SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY, NOVEMBER 13, 1942

NUMBER 46

Sharing Meat Is Democratic

College Station, Nov. 12.—The government's share-the-meat campaign, a voluntary program for consumers, aims at a fair division of available supplies among those who need them, until a system of card rationing can be set up to achieve the same purpose arbitrarily. Meat rationing is not expected until early 1943.

The two-and-one-half pounds of beef, lamb and pork allowed per adult per week is sufficient for an adequate diet, provided other necessary foods are included, says Hazel Phipps, specialist in food preparation for the A. and M. College Extension Service.

"But, if you are terribly fond of meat flavor and miss it for that reason more than any other, spread the flavor of meat by mixing it with other foods," Miss Phipps says.

The specialist explains that cereal foods such as bread in stuffings, hominy, rice, and macaroni are good "meat extenders." Vegetables can extend the flavor of meat in stews, soups, chowders and pot roasts. With meat rationing many homemakers will learn to become more thrifty with leftovers. They will need to save all left-over meat, gravy, or drippings and make broth of the bones. Left-over cooked meat can be sliced and served cold or in a salad. Or, Miss Phipps says, it can be combined with other foods in appetizing hot dishes such as browned hash, meat pie, stuffed peppers, croquettes, and chop suey.

It will also pay housewives to make greater use of kidney, brains, heart, and other variety meats which are not included in the "sharing allowance." Like other more familiar meats, these are good protein foods and are an especially rich source of iron and the B vitamins, Miss Phipps says.

The Food Outlook

College Station, Nov. 12.—What farm families can produce for themselves will largely determine what kind of diets they will have in 1943, Louise Bryant, specialist in home management, recently told the headquarters staff of the A. and M. College Extension Service on her return from the Annual Outlook Conference in Washington, D. C.

The outlook conference is sponsored annually by the U. S. Department of Agriculture to give research and educational workers a preview of "what's ahead" for agriculture and home economics.

Shortage of containers, labor and transportation mean consumers will use more fresh fruits and vegetables next year, the specialist added. The armed services and lend lease beneficiaries will get the bulk of the country's fruit and vegetable pack plus a large portion of commercially dehydrated fruits and vegetables, she explained. The supply of frozen foods available to civilians also will be limited, although ice cream factories and fur storage houses likely will be converted to sharp freeze and storage plants.

"We're going to buy foods in bulk, too," Miss Bryant reported. For instance, since no canned soups will be available, homemakers will either prepare their own or "buy it at the nearest grocery store and take it home in their own glass jars."

Miss Bryant added that rationing will affect the higher income groups more than the lower. She predicted establishment of a point system of rationing which would allow purchases according to food groups, such as proteins, for example. Marked increases in food costs are not possible, the specialist said, since 90 per cent of the nation's food prices already are under control.

SOLDIERS HOME ON BRIEF LEAVE

At home in Santa Anna this week on brief leave from their army camp in Massachusetts were Maj. Carl Wallace, Carson Horner, a son of Mr. and Mrs. Jeff Horner, and Wendell Rowe, son of Mr. and Mrs. Pierre Rowe.

Mrs. Bruce Attends State Convention Of Womens Clubs

Mrs. C. D. Bruce was in Austin Tuesday, Wednesday and Thursday of this week attending the State Convention of Womens Clubs. She was installed as president of the Sixth District of Federated Clubs.

Wednesday afternoon she was one of the hostesses at a tea at the Governor's mansion. Installation of officers was made Thursday morning followed by a coffee in honor of the new officers.

The Santa Anna Self Culture Club has been a Federated Club since 1907 and as a pioneer club has a great deal of prestige in the state. Mrs. Bruce became a member of this club in 1934. She has served as vice president of the Sixth District and has had State Chairmanship of the department of American Home for the past two years.

Mrs. L. E. Dudley of Abilene goes in first vice president and Mrs. Bruce has chosen Mrs. Mark Calloway of Brownwood as her secretary.

Mrs. R. C. Gay and Mrs. J. R. Banister also attended the convention.

Mr. and Mrs. Bruce own a ranch north of Brownwood but will live here on their stock farm for the duration of the war.

Rations For Dairy Cows

COLLAGE STATION, NOV.—There is no "best" ration for dairy cows, according to G. G. Gibson, assistant dairyman for the A. and M. College Extension Service.

Every dairyman who is feeding his cows properly, Gibson explains, uses a grain mixture which is suitable to the roughage on hand. For example, sudan pasture which might run 15 per cent protein would require a different grain mixture from sudan grass hay containing only about one half the protein content. The simplest method to determine the proper grain mixture for feeding along with any roughage, or combination of roughages, is to find the protein content of the roughage and add it to the protein content in the grain mixture. The total should be 27.

Considering the point whether a variety of feeds is needed in grain mixtures, Gibson refers to an Experiment Station test in feeding a grain mixture in comparison to a complex one. The former contained ground shelled corn, soybean oil meal and some minerals, and the latter six different feeds plus the minerals. Thirty days feeding of the two groups resulted in practically no difference in production.

One of the best production records in Texas is being made by a herd receiving a mixture of 400 pounds ground ear corn, 300 pounds oats, 200 pounds cottonseed meal, 400 pounds wheat bran, 100 pounds soybean meal. It costs \$1.94 a hundred and contains 19 per cent protein. It is suitable for feeding along with a roughage containing eight per cent crude protein.

"It looks as though more soybean meal is being fed in Texas than ever before," Gibson observes. "It is a good protein supplement and can be used to build up the protein content of the ration."

ARMY AIR STUDENT VISITS IN SANTA ANNA

Noble McSwain, 18, son of Mr. and Mrs. Bill McSwain of San Angelo, is spending this week in Santa Anna with his cousin Ray at the B. A. McSwain home. He has just graduated from the primary flying school at McCamey and is awaiting a call to a finishing flying school. He will get his wings after graduating at the finishing school.

Noble volunteered for the air service of the Army some three or four months ago. He is a graduate of Eldorado High School.

Mrs. Jimmie Knight of Lubbock is visiting her parents, Mr. and Mrs. D. W. Nickens.

Mrs. Annie Reaves of Killeen is visiting her parents, Mr. and Mrs. D. W. Nickens.

POULTRY SHOW OPENS HERE TODAY

Second Annual Coleman County Poultry and Turkey Show, Santa Anna, Nov. 13-14.

Program

November 13

8:00 A. M.—Entering Exhibits Begins.

2:00 P. M.—Judging of Exhibits. Awarding Ribbons.

Entries must not be removed until after 4:00 o'clock Saturday afternoon.

November 14

Poultry Management H. H. Weatherby

Sanitation and Diseases — How to Control Dr. Boney

Selecting of Turkey Breeding Stock Geo. McCarthy

Turkey Tom Classification

Educational Exhibits arranged by 4-H Club girls, 4-H Club boys, Home Making Department of High School, Vocational Agriculture Class and Home Demonstration Clubs from over the county.

R. B. Thomas, Vocational Agriculture teacher, is superintendent of the show and the Agriculture class will assist.

Achievements Of 4-H Club Girls

Two hundred 4-H Club girls of Coleman County in 1941 and 1942 assisted their families in producing food, feed, and fiber to help win the war. The foods grown were fruits, vegetables and poultry. The girls learned to prepare poultry and serve green and yellow vegetables in a salad, and serve fruits to their families.

The girls kept personality scrapbooks, made inventory of their clothing, and made a school wardrobe. They kept healthy by caring for their hands and nails, and kept their complexions glowing and eyes bright by eating by the Texas Food Standard. They are building to be strong healthy Americans. They made two articles to assist toward good grooming—hat racks, shoe racks, dressing tables, etc. They learned to make a simple garment for themselves or some member of their families.

Their Achievement Goals have been checked and every girl that reached ten of the twelve goals set for them by the 4-H Club Committee will be awarded a 4-H Club Achievement Pin. Eighty-five 4-H Club girls will be awarded Achievement Pins by the Chairman of the 4-H Club Sponsors, Mrs. Leonard Morris, on Saturday afternoon, November 14, at Santa Anna, in the lecture room of the Poultry Show. This is according to a report by Miss Jewell Hipp, County Home Demonstration Agent.

The girls who will receive the Achievement Pins are: Bowen Club: Betty Muriel Stagg, Linna Ware, Joan Harris, Bettie Sue Ware, Joy Jarrell, Margie Nell Thompson. Brown Ranch: Inogene Dalton. Burkett: Corene Hoover, Virginia Carville, Lavada Fay Edgington. Cross Roads: Dorothy Seals, Bonnie Jean Odum, Doris Beeler, Betty Lobstein, Bessie Pearl Sanders, Ora Faye Elkins, Wanda Lou Woodard, Elsie Parsons. Glen Cove: Jesse Charles Bradley. Gouldsk: Helen Myers, Louella Boyd, Peggy Joyce Smith, Patsy Cavanaugh, Doris

Myers, Pattie Joe Howard, Betty Terry, Joan Bouchillon, Theola Myers, Neida Myers, Joyce Ritchie, Alma Bowen, Bettye Monsey. Junction: Laverne Smith, Wanda Price, Evelyn Odum, Ruby Steffy, Lavada Baucum, Bobby Baucum, Louise Luce, Margaret Van Dyke, Patsy Faris. Leaday: Sue Wilson, Frances Moseley, Roianna Acrey, Lucille Calder, Donna Pyburn, Mildren Jamison, Erma Walden, Wanda Allen, Annette Stephenson. Loss Creek: Bonnie Bea Miller, Mary Rose Miller, Wilma McDonald, Billie Joyce Cherry, Ineta Cherry. Rockwood: Edna Sparks, Fredaline Sparks, Artie Jean King, Greta Underwood, Jo Evelyn French, Neva Wise, Nita Wise, Johnnie Ethel Steward. Santa Anna: Wanda Price, Betty Sue Hair. Shield: Vada Sue Milligan, Iris Virginia Lewellen, Theola Mae Stewardson. Silver Valley: Lucille Bates, Jaylea Burroughs, Martha Gipsion, Dorothy Coots, Kathryn Jackson, Gay Campbell, Hazel King, Mary Bates, Patsy Landers, Margie Deen Smith, Oma Faye Dalton. Valera: Joyce Titsworth, Louise Sparks. Voss: Eileen Pate, Virginia Pate, Carolyn Turner, Velma Jo Bryson.

THOMAS NEWMAN WINS 4-H CLUB AWARD

For his all around achievements and leadership, the Danforth Foundation is awarding Thomas Newman a book entitled "I Dare You." This award is based on mental, social, religious, and other achievements as a Club member.

Thomas is now feeding sheep and calves. He is a winner in the Sears Contest. He is continuing his work as a Club member, and making a large contribution to the war program. Besides his 4-H Club work he is an active member of the Santa Anna FFA Club.

Sam H. Collier, local realtor, returned Monday from a business visit to San Antonio.

Miss Kathryn Baxter of the Waco school faculty, has been at home in Santa Anna this week with her sisters.

War Advisory Committee Summarizes Important Developments of the Week

WAAC Officer To Be In Brownwood

Many women who are qualified and interested in serving in the Women's Army Auxiliary Corps fail to do so because they lack sufficient information concerning the duties, qualifications, pay, and benefits derived from this noncombatant organization.

For the benefit of those desiring information concerning the WAAC, the city of Brownwood will have as a guest a WAAC officer on November 17 who will supply any and all desired information.

If you have any questions concerning this organization or desire enlistment thereto, Sgt. Hess, local recruiting officer stationed at the Memorial Hall will be glad to help you contact this WAAC officer.

Kieffer Pears Are Suitable For Drying

Kieffer pears are suitable for drying, according to Jewell Hipp, County H. Dem. Agent, in cooperation with the A. & M. Extension Service.

Miss Hipp says if you're going to dry them, finish ripening them off the tree for at least 10 days to two weeks. While they ripen, keep them in a cool, dark, well-ventilated place. When the pears are ripe remove the stem and leave or quarter them. The smaller the piece the more quickly it dries. The more quickly it dries, the more food value, flavor, and texture are conserved. Then remove the core and woody tissue in the center of the pear.

The next step is to sulphur the fruit. This helps to preserve the fruit over a longer period helps prevent darkening and loss of Vitamin C, keeps insects away, and speeds up the drying process. Here is how to sulphur the fruit. Do it out of doors.

Place one teaspoon of sulphur per pound of prepared fruit in a small piece of paper, roll it loosely, and twist the ends. Then place it in a pan. Place the pan below the tray or trays of cut fruit, so they will not come in contact with burning sulphur. Light the paper. Then quickly place a tight box or barrel over the trays and the pan. The covering should be tight enough to prevent loss of fumes. Sulphur the pears for three hours.

A home-made stove drier is best for dehydrating pears, since the temperature can be controlled. The process should be started at 130 degrees F. and finished at 175 degrees F. Miss Hipp says. Pears should be dried until they are rubbery or elastic, but not sticky. They should not be hard and brittle. Twenty-five pounds of fresh pears will yield from 3 1/2 to six pounds of dried fruit.

REV. MULLER SPEAKS TO LIONS TUESDAY

Rev. J. J. Muller, Presbyterian pastor of Coleman, was the main speaker for the occasion at the Lions Club weekly luncheon Tuesday. Rev. Muller was the guest of Lion M.L. Womack. After the luncheon \$125 worth of War Bonds were sold at auction.

LONG PASSENGER TRAIN

Probably the longest passenger train to pass this way in some time steamed slowly through Santa Anna Armistice Day. If the observer counted correctly there were 16 passenger and baggage cars; but there were few if any passengers.

The train had evidently been some where on a war mission or was going some where on a war mission. The reporter knew better than to ask the railroad folks for any information, as anything you don't know about transportation in these war-times is a military secret and knowing military secrets is unhealthy and unwise.

"A WEEK OF THE WAR"

"A powerful American force equipped with adequate weapons of modern warfare and under American command, is today landing on the Mediterranean and Atlantic Coasts of the French Colonies in Africa." President Roosevelt said in a statement issued by the White House late November 7. This action "provides an effective second-front assistance to our heroic allies in Russia."

The U. S. Force split into three parts and struck at Algiers, near Oran on the Mediterranean coast of Algeria, and on the Atlantic coast North and South of Casablanca. The War Department stated late November 8 that the offensive was advancing rapidly everywhere along 1,600 miles of coast against light French resistance. Algiers capitulated within 24 hours. The Vichy Government broke off diplomatic relations, but Secretary of State Hull said the main purpose of the Vichy policy of this government during the past two years was simply to pave the way for the military drive into the Western Mediterranean.

"The landing of this American army is being assisted by the British Navy and air forces and it will, in the immediate future, be reinforced by a considerable number of divisions of the British Army," the President stated. "This combined allied force . . . in conjunction with the British campaign in Egypt is designed to prevent an occupation by the Axis armies of any part of Northern or Western Africa, and to deny the aggressor nations in a starting point from which to launch an attack against the Atlantic coast of the Americans."

"The French government and the French people have been informed of the purpose of this expedition, and have been assured that the allies seek no territory and have no intention of interfering with the friendly French authorities in Africa," the President's statement said. "This expedition will develop into a major effort by the Allied Nations and there is every expectation that it will be successful in repelling the planned German and Italian invasion of Africa and prove the first historic step to the liberation and restoration of France."

The President told the French "Continued on page eight"

Army Airmen Win Wings

HDQS. GULF COAST TRAINING CENTER, Nov. 10 (Tuesday) An undisclosed number of fighter and bomber pilots today are being awarded the silver wings of full fledged army airmen at seven schools in the Gulf Coast Army Air Forces Training Center, headquarters at Randolph Field.

"Another group of the finest air fighters in the world," commented Major General H. R. Harmon, training center commander, on graduation eve.

New pilots from the Santa Anna area include: J. T. Garrett, son of Mrs. Kate Garrett. One of the members of the current class is Richard S. Whitelaw, of Saugus, California. He was with the Marines at Pearl Harbor on December 7. Today, less than a year later, he is ready to avenge the aerial thrust at the island outpost.

Fighter pilots, many of whom will soon be participating in the mounting aerial offensive over Europe, win their wings at three advanced fighter pilot schools — Foster Field, Texas; Moore Field, Texas, and Lake Charles, La. Twin motor pilots, trained to strike at enemy munitions factories and supply lanes will be graduated from four bomber pilot schools — Kelly Field, Brooks Field, Ellington Field and the Lubbock Flying School, all in Texas.

SANTA ANNA'S SECOND ANNUAL COUNTY-WIDE POULTRY SHOW OPENS HERE FRIDAY.

Friday and Saturday, November 13-14, Santa Anna will be the scene of the Second Annual Coleman County Poultry and Turkey Show. R. B. Thomas, Teacher of Vocational Agriculture will be in charge of the show, and his class of V. A. boys will be his assistants.

D. D. Steel, County Agricultural Agent, and Miss Jewell Hipp, County Home Demonstration Agent, and the Extension service department of the A and M College, are all cooperating, and the Home Making class of the Santa Anna High School, joined by several H. D. Clubs from over the county will arrange educational booths for the benefit of the large number of visitors expected to attend.

Friday morning all birds will be received and placed for the show, and all exhibits will be arranged. Friday afternoon the judging will be done and ribbons awarded. All entries will be required to remain at the show until four p. m. Saturday.

The program for Saturday will be very interesting to people desiring information about how to manage and improve their flocks. Poultry management will be discussed by H. H. Weatherby, Sanitation and Diseases will be discussed and explained by Dr. Boney. Selecting of Turkey Breeding Stock and Turkey Tom classification will be done by George McCarthy. All three are from College Station, and are specialists in their line.

The 4-H Club boys and Club girls will have educational exhibits, which go to make up an interesting program for two days.

The purpose of the show is to instruct, enlighten and be of general benefit to the people of this territory desiring to raise poultry and turkeys and desire more profits from their labors. Every one interested in the raising or handling of poultry or turkeys should take advantage of the opportunities offered by this show. What you get out of the show depends largely upon the time and interest you put in it during the two day event.

The show is not a commercial event, but one intended to be of real service to the public. It is being put on at great sacrifice and effort by those doing the work of advertising, assembling, looking after and caring for the exhibits, but it is done as a goodwill service for the general benefit of the people who are interested in the poultry or turkeys on a large or small scale. It will pay you to attend this show. It is arranged for your benefit and educational enlightenment. Come to the show take plenty of time, attend the lectures and get all you can out of it for it is intended for your benefit.

Gas Rationing Is Postponed For One Week

According to a telegram from Mark McGee of Fort Worth, State OPA Director, to the Coleman County School Board Tuesday, gas rationing has been definitely postponed for one week. Therefore registration for gasoline rationing will begin next Friday, November 20 and continue Saturday, according to Supt. D. D. Byrne of the local high school.

300 OLD TIRES SWELLS RUBBER TIRES HERE

Santa Fe Agent Nickens said railroad business is fine, when a News reported called yesterday. There has also been some good news in the rubber scrap line, the agent said, more than 300 old automobile tires having been turned in to the local express office recently.

"Ticket sales, freight and all kinds of railroad business is good," said Agent Nickens. "And," he added "Mighty darn good."

Sam Everett left Wednesday morning for Shreveport, La. where his daughter is seriously ill.

Order In Which Men Supposed To Be Drafted Given

The Army's need for men has reached the point where continued deferment of physically fit men will be based increasingly on essential usefulness in civilian life, Selective Service officials said today.

Married men who have children remain at the bottom of the draft lists regardless of the nature of their jobs, but those with wives only are being rapidly re-classified on an occupational basis and many of them soon will be called.

This reclassification is based on a list of 34 essential industries issued in July. Selective Service headquarters has urged local boards to speed the reclassification because pools of single men are virtually exhausted.

34 Essential Industries

Married men who have any job in one of the 34 essential industries are being reclassified as 3-B. This signifies deferment for both dependency and occupational reasons.

Married men who do not work in these industries remain in Class 3-A, deferred for dependency only. And calls for induction of these men are expected to begin in November.

The draft of 3-A men will be interrupted to take in the expected class of 18 and 19-year-olds, but it will be resumed in the late winter or early spring. The complete order in which

registrants are subject to call is as follows:

1. Single men with no dependents; Class 1-A. This class is virtually exhausted.

2. Single men in non-essential industries, but who have dependents; Class 3-A. Largely exhausted.

3. Single men, with dependents, in essential industries; Class 3-B. (Each man's case subject to review; registrants found to be key men in essential activities continue temporarily deferred while the call moves on to the next class).

In Lower Brackets

4. Married men in non-essential industries who maintain a bona-fide family relationship with a wife only, Class 3-A.

5. Married men in essential industries who maintain a bona-fide family relationship with a wife only, Class 3-B. (Subject to review individually when liable to call, and key men sorted out for temporary deferment).

6. Married men in non-essential industries who maintain a bona-fide family relationship with a wife and children or children only, Class 3-A, but not to be called unless 3-B men are exhausted.

7. Married men in essential industries who maintain a bona-fide family relation with wife and children or children only, Class 3-B.

A really great people, would face all the disasters of war rather than purchase that base prosperity which is bought at the price of national honor." — Theodore Roosevelt.

Ev'rybody Ev'ry Pay Day

6,000,000 Women Enrolled in War Savings Payroll Plan.

WASHINGTON, D. C.—Women At War Week, opening Nov. 22, during which women will seek to sell the greatest single week's volume of War Bonds and Stamps will serve to put the spotlight on the mighty contribution women generally are making toward financing the war.

Six million women are on War Savings payroll plans. Their monthly deductions total \$70,000,000.

The customers of 300,000 newspaper boys who have sold more than \$50,000,000 in War Bonds and Stamps are mostly women.

Volunteer saleswomen run nearly all the Bond booths in theatres from Maine to California. They also are sparking the War Bond sales in retail stores.

Ralph G. Longman, Associate Field Director of the payroll savings section of the War Savings Staff, readily admits that without the support of women the phenomenal record of payroll savings enrollments would not have been achieved.

Payroll savings plans are now in operation in 11,000 businesses and factories. Employees of twenty-five percent of these firms are contributing at least 10 percent of gross payrolls into War Bonds every payday.

Associates Field Director of Payroll Savings Staff, Longman has contributed directly and indirectly toward this record. When a man devoted 10 or more percent of his pay envelope to War Bonds, the woman at home has had a powerful voice in the decision. Her shopping, her economies and her cheerfulness play their part in the success of payroll savings.

The Treasury Department is counting on a 30 per cent increase in its revenue this year. It is expected that 10 percent of the war the Treasury hopes to enroll at least 3,000,000 women workers in a payroll savings plan

'This Is My Fight Too'

Proud of her investment in the American way of life and equally proud of the crime of war production on her face and arms, the young lady in this "Women At War Week" poster symbolizes two of the chief activities of women at war.

Securing Quality Chicks Important

By Geo. P. McCarthy and H. H. Weatherby

The United States is now involved in an all-out war. Food is going to play a vital part in the winning of this war. Eggs are one of the principal items needed, and a step-up of production is urgently requested.

The outlook for poultry and poultry products is favorable to the producer for the next few years.

With these things in mind, it is extremely important that the poultryman look forward toward securing chicks of high quality and known production ancestry. There are several very definite things that the poultryman should consider in the purchase of chicks this year.

- 1. Buy on quality and not on price. (a) Disease-free (pullorum tested). (b) Flocks that have been selected for vitality, type, production, uniformity, etc. (c) Flocks that are mated to R.C.P. males or those of equal quality. (d) Preference on chicks from yearling or two-year-old hens.

2. Buy from reputable hatchery.

(a) Hatchery that is carrying on a good sanitation, breeding and feeding program with hatchery flocks as outlined under the National Poultry Improvement Plan.

Requirements of the National Poultry Improvement Plan and Official Poultry Improvement Work in Texas

A. All official poultry improvement work in Texas is in conformity with the National Poultry Improvement Plan as administered by the Texas Baby Chick Association, the Texas Chick Association, with the cooperation of the State Department of Agriculture and the A. and M. College of Texas, has complete supervision of this work.

B. The poultry improvement work in Texas is divided into three classifications: 1. Texas-U. S. Approved 2. Texas-U. S. Certified 3. Texas-U. S. R. O. P. Texas-U. S. Approved:

(a) Females shall be rigidly and thoroughly selected for constitutional vigor and egg production, such selected females to combine standardbred and production qualities to a reasonably high degree. (b) Males shall be selected especially for constitutional vigor and standardbred qualities. All selection work must be handled by an official flock selecting and testing agent.

(c) All birds selected shall be pullorum tested and banded. All reactors or culs must be sold so that they cannot be placed back in the flock. (d) Texas-U. S. Approved hatcheries and their flocks shall be inspected by an official state inspector. All eggs that come from Texas-U. S. Approved flocks shall weigh at least 23 oz. per doz. Only Texas-U. S. Approved chicks can be hatched in Texas-U. S. Approved hatcheries.

Texas-U. S. Certified:

These flocks shall fulfill all requirements of the Texas-U. S. Approved flocks and shall be mated to Texas-U. S. R. O. P. males.

Texas-U. S. Record of Performance:

In order to classify as a Texas-U. S. R. O. P. female, pullets must lay at least 200 or more eggs during the first laying year. The eggs of each pullet must have an average weight of at least .24 oz. per dozen. Breeders are required to weigh their eggs three consecutive days each month. All females shall be of at least qualifying body weight for hens as designated by the American Standard of Perfection.

U. S.-R. O. P. Males: Males produced from Texas-U. S. R. O. P. chicks shall qualify as Texas-U. S. R. O. P. males, provided that they can pass an individual inspection by the state not earlier than 6 months of age. Males must have strong constitutional vigor, and be representative of the breed.

R. O. P. Inspection Work

R. O. P. inspectors shall visit and inspect the work of each R. O. P. breeder at least 7 times during the year. This visit is unannounced and so timed that each season of the year shall be represented in his report.

The inspector does the trapping for the day and records all eggs laid and the weights of the eggs laid by each individual candidate. He also inspects the hatchery and records of the breeder. This type of work is to assist the breeder with maintaining accurate rec-

ords and reducing the chances of errors.

Note: Anyone desiring further information on the National Poultry Improvement Plan should secure copy of Miscellaneous Publication No. 300, "The National Poultry Improvement Plan," issued by the U. S. Department of Agriculture, Washington, D. C. Other references on brooding and brooding equipment:

Leon Oakes, son of John Oakes of this city, who recently enlisted in the Navy, writes to his father that he is now located at San Diego, California likes the service mightily well and wonders why he did not enlist sooner.

Miss Frances Gregg of San Antonio came Tuesday for a ten days stay with her parents while she recuperates from an attack of pneumonia.

WARD SCHOOL P.T.A. TO MEET TUESDAY

The Ward School P. T. A. will meet Tuesday, Nov. 17 at 4:30 P. M. at the Ward School. The theme for the afternoon is "Education — Bedrock of Democracy."

4:30-4:40 — American Songs of 1917 and 1942 led by Mrs. E. D. McDonald.

4:40-5:00 — Playlet "Abe Lincoln, A True American" presented by sixth grade American History Class.

5:00-5:10 — Education in War and Post-War Periods. Discussion by Mrs. Jodie Baker.

5:10-5:30 — Business. Attendance record. Adjournment. Everyone has a cordial invitation to attend this meeting.

Mr. and Mrs. Red Parker and children and Mrs. J. P. Ripley of Brownwood visited in the J. Gregg home Sunday afternoon.

Pvt. Wilburn E. Schulle of Concho Field spent the weekend with his wife and his parents, Mr. and Mrs. P. F. Schulle here.

Griffin's Hatchery invites you to attend the Second Annual Poultry and Turkey SHOW NOVEMBER 13 - 14 We have arranged for your pleasure and enlightenment, the best exhibit of Poultry Turkeys and other items worthwhile to the people interested in trying to help win the war, we can arrange under the circumstances, and trust each one attending the show will be benefited by doing so. See us for poultry and livestock medicines and feeds. KEEP 'EM LAYING TO KEEP 'EM FLYING

Congratulations To the 4-H Club boys and girls and the Vocational Agriculture students and instructors of our County for their outstanding work in Poultry advancement. VISIT THE ANNUAL POULTRY SHOW Wilson Grain & Elevator Co. Texas-U. S. Approved Baby Chicks in season and Quality Feeds all the time. Coleman Texas

The Prevention Of Coccidiosis In Chickens

By Geo. P. McCarthy, Extension Poultry Husbandman

Coccidiosis is a disease caused by a one-celled animal, the seat of the infection of which is the intestinal lining. Chickens, turkeys, geese, ducks and guinea fowls are all subject to the disease and may become infected any time between the ages of two weeks and five months. The disease is prevalent during the spring and early summer due to the fact that conditions are most favorable for its development at this time. These conditions are a warm temperature and high humidity. (In other words warm, damp days).

The first symptoms which the poultry man will notice are that the chicks appear cold and will tend to congregate around the brooder or brooder stove, the wings will droop and the combs and wattles, beak and shanks will appear pale in the place of the normal healthy color. The chickens will refuse to eat and will cheep continuously as if they were cold. If the droppings are examined closely a bloody or brownish colored dropping is characteristic of the disease. The losses are very high, ranging from 5% to 10 percent to 100 percent in some cases. If one of the birds is posted, an inflammatory condition will be noted throughout the lining of the intestine and blood may be found in severe cases throughout the area.

In the past, attempts have been made to control, cure and prevent the disease by various measures, such as the inclusion of various acids in the drinking water, the feeding of high percentages of milk after the disease is noticed, and proper measures of sanitation, which include the keeping of the chicks on wire floors, proper disinfection of the drinking utensils and feed troughs. The disease is now prevented through the feeding of sulphur in mash.

Recommendation To prevent coccidiosis 2 1/2% of dusting sulphur should be included in the mash from the time the chicks are three to four weeks of age and continue until the pullets are placed in laying houses at 5 to 6 months of age. Sulphur should not be fed until after the chicks are

at least two weeks of age as it may cause their eyelids to stick and also may cause the droppings to accumulate under the vent. SULPHUR SHOULD NOT BE USED IF THE CHICKS DO NOT HAVE ACCESS TO DIRECT SUNLIGHT for several hours each week. This should not be a deciding factor on Texas farms since most chicks have access to sun by the time they are two weeks old. Chickens kept in battery brooders are not ordinarily subject to this disease. If chicks are moved from premises where coccidiosis is not prevalent, such as in battery brooders, to a range contaminated with coccidiosis, it is a good practice to feed 5% sulphur for two days prior to their being placed on the range and two days after, and then change to 2 1/2% as recommended above.

Many poultrymen already have chicks up to 6 and 8 weeks of age. If they desire they may include sulphur in the rations for these chicks. This is especially desirable if the coccidia organism is on the premises.

In flocks where coccidiosis is present, add 5% dusting sulphur to the ration for 5 days then reduce to 2 1/2%.

It should be remembered that in the prevention of coccidiosis with sulphur, the same sanitary measures should be carried out as has been true in the past; namely, proper cleaning and disinfection of the water containers and feed troughs at frequent intervals and proper cleaning of the houses at designated times.

Time Changes Things

Signs around the North Texas State Teachers College campus that once read "Rooms for Girls" now read "Rooms for Boys." But that's not all the story. Denton landladies like to chuckle and compare notes on the rather unusual situations growing out of the enlargement of residence facilities for boys, brought on when college gave Uncle Sam the use of its new boys' dorm as glider school headquarters.

However, the landladies find that North Texas he-men are willing to grin and bear room furnishings which smack of former occupants, what with pink frilly curtains, vanity dressers, and pastel bedspreads. Comparing the symptoms of love in Betty Coed and Joe College, one typical Denton householder says, after 9 years' observation, "When a girl lets the bathtub run over and leaves the iron on and the telephone off the hook, you can bet she's in love." After two months of renting to boys, she adds, "Boys in love are always leaving the light and radio on, even when they sleep." Surprisingly enough, many of the landladies found boys much quieter than girls. Another difference noted was the substitution of petty drawings and leg art on the walls instead of pictures of Clark Gable and Charles Boyer.

Mr. and Mrs. Jack Brusenhan and daughter, Frances Allene, spent Sunday with R. A. Gillespie, in Luders Texas.

..Some Philosopher Has Said:- "Food and Youth will win the war and write the peace." On America's far-flung fronts — production lines as well as scenes of battle — young people of vision and courage are fighting for the land they love. Right here at home, boys and girls you know, our 4-H Club members are doing an outstanding job of producing the food which, as has so often been said, will win the war and write the peace. Hats Off To Our Club Boys and Girls for their Achievement in their most wonderful undertakings. Attend the Coleman County Poultry and Turkey Show at Santa Anna Friday and Saturday, Nov. 13-14 and take note of the educational achievements the Youth of this county has accomplished. Our Firm is cooperating and wish to lend a word of encouragement to our Club Members to continue in the good work. POWELL-CAVANAUGH Truck & Tractor Co. Due to present food shortages it has become necessary for the producers of America to increase their Food production to meet certain goals. The poultry business is one of the largest industries of food production in the U. S., and quicker increase can be realized in poultry production than in any line of food producing industries, hence the inspiration to hold this Victory Educational Show, to encourage one of the largest industries now serving our country. We, the sponsors of this show, trust each one attending will receive renewed interest and be encouraged to put forth your best efforts to produce not only more poultry and egg food products, but better and healthier poultry on your premises.

Our Vocational Ag. teachers, County Agents and Home Demonstration agents, the A. & M. College thru its extension service are all at your service, and ready to extend any help you might need to improve and extend your flocks for greater production.

This show is put on for your benefit, and we hope you profit by attending it.

Editors Make Errors ... So Do Others!

An editor of a weekly paper commenting on the fact that his paper sometimes made mistakes in its news columns, says he made some more in his last issue and that a good subscriber told him about it. He goes on to relate that about the same day there was a letter in his post office box that did not belong to him; he called for No. 98 on the phone and got 198; he asked for a spool of No. 40 thread and got No. 60; he got his milk bill and there was a mistake of 10c in his favor; he felt sick and the doctor said he was eating too much meat when he hadn't tasted meat in two months; the preacher turned his church notes in with the name of the ladies aid society president spelled wrong and the editor got the blame for it; the garage man said the jitney was missing because it needed a new timer but he cleaned a spark plug and the flivver has run ever since. Yes, indeed, editors do make mistakes—and so, every thousand years or so, do other people.—Sanderson Times.

NOTES FROM TEXAS SOIL CONSERVATION DISTRICT SUPERVISORS

"Soil and water conservation measures are increasing per acre yields of war crops wherever they are used in Texas," A. E. Young of Clyde reported this week when he returned from the second annual meeting of Texas Soil Conservation District Supervisors in Dallas. Young is a supervisor of the Central Colorado Soil Conservation District. "District supervisors from every part of Texas told us time and again that the use of soil and water conservation practices, as recommended in the district program, resulted in more beef and wool or more cotton, feedstuff, or peanuts per acre," the district supervisor recalled.

Pioneer Rancher J. R. Mims of Water Valley in Tom Green County, a supervisor in the

North Concho Soil Conservation District, told the district supervisors that stocking a range with 200 sheep per section produced more lambs and heavier lambs than stocking similar range with 250 sheep per section. He said pay-weights of his lambs at market time average 71 pounds each, while pay-weights of lambs from ranges stocked with 50 more sheep per acre average only 47 pounds each. District technicians, he added, have found his range in good condition.

James Finlay of Fite in McCulloch County, chairman of the board of supervisors of the Concho Soil Conservation District, said that blackland farmers in his district are growing good crops of corn with soil and water conserving practices where they had not been able to grow corn before.

"Because of soil and water conservation, we can grow corn in the blacklands while the fellows in the sandy lands, where the corn used to be grown, are producing peanuts," Finlay explained. "Peanuts are high on the list of war crops because of their valuable oil, but they cannot be grown successfully in the blacklands."

Mr. Young was particularly impressed by a discussion on "Erosion, A Menace to Civilization," by County Agent A. B. Jolly of Dallas County, who told the supervisors that medical research has definitely established the fact that foodstuffs, both vegetable and animal, produced in severely eroded areas, are deficient in health-giving vitamins and minerals. "I have always known," Young said, "that people in such areas are physically poor as well as financially poor but I had never realized that erosion was the cause until Mr. Jolly explained it. Such things show what a big responsibility the Soil Conservation Districts have."

Other supervisors of the Central Colorado District are B. B. Fowler of Rockwood, M. A. Patterson of Lawn, Andy Broyles of Talpa, and Sam DeBusk of Burkett.

Girls 4-H Club News

The Leaday 4-H Club girls met October 29, for the purpose of electing officers for the year. Annetta Stephenson was chosen president; Erma Walden, vice president; Sue Wilson, secretary; Lucille Calder, treasurer; reporter, Frances Moseley; Wanda Jean Allen, recreation leader. Miss Dorothy Sparks was elected as sponsor for the group. The girls made plans for the year, including production goals, producing food to win the war. The Agent, Miss Jewell Hipp, gave each girl a yearbook and discussed conservation of clothing with them. She told them how to give their old dresses an uplift. The girls plan to prepare and serve two milk dishes during November, and to equip their sewing boxes. The following girls were enrolled in the Leaday Club: Erma Walden, Roanna Acree, Lucille Calder, Patsy Ransberger, Wanda Jean Allen, Bonnie Ethel Gary, Frances Moseley, Ruth Matthews, Betty Jean Cohea, Be Etta Allen, Sue Wilson, Donna Pyburn, Annetta Stephenson, Mildred Jamison, and Ruby Catherine Puckett.

The Brown Ranch 4-H Club girls met October 29, with Elda Fay Winslett, President, presiding. Ten minutes' recreation was directed by Wanda Jean Harrell. The Home Demonstration Agent, Miss Jewell Hipp, gave a demonstration on Patching and Darning, a Patriotic Pleasure; emphasizing the importance of conserving clothing and taking care of all that we have. Each girl answered the roll call by saying what she intends to do to take better care of her clothing. Ten girls were present for the meeting. The sponsor, Mrs. Maggie Strauch, was also present.

The Gouldbusk 4-H Club girls met in a business session October 29, at the school house, with Bettye Monsey, President, presiding. Recreation consisting of songs and Club Pledge and Prayer was led by Bettye Terry. The Home Dem. Agent, Miss Jewell Hipp, gave a demonstration on the use of felt in making pictures for 4-H Club girls' rooms. Also making ornaments for coat lapels. She told the girls what to do when they are coming out at the sleeves! The girls exhibited their sewing boxes and reported on the milk dishes made the previous month. Most of the girls made egg custards and milk shakes.

The Voss 4-H Club girls met October 29, with Miss Jewell Hipp, County Home Demonstration Agent, Eileen Pate, president. Recreation was directed by Willean Feeler. The Agent gave a demonstration on patching and darning, a patriotic pleasure; and showed the girls how to make felt ornaments for the lapels of their coats. She suggested that these would make nice Christmas gifts, or for their own use. The girls exhibited their sewing boxes, and reported on the milk dishes they had made. One new member, Grace Hopper, enrolled. Seven girls, and the sponsor, Mrs. Jewell McMinn, were present at the meeting.

The Shields 4-H Club met November 2, with the Home Dem. Agent, Miss Jewell Hipp, Kathryn Stewardson, president. Ten minutes' recreation was directed by Sue Milligan. The Agent gave a demonstration on making Sugarless Cookies. She demonstrated how to make Spritz pressed cookies using the cookie press. The Club girls are planning to make cookies to send to boys in military service in the United States, for Christmas. She explained to them that in making cookies and using honey or syrup to add a little flour to the creamed butter before adding the syrup in order to prevent it from solidifying. Eight girls were present, with the sponsor Mrs. C. F. Blanton.

The Rockwood 4-H Club girls met November 2, with Miss Jewell Hipp, County Home Demonstration Agent, Miss Hipp gave making cookies as a demonstration to the girls. The girls plan to send cookies to boys in military service for Christmas. The Agent demonstrated Spritz cookies using honey as a substitute for sugar. She demonstrated the use of a cookies press, and let each girl sample the cookies that were made. The sponsor, Mrs. J. R. Throckmorton, was present for the meeting. Girls brought their sewing boxes for display. Rockwood 4-H Club girls are planning to have an exhibit at the Poultry Show, in Santa Anna, November 13, 14. Subject of the Educational Display will be "Keeping Eggs, Clean and Fresh".

PRACTICAL HEALTH HINTS

Milk Makes War Workers Rugged

By Dr. James A. Tobey

THE speed, efficiency, and earning capacity of every war worker depend largely on the food that he eats. Experience has proven that a proper diet actually promotes production, thus helping to win the war.

The mainstay of the war worker's diet should be pure milk, enriched bread, meats, and other protective foods. These are foods that build muscle, prevent fatigue, and help keep the mind alert. These are foods that give best all-around nourishment.

Milk, our most nearly perfect food, is particularly valuable for men and women in industry, as it is for persons of all ages in all walks of life. Milk is a prominent feature in our army diet. Fighters behind the lines, those on the home front, also require milk every day.

An ideal type of milk for the war worker is homogenized vitamin D milk. This is pasteurized fluid whole milk which has been carefully fortified with vitamin D to give it an ample supply of this

important vitamin. It has been homogenized, a process which splits up and disperses the fat particles, thus making the milk even more easily digestible.

Homogenized vitamin D milk not only is rich in "sunshine" vitamin D, but is likewise an abundant source of vitamin A and riboflavin or vitamin B. It contains some vitamin B₁, which must, however, be obtained mainly from foods rich in thiamine, such as enriched white bread, lean pork, and properly cooked vegetables.

This milk is, furthermore, an excellent, cheap source of bone-building calcium and phosphorus, food-minerals which are put to work in the body by vitamin D. It contains also a beneficial supply of valuable body-building proteins, and of necessary food-energy.

Indoor workers and all persons who labor in our dark winter climate are benefited by vitamin D. This nutrient is essential, too, for young infants and growing children, so that they may develop strong bones and sound teeth.

Pure milk, such as the homogenized vitamin D milk, should replace soft drinks and other less nourishing beverages in the war worker's meals. Milk gives strength, stamina, and vitality.

Rockwood News

(Mrs. Ray Caldwell)

Bro. Ray Sparks filled his regular appointment at the Baptist Church Sunday morning and evening, bringing wonderful messages on "The Tears of Jesus."

We are pleased to report that Ero. Harrell will be with us again next year.

Visitors in the home of Mr. and Mrs. R. L. Steward Thursday were Mrs. Mildred Jackson of Junction, Mrs. Charlie Ferguson of McCombe, Mrs. B. B. Fowler, Mrs. George Steward, and Mrs. Dick Fondren.

Mr. and Mrs. John Gilbreath of Muleshoe were visitors here Thursday.

Mrs. Della Spear of Winters visited Mrs. Dick Fondren Sunday.

Corp. and Mrs. Leo Wires of Ledbetter and Miss Geneva Caldwell of San Angelo visited here Sunday afternoon.

Mrs. J. D. Ashmore is visiting with her husband at Killeen.

Mr. E. L. Hill of College Station was a visitor here Monday.

Corp. Jim Rutherford of Dallas is visiting friends and relatives here this week.

Joe Fred Estes of Austin visited his parents Mr. and Mrs. Sam Estes over the week-end.

Mrs. W. T. Bowers and daughter Cora of Santa Anna visited Mrs. Boss Estes Saturday afternoon.

Mr. and Mrs. Edgar Hodges of Lampasas spent Saturday night in the home of her brother Boss Estes.

Fannie Mae Rutherford of Ft. Worth visited friends and relatives here this week-end.

Charles Stafford of College Station and James of Stephenville visited their parents, Mr. and Mrs. W. L. Stafford this week-end.

Corp. Jack Fore of Boston, Mass. is visiting his sister, Mrs.

Emmett Woods. Mr. and Mrs. Eugene Richardson and baby of Coleman visited her parents, Dr. and Mrs. W. G. Williams.

Visitors in the Fowler home Sunday afternoon included Mrs. Claude Box, Mrs. Ray Caldwell, Mrs. R. L. Steward, Mrs. Wm. Ashmore and Aunt Rosa Ashmore.

We also paid Mr. and Mrs. Fred Shuford a short call.

Billy Maness and Dan Gilbreath of Stephenville visited Billy's parents Mr. and Mrs. Uless Maness.

Mrs. Ara Ripley, Mr. and Mrs. Nathan Parker and children of Brownwood visited with Mr. and Mrs. Maness also.

Miss Bobbie Wise is spending the week with her sister Joyce of Mozelle.

I have received word that my son Sgt. Lawrence L. (Jack) Caldwell was married to Elizabeth Ann Smith of Pharr last Thursday.

We are happy to report that T. J. Johnson and Mrs. Frank Bryan are both improving.

Miss Anita Sue McCreary is visiting in Lubbock this week.

Mr. and Mrs. W. D. Rehm are building a new house here in town.

Mrs. Jack Bostick and sons

visited her sister Jeffie B. of Bracketsville over the weekend. Please help me to be a good reporter by handing me the news.

Mrs. Alton Terrell and little son of Lubbock returned home Thursday after a visit with her parents, Mr. and Mrs. Carl

Ashmore. Mr. and Mrs. M. L. Jennings took them home.

Mrs. Burton Gregg of San Antonio and Mrs. Jack Gregg of Brownwood spent last week-end with Mr. and Mrs. J. J. Gregg.

If you're a heartsick wife — mother — or sweetheart... you'd do a lot to give that boy a better chance to get back safe. Well then... do it!

SOMEONE'S LIFE IS IN YOUR HANDS!

ROUND up your scrap metal—it's needed to make steel. Steel for armor plate to protect him from bombs and bullets. Steel for weapons to help him do the job that must be done before he can come home again.

at the most!

What happens after that depends on all of us. If production falls and you've not done your part, will you rest easy?

Next week we're starting a collection drive—to build the biggest stockpile of scrap metal you've ever seen. Then when the mills need it, we'll have it—because you came through... for his sake!

★ ★ ★ ★ ★ ★ ★ ★ ★ ★
Watch this paper for details of the big scrap drive and what you must do to help
