.

WHY FRANKLIN WORE NO WIG

According to This Story, Quaker Simplicity Had Nothing to Do With the Matter.

Benjamin Franklin was about to be presented to the French king on the occasion of his first visit to France in the capacity of representative from the new America. The court custom of the time demanded that one going to an audience with the king must wear a wig of the proper fashion. A count, who had Franklin in tow, sent a wigmaker the day before to take Franklin's measure and fit him out for the audience. The wigmaker arrived at Franklin's lodgings, measured the poll of the great American fore and aft and round and about, and took his departure. An hour before the audience the wigmaker returned with the wig. But when Franklin attempted to put it on it would not fit; he couldn't begin to get it on his head. "Sir," said Franklin to the wigmaker, "your wig is unfortunately too small for my head."

"Pardonnez moi, monsieur," replied the wigmaker, "your head is vastly too large and quite beyond the fashion of the court."

Franklin appeared, therefore, at court with his bald pate and shaggy gray hair.

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadorsville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak. . . I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few

doses of Black-Draught." Seventy years of successful use has made Thedford's Black-Draught a standard, household remedy. Every member, of every family, at times, need the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c a package—One cent a dose. All druggists. J. 69

SAFETY IN SETTING LADDERS

Only a Little Thought Necessary to Determine Just What Is the Proper Angle.

When raising a ladder to sweep off a cornice, to hang a picture, or for any other purpose, one should know at just what angle to place it that it may be safest to him who has to stand upon it.

A series of experiments described in Safety News has demonstrated that the greatest degree of safety is obtained by placing the ladder about one-quarter its length from the wall. This gives an angle of 75 degrees. If the ladder be placed further from the wall it is likely to slip, and the weight of the workman may put too great a strain upon it. If it be placed close to the wall there is the possibility of the weight of the workman overbalancing it and making it fall backward; besides, as he nears the top, his feet are likely to have insufficient room when projecting between the rungs.

Safety News points out also that all ladders should have their feet shod with points or rubber in order that they may take a sure grip on the floor and not slip.

REALISM IN OPERA.

It is doubtful whether "I Pagliacci" could be other than a masterpiece, considering the circumstances in which it was written, says the Cleveland Plain Dealer. As a boy, Leoncavallo (whose death was recorded some time ago) was present at a suburban theater in Naples, when he saw a thrilling love drama enacted in real life on the stage, while as in the opera, the audience applauded wildly what they thought to be intense realism. Leoncavallo's father's valet was the rival lover, and was in the theater at the time. The actor sent for him and stabbed him behind the scenes. There was a further personal link in the drama. Leoncavallo's father was a judge, and it fell to his task to try the actor-murderer and to sentence him to 20 years' imprisonment.

MOUNTAIN TRADITIONS.

"Rip Van Winkle," said the teacher who keeps the class interested by telling stories, "went into the mountains, took a drink with some strange people and slept for 20 years."

"I don't doubt it," commented the tall, slim scholar. "There's no tellin' what some o' this moonshine licker will do to a man."

TOUGH YEAR ON 'EM.

"It seems like a mad world." "It is. There is so much unrest about."

"Yes. With everybody seemingly intent on violence I fancy this is going to be a bad year for baseball umpires."

SOLDIERS OF TWO WARS.

While, in the Civil war, 78 per cent of the soldiers were under thirty-one years of age, in the recent war 92 per cent were under thirty-one.

POSTAL SAVINGS.

Postal savings increased \$34,000,000 during the war. Just before the armistice was signed they amounted to \$150,670,830.

Sunday School Picnic

The members of the Baptist Sunday School enjoyed an outing on Home Creek on last Thursday. The crowd assembled at the church and went to the creek in cars.

Several boys had been fishing and everybody went expecting fish and were not disappointed. We had all the fried chicken, fish, cakes, pies and ice cream we could eat.

The children and some of the grown ups enjoyed wading and bathing in the beautiful gravel bottom stream, several swings were made in the tall trees, so there was an amusement for all.

We are sorry for those who did not get to go and hope you may be present next time, and that a cloud will not break into the fun.

EXAMINING TRIAL GOODSON-WALLACE CASE

At the examining trial last Friday and Saturday Mr. Wallace was released on a \$5,000 bond. Walter V. Early, J. B. Baker and W. J. Johnson represented the state. Frank Snodgrass and Walter Woodward represented the defendant.

Don't forget to come to town on June 16th. That's Dollar Day. Read the ads and see the many bargains the business men are offering. First Dollar Day a large crowd spent the day in Santa Anna, and left for home expressing themselves as having had a big time.

C. C. Burke called at the News office Wednesday and renewed a string of subscriptions to his friends and relatives, and placed his own up for another year. Mr. Burke is strong for his home paper. Fall in line, folks!

Remember Dollar Day, June 16th.
