

SANTA ANNA NEWS

Vol. No. 45

SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY, JANUARY 31, 1930.

NUMBER 1

"He Profits Most Who Serves Best"

Commissioners' Court Employs County Agent

The Commissioners Court in session at the courthouse in Coleman Monday, employed the services of one Mr. Robertson of Temple to act as county agricultural agent for Coleman county. Personally we have not met Mr. Robertson as yet, but have been informed he is a graduate of the Santa Houston State Teachers College at Huntsville, Texas, is experienced and practical in his work, and comes to Coleman county well recommended as a good man for the place to be filled here.

Many good citizens in this county have been awake to the needs of a good county agent in Coleman county for some time, and the Commissioners Court made an appropriation for that purpose the first of last year, but failed to find a competent man available until Mr. Robertson put in his appearance.

We hope Mr. Robertson proves to be the right man for the place and through his efforts with the co-operation of those needing his services, the agricultural interest of the county will be greatly benefited. We will have more to say about Mr. Robertson and his work in the future.

Special Feb. Offer On Star Telegram

We are authorized to take subscriptions during the month of February to the Fort Worth Star-Telegram, Daily and Sunday by mail, 3 full months for \$4.00. Just being us a five dollar William with a corner pinched off, and we will soon have you reading a good daily newspaper every day in the week.

TWO SUFFER FROM ACCIDENT

Alva, the 12-year-old son of Mr. and Mrs. Cal Fuller, southeast of town, while playing with other children Saturday morning, accidentally got a finger cut off in the crevices of a rock. The boys were prizing in the rock with a crow-bar, when the accident happened.

T. L. Huggins lost a thumb Sunday morning, while working on his Ford car. He was replacing a spring, and overlooked the danger, thus, he is short a thumb.

Both accidents were very painful to the victims.

Raymond Harrod left Wednesday for McCamey.

Mrs. S. C. Parsons Passes Away

Mrs. Sarah Caroline Parsons, 60 died at her home here Thursday morning, January 23 after several days illness from pneumonia.

Deceased was born near DeJongha, Ga., June 10, 1861. She was the daughter of J. C. Childress, a Methodist preacher and a member of North Georgia Conference. She was married to Mr. E. B. Parsons in Gilles county Tenn., December 23, 1879, and to this union five children were born: all are married except the youngest daughter and all were present at the time of Mrs. Parsons death. Mrs. Parsons had been a member of the Methodist church since childhood.

The funeral was conducted at the family residence, Friday morning by Rev. J. I. Patterson and Rev. Hal C. Wingo. Interment was made in the local cemetery with Ennis Honnol and Bryon Zimmerman of the Johnson Furniture Company in charge.

Full bearers were Sam Collier, W. T. Verner, S. L. Weaver, S. A. Neal, Ray Brown, Sam Brewer.

Deceased is survived by her husband, E. B. Parsons and the following children: Mrs. Walker Newman, San Antonio; Lewis Parsons, Goldsboro; Mrs. Overton Parsons, Echo; Clarence Parsons and Miss Rosalie of this place.

The News extends sympathy to the bereaved.

Mrs. C. G. Oakes Dies At Trickham

Mrs. C. G. Oakes, 75 years old, died at her home in Trickham, January 7. The funeral was held at the Union Church, January 8, conducted by Rev. Morton, the Methodist pastor and interment was made in the local cemetery.

Grandmother Oakes was loved by all who knew her and will be greatly missed in the Trickham community as she was a loyal member of the Methodist church and a regular attendant of all religious services.

The above was received in the mail last week, the day the News was published. We regret not having it sooner. Editor.

Prof. and Mrs. A. Ben Oliver had as their guest over the weekend, Mrs. Oliver's brother, Russel Deter, sister, Miss Dorris Deter and friend, Alden Sanders, students in Simmons University, at Abilene.

Charlie Rice Lohm Suspect Arrested

COLEMAN, Jan. 27.—(Sp.)—Charlie Rice wanted in Texas for the robbery of the Lohm State Bank on the morning of January 6, and the robbery of the First State Bank of Valera last December, had been arrested in San Bernardino, Calif., according to a message received in Coleman Saturday afternoon from California officers, by Sheriff Frank Mills.

Rice admitted his identity and denied extradition, although denying participation in the bank robberies, and Sheriff Mills of Coleman and Sheriff Love Kimbrough of McCulloch county will leave Tuesday to get the prisoner and bring him back to Texas.

California officers made the arrest today as the result of information furnished them by Coleman officers. The latter, after the fight with the robbers at the shack in the Jennings oil fields on the morning of January 6, soon after the Lohm robbery, found a letter of Rice's giving a California address. They notified the officers on the coast to watch for him.

Charges have already been preferred against Rice in McCulloch county, but the latter in denying his guilt to the officers who arrested him, said he was in San Bernardino on January 1 and 6.

His brothers, Willie and Joe Rice, were also indicted by the McCulloch county grand jury for their alleged part in the Lohm robbery.

The arrest of Charlie Rice accounts for four of the six that are thought to be implicated in the two robberies and leaves two still at large. Ollie E. Woods was slain soon after the Lohm robbery by Deputy Sheriff Bob Sumfall of Coleman. Sheriff Mills is confident that the others implicated with the Rice boys will be arrested in the very near future.

Nearly \$3,000 was taken in the robbery nearly all of which was recovered.

Arrested At Mother's Home San Bernardino, Calif., Jan. 27.—(AP)—Charlie Rice indicted in Texas for robbery on Jan. 6 of the Lohm State Bank, was arrested here at the home of his mother Saturday by Sheriff Walter A. Shay.

Rice denied any connection with the Lohm robbery. He said he left Bronwood, Texas, December 26 and arrived here January 2nd.

Sheriff Shay said he had received a request to arrest another man in connection with the robbery, but that no trace of him had been found here.

Charlie Rice is a Brown county man, having lived on a farm near Brooksmith for a number of years.

RICE BROS. OUT UNDER BOND

Joe and Willie Rice, who were arrested January 6th, following the robbery of the Lohm State Bank, and later indicted by a McCulloch County grand jury as being implicated with the crime, were released last week under seven thousand dollar bonds each. The boys are said to be back at home and enjoying their liberty.

We certainly feel grateful for the nice response to our recent appeals for renewal subscriptions. The response has been all we could expect. However, there are a few yet who have not come in and renewed. Our readers from out in the rural districts have greatly outstripped those living here in town. We plan to revise our list after this week, and all not properly accounted for will be dropped. However, they will be few in number, for most people appreciate our little paper and are willing to pay the small price per year to have it make weekly visits into their homes.

Mrs. Leona Hicks of Coleman spent Sunday with Mrs. Comer Blue.

Mrs. T. T. Perry and daughter, Mrs. H. T. Caton were business visitors in Coleman Monday.

Miss Eunice Wheeler visited Miss Ruth Johnson of Brownwood Friday.

Miss Leona Hugen of Coleman is spending this week with Miss Beulah Williams.

Provisions Of New Highway Law Every Citizen Should Know

Under the provisions of Senate Bill No. 11, enacted into law at the last session of the Texas Legislature.

"It is unlawful for any bus or commercial motor vehicle to operate on the highways, having a width in excess of 96 inches.

It is unlawful to operate any vehicle in excess of 80 inches in width without being equipped with two clearance lights on the left side of such vehicle, one of these lamps shall be located at the front and displaying a white light visible under normal atmospheric conditions from a distance of 500 feet to the front of the vehicle, and the other located at the rear of the vehicle, displaying a (yellow or red) light visible under like conditions from a distance of 500 feet to the rear of the vehicle, or in lieu of these clearance lights, reflectors may be used conforming to the requirements of such clearance lights.

It is unlawful for any horse drawn vehicle to be operated upon the public highway at night without displaying one or more lighted lamps or lanterns that are visible under normal atmospheric conditions from a distance of not less than 500 feet to the front of such vehicle and a (yellow or red) light visible from a distance of not less than 500 feet to the rear of such vehicle, or in lieu of such lamps, may be equipped with reflectors.

It is unlawful for any person to park or leave standing any vehicle, whether attended or unattended, upon the paved or improved portion of any highway, outside the corporate limits of any city or town.

It is unlawful for any motor vehicle to be driven upon the highways of this state, outside the limits of any incorporated city or town, drawing or having attached thereto more than one other vehicle except that a motor vehicle with semi-trailer may draw in addition thereto one other vehicle.

It is unlawful for any passenger vehicle to carry any load extending more than 3 inches beyond the line of the fenders on the left side of such vehicle, nor extending more than 6 inches beyond the line of the fenders on the right side thereof.

It is unlawful for any vehicle to exceed a length of thirty-five feet or any combination of vehicles coupled together to exceed a length of sixty-five feet, unless said combination is operated exclusively within the limits of an incorporated city or town.

It is unlawful for any unauthorized person to erect, or maintain upon any state highway any warning or direction sign, marker, signal or light, or any sign or signal bearing thereon any commercial advertising.

It is unlawful for any person to deface, injure, knock down or remove any sign posted by Highway Department.

Legal speed limits are as follows:

Passenger motor vehicles 45 miles per hour upon the public highways of Texas and 20 miles per hour through any city, town or village incorporated or unincorporated.

Vehicles engaged in the business of transporting passengers for compensation or hire 40 miles per hour.

Commercial motor vehicles of a gross weight including load of 10,000 pounds or less 35 miles per hour.

Commercial motor vehicles of a gross weight including load of 16,001 pounds and not more than 18,000 pounds 25 miles per hour.

Commercial motor vehicles of a gross weight including load of over 18,001 pounds 18 miles per hour.

All vehicles are required to keep lighted from one half hour after sunset to one half hour before sunrise all lamps or lighting devices with which such vehicles is required to be equipped, whether the vehicle is in motion or not while it is upon the highways outside of an incorporated city or town.

For the purpose of enforcing the provisions of this law, an organization of a State Police was created by the Legislature to be known as the State Highway Patrol.

These officers of the State (Continued on Page Four)

E. E. Chambers Passes Away Tuesday; Is Buried Here

A pall of gloom spread over the vicinity Tuesday evening and Wednesday, when the sad news of the death of E. E. Chambers was passed around.

Mr. Chambers came to Santa Anna about three years ago from Burnet, Texas, and purchased the Clements Variety Store, which was changed to that of his own name. He has been regarded a good citizen since coming to Santa Anna. The past year, and probably longer, he divided his time with the Rockwood Mercantile Company at Rockwood, where he also made a large number of friends.

The following data was read at the funeral Wednesday afternoon, which was conducted at the home:

Everett Edward Chambers was born October 20, 1892, at Lamasco, Kentucky. He came to Texas in December 1914; was married to Miss Ruth Ford, January 16, 1915 in Goldthwaite, Texas. He is survived by his widow and the following children: Neva Rae, 13, Cleo Alva, 11, and Charles Ford Chambers 9 years of age. Deceased is also survived by his mother, Mrs. Alva E. Chambers, who lived with him and his family here. A number of other relatives also survive.

Deceased was a member of the Methodist church, the Lions Club and the West Texas Chamber of Commerce. His remains were buried in the local cemetery, following the funeral which was conducted by Rev. Jos. J. Patterson.

Active pall bearers were: Arthur Duff, Coleman; Arthur Hall, Rockwood; W. J. Steward, R. F. Crum, W. H. Thate, and Ben M. Parker.

The honorary pall bearers were: Bob Steward and Ed Kennedy, Rockwood; Otis Early and George Clements, Coleman; Earl Clements, Goldthwaite; P. P. Bond, W. J. Parker, Howard Lovelady, W. R. Gardner, Ford Barnes, W. B. Spaffman.

Among those from out of town here at the funeral were: Phillip Ford San Angelo, Mr. and Mrs. I. E. Barber, Cleman; Mrs. Cleo Scott, Abilene; Mr. and Mrs. C. H. Ford, Mr. and Mrs. Earl Clements, Mr. and Mrs. Duke Clements, and Miss Bessie Hutchins, of Goldthwaite; George Clements, Coleman; Walter Early, Clarence Early and Miss Lela Early, Brownwood; and P. Early, Bangs.

The Santa Anna News joins other friends of the bereaved in extending sympathy.

This week the Tax Collectors and their deputies are very busy writing receipts and making in the coin. Those who have waited until the last days to pay have been standing in line, waiting their turns, and occasionally, one hears the remark, "Next year I'm going to pay mine sooner." Well, we came very near not getting to pay ours at all this year, and are not sure the matter has all been settled yet. We realize taxes must be paid, and we have always thought that so long as we get value received, no matter what our taxes were, we would pay them without a murmur, but we are inclined to believe taxes are pretty high. We think our Government the best in the world, love our country and are proud to be numbered among its citizens, but I'll be darned-sapped if the cost of government has not soared out of reason. There are too many leaks and we hope somebody soon plugs up a lot of the waste holes. A man without any property is considered a very poor man, but if taxes soar much higher, the man who owns the most property will be poorer than the man without any property at all. Now, that's off our system, maybe we can further proceed with our business, but if we were not so busy trying to make a living we would feel like going out and starting a campaign to block some of the large and useless appropriations of the peoples money, largely used to pay political debts.

CRASIN RAINBOWS

Love finds a way in the finest entertainment to reach the talking screen since "The Broadway Melody". The same stars, big song hits, tears, laughs, thrills! Crasin Rainbows, to be at the Queen Sun, Mon., and Tuesday.

Agnew And Smith Switzer No. 1, Creates Much Sensation

The sensation of the week in oil was the Agnew & Smith, Switzer No. 1, an extension to the east in the Stewardson pool, seven miles south of Santa Anna. The well is located 2,000 feet east of other production and adds quite an extension to the proven area.

The production has been estimated the largest of any well in the field, and is expected to add several hundred barrels to the daily output. Just what the real production is has not been fully determined according to reports gathered from those going out to the well. Considerable trading in leases and royalties have been reported.

Due to bad weather and physical handicap, the writer has not been privileged to go out and personally inspect the field.

Several local people have been benefitted by the new strike.

NEW DOCTOR LOCATES HERE

Dr. E. D. McDonald of Eldorado moved here this week, and will office over Walker's Pharmacy in the rooms formerly occupied by Dr. J. E. Powell. Dr. McDonald is a young man, comes to Santa Anna bearing a good reputation and we wish for him a pleasant stay in Santa Anna. He and Mrs. McDonald have living quarters in the Marshall apartments. We welcome the young couple into our midst and hope they make good citizens. Dr. McDonald is a graduate of Baylor, and served his intern in the City Hospital in St. Louis, Missouri.

BOY SCOUTS TAKE HIKE

Saturday morning, Russel Hale, John David Harper, William Earl Ragsdale, Garland Close, Clovis Fletcher, Carl Flores and Jack Gregg, started out in pairs and single file for the county line, to make a 14-mile hike, required to make a certain test in the Scout program. The boys all completed their hike, some of them appearing to be not much worse from the endurance. Several of the boys seem to keep up their interest in Scout work while others do not seem so much interested. Would that we could impress the boys of the importance of mastering the Scout program. Boys, show your metal! Don't ever expect something for nothing, for that is foolish.

Corpse Proves White Elephant To Omaha Man

Omaha, Neb., Jan. 20.—F. W. Merker is looking for \$400. And he is also looking for some one, anyone, who will take a corpse off his hands.

When Tampa, Fla., police wired Merker his son had been slain by a negro axman, Merker wired \$400 to have the body shipped home. A few hours later his son telephoned the family he was not dead.

Merker frantically wired police and an undertaking establishment in Florida to send him back the \$400. The undertaker replied he had already shipped the body.

The body arrived in Omaha and is now in an undertaking room. Merker said he doesn't want the body, the express company doesn't want it, the undertaker refuses to keep it! The police here will have nothing to do with the affair. Tampa police refuse to have it brought back to Florida and the Florida undertaker refuses it.

Merker is enraged and threatens something because the dead man is 40 years of age and his son only 22. He claims he was victimized by Florida police.

COLEMAN COUPLE BOTH PAST 90, WED 69 YEARS

COLEMAN, Jan. 24.—Mr. and Mrs. John W. West, both past 90, celebrated their 69th wedding anniversary at the home of their daughter, Mrs. J. W. Golson, Thursday. They were married in a little town in Arkansas 69 years ago, and 45 years of their married life has been spent in Coleman county.

Both are hale and hearty and are looking forward to their 70th anniversary when the family plans a big celebration in their honor. They are honored citizens of Coleman county and many friends joined with them on this wonderful occasion.

GIRL SCOUTS OF TROOP NO. 1

The Girl Scouts of Troop No. 1, met last week and decided to each bring something to sew on and in that way help the ones who have not passed their Second Class Test. We all want to get the Needlewomen's Badge also. We also decided to prepare a talk on one of the First Aid Requirements. We expect to pass part of the First Class Test at our next meeting. We invite all who are interested in scouting to visit us at any time. —Reporter

The Way to Save--

- The man who works with hand or brain.
- Yet never saves, will never gain
- The things of life the thrifty do;
- His dream of life will not come true.
- The way to save is to pass by
- The things you want that are too high.
- For present needs use less amount.
- Saving is strong for future account.
- The First State Bank will help you plan.
- A way to save the most you can.

The State National Bank

Mutual Interest and Profit

Of course maintaining an account will make a man a bank depositor, but—not necessarily a success.

A person may deposit a certain amount regularly and still not make the most of his banking connection.

Wise is the man who deposits his money regularly and cultivates a close relationship with his banker.

It is our intent and desire to take a personal interest in our depositors—and merit their friendship.

The natural result of interest and friendship is mutual profit.

THE FIRST NATIONAL BANK
Santa Anna, Texas

Dairy Profit Means

How Any Farmer Can Increase Income Over Costs

There is no question but that every dairy farmer would like to increase his returns above cost from his dairy herd," says L. A. Higgins, dairy husbandman of the Mississippi extension service. "An intelligent, thinking farmer would really like to reduce the cost of producing the average gallon of milk or pound of butterfat. A great many know how to at least start toward reducing this cost, but how many are failing to make the start?"

Mr. Higgins says: "To make a larger profit above cost of feed and other expense is within the dairy farmer's province. He must make the increase himself. As a general statement, I would say there are two ways by which a dairy farmer may increase the net returns from his herd. First, by keeping better cows and feeding them more liberally, and second, by growing a larger portion of the feed supply at home. Herd and business management, as well as other details, also have their influence, but they are not so important."

Doubling Production

"Through tabulation of many cow testing association records, the United States bureau of dairy industry has found that by doubling the production of a cow or herd the net returns will be multiplied by three. Many dairy farmers are keeping too many cows of too low and too small capacity. We find that the average dairy farmer has about 15 cows, about half the number of cows which secure a maximum average which secures a maximum average feeding the cows which are kept. Usually, this limited number of cows is poor in quality and variety. Mr. Higgins declared that by doubling the number of cows and through the feeding of a complete ration, dairy farmers can readily increase production and thereby increase their returns. On an average 30 pounds increase in butterfat will give a corresponding increase of \$24 income at an extra cost of only \$8 in feed cost," the Mississippi dairy expert declared.

Advantages in Raising Feed
"By producing an abundant supply of legume hay, the cost of producing a gallon of milk of a pound of fat may be materially reduced. Some grains such as corn, oats, etc., may also be grown."

"With the hay and green feed produced on the farm, the cows would be more liberally fed, the quality and variety of the ration would be greatly improved, and production would be more than doubled. The cost of the complete ration would be materially decreased, and the net returns greatly increased."

"It might be added that soils would be improved and cotton production made more profitable," Mr. Higgins said. "Dairy farmers generally would accom-

AN APPEAL TO THE PEOPLE TO STOP CARELESS FIRES

This is an appeal from the Texas Fire Insurance Department to the people of Texas to adopt the following suggestions in order to reduce the number of fires that are occurring every day of the year. The people are paying the cost of fires, and it is within their power to stop this cost by being careful with FIRE!

Carelessness causes 85 per cent of all fires 66 per cent of all fires occur in the home.

Suggestion No. 1. If your electric lights go out, or if you have trouble with your lights, do not attempt to fix it yourself. Call an experienced electrician for he will save expense and trouble to you.

Suggestion No. 2. If you have trouble with gas stove, or pipes, do not attempt to fix it yourself, but call a plumber or the gas company. If you smell "gas", do not look for the "leak" with a "match" for it is dangerous.

Suggestion No. 3. Do not leave matches where children can play with them. Keep them in safety boxes out of their reach.

Suggestion No. 4. Do not smoke in bed. Be sure and put out matches, and keep cigarettes and cigars in ash tray.

Suggestion No. 5. Do not clean clothes with Gasoline, Benzine, Kerosene, or Naptha, for they are dangerous.

Suggestion No. 6. Do not put rags or Greasy Rags in closets, for they will cause spontaneous combustion and set fire to your house. Keep them in closed metal can on back porch.

Suggestion No. 7. Have your chimney swept and inspected at least once each year, and be sure that it is properly protected.

Suggestion No. 8. Put screen in front of gas stove, open fire place or around water to keep children and old people from getting too close to fire and igniting their clothes.

Suggestion No. 9. Do not put rubbish, trash or papers in closet and thereby increase the chance of fire.

Suggestion No. 10. Do not attempt to start a fire with kerosene or any inflammable liquid.

Suggestion No. 11. Do not leave electric iron on. If you leave board for any purpose, be sure and cut off current.

Suggestion No. 12. Co-operate with your Fire Marshall each day of the year, for he is trying to save your life and property from destruction by fire.

"Fire Prevention" is of the people, by the people, and for the people. J. W. Dewese, Fire Insurance Commissioner.

Missouri has begun plans for a new \$2,300,000 road program.

Coal mines in Illinois produced 59,948,199 tons of soft coal last year.

It might be added that soils would be improved and cotton production made more profitable," Mr. Higgins said. "Dairy farmers generally would accom-

BACKBONE AND MORAL SUPPORT

There has never been a time in the world's history when "backbone" and its companion, "moral support" were not needed in community matters. Figurative backbone and literal moral support are always useful and advantageous.

In any movement affecting the social welfare, the moral progress or the commercial advancement of the community is inaugurated the big question always is: "Is it right? Is it sound? Is it practical? And taking everything into consideration is it designed to bring the greatest good to the greatest number of persons of the present or future generation?"

The next big question is: "How shall we go about it and who is going to do it?" Here is where backbone and moral support—those two silent monitors of

progress—enter. All of us admire leadership, though some may not favor the cause advanced.

Leadership consists partly in stiffening the backbone to do the right thing in the right way at the right time.

Moral support is one of the most vital factors in leadership. Without this backing of moral support many worthy projects fall of their goal.

The strongest minds of the world have need of moral support. It is the strengthening of character, determination and resoluteness that have brought our community, our state and our nation to its senses.

Fifty years ago, ninety out of every 100 Texans lived on a ranch or farm, but the next census is expected to show that at least fifty-five out of every 100 now live in towns.

A Woman's Inspiring Power

As the nation mourned the loss of a brilliant and forceful character, William Jennings Bryan, it now regrets the loss of the widow, Mrs. Mary Bryan, who was one of the outstanding personages of past generations. Mrs. Bryan truly was an inspiration to her distinguished husband.

The Bryans were more than husband and wife to each other. It is well known that their devotion to the common ambitions was exceptional. Mrs. Bryan took the attitude that she must be a real helpmeet to her husband, and in line with this theory she was not only a dutiful and loving wife, but became a guiding genius in his public career and national service. Yet both liked the simple life. They liked yards and

chickens and the homely things that are pastoral. They gathered souvenirs just as other travelers. They wrote loving letters to each other when apart. They were domestic in the sense that represents the finest and noblest in the attributes of Americanism.

Life must have been lonely for the widow during the years in the physical absence of her husband. No longer serving as an inspiration to him in his endeavors of weighty meaning, what was there to do but practically isolate herself from the active world?

Womanhood itself always deserves praise. But when a woman of the type of Mrs. Bryan stands out in the public mind as one who makes largely possible many of the achievements of her mate, it is due and fitting that words of tribute be written, in order that her splendid manner of living and doing and giving may

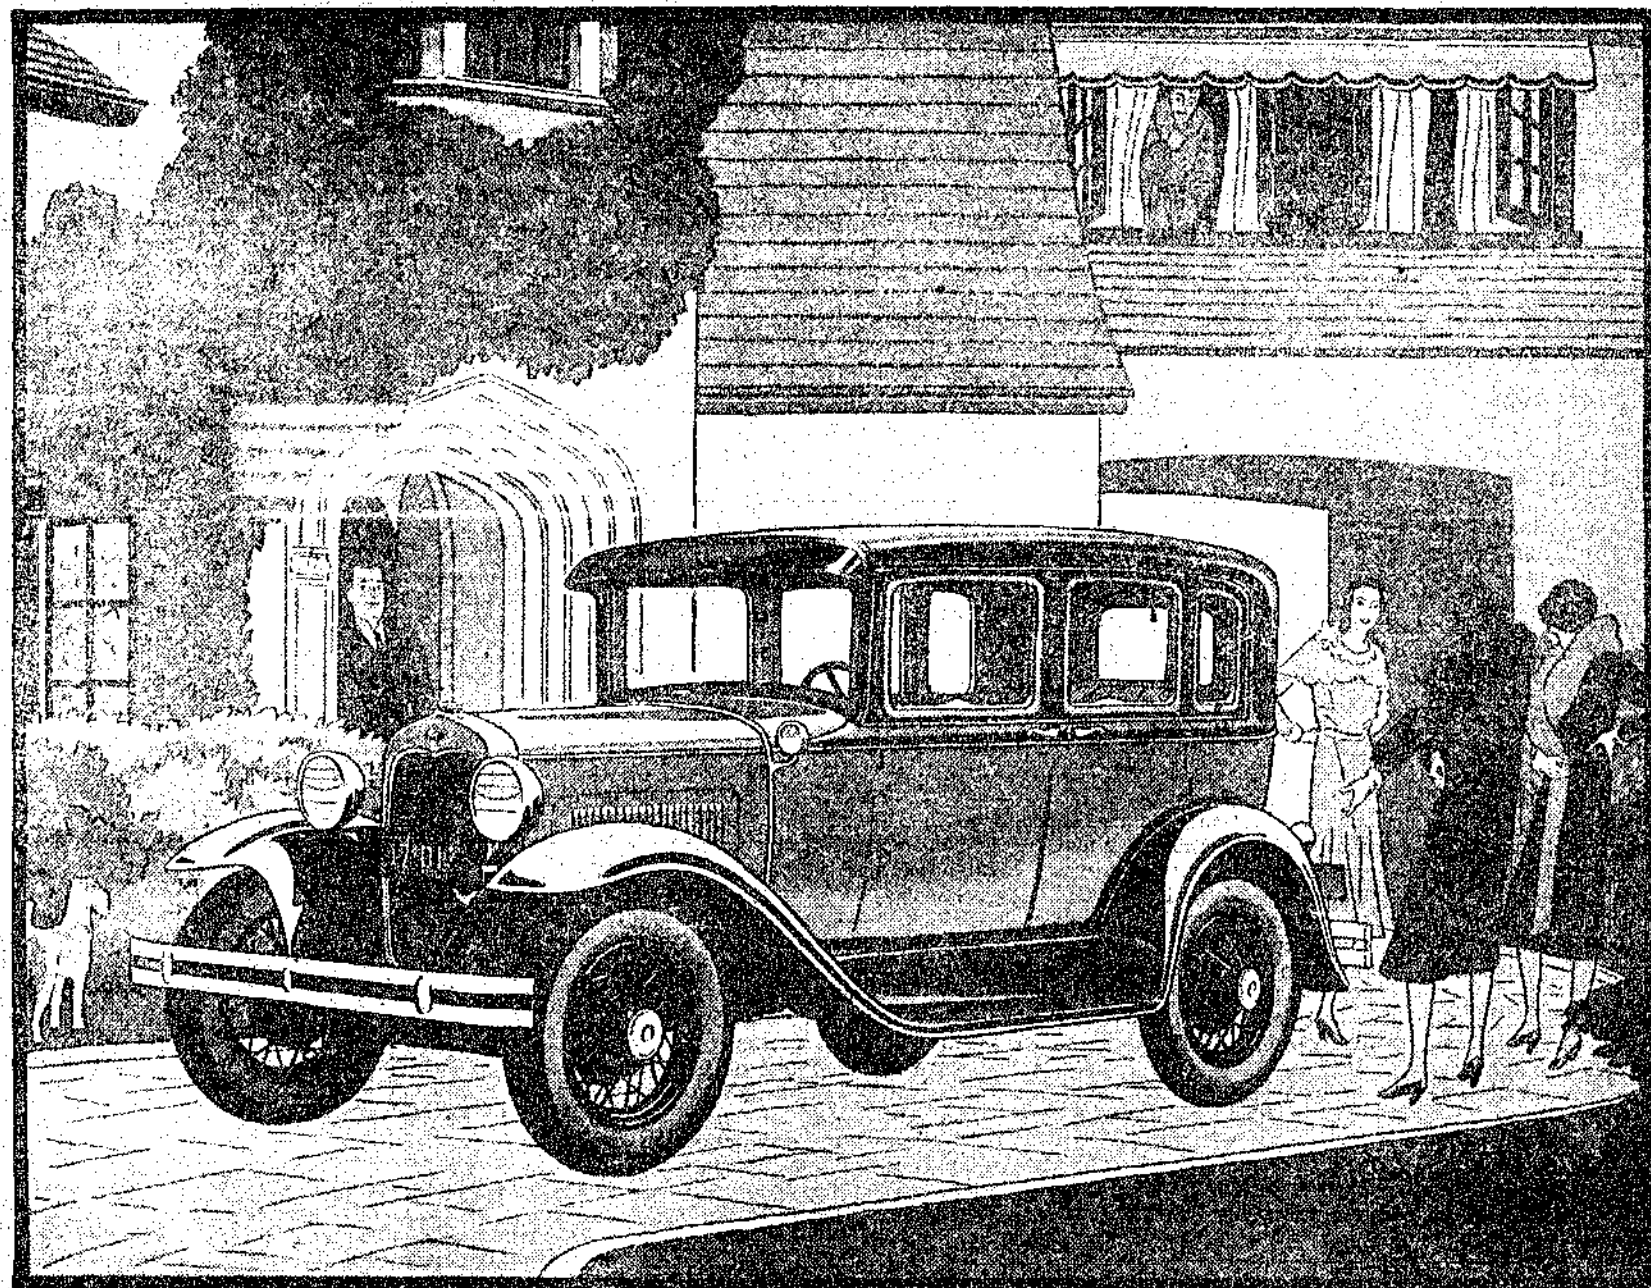

still serve to inspire other women to attain similar distinction and thus serve humanity and the noble purposes of existence. Though many may not have agreed with the political views and social theories of the Bryans, all people will believe that neither William Jennings Bryan nor his beloved wife lived wholly in vain.

Honey Producers Organize

Texas honey producers are forming a marketing organization to pool the product for better marketing. It is estimated that there are 425,000 colonies of bees in Texas, producing about 10,000,000 pounds of honey annually. Apiarists hope to pool at least 25,000 of these colonies as a start toward more complete organization.

Boost your town, boost more.

New Beauty for the New Ford

THE NEW FORD TOWN SEDAN

In the Town Sedan you see a distinguished example of the unbroken sweep of line which adds so much charm to all the new, roomy Ford bodies. Radiator, hood, cowl, lower roof line, fenders, wheels—every point of design reflects the new style and beauty that have been placed within the means of every one. All of the new Ford cars are finished in a variety of colors.

ANOTHER STEP FORWARD

THE introduction of the new Ford bodies has set a high standard of motor car value.

From the new deep radiator to the tip of the curving rear fender, there is an unbroken sweep of line—a flowing grace of contour gaining added charm from the rich and attractive colors.

You will take a real pride in the smart style and fresh new beauty of the Ford just as you will find an ever-growing satisfaction in its safety, comfort, speed, acceleration, ease of control, reliability and economy. In appearance, as in mechanical construction, craftsmanship has been put into mass production. New beauty has been added to outstanding performance.

A feature of unusual interest is the use of Rustless Steel for the radiator shell, head lamps, cowl finish strip, hub caps, tail lamp and other exposed metal parts. This steel will not rust, corrode or tarnish and will retain its bright brilliance for the life of the car. Here, as in so many other important details, you see evidence of the enduring quality that has been built into the new Ford.

Roadster, \$435 Phaeton, \$440 Coupe, \$500 Tudor Sedan, \$500 Sport Coupe, \$530
Two-window Fordor Sedan, \$600 Three-window Fordor Sedan, \$625 Convertible Cabriolet, \$645 Town Sedan, \$670

How to Raise Poultry

By Dr. L. D. LeGear, V. S.
St. Louis, Mo.

BRING UP YOUR CHICKS IN THE WAY THEY SHOULD GO

Chicks, like children, require careful training if they are to grow up into strong, useful members of their community. A little extra attention during the early stages of development will be rewarded with extra profits later.

Chicks are a good bit like children in a great many ways. With proper training both will develop into valuable members of their respective branches of society. Much has already been said in this series of articles on the subject of environment. I have stressed the need for clean, comfortable quarters, ventilation, adequate range, sanitation and other phases of that subject. Heretofore, however, I have had no opportunity to mention one very important matter which is the training of young chicks in what a friend of mine has humorously called barnyard etiquette.

I begin training my chicks the moment I transfer them to the brooder room. As soon as possible I begin scattering their grain ration in the litter so they will have to scratch for it thus giving healthful exercise. I also watch them carefully and guide them into the heated area of the hover whenever they need such direction. Whenever I find chicks huddled together, I place them under the hover. It may be necessary to do this quite often during the first week.

Crowding is another danger that can be greatly lessened by early training. I prevent huddling in corners by placing chick wire or boards diagonally across them. They must be watched carefully, however, for if they cannot crowd into the corners, they will often pile together in football scrimmage style right in the middle of the floor. Watch your chicks at all times, but especially at evening if they show any tendency toward crowding. There will always be need for watchfulness in this respect until they are actually roosting.

Crowding is only one of many bad habits chicks will develop if not watched carefully or if not given proper feed, exercise and space. All these habits may be overcome if proper action is taken the moment they show up. One quite serious habit, Toe

Picking or Cannibalism usually results from lack of animal protein in the feed or sufficient exercising room. If they have plenty of room to scratch and exercise naturally, there is less danger. If too closely confined they will seek other forms of activity one of which is picking at one another's toes. Sometimes a chick's toes will be injured and the sight of blood attracts others. Once they taste blood, the picking may become general, causing serious injury and even death to considerable numbers.

Whenever this habit is noticed, take steps to enlarge the quarters or divide the chicks into smaller groups so they have more room. It is also a good idea to add more meat scraps to their mash or milk to drink. You will also probably find that there are one or two ringleaders causing most of the trouble and teaching the others bad habits. If so, take them out of the pen and keep them until the injured toes have healed. Paint the injuries with tar, which has a disagreeable taste and discourages Toe Picking.

Feather eating or pulling is another habit that often leads to chicks literally pulling all the young feathers from each other and eating them, or to eating one another up, starting usually at the tail. It is due to much the same causes as Toe Picking and should be overcome in the same way. Remove the injured chicks and apply tar as for Toe Picking. Do not put them back until they are thoroughly healed.

One very important phase of a chick's early training is teaching them to roost. This can be quite easily done if started before the chicks are too old. By putting them on the roost a time or two at night they will take to the roosts nicely.

Build temporary roosts 12 to 18 inches from the floor, with an inclined runway to the first roost. All the roosts being on the same level, the same as for other roosts. Build it so that the chicks cannot drop between the roosts and the walls, and cover the under side of it with 1-inch netting. This prevents the chicks dropping from the roosts to the floor and also keeps them out of the droppings. The chicks will in all probability take to these roosts naturally and quickly without crowding, but they should be watched a few nights to prevent crowding. The roosts should be from 2 to 3 inches wide, which will help prevent crooked breast bones in both chicks and poults. (Copyright, 1929, by Dr. L. D. LeGear, V. S.)

A novel garden tool bores holes for setting out plants and can be operated standing up.

Rubber automobile tires are really only about half rubber; the remainder is zinc oxide, sulphur, and carbon black.

THE SHAVE'S THE THING
By Thos. E. Pickerrill

(Note: In some parts of the country the price of a shave is going up.)
I've read with much regret the raise in price for scraping mugs to those who frequent barbers—whether princes, kings or thugs;
It used to be, say fifteen cents—in most shops twenty-five. But at those prices barbers say they simply can't survive.

O well, most everything is higher since that bloody war; I think I'll be resigned to fate and shout "Excelsior!"
But if I must pay thirty-five when I go get a shave I want some guarantee which heretofore they never gave.

I want no talking in that chair when I go in to sleep. The shave is incidental—as a bed the chair is cheap; I want the razor sharp and very smooth—resilient as a tire, I want no jerks or pulls or cuts—no scratch to rouse my ire.

I want no porter boy to tap my toe and holler "Shine!" in such a way I feel like thirty cents if I decline; I want an honest promise out of every barber man
That he won't try to shake me down for all the work he can.

When I say "Shave, that's all" their hearing may be good or bad,
But I'll not be harassed again—persistence makes me mad; For if I want massages or some tonic on my hair I'll ask myself for a squiff or two stuff "for men who care."

I wouldn't even protest if they sang and strummed guitars. Or read the old Police Gazette while smoking strong cigars; But on my head I want a towel when I lie down to snooze, It's service that I'm after and I have no time to lose.

I like to see the barbers make a living—even more; A mighty sturdy class of folks they are—but I implore; If seven nickels they must have to scrape my wily face They've got to serve me or I'll not go in their bloomin' place!

"HELLO KING"

King George of England has spoken to the world by means of radio. If it had been possible to answer back 120,000,000 Americans would have shouted "Hello King, we liked your speech. Come again."

The mayor of Indianapolis took his first airplane ride the other day. They'd better be careful as former mayors there are reported to have been up in the air also.

Consideration Of The Prison Bill Begun

AUSTIN, Texas, Jan. 27.—The legislature lost little time in getting down to consideration of prison concentration legislation today, after its return from an inspection trip of the properties. The Senate resolved itself into a committee of the whole to receive and consider all bills before it providing reorganization and centralization of the system. Among the plans were those proposing construction of a modern central plant within twenty miles of Austin.

Chief interest centered on legislation directed at reformation and concentration of the Texas penitentiary system. Having completed a tour and inspection trip of the prison properties and come in personal contact with living conditions of the prisoners, the legislators had a better picture of the system as they entered the work of reforming it.

Sixth Bill Written

A sixth bill proposing reorganizing and centralizing was written by Representative Jack Keller of Dallas today. Five others already were pending.

Chief disagreement was over sites for the new centralized system. The majority of the prison centralization commission recommendation for a site near Austin obtained the support of Governor Moody. Other bills called for concentration on the Imperial farm near Houston and rehabilitation of the present walls at Huntsville.

STORY PREPARING LAND RESOLUTION

AUSTIN, Texas, Jan. 27. (AP.)—Representative Cecil Story of Vernon is preparing a resolution which would require appointment of a committee to investigate title of the approximately 80,000 acres of land owned by the state as a part of its penitentiary system.

The proposed investigation was inspired in part by discovery of legislators on their recent inspection trip to prison land that all mineral rights had been reserved by the parties who sold the Blue Ridge farm tract to the state and that considerable oil is being produced there.

Among the plans were those proposing construction of a modern central plant within twenty miles of Austin, rehabilitation of the walls at Huntsville and concentration on any land now owned. The senate committee on penitentiary had voted out all bills favorably in order to place them before the entire body for discussion.

The house committee on penitentiaries had not considered any of the five bills referred to it, but representative A. H. King of Throckmorton, chairman, said a meeting would likely be held soon.

Proposals In House

In addition to three plans before the senate, the house had two others, providing for concentration on the Imperial farm near Houston, and a two-unit proposal, one section to be devoted to agriculture and situated on the Ramsey and Darrington farms, and one to industrial activities on a site to be determined by a commission.

A sixth bill was placed in the house hopper by Representative Jack Keller of Dallas, who would rehabilitate existing properties and make additions to them.

The house spent most of the morning wrangling over a resolution introduced last week by Representative Graves of Erath county, expressing disapproval of the erection of any substantial building by any department without authority of the legislature, specific reference being made to the \$13,400 highway department office building erected at Tyler. After the latter was stricken out, the resolution was referred to the committee on state affairs.

Meetings scheduled for the afternoon included that of the committee on education to consider a request to Governor Moody to submit summer school appropriations to the present called session. After the senate resolved itself into a committee of the whole it spent the rest of the morning debating whether witnesses should be subpoenaed with their expenditures paid.

Against Proposition

Most of those who had favored relocation argued against the proposition which was offered by W. D. McFarlane of Graham, who is for concentration on lands now owned.

Senator Thomas B. Love of Dallas said he had never heard of the senate paying the expenses of anybody to argue for or against any bill and added he was not in favor of establishing such a precedent. He said the senate would be glad to hear any

one interested enough to appear before it.

Senator T. J. Holbrook of Galveston, Walter Woodward of Coleman and Margie Neal of Carthage echoed Senator Love's sentiments.

"We have spent enough time investigating," Senator Holbrook declared emphatically. "Now is the time to do something."

"It is a most peculiar thing that the 'relocating' boys suddenly have become very solicitous about the treasury," Senator Eugene Miller of Weatherford said in answer. "They did not think about the treasury when they voted to tour the prison properties or send a commission stacked in favor of relocation all over the United States."

Senator Will Martin of Hillsboro said that several persons who could shed some light on the prison matter probably did not have enough money to come to Austin and that the senate would be deprived of their information unless it paid their expenses.

Crickets are a serious pest in the cotton fields of California.

That newspaper advertising is the gateway to better business. It is the demand it creates that makes advertising pay.

Successful business concerns realize the value of advertising and use it persistently.

Many business concerns operate their business at a loss during certain times of the year. It would not be necessary for them to do so if they advertised all the while instead of once in a while. The most forcible way to secure business is through the printed page. It is the greatest trade builder in existence.

Advertising holds old trade, attracts new trade, and increases sales.

Now is the time for every business to advertise and in-

crease their business.

Every day persistent advertisers are learning to serve the public better, and by so doing they are increasing profits.

No business can get by unless it advertises the best in service and quality.

With some concerns business is still asleep. It will stay that way with them until they wake it up by advertising.

GLASSES WATER, NOT TOO COLD HELP CONSTIPATION

One glass water is not enough—take 2 glasses a half hour before breakfast. You get quicker and better results by adding a little simple glycerine, saline, etc., (known as Adlerika) to one glass.

Unlike other remedies, Adlerika acts on BOTH upper and lower bowel and removes old poisons you never thought were in your system. Adlerika stops GAS and sour stomach in 10 minutes! Relieves constipation in 2 hours. Sold by all leading druggists.

Camphor trees are evergreens.

Hatchery Notice!

We expect to start the Santa Anna Hatchery Monday, February 3rd. If you wish to get a start with early hatched chickens, see and engage number of trays you will need. Will set each Monday, beginning February 3rd.

Are the Readers of This Paper Reading Your Advertisement

or
Someone Else's

The readers of this paper are reading the advertisements in it. If they are not reading your advertisement, Mr. Merchant, they are reading someone else's.

If they are reading someone else's advertisements they are going to be influenced to trade with the merchant who invites them to his store, who describes in an interesting way his merchandise, who creates by his carefully written advertisements, a desire for the things he has to sell.

Well written advertisements backed by good merchandise, good merchandising and modern merchandising methods, are the stepping stones to success in the mercantile business today, says the successful business world.

FRESH MEAT.

Santa Anna News: The editor and family have been feasting on some mighty good cuts this week, presented by friends. The names of the donors are withheld for certain reasons. For instance, the man who had just butchered some nice meat hogs did not care to advertise the fact that he had a supply of meat on hand.

A cautious man, your self-supporting friend, it is surprising, though, to learn that there are still some dubious characters around Santa Anna, persons who might not recognize property rights when hungry for fresh meat. Our recollection is that Editor Gregg of the Santa Anna News served as Deputy Sheriff for a while several years ago, and we supposed he resigned from that employment on account of having jailed or deported, all the suspect individuals in his jurisdiction. If some of them have returned, or are out on bond Mr. Gregg may have to buckle on his red and blue suspenders again and make another clean-up. This has been a fine month for hog killing, it is worthy of mention. If Editor Holford of the Garland News had waited until January to slaughter his porker, he might not have lost the ham over which he grieved in early December. It seems that Mr. Holford's hog had only one ham, and that was lost to its owner on account of the soft weather that set in next day after the butchery. But such is the way this life runs. Some, like Mr. Gregg, have abundance thrust upon them gratis, while others, like Mr. Holford lose even the little that they had. Fortune disposes and man moves.—State Press in Dallas News.

CARD OF THANKS

We wish to thank our friends and neighbors for their sympathy and kind deeds during the passing of our dear mother, Mrs. C. G. Oakes.
Her children.

CARD OF THANKS

With deepest gratitude we wish to thank each one for their expressions of sympathy, and many deeds of kindness extended to us in our hour of sorrow.

DISTRICT RALLY

There will be a meeting of several associations that make up this district on February 4, at First Baptist Church, Coleman. This takes the place of our regular monthly workers' meeting. Dr. W. R. White of Dallas, our Secretary of Missions, will be the principal speaker. A splendid program is arranged and will be a blessing to all who will attend. Let me urge that all churches of this Association be represented there. Remember the date—Tuesday, February 4th.
Hal C. Wingo.

SELF CULTURE CLUB FEB. 14, 1930.

Questions:
1. Who was William Godwin and what was his connection with Shelly?
2. Why was the poet called "Mad Shelly" at school?
3. What incidents in his life show his inability to understand society?
4. What did Shelly conceive to be his mission in life?
5. What is the theme of Prometheus Unbound?
6. What are the characteristics that distinguish Shelly from all other poets?
7. Adonais: What distinct group lament for Adonais?
8. Who are the mountain shepherds alluded to in lines 262-270-307-315?
9. Who were Actaeon, Hyacinth, Urania? See Gayley, Classic Myths.
10. Wha tappers to be strikingly prophesied in the concluding stanza of the poem?

MISSION STUDY

Mrs. W. R. Kelley was hostess to the Presbyterian Mission study class last Monday.
The meeting was led by Mrs. Blake. China was the subject of discussion with Mesdames Lowe, Woodard and Kelley taking leading parts on the program.
Plans were made for an all-day meeting with Mrs. Lowe on February tenth when the entire membership of the women of this church are expecting to aid in quilting and to discuss the contents of the book—"Roads to the City of God."
After the program was rendered, the hostess served tea with cake and fruit-jello. The occasion was pleasant as all such meetings are with Mrs. Kelley.

Mrs. Curtis Collins Entertains

On last Wednesday, January 22, Mrs. Curtis Collins entertained a few of her friends to a turkey dinner, honoring Mr. Collins' birthday. At the noon hour a wonderful meal consisting of turkey and all the good things that go with it, was served to the following guests:
Mrs. Bill Collins of Lometa, Mr. and Mrs. Bot McMinn, Mr. and Mrs. Will Ferguson, Mrs. Pauline Harper, Mrs. H. W. Kingsbery, Mrs. M. A. Collins and Mrs. Comer Blue.
In the afternoon some lively games of "42" were engaged in at a late hour the guests departed hoping Curtis lives to celebrate many more such birthdays and saying that Mrs. Collins knows how to prepare the "eats."

AIMS OF SCOUTING

The world interest in the Boy Scout movement challenges the intelligent understanding of everyone, and yet many people still ask, "What is Scouting?" "What do Boy Scouts do?" Scouting means outdoor life and so health, strength, happiness and practical education.
It develops the power of initiative and resourcefulness.
It helps boys to do things for themselves.
It insures good citizenship.
The Boy Scout movement healthfully and sanely offsets the disadvantages which civilization has caused.
It seeks to help boys on leaving school to escape the evils of "Blind Alley" occupations—that is, such work as give the boy a mere wage for the moment, but leaves him stranded without any trade handicraft to pursue when he is a man and so send him out to mingle with the unemployed and, what is worse, the unemployable.—Greenville Herald.

THE MEASURE OF A MAN

Not, "How did he die?"
But, "How did he live?"
Not, "What did he gain?"
But, "What did he give?"
These are the units
To measure the worth
Of a man as a man,
Regardless of birth.
Not, "What was his station?"
But, "Had he a heart?" And
"How did he play
His God-given part?"
Was he ever ready
With a word of good cheer,
To bring back a smile,
To banish a tear?
Not, "What was his church?"
Nor, "What was his creed?"
But, "Had he befriended
Those really in need?"
Not, "What did the sketch
In the newspaper say?"
But, "How many were sorry
When he passed away?"
—Selected

The weather has been bad, but you can spend your money now.

Liberty Items

We are still enjoying real winter weather.
Bro. McCorkle preached here Sunday morning and evening.
The B. Y. P. U. is working on nicely, each one is urged to do their part to make it better.
Our Sunday school is progressing nicely. Quite a number of new pupils have been enrolled.
Mr. D. O. Bearde, who has been visiting his sister, Mrs. J. D. Holt for a few weeks, left Thursday to visit his daughter, Mrs. J. E. Grady of Corpus Christi.
Mesdames Sallie Davis, Mary Barnes and Mr. Ernest Lindsey of Ozona visited Mrs. J. B. Jones Thursday afternoon.
Mrs. Wm. Sheffield and Mrs. H. O. Norris attended the county council at Coleman, Saturday afternoon. The council meets every fourth Saturday.
A large crowd enjoyed the "42" party given by Mr. and Mrs. Sammie Duggins Friday night.
Mesdames Emma Taylor and Mace Blanton visited Mr. and Mrs. J. W. Taylor Sunday.
Leon and Misses Lena and Megie Polk spent the week-end with home folks.
Miss Ida Mae Day spent Saturday and Sunday with her parents.
Mr. and Mrs. E. L. Woodward visited Mr. and Mrs. D. M. Robison of Abilene Sunday.
Mr. and Mrs. A. L. Polk visited in the E. W. Polk home Thursday.
Mr. Leonard Russell, who has been visiting his parents, returned to Fort Worth Wednesday.
Mr. and Mrs. S. H. Duggins visited Mr. and Mrs. L. A. and Grandfather Kyle of Fisk Sunday.
Mr. and Mrs. Will Hensley and sons, Mr. and Mrs. Vernon Penny, Mr. and Mrs. J. D. Howard, and Merle Polk were visitors in the S. M. Russell home Saturday afternoon.
Mr. and Mrs. J. D. Holt visited Mr. and Mrs. W. F. Holt Sunday.
Mr. and Mrs. Wm. Sheffield visited Mr. and Mrs. Oscar Williamson of Santa Anna, Sunday.
If this escapes the waste basket, you will hear from us again.
—Reporter.

Cleveland Items

Most of the students of Cleveland are doing good work. The students who did not do good this month are going to try to do better next month.
Our girls and boys basketball team played a match game with Mukewater, Friday afternoon, January 24, 1930. The scores for the girls team was 36 and 11 in favor of Cleveland. The scores for the boys were 38 to 4 in favor of the Cleveland boys.
We hope to play again soon.
Miss Maybell Gilbreth spent the week-end with her parents, Mr. and Mrs. Charles Gilbreth of Brownwood, Texas.
A few of the students were absent during the cold weather but all are back at school now, and we are very thankful.
Mr. Z. W. Box and family of this community were visiting in the home of Sam Elliott of the Shield Community, Sunday.
Mrs. Alta Hibbetts of Shield community spent the week-end with her mother and father, Mr. and Mrs. John Horsman, of Cleveland community.
Mr. Hugh Phillips is seen sporting around in a new Chevrolet coach.
Mr. Lesley Griffin and wife of Plainview community spent Friday, January 24, with Lesley's cousin, Mr. Joy Hart and family.
The party at Johnnie Marian Wilson's home Saturday night was a success.
Mr. and Mrs. Edd Reynolds of Whon, spent Sunday with Mr. and Mrs. D. G. Thorp of Cleveland community.
Peanuts and Popcorn of Cleveland School.

Incubators and supplies at Blue Hardware Co.

A. J. Ray of Coleman was a business visitor here Monday.
Ney Cartwright of Rising Star who is with the Texas Co. Drilling department is spending a few days with home folks.
to any body sing for an hour, however, noted he may be.

Appreciation of the Artistic

In the earlier days Texans had to struggle too hard to make a living to give much time to the development or appreciation of any kind of art, but conditions have changed. Nowhere does the public respond more quickly, or in greater measure, to real talent in any line of artistic expression than in Texas, and many Texans are becoming known for their extraordinary talents in the various arts. Better than that, Texas artists are receiving the applause and encouragement of Texans rather than captious criticism.

Whon News

We have had several days of sunshine, but it is raining at this writing.
Our basket ball team played the Rockwood team Friday. The score was nine and fourteen in favor of Rockwood.
Miss Lorene Fiveash of Zephyr spent the week-end with home folks, Mr. and Mrs. Gus Fiveash.
Miss Mittie Clifton principal of our school is back in her school room after a case of the flu.
O. C. Lovelady is driving a new Ford.
Ida Herring and little daughter, Mary Frances, spent Sunday in the Carl Cheaney home at Gouldbusk.
Our Sunday School and B. Y. P. U. is doing good work. Everyone seems to be interested.
Mr. and Mrs. E. W. Gill Jr. spent Friday and Saturday in the Gill home at Brownwood.
—Reporter.

More than 23,000,000 hectares or 57 percent of the whole area of Sweden is woods, the province of Norrland having alone 13,000,000 hectares of forests, while central and southern Sweden shares are 5,700,000 and 4,900,000 hectares, respectively.

A power site of more than 20,000 horse power has been discovered in the Hoggass national forest in southeastern Alaska.

BAPTIST CHURCH

We had an increased attendance last Sunday with one addition to the church at the morning hour.
Prayer meeting was well attended on Wednesday evening and several expressions of the fine fellowship have been heard this week. Bro. Oliver led the service. Come to prayer meeting if you are hungering for fellowship or friends; come if you want to pray or feel sure that you need to be prayed for; come regardless of your feeling and we will do these good.
Regular services next Sunday in all departments. We are beginning now to pray for our revival meeting which will begin March 16. We are praying for a meeting that will touch the whole community and draw everyone closer to God saving the lost by the scores and giving the saved a vision of holier living. Dr. I. E. Gates of San Antonio has been invited to do the preaching but at this date we have not heard from him.
Come to the church where we strive to make spiritual things of first importance.
Hal C. Wingo.
The American pioneer may have had a lot of lonesome evenings, but he didn't have a lot of static to interfere with his lonesomeness.

PROVISIONS OF NEW HIGHWAY LAW EVERY TEXAS CITIZEN SHOULD KNOW

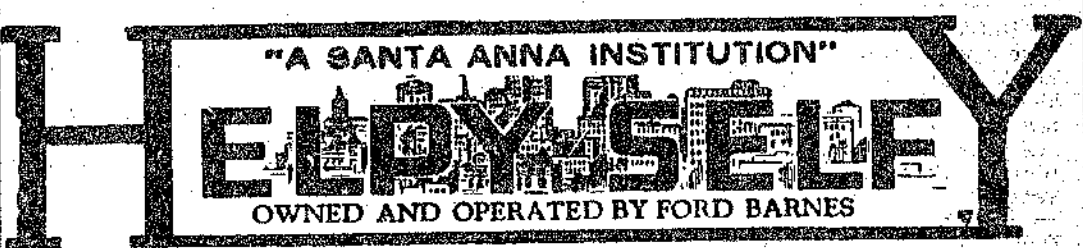

(Continued from page one)

Highway Patrol will be founded on the Highways of Texas after January 1st, protecting the motorists of Texas against the few inconsiderate persons, who by violation of the law jeopardize lives and property of motorists and to protect the highways from those selfish commercial firms who would destroy the highway with impunity by over-loading trucks to meet the requirements of their needs, without taking into consideration the cost to tax-payers through destruction of highways.

The men comprising this Patrol consist of fifty uniformed motorcycle officers, whose duties will be to patrol the State Highways for the protection of the motoring public; to enforce highway laws and render assistance to motorists at any time assistance is desired.

These men have been selected with great care, with respect to their qualifications, honesty and integrity and have been schooled in Courtesy, Service and Protection to the motoring public.

The Highway Department asks the co-operation of every Texas citizen, as it is their desire that the State Highway Patrol be a body of men, of which the whole state of Texas will be proud.

FOR SALE OR TRADE—27 model Ford truck. 5 good casings, two head, farm and gravel. See Rep Harris at Wilson & Harris Produce Co. 7-ttc

SHERIFF FRANK MILLS FOR RE-ELECTION

In our announcement column this week will be found Frank Mills' name, who is a candidate for Sheriff of Coleman County, to succeed himself. Sheriff Mills is now serving his first term in office and is asking for the usual and customary second term, where the duties of the office have been properly performed. In this connection, Mr. Mills has made good his every promise. He has looked well into all law violations coming to his attention in the county, and has exerted his every effort to bring to justice all violators of the law without the fear or favor of any, and he offers his record in office for your consideration. He solicits your favorable consideration during the campaign, and your vote at the polls.

THE VERY IDEA

Is the title of a picture that will give you a laugh. You must guess what it is. A stork legend and a enormous amount of money is in the making of the plot. It is a talking comedy drama. To be shown at the Queen Wednesday and Thursday next week.

Take the Santa Anna News, it tells you of local happenings.

LOST—German Police Pup. Age: 5 mo., color: dark gray. Female. Finder please return to Mrs. C. A. Shamblin just south of light plant. 7-1tc.

NOTICE: Those who want water wells drilled on farms or ranches, I have a Fort Worth Spudder, and can do you a good job on short notice. W. B. Kellog, Bangs Route 2.

POLITICAL ANNOUNCEMENTS

The Santa Anna News has been authorized to announce the following as candidates for the respective offices designated, subject to the action of the action of the Democratic Primary July 26, 1930:

TO THE VOTERS OF COLEMAN COUNTY, TEXAS

My friends have solicited me to offer myself as a candidate for County Judge this year, and after carefully considering the matter I have decided to run for the office, subject to the Democratic primary to be held in July.

It is only fitting and proper to tell you something about myself in order that you may know who you are voting for.

I was born at Gladders, Texas on the 23rd of February, 1870. My parents moved to Burnet County where I attended school in the country until the fall of 1891. My father moved to this county and bought 400 acres of land one mile west from Mt. View about nine miles northwest of Coleman, and my stepmother, Mrs. W. L. Gould, still owns this land. I attended school at Mt. View for a number of years up until I "quituated". Then I went to work for W. C. Gay, Sr. I worked there about three years. I started in working for \$12.00 per month, but I was advanced to \$16.00 per month when I quit in order to go to school, and I did attend Howard Payne College at Brownwood. While I was in school there I did the janitor work to pay my board and tuition. I took a full college course. I went to Austin in 1907 and entered the University and I took a law course. In taking this course I was Secretary of the United States Mutual Life Insurance Association and I paid my way by this means. On March 21st, 1908 when Mr. Connally the clerk of the Supreme Court told me that I had passed in all of my grades and I was a full-fledged lawyer. I took my certificate and resigned from the secretaryship of the Insurance Association, and I caught the first train home to show "Pa" what I had. No one but a lawyer can tell you just how I felt.

In 1910 I made the race for County Attorney and I was defeated by Judge R. B. Ragsdale. That same fall I went to Galveston and went to work for the G. C. & S. F. Ry Company, directly under D. W. McLeod its Auditor, as Freight Claim Investigator. I stayed there until March 1, 1913. I then resigned in order to accept a position with the American National Insurance Company at Galveston, as its Chief Claim Adjuster. This Company was capitalized at \$2,000,000.00, and while I was there I paid out over my own signature on an average of \$12,000.00 per week in settlement of claims. My signature then was worth considerable more than it is now.

In 1917 I resigned and moved to Houston and opened up an independent claim office, where I stayed until the summer of 1923 when I moved back to Coleman, and I have been engaged in the practice of law here ever since then.

As to my legal qualifications I refer you to Hon. J. B. Dibrell and Judge W. Marcus Weatherred and as to my integrity, honesty etc., I refer you to Press McCord, President and Sam Gray, cashier of the Coleman National Bank, and to C. W. Hemphill, President, and Jess Smith cashier of the Central State Bank. Leman Brown, President State National Bank, Burgess Weaver, President First National Bank and Dr. T. Richard Sealy, owner of the Sealy Hospital. I am willing to let them tell you whether or not you can trust me.

It will be my purpose to see every voter between now and the July primary, but in the mean time I will thank you to keep me in mind. I personally know all the old-timers here and I will thank you to stop me on the streets for I may not know you, and I have to make a living between now and the election. For after the election I will be your County Judge.

Harvey Lamon Livingston.
J. E. BRAND FOR CONSTABLE

Added to our announcement column this week is the name of J. E. Brand, who is a candidate for Constable of this Justice Precinct.

Mr. Brand came to Santa Anna about four years ago, from Perry county, Arkansas, is a farmer, an honorable citizen, believes in the enforcement and upholding of the law, is capable, and pledges, if elected to discharge the duties of the office to the best of his ability without fear or favor. Mr. Brand is at present a deputy sheriff under Sheriff Frank Mills, and has been for more than a year. He will appreciate your favorable consideration and your vote.

A jumper tree calculated to be more than 3,000 years old, grows from a cliff in Logan canyon, Utah. It has a circumference of 22 feet 8 inches and is 4 1/2 feet high.

TO THE VOTERS OF COLEMAN COUNTY, TEXAS

I hereby announce my candidacy for a Second Term as Sheriff of Coleman county, subject to the action of the Democratic Primaries.

Since you have favored me with this office, I have done my best to make Coleman county a safe place in which to live. With the assistance of my efficient deputies, the road houses that infested the county have been closed; the boot-logger has, to a great extent, been ousted from his occupation; and, I believe you will agree with me, that the professional criminal has been made to have more respect for the law because he knew that he would have to suffer the penalty for his violation of the law.

I believe that I am more capable to handle the affairs of this office now than I was when you first elected me, and I promise that if you show your confidence in me, and your desire for the proper enforcement of our laws, by re-electing me, I shall continue to serve you with renewed determination to clear the county from those evils which we must constantly fight, and shall do my best to make the people respect the law, and the rights of others.

My opponent and I both have records as Sheriff of your county, and I respectfully ask that you compare these records, and determine therefrom which of us the criminal has the most reason to fear, and then let your vote be in favor of law, decency and order.

Give me your strength and support in keeping the road houses and gambling dens out of business.
 Very truly yours,
 Frank Mills.

American antelope are so numerous in Idaho as to constitute a farm nuisance.

NOTICE OF SALE OF REAL ESTATE UNDER ORDER OF SALE

The State of Texas, County of Coleman. In the District Court of Coleman County, Texas. The State National Bank of Santa Anna, Plf. vs. G. H. Greene, deft.

Whereas, by virtue of an order of sale issued out of the County Court of Coleman County, Texas, dated January 25, 1930, on a judgment rendered in said court on the 7th day of November, 1929, in favor of the State National Bank of Santa Anna, Texas, a corporation, and against the said G. H. Greene, for the sum of \$373.45 and costs of suit, No. 2136 on the docket of said court, foreclosing an attachment lien on the hereinafter described property as it existed on the 7th day of August, 1929, I did, on the 27th day of January, 1930, levy upon all the right, title and interest of the said G. H. Greene in the following described two tracts of land, to-wit:

1st. tract: All the undivided interest of G. H. Greene in all the oil, gas and other minerals in the South 255 acres of the 583.6 acre tract out of the A. B. Lipscomb Sur. No. 77, Bonds & Sanders Surveys Nos. 78 and 79 and S. Perry Sur. Nos. 193 and 194, fully described in deed from Mrs. Lon Greene to R. S. Stearns, dated Sept. 20, 1922, recorded in Vol. 128, page 587, Deed Records of Coleman County, Texas.

2nd. tract: All the undivided interest of G. H. Greene in the following described land: Beginning at the S. W. cor. of a 120 acre tract owned by Samuel H. Quinn; Thence S 55 1/2 vrs to a stake; Thence E 1108 vrs to a stake;

Thence N 85 1/2 vrs to a stake; Thence W 1108 vrs to the place of beginning, containing 108 acres out of the M. Chaves Survey No. 44, and being the same tract of land conveyed to F. N. May by deed dated 15th day of May, 1915; both tracts being in Coleman County, Texas; and upon all the right, title and interest he had in said lands on August 7, 1929, or at any time thereafter; and on the 4th day of March, 1930, being the first Tuesday of said month, between the hours of 10 o'clock A. M. and 4 o'clock P. M., on said day at the courthouse door of said county, I will offer for sale and sell at public auction, for cash, all the right, title and interest of the said G. H. Greene in and to said tracts of land, and all the right, title and interest he had on the 7th day of August, 1929, or at any time thereafter.

Dated at Coleman, Texas, this 27th day of January, 1930.
 Frank Mills, Sheriff,
 Coleman County, Texas.
 By, P. F. Dyches, Deputy. 7-3c

RUPTURE

EXPERT HERE
 C. F. Redlich, Minneapolis, Minn., nationally famous Rupture Appliances Expert, will demonstrate without charge his unequalled method at the Southern Hotel, Brownwood on Monday, February 10, from 10 A. M. to 4 P. M.

Mr. C. F. Redlich says: The "Perfect Retention Shield" hold the rupture perfectly, no matter what position the body assumes or how heavy a weight you lift. They give instant relief and contract the opening in a remarkably short time. The secret of their success is in their simplicity. An expertly adjusted device seals the opening without discomfort or detention from work. It is practically everlasting, sanitary, comfortable and actually holds ruptures which heretofore were considered uncontrollable.

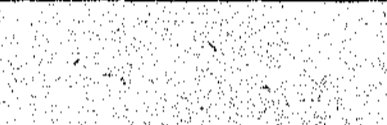

"IF YOU WANT TO HAVE IT DONE RIGHT—SEE REDLICH"
 Doctor J. W. Seaver, for many years in charge of the Physical Education of the students of Yale College, has recorded 75 percent cures with this system.

Mr. Redlich is internationally known and speaks English, German and Spanish.

Industry Stimulator

Lord Churston, British Consul, on his recent trip to West Texas said:

"There's no chance of comparing America and England. You have the cheapest power possible. Everybody can use it, whereas in England it can't be done. I pay 25 cents a kilowatt hour for electric service. It is impossible for all classes to have this convenience. For instance in the agricultural areas, where laborers are paid 31 shillings a week, they could not afford to buy electric service.

"West Texas should be very thankful for cheap power and for its availability to all. Big power companies certainly are of great stimulation to Texas Industry."

Girl Scout Hike

Saturday morning at ten-thirty o'clock the Girl Scouts of Troop No. 11 started hiking to Camp Sunset. We reached there about eleven-thirty o'clock and we were all very hungry. We ate our lunch which consisted of wieners, rolls, pickles, potato chips, cakes, marshmallows, and fruit.

We then hiked to "The Haunted House" which is located some distance back of Camp Sunset. After taking pictures and exploring the old house, we were ready to leave. A group of the girls went ahead and laid their wicker signs which led us far out into the pasture. When we reached the camp about three o'clock we were all very tired so we started home.

Those who enjoyed the hike were: Captain Marshall, Lieutenant Durham and Scouts, Eric Gregg, Jane Whitlow, Rebecca Turner, Mary Alice Mitchell, Helen Turner, Catherine Rollins, Francis Jones, Ruby Davis and Aline Harper.

S. O. S.

English III Literary Club

Thursday January 16, English III organized a literary club which will meet the second and fourth Fridays of each month. The motive of the club is to promote the use of better language and develop the speaking ability of its members.

President - Irene McCreary, Secretary - Treasurer - Wm. Earl Ragsdale.

S. A. H. S.

Forty-Two Party

Friday evening about seven o'clock girls began gathering at the home of Miss Aileen Turner where an enjoyable evening was spent in games of forty-two. A late hour, delicious refreshments of hot chocolate and nuts were served to the following: Misses Rebecca Turner, Catherine Rollins, Maurine and Evelyn Kirkpatrick, Bessie Evans, Mary Alice Mitchell, Aline Harper, Margaret Harvey and the hostess.

S. O. S.

You

You are the fellow that has to decide whether you'll do it or toss it aside. You are the fellow who makes up your mind whether you will lead or linger behind. Whether you'll try for the goal that's afar, or be contented to stay where you are. Take it or leave it, here's something to do, just think it over, it's all up to you.

"The Hilltop"

S. A. H. S.

The Spanish class was studying a Spanish Bible and Mr. Oliver called for the verse, "Be Not Afraid, It Is I," to be memorized. The next day he called on Dennis to repeat the verse. Dennis looked bewildered for a moment, then a smile broke out over his face and he exclaimed, "Aw don't get scared it ain't nobody but me."

Cheer

Home Economics Club

Those members of the Home Economics Club who ordered pins were agreeably thrilled Friday of last week when they saw the lovely pins.

The pins and guards are of Sterling Silver. The pins are in the shape of the well-known rolling pin, and have raised letters in black, H. E. C. The guards have 30 on them, and are fastened to the pins with Sterling chains. Both pins and guards have safety catches.

The girls will try to live up to the significance of the pins, which, one might say, is to strengthen her love for Home Economics.

Pool's Fancy.

Freshman News

We are working hard for the Palmer Davis Medal, which is to be given commencement night to the one making the highest average in current events.

They elected the favorites Tuesday morning after chapel. We will find out Friday night at the play the seniors are giving to the annual.

S. A. H. S.

The Sophomores are very proud of their pupils who made the third six-week period and also of the first semester. They are: Katherine Ross, Pinney, Jesse Lee, Sparkman, Fummett, Stiles, Carl Flores.

The Sophomores will put on their program "The Train Tomorrow" on Friday, 24th, in chapel.

S. A. H. S.

The members of the Scribblers' Club received their pins last Tuesday. They represent an open book and have engraved on them "1930" and "Scribbler". Each member of the club is proud of her pin and is going to strive for the letter "S", which is to be awarded her at the end of school, if she has been faithful in her work.

Blossom.

S. A. H. S.

Mr. Oliver: "Buster, if you are on the road and I came up and ask you how to get to Mr. Jones' house and you would say, 'Do you know where Mr. White lives?' I would say, 'yes,' then you would say, 'Do you know where Mr. Brown lives?' I would say, 'yes,' then you would say, 'Do you know where Mr. Green lives?' then I would say 'yes' you would say 'Mr. Jones lives just beyond Mr. Green's.' What kind of reasoning is this?"

Buster: "Reasoning by color." S. A. H. S.

Mr. Scarborough had just explained how horse-power could be found. Wendell raised and asked: "How do you find donkey-power?" S. A. H. S.

The Edgar Allen Poe Club of the Freshman class met January 27. Catherine Rollins called the house to order and this program followed:

The Life of Edgar Allen Poe—Ada Bell Barton.

The works of Poe—Mildred Eubanks.

The Gold Bug—Deggs Traylor.

The Facts in the case of Mr. Valderman—Mary Wiseman.

Following this the pupils of the class criticized the parts given, finding few mistakes.

S. A. H. S.

Recently Audas Smith became a member of the Junior class making an enrollment of fifty-eight. Prior to this time Audas attended Abilene High School. From all reports he is a remarkable student and he can be assured that the Juniors are glad to welcome him into our class.

—Raggedy.

First Grade (A)

It has been rather cold for the little folks lately, but we are very proud to tell you that one of our class-mates, Willyne Ragsdale has been neither absent nor tardy during the first four and one-half months of school.

Those who made the honor roll for the past six week period are: Bettie Ruth Blue, Mary Jo Gregg, Joyce Hensley, Billie Ruth Keeling, Margaret Mobley, Willyne Ragsdale, Sarah Kidings, Blanche Smith, Vera Fae Tisdale, Jack Cheaney, J. T. Garrett, Billie Pieratt, Bill Roy Williamson and Bob Wheeler.

We are also very proud of the ones who received awards for having a 90 percent average throughout this first semester. The following received those certificates of award: Sarah Kidings, Bill Roy Williamson, Blanche Smith, Bettie Ruth Blue, Billie Ruth Keeling, Bob Wheeler, Joyce Hensley, Jack Cheaney, Margaret Mobley, Mary Jo Gregg, Billie Pieratt and the certificate of attendance to Willyne Ragsdale.

Melba Apten is back! We are very glad.

6 B News

We are glad that all of us are well.

We had a good time last week.

We are sorry that Dathene Beard left yesterday and Hunlen Cooper left last week. We are hoping them a happy time wherever they go.

We are glad that Evelyn Evans got a reward for never being absent nor tardy. She was the only pupil that got one in our room.

In Geography we are having a question box. And in English we are having verse.

—Edna Lackey.

2 A News

We are going to start our Valentine decorations soon. We are anxious for February to come because we are planning to make a lot of things.

We are sorry that Emma Lee Ledford is out of school on account of illness. We miss her and look forward to her return to school.

We are very proud of our room because no one has made a red D the first half of the school year. We are going to keep up this record.

We are studying hard this term and are trying to make better grades than we did last term.

James Apten, one of our classmates who has been ill for two months, is back with us. We are glad to welcome James back.

We are all interested in Nature Study this term. We are studying the winter birds now and find them to be very interesting. We expect to go on a field trip real soon and observe more of the beautiful things of nature.

—Reporter.

6 A News

Most of the teachers have begun practicing for the interscholastic league meet. The girls' volley ball has come. Both boys and girls are practicing indoor baseball. We hope to bring a number of cups from Coleman.

Mr. Scarborough (in Public Speaking Class): "Some one has just telephoned and said for Inez Shields to come home. Her Inez: (Rising to go) "But I have no baby sister."

—K. K.

California has more aviators than any other state.

4 A News

Last Tuesday we had a radio party in our room. The 4 B pupils came in and joined us in broadcasting this program. As we are finishing our study of the United States each pupil was assigned one state to make a study and review. The professors made some interesting talks and were able to answer questions that others wished to know in regard to his state. We were troubled with very little static.

Since mid-term we are having Nature Study instead of Health. But we still have Health every Thursday.

We are glad to have Ben Jr. Parker with us again. He has been ill since Christmas.

—Reporters.

5th Grade News

We are all enjoying the study of geography. We are getting all the cities in which people we know live. We are also going to make a puzzle of the United States.

In reading we are studying poetry.

In arithmetic, we are studying fractions.

We are all going to try to enter something in the Interscholastic League.

—Reporters

We are making small houses in Geography to represent the different counties of Europe. We have studied and will study. We are also getting reports on different cities of Europe. We are studying the spelling words we will have at Coleman. We will have a spelling match today. We have one every four days.

May Campbell's name should have been on the six weeks honor roll. We thank Mr. Gregg for reserving us a place for our school news.

Pick's Topics

By THOS. E. PICKRELL

"Evidently what Prohibition needs is dry cleaning."—Dallas News. Indeed, the problem is pressing.

With a little reverse phrasing Reno is first the home of the brave and a little later on the land of the free.

Some of the powers take the attitude that when they're at peace they don't have to sign peace treaties and when they're at war they can't.

50 horsepower six cylinder engine

Not until you drive the new Chevrolet Six can you appreciate what a wonderful improvement has been made in its famous six-cylinder valve-in-head engine. With its capacity increased to 50 horsepower, it has great reserve energy for sweeping up the steepest hills—for swift acceleration—and for sustained high speeds. Its power flows evenly and smoothly. And it is extremely flexible in traffic. In fact—it does everything you could possibly want a motor to do. Yet it is remarkably economical in its use of gasoline and oil. Come in today for a demonstration.

SUNDAY SCHOOL LESSON

By Rev. P. E. Fitzwater, D. D.
(Member, Bible Institute Faculty.)
(Member, Western Newspaper Union.)

Lesson for February 2

PUTTING GOD'S KINGDOM FIRST

LESSON TEXT—Matthew 6:1-24
(vv. 1-15, 17-21, 23-33)
GOLDEN TEXT—Seek ye first the kingdom of God, and His righteousness, and all these things shall be added unto you.

PRIMARY TOPIC—Being True to Jesus

JUNIOR TOPIC—Being Loyal to Jesus

INTERMEDIATE AND SENIOR TOPIC—Being Loyal to Christ

YOUNG PEOPLE AND ADULT TOPIC—Putting First Things First

Having set forth in the previous chapter the standards of the kingdom, Jesus now exhibits the underlying principles which control the subjects of the kingdom.

I. As to Giving (vv. 1-4).

Alms were not to be given before men to be seen of them. Doing alms before men is not condemned as that would contradict Matthew 6:16, but the doing of them before men to be seen of them. To seek publicity in doing our alms is to miss the reward of our heavenly Father. The true child of the kingdom will seek privacy in doing righteousness that he may have the open reward of the Father.

II. As to Praying (vv. 5-15).

1. False prayer (vv. 5, 7).

This consists in (1) Praying to be seen and heard of men (v. 5). Many of the prayers uttered in public are false, for there is more thought of what the people think than of what God thinks. (2) Using vain repetitions (v. 7). This does not mean that we should not pray once for a given thing. We have examples of Christ and Paul praying three times for the same thing (Matt. 26:39-46; II Cor. 12:7, 8). It means the using of meaningless repetitions. The reason assigned is "Your Father knoweth what things ye have need of before ye ask Him."

2. True prayer (v. 6).

Since prayer is a transaction of the soul with God, there should be a real desire for fellowship with Him which moves one to meet Him in the secret place. We should have our closet prayers where all the world, with its cares and pleasures, is shut out, and we are shut in with God.

3. The model prayer (vv. 9-15).

This involves (1) Right relationship—"Our Father" (v. 9). (2) Right attitude—"Hallowed be Thy name" (v. 9, 10). (3) Right spirit—"Give us our daily bread, forgive us our sins, lead us not into temptation" (vv. 11-13).

III. As to Fasting (vv. 16-18).

The true reason for fasting is to be found in the opportunity it gives for a clear vision of God. Those who have thus seen God will make it manifest in a joyous countenance.

IV. As to Earthly Riches (vv. 19-24).

The Lord knew the temptations which would befall His children in their earthly pilgrimages and the anxiety to which it would lead; therefore He set forth the proper attitude toward them.

1. The nature of earthly riches (vv. 19-21).

(1) Uncertain (vv. 19-20). Earthly treasures corrode, or are taken from us, therefore we should lay up for ourselves treasures in heaven where they are absolutely safe from corruption and from thieves. (2) Deceptive (v. 21). Christ called riches deceitful (Matt. 13:22). It is not wrong to possess earthly treasures, but when earthly treasures possess us, they become a snare unto us. Excessive attention should not be given to earthly treasures.

2. The effect of earthly riches (vv. 22-24).

(1) Blunt the moral and spiritual perceptions (vv. 22, 23). Those who become enamored of the things of this world soon become irresponsible to spiritual things. When the heart is upon earthly treasures it is taken from God. The double eye is disastrous to spirituality. (2) They render null and void all service (v. 24). As soon as one's heart is stolen by riches, he is rendered unfit for spiritual service.

V. As to Faith in the Heavenly Father (vv. 25-34).

1. Be not anxious about food and clothing (vv. 25-34).

Because (1) He shows distrust of God (v. 30). God is able to supply His children's needs. (2) It is useless (v. 31). Anxiety can bring nothing. While bringing us nothing, it weakens our service. (3) It is heathenish (v. 32). Those who have not learned to trust God may worry over temporal affairs, but those who know Him as a loving Father, will be free from care.

2. Be anxious to seek the kingdom of God and serve Him (vv. 33, 34).

This means that worldly affairs should be subordinated to spiritual affairs. This does not preclude the proper provision for the support of ourselves, our family, and our country. The warning is not against forethought, but worry.

A magazine is conducting a straw vote on people's views as to how long a woman's skirt should be. The next thing you know they will be taking a vote of this kind on the weather man.

If all of the old fiddlers that you hear over the radio, would happen to be blind, how sure would they be of the weather?

TAKE IT FROM DAD

By Frank H. Cheley

Cigarette Smoking

Bob came down to breakfast late and obviously a bit out of sorts.

Mother looked at Dad and Dad looked at Mother, as much as to say, "What's wrong now?"

"Bob, your clothes smell mighty smoky this morning," said Mother, good naturedly.

"Thought you went to a party, not to a smoker, last night."

"All one, and the same thing now, Mother," said Bob. "And take it from me, it's best to be the only different guy at the show. I'm keeping my promise to you, but, say, do you really think it was fair to exact that promise from me just because I've always made good on my agreements with you. Honestly, I'd rather stay home than be the only dude present every time, who has promised his mamma."

There was a bit of sarcasm in the boy's tone in spite of himself.

Father Smiththough scowled noticeably. "My boy, I'm sure Mother will release you from that promise now. Such promises are necessary and desirable with children who cannot think or reason for themselves. They are not desirable for young men of your age. I know exactly what the social pressure is. I've been through it myself, my boy, and after I faced it squarely and thought the thing through for myself, I stuck by my promise, only from then on it was to myself. Now, I thoroughly enjoy being different. Why join the herd? Why, if I'd let my conduct be determined by what 'everybody's doing,' you'd be ashamed to own me as dad."

"Oh, I know, Dad, but you're a Puritan. You would like to be different just as you always enjoy being the minority, but it's so deucedly uncomfortable and makes you so conspicuous. Even the girls make fun of me. I'm not angel child, and I hate to pose as one. I can't for the life of me see why it is all right for men to smoke cigarettes, but that it is terribly bad for boys."

"Bob," said Dad, with a good-natured smile, "the most difficult aspect of the whole question of conduct is this matter of conformity. Life seems organized to reduce life itself to the common place. The cigarette has become social custom. Men of prominence on every hand, and women, too, as you well know, have accepted the edict just the same as they do fashions in clothes and fashions in speech and fashions in reading; and one of the great questions of the day really is, is it right for adults who are truly interested in youth to do anything that youth may not copy, for we know that a large part of a boy's essential education comes from imitating."

"Now, son, because I fully realized that we must sometime face this question again, and because I knew your great admiration for the coaching ability and reputation of Gilmore Dobie, who for eleven years never lost a game, I clipped this from a paper some time ago and slipped it into my card case:

"Probably Gilmore Dobie knows a good deal about what makes a boy strong and alert, and what causes him to be a failure. This is the special message he sends to you: 'It has been my experience that the use of tobacco, more particularly cigarettes, by boys under the age of twenty-one, is especially detrimental. I think there are two special reasons why tobacco should not be used by growing boys. First, tobacco is much more detrimental to the youth than the adult. It has a greater influence over the physical and mental activities of the boy, at the time in life when the resources of the mental and physical powers are taxed by the growth and general expansion, and cannot so well withstand the additional impediment of taking care of poisons and the derangement of the nervous system resulting from the smoking habit. Invariably this is evidenced by lack of youthful bloom, mental alertness and physical efficiency. Second, I find it almost invariably the rule that the smoking habit, when formed in early youth, takes a much more powerful hold on its victim and gradually increases its influence until finally it has created an inveterate smoker. Every boy who is ambitious to reach and retain the highest degree of physical and mental manhood, can, to a great extent, insure himself by abstaining from the use of tobacco in his early life.'"

"Now, so much for that. My second reason is even more fundamental. My greatest objection to the cigarette is that it is typical of a whole range of personal indulgences. What were we saying the other day about citizenship and loyalty? The greatest loyalty in the world is loyalty to the best that's in you. Smoking cigarettes is a compromise with yourself on what you know is not the best that's in you, and it is the entering wedge of personal indulgence."

"From this morning on, Bob, you are free. No promise binds you. You are a big intelligent boy. If you can't think and reason now, you never will."

"And now it's harder than ever," said Bob with a gulp, "but I'll think it through. Mother, you burn up the batch that are in my overcoat pocket, will you?"

This country may be made proof, but it lacks a long way from being made proof.

ZERO WEATHER WAS THE

"ZERO HOUR"

FOR YOUR GAS COMPANY!

But the Gas Army "Went Over the Top"---and Whipped The Public Enemy---

COLD!

-- Men keeping sentry through the bitter cold day and night guarding pipe lines! Keeping the pipes at wells from freezing over!

-- Field men ready night and day for instant action!

-- Four gas fields -- twelve gas wells wide open!

-- Giant compressor station held in reserve! 49 miles of pipe line bringing gas to Coleman and Santa Anna homes!

-- Double pipe lines bringing gas to Coleman and Santa Anna homes!

These are some of the forces marshalled by your gas system to fight the tremendous battle waged in the face of the coldest weather Texas has had in 30 years.

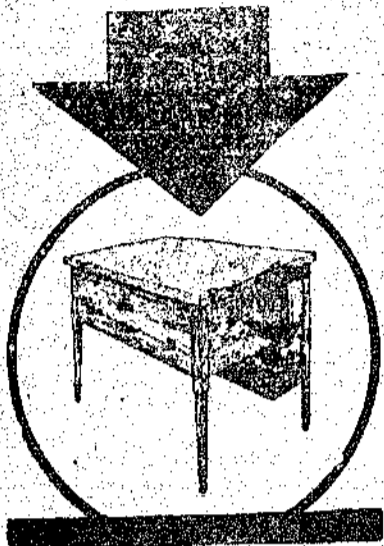

It has taken over ten years to build up a gas system capable of meeting such a supreme test.
