"He Profits Most Who Serves Best"

Band Plays For Lions Club Tuesday

The Lions club was made to feel some appreciation of their efforts in sponsoring a band at the luncheon Tuesday, when W. L. Mills, the band leader and instructor, brought his band down, and rendered several pieces of music. The band is now starting out on its third month, and is making fine progress. The business interest of the town is paying the instructor and giving an opportunity to those who wish to take band music to do so, and more members are needed.

Mr. Mills will also give private instructions to any one wishing private lessons, and is urging more boys, men, or whoever might be interested to join the band.

We find a few interested who indicate they would like to join, but are not financially able to purchase instruments. Some one who is financially able to finance some worthy boy or girl would do a good deed to help them buy an instrument. We believe Santa Anna is going to have a real band, for we think we can see one in the making.

Prof. Milton Binion reports a sufficient number of Boy Scouts having passed the test to procure a charter for the second troop of Boy Scouts in Santa Anna. The charter has been ordered and a court of honor will be held one night during the last week in this month to make the awards.

In tabulating reports from colleges and Universities where former Santa Anna students are attending school, we have the following, which is very gratifying: Miss Alice Hays, daughter of Dr. and Mrs. T. M. Hays, attending the C. I. A. at Denton; is one of the 94 who have been selected to teach in the Denton public schools the next semester. Student teaching throughout the eighteen weeks is required to secure a permanent teachers certificate. Miss Hays is a Junior in the educational department and has been assigned history for her subject. Miss Ellen Folk made the honor roll for the spring term at the Texas Technological College at Lubbock with an average grade of B. Miss Maurine Johnson made the honor roll at the John Tarleton A. & M. College at Stephenville with an average grade of B. These are mentioned in addition to those previously mentioned in recent editions of the paper.

J. L. Boggus made a flying trip to Fort Worth Sunday.

Wirtz Opines Love To Be Denied Place

Seguin Senator Says Rule To Be Challenge To Nation's Thought

AUSTIN, Jan. 11.—Prediction that Senator Thomas B. Love of Dallas will be declared "no democrat" by the state executive committee and denied a place on the ballot as a candidate for governor, was made by Senator A. J. Wirtz of Seguin, in a statement here.

"In so doing," he said the state committee "will give expression to a declaration for good faith in the making and keeping of political pledges as will challenge the sober thought of the nation." Senator Wirtz asserted the "new doctrine of political honor that a man's conscience can dictate that he violate the pledge, might win commendation from that republican coterie composed of Fall, Denby, Forbes, Vane Thompson and others, but it ought to meet nothing but condemnation from those democrats who strive to emulate the principles taught and practiced by Jefferson, Jackson and Wilson."

"I will admit," Senator Wirtz said, "that the republican leaders with whom Senator Love has been training think that little of their political obligation. Perhaps they have become inoculated with his pledge-breaking virus, and because it hurt their conscience to keep their campaign pledges they have considered it right and proper to break them."

"At any rate, they have broken the paramount pledge of farm relief, and the closest political observer would be hard put to name any campaign pledge that has been kept, although some of our Hoovercraft friends may still believe in Santa Claus and expect some results from the numerous boards, commissions and investigators named to investigate and report on the question."

Senator Wirtz pointed out the San Antonio court of civil appeal had upheld the action of lower courts in denying Senator Love a place on the ticket two years ago for lieutenant governor in many counties, after he announced he would not support democratic electors if Alfred E. Smith were nominated for president by the party.

D. J. Johnson, the big chief at the Santa Anna Telephone company is staying at home this week nursing a case of the flu. We hope Mr. Johnson and the others reported sick this week will soon recover and be back at their places of business.

1930 Political Year In Texas

AUSTIN, Jan. 10.—(AP)—Texans will elect a new set of officials this year. United States Senator Tom Conally, who was chosen in 1928 for a six-year term; a few state Senators and district judges who are elected for four-year terms and three or four state officials also who are not obliged to run every two years, will be on easy street in so far as campaigning for re-election is concerned, but everyone else, including the 13 Congressmen, will be required to stand for re-election. It will be an off year only for Presidential candidates.

The Republicans will be required to hold a primary on July 26th, the same day the Democrats nominate their candidates. Under Texas law parties that poll more than 100,000 votes for governor in a general election are required to hold primaries. It will be the second time Texas Republicans have ever held primaries.

The political calendar for the year follows:

January 31—Last day for payment of poll tax or to otherwise qualify by obtaining voting credentials.

June 2—Last day for candidates for state offices and district offices, in districts containing more than one county, to file requests to have their names placed on the ballot.

June 8—Meeting of state executive committee.

June 14—Last day for county and precinct candidates and district candidates in district composed of only one county, to file requests to have names placed on ballots.

June 16—County executive committee meets to determine the order of names on ballot and estimate expenses of election.

June 26 to July 1—Candidates must file their first report of the campaign expenses not more than 30 nor less than 25 days prior to date of the primary.

June 26 to July 1—Time for voters who are absent from county to appear before a notary public and request ballot.

July 14—Primary committee meets to prepare ballot.

July 14 to 18—Candidates must file second statement of campaign expenses.

July 16 to 23—Time for voters who intend to be absent from county on date of election to appear before clerk and vote an absentee ballot.

Change of Residence

Four days prior to date of election all voters living in a city of 10,000 inhabitants or more who have moved their residence within the city or from without the city to the city, must report to the tax collector.

July 24—Day upon which county clerk shall send absentee votes to the presiding judges of the respective voting precincts.

July 26—Primary election day, polls open at 8 a. m. and close at 7 p. m. Precinct conventions are held to elect delegates to county convention.

August 2—County executive committee meets to canvass results. County conventions are held.

August 5—Last day for candidates to file third reports of expense.

August 11—State executives meet to canvass returns.

August 23—Date of second primary. District convention meets to canvass returns for district candidates.

September 1—Meeting of State executive committee.

September 2—Meeting of State convention.

November 4—General election. November 14—Candidates should file report of expenses with the county judge.

CAPTAIN CHARLEY BURRIS LETTERS IN FOOTBALL

Special to Santa Anna News

HUNTSVILLE, Tex., Jan. 14.—At the annual banquet recently given by the faculty of Sam Houston College to football men, officers for next year were elected and letter men were named. Charlie Burris of Santa Anna, popular captain of the football squad for this year, was one of the twenty-five to receive the coveted letter "T" for service on the gridiron.

Burris' letter stands for more than mere service. It means to all who know his efficient leadership, as well as masterly playing.

Dead Bandit Body Is Identified As Being Ollie Woods

The body of the dead bank robber killed Monday of last week in the oil field, southeast of town was identified Thursday night and claimed by his brother, L. D. Woods of Borger, Texas. Ollie Woods was given as the correct name of the dead bandit, and his wife lives at Shawnee, Okla. with her father, T. L. Medley.

Mrs. Woods, however, was reported sick and confined in a hospital at the time, and was unable to come here to identify the body.

L. D. Woods of Borger was in Santa Anna Friday in company with sheriff Mills and Bob Sumrall, who accompanied Mr. Woods out to the oil field where the battle was fought in which the bandit lost, and also conferred with local citizens.

According to newspaper reports reaching here this week, the body is to be buried in Coleman, but had not been buried Tuesday. The bandit was said to be the same party the News referred to last week, when we gave his name as possibly Ollie Wood according to our information.

Increased Attendance In P T A Appreciated

After a report from the Campus Beautification Committee, the Parent Teacher Organization planned a "Founder's Day Program" to be given in February.

At their meeting in the High School auditorium Tuesday morning.

The "Opening Song," "Parent-Teacher United" started an interesting program by Reverend Hal C. Wing, Mayor Baxter, Mrs. J. W. Kirkpatrick, and Mr. A. B. Oliver who made splendid talks on the following subjects respectively:

"Influence of Home on Citizenship," "Impressions Received in the Home," "Why Should Parents Discuss Current Events in the Home?" "Why Should Faithfulness Especially Be Emphasized in Connection With Citizenship?"

Each room in the High School building will be furnished at an early date with a thermometer for the purpose of keeping the rooms at both a comfortable and healthful temperature. This is only one of the many things the Parent Teacher Association is planning to do during this year's work.

Look for the notice of "The Founder's Day Program" in a later issue of the Santa Anna News.

NOTICE TO SUBSCRIBERS

We certainly appreciate the splendid renewal subscription business we have received recently, but it seems there is a few who have yet overlooked us. In this connection, we wish to advise that we expect to revise our mailing list the last week in this month, and all subscribers not accounted for will be dropped from the list. We certainly hate to lose a subscriber, but we cannot carry them on our mailing list indefinitely without being accounted for. If you know yourself to be delinquent on our books and you want the paper to continue coming to you, will you please call and arrange for same at once. We have tried and expect to continue our efforts to give you a local paper worth the money but it takes money to carry on the business. Be sure to keep this in mind and not overlook us.

DR. W. H. COLEMAN; BROWN WOOD TO PREACH AT M. E. CHURCH

Dr. Coleman the presiding elder of the Brownwood District will preach at the Methodist church Sunday night at seven o'clock.

If you have heard Dr. Coleman before you know he brings an inspiring and helpful message. You are cordially invited to attend this service Sunday night. Bring others with you.

Jos. I. Patterson, pastor

NEW BOOKS FOR LIBRARY

Recently, numbers of new books which are sure to please all readers, have been added to the shelves of the city library.

Wednesday afternoons the library is open and no books are to be given out during absence of librarian.

Ala. Man To Head Cotton Co-operation

WASHINGTON, Jan. 14, (AP)—A farmer whose face has felt the steaming breath of fresh-plowed land stood tonight at the head of the American Cotton Co-operative Association — potential the greatest agricultural organization of its kind in the world.

He was Allen Northington of Montgomery, Ala., whose fellow members on the new association's board of directors elected him president and unanimously proclaimed their confidence in his ability to give the association a business administration as outstanding as his work for the Alabama Farm Bureau Cotton Association.

\$30,000,000 Capital

Capitalized at \$30,000,000 the American Cotton Co-operative Association is the largest commodity marketing organization yet set up by the Federal Farm Board. The \$10,000,000 Farmers National Grain Corporation, with authority to extend its capital stock to \$20,000,000 is second.

It proposes to market through a general sales agency the world's largest cotton crop. Cotton is grown on more land and by more farmers than any other American crop, represents a greater total income and is the biggest export trade.

C. O. Moser of Dallas, Texas, elected vice-president and secretary, said Northington represented the qualities of a plain level-headed farmer and practical business man plus the creative imagination necessary to round-out every possibility of the new association. Moser is president of the American Cotton Growers Exchange and will direct affairs of the association from temporary headquarters in the exchange's offices at Dallas until permanent headquarters are selected and a general manager employed.

Charles C. Henry of Little Rock, Ark., a member of the Arkansas Cotton Growers Co-operative Association, was elected treasurer.

Committee Includes Texas

Members of the executive committee, in addition to the president, are:

Southeast division—U. B. Block, Raleigh, N. C., member of the North Carolina Cotton Growers Co-operative Association.

Mississippi Valley Division—N. C. Williamson, Lake Providence, La., member of the Louisiana Farm Bureau Cotton Growers Association.

Far West Division—Gowar Jones, El Paso, Texas, member of the Southwestern Irrigated Cotton Growers Association.

Headquarters Not Chosen

Selection of a permanent headquarters was postponed pending further investigation. Officers said they did not attach any special significance to the selection of Dallas as temporary headquarters other than that it was the home of the secretary, and it was the most expeditious location for the present. They said the question of choosing a permanent headquarters had been pushed into the background by other affairs before them, and that they wanted time to give serious consideration to numerous points involved in the selection.

J. H. Cherry Passes Away

The remains of J. H. Cherry, 81, was brought here last week from Marble Falls, where he passed away last Tuesday. Mr. Cherry, according to information at hand, was born some where in the state of Missouri, November 17, 1848. He came to Texas more than sixty years ago, and to Coleman county about thirty years ago. He lived on his farm northeast of town, with his family prior to the death of his wife who passed away July 1st, 1927.

Deceased is survived by the following sons and daughters, some of whom are married and have families:

Mrs. John Simmons; George Cherry; Mrs. D. M. Simmons; O. E. Cherry and John Cherry.

His body was buried in the Santa Anna cemetery Saturday afternoon, by the side of his deceased wife following a funeral service conducted by Rev. Hal C. Wingo.

The News extends sympathy to the bereaved.

M. E. Church W. M. S. Holds Meeting

Monday afternoon, at 3 p. m., January 13th, was the time for the first new conference year. "Jesus Calls" was used for the opening hymn, after which Mrs. H. L. Voss conducted the devotional part of the meeting using as a scripture lesson, Matt. 3: 16-17 and Matt. 4: 1-11, with all who were present giving some temptation, that adults of the present time have to meet. The President, Mrs. C. B. Verner then took charge of the meeting and carried out the regular routine of business. Each officer readily and gladly responded as called on for reports.

Many ideas for the year's work were advanced, and were thoroughly discussed. One of the first things to be done, will be the building and furnishing a kitchen in the basement of the church. Our Social Service Committee will place literature in the hospital also we are co-operating with a committee from the church in the building of a garage at the pastor's home.

Following is the names of the officers and committees of the Society:

President—Mrs. C. B. Verner
Vice-Pres.—Mrs. T. R. Sealy
Recording Secretary—Mrs. S. Gehrett

Corresponding Secretary—Mrs. W. H. Thate
Conventional Treasurer—Mrs. Roger Hunter

Local Treasurer—Mrs. W. L. Mills
Supt. of Study—Mrs. P. P. Bond

Supt. of Supplies—Mrs. J. J. Kirkpatrick
Supt. of Social Service—Mrs. Harry Blue

Supt. of Publicity—Mrs. H. L. Voss
Supt. Local Work—Mrs. H. W. Kingsberry

Agent Missionary Voice—Mrs. W. T. Verner
Financial Committee—Mrs. Lenan Brown, Mrs. D. J. Johnson, Mrs. Hart, Mrs. Glad Adams, Mrs. W. L. Mills

Membership and Telephone Committee—Mrs. T. R. Sealy, Mrs. A. C. Watson, Mrs. J. W. Collier, Mrs. Roy McFarland

Flower and Decorating Committee—Mrs. J. L. Patterson and Mrs. H. W. Kingsberry

Prayer and Devotional Committee—Mrs. W. T. Verner, Mrs. J. J. Kirkpatrick, Mrs. H. L. Voss

—Reporter

Sherril Frank Billy of Coleman was a business visitor here Monday.

Queen Theatre Opens With All-Talkies

The Queen Theatre opened with their first talking picture program Monday night. The preparation work has not all been completed, but the programs so far have been rather pleasing to the crowds attending. The management, to which J. L. Dodgen recently became a partner with Mr. Keeling, made several trips of inspection, visited a number of theatres where sound equipment has been installed, and after much deliberation and at considerable expense, began the installation of the sound pictures. The moving picture theatre has been far famed as one of the most interesting amusement and entertainment centers of most towns for years, but the silent picture quickly lost its popularity when the sound pictures were introduced.

Messrs Keeling and Dodgen have gone to considerable expense to bring the Queen up to the standard of requirements as a place of public amusement and entertainment, and we feel sure the public will show its appreciation by giving them a large patronage.

Coleman Fire Loss Is \$20,000

COLEMAN, Texas, Jan. 13.—Fire in the wholesale district of Coleman Saturday night completely destroyed a building belonging to B. K. Pessels, and occupied by the Coleman Poultry & Egg Co., a branch of the Western Produce Co., and the Jarecki Manufacturing Co., oil well supply merchants, doing damage estimated at \$20,000 to building and contents, partially covered by insurance. Pessels and the Jarecki's damage will run near \$10,000. The building had just been improved and a cooling system had just recently been installed by Mr. Pessels for the Coleman Poultry and Egg Co. Most of the poultry was saved from the building and as the produce company had completed their shipments their loss will not be very high.

The origin of the fire has not been determined.

The building adjoining the Ressel building and occupied by the Johnson Storage Co. was not damaged, owing to the efficient work of the fire department.

D. L. Davis left Thursday morning for Angleton, Texas, where he expects to visit for three or four months.

The Way to Save--

- The man who works with hand or brain.
- Yet never saves, will never gain
- The things of life the thrifty do;
- His dream of life will not come true.
- The way to save is to pass by
- The things you want that are too high.
- For present needs use less amount.
- Saving is strong for future account.
- The First State Bank will help you plan.
- A way to save the most you can.

The State National Bank

Mutual Interest and Profit

Of course maintaining an account will make a man a bank depositor, but—not necessarily a success.

A person may deposit a certain amount regularly and still not make the most of his banking connection.

Wise is the man who deposits his money regularly and cultivates a close relationship with his banker.

It is our intent and desire to take a personal interest in our depositors—and merit their friendship.

The natural result of interest and friendship is mutual profit.

NEW SPRING PRINTS

The past week we received about 25 pieces of new Spring Prints; the patterns are beautiful—positively fast colors and 25c per yard

D. R. HILL & BROTHER

Texas and Texans

By WILL H. MATS

Manufacturing Increases

More manufacturing enterprises were started in Texas in 1929 than in any previous year in the history of the State. The 1930 census will show that Texas has been making vast strides as a manufacturing State in the past ten years. Outside capital is seeking investments in Texas industries, and enough Texans were losers in the recent Wall Street panic to result in keeping more Texas money at home for investment. 1930 should be a great year for establishing Texas as factories.

Every chamber of commerce in the State should resolve to secure at least one manufacturing industry for its town during the year and work toward that end until it is secured. Surely in every town some manufacturing plant could be made to succeed. Buda, a mere village near the line of Freys and Travis county, set a fine example awhile back in building a cheese factory.

Increasing Capital

When the Borden company decided to invest \$200,000 in a milk products plant at Waco about a year ago, many wiseacres shook their heads and predicted a failure. The only failure the plant made was in not building a plant big enough. The investment will be increased to \$500,000 and the plant enlarged.

The Armour corporation, noted the world over as meat packers, are buying up milk products plants in Texas where they can be bought and are ready to establish others where needed. The dairy industry in Texas is just starting.

Information call on or address W. B. Collins, Llano, Texas.

Prized Christmas Card

Frank Cates of the Bartlett Tribune-News received a \$10 bill as Christmas card from a friend whom he had rendered some special service last year. If all the friends that bighearted Cates went out of his way to serve had been only half as considerate he would have the most sizeable bank account in Bartlett. Frank is the son of a Methodist preacher and still believes as he was taught early, that the best way to get joy out of life is to do as many good turns as possible for his fellowmen.

Stays on The Job

There is a reason why Editor-Publisher Alford of the Granger News gets out one of the best-edited, best-printed weekly newspapers in Texas. He doesn't turn in his copy hurriedly to go fishing, leaving the printers to fill up and get out the paper as best they can, but watches the forms until the last paper is off the press. Therefore, he has started off the New Year with his paper as full of advertising as though this were the fall business rush season.

"Strutting Its Stuff"

When a town ships a million pounds—48 solid cars—of any single commodity in two months it has a right to be proud, but when that commodity is turkeys that town has a right to strut. This is what Brady did in November and December, and dealers are expecting to send out 10 more cars in January. The average price paid has been 20 cents a pound.

Diversification Makes Prosperity

The Lampasas Record tells why Lampasas county is prosperous. It is because the farmers diversify and ship out more produce than they ship in. During 1929, 827 solid carloads of farm products were shipped from Lampasas, diversified as follows: 195 cars of oats, 22 of wheat, 39 of corn, 19 of pecans, 92 of wool and mohair, 124 of sheep and goats, 113 of cattle, 12 of hogs, 53 of dressed poultry, 87 of eggs, 19 of cotton seed, and 71 of other commodities besides 3,855 bales of cotton. This does not include local freight and large shipments of poultry and other produce by truck. Lometa is another Lampasas county town that prides itself in rivaling Lampasas as a shipping point.

Merging The Papers

Many weekly newspapers are following the example of other business and forming mergers. The latest to merge are the Hallettsville New Era-Herald with Leo Strauss and Richard W. Met-

zen owners. This is the first time in 41 years that Hallettsville has had only one English paper, and both the papers and the town should profit by the consolidation.

Round Rock Needs It

Editor Kavanaugh of the Round Rock Leader says that his leading ambition for 1930 is to be able to buy a type-setting machine and give Round Rock an eight page paper instead of the four page paper he now gets out. If Round Rock merchants would only double their advertising he could easily double the size of the paper. They should by all means do this. Round Rock is a good little city in the center of a fine farming country, and with the aid of his family of writers and printers, Kavanaugh is prepared to issue as good a paper as the patronage will justify.

THE NEXT GENERATION

The little children romping around will become the men and women of another generation. They will control the destiny of this community then, as we control it now.

Community betterment is always the goal of every good citizen. It is the great lubricant which causes the wheels of enlightenment to spin noiselessly and to a purpose.

To insure a better community for the future we must begin with the children of today.

If in their childhood they are taught to differentiate between wisdom and foolishness, between the good and the bad, between right and wrong, the lessons they learn will bear golden fruit in after years, and the community we love so well will be brighter and better because of the influence they will exert upon the citizenry of their day.

Remember the little children of today, for tomorrow they will have children of their own, and the law of heredity is strong with us all.

The sun shines brightly when we push the clouds away, but the little child has not yet learned to push.

The female corn borer moth lays about 400 eggs.

The attempt to renew youth of horses by transfusing blood from a young horse into the bloodstream of an old horse was made during the seventeenth century.

The United States consumes 5,000,000,000 cans of food each year.

It takes half a ton of coal to start a freight train.

KNOW TEXAS

Texas has 1,331,152 scholars enrolled in her public school system.

Texas granite is being used in the \$15,000,000 Edison Building and the \$1,500,000 Roosevelt Memorial in New York.

A huge liveoak, 26 1/2 feet in girth and with a spread of 100 feet, is believed to be the largest tree in Texas. It is in Real County.

The Waggoner Ranch in Wilbarger, Archer, Wichita, Baylor, Foard and Knox Counties contains 512,000 acres or more than 800 square miles—approximately two-thirds as large as Rhode Island and one-third as large as Delaware.

And let the other fellow's business alone and get down to our own.

"HOME-TOWN LETS"

A silver dollar is round. It will roll in the direction it is intended. Why not keep it rolling in Santa Anna?

An advertisement in a newspaper is worth two on a billboard.

The community is a part of one's home as well as one's house. Each one of us should see that the community is as clean, as safe and as enterprising as the home.

An automobile that starts and stops by the human voice has been built. But human voices in the backseat have been starting and stopping 'em for years, so how can they get a patent on that?

"The Lost Chord" is a pretty piece but a lost discord is more valuable.

United States Senator, W. E. Brock of Tennessee, says:

That the unrest of the world today is largely due to the fact that there are not enough people who "stop to think."

I have great faith in the American people and believe if they would stop to think they would not only be more useful to the country at large, but would bring happiness to the masses and comfort and consolation to many unhappy homes today.

Faith is the foundation of all things worth while, and this faith can only be by those who "stop to think." If we should take faith out of a home or business, either or both would soon be wrecked.

Conditions have changed but human nature has not, and the sooner the American people realize this and begin to think on safe, sane lines, feeling that they have a part to take in our Government, local and otherwise and that to be effective they must make some sacrifices and self-denials, there will be less unrest.

If they do not, it will weaken the effectiveness of their co-operation with the leadership of our country and will have a tendency to bring us to a sad ending, for what the country needs, from the Halls of Congress down, is leaders whose plans and policies are filled with religious motives. This kind of leadership will inspire others to have faith in them and will give our leaders the inspiration to carry on.

Is your greater faith in praise or in criticism? Stop and think!

SENIOR B. Y. P. U. Sunday January 19, 6:15 P. M.

Subject: "All Have Sinned." Scripture Lesson: Romans 3:10-12:21-23—Eris Gregg; Romans 5:12—Jane Whitlow; 1 John 1:8-10—Ora Lee Niell; Jeremiah 13:23—Queenie Gregg.

Introduction—Queenie Gregg. The Source of Sin—Lillian Durham.

Sin is God's Great Problem—Eunice Wheeler.

We have an interesting lesson planned for Sunday night. Come and enjoy it with us.

Every time a year rolls in, it begins to roll out again.

Fannin County Courthouse

It is unfortunate that some valuable records were lost when the Fannin County courthouse burned, but they should not have been kept so long in an old fire-trap. Such records should have been in a building as nearly fire-proof as a building can be built. While the new courthouses all over Texas are architecturally they are not erected merely as something to be proud of, but for the safekeeping of public and private documents of value. If the records could only be saved it would be a good thing if every ancient courthouse in Texas were destroyed and replaced by modern structures.

Barney Youngblood, Texan

Dr. B. Youngblood, formerly director of the agricultural experiment extension work at the Texas A. & M. College, has been nominated by Congressman Marvin Jones of Texas for the \$5,000 annual Capper award for distinguished service to American agriculture. Youngblood did a great work for Texas agriculture and was untiring in his efforts to advance agricultural interests, but his greatest work has been his scientific study of problems affecting the cotton industry, especially in discovering new uses for cotton. Every Texas farmer will second his nomination eagerly.

Pave Colonel Sellers

"Believe it or not," the Llano News reports that the thermometer at Llano registered seven below zero during the December old spell, that water pipes without a drop of water in them burst, and that it was stated that milk froze in streams as it was being milked from the cows and was carried from the barns to the houses across the snow like

GEHRETT DRY GOODS CO. Santa Anna, Texas

Legislature Called For Next Monday

HOOVER SUBMITS REPORT OF COMMISSION'S INVESTIGATION

WASHINGTON, Jan. 13. (AP)—President Hoover called upon congress today to reconstruct the prohibition enforcement machinery as a means of coping with difficulties encountered by the eighteenth amendment, which was put into effect ten years ago this month.

He sent to the senate and house the first conclusions returned by his law enforcement commission and backed these up with similar reports from Attorney General Mitchell and Secretary Mellon, the two cabinet officers most directly concerned with enforcement.

Stipulating that its preliminary recommendations were made without prejudice to any ultimate conclusions, the commission created greater speculation than ever as to its precise attitude toward the Volstead act.

Prolonged Fight Looms

Hardly had the document been read before wet and dry leaders expressed conflicting views. The outlook tonight was for a prolonged continuance of the dispute over prohibition which has racked congress since the dry laws first were proposed and which again reached the acute stage in recent weeks.

Most drastic of the changes proposed were:

Transfer of the prohibition enforcement unit from the treasury to the justice department.

Creations of a uniformed border patrol to operate as a part of the coast guard.

Prohibition against the entry of all persons into the United States except at points of entry designated by the president.

Enlargement of the powers of United States commissioners so they might try "casual and slight offenders" against the prohibition laws.

Provision for additional judges and enlarging the forces in the offices of the United States attorneys, United States marshals and clerks of federal courts.

Change "Casual Violations"

Amendment of the padlock injunction provisions of the Volstead act so as to prevent the concealing of ownership of property used for the manufacture and sale of illicit liquor.

Expansion of federal prisons and reorganization of patrols and other practices.

To define as "casual and slight violations" unlawful possession, single sales in small quantities, unlawful making of small quantities, transporting small quantities and assisting in making and transporting as casual employe.

To fix the penalty for "casual and slight violations" at a fine of not more than \$500 and imprisonment of not more than six months in jail, or both, while authority for district attorneys to try accused in such cases by complaint or information.

To authorize state, county and municipal officers to seize liquor carrying vehicles including automobiles, water and air craft and to proceed in the nearest federal court against such vehicles and their operators.

The president's recommendations were referred to appropriate committees of both houses. Those will consider them along with measures introduced by wets and dries since the opening of the present session.

The law enforcement commission emphasized time and again in its report the difficulties of obtaining both observance and enforcement of the anti-liquor laws.

Cites Historical Precedents
"It is wholly impossible to set off observance of the prohibition act from the large question of the views and habits of American people" it said. "With respect to private judgment as to statutes and regulations affecting their conduct."

"We must not forget the many historical examples of large scale public disregard of law in our past" it continued, adding that "we must bear in mind the Puritan objection to administration, the Whig tradition of the 'right of recollection' the conception of natural rights, classical in our policy, the democratic tradition of individual participation in sovereignty."

This viewpoint was touched upon briefly by the president in his message to congress. He said:

"While some sections of the American people may disagree upon the merits of some of the questions involved, every responsible citizen supports the fundamental principle that the law of the land must be enforced."

Attorney General Mitchell in his report to the president declared congestion in the courts deserved the utmost consideration as in many districts the courts were unable to cope with the volume of business brought before them.

"This result in delay, weakening of evidence and difficulty in obtaining convictions," he said. "Another effect of congestion is the effort to clear dockets by wholesale acceptance of plans of guilty with light punishment. The deterrent effect of speedy trial and adequate punishment is lost."

Border Patrol Need Given

Elaborating his recommendation for a unified border patrol and designed points of entry for persons and merchandise, Secretary Mellon said these were essential if the border patrol was to function efficiently.

"The point of entry should be established at the boundary intersection of all established and customary routes and wherever intercourse with our neighboring countries justifies," he said. "Flexibility is essential in order to permit an increase in the points of entry to meet seasonal necessities and constantly changing conditions. There should be a substantial increase rather than a decrease in the present number of customs and immigration stations."

Secretary Mellon said that the usual customs, immigration, quarantine and other offices would be stationed at the points of entry to enforce all the laws with the border patrol left free to guard the border between designated points of entry and prevent the entry of all persons and merchandise along those stretches.

The Bahama Islands are formed of coral.

A STATE INCOME TAX
By Wm. A. Black, San Antonio, Texas

Herbert Spencer must have had our present day tax methods in mind when he wrote that, "the great majority of mankind seem determined to exhaust every possible way of doing the wrong thing before they will consent to do the right thing."

Texas has not yet exhausted all the wrong ways to tax but she is well on the way. By stretching the Constitution we have resorted to many gross receipts and sales taxes under the guise of occupation taxes. We have twisted and enunciated the ad valorem tax until there is no semblance of justice left in it.

Step by step for twenty-five years our statesmen (?) have resorted to crudely conceived efforts to tax the rich only to compel them to get more money from the poor. We shut our eyes and refuse to see the obvious fact that the heavier the tax on the rich, the more rapidly wealth concentrates in the hands of the few. We lay burdens on wealth production and its distribution only to make life harder for the common man.

Now it is proposed to add another "wrong way" to the long list of follies. A State income tax is proposed. The State treasury is in the red and the coming Called Session will have to make additional appropriations for the Penitentiary System and to meet other demands. The State's distress will be used to put over this most iniquitous of all taxes, the Income Tax.

Our long list of business taxes has been fostered and developed under the guise of relief to our farmers and wage earners. It is these indirect taxes that have done more to destroy agriculture than any other one force. Tenantry is increasing. Likewise farm mortgages. Unemployment bulks large and may easily become a menace because it shows itself in the crowded business centers.

All this raises an old question that each must find the answer for himself. We must tax land or industry. If we increase the tax on land we lower its selling price. If we tax industry we add to the cost of goods, reduce the consuming power of the people and bring about stagnant business. You can take your choice.

MISSION STUDY

Mrs. C. P. Petty was hostess to the Presbyterian Mission Study class last Monday afternoon in their first meeting of the new year.

The lesson was led by the hostess assisted by Mrs. Womack. Those taking active part on the program were Mesdames Kelly, Oakes, Woodward, Van Zandt, and Lowe.

Several new members were enrolled and new interest manifested. At a late hour, the hostess served a delicious refreshment course of date pudding, topped with whipped cream, and tea. The gracious hospitality of Mrs. Petty gives her guests a desire to meet with her again soon.

Jet has been used in jewelry since prehistoric times.

The 'Wet' And The 'Dry' Of It

When one speaks of "wets" and "dries" various meanings can be ascribed to the terms.

In relation to the institution of American government known as Prohibition, "dries" for example, may include those of us who believe in Prohibition as a measure of law, or adhere to it because it is the established law of the land; or who stand against drunkenness and other attendant evils attributed to the traffic in intoxicating liquor as a matter of moral principle or economic or social well-being; or those who actively take part in the political activity of the nation or community in relation to the legality and administration of the law itself.

Likewise, when the term "wet" is used it is meant to include those who drink liquor or want to drink it; or those who make a business of manufacturing, transporting or selling it or who would want to engage in such vocations; or those who profess neither to want to drink intoxicants nor deal in them, but who merely assert their right of citizenship to declare their opposition to the retention of a constitutional amendment and supplementary statutes which, in their opinion, are derogatory to the best interests of the people of the United States.

To answer whether only one of these respective classes of citizens constitutes "wets" or "dries," as the case may be, or whether any two or all must be included would be difficult.

It is certain that the great majority of our citizens neither desire to drink nor traffic in liquor on the one hand, nor take an active hand in maintaining or enforcing Prohibition on the other. We do not mean to draw the inference that the masses of the citizenry do not mentally uphold constituted authority; for it is certain that both the honest anti-Prohibitionist and the sincere dry want law enforced while it is law.

But if these terms are to be used in their broadest meanings it logically follows that there are honest and zealous men and women on both sides of the question.

Under a charitable definition an honest "wet" is just as loyal in wanting Prohibition to prohibit as is an honest dry; and an honest dry is just as solicitous of the protection of an honest wet in working for repeal or modification.

We have little use for either a dishonest wet or a hypocritical dry.

We have little time to listen to one whose sole interest on any side of the question is selfish, prejudiced, or who may profit financially either by the repeal of Prohibition or by its continuance as a measure of without policy.

We have no good words for the man who purposely violates the Volstead act and auxiliary acts in state and municipality, or for the individual who encourages such violation by his patronage. Neither do we believe in "shot-gun" enforcement on mere suspicion.

No reputable or self-respecting officer of the law will shoot down a man because he thinks maybe the man may have stolen the property of another, or because he has an idea the man may have committed any other felonious act or misdemeanor.

The courts, not the arresting officer, are established to determine guilt or innocence; and no officer, whether of federal, state county or city authority, has a legal or moral right to take the decision of law into his own hands, or determine a question of the fact to a degree where he kills or maims on mere suspicion and with impunity; for such is not government—it is anarchy! It is high time for more serious thinking on the subject of Prohibition.

To say that Prohibition should be enforced because it is the law is but a repetition of that which constitutes the basis of civilization and law and order.

Perhaps not one-tenth of one per cent of our people would dare to oppose the strictest enforcement possible and consistent with our intellectual, moral and spiritual progress.

The very essences of logic, even if not patriotic fervor, would not permit the millions of us to argue against legal enforcement; fact, we would go further and use moral suasion, directed toward all those who make possible the business of the bootlegger and the illicit distiller.

The least divergence, the least bickerings, the least accusations and the least prejudice we can have between or among those of wet views and dry views (assuming, of course, that such views are in accord with law and justice) the better the country will be in respect to settlement of the

question.

When as neighbors and friends we get together, as we usually do in other matters affecting the welfare of all, and work out a plan either under present prohibition or under something better if there is anything better, to bring real temperance and sobriety to the American home street, highway and public building, this much discussed question will come nearer of solution.

This is not a brief for the dries, nor is it an appeal for the wets. Rather it is a bid for less intolerance and more co-operation. It seems to us that too many who speak or write on the subject of Prohibition are inclined to plead one cause in absolute exclusion of the other. The only cause is for America and the welfare of her people. If prohibition is the best method, let's make this country so dry by use of it that the violator's unpopularity will be worse than his punishment under the law. If, on the other hand, there is a better method of arriving at the goal of justice and human liberty, let's be men enough to stand for our convictions and strong enough to bring about a needed change.

HELPING TO BUILD TEXAS

Corsicana citizens voted \$400,000 for public improvements, work on which is soon to begin.

A State pecan marketing association is being organized under auspices of the West Texas Pecan Association.

Four hundred and eighty-five thousand tons of cargo were moved through Corpus Christi port in September, bringing the total since the port was opened to 8,122,332 tons.

Growth of West Texas is indicated by the fact that the West Texas Utilities Co., serving that section, has found it necessary to construct more than 225 miles of high-lines, bringing its total mileage to 2,300 miles.

A new half-million dollar lime plant of the Haden Co. has been completed on the Houston Ship Channel and is now making 100 tons of lime from oyster shells a day. It is one of the largest lime plants in the United States and the only one using oyster shells exclusively.

With an inexhaustible supply of clays and shales, there is increasing interest in the industries using those for their basic supplies. Most of the Texas clays used go into bricks, but there are several tile factories, a new one being that at Natalie, Medina County, recently completed at a cost of \$145,000.

A pecan grove is one of the best horticultural properties a man can leave as an estate in the opinion of President McHaffon of the National Pecan Growers Association, and interest in the pecan industry, on a commercial scale, is increasing in many parts of the State. A 25-year-old pecan orchard is a dependable income producer, as more and more Texans are finding and the amount of grafting, top-working and planting of new trees of improved varieties is almost amazing, looking at the State as a whole.

It is estimated that the antarctic region is about 30 degrees colder than the arctic.

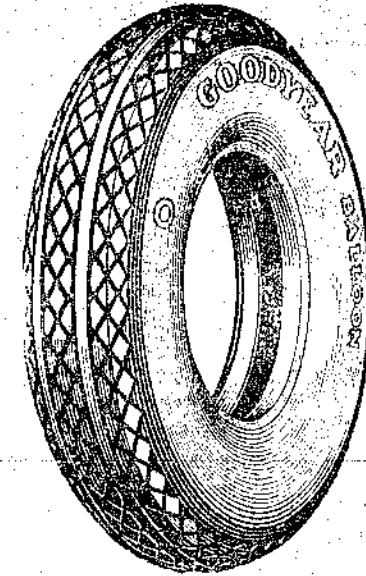

Eel fishing is a big Danish industry.

Adapts Luncheon Club Idea To New Farm Organization

Three or four years ago, Frank Browder, farm editor of the Denton Record-Chronicler, conceived the idea that if luncheon clubs served a good purpose among business men—and their growth and multiplication indicated that—they would also be helpful to farmers.

The idea has spread to near by counties and the town of Arlington recently sent a group of its own farmers to attend a meeting, so they might see how the club functions, with the purpose of organizing a similar club at Arlington.

TO THE VOTERS OF COLEMAN COUNTY

I take this means of announcing that I will be a candidate for the office of County Judge of Coleman County in the coming election, subject to the action of the Democratic Primary.

2,000,000 PRESBYTERIANS

According to the State Clerk of the General Assembly there are now 2,000,000 members in the Presbyterian Church U. S. A.
In 1875 there were 500,000, in 1902 the first million was recorded and in 1929 the second million. It took over two centuries to accumulate the first million. The second million took twenty-seven years.

The Presbyterian church won over a hundred thousand new members (100,000 in 1928-'29). The losses by deaths and other causes are sufficient to reduce the net increase annually to about thirty or forty thousand. 368,750 live in Pennsylvania.

ANOTHER PROGRESSIVE STEP FOR SANTA ANNA

The courses and instructors are as follows:
1. The Bible; Old Testament—Dr. W. H. Coleman.
2. The Church and Its Work—Rev. E. H. Lightfoot.

525,000 dwell west of the Mississippi River

These 2,000,000 Presbyterian people have 9,381 churches and are ministered to by 8,988 ministers.
In 1929 this church raised \$35,000,000. Over sixty languages are required to bring the gospel message into the minds of those whom this work serves.

There are 297 Negro ministers serving the Presbyterian Church. All of these have had college and seminary training.
Over 100,000 patients were treated in National Mission hospitals and clinics last year.

REMEMBER

O. B. (CARL) ASHMORE FOR PUBLIC WEIGHER

We are authorized to announce C. B. (Carl) Ashmore as a candidate for Public Weigher, precinct No. 7, Coleman county, subject to the Democratic Primary in July. Mr. Ashmore was reared in the Rockwood community where he lived most of his life and worked on the farm. He moved to Santa Anna three years ago, and has worked the past three seasons in the local cotton yard, with J. B. Flores. He is familiar with the work to be done and capable of discharging the duties incumbent on a weigher. Mr. Ashmore solicits your friendly consideration, and your vote at the polls. If elected, he promises to serve patrons of the yard courteously and with fairness to all. He will pass among you in due season and place his claims before you personally.

DISTRICT INSTITUTE MEET

The Brownwood District Missionary Institute will meet in the Methodist Church here Tuesday, January 21, at 10 a. m. for an all-day meeting. A good program has been arranged, and several interesting speakers will be here from out of town.

Gods of Fate Intervene and Provide 'O. Henry Ending' to Real Story of Orphan Here

"She's a pretty girl, isn't she? Yes, she lives here; my adopted daughter. Her name used to be Wolcenski because her real father came from Poland. These Polish names are sure queer," remarked the old man as he put potato chips, pickles, and cookies into a large brown bag.

"Wolcenski! That certainly is an unusual name. I wonder..." but Charles said nothing more, paid for the picnic-lunch materials, and walked out with Bernice.

"What was it you started to say, Charlie? Did you ever see the girl before?" Bernice asked as they got into the car. But he assured her that he had never seen the girl before, and no more was said about it.

The next evening, Charles Faust drove again out to the grocery store, this time alone, and asked the old man a number of questions. But no other information was obtained than that the adopted daughter with the strange name had come from an orphan's home in Dallas and that her first name was Vada Belle. At Charles' request the old man stepped to the rear and called her in.

"Vada, have you any brothers?" Charles asked her first.

"Why yes, I think I have four. At least I used to have four when father died and we were separated," she answered slowly, wondering what this young man was leading up to.

"What were their names, Vada, or do you remember?"

"Yes, they were Robert and Roy and Jack and Charles."

How old should Jack be now?"

"Well, of course I'm not sure, but I think he should be 13. Why did you know him?" she asked.

"I'm not sure, Vada, but I want you to stay at home tomorrow evening. Don't go anywhere, understand?" Charles left hurriedly after she nodded, gently closing the door to escape a rush of excited questions. The next morning when he arrived at the shop, he sent word for Jack Wolcenski to come to the office.

"How old are you Jack?" he asked.

"Eighteen."

"Do you have a sister named Vada?"

"Yes, sir. Why... is she...?"

"No, Jack, she's not dead. I think she's very much alive, and I think you'd better call this number when you get through work tonight. Now don't ask any questions; just call that number. That's all."

That evening shortly after a telephone receiver had been slammed down, the most excited young man in San Angelo walked through the front gate of a house out on East Harris, and a curly-haired girl who was sitting on the front porch, waiting got up and ran out onto the lawn.

They stopped and stood, about five feet apart, gazing at each other with wide, eager eyes for two or three minutes. Then a gasp and a little happy cry as they ran into each other's arms.

So, after being apart for more than ten years and after growing up, from almost babyhood into a young man and a young woman, were Jack and Vada Wolcenski reunited in San Angelo.

And if Charles had not been enamored of Bernice and had a date with her for that picnic, and they had not gone into the grocery store near where she lived to buy the potato chips and pickles and cookies, and

The old man had not carelessly let drop the name of the 17-year-old who walked through the store while they were there, and

Charles had not been manager of the shops where Jack worked, and

Well if all those "ifs" had not come true, Jack and Vada would still be passing on the streets and wondering if the other were dead!—San Angelo Standard Times, January 12.

TEN BIBLE QUESTIONS

- 1. What gave Onisimus a prominent place in one of Paul's letters? 2. In whom did Paul say dwelt unfeigned faith? 3. Whom did Paul ask to endure hardness as a good soldier of Jesus Christ? 4. What is a New Testament definition of pure and undefiled religion? 5. Who said "Be ye doers of the word?" 6. Where was Jesus arrested? 7. When did the disciples learn that one of their numbers would betray Jesus? 8. What two of the disciples prepared the last supper? 9. What two rulers were made "kings" during the trial of Jesus? 10. Who accused Jesus to Herod? —M. L. Womack.

TAKE IT FROM DAD

By Frank H. Cheley

Is College Worth the Price?

"Dad, we had another hot argument around the lunch table. Think we better organize a debating society. Why there simply isn't any thing upon which many people agree, is there? Why, it never occurred to me in the world but what every fellow that wanted to get anywhere would go to college, but there was a third of that gang today who said 'Nothing doing, it simply does not pay.' That's their stand."

"That's right," commented Mr. Smith, without looking up from his paper. "College is not for all boys. It depends upon the boy and what he is going to do. Many a boy wastes four years in college and a deal of his father's money to absolutely no avail. He would have been a heap more self-respecting and happier, too, if he had gone to work instead of to college."

"Humph, that doesn't sound much like the line you peddled me when I wanted to quit school and go to work."

"Yes, but you're a more kid. Every boy in the land should have a high school education. If it has been the right kind and he has tended to his knitting he ought to make a good living for himself whether he goes to college or not—that's a minimum necessary to get on in our ever more complicated modern society. From that point on it's a matter of..."

"Whether college is worth the price?"

"Exactly, my boy, provided you do not insist upon making education in terms of money, for there are other prices involved. If education is anything it is an investment. An investment of four or five years of life, plus a cash outlay of some four thousand dollars, plus a tremendous amount of nervous energy. All of these things are a young chap's stock in trade—his capital. If his investment is going to bring returns in technical or professional training which in turn, open larger opportunities for self-realization as well as income, then a considerable investment is justifiable in the eyes of a sane man."

"Every day I see boys who, with the exception of a few who are who are... and on his own feet, he is his own way and he is independent of individual. Usually at best that involves a certain amount of experimentation—trial and error. Then too, Bob, without casting any aspersions upon anyone, we are forced to recognize that some men have a much greater ability and aptitude to study and research than others. Many men are motor minded and exceedingly practical. They must be doing things instead of thinking things, to be happy."

"Bob, it is largely a matter of individual temperament, circumstances and attitude. I firmly believe in higher education. I just as firmly believe that a large number of the nearly half million boys in college are largely wasting their time at a very large expense and energy, handicapping the rest of their lives with expensive tastes and habits with no compensating at all of work and with a very late start in the bright life of life."

"Turn a minute to your 'Ready Reference' there again, Bob. Look under education. See if it doesn't give you some facts and figures to think about."

"Education—Cost of—Advantages of—Does an Education Pay?—Alas, here we are let's see—Does an Education Pay?—Does it pay to get a glimpse of the joy of living?"

"Does it pay for a chap to unfold into a butterfly?"

"Does it pay to learn to make life a glory instead of a grind?"

"Does it pay to open a little wider the door of narrow life?"

"Does it pay to know how to take the dry, dreary drudgery out of life?"

"Does it pay to taste the exhilaration of feeling one's power unfold?"

"Does it pay to push one's horizon further in order to get a wider outlook, a clearer vision?"

"Does it pay to learn how to center thought with power, how to marshal one's mental force effectively?"

"Does it pay to acquire a character—wealth, a soul-property, which no disaster or misfortune can wreck or ruin?"

"Does it pay to have expert advice and training, to have high ideals held up to one in the most critical years of life?"

"Does it pay to make life-long friendships with bright, ambitious young people, many of whom will occupy high places later on?"

"Does it pay to become an enlightened citizen, able to see through the sophistries of political claptrap and vote intelligently on public matters?"

"Does it pay to change a bar of rough iron into hair-springs for watches, thus increasing its worth to more than fifty times the value of its weight in gold?"

"Does it pay to experience the joy of self-discovery, to open up whole continents of possibilities in one's nature which might otherwise remain undiscovered?"

Bob closed the book with a slam. "Anyhow, Dad, I'm going to college 'cause I'm going to make it pay."

"I believe you will, son—I hope so."

Living At Home Very Profitable

Snyder—Six of the 153 home demonstration club women in Scurry county growing gardens in 1929 are serving as special 4-H pantry demonstrators, and their records show that their gardens and orchards, including canned products, were worth a total of \$2316.65 to them last season, or almost \$400 each. Their families consumed 7030 pounds of fresh vegetables, and 1236 containers of fruit were canned for the winter months. Their entire garden, orchard and canning programs have been worked out with the aid of the home demonstration agent in the form of budgets to give the proper amounts of all essential foods and they are feeding their families completely balanced meals.

Decatur—Twenty 4-H club girls on Wise county farms are improving their bedrooms by finishing their furniture, making rugs, draperies and pillows; building bookcases, tables and footstools; and re-papering the walls. Sixty-six other girls are adding bookcases, arranging furniture to conform to the lines of the room and improving the floors.

Wheeler—Many farm families in Wheeler county are adding at least one set food dish weekly to the diet to provide a source of iodine which has been found to prevent goitre. The program is being worked out through the home demonstration clubs of the county.

Clinton—More than 190 Van Zandt county farmsteads have been improved in appearance and 57 handicapped in a beautification program sponsored by a women's club at Edgewood and participated in by women of four nearby home demonstration clubs.

Paris—Edna Brown and Thelma Stapleton, two 4-H club girls of Tigertown in Lamar county recently completed four years of club work with profits of \$63.73 and \$54.33, respectively. Their gains were made from managing poultry flocks, growing gardens, canning and making home improvement articles and clothing.

Louisiana put 1,000,000 pounds of dressed frogs on the wholesale market last year.

Another way to keep from growing old is to ask a stranger to ride with you.

A press dispatch quoted a minister the other day as saying that girls want husbands. In at least one particular, then, they are old fashioned.

Main roads built by the Romans averaged eleven to fifteen feet in width.

You can get a free government bulletin on about any subject except the art of saving the taxpayer money.

People of only two very poor castes in India devote their days to making brass and copper ware.

Ammonia traces its name to an association with the Egyptian god Anamon.

Beware of Bad Colds. "An ounce of prevention is worth a pound of cure," is an old saying, but a true one. It is especially true in the matter of caring for your body. Colds are dangerous and disagreeable at the best, so here is where the old adage applies more surely than ever. You can prevent colds to a remarkable extent with proper remedies and prevent them from getting worse if you already have one. We Have Many Reliable Remedies and Preventatives. It would be a mighty wise idea to secure a supply of the needed items so that you will have them handy in case of quick need. We also have the needed things for the sick room. CORNER DRUG COMPANY The REXALL Store

A Merchant Who Studies Advertising. Knows that the merchandiser of today who waits until a man is hungry before he tries to sell him crackers and cheese never sells anything. His more up-to-date competitor has anticipated the customer's need and has tempted him with a description of the cheese he has to sell. He has told him how good it is, its desirable qualities, its purity and nutritive values and created in the mind of the buyer a desire for his particular brand of cheese. Selling and merchandising today has come to just this thing. The local merchant who will not see it and meet it will find his customers reading the advertisements in the city dailies and making regular pilgrimages to the city to buy, or he will find them patronizing the mail order houses. The buying public is easier for the new way of doing business and modern merchandising, and the merchant who refuses to fall in line and use the same tactics will find his business slipping away until it is confined to a few staple ones like sugar and soap and matches and overalls. This progressive age demands progressive methods and live, up-to-date advertising and merchandising. It Pays to Advertise in This Paper

Friendliness

A man without friends is like a ship without a rudder. Many people, both men and women, have tried to go through life without a friend or comrade. It is practically impossible. Friendliness in the food of your life. You can not do without it.

No matter how important your friends are to you, be sure that you are of the right kind. A "party" friend is worse than an enemy. He or she will pretend to be your staunch supporter until your fortunes change then they back you faster than any other. Be careful in choosing your friends, for when you have chosen them, be true to them.

Be normal in praising your friends and associates. This will appreciate it and it will make you feel better.

Junior Favorites

The Progress Of The Annual

Last week the juniors were asked to choose their favorite. The following is a report of the class election:

June Bond will represent the Junior class as president. June is not only pretty but popular as she was elected for the sponsor.

A. G. Weaver was chosen as the most popular boy. A. G. has a scholarship record above the average. He is not only popular in our class but in the whole school.

Mary Harriet Simpson is the most popular girl. Mary Harriet has a pleasing personality and has many friends.

Charles Turner was chosen the best all-around boy. Charles is popular, a good sport and makes fair grades. He is to be football captain next year and takes part in other sports.

Geneva Caldwell is the best all-around girl. This is Geneva's second year in our class and during that time she has proved herself worthy of the position. Everyone got in on the fun. See that your favorite wins.

S-A-H-S

Friday night, January 10, Miss Hattie Wolford entertained a few high school pupils with an overall and apron party.

Many different kinds of refreshments were served. The evening hours were spent in conversation and dancing. The guests enjoyed the party very much.

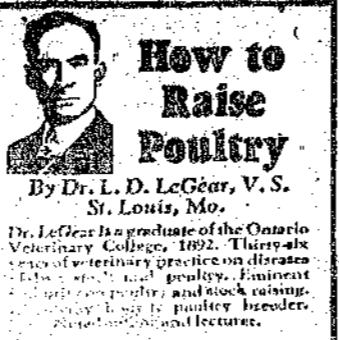

The following are the names of the guests: Miss Olivia Land, Miss Margaret Wylie, Miss Irene McCrorey, Miss Christine Marshall, Miss Irene McCreary, Miss Carl Flores, Miss Kathlyn Kollins, Miss Olivia Land.

The Freshman Girls have elected their officers for the year. They are as follows: The prettiest girl, Mildred Brundage; most popular boy, Clifford Wheeler; most popular girl, Jane Whitlow; best all-around boy, Clifford Oger; best all-around girl, Catherine Baines. We hope to get at least two in the annual.

S-A-H-S

Mrs. Pieratt: "Men are brains. My husband promised me a surprise if I would leave to cook, so I took lessons."

Miss Hays: "What happened? What was the surprise?" Mrs. Pieratt: "He dismissed me, cook."

How to Raise Poultry

By Dr. L. D. LeGour, V.S., St. Louis, Mo.

Dr. LeGour is graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of the horse, cow, pig, poultry, and stock raising.

CHICKS' SAVING BROODER METHODS

Little Attention to Details Will Not Only Lower the Mortality Rate of Artificial Brooding, But Will Also Provide Stronger, Healthier Chicks.

A proper start in life means much to the newly hatched chick. If a newborn chick is given a clean, dry, and comfortable environment, it will grow into a healthy, productive bird. The brooder should be clean, dry, and well-ventilated. The chicks should be kept warm and comfortable during the first few days of their lives.

These things are only learned by observation and experience. If you do not care to trust your judgment in that respect, the following schedule will be found helpful.

The first two or three nights the temperature at level of sleeping chicks' backs, should be between 95 and 100 degrees, but never over 100.

As the chicks begin to exercise they require less heat. The latter part of the first week begin to lower the temperature gradually until it is around 85 at the end of the third week.

When the chicks are ready to be transferred or have arrived, transfer them carefully in a well-lined box or nest, and place them gently under the hen.

The hen or brooder should be covered to keep the chicks from getting chilled. After the chicks are installed in their new home, they should be kept warm and comfortable.

When the chicks are ready to be transferred or have arrived, transfer them carefully in a well-lined box or nest, and place them gently under the hen.

The hen or brooder should be covered to keep the chicks from getting chilled. After the chicks are installed in their new home, they should be kept warm and comfortable.

When the chicks are ready to be transferred or have arrived, transfer them carefully in a well-lined box or nest, and place them gently under the hen.

The hen or brooder should be covered to keep the chicks from getting chilled. After the chicks are installed in their new home, they should be kept warm and comfortable.

When the chicks are ready to be transferred or have arrived, transfer them carefully in a well-lined box or nest, and place them gently under the hen.

I give them some water, grit and milk. They are allowed to come out several times during the day for grit and water and each time I put them back under the hen. In this way they learn quickly and easily. My plan might mean a little more trouble at first, but my experience is that it saves time in the long run because chicks are more quickly trained to seek the hen for warmth and protection.

From this point on, detailed instructions cannot be given. Your exact procedure will depend on the kind of apparatus you employ. Follow the manufacturer's instructions carefully and watch the chicks at all times to make sure they are comfortable and growing at a satisfactory rate.

A word about correct temperature will not be amiss. Many experienced poultrymen never look at a thermometer but are guided entirely by the actions of the chicks. If they lie quietly in small contented groups, they are comfortable, but if they spread out flat lifting their wings and panting they are too hot. Extend their fence so they can get away from the heat or if a canopy type hen is used, lower the temperature. If they huddle together, they are too cold. Gently force them to huddle close to the store by decreasing the circumference of your brooder fence or by using the brooder curtain.

These things are only learned by observation and experience. If you do not care to trust your judgment in that respect, the following schedule will be found helpful.

The first two or three nights the temperature at level of sleeping chicks' backs, should be between 95 and 100 degrees, but never over 100.

As the chicks begin to exercise they require less heat. The latter part of the first week begin to lower the temperature gradually until it is around 85 at the end of the third week.

When the chicks are ready to be transferred or have arrived, transfer them carefully in a well-lined box or nest, and place them gently under the hen.

The hen or brooder should be covered to keep the chicks from getting chilled. After the chicks are installed in their new home, they should be kept warm and comfortable.

When the chicks are ready to be transferred or have arrived, transfer them carefully in a well-lined box or nest, and place them gently under the hen.

The hen or brooder should be covered to keep the chicks from getting chilled. After the chicks are installed in their new home, they should be kept warm and comfortable.

As many chicks will be fairly well feathered by the end of the fifth week, the temperature may run between 85 and 70, being reduced until finally artificial heat is no longer required. Avoid sudden variations at all times. An even heat is the ideal condition. The general temperature of quarters outside the hen house should never be lower than 60 to 70 degrees. If it runs lower, some auxiliary means of heating should be provided.

The octopus has powerful jaws, forming a parrotlike beak with which it tears its prey.

Moths of the European corn borer are only about an inch long, light yellow brown in color and very similar to some other common varieties.

MARRIED WOMAN FEARS GAS EATS ONLY BABY FOODS

"For 3 years I ate only baby food, everything else formed gas. Now, thanks to Adierika, I eat anything and enjoy life." Mrs. M. Gunn.

Just one spoonful Adierika relieves all GAS so you can eat and sleep better. Acts on BOTH upper and lower bowel removing poisons you never knew were there, and which caused your stomach trouble. No matter what you have tried for stomach and bowels, Adierika will surprise you! Sold by all leading druggists.

NOTICE! Cars can be registered at Santa Anna at the City Hall, during January. After February 1 there will be 20 percent penalty on all cars that have been driven and not registered. Headlights must be tested, before license will be issued.

JETTIE KIRKPATRICK, Tax Collector

LOOK OUT FOR SEED FRAUDS

T. C. Richardson, Field Editor, Farm & Ranch

Nearly every year people are victimized by sharpers offering some new and miraculous variety of seed. Sometimes it is an evergreen lawn grass, again it is a field crop of some old variety with a new name. A lawn grass that sold at \$1.50 a pound was found on analysis to be made up of meadow fescue, rye grass, and redtop, all very common grasses which can be had for a few cents a pound.

Before you pay a fancy price for any seed of which you have not heard before, it will pay to do a little investigating, whether it is offered by salesmen, by advertising or through a catalog. There have been some exceptional developments in the plant world, and no one should close his mind against new things. But don't pay a high price for them unless you have some evidence besides the word of the seller that the "new" crop actually has superior qualities, different from other varieties.

Sometimes, as in the case of the wonderful lawn grass, the seed can be identified by any competent seed analyst, and every State has one at the service of its people. When such things are offered a sample should be secured and analyzed before large quantities are bought. This simple procedure would have saved a Decatur, Illinois, man probably about \$400 out of the \$500 that he paid for 100 pounds of the mixture mentioned above, and sold under the name of "Herba-Mira." It will probably have a new name and the sharpers will have a different address this year. That enticing name sounds enough like Latin to fool the unwary into thinking it the botanical name; a Texas Mexican would interpret it; "See the

plant."

When new species are discovered or new varieties originated the impulse of the dollar-eater is to thrust it on the market with all the blab-blah he can think up. The experiment stations will test all such if they are given time, and the seed are submitted to them. They will report what actually happens, and farmers can then buy or let it alone as the facts enable them to form a judgment. Experimenting by farmers themselves is not to be discouraged so long as they do it cautiously, on a small scale, so that the financial loss, if any, will be small. In crops, Ben Franklin's advice is good: "Be not the first by whom the new is tried, Nor yet the last to cast the old aside."

(This is the eleventh of a series of short articles dealing with questions of farm crop seed.)

J. S. GILMORE FOR RE-ELECTION

The Santa Anna News is authorized to announce J. S. Gilmore, present incumbent, as a candidate for re-election to the office of County Commissioner, precinct No. 2, Coleman county, subject to the action of the Democratic Primaries next summer.

Mr. Gilmore is serving his fourteenth year as Commissioner in this precinct, and we doubt if any man living in the precinct is better known to every person here than is J. S. Gilmore. He will make the race on his past record of service, and if elected again, will render the same service he has rendered in the past.

Mr. Gilmore knows his work and delivers the goods without fear or favor, and solicits your favorable consideration again during the ensuing campaign and at the polls in July.

4-B News. We had examinations last week and we hope that all of us will be on the honor roll this time. We are all working on our History and Geography note books. We are all trying to enter something this year for the county meet. Miss Durbin is going to lead the baseball for the girls and we are going to start practicing soon. We have four new pupils in our room. They are Wayne and Edwin Webb from Gouldsburg, Leonard Blanton and Inezene Henderson. We are glad to have these pupils and we hope to make the year pleasant for them.

PSITTACOSIS

Psittacosis is the newest thing in disease to which the human race is heir. It gets its name from a bird of the order Psittaci, better known as the parrot. "Parrot disease" first appeared in South America where there were a number of deaths among human beings and hundreds among parrots, the birds being slaughtered in flocks by owners who suddenly became leery of the dangerous new disease.

Since last fall the disease has appeared in other continents, notably in Europe at Berlin, and now at Annapolis in the United States.

It is said to resemble pneumonia or a severe attack of influenza, and the mortality is supposed to be rather high. The theory is that it comes from the handling of parrots, as there is no known record of the disease having been transmitted from one human being to another.—Abilene Morning News.

THE STATE OF TEXAS

To the Sheriff or any Constable of Coleman County—Greetings: You are hereby commanded to summon Wm. Miller, William Miller, M. H. Miller, Ida Turner Brown, Mrs. R. O. Brown, Roland O. Brown, Shubad Marsh, administrator of the estate of Creed T. Pendleton, deceased, Davis Ayers, James Elder, Davide L. Campbell, Henry B. Holcombe, Henry P. Holcombe, D. L. Campbell, Prunell L. Hammond, S. Ella Hammond, Santana Live Stock and Land Company, a corporation, H. D. Shaw, Hiram D. Shaw, Sarah Louisa Shaw, Mrs. S. L. Shaw, Mrs. V. C. Billingsly, H. W. Visor, Mary M. Visor, Alfred E. D. Ancona, C. C. Hemming, C. R. Watson, W. M. Conoley, D. L. Dickey, Chris Hagelstein, J. P. Copeland, M. J. Copeland, M. B. Bethurum, Minnie B. Bethurum, I. N. Bethurum, Mrs. S. F. Groves, R. D. Groves, Nora Groves, Nora C. Groves, W. O. Shultz, E. H. Hughes, C. C. Nelson and E. W. Minturn, the residences of each and all of whom are to the plaintiff unknown; and each and all of the heirs of each and all of the following named deceased persons, to-wit: the unknown heirs of Creed T. Pendleton, Wm. Miller, William Miller, M. H. Miller, Ida Turner Brown, Mrs. R. O. Brown, Roland O. Brown, Shubad Marsh, Davis Ayers, James Elder, Davide L. Campbell, Henry B. Holcombe, Henry P. Holcombe, D. L. Campbell, Prunell L. Hammond, S. Ella Hammond, H. D. Shaw, Hiram D. Shaw, Sarah Louisa Shaw, Mrs. S. L. Shaw, Mrs. V. C. Billingsly, H. W. Visor, Mary M. Visor, Alfred E. D. Ancona, C. C. Hemming, C. R. Watson, W. M. Conoley, D. L. Dickey, Chris Hagelstein, J. P. Copeland, M. J. Copeland, M. B. Bethurum, Minnie B. Bethurum, I. N. Bethurum, Mrs. S. F. Groves, R. D. Groves, Nora Groves, Nora C. Groves, W. O. Shultz, E. H. Hughes, C. C. Nelson and E. W. Minturn, the names and residence of each and all of which heirs of each and all of which named deceased persons are to be plaintiff unknown; and each and all of the directors and stockholders of the Santana Live Stock and Land Company, a defunct corporation the names and residences of each and all of which directors and stockholders are to be plaintiff unknown, by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County to appear at the next regular term of the District Court of Coleman County, to be holden at the Court House thereof, in Coleman, Texas, on the 14th day of April, A. D. 1930, then and there to answer a petition filed in said Court on the 24th day of December, A. D. 1929, in a suit, numbered on the docket of said Court No. 4693, wherein W. E. Stacy is Plaintiff, and each and all of the other persons, parties and corporations named above are defendants, and a brief statement of plaintiff's cause of action being as follows: Suit in trespass to try title, for the right, title and possession of the East 100 acres of Farm Block No. 91 of the Creed T. Pendleton Survey, No. 278 in Coleman County, Texas; plaintiff alleging title in fee simple from the sovereignty of the soil, and also under the three, five and ten year statutes of limitation; and plaintiff prays for the title and possession of said land, and the cancellation of all defendant claims thereto; and for writ of possession; for costs of suit, and for general relief.

Herein Fail Not but have before said Court, at its next regular term, this writ with your return thereon, showing how you have obeyed the same. Given under my hand and seal of said Court at office in Coleman, Texas, on this the 24th day of December, A. D. 1929. J. W. FARRINGTON, Clerk of District Court, Coleman County, Texas.

Lesson for January 19

JESUS BEGINS HIS MINISTRY

LESSON TEXT—Matthew 4:13-25. GOLDEN TEXT—Rejoice, for the kingdom of heaven is at hand. PRIMARY TOPIC—Jesus Chooses Some Disciples. SUBJECT TOPIC—Jesus Begins His Ministry. INTERMEDIATE AND SENIOR TOPIC—How Jesus began His Ministry. YOUNG PEOPLE AND ADULT TOPIC—The Comprehensive Program of Jesus.

Jesus began His official work as Messiah at Jerusalem where He presented Himself to the men of the Jewish nation.

1. The King His Own Herald (v. 12-17)

The reason for this (v. 12). The news of the imprisonment of John the Baptist caused Jesus to forsake Judea and go into Galilee. The fate of John was accepted as foreboding His own. The rejection of the forerunner meant the rejection of the King, whose advent he proclaimed. Because of this He withdrew from the metropolis and went to the remote regions where His work would attract less attention.

2. To whom the proclamation was made (v. 13-16)

It was to the people of Capernaum in fulfillment of Isaiah's prophecy (6:1, 2). These people were not blessed with such privileges as those in and around Jerusalem. Thus we see that the darkest and most corrupt of the provinces was getting the light first. In this we see a forerunner of the present age, when the gospel of the grace of God is being preached to the Gentiles.

3. His message (v. 17). "Repent, for the kingdom of heaven is at hand." This is the same kingdom which John the Baptist and the Old Testament prophets proclaimed. It means the Messianic earth rule of Jesus Christ. It is for this we pray when we intelligently say, "Thy kingdom come." At that time the light will break forth which shall illumine the whole earth.

4. The King Calling to Himself Assistants (v. 18-22)

1. His command of authority (v. 18, 19)

He did not endeavor to persuade them, and He did not use arguments but issued the mandate. To command is the King's prerogative—not to argue or entreat.

2. The station of the servant called (v. 18, 21)

They were men of lowly birth and occupation—fishermen. God chooses the foolish things of this world to confound the wise and the weak things to confound the things which are mighty (1 Cor. 1:26).

3. They were called to definite service (v. 19)

"I will make you fishers of men." He had previously called them to be disciples (John 1:36-42). He now called them to service. This call therefore was not the gospel call to sinners which is "believe on Me," but the call to service of those who have already heeded His call to discipleship. The qualities which made for good fishers—patience, bravery to face the storm and the night, the perseverance which tolled all night though no fish were caught—would make for good fishers of men.

4. Their prompt obedience (v. 20, 22)

They gave up their business and homes, not even inquiring where their salary was to come from. They put their trust in Him who called, believing that He was able to supply their needs. There is no time for delay when the King commands. There is no time for questions, for the King's business requires haste.

11. The King's Triumphant Progress (v. 23-25)

He went the whole round of Galilee, teaching the Scriptures, preaching the Gospel of the Kingdom, and healing all manner of diseases. He did a three-fold work:

1. Teaching the Scriptures in the synagogues (v. 23)

The revelation of God needed to be explained. This is what He was doing in Nazareth (Luke 4:14-22). Such is the primary business of every minister.

2. Preaching the glad tidings of the kingdom (v. 23)

The King was present and was heralding His own mission, was ready to establish His kingdom if they would have been willing to receive Him. Despite His knowledge of their unwillingness to receive Him, He presented His claim as though the kingdom would then have been established.

3. Healing all manner of diseases (v. 23-25)

His fame went throughout all Syria, and they brought unto Him all sick people that were taken with divers diseases and torments, and those which were possessed with devils, and those that had the palsy; and He healed them.

Keep that old Christmas spirit live and blessings will come to you. Let it die and you're doomed until next December.

The Canadian government named 54,000 square miles of territory by aerial photography this year.

A tablet marks the site of Jerusalem, 1930.

DOES ABRAHAM LINCOLN'S "PROVERB" APPLY TO TEXAS DEMOCRATS

(Greenville Messenger)

In the days when Abraham Lincoln was campaigning in a cause near his heart he said: "You can fool all the people some of the time, some of the people all the time, but you cannot fool all the people all the time."

With the political happenings in Texas in recent years we are wondering if this applies to official Texas Democracy and, if so, how long it requires to bring the party and those who are faithful to the party to their senses.

In 1924 Democrats generally understood that whether the Ferguson won or whether Robertson would win that the defeat might be expected to fraternize with the arch enemy of the party by whose grace they sought the governor's office. The Robertson supporters knew that Mr. Ferguson had formerly shown bad faith with the party that had honored him, yet they openly stated their desire to have him in the run-off match. What happened calls for no repetition.

The Dan Moody was winner in 1926, not upon his own merits but upon the demerits of the Ferguson administration. The weakness of the Moody administration is unfortunate but not surprising. Hence, where is the wisdom in faithful Democrats using the party for a prejudicial side show for those known not to be faithful to the party as a remedy?

Just now the chief claim of one Thomas B. Love, who is in the same attitude in breaking faith with his party, as was Mr. Ferguson in other days, his claims the demerits of others. While Mr. Ferguson's only hope is Mr. Love, whom he knows faithful Democrats oppose.

Neither of these men are entitled to a place upon the Democratic primary ticket and neither should be allowed a place on that ticket. Mr. Love's delinquency is of too recent date, while Mr. Ferguson's impeachment is a permanent estoppel.

If the Democratic party cannot win with one of her faithful members she does not deserve to win. This habit of permitting those who preach a doctrine of party disloyalty to head the party ticket would eventually destroy the party more effectually than would defeat.

Let those who seek Democratic honors subscribe to the plain old Democratic doctrine of majority rule. And, let all understand this party is neither a prohibitive nor an anti-prohibition party. At this advanced stage the prohibition question calls only for law enforcement and not entitled to use or abuse as a political football.

Respect for the laws of the land call for loyalty, Church interests call for loyalty, honesty, and charity. Home life calls for loyalty. Loyalty should be the watch word and the signs displayed in Texas as in Alabama and every Democrat put on notice that so long as we meet in party councils or party primaries that those participating, who refuse to abide by action of the majority, are not entitled to place upon the ticket of other party honors.

Suppose that Messrs Ferguson and Love should have what they both evidently desire—to be leaders in a run-off primary. How many Democrats in Texas would expect the loser to abide results if there should be anything approaching a roscoe promise by hob-nobbing with the enemy of the party to which both had pledged their faith?

Promise! Of course they will promise, but let the party present its faithful who keep their promise. Deny no man a right to vote who will take the pledge. But, see that breaking the pledge is not allowed to serve as an invitation to the unfaithful to lead the party. That is simple, that is right. Square dealing with those who are loyal demand as much.

Beginning in 1922 there were a few defections on Mayfield, wearing the three-K brand, Texas Republicans went on a bitter tirade against the Klan and nominated a Sunday school Democrat and slobbered over the pledge breakers and manufacturered the most bitter invectives ever hurled at the Wizard to encourage unfaithfulness of Klan opposers.

The next round it was the other way around and these righteous Teapot Dome suckers fell upon the neck of the Wizard, called Dr. Butte to the chair and offered every front seat available in the Texas Republican show wagon to disloyal Democrats. They took a herd of the weakest of the bunch they had just exhausted their evolutions cursing in for training. For themselves they bowed at the feet of the Wizard, craving for privilege to rustle the great white sheet in a fashion to serve the faithless so they would tremble

like a newly freed nigger meeting a ghost in a grave yard.

This kind of foolish stuff, weak stuff, disgusting prejudicial rot, has been overworked—long since James E. Ferguson is not wanted and must not be feared. Thomas Love preaches about a conscience that would disgrace any honest, majority rule Democrat. He must be made to sit in the pew and learn from the catechism of loyalty before being ordained to preach Democracy, which is based upon loyalty.

Most all of us Democrats have been fooled some of the time, some may be fooled all the time. But why in the name of common sense, common honesty, common fairness and political decency should all of us be fooled all the time?

The Klan once was big, but its conduct not sound and in politics most reprehensible. It was of mushroom growth and quicksand foundation. The Democratic party is big, is sound but has been acting awfully foolish with the political Wild Asses pulling the reins to the right and to the left, shouting aloud about their righteous purpose, deceiving the foolish, frightening the selfish, ambitious until we now have the disgraceful scene of those who have been disloyal threatening and declaring that no loyal has a hope of entering the finals in the race for chief executive.

May the good Lord protect us if our party officials do not steady the Democratic boat by putting only loyal men and women at the oars who will steer straight forward and throw overboard the ballast that would surely sink the ship.

If you watch some people eat then you will not wonder why the drug stores are so full of patent medicines.

Tokio's traffic accident record last year showed 2,500 children injured or killed in street accidents.

FIRST KAPLAN WHEEL IN U. S. IS IN TEXAS

The first Kaplan-type water wheel ever installed in this country is in use in the Lake Walk plant of the Central Power & Light Co. in Devil's River. Invented by a German hydro engineer, the Kaplan wheels have been used in several 100,000 horse power installations in Europe, and it is now being made in the United States.

The American-type turbine has rigid impellers, while the Kaplan has impellers with adjustable blades, which change positions according to the variable loads on the unit. The changes are semi-automatic, being done entirely by a governor.

Another interesting feature of the Lake Walk plant is that its operation is completely automatic. An attendant from the Devil's Lake plant a few miles away visits the Lake Walk plant daily, but the trip is hardly necessary except as a precaution, for if the water in the dam falls below a certain point, the machine automatically disconnects itself. When the water again rises it automatically resumes operation and begins generating power again. Should the load be excessive, it shuts down, and if by chance the bearings should heat, it throws itself out of gear.

The two new hydro plants of the Central Power and Light Co. have generating capacity of 2,520 and 1,900-horsepower respectively.

The second and third wife may get the most pithing, but the first automobile gets the most polishing.

"Dope leads thousands astray," says a headline, and this is especially true of basket ball dope.

A smart man will listen to all advice offered, and then ignore most of it.

A CONTRAST IN CLEANLINESS

Things brought back by expeditions into the kingdom of the past make our modern press reflect the wonderment of Marco Polo's adventures. The spade and shovel are uncovering marvels of civilization long lost to history. Revelations of these comforts and luxuries lead the pessimist to shake his head and declare all modern advances are shallow compared to the splendor of Greece or Babylon of Egypt.

What the pessimist forgets is that most of the regal luxury of those days is the commonplace possession of the ordinary man and woman of today. The Harvard University Expedition discovered that the queens of Egypt had cosmetics, rouge, lipstick, ointments, baths, and all of the paraphernalia of the modern beauty parlor. Cleopatra enjoyed these sumptuous luxuries, but only the wealthiest of her subjects could enjoy them with her. Today they are not only within the reach of every girl, but actually a part of her everyday life.

No vast fortune built up on the sweating backs of slaves is needed to make the stenographer and salesgirl as beautiful as nature meant her to be. Her tub may not be as elaborate as a Roman bath, but it is here to bathe in, and she turns on the faucet with considerably less trouble than it cost Cleopatra's maids to carry jars of water. Soap and water are probably the least costly items in her beauty budget, and the most frequently used. While critics may lament her scant apparel, what little she does wear is likely to be clean and sanitary with daily laundering. These habits take no great wealth or time, yet they rank the automobile industry while total output is valued at four billions. There are nearly 3,000 cheese factories, 5,000 creameries and over 300 condenser and evaporated milk plants in the United States, according to the National Dairy Council figures.

With a fast-growing interest in cheese factories in Texas, it will be of interest to note that the American dairy and cheese industry doing a business of five billion dollars a year, far outranks the automobile industry while total output is valued at four billions. There are nearly 3,000 cheese factories, 5,000 creameries and over 300 condenser and evaporated milk plants in the United States, according to the National Dairy Council figures.

Pick's Topics

By THOS. E. PICKERELL

Congress has again settled down to its own business in order to try to settle up the country's business.

And now that democracy is taking hold fairly well how about making the world safe for pedestrians?

A man seldom goes wrong in a deal if he first consults his own mind and his wife's intuition, and then obeys his wife's intuition.

It is more blessed to give than to receive; but sometimes all one gets for trying to give is a bawling out or a good cursing.

Prohibition can never be given its trial until more of its violators are given theirs.

Then again, sometimes, in our moments of patriotic despair we even doubt the assertion that if the saloons came back the highways would be more dangerous; for we'd about as soon be run in to by a drunken driver as be shot in the back under suspicion of a Prohibition agent.

WHON NEWS

On account of bad weather the basket ball teams did not get to play match games last week, but are expecting to play this week. Whon school is improving very much. More pupils made the honor roll this month.

The following students led the honor roll:

10th grade, Jack Cooper A--; 9th grade, Beatrice Pitts A; 8th grade, Ethel Winn A; 7th grade, Lorene Carter, A--; 6th grade, Mattie Zue Featherston A--; 5th grade, Clifton Wright A; 4th grade, I. O. Smith A; 3rd grade, Dalton Rutherford A; 2nd grade, Virginia Belle Turney A; 1st grade, Marjorie Johnson A; Elder Smith.

The following pupils made the honor roll:

8th grade, Velma Reynolds A; 7th grade, Wright A; 6th grade, Letha Smith A; 5th grade, B plus, Ella Mae Ayants A; 4th grade, Muriel Cochran, B plus; 3rd grade, Gino Johnson A--; Calvin Jones B plus; 2nd grade, Darwin Love, B plus; 1st grade, Byrd Hunter, B plus; Gust Featherston A--; J. D. Wright, A--; 2nd grade, Vernon Fivash A--; Verne Suite A--; Mell Leonard B plus; Mary Leonard B plus; Dwight Shields B plus; 1st grade, Aaron D. Ayants, A--; Primer, Texas Featherston, A--; Willis Ross A--; Wanda Rambo B plus; E. W. Bible B plus.

All the pupils of Whon school joined the School Bag Gospel League. The teachers are planning to attend the Gospel League at 54th, Texas, next Saturday, and some of the pupils would like very much to attend. Speakers will be there from Chicago, Dallas, and Fort Worth.

All children of the Whon school district who were six years old before the first day of January are allowed to attend school if they pay a dollar a month. All who wish to start please start before January 20th. The proceeds will be used for school ground furnishings.

An interesting feature of the government's helium plant near Amarillo is the tank cars that are now being built in which to transport the gas to the aerological fields. Each car will carry three huge cylinders, braced in pyramid shape to the cars. They will be filled under a pressure of 2,000 pounds to the square inch, and the three cylinders will transport, at this pressure, 200,000 cubic feet of gas. The cylinders are tested to 3,300 pounds of pressure before being put into service.

All politicians are people but not all people are politicians.

10. Tom Moore aspired to be an Irish Burns. Why did he not succeed?

Edward Carroll spent Sunday in Coleman in the home of his brother.

Pat and Norman Hosh left Thursday for Wichita Falls, where Pat has accepted a position with the White Drug Co.

Ennis Renno of Brownwood has accepted a position with the Johnson Furniture Company.

Some of our Spring Hats have arrived. Call and see them. Mrs. G. A. Shoekley.

Mr. and Mrs. G. A. Shoekley and Miss Lillian Durham visited Mrs. Shoekley's sister, Mrs. Sam Williams in Hamilton, Sunday.

You will find a very pretty selection of Spring Coats never shown before at prices so low. Mr. G. A. Shoekley.

John McKinney of Coleman was a business visitor here Monday.

Harold Kurtz was a business visitor in Brownwood Monday.

Miss Beulah Williams spent the week-end in Coleman with Miss Leona Hughes.

W. H. and Barney Lewellen of Shickel were business visitors here Monday.

Will Melton and J. C. Welch were business visitors in Coleman Monday.

Joe Smith of Abilene and Marion Burleson of Coleman were business visitors here Monday.

Mr. and Mrs. Lidge Lancaster and son, of Trichham, Mr. and Mrs. T. E. Lancaster, of Silver Valley, were business visitors here Monday.

Mrs. Florence Crenshaw and Mrs. Roy Chinn, of Brownwood, were business visitors here Monday.

See those new Silhouette dresses at Mrs. Shoekley's Store.

Mrs. Mildred Simpson visited her sister-in-law, Mrs. Clarence Webb of San Angelo last week.

Mrs. C. W. Tierney and Mrs. J. R. Gipson were Brownwood visitors Monday.

Mrs. Lester Watson and Mrs. J. C. Williams visited Mrs. Williams' daughter, Mrs. Winifred Harrell of Trichham Tuesday afternoon.

Mr. and Mrs. Ford Barnes and little daughter, Miss Beth, visited Mr. Barnes' parents, Mr. and Mrs. D. J. Barnes of Coleman Sunday.

Tomnie Tomlinson of Coleman was a business visitor here Tuesday.

Make your old stove look like new with FLEX, Phillips Drug Co.

Dr. Henry McGowan of Cross Plains and Miss Irene Haynes of Coleman visited in the Mike Johnson home here Sunday.

Mrs. D. R. Hill left Tuesday for Comanche for several days visit with her mother Mrs. A. M. Carville.

Mrs. C. W. Tierne and Mrs. G. E. Welch carried little Miss Emma Lee Ledford to San Antonio Tuesday, for examination by a nerve specialist.

Urban Voss who is working at Baker Hill came in Tuesday for a few days visit with his family.

Mrs. B. A. Creamer left Tuesday for Dallas in response to a message that her sister, Mrs. Elizabeth Beard was very ill. Later word was received that Mrs. Beard was dead.

Henry Turner of the Turner Ranch was in the Mountain City Monday for supplies.

QUICK STEP, the fastest drying and the hardest floor finish sold Phillips Drug Co.

Miss Edith Bibolet of San Angelo visited Miss Eudora Garrett Sunday.

Mrs. Geo. Garrett arrived Sunday from Los Angeles, California for a visit in the W. O. Garret home.

Friends of W. O. Garrett will be glad to know that his condition is somewhat improved, and indications are good for his recovery.

E. E. Menaugh of McCamey was in the Mountain City this week, renewing acquaintances with former friends.

J. W. McHorse of Tuscola was a business visitor here Tuesday and spent Tuesday night in the H. L. Lackey home.

Mr. and Mrs. A. D. Lee of Brownwood visited in the home of Mayor Edd Baxter Wednesday.

M. J. Stacy here several days with his sister, Mrs. A. C. Watson, was called to his home at Lampasas Wednesday on account of the illness of his wife.

Mrs. T. T. Perry was a business visitor to Coleman Tuesday.

Our Los Angeles Quality Frocks have just arrived. Be sure to make your selection while we have a complete assortment. Mrs. G. A. Shoekley.

Falmadge Stacy of Cross Plains and Mrs. A. C. Davis of Beallinger stopped over here Wednesday enroute to Lampasas to visit their mother, Mrs. M. J. Stacy who is very ill.

Late Wednesday, the News received the announcement of A. O. Newman, who practiced law here in Santa Anna last year, for the office of County Judge, subject to the action of the Democratic primaries in July. A. O. Newman is a son of Mr. and Mrs. J. Tom Newman of the Live Oak community south of town, was born and raised in Coleman County, and has many friends here who will hail his announcement with a welcome. Look up his announcement and read it for your own information. He is young, ambitious, capable and fully trustworthy in every respect.

The editor and family have been feasting on some mighty good cats this week, presented by friends. The names of the donors are withheld for certain reasons. For instance, the man who had just butchered some nice meat and hogs, did not care to advertise the fact that he had a supply of meat on hand.

Mrs. L. W. Hunter is reported seriously ill at her home this week, but her condition was reported slightly improved Wednesday.

Mrs. A. C. Watson is confined to her home this week, and is reported to be critically ill. Several of her people have been called to her bedside.

"The famous beauty experts of Europe and America recommend PALMOLIVE SOAP." For sale by Marshall & Sons.

E. E. Chambers is reported on the sick list again this week.

ATTENTION PIANO OWNERS!

Here is a proposition and an opportunity for you that you should not pass by. I am here now to take care of your Piano, tune and repair; 36 years experience. All work, and satisfaction guaranteed. Prices very reasonable. G. A. Krueger, "Expert tuner" Phone 45 Santa Anna

A. J. Ray of Coleman was a business visitor here Monday.

CARD OF THANKS

We wish to extend a word of thanks to all who assisted either in deeds or words of sympathy during our bereavement in the death and burial of our father, J. H. Cherry. Mrs. John Simmons, and family, George Cherry and family, Mrs. D. M. Simmons and family, E. O. Cherry and family, and John Cherry.

ROCKWOOD NEWS

Mr. and Mrs. Bob Johnson and family spent Sunday afternoon with the Joe Hayes family at Waldrip.

Miss Rosa Alice Malvern, a patient in the Sealy hospital at Santa Anna, after having undergone an appendicitis operation, was glad to have her mother and John Strayan back in school Monday, after recovering from a brief illness.

Mr. and Mrs. Doll Rutherford have moved to the Gill Ranch near Whon. The children will attend Whon school.

Miss Pebble Steward has been unable to attend school the past week, suffering an attack of flu.

Mrs. Claude Box has been a patient in the Sealy hospital the past two weeks.

The teachers and students welcomed several new pupils to our school last week.

We are now completing the fourth month of school and will take mid-term examinations this week.

Mr. Robbie McCarrel has been disabled from work for several days on account of illness.

Mr. Ross Dixon of Brownwood spent Sunday with his parents.

You will be given 10 per cent discount during January on all orders for giftwares and objects d'art at Mrs. Jodie Baker's Novelty Gift Shop.
