"He Profits Most Who Serves Best"

SMOKE FROM SOMEWHERE

We don't know where the most smoke is coming from, Austin, Washington or Berlin. Austin, Washington or Berlin.
There's plenty from either place. In his broadcast Sunday morning the Governor implied his transactions tax measure was meeting with favorable of the Boy Scouts of America, was meeting with favorable consideration among his friends and he thought it would soon become a reality. He requested his friends and supporters over the state to write their senators and representatives to support the measure, but we doubt if there has been very much flooding of the mails with such

The President met another defeat in the national house ize on the love all boys have Monday, when the house whit- for adventure in the out-oftled down the appropriation doors the movement involves measure from \$375,000,000 to not only pleasure and privileges ## stand reliefers will not be quite so fabulously cared for other people; to be tolerant one vote. By this, WPA workers and reliefers will not be quite so fabulously cared for during the next few months.

Mr. Hitler, in his speech Monday night, informed the world of his intentions and so warned the democracies of the world that his nazism was going over, and it is up to the democracies to hands off, so to speak, if world peace was to be expected. So much for that.

Monday the Senate in Austin refused to confirm the appoint-ment of Carr P. Collins of Dalles for Chairman of the State Highway Commission, the choice of Governor W. Lee O'Daniel, then, proceded to abolish the office of State Tax commissioner, to defeat another appointee of the Governor.
Others were under fire, and apparently, the Governor's transaction tax measure has failed to meet with favor from any member of the senate or legislature. As we see it, it is nothing more than a consumer tax to be paid by the consumer.

We had a nice little party in the Armory Hall Monday night, celebrating the President's fifty-seventh birthday anniversary, the proceeds to be used for the prevention, treatment and cure of infantile paralysis. There were not so many manifested an interest, so the pot was not very large. Some seemed to disapprove of the kind-of entertainment furnished others are retainment furnished others are retained that the national of the serious illness of her sister, and was with her at the time of her death.

All America Marks 29th Boy Scout Anniversary

THIS poster, showing how "Scouting Carries On American Ideals", theme of Boy Scout Week from Feb. 8 to 14, marks the 29th anniversary of the incorporation of the Boy Scouts of America. 39,750 Boy Scout Troops, Cub Packs and Sea Scout Ships now include 1,233,950 boys and men, a membership gain of better than 13% in the past year. Since the beginning of Scouting in America 8,400,000 boys and men have been identified with the Movement.

This Week

The Woman's Missionary Union set out goals for the year which were challenging indeed -to enlist 60 members, organize a new W. M. S. in some neighboring church and one new circle of the local organization, Much emphasis will be given to Bible Study, according to the president, Mrs. J. Rdd Bartlett. Meetings will be different in many ways. Two new members, Mrs. Fred Helfington and Mrs. Woods were received at the Monday afternoon meeting. A social period with refreshments, followed the regular program.

The Deacons of the church met Tuesday evening at 7:30 for a business session, particular emphasis being given to financial plans for the year.

A telegram was sent to the Governor of Texas and to the Senator and Representative of this county and district stating the position of this church to be in opposition to the sale of liquor by the drink, and to the repeal of the race track gambling bill. This action received a unanimous standing vote at the morning service.

Next Week The Coleman County Worker's Conference will meet with the Immanuel Baptist Church of Talpa, Texas. The program is built around the theme of the

What Does the Future Hold for The Smaller Towns in Texas?

What must inevitably be the fate of the small towns and communities in Texas?

This question is being asked in literally hundreds ame question is being asked in literally hundreds of interior places over the state where today 'For Rent' signs clutter the windows of numbers of smpty business buildings! It is a question of increasingly serious importance, not only to these small towns and communities, but to the state as a whole.

a whole.

These once busy places of community life, around which has largely grown the progressive development of Texas, are being dried up by the operation of heavy trucks over our highways. Their local business firms and enterprises, the dry goods, hardware, drug and fruit and vegetable stores, retail lumber yards, wholesale grocery houses, bottling plants, feed mills, oil mills, grain elevators and cotton compresses are unable to meet the competition of the larger business centers because of the almost unrestricted and promiscuous use of Texas highways in the delivery of goods, by trucks from the larger cities holding the quantity-purchase advantage.

The absorption and manipulation, in varying

purchase awantage.

The absorption and manipulation, in varying degree, of the cost of transportation by highway for competitive purposes, if not restricted, will inevitably drive dealers and wholesalers in the smaller towns and communities out of business. They must succumb to the inequality of opportunity with which they are burdened and thus contribute further to our growing economic chaos.

Texas highways will hasten the end of local enterprises in amaller Texas communities. If under the present statutes harm already has been done the email town merchant and property owner, what then must be the effect of any increase in the allowable truck load limit? Certainly the larger the load limit the greater will be the distance over which goods can be hauled from the larger distributing centers, and the greater will be the harmful effects on dealers and enterprises in the smaller towns!

smaller towns!

The burden of taxation borne by the business interests of the smaller towns and communities throughout Texas will, as a natural result, be shifted more and more to the shoulders of the remaining property owners. Those who have invested in homes and business buildings must sarrifice their investments to what some might mistakingly call "the march of progress."

The thogands of families, for so many years

The thousands of families, for so many years dependent upon employment by these business enterprises as a means of livelihood, must be forced to the cities in quest of work, and failing in that add further to our burden of relief and unemployment! Inroads by long distance truck operations on the traffic of the railroads must necessarily result in the abandonment of more and more railroad mileage, with consequent loss of payrolls and taxes to these communities and an increase of tax burdens to their citizens.

Texas Railronds, who seek no favors and advantages, but who willingly pay their own way to render efficient, dependable and economical transportation service to Texas communities, have felt the III effects of unfair and subsidized competition in the same way and measure as the small town business men and, in the interest of our mutual preservation, join with them in urging that existing legal track load limits be not increased!
