Mountaineers Win Over Early 31-12; Go To Burnet Friday Night

The Mountaineers took their first win of the season Friday night over the Early Longhorns, 31-12 in a district 23-A conference game. A very small group of spectators was present for the Mountaineers third conference game. The cold weather likely kept several fans at home.

The Mountaineers romped for 324 net yards on the ground and 104 in the air to ring up a total of 17 first downs, with six of them coming in the final period when they scored three times in rapid order. The Longhorns managed nine first downs while gaining 246 yards rushing and 28 via the air ways.

Early in the first period the Mountaineers recovered a Early fumble on the Santa Anna 27-yard line, then drew a 15-yard penalty. They failed to make the necessary yardage for a first down and Early took over. Early failed to gain the necessary yardage and kicked to the Early 39-yard line. Hollis Bible took the ball and returned to the Santa Anna 41-yard line. Daniel Gilbert picked up 7 yards and Bible four for the first down. Bible lost two yards and then James Allen was called on. He made 21 yards and the first down. Two plays netted a loss of five yards and Bible took the ball and twisted and turned his way out of the arms of at least half-a-dozen tacklers, down to the 5-yard line. Gilbert made a first down on the 3 yard line and Bible went over for the TD. The extra point was missed. The remainder of the quarter was played mostly near mid-field and until early in the second period. The ball was on the Santa Anna 45-yard line and Harry Craig, Early Fullback, was called for duty. He broke through the center of the Mountaineer line and went the entire distance to knot the score. Their try for extra point was not good and the half-time score was 6-6.

The Mountaineers took the third period kick off on their 33 yard line. Two attempts by Bible and a pass from Wess Wise to Hilary Rutherford counted for the first down. Three attempts left the Mountaineers lacking ten yards for the first down and they came out in deep punt formation. Gilbert, the regular punter, took the ball and handed off to Bible, who scampered 20 yards before the dazed Longhorns could realize what had happened and do something about it. Stranded again and facing a fourth down, Wise called for another pass and sent Duane Bivins into the end zone, where he connected with a 21-yard pass for the second TD. The try for extra point failed and the Mountaineers were in the lead, 12-6. Early took the kick off and worked their way down to the Santa Anna nine yard line before having to give the ball up on downs. Early in the fourth period Early attempted a fourth down pass that failed to click and the Mountaineers took over on their own 44-yard line. A pass from Wise to David Wells counted for 19 yards and the first down. Allen, Bible and Wise picked up enough yardage for another first down, Gilbert picked up two yards and then Wise dropped a nice pass into Rutherford's arms on the Early 9. Gilbert picked up four, Bible made one and Gilbert was called and made the needed four yards to make the score Santa Anna 18, Early 6.

The Mountaineers kicked to the Early 11-yard line and the Longhorns returned the ball to their 33-yard line only to fumble and the Mountaineers recovered. On the first play Bible took the ball and scampered the 33 yards for another TD. James Allen kicked the only extra point of the game to make the score Santa Anna 25, Early 6. Santa Anna kicked to the Early 15 and they returned the ball to their 38 yard line. One play made a yard and getting desperate, they attempted a pass and David Wells intercepted on the fifty and returned to the Santa Anna 20. A 15-yard penalty on the ball took on the Santa Anna 35 and the try for a first down on the first play. Al-

len picked up four yards and Wise passed to Rutherford for the remaining 17 yards and another TD. Here Coach Behrens substituted nine reserves and the Longhorns carried the ball 64 yards on two plays for their final score, making the game end 31 for the Mountaineers and 12 for the Longhorns.

TO BURNET FRIDAY

The Mountaineers will journey the 110 miles to Burnet Friday night for another conference game. Burnet is in much the same boat as the Mountaineers this year. They have won one game and that was a 21-17 win over Early two weeks ago. They had an open date the past week and they are expected to be in top condition for this encounter with the Mountaineers. The local boys are all in good shape this week and should be ready for the Burnet Bulldogs.

The spirit at the school this week has been good and the boys say they are going to win the game. If they have the determination, there is no doubt but what they will be able to bring home another victory. Let's all who can make the trip to Burnet and support the Mountaineers.

Mason is still out front by several games and last week they handed the Bangs Dragons a 41-6 pounding to make them six straight wins this season. This includes four non-district games and 2 district games. Although Goldthwaite took a 19-6 beating from Llano, they remain in second place in season standing with a rating of four wins, one tie and two losses. Llano is in third place with 3 wins and four losses. Santa Anna jumped to fourth place this week by handling Early a 31-12 defeat. They have won one, tied one and lost five. Early and Burnet are tied for fifth and sixth places with one win and five losses each. Bangs is on the bottom of the list again with one win and six losses.

Jr. Mountaineers Win; Play Cross Plains Thursday

The Junior Mountaineers won over a much heavier South Taylor eleven last Thursday night, 28-7, in their most spectacular game of the season. The game was played at Tuscola before a fair crowd.

Thursday night of this week the Junior Mountaineers will play hosts to the Cross Plains Junior Buffalos. The game is scheduled at 7:00 p. m. on the Mountaineer Stadium.

AN EDITORIAL— Be Sure To Vote Tuesday In The General Election

Let us urge every qualified voter in the county to go to the polls Tuesday and cast your vote in the General Election. Having the privilege of voting is the greatest asset the citizens of this great nation has. Let us all take advantage of it. Vote your opinion and help elect to offices the ones you feel are the best qualified to serve you. Elsewhere in this issue of The News we are publishing a review of the 11 proposed amendments to be voted on Tuesday. Study them and know how you are going to vote when you go to the polls.

WE FAVOR CHARLOTTE BURNEY

A lot has been said concerning the County Treasurer's race during the past few days. We feel Charlotte Burney is entitled to have the office her late husband had been nominated for, because she is well qualified for the job and she needs the job in order to furnish support for herself and her four small children. We feel everyone knows the background in this instance. If you believe in justice, we believe you will make a special effort to go to the polls Tuesday and scratch the name in the Democratic column, under the heading of the County Treasurer and write in Charlotte Burney.

Louis Newman, well known and well loved citizen of Coleman County, will speak over Radio Station KSTA Saturday, Oct. 30 at 12:50 p. m.; Sunday, Oct. 31, at 9:15 a. m., and Monday, Nov. 1 at 7:10 a. m. in the behalf of Mrs. Burney's candidacy. Be sure to listen to what Mr. Newman has to say.

The man's name who appears on the ballot, pasted over the name of W. E. (Bill) Burney was defeated honestly and fairly in the two primary elections during the summer months. It appears that he, and some others, are trying to force the people of the county to have a man in office that the greatest majority did not want in the first place. All offices should be filled with persons who represent the largest number of votes in the county. The only way this can be done is to write in Charlotte Burney for County Treasurer at the General Election Tuesday, Nov. 2.

Wess Wise, a Santa Anna Future Farmer, continues his winning ways in the Lamb Shows of Texas. He showed the Southdown Lamb to the reserve Grand Championship at the State Fair of Texas in Dallas this past week.

Young Wise, with the help of his very capable teacher of Vocational Agriculture, A. D. Pettit, has become one of the outstanding young feeders of lambs in Texas and is far out in front among the youngsters as a showman.

Work Worthwhile

Lesson for October 31, 1954

SOME very kind-hearted person remarked that something good could be said about everybody. "What good could you say of the devil?" he was asked. "Well," he answered, "the devil's a mighty hard worker!"—which goes to show that work, by itself, is not necessarily a good thing. It depends on what you work at, and on what comes of your efforts. Work is certainly not good if it does harm. If only the devil had been born lazy, how much better this world might be!

Work is not good, Dr. Foreman either, when it is nothing but "busy-work," mere effort with no purpose, nothing to be gained by it. A person could go down to the seashore with a large shovel and pile up a mountain of sand one day and shovel the whole thing flat again the next day... but so what? Aside from the exercise, no use at all. And the exercise itself might be better gotten in other ways.

Work and Value

Work has dignity, work is worthwhile, only under certain conditions. One of these conditions can be expressed in this way: Does the work increase or create value? A piece of iron is worth far less than the same iron made into steel watch springs. The work done adds to the cost, of course, but also to the real value. A weedy, eroded field is not worth what the same field is worth when it has been worked, fertilized, planted, cultivated and a fine crop of potatoes, cotton, wheat or what not is growing there. Karl Marx pointed this out in the 19th century; only he overlooked something important. He seems to have had the notion that the only work that adds to the value of things is manual labor.

It is true, as he said, that the toll of the miners goes into the value of the coal you burn; but he was wrong in thinking that labor contributes everything, management nothing. A president (a good one, no stuffed shirt) sitting in his office may not do enough physical work in the course of a week to raise a drop of perspiration. But his plans and decisions are work too, and they may add more value to what his plant turns out than any 20 stevedores on the place.

Work and Character

Work has dignity too, and it is worthwhile, when it produces that highest of all values, character. The many contrasts in Proverbs between the worker and the lazy lout bring this out. The worker is not only adding to the sum of values in the world, he is building his own character. The hand of the diligent shall rule, one Proverb says. That is, the worker grows capable by the very work he does. The reward of good work is not usually a vacation but a promotion, that is to say, a chance to do more work on a larger scale. Most Presidents of the United States, however capable they were when they were elected; left the White House abler men than when they entered. This is all just as true on the humbler levels of life. All work has dignity, all work is worthwhile, when it adds to human values and when it builds the character of the worker. A garbage collector is adding to the health-values of the community; and if he is a good one (no stuffed blue shirt!), he can be growing in character, too. There is a certain professional cleaner of grease traps who looks on his work with such pride and satisfaction that he has been an inspirer of other men.

Laziness is a Sin

The Proverbs point out three sins in this area of life. One is pure laziness. The lazy man does not usually think of himself as a sinner. He isn't doing anything. But that is just the point. Not doing what needs to be done is a real sin, it eats out the lazy man's character in no time. Another sin is slackness, the "sin of slapdash." The man who is slack in his work is brother to the destroyer, it is said. How many buildings have burned down because of "defective wiring!" And what does any price of defective wiring spell but somebody's carelessness on the job? How many crops have been lost not because any one destroyed them but just because what had to be done was not well done?

State Capital NEWS

Austin, Texas — Widespread interest is gradually being developed in the 11 proposed amendments to the Texas Constitution to be voted on at the general election, November 2.

No organized opposition has appeared against any of the proposals. However, campaigns are being pushed for several of them.

Reports from over the state indicate somewhat of a draw between active support of various amendments and a general tendency to vote against some or all of them because the proposals are not understood or because of some question as to the results of writing such changes into the Constitution.

Amendments are discussed here in the order in which they will appear on the ballot.

Senate Joint Resolution No. 7 authorizes the Legislature to increase State spending for Old Age Assistance, Aid to the Blind, Aid to Dependent Children, by \$7,000,000 a year.

Comments from some members of the Legislature and other people familiar with the program indicate that if the Legislature appropriates the additional money, new taxes will be required.

Some say that most of the money would be used to add more people to the rolls, rather than providing more money to those now on the rolls.

This amendment also would require the Legislature to enact laws making names of those who receive such aid available to the public. These are fighting words to some people who claim such action would embarrass those now on the rolls and their relatives.

Proponents of this provision argue no one should be embarrassed except those who have children or relatives well able to support them, and that these ought to be exposed.

Senate Joint Resolution No. 6 permits a person who has served some time as a teacher and accumulated credits under the Teachers' Retirement System, and also some time as a State employee, with credits under the State Employees' Retirement System, to count his accumulated credits under both systems in determining his retirement pay.

Apparently but few people would be affected. However, some opposition is being expressed by members of both retirement systems to the idea of intermingling the two systems in any way.

House Joint Resolution No. 37, provides that proprietary employees of the States' subdivisions may be covered by Federal Old Age and Survivors Insurance.

Other municipal and county employees may now be covered under that system under an agreement between the State and the Federal Government, and in many cases have been.

But the Attorney General has ruled that the State has no authority to make an agreement covering proprietary employees without a constitutional amendment.

Senate Joint Resolution No. 10, would create a State Building Commission with broad authority, subject to Legislative direction, to erect buildings for State purposes.

A State Building Fund would be created by transferring to it the surplus from the Confederate Pension Fund.

The present 2c ad valorem tax provided by the Constitution, for Confederate pensions, returns far more than is necessary to take care of the one Confederate veteran and more than four hundred widows of veterans now receiving such pensions from the State. Therefore the fund is accumulating a surplus of well over \$600,000 each year.

It is anticipated that if the amendment is adopted, nearly \$6,000,000 will be available for transfer to the new State Building Fund in January of 1955.

This amendment has the support of the State Bar of Texas.

The first building, if the proposal is adopted, must be a State Supreme Court Building and it must be dedicated as a memorial to Texans who served in the armed forces of the Confederate State.

Senate Joint Resolution No. 5 would increase compensation of members of the Legislature to \$25 per day for the first 120 days of any session.

Texas Constitution now provides \$10 per day for the first 120 days and \$5 per day thereafter.

There is strong support and little or no opposition to this increase in pay, which most people think would about cover legislators living expenses while in Austin.

Included in the same amendment is authority for the Legislature to set salaries of the Governor, Attorney General, State Treasurer, Comptroller of Public Accounts, Secretary of State, and Commissioner of the General Land Office.

The Governor's salary is now set by the Constitution at \$12,000, the Attorney General's at \$10,000, and the other four officials involved are paid \$6,000 a year.

Under this amendment the Legislature could not reduce salaries below these amounts, but could set them at higher rates.

Opinion does not appear to be so nearly unanimous about this part of the proposed amendment. Some people are troubled by the apparent power of the Legislature to change the salaries at will, and they point out that the

Federal Constitution and many other state constitutions prohibit a change in salary during the term to which an official has been elected.

Senate Joint Resolution No. 14, prohibits use of the credit of the State or any grant of public money for construction, maintenance or operation of toll roads and turnpikes.

Purpose of this amendment is to write into the Constitution a prohibition now contained in the law, but which could be changed by future legislation.

It has the support of the Texas Good Roads Association and many other people particularly interested in the State Highway System, and no known opposition.

House Joint Resolution No. 16, would require women to serve on juries.

There are only five states including Texas which do not permit jury service by women.

This amendment would require women to serve under the same rules for jury service as apply to men. It has the active support of many women's organizations.

Senate Joint Resolution No. 4 has to do with the terms of elective district, county and precinct offices. It would change all of those which have two-year

terms into four-year terms.

It has the support of the County Judges and Commissioners Associations of the state, and the organizations of many other county officials.

The terms of a great number of district, county and precinct offices would be changed immediately if this amendment were adopted. Other such offices are designated to change to four-year terms in 1956 so that, while all of them would be four-year terms after 1956, only about half of them would appear on the ballot every two years.

Wording of the proposal has resulted in confusion as to its effect on the terms of representatives in the Legislature. Many lawyers are of the opinion that the proposal would require four-year terms for members of the House and other lawyers have said that at least it presents a problem which can only be solved by court interpretation.

Senate Joint Resolution No. 2, would authorize creation of county wide hospital districts in Bexar, Dallas, El Paso, Galveston, Harris and Tarrant Counties.

The amendment is permissive and, if adopted, would not create any such districts itself. It simply provides that the property-owning taxpayers of the named

counties can vote on such a proposal at a later date.

An active campaign for this proposal is being carried on by a statewide committee composed of mayors, county judges, members of hospital boards, and prominent citizens of the counties involved and some from other parts of the state.

House Joint Resolution No. 10, Members of the armed forces of the United States or component branches would be allowed to vote if this amendment passes.

They would be required to pay poll taxes and could vote only in the county in which they resided at the time of entering the service.

House Joint Resolution No. 8 is the last proposal on the ballot and is a permissive type of amendment, allowing taxpayers in counties of less than ten thousand inhabitants to vote on the question of whether they would prefer to have a separate full-time office of tax assessor-collector.

Duties of the tax assessor-collector are now performed by the Sheriff in these counties.

It carries the V8 design to a new high in efficiency with its high horsepower (162), high-compression (8 to 1), high performance and surprisingly high gas mileage. Available with standard transmission, or with the extra-cost options of Overdrive or Powerglide.

6

You can choose from two new sixes, too! Chevrolet also offers the last word in six-cylinder performance and economy! There's a new "Blue-Flame 136" teamed with Powerglide and a new "Blue-Flame 123" with either standard transmission or Overdrive.

Can't you tell just by looking that Chevrolet and General Motors have come up with a completely new idea about the low-priced car? The idea is this: to build a car that offers the very newest thing in styling, the most modern features, the finest kind of performance and the highest quality of manufacture—all at a modest price. It's something that took a lot of doing and that only the world's leading car builders could do. Everything's new in this Motoramic Chevrolet from its lower top right down to its tubeless tires. FOR
County Treasurer**

I wish to thank the innumerable friends who have so generously supported me in my write-in campaign against the man whom my husband defeated for County Treasurer.

People have said that I could not work, yet I am on the job 8 hours a day since my appointment by the Commissioners' Court. If elected, I shall strive to do the job to the best of my ability.

If you are among those who believe a widow has the right to earn a living at a job for which she is qualified, scratch the name of my opponent and WRITE IN my name in the write-in column for County Treasurer.
