He Profits Most Who Serves Best

VOLUME LVI.

SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY, SEPT. 26, 1941

NUMBER 39.

## This Week in Our Town

**JOHN FAYNE, SOLDIER,** answered Taps on the 20th of this month. A friend to everyone; a comrade-in-arms to many of us, he walks earth's pathways no more, but he has left in the hearts of all who had the pleasure of knowing him, a quiet and almost unrealized impression out of his kindly spirit. It can be said that he did not leave a shining record of valorous deeds and accomplishments like our great men, every heart has been bettered a little because of him. A good impression outweighs transient fame. Sleep on, Good Soldier, 'till the dawn and trumpet call of reveille shall wake the sleeping host that there awaits in the Bivouac of the Dead; and when the Great Commander Himself shall call the roll, answer strong and clear, that when the roster's finished, your name is checked with "here!"

**HOLLINGSWORTH BUILDING** is getting a face lifting this week. R. J. wants his property to be as good looking as any in the city. If a few more would follow the last few examples, our little town would be fairer to see.

**DENNIS KELLY MUST HAVE** had the same idea—the Kelley Company building has been receiving a coat of paint this week and already the Main Street is looking a lot better for several new paint jobs.

**THE FIRST BROADCAST BY** local talent over the Brownwood radio station was made on last Friday. "The man on the street" type of program was used, the Rangers' Band supplying music for the first broadcast. Five business men sponsored the first program.

**J. W. PARKER HAS BEEN AS** busy as a beaver building a new shed around the new boiler at his cleaning and pressing establishment. Rumors that the Gulf hurricane might reach this far gave him extra energy and he finished the job in a rush.

**SUPT. BYRNES IS WELL SOLD** on The News' cooking school, as he has given instructions that the Home Ec. Class attend the session as class assignments, as related by Miss Agnes Hays.

**WE EDITORIALIZED RECENTLY** about boys haunting the alley ways by day, streets by night, and not attending school. We know there is good in all of the boys but permitting truancy is the way to stifle it. Just noted a truant who is still young enough to ride a scooter while puffing a cigarette, and yet not, enrolled in our schools. It's a crime to tolerate such conditions.

**WE WANT ALL OF THE MEN** of Santa Anna to attend the Cooking School—they enjoy or otherwise the cooking of some good woman, and especially are our merchants invited.

**YOU GIRLS IN HIGH SCHOOL** are invited too. Come and be better prepared to make a few more of those day dreams come true. The way to a man's heart (he he freshman or senior) is through his stomach. Learn the gentle art of fishing!

**SANTA ANNA LIONS CLUB IS** reported as the only one in the district having 100% attendance on attendance day recently. We have a fine little club here and are proud of it.

**MAJOR HOOPES—NO KIN TO** Major Bowes—(he is C. B. H. of Sapulpa, Okla.) father of Mrs. Scott Wallace, and former glass factory president, left for his home north of the border up Colorado way Saturday after spending three days here. The major likes Santa Anna, likes to

## Bangs Man Dies Here Wednes.

Henry Clay Snodgrass, about 50, of Route 2, Bangs, died at Sealy Hospital Wednesday night, as a result of injuries received when his car, struck a culvert as it left the road, just west of Santa Anna, when he was blinded by the glaring lights of an approaching truck. Jim Windom, 26, other occupant of the car, suffered cuts and bruises, but was not seriously injured. Snodgrass suffered fatal chest injuries when he was thrown against the steering wheel by the abrupt stop. He was taken to the hospital in a Hosh Ambulance. Windom, was taken to his home by Red Barrington, and was brought to the hospital for examination. The body of Snodgrass was taken to Arlington, Texas, yesterday afternoon by Hosh for interment there.

### LOCAL SCOUTS ATTEND COURT OF HONOR

Santa Anna Boy Scouts attended the court of Honor held at South Ward School, Coleman, Tuesday evening, September 23. Those attending were Scout Master, C. V. Drennan and following Scouts of Troop 85: Donald Ray Howard, Forrest Eskridge, Hal Sanders, George Sutphen, Jackie Watkins, Owen Lewellyn and James Dossey. Rev. J. W. Burgett, Scout Master and the following Scouts of Troop 86: W. H. Blake, Newman Parish, Kenneth Moredock, Bob Jeffreys, Jr., Webb Golston, and Arthur Dean Talley.

Awards and medals were presented to various Scouts of Coleman County, among them Bob Jeffreys Jr., of Troop 86, Santa Anna, the only Scout to receive the First Class Scout Medal and Certificate.

Troop 86, Santa Anna had 100 percent attendance. The Talpa Troop received the pennant, for greatest number of points for advancement.

Visitors from Santa Anna Mrs. R. A. Jeffreys and daughter, Shirley May. The next Court of Honor is to meet in Santa Anna in November.

### SANTA ANNA MAN GUILTY OF COLLISION DEATH

A jury in District Judge A. O. Newman's 35th district court Thursday of last week, found Scott Wallace, a young Santa Anna resident, guilty of murder without malice and placed his punishment at two years in state prison.

Wallace was charged with responsibility of the death of Mary Alice LeSeuer of Valera after a crash the night of July 5, 1941, a mile and a half south of Rockwood. She was a passenger in a car driven by Edgar Beck of Valera, with which Wallace's car was in collision.

### LINDBERGH ADVISED AGAINST TEXAS VISIT

A chorus of ayes Wednesday September 17 recorded the Texas as house of representatives' opposition to statements in speech by Charles A. Lindbergh.

By voice vote the representatives adopted a resolution which advised Lindbergh and his associates that any purpose he might have in his flight against the declared policies of this nation and the freedom of race and religion for which this nation stands will not be served by his coming to Texas.

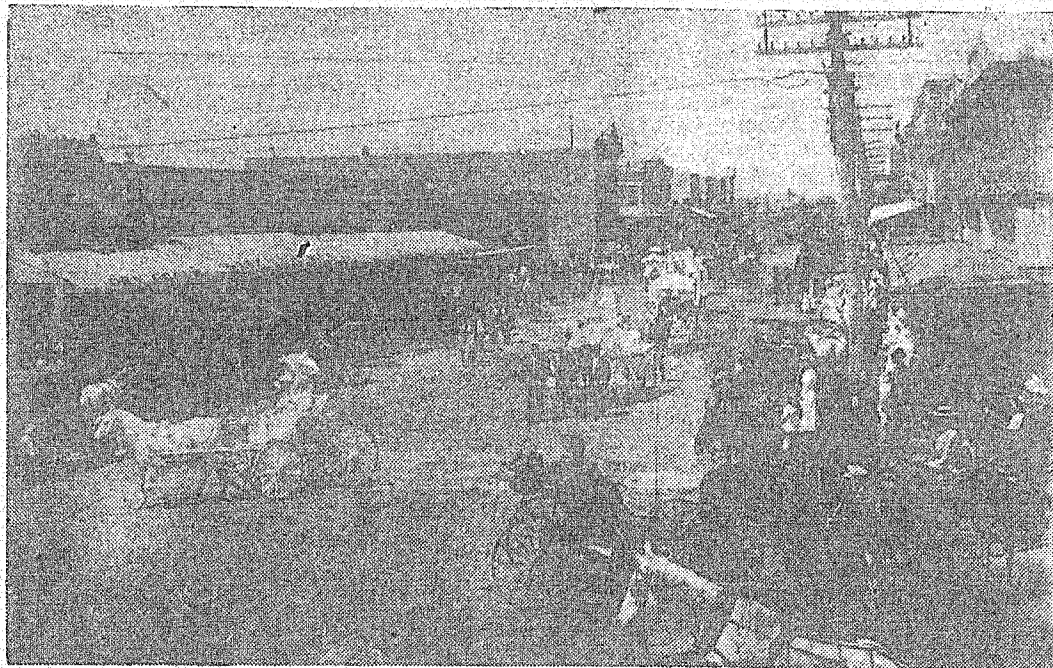

### Send in your news items. Classified Ads Paid

visit here frequently, and has a lot of good friends here.

**SID BLANTON HAS THREE** very ambitious peach trees. He showed us twigs from the trees yesterday that were full of blossoms.

M. D. Eubank has safely put away in a Coc Cola bottle, a centepede, over 7 inches long, that he found in his cats bin.

## SANTA ANNA IN FIESTA ATTIRE ABOUT 1911

The above picture is from a collection of oldtime pictures belonging to Mr. W. J. Hosch. Oldtimers will enjoy studying the scene and recalling incidents and people of those days.

## Chamber of Commerce

Howard Pearson, Secy.

"I believe that a man should be proud of the city in which he lives, and that he should be proud that his city will be proud that he lives in it." (A. L.) We often hear a citizen of a town say, "\_\_\_\_\_ (calling the name of a neighboring town) is having a big convention. Why don't we have something?" The people in a town determine what a town does. With all the people shoving the same way any hill can be climbed. If Santa Anna is down, let's pull together and get her up; if she is up, let's pull together and keep her up.

—Trade At Home— The WPA Recreation Department is "serving our town well. Its work includes teaching art, piano, handicraft and supervising plays and games. The weekly payroll is approximately \$300 per week. Miss Jean Irick is the director.

—Trade At Home— The Producers Co-operative Association, managed by L. G. Bobo, recently bought 100,000 lbs. hegra seed from men of the surrounding territory. Mr. Bobo tells me that prospects for a good turkey business this fall are very good. You will remember that 21 cars of dressed turkeys were shipped from Santa Anna in 1940 as well as 140 cars of grain.

—Trade At Home— The Rising Star folks put on an up-to-date, well balanced, and a very interesting fair last week. It was certainly credit to these town and surrounding communities. Thousands of people were in town day and night. (The success of this fair is an example for other towns to shoot at. Food for thought, no?)

—Trade At Home— The Turkey Co-Op of this territory held its annual meeting at Rockwood the night of September 22. The report of last year's business was given by Mr. Wiley and directors were elected for the coming year. Seems that more turkeys are needed than were used last year.

—Trade At Home— DO YOU THINK A POULTRY AND TURKEY SHOW IN SANTA ANNA THIS FALL IS A GOOD IDEA?

—Trade At Home— Mozelle High School will broadcast a program from Santa Anna this coming Friday from 1 to 1:30 P. M. If you can't be here, TUNE IN.

—Trade At Home— The date for the annual Chamber of Commerce Banquet is October 22. Make your plans to attend.

—Trade At Home— Quite a bit of work has been done recently in dragging and smoothing the streets of Santa Anna. Good work I'll say with much to be done.

—Patronize Santa Anna merchants.

## Mountaineer Football

The Santa Anna football team won from Rockwood 18 to 0 last Friday night in a hard fought game.

Williams started for Rockwood while McClain was the "spark-plug" for Santa Anna, besides making all three touchdowns. The first score was made when McClain intercepted a pass and ran 50 yards to pay dirt. The second score came after Dixon and Turney blocked a punt and covered inside the ten yard line. The third score resulted from a sustained drive from about mid-field.

Santa Anna had the Rockwood team outweighed, but it was a hard fought game all the way. Dixon and Nolen were outstanding for Santa Anna in the line.

The Santa Anna boys are working hard and improving fast.

Santa Anna's next game is with May, Friday night, September 26. May has a good team, but the boys are expecting to win their second victory. It would help quite a bit if a big crowd of supporters would come out and cheer them on.

There has been some shifting in the team. Turney and Haynes are still out, and Mac Norris has moved to Abilene.

The probable line-up: Bible, Left End; McCarrell, Left Tackle; Avants, Left Guard; Casey, Center; Nolen, Right Guard; Dixon, Right Tackle; England, Right End; Cupps and Harris, Half Backs; Downs, Full Back; McClain, Quarter Back.

### RECREATION NEWS

Last Friday morning the W. P. A. Recreation Department entertained both the grammar school and high school with a Marionette Show consisting of a short skit, called, "Lazy Bones," with four characters. They also introduced a new negro character, "Pertunia." Between acts the clown, Jo-Jo gave a dance and The Strawberry Blond was danced by our Miss Twinkltoes.

Community Singing will be every first and third Tuesdays. Everyone is welcome. The singing is held at the Cumberland Presbyterian Church.

A football party will be sponsored by the Recreation Department for the Pep Squad, Band members and football boys, Friday night, starting at 8:00, at the Santa Anna Armory.

Last Tuesday the Coleman County staff came over to have a joint training session with Santa Anna directors. Miss Wilhite, county field manager, gave 24 Principles of Program Planning.

A. C. Wright, retired postmaster at Mercury, saw Faye Pool take over a job he held for more than a quarter of a century. Miss Pool, daughter of Mr. and

## Dairy Show Plans Are Complete

Final plans and arrangements have been completed for Coleman County first Official Dairy Show to be held at Hufford Field Friday, September 26. Much interest is being shown by many dairymen and they are planning to bring exhibits of fine dairy stock. F. F. A. and 4-H Club members are participating in the judging, under the direction of A. D. Pettit of Santa Anna. G. G. Gibson, A&M Extension Service will discuss Dairy Sanitation. Home Demonstration Women of the county will have educational exhibits and also serve delicious lunches during the noon hour.

E. R. Eudaly, Dairying Expert, will classify the cattle and discuss Dairy Herd Management. In the afternoon following the classification a milking contest will be held under the direction of Herman Reddy. Charles Pitts is general chairman of the committee and anticipating much interest in all of the events. All entries are urged to be on the grounds with their cattle by 9 A. M.

### 17 COLEMAN COUNTY RURAL SCHOOLS RECEIVE JUNIOR BRITANNICAS

During the school year 1940-41 rural schools of Texas were given an opportunity to raise their classification from Rural Standardized Schools to fully accredited schools.

In order to do this the schools had to meet higher standards than had been set up before for such schools. Sears Roebuck and Company, home office in Chicago, by permission of the Texas State Department of Education, offered as a prize to each school making this advancement a set of Junior Britannica reference books with a set of twenty units of work for elementary schools. This set of books has a retail value of \$49.50 per set. School systems offering four years of high school work were not eligible to enter the contest.

Out of twenty rural schools in Coleman county, seventeen schools were given the award. The books were shipped to the office of the County Superintendent. During the past week several of the schools have been presented their sets of books and principals of other schools may get theirs by calling for them.

Listed below are the schools winning the award, Junction, Mrs. W. A. Wilhite, Principal; Silver Valley, Mrs. Kenneth Croom, Principal; Cross Roads, T. R. Damron, Principal; Plainview, Mrs. J. L. P. Baker, Principal; Liverty, Mrs. S. H. Duglins, Jr., Principal; Cleveland, Georgia King, Principal; Shields A. B. Carroll, Principal; Muke-water, Winnie Cathey, Principal; Leedy, R. S. Roverson, Principal; Leaday, C. F. Blanton, Principal; Anderson, B. L. Oliver, Principal; Whon, Mary Frances Wheeler, Principal; Echo, Mrs. J. H. Greenway, Principal; Loss Creek, Mrs. W. M. Kemp, Principal; Goldsboro, Mary Sue McMahan, Principal; Trickham, C. D. Findley, Principal and Indian Creek.

### Buffalo Homemaking News

The Buffalo Homemaking Club organized Friday, September 19. Officers elected were as follows: president, Charlotte Howington; vice president, Mickle Graves, secretary, Lorene Studdard; treasurer, Inez Howard; parliamentarian, Ruth Mickleals; and reporter, June Howington.

We selected blue and white as our colors and the bluebonnet for our flower.

The president appointed a program committee, recreation committee, year book committee and social committee. After a few discussions, the meeting was adjourned.

Mrs. E. Pool long time resident of Mercury was recently appointed postmaster at Mercury.

## Coleman Co. News Briefs

Congressman Chas. L. South, left the first of this week with his family for Washington after spending two or three weeks at home at Coleman during the congressional recess.

Merry Bros. & Perini, who several years ago moved from San Angelo to Abilene, appear to have in the making the opener of a Strawn sand oil pool in northwestern Coleman County between the Novice and Goldsboro fields. The promised strike, No. 1 Mrs. C. M. Greer heirs, cored oil saturated recovered oil saturated Gray sand from cores between 3,913 and 3,937 feet, the total depth. Schlumberger electrical survey was made and 5 1/2 inch casing was run to 3,909 feet, top of the Gray sand, for cementing.

Coleman's High School's Blue Cats were really blue—they have lost both games that they have played so far this fall. The first one was lost to Odessa 21 to 6 and the last one, Friday, Sept. 19, was lost to Cisco by a 13 to 7 count.

Funeral services for Herbert Delleney, 45, Brownwood filling station operator and former Coleman resident were held Monday. Delleney, former soldier, was killed when struck by an automobile while crossing a highway intersection in Brownwood Sunday. Survivors include the widow, one child and four brothers.

More planes are expected at the Coleman Flying Field every day. There are 50 pilots on the payroll at present, who fly the planes. Fifteen more planes are due before October 4 and will bring the total to 26. When the school starts there will be nearly a pilot instructor to each student as the first class to be sent here from Alabama will total about 60. However every 5 weeks a new and larger number of students will be sent to the Coleman field and at the end of 20 weeks there will be 200 students in the school and each pilot will have about four or five students, which is about right.

Seventeen of the 20 rural schools in Coleman county advanced from the classification of rural standardized to Fully Accredited School during the 1940-41 term, according to county school Supt. Terrell Graves.

Word has been received of the marriage of H. M. Thomson of Coleman and Mrs. Blanche McFarland of Washington, D. C. Mr. Thomson is Coleman postmaster and Mrs. McFarland a former teacher in Coleman.

Entertainment for cadets to be stationed at Coleman Flying School, Ltd., is the problem being pondered by a group of civic leaders of that city. Definite plans will not be made until after arrival of cadets.

John Grammer, Coleman and Santa Anna merchant, was re-elected Coleman Country Club president last week and Sam T. Cobb, Coleman insurance official, was re-elected vice-president.

City of Coleman is ready to begin marking the streets, which is a job that has to be taken by easy stages, due to much other work on hand for the Lions Club. One of the club's pet projects is to get the street's properly marked and all houses in the city numbered.

### COOKING SCHOOL PRIZES DISPLAYED AT NEWS OFFICE

The chrome steel cooking utensils that are to be given for prizes by Mrs. Tucker's Shortening Co. during the cake baking contest, sponsored by the Santa Anna News at the Happy Kitchen Cooking School, October 2, 3, 4, can be seen at the News office by anyone who wishes to do so.

FOR SALE — Brownwood Business College scholarship. Ask at The News office.

CONDUCTS 3-DAY COOKING SCHOOL

MISS JESSIE HOGUE

Noted Cooking Expert and Home Economist

Farmers Are Ready to Go

Using past experience as the yardstick, an estimated 82,000 of the 204,402 tenants who now till Texas soil will move to another place this fall.

Tyrus R. Timm, economist in farm management of the A. & M. College Extension Service, suggests that although this mass exodus of 40 percent of the farm tenant population probably will shift only a few miles, tenant mobility, in general, certainly is disadvantageous to both landlords and tenants.

He points out that necessity for soil conservation and soil improvement on most farms, need for crop rotation over a period of years, and the importance of introducing, or adding, livestock on tenant farms make it all the more important that tenants remain on the same farm for several years.

The tenant migration began in the Lower Rio Grande Valley the first part of September and the shift continues northward toward the Panhandle region during the winter. As heretofore nearly every tenant will feel that in his new landlord he at last has found an agricultural doctor who not only can ease his agrarian pain but also cure the ill.

"Nevertheless," Timm adds, "if history repeats itself four out of ten of the tenants will have a change of heart within the next 12 months and be ready to move again next year."

The Texas Extension Service, in cooperation with the United States Department of Agriculture, for several years has been trying to help landlords and tenants adjust their differences, and thus make it possible for the tenant to stay more than one year.

The major attack has been through the medium of written leases. While improved lease forms are not, within themselves, the solution to the problems between a particular landlord

and a particular tenant, Timm feels that improved lease forms and related materials are instruments with which to approach the problem in a definite and concrete way. Regardless of whether it is planned to have a written agreement on a place this year, a thorough understanding should be had between the two parties on at least the following points:

Length of lease; assurance and guarantees by the tenant and landlord; agreement with respect to credit furnished by the landlord; respective contributions by each party to operating capital; adjustments with respect to property owned in joint account; respective contributions by each party to expenses; privileges for which special rent is or is not to be paid; specifications with respect to farming methods and procedure; provisions for supervision; procedure at termination of lease; and adjustment of differences.

Timm suggests that if each of these problems is analyzed carefully by the landlord and tenant at the beginning, balancing contributions and benefits fairly, there is no reason why the tenant should not try the same farm again. "It should be remembered that neither the landlord nor the tenant can prosper alone. They must prosper together."

Defense Food Problem Up

Texas farmers have a vital part to play in the federal government's new food-for-defense farm program, and its up to Texas bankers to help them with the job, speakers told the Texas Bankers Conference at the University of Texas recently.

The part of agriculture in the national defense picture was judged so important that an entire daily class of the five-day conference was given over to it. Four speakers, addressing the 265 bank executives in attendance, called for a great expan-

sion of Texas farm production, a higher standard of living for the farmer, and all-out aid to the defense program.

R. L. Mullins, Wolfe City bank president, urged country bankers' help for an agricultural boom in Texas, not only to feed the United States and Britain, but to improve Texans' own diet. "The unpreparedness of Texas agriculture is great," Mullins said. "In Texas we have about six million people and 418,000 farms. On these farms we have 30,000 families, about twenty percent, who don't even have a milk cow, and 82,000 families have no chickens."

He pointed out further deficiencies that should be remedied to feed Texas, before a gallon of milk or an egg should leave the state. Without export beyond state lines, he estimated, Texas still needs for proper diets over 40 million gallons of milk, 8 million pounds of butter, 18 million dozen eggs, 80 million pounds of citrus and tomatoes, 200 million pounds of green vegetables, and 30 million pounds of meat and poultry.

"We can do it, though," he said. "If the proper interest is developed in one year's time here in Texas we can produce enough food to feed many millions of people. If each of Texas' 418,000 farms produced an extra dozen eggs a day, it would provide every person in Britain with an egg each morning."

It will take advertising and promotion to get the new program over, he reminded. "The success of the program is going to be largely in the hands of the country bankers," he said. "Production of food for defense can be sold as easily as the defense bond program has been sold."

J. O. Gillham, vice president, Brownfield State Bank, urged the bankers' full cooperation with the farmer in developing the new program. A sound credit analysis and agricultural loan plan should be developed by every bank, he claimed.

"How to make sound loans to farmers and livestock men is a question of great importance," he declared. "Because the whole financial well-being of our entire nation depends upon them. In other words, the prosperity of our nation depends upon the prosperity of the farmer and rancher."

"If proper credit is extended the farmer or rancher is helped and becomes an asset to his community, but if we loan the farmer money just for the interest we can make off him, without regard to whether or not he is entitled to the loan, or can pay it back, we have done harm to the farmer, ourselves and our community."

Victor H. Schoffelmayer, agricultural editor of the Dallas Morning News, called for an agricultural-industrial development that would make Texas the productive arsenal of the nation.

"We are assembled here in the greatest agricultural state of the nation," he said. "Texas is also the nation's greatest raw materials state. Many of us do not realize the potentialities within the reach of Texas farmers, manufacturers, distributors, and bankers in the way of capitalizing on opportunities which are right before us. "Texas has such a vast array

Did "Diamond Jim" Have Stomach or Ulcer Pains?

It is hardly likely that Diamond Jim Brady could have eaten so voraciously if he suffered after-eating pains. Sufferers who have to pay the penalty of stomach or ulcer pains, indigestion, gas pains, heartburn, burning sensation, bloating and other conditions caused by excess acid should try a 26c box of Uda Tablets. They must help or money refunded.

Asthma Mucus Loosened First Day

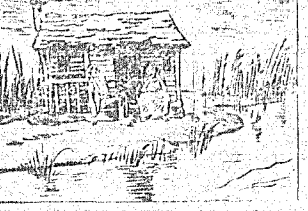

For Thousands of Sufferers Choking, gasping, wheezing spasms of Bronchial Asthma ruin sleep and energy. Incredibly the prescription Mucosol quickly helps loosen the thick strangling mucus the first day, thus aiding nature in pulling the terrible recurring choking spasms, and in promoting freer breathing and restful sleep. Mucosol is not a smoke, dope, or injection. It's pleasant, tasteless, painkilling tablets that have helped thousands of sufferers. Printed guarantee with each package—money back unless completely satisfactory. Ask your druggist for Mucosol today. Only 60c.

Getting Up Nights Makes Many Feel Old

Do you get up at night and suffer from Getting Up Nights, Backache, Nervousness, Leg Pains, Dizziness, Swollen Ankles, Rheumatic Pains, Burning, smarting or frequent urination? If so, remember that your kidneys are vital to your health and that these symptoms may be due to non-organic and non-systemic kidney and bladder troubles. In such cases, Cystex, a physician's prescription, usually gives prompt and joyous relief by helping the kidneys flush out poisonous excess acids and wastes. You have everything to gain and nothing to lose in trying Cystex. An iron-clad guarantee wraps around each bottle's neck a refund of your money on return of empty package unless fully satisfied. Don't take chances on any kidney medicine that is not guaranteed. Don't delay. Get Cystex at your druggist today. Only 60c. The guarantee is what this medicine protects you.

DOZING BY THE RIVER

MANY slow rivers empty their red freight from the Piedmont into the Gulf. Not many people have ever heard of the Piedmont. They don't know that this area between the mountains and the coastal plain marks the boundary between enterprise and sloth.

Both black and white just sit on squalid porches and talk.

Nowhere is one so reminded of this as a. Appalachicola. It is a small town on the banks of a river, both named from the Indians who once lived there. Today the village seems asleep, lives in the past, and in spite of pamphlets issued by the Chamber of Commerce, it seems doomed to gradual stagnation.

The inhabitants of this Florida hamlet talk of the glories of the place as a part of the only two famous men who ever lived there, but many of their neighbors, both black and white, just sit on squalid porches and talk.

Slowly the red river flows past them, almost as stagnant as the mental outlook of the people. It has risen hundreds of miles northward, flowed through prosperous cotton farms and thriving industrial cities. But the blight of the coastal plain seems to be reflected in the slow meandering of the stream. That blight is malaria.

The disease is the curse of the South, especially along rivers like the Appalachicola, which in spring freshets flood thousands of acres of flat land. Mosquitoes and malaria are inevitable, and figures issued by the Florida State Board of Health show that this corner of the state is one of the worst in America.

Quinine, of course, would control this condition, but not enough people know it, know the correct dosage, nor that it is a cheap and safe remedy for this plague. And some are too poor to buy the little that is needed, which seems tragic considering how little it is. Malaria experts have many times pointed out that 20 grains of quinine per day for 57 days is all that is needed. The total requirements of Appalachicola would not amount to a fraction of what is lost annually, both here and throughout the South because malaria saps ambition and kills initiative.

of natural wealth that if we do not develop it ourselves others will come and develop it. Any state with as varied resources as Texas possesses, from cotton to cattle, from rapidly growing forests to the country's finest sheep and goats, and tens of millions of acres of soil adapted to raising almost every temperate crop, is in a position to raise abundant crops, meat, and dairy products, and furnish the raw materials to make Texas the greatest industrial state as well."

V. S. Marett, Gonzales State Bank vice president, said that every country bank should have a man to work directly with the farmers of its community. He said that such a plan, retaining an expert who knows the farmers and understands their needs is of untold benefit to both farmers and community.

CONNALLY WINS HARD FIGHT ON TAX BILL

Senator Tom Connally, during the passage of the tax bill, again fought for and triumphed in the elimination from the bill of provisions depriving married couples in the eight community property states, of which Texas is one, of the right to file separate income returns.

Being the lone Senator from a community property State on

the Finance Committee, the Texas Senator was out-voted in committee; however Connally carried his fight to the Senate where he was able to muster sufficient votes to force the Finance Chairman to strike the provision from the bill. This action will save the tax-payers of Texas millions of dollars each year.

Connally in his service in both the House and Senate has been an ardent supporter of State rights under the community property law.

LEARN to Cook Better. -Then- Bring your washing here and gain an hour at less effort to put into cooking delicious meals for your family. They'll like that. -And- Our Charges are Low. WILSON'S WASHATERA

SCHOOL TRANSPORTATION, BIG PROBLEM

Transportation is no small problem for Old Man Texas' children of public school age.

For five days each week, rain sunshine or snow—5,513 school buses make the far reaches of the State to carry rural youth to public educational centers. Last school year the buses traveled an average of 297,171 miles each day and, surprisingly enough, there were 54 students to the bus. It is estimated that 290,219 children were transported last year, which is ample proof that youth in the remote sections of the State have been extended educational opportunities.

Estimates place the number of school owned buses at 3,839 and privately owned at 1,380. A few buses are owned by counties

and some of them jointly owned.

Be the Guest of ADMIRATION COFFEE at the COOKING SCHOOL. Here's your personal invitation from the roasters of Admiration Coffee to be their guest at the Cooking School to be held under the auspices of this newspaper. You will enjoy the lectures and the outstanding demonstrations. They have been carefully prepared and arranged for you... new recipes... new food combinations... new ways of preparation... menu aids. Learn how easily you can make coffee that gives you every bit of its deliciousness. Learn of the unusual ways coffee can be used with other foods. Naturally, the lecturer will use Admiration Coffee, because she knows by experience that the rich, full-bodied flavor of Admiration, its uniformly high quality and its freshness make it the coffee for discriminating homes. The richest flavor in coffee! Admiration Coffee. 3 PERFECT PACKS 3 PERFECT GRINDS. Miss Jessie Hogue

### MOUNTAINEER

#### Press Club Organized

Tuesday the Press Club was organized with Miss McCreary as its sponsor. The officers are: president, Doris Belle Turner; vice president, Emma Kate Parsons; secretary, Margaret Bruce; treasurer, Wilma Jo Spencer; reporter, Bitha Barrington.

Other members are: Loraine Pritchard, Maxine Conley, Lorene Featherston, Marie Newman, Doris McGahey, Ruth Morris, Fredna Watkins, Robert Jeffreys, Dixie West, Kathryn Bagby, Allene Jones, Mary Frances Rutherford and Elizabeth Ann Stewardson.

#### Future Homemakers Club News

The Future Homemakers Club decided to sell football pencils this fall at their regular meeting, held in the Homemaking Department.

Following are the officers for this year: president, Mary Joyce Hill; vice president, Maxine Williams; secretary, Velma Stewardson; reporter, June Newman; parliamentarian, Mary Mills; finance chairman, Mary Mills; program chairman, Tavy Marie Stacy.

The first social is to be a moonlight picnic with the Coleman Future Homemakers.

#### Freshman Class Organizes

The Freshman class was called to order Monday, September 22, by Mr. McCreary. The officers elected were: J. G. Dunn, president; Doris Jane Henderson, vice president; Betty Pritchard, secretary; Joyce Richardson, treasurer and Elizabeth Ann Stewardson, reporter. The sponsors of the freshman class are Miss Fancine Merritt and Mr. Frank McCreary.

#### Sophomore Class Has Meeting

The Sophomore Class was called to order Monday, September 22.

These class colors were chosen as maroon and gold, class flower, yellow rose; class motto is the same as last year: "Keen sense, common sense, no room for nonsense."

The class song will be chosen at the next meeting.

#### Senior Class News

At a meeting of the Senior Class Monday, the following officers were elected: Allene Jones, president; Emma Kate Parsons, vice president; Elmo Eubank, secretary; Bobby Joe Cheaney, treasurer and Dixie Ann West, reporter. Mrs. Williamson is the sponsor of the senior class.

#### Junior Class News

The Junior Class met September 22.

The class voted the following class colors, rose and white; Class motto, "Together we stand divided we fall." Class flower, pink and white roses and class song, "Moonlight and Roses."

#### Band Elects Officers

The band elected their officers for the year and they were as follows: president Bobby Jo Cheaney; vice-president, Doris Belle Turner; secretary-treasurer, Mary Mills and librarian, Ruth Morris.

#### JOKES

Mrs. Davis: "Didn't I hear the clock strike two as you came in?"

Mr. Davis: "You did, my dear. It started to strike ten, but I stopped it to keep from waking you up."

Julian: "I've never seen such dreamy eyes."

Mary Joyce: "You've never stayed so late before."

Carol Holt and Bobby Cheaney visited in one of the larger cities of Texas. After being separated for a few hours, Carol saw Bobby on an opposite cor-

ner and he went to Bob and said "Say kid what are you standing here for?" and Bobby says, "Oh, I'm waiting on a street car," Carol said, "Why the street car has already come and gone, don't you see the tracks?"

### CERTIFICATE OF TITLE NECESSARY TO GET 1942 CAR LICENSES

All automobile owners, who do not already have a certificate of title on their car, are advised by H. M. Brown, Tax Assessor-Collector, that before they can obtain their 1942 license plates it will be necessary for them to get a certificate of title.

These titles are issued by the Texas Highway Department and application for same must be made through the office of H. M. Brown and a fee of 50c will be charged for each application this fee being prescribed by law.

Forms for making these applications for certificate of title can be obtained at the Tax Assessor-Collector's office or any automobile dealer who has already been furnished with a supply of the forms. In all cases it will be absolutely necessary that all spaces in the application blank be filled in properly and plainly on a typewriter or printed in pen and ink and signed before a notary public.

Since it will not be many months before the 1942 license plates will be on sale, it would be advisable for each car owner who does not have a certificate of title, to make application for one as it will be necessary for them to have this title in their possession before license plates can be issued for their car.

### Heart o' Texas News Briefs

A good response was received for magazines for the soldiers, a request for more material is made. Magazines and books are desired for the reading rooms and recreation buildings at Camp Bowie and are to be left at the Brownwood Banner office.

McCulloch Judge Deans received a check for \$8,414.95 Thursday morning from the Board of County and District Road Bond Indebtedness. McCulloch county's present part of the lateral road fund. The county received \$3,695 from this fund a few months ago.

Effort is being continued to secure direct air service for Brownwood and other points in that section despite recommendation of a Civil Aeronautics Administration official that application for the service be refused. The proposed new lines would be from Dallas to Mexico and from Houston to Amarillo.

Eleven electric organs for the eleven regimental chapels, now under construction at Camp

### Will Ignorance Cure Malaria?

American health officers were amused as they in the Transvaal by newspaper announcements of two new "cures" for malaria—one from South Carolina.

From South Carolina, where the malaria rate is much too high, an old southern negro announces his

Some have their own "cures."

"cure. It consists in boring a hole into an oak tree, blowing into the hole, and then plugging it with a wooden peg!"

If this does not seem so good neither does that from the Transvaal, which is now in the midst of its "winter." It seems that to prevent malaria the adherents of the South African "cure" bundle up in heavy overcoats, with woolen gloves and mufflers for good measure.

Both "cures" go back to magic—the bad old days when any nonsense passed for medicine if only it was

announced solemnly enough. The older and more ignorant the author the better—his "cure" must come from some inner or mystical vision denied to most of us.

The amazing thing is that these "cures" ever got into print and that people even more credulous than their inventors still believe such stuff. But these two are recent, in spite of the fact that for many years it has been well known that mosquitoes cause malaria, and quinine will cure it.

It is now over forty years since Sir Ronald Ross absolutely demonstrated that only through the bite of an infected mosquito could one get malaria. And quinine was discovered in 1820, since when it has been the world wide remedy for malaria.

So true is that that the United States Public Health Service has issued a recommendation as to the dosage of quinine. Neither the South Carolina negro, nor the bearded natives of the Transvaal will ever read it. But their respective Health Departments have been telling them that as a cure of malaria, 20 grains of quinine for 5-7 days is just a little better than boring holes in trees or wearing overcoats in tropical regions.

Bowie, have been received and soon will be installed. Work on the chapels is nearing completion. The chapels are located in each regimental area of the camp.

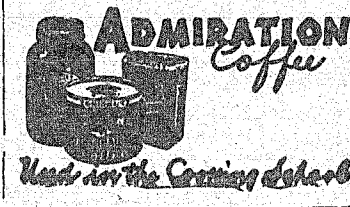

Brownwood's half-million dollar airport improvement project once suspended by the WPA because of shortage of funds, has been reinstated and a construction contract award is expected soon.

A motorist who ignored junior Patrolmen with flags near a Brownwood school and drove through flags twice was fined \$10 in the city court. His excuse was that he was in a hurry to make a delivery.

Rufus Stanley, of Brownwood who for many years has been manager of the firm of Hopper and Stanley, prepared to take over the position of acting postmaster, of Brownwood, effective last Friday morning. J. Edward Johnson, has been postmaster of Brownwood since March 1939 and will return to practice of law.

Brady Chamber of Commerce directors have tabled the propositions regarding the remodeling or building of a new courthouse.

MAKE YOUR HOME SPARKLE

## MODERNIZE

There are a hundred and one little inexpensive jobs can be done to brighten up your home.

TO MAKE IT SPARKLE

If the house was worth building, it is worth the cost of a few minor improvements to keep it up to date.

Leeper Curd Lbr. Co.

Poison analysis, which in wartime may be turned to detection of deadly ingredients in the nation's foods, and new processes in the use of wood and textile fibers are among the 167 new courses offered by the University of Texas in its 59th annual session, which opened September 19th.

This unprecedented expan-

sion of the curriculum brings the University's total course offerings to approximately 1,450.

More than half the new courses, 95 in fact, are in the three-year-old College of Fine Arts, which this year will add the fourth year of instruction.

Three new aeronautics courses have been added in the College of Engineering.

# GAS

SANTA ANNA GAS COMPANY

### Founder of Duncan Coffee Has Pioneered In Making of Correctly-Blended Coffee

Romance surrounds the great coffee industry and that, perhaps, has had a marked influence in the astounding growth and progress of the Duncan Coffee Company, importers, roasters and distributors of Admiration Coffee. When given a bit of study, one cannot help but agree that there is a definite thread

H. M. DUNCAN

of romance all through the business of importing, blending and distributing fine coffee.

It is odd, but true, that climatic conditions in Brazil may affect the cup of coffee you'll drink next week! And how little do we think of the origin of that delicious drink. Little do we realize that it begins thousands of miles away from the cup in which it is served. And little do we realize the growing importance of this business as a further means of contributing to, and intensifying the "good neighbor policy" this nation is striving to manifest with our Latin-American neighbors.

Importing shipload, after shipload of coffees from the romantic lands of the Central and South American countries, the Duncan Coffee Company is doing a large part in the promotion of our friendly relations between the Americas. And the remarkable growth of the popularity of Admiration Coffee is no small contributing factor to a growing business with South America that means much in these days.

Coffee grown in the fertile highlands of the Central and South American countries is transported direct to the Duncan Coffee Company on the ship channel at Houston, where it is quickly unloaded into the huge warehouses. And Duncan's individual and scientific methods of preparation, roasting and blending are applied as quickly as possible. One of the many reasons for the finer flavor and fresh tang in Admiration Coffee is the fact that every operation, from selecting in the countries of production to delivery in your grocery stores, is performed by the Duncan Coffee Company itself, thus eliminating unnecessary delays. This, added to the fact that the Duncan Coffee Company buys only the very finest of coffees, further assures better coffee in the cup.

Finest, highest-grade coffees are blended under the personal supervision of Mr. H. M. Duncan, president of the Duncan Coffee Company. He has spent more than a quarter of a century in coffee importing and roasting and learned it from the ranks of the day laborer. His supervision produces that richer and fuller-bodied flavor for which Admiration Coffee is famous. This blend, which was accepted wholeheartedly from its introduction, has not been changed since its popularity was first established.

Mr. Duncan follows through in the supervision. After selection and blending, comes the all-important process of roasting. Admiration Coffee has the advantage of being roasted by the most modern process known to the coffee industry—the Thermo-Roasting. By the use of this method, the coffee never comes in contact with charring flames. It is gently and uniformly roasted clear to the center of the bean by indirect heat. During this roasting, the all-important humidity is scientifically controlled.

When Admiration Coffee is roasted, it is cut—not ground—with razor-edged steel knives in three ways, one to suit every type of customer and coffee maker. Perk Kut is for percolators and pots. Dripkut for drip-coffee makers.

Admiration Coffee is the only coffee on the Southwestern market which has a cut specially prepared for glass coffee makers. Glassdrip Admiration is, in fact, recommended by the manufacturers of both Cory and Silex coffee makers and burners.

Vacuum-packed Admiration Coffee, in either the blue tin or the glass jar, affords a superlatively finer, richer coffee, guaranteed to give enjoyable and appetizing satisfaction. It is also packed in an economical, cellophane-sealed triplex bag.

The constantly-growing demand for Admiration Coffee in

far distant sections and in other states is only one proof of the delightful difference to be found in this superior coffee. Its reputation extends far beyond the boundaries of the Southwest. Its ready acceptance is a foregone conclusion wherever it has been introduced.

In further proof of the romance in the coffee's importing business, one has but to pay a visit to the Duncan Coffee Company's Houston plant. To see a great ocean steamer coming through the mists of a fall morning and to them visualize the origin of its coffee cargo and contemplate millions of cups of appetite-thrilling Admiration Coffee contained in this cargo is to get a mental glimpse of real romance.

### PLANS COMPLETED FOR TRAPPING DEER

The Game Department is putting touches on plans to trap deer in heavily populated ranges and move them to depleted areas, with the expectation that at least 1,000 of the animals will be redistributed this year.

With the aid of a new trap that holds only one deer at a time, the Department's field men last year trapped and distributed a total of 609 deer, most of which came from the densely populated Aransas Refuge.

Operations will be resumed this year on the Aransas Refuge, and in addition several hundred does will be trapped on the Carl Smith Ranch in Blanco County. A few other deer will be trapped in the Panhandle.

Additional traps have been secured. Last year the field men used 122 traps. Seventy-five additional traps are now being constructed and within a short time will be put into operation.

Trapping cannot start until the deer are out of the "velvet." This means that operations should start sometime in October.

The field force to man the traps has already been designated.

Plans for turkey trapping also are under way. The Department trapped and released in depleted ranges, total of 352 wild turkeys last year. Other wildlife releases included 75 racoons and about 75 beaver, the latter of which are numerous in some parts of the Hill country, but are on the downgrade in Eastern Texas. In each instance the animals were removed only after consent had been given by the landowner.

No quail were distributed to sportsmen this year. In other years it had been possible to purchase wild quail from Mexican importers, and up to 20,000 had been distributed on a cooperative basis. But now the Mexican government does not allow exporters to sell quail in the United States.

### COTTON SEED BRINGS \$60 A TON TO TEXAS FARMERS

For the first time in 20 years farmers are now receiving \$60 a ton for cotton seed, according to J. E. McDonald, State Commissioner of Agriculture. He advised farmers against holding the seed for higher price.

Livestock shipments in the Brady section have been active the past week with ranchmen in McCulloch and Mason counties delivering their calves. 35 carloads of calves moved out of Brady Wednesday and Thursday of last week.

### Milk Stars in Viet

### Mrs. Tucker Offers Cake Bake Contest

Championing crusade for better baking, Mrs. Tucker presents a Cake-Making Contest as one of the feature attractions of the Cooking School. Realizing the importance of cake mixing, this Dear Old Lady offers valuable prizes for cakes made with her creamier Shortening.

Two sets of bright and sturdy chrome steel cooking ware have been donated by Mrs. Tucker as the premiums, and those who see these shiny sets of ultra-modern kitchen equipment will certainly want to parade their cake-creating talents during the cooking tournament.

For the cake chosen by the judges as best in appearance, texture and taste, Mrs. Tucker will give as first prize a 5-piece set of Everdy Chrome Steel Cooking Ware, consisting of a Chicken Fryer, Skiddle, two different sizes of Skillets and a Dutch Oven. The maker of the second-best cake will receive a 3-piece set made up of Chicken Fryer, Skiddle and Skillet. You may enter any kind or as many cakes as you wish, but each cake must be made with Mrs. Tucker's Shortening, the pure vegetable Shortening for cakes as well as all cooking purposes.

The cooking school expert recommends Mrs. Tucker's especially for cakes because it is so creamy-smooth. She advises that this Shortening has been featured in over 250 cooking schools each year for several years and that the experienced demonstrators have found Mrs. Tucker's creaminess the most desired quality in a Shortening. These experts say that Mrs. Tucker's is multi-creamed at the factory so that it mixes

easily with other ingredients at any temperature. "Besides this ease of use," continue the famous cooks, "Mrs. Tucker's is most desirable for cakes because it is made exclusively from choice vegetable oil. There is no animal fat in this Shortening, which digests quickly and easily. Then, Mrs. Tucker's is packed in airtight 'Cellophane'-lined cartons and in 4-lb. airtight cans so that it keeps its sweet, pure factory-freshness. And, finally, Mrs. Tucker's Shortening goes farther for real economy."

Mrs. Tucker's is also fine for frying and all other Shortening purposes, according to these cooking school demonstrators who have tested it for every kind of use. They feature Mrs. Tucker's lack of moisture, its high-burning point, and the fact that it does not absorb odors or flavors of foods fried in it. These women say you can strain Mrs. Tucker's and use it over and over for economy.

Attend the school, and learn how Mrs. Tucker's creamy-smooth Shortening makes cake-baking easier and how this pure vegetable product makes more delicious foods that digest quicker. Enter the Mrs. Tucker's Cake Contest; try for one of the valuable prizes, and fill your home with more smiles of cooking and eating satisfaction.

### NAVIGATION AVIATION OFFICERS NEEDED

A War Department Radio of September 8th to Recruiting Offices throughout the nation calls attention to the fact that about 1,000 aviation cadets for non-pilot training are needed each month starting October for training as navigation officers of the Air Corps.

The examination is the same as for pilots, except—and this exception means much to hundreds of air-minded young men. For navigators will be accepted with minor faults of vision, provided they are corrected with glasses.

Applicants for this must meet general requirements for Aviation Cadets. They must be between ages of 20 and 26 inclusive, unmarried, of good character and physique and in excellent health.

The educational requirements are high. 1st Priority Classification is given to graduates of ac-

credited colleges who have received degrees in engineering. Second priority is to graduates of any approved college who have had a minimum of mathematics to include College Algebra and Trigonometry. Third priority to men having had two years of college, and having had the minimum of mathematics outlined above.

Men interested should contact their nearest recruiting office of the U. S. Army or write to District Recruiting Officer, Fort Bliss, Texas.

### "EYE APPEAL" AND PROFITS

Commercial salesmen estimate that 70 percent of all food products are sold because of their appeal to the eye. So Myrtle Murray, specialist in home industries for the Texas A. and M. College Extension Service, is urging farm women to make the home-raised or home-made products they sell "look good as well as good to taste."

Rural homemakers who increase family income by selling high quality products from the farm are now being urged to prepare for increasing their sales during the Thanksgiving and Christmas seasons. In most instances this is done by taking advanced orders for delicacies and by preparing extra supplies of non-perishable products.

Miss Murray points out that many busy people appreciate the opportunity of buying gifts wrapped and ready to address. Here are some of the "gifts from the soil" rural women of

Texas sell during the holidays: good country butter wrapped in gold cellophane; home-grown, home-cured ham; good country sausage; packages of jellies, pickles, and preserves; home-raised pecans in colorful cotton sacks; gallon buckets of sorghum syrup or honey; pot plants; cuttings and roots from choice shrubs; native shrubs, balled and burlapped, ready to "set-out"; heads made from acorns, colored corn kernels, or cantaloupe seed; home-made Christmas decorations and toys.

Doris Jane Henderson

Mr. and Mrs. Sam McCreary spent the day with Mr. and Mrs. Roy West Sunday. Dinner guests in the J. D. Henderson home Sunday were Mr. and Mrs. Raymond Teague and daughter of Camp Colorado, Mr. and Mrs. B. S. Elkins and children, Mrs. Lois Henderson and Robert Glen of Echo. Several from our community attended church at Camp Colorado Sunday. Zerme Johnson of Santa Anna spent Friday night in the Payne Henderson home. Mr. and Mrs. Leslie Tabor visited in Abilene Saturday. Mr. and Mrs. Clyde Seals and children and Mrs. P. P. Seals were dinner guests of Mr. and Mrs. Artie Irby Sunday.

Phillips Drug Co.'s New Store Front Pleasing

Something over fifty years ago, Dr. S. P. Mathews opened Santa Anna's first drug store in a small building in the Gap. Like most enterprises on the frontier, it was small, but Santa Anna was proud of its enterprise. With the coming of the railroad, Dr. Mathews moved the building and contents to the new town site, locating on the corner now occupied by the Santa Anna National Bank. At a later date the Doctor moved the drug store to a frame building about where the present Phillips Drug Store now stands. There were only frame buildings on that side of the street in those days. Later he sold the drug stock to Aldridge Brothers, who in turn sold to E. L. Leppington, uncle of Roy Stockard. In turn it passed from Leppington to Dr. Mathews, to Mathews & Phillips, then to Dr. Phillips, who had worked for, and learned the trade from Dr. Mathews. Following the death of Dr. Phillips, Mrs. Phillips sold the drug store to the present owners who have continued the name of "Phillips Drug Store."

Club work and urged the group to work toward winning many of the prizes offered them in their 4-H program. Plans were made for the club to attend the County Dairy Day Show, September 26. The following officers were chosen: president, Thomas Newman; vice president, Maurice Kingsbery; secretary, Robert Ray Dean.

4-H BOYS TO EXHIBIT PIGS AT WEST TEXAS FAIR

The 4-H club winners of the Cow-Hog-Hen Contest will enter their gifts at the West Texas Fair next week. Much interest is being shown in this contest and attractive prizes are being offered. Prizes for the 8 are: 1st contest prize, regular heifer; 2nd, 100 baby chicks; 3rd, 75 baby chicks; 4th to 8th, 50 baby chicks. Best group of 5 pigs from any of the 21 counties \$10. Hog calling contest, \$5.

TRICKHAM 4-H CLUB NEWS

The Trickham 4-H Club met Thursday, September 18, 1941. Officers elected were as follows: Vivian Tucker, President; Billie Joyce Cozart, vice president; Ruby Goodgoin, Secretary; Viola Downs, reporter; Lucille Wells, song leader; Olene Boatright, game leader; Miss Whitely, Club sponsor. All members were present. We plan to go to the Creek soon where we will cook our supper over a campfire.

Under the able direction of Miss Ruby Harper, aided and abetted by Miss Elsie Lee Harper, Buddy Weaver and Jim Riley, the establishment has paved the advancement of the town.

in official school colors and ready-gummed, there is a pennant for each Southwest Conference school, and the fans can take their choice. These are also free, while they last.

H. D. C. News

SANTA ANNA H. D. C. MATTRESS PROGRAM TO BE COMPLETED

Word was received here by members of the local Home Demonstration Club, from Miss Day, County H. D. C. Agent, that the mattress program sponsored by the County Home Demonstration Clubs, will be completed soon. The Santa Anna Club will receive enough cotton and other materials to complete their program for the year. The date for receiving the materials has not yet been set.

The Santa Anna Home Demonstration Club has postponed its October 3rd meeting to October 10th, when it will meet with Mrs. Seth Risinger. The program subject will be, "Leisure Time."

Members are urged to turn in suggestions for the year books to Miss Ellen Richards before October 4th.

CARD OF THANKS

We wish to express our sincere appreciation to our friends and neighbors for their thoughtful kindness and expressions of sympathy at the loss of our beloved husband and father. Mrs. J. T. Payne and Jo Mae

INTERESTING EXHIBITS FOR DAIRY DAY

Some very interesting exhibits are planned for "Dairy Day" to be held at Hillford Field, Coleman, Friday, September 26, according to Mrs. R. T. Ramsberger, H. D. C. Council Exhibits Chairman. Among the exhibits will be a ventilated pantry, from the Rockwood Club, with a year's supply of dairy products, milk, butter and cheese, using the Texas Food Standard as a guide. New Central Club will exhibit a frame garden, demonstrating ways of having fresh green vegetables the year round. Coleman Independent Club will exhibit a potato mound, demonstrating the preservation of foods grown for family use.

assisted by Rev. Neal of Wellington. Interment in Wellington cemetery.

John Thomas Payne was born in the Old Oklahoma Territory, September 21, 1895, the son of Mr. and Mrs. J. W. Payne. He spent most of his life at Wellington, where his mother still resides. He spent five years in Childress before coming to Santa Anna five years ago.

Payne was a long time member of the Presbyterian Church, and served as elder of the local church, the past four years. He married Miss Mattie L. McCraw, of Childress, Mich. 20, 1920 to which union one child, Jo Mae, was born.

Payne was for years active in the Frank Ring Post of the American Legion of Wellington of which he was a charter member and in the Masonic Lodge. He was secretary of the Santa Anna High School board for several years. Payne served in the 142nd Infy. Band, 36th Division and was overseas one year during the World War.

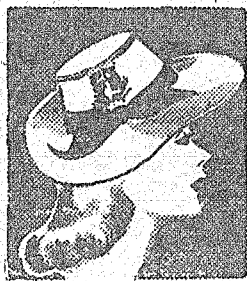

Survivors are his wife, and daughter, Jo Mae; his mother, Mrs. J. W. Payne of Wellington; one brother, Winfred Payne of Wellington; and four sisters, Mesdames H. E. Singley of Lubbock, Maude Jones of Eldorado, Ark., Ray Dobbs of Olton and Merle Cayton of Amarillo.

Pall bearers were, Luther Gribble, Ralph Royal, John Harper, Rolla Fisher, Elzie White and Clark Anderson. Flower ladies were, Mesdames Austin O'Neal, Charles Bishop, Elzie White, T. L. Reid and Jim Mohan, Meses Clarice Harper and Bess Royal.

Santa Anna folks attending the final rites were: Meses Elsie Lee and Ruby Harper, Mr. and Mrs. Roger Hunter, Mrs. T. L. Reid.

Hosch Funeral Home had charge of arrangements.
