It appears rather do that thus see yourself that no one has discovered that run out of burnes " To the re- the News subscription list in the mark that customers would not course of time returned to nor buy these items even if they had mal, or thereabout. The switch the chance to but them at cost; in rates would naturally cost try and find out. If others can, The News some of its business, you can. Let our assaw you have under the circumstances many do not whisper to the followill pay a dime for a quart four winds - advertise thankin of thome town) news instead of a hig way and get big returns, paying fifteen cents for for a Try whispering and watch the bushel of (all the home) news.

Once there was an area with a week, five to fifteen times a dozen or two progressive little more in the home paper should agricultural communities, each be worth a penuy a week-more having a creamery, to which all at least. However that's past the dairymen brought milk and history and not our grief. When cream, for they were stockholders in the enterprises. The lit-ers in the enterprises. The lit-crease it will be because we are tle creameries paid their members good money. In a big city a few promotion artists got together and said, "If we can handle all of that butter-fat from a central point, using tank trucks to gather it up with, we can make lots of money." So a promoter was sent to each little community and in most of them the dairymen fell for the plan: by collective tanking they would have more money to divide. As soon as the promotors had the major part of the creameries taken over they began paying still higher prices for butter-

doing to replace these lost fac-fors? What are we doing to keep number of coffees on the mar-when the defaulters had suc-raised the rates with our imour community from going the ket whether 10, 40 or 80). They cossfully scuttled their own lit- provement of the paper. We do R. A. Jeffreys Editor other way? Towns and commun-tried a comeback with advertis- the creameries and all of them not "think" it is worth 3 cents progressive movement is halted almost prohibitive in cost to to resume again, the price paid it and so do our readers, but Any erroncous reflection upon there is no standstill - retro- reinstate the coltee in the public for butter-fat and cream drop- in this drouth-enforced depressible character of any person or cression begins. A leading citi- lic demand. Ariosa may be on ped so low no milk producer has sion we will have to put off any firms appearing in these cold depression begins.
