Cooking School Big Success

The Happy Kitchen Cooking School, with its profitable and entertaining sessions, is over. Miss Jessie Hogue endeared herself to hundreds of women during the lectures and demonstrations from the kitchen of the Santa Anna News as she presented this modern, effective means to achieve a greater success in home making.

But Santa Anna women made a still greater impression on Miss Hogue. As she concluded the Happy Kitchen Cooking School sessions, she turned to us and said, "I've never had more attentive and intelligent audiences in my experience of holding these home making events." She remarked, "It is no wonder you have so many well functioning homes here. The women go so full heartedly into making this possible."

We thanked Miss Hogue for the tribute, but we realized, after the tremendous popularity of the Happy Kitchen Cooking School, that our women enjoyed to the fullest extent the efficiency of this outstanding home maker's event. Miss Hogue asked us to bid every woman a cordial goodbye and thank you. And, incidentally, she told us on the sly, "I'm hoping my next Happy Kitchen Cooking School will receive the same response as your Santa Anna women accorded me."

In the cake baking contest, 12 cakes were entered, the bakers being: Mesdames C. T. Conley, M. E. Cheaney, G. F. Barlett, Staff Baxter, John Will Vance, J. Norman Hosch, Mark Davis, John W. Taylor, Jim Lovelady, F. A. Rollins, T. J. McCaughn and Clyde Vance.

Winners were: First, Mrs. Jno. Will Vance; Second, Mrs. Staff Baxter; Third, Mrs. Jim Lovelady; Fourth, Mrs. Clyde Vance.

The eight cakes not winning were auctioned off by Rev. H. C. Bowman, the proceeds going to the local HDC.

The News extends thanks to the West Texas Utilities Co. and Coleman Gas & Oil Company for their appreciated co-operation, and to their assistants for courteous service in placing, servicing and removing the large Frigidaire and Mix Master and large two-oven gas range used in the cooking demonstrations. To Piggly Wiggly and the Hunter Bros. and Boggus & Co. Red & White Stores for their co-operation. To Cudney Furniture Co. of Coleman for tables. To the Coca-Cola Co. of Coleman for the cold drinks served the Saturday crowd. To Mr. Morgan, Coleman distributor Baby Ruth Candies, for his contribution. To Miss Ruby Harper of Phillips Drug Co. for a prize on Saturday. To the school board and Sup't. D. D. Byrnes for the use of the High School Auditorium, where the cooking school was held. To Central Food Products Company of Coleman for milk and butter used in the demonstrations and the butter given as prizes. To Craig's Bakery for bread for use and as gifts. To the representatives of Mrs. Tucker's, Duncan Coffee Co. and Coca-Cola Co. for personal attention to the interests they represented. To Miss Jessie Hogue for her highly appreciated lectures and demonstrations. To Miss Hayes and Miss Day for their services in judging the cake entries. To Rev. Bowman for his services in auctioning off the cakes.

FARMERS SHOULD PROTECT SOIL BUILD-FUND RIGHTS

Unless farmers of Coleman County take immediate steps to earn their maximum soil build-up assistance, they will lose this opportunity to use this money for improvement of the soil on their farms this year, G. E. Abbey chairman of the county AAA committee, has announced. Since the 1941 program ends Nov. 30, all practices must be completed by that date if payment is to be received under this year's program.

Last year, Coleman county farmers failed to earn \$2,000 of the soil-building assistance allowed under the AAA farm program, Mr. Abbey said, while farmers of Texas fell short of earning the maximum by two and one-half million dollars.

The big issue is not the amount of money earned, but the amount of soil-building practices farmers failed to use, Mr. Abbey pointed out.

Improving the fertility of the soil is all the more important now, the official said, since the demands of consumers in this country and the needs of nations resisting aggression require still greater food production in the interest of national defense.

Practices which still can be completed by the end of the contract year include planting winter legumes and applying phosphate, terracing, contour ridging, listing, chiseling and furrowing, non-crop pasture, and building earthen tanks and reservoirs.

These practices tend to preserve soil and moisture, prevent erosion and improve grass supply, Mr. Abbey said, in pointing out their soil-building merits.

THEATRE TICKETS ALL OVER the country went up in price on October 1st. Manager Tate of the Queen Theatre advised us recently that he would be forced to raise the price of adult tickets from 20 to 25 cents for the regular performances, and to 15c for Bargain Days, avoiding odd cent prices and taking care of the approximate 10 percent tax with the nickel increase on the adult tickets, leaving the price of children's (under 12) tickets unchanged.

Santa Anna and Winters Conf. Game Here Tonite

Tonight, on the local football field, the Santa Anna Mountaineers and the Winters team will play the final conference game to be played here. Santa Anna has several other games to be played in other towns, and unless we play a game with Bangs here, the season will be over as far as the local people are concerned, unless they follow the Mountaineers afield.

The Mountaineers will be clad in the new uniforms which the merchants of Santa Anna gave in approval of the work each boy had been doing in an effort to develop a good football team for town and school.

As a special feature, the boys are honoring their fathers, and each boy's father will be invited as his son's guest and will be with the boy and coaches.

The game will be called at eight o'clock.

The following letter was sent to the fathers of the boys on the Santa Anna team:

Dear Sir: The Santa Anna High School extends to you an invitation to attend the Santa Anna - Winters football game to be played at Santa Anna on the night of October 10, 1941. You will be the guest of your son and we request that you sit on the players' bench with the coach and players. This letter will admit you to the game.

Sincerely yours, Santa Anna High School Football Team.

The new tax on amusements that went into effect October 1, changes the price of admission to the game a little. Prices of admission now are: Adults 50c plus 5c tax, total 55c. High School 25c plus 3c tax, 28c. Grammar School, 10c, 1c tax, 11c.

SANTA ANNA'S TRANSFERRED TO END, OKLA.

Almost 100 Texans recent enlistees in the U. S. Army Air Corps, were transferred this week from the recruit detachment at the "West Point of the Air" Randolph Field, to squadrons scheduled to leave within the next 80 days for the new Air Corps field at Enid, Okla. The list of Texans included the following: Santa Annans: W. E. Mitchell, 473rd Squadron and Billy G. Turner, 60th Air Base Group.

A total of 235 soldiers was involved in the transfer. They will leave for their station when the new field is completed.

Greater part of the men sent to northern Oklahoma will be engaged directly in airplane maintenance work in connection with basic flight training for Aviation Cadets. Others will be clerks and special workers in air base squadrons.

Turn out for the game Friday night.

SANTA ANNA BEATS MOZELLE

The Mountaineers won their first conference game from Mozelle last Friday by the score of 6 to 0. The game was played on a muddy field and neither team could do very much. Mozelle threatened several times on passes, but was never able to push across a score. Turney made Santa Anna's lone touchdown late in the fourth quarter on a line plunge.

The Mountaineers meet the Winters Blizzards in their second conference game Friday night at Santa Anna.

Winters has a very good team and are rated heavy favorites over Santa Anna, but the Mountaineers will be in there fighting for their second Conference Victory.

It will be a good game and the Mountaineers will need plenty backing from their supporters.

Planning On Soldier Center

Monday afternoon representatives of the several civic and social organizations of the city met with representatives of the Recreation Department, W.P. at the Armory to discuss plans for a Soldier Center in the city. Miss Jean Irick, local Recreation head, and Miss Grace Wilhoit, County field manager, conducted the meeting.

Lynn May, who holds the lease on the Armory, offered the use of the building the entire month, except Friday nights for a very nominal sum. After a thorough discussion of the matter, it was decided to accept Mr. May's offer and establish a library for the soldiers in town, supply recreations and amusements and provide properly supervised entertainment.

The Recreation Department of the WPA will use the building at certain hours, arrangements being made to avoid conflict of time as much as possible.

Request is made that all who have magazines that they are willing to part with to leave them at the Armory. After the reading material has served its purpose there, the Boy Scouts will collect the old material as new is brought in.

LAST MONTH TO PAY TAXES WITHOUT PENALTY

October is the last month that delinquent taxes can be paid without penalty or interest, announces County Tax Assessor-Collector H. M. Brown.

November 1 is the deadline. After that the old penalty and interest rate will be in effect and on some accounts these items amount to as much as 46 per cent.

To date about \$8,403 in old taxes have been paid. However, the majority of the delinquents are expected to settle up this month. Only the six per cent on the 1940 taxes has to be paid. All taxes prior to that are penalty and interest free.

County Judge J. O. Harris announces that he is of the opinion that the commissioners court will force collections after November 1, in order to clear up the county books. He urges that everyone take advantage of this generous offer to pay their back taxes.

Editorial

"It is regrettable that the strike at the Federal Shipbuilding and Dry Dock Company at Kearney, N. J., should have ended in government seizure of the plant. Imperative as it was to get the plant going again, this particular method in this case could have been averted. The President, no doubt, could hardly have repudiated the recommendations of Administration's own National Defense Mediation Board. He therefore places the responsibility for the seizure of the plant on the company for refusing to accept the recommendations. It may be argued, indeed, that it is the duty of both workers and employers to accept the decisions of the board, even when they feel those decisions to be not altogether just. But this assumes impartiality on the part of the board and a determination not to allow either side to exploit the existing national danger to its own advantage. Unfortunately the decisions of the board have revealed a steady tendency in one direction—to buy off the strikes by accepting the major demands of the strikers. . . . The board has also recommended in crucial cases the disruption of long-standing arrangements which should have been maintained during the emergency. It has refused to follow the wise example of the National War Labor Board of 1917, which adopted a statement of principles for the guidance of itself of industry and of the workers. One of these principles provided for the only fair and sensible course when it froze existing closed or open shop arrangements in any plant for the period of the war. But in the Federal Shipbuilding case (as in some previous cases) the present board attempted to impose a limited closed or union shop where one had not previously existed. It recommended that any employee who is a member of the union, or hereafter becomes one, must maintain his membership in good standing or be discharged. It is this recommendation alone that the company rejected. There is a serious implication of the government's seizure of the Federal Shipbuilding plant which cannot be overlooked. That seizure can only strengthen the suspicion that the recommendations of the National Defense Mediation Board have become a compulsory arbitration—a one-sided form, however, which bears against the employer alone. By not accepting the recommendations of the board for the settlement of the strike the company loses its plant. But no equivalent punishment has been meted out to any union which has refused to abide by or even to wait for the board's decision. John L. Lewis successfully defied the labor board even though it handed down a recommendation enormously in his favor, and had not only supported an increase of \$1.00 a day in wages in the Northern bituminous mines, but one of \$1.40 in those of the Southern mines, to wipe out a long-standing differential. Mr. Lewis insisted on clauses—which the board recommended should be omitted—and he got them. In the case of the North American Aviation strike, the government "crack-down" was not against the union which defied the board. The company's plant was seized, and the union was well rewarded for its strike by a recommendation by the board under which the company was asked to pay record-high wages for the aviation industry on the West Coast, and to grant the rebellious union a clause under which workers, as a condition of continued employment, must "join up." What must be the eventual outcome of a system of one-sided compulsory arbitration of this sort, in which the government "cracks-down" on one side for rejecting its recommendations, but in effect rewards the other side for doing so? The above editorial is from The New York Times, expresses our views better than we could state them. What the Times wants to know, is how long will Americans stand for a labor bureau forcing freemen to join a union in order to live? Well, at the rate they are going, it will not be long until Lewis will be able to put recalcitrant freemen in concentration camps, or Herrinize them like his men did the strip miners of Illinois. Then Congress would wake up, we hope we hope!

Why One Boy Left the Farm

I left my dad, his farm, his plow
 Because my calf became his cow;
 I left my dad, 'twas wrong of course,
 Because my colt became his horse.
 I left my dad to sow and reap
 Because my lamb became his sheep.
 I dropped my hoe and struck my fork
 Because my pig became his pork.
 The garden truck I made to grow
 Was his to sell and mine to hoe.

Why Another One Didn't

With dad and me it's half and half—
 The cow I own was once his calf;
 No town for mine, I will not bolt
 Because my horse was once his colt;
 I'm going to stick right where I am
 Because my sheep was once his lamb;
 I'll stay with dad—he gets my vote
 Because my hog was once his shoot;
 It's fifty-fifty with dad and me,
 A profit sharing company.

ROYAL JELLY RICH SOURCE OF PANTOTHENIC ACID

Two A. and M. College scientists have discovered that royal jelly, found in every bee hive, and supplying super-nourishment for the production of the queen bees is the richest known source of pantothenic acid being 2 1/2 to 6 times as rich in this sense of this vitamin in unusual amounts may be a factor responsible for the development into queens of the female larvae which continue to receive royal jelly.

SURVEY RESULTS ON FROZEN FOOD LOCKERS

Farm families living in areas served by frozen food locker plants can make increased use of them both to their own and to the advantage of the defense program, according to C. E. Bowles, organization and cooperative marketing specialist of A&M College.

A survey shows that on January 1 there were about 3,200 plants in the United States with a capacity for 1,050,000 lockers. More than 75 percent are located in towns of less than 5,000 population and about 71 percent

MAY GROW CORK IN TEXAS

Texas may be chosen as the proving ground to test the feasibility of growing cork oak in the United States.

According to information, the U. S. Department of Agriculture Forest Service is planning a small experiment program during the coming year on the planting and cultivation of the species, provided the necessary supply of acorns can be obtained.

It is said that the climate of parts of Texas is very similar to that of the mountainous portions of Spain, Portugal and north Africa, the natural habitat of the cork oak. The bark is the portion of the tree processed for commercial cork product.

Although no cork producing trees grow in Texas now, G. W. Simmons, farm forester of the A&M College Extension Service, says that in view of the similar-

MOUNTAINEER

EDITORIAL

When the Santa Anna Mountaineers meet those Winters' Blizzards, Friday night, there will be only a few who will recognize them as the same Mountaineers who defeated the Mo-welle Mustangs last Friday. They will be wearing their new suits for the first time. The team and the whole student body wishes to express their sincere thanks to the business men and women of Santa Anna for providing the funds for the new suits.

The team, especially, wishes to invite every business man and woman to attend the game Friday night. They realize that it is going to be a long and tough fight, but the more supporters they have the harder they will tumble those Blizzards around.

The whole school wants to see every seat in that Santa Anna stadium filled. When one of those Mountaineers blocks a Blizzard they want a shout to go up that will drown out any of Hitler's cannon-fire.

Don't let the pep-squad do all the yelling. Join in with them, folks! On Saturday morning, after a football game everyone gets a big laugh when one of the pep squad tries to talk (it's only a little squeek). This is one way you can patronize the business of Santa Anna. Get out here and yell Friday night, so

FIRE PREVENTION WEEK

Students! Did you know that it is National Fire Prevention Week? Fire is so necessary in our daily lives that we hardly realize how much we depend on it. Without fire the great industries we have today would be unknown. As a distinctive factor, fire represents a different picture. Fire, when uncontrolled, takes lives and property which are unreplaceable. Surely when under control, fire is our friend and we should use it wisely. Will you do your part to help reduce fire loss?

JUNIOR CLASS NEWS

The Junior Class met October 6 and elected some chairman and two candidates for F. F. A. sweetheart.

Maxine Williams was elected chairman of the Hallow'een Carnival booths.

We elected Fredna Watkins as assistant editor.

The two F. F. A. sweethearts elected were: Wilma Jo Spencer and Ruth Morris.

FIRE OFFICERS ELECTED

Last Friday in chapel the student body elected fire officers to serve this year. J. K. McClain, fire chief and Rex Turney, assistant fire chief were elected. The school has two fire drills each month. The inspector considers three points in grading a drill: (1) recognition of alarm; (2) orderly clearance of building; (3) assembly of pupils in safety zone.

Santa Anna to Play Winters

Friday night, October 11, the Santa Anna Mountaineers will meet those Winters Blizzards for their first and last conference game to be played here.

The Blizzards are known to be pretty cold, but they aren't so cold that they can't make their opponents work up some sweat fighting them, but the Mountaineers are plenty rough too, so if you like excitement, come to the Santa Anna-Winters game. Everyone come and boost the Mountaineers and let them know that you are behind them one hundred per cent!

Football Boys Receive Their New Uniforms

The football boys will enter the game Friday night, October 11, 1941 with new uniforms, donated to them by the Chamber of Commerce.

They will play Winters. This game will be the last chance to see the boys play a conference game at home. It is also the last home game.

The uniforms will not be described because we want everybody to come and see those boys down those "Blizzards."

Miss Hays Serves As Judge At Buffalo School

Last Friday night there was a fair held at the Buffalo School, in which Miss Agnes Hays, of Santa Anna High School, served as judge.

Some of the exhibits were: canned goods, croquet, embroidery, quilt tops, silk quilts, pieced quilts, children's clothes knitting, pictures, embroidered pictures, oil paint pictures, baked products, antiques, grain and art, all were very pretty and attractive.

SAHS Has First Fire Drill

The first fire drill of the year was held Tuesday morning at the beginning of the first period. The students got out of the building in one minute and twenty seconds. Their aim is to vacate the building in one minute, closing all windows and doors. Let's have less talking and more speed!

Pledge of Carefulness: "Realizing my responsibility as an American citizen to help reduce this needless waste of both lives and property, and,

"Realizing that most fires are the result of carelessness and ignorance,

"I pledge myself to practice carefulness in its every form and to inform others of the dangers which arise from many common practices."

Freshman Class

The house was called to order by J. D. Dunn, president. We elected two girls, Joyce Richards and Doris Jane Henderson, for the Freshmen, candidates as F. F. A. Sweetheart.

A committee was appointed to select the class song, flower, color and motto. They were Elizabeth Eeds, Mildred Yancy and LaVerne Bishop. We also decided to have a class party at Elizabeth Ann Stewardson's home.

Hello, again, Peep and Squeek your gossip reporters, reporting.

Just a reminder, the stir-up box in the library has been very empty. In fact, too empty, so if you have any news just drop around. Let's see how fast it can fill up.

Allene, why keep the boy friends in the dark?

Oma Dean, Richard seems to have a flare for another blonde. It's time you were doing something about that! No?

Jean Heimer seems to be up in the clouds about a certain Billy Sewell from Coleman.

We hear about our last weeks mistake. Instead of Opal Mae, June Newman is Geronimo's Pocahantas. So sorry.

We see Bobby Jo has his class ring back. Was it too large Ginger?

Fredna, has come to the conclusion that H. K. is her man.

Marie Newman again has a sunny smile on her face. Could it be "Andy"? We think so.

Lucille Newman and Clay Henderson are doing "alright" and we do mean, "alright" What about J. P., Lucy?

Doris Goodjoin, thinks Leary Casey is SO handsome, here's your chance, Leary.

Wayne Haynes seems to be very interested in Mary Frances Rutherford, but we wonder if she isn't still thinking of that Coleman boy? His name is L. D.

Floyd why don't you loosen up and become interested in someone else? After all Becky may be having too good a time to think of you!

Billy McCormick is interested in some certain Bernice. We wonder who it is!

Why does Allie Cille keep yelling for No. 29 and then walk off the field with him? It couldn't be Doyle, could it Allie?

Who is Willie, Doris Marie talks about so much?
