"He Profits Most Who Serves Best"

VOLUME LXI

SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY, October 4, 1946

Number 40

National and International News Hi-Lights of the Week

Thousands of German prisoners of war were on a sit-down strike Monday night in the U. S. Army Peninsular Base section, which supplies American occupation forces in Venezia Giulia.

United States army officers at Peninsular Base staff headquarters in Livorno, Italy were silent about the movement which has been taking shape for several days.

Secretary of Agriculture Anderson Monday certified that meat animals were still in short supply, an action pointing toward a continued OPA price control of livestock and meat.

The certification was made under the new price control law requiring the secretary on the first of each month to notify the OPA of agricultural commodities whose supply is not sufficient to meet demands.

King George II returned to troubled Greece Friday night, September 27, after five years of exile, arriving at the war battered airport only 12 miles from Athens in a British plane bearing the royal Greek colors.

He made his entry Saturday into Athens, where the police issued strict orders banning tossing flowers.

The bodies of three American airmen found in far western China, were brought to Shanghai Sunday, by a graves registration team which announced that a determined effort was being made to rescue five others who have lived for two years as slaves of the savage Lolo tribesmen in the same area.

Hermann Goering and 11 other Nazi chiefs who helped Adolf Hitler plunge the world into the greatest war of all times were sentenced to death Tuesday by hanging.

Seven other defendants, including Rudolf Hess, were sentenced to prison. The death sentence will be carried out in the Nuremberg jail, probably October 15.

Government action to ease the meat shortage came as the agriculture department reported that production is only 27% of what it was a year ago.

Evidence that supplies are improving very little was provided by an agriculture department report that meat produced by federally inspected slaughterers last week totaled only 80 million pounds compared with 297 million pounds in the corresponding week last year.

Congressional investigators sought Tuesday to learn what has happened to surplus war property earmarked for GI's.

The inquiry shifted to veterans priorities after the House Surplus Property Committee heard that ribbed bottles of whiskey were distributed last Christmas, among employees of the War Assets Administration.

Cordell Hull, on the eve of his 76th birthday, took a turn for the worse Tuesday suffering a stroke 24 hours earlier in the U. S. naval hospital where he had been resting and undergoing a health check up for the last three weeks.

Miss Ann Stiles of Amarillo visited from last Thursday until Sunday with her mother, Mrs. Ella Stiles.

Miss Elizabeth Stewardson of Shields who is attending Draughon's Business College, Abilene, Texas, is among the high ranking students whose names appear on the Honor Roll this month.

Mrs. C. S. Taylor and family returned last week from a vacation trip of several weeks in California.

V. O. Kelley and wife of Dallas visited several days last week with his parents Mr. and Mrs. W. R. Kelley.

Mr. and Mrs. Marvin Niell returned Sunday from a weeks trip to Jonesboro Arkansas, where they had gone because of the illness of his sister.

The Lions Roar

After the luncheon the president called for any new business to be taken up by the club. There was no new business and the meeting was turned over to Lion Arlie Welch, Carnival Committee Chairman. The club was divided into two sections with a captain of each section to see which side could sell the most carnival tickets before the carnival closes Saturday night, October 12. Bill McDavid and Bill Griffin were appointed as captains of the two teams. Lion Welch said more enthusiasm should be shown by the club and more ticket sales should be stressed.

Lion Scott Whitaker gave several pointers on the use of official signals given by officials of the ball games.

There were no guests present. Mr. C. A. Crump was presented to the club as a new member in name only. Due to the fact that he was unable to attend the meeting this week, he will be presented as a new member next week.

Booster Club Drive Continues

Are there 300 people in this trade territory who are interested in the progress of Santa Anna and the public school of Santa Anna?

Three hundred members is the goal set by the Booster Club for this year. We now have over 150 of that number and the campaign is still going strong. The club is very proud of the fact that very few have turned down a membership when asked to join. Mr. A. B. Carroll says that he hasn't been turned down on a single one since he started to work on the drive. All the others have had a very small number to turn them down.

The Booster Club is proud of the response that has been shown to the club. It is one of the most worth while organizations that has been formed in this territory and the News along with all the members recommend it very highly for what the club stands for.

The drive is going to continue for some time yet. We still have not covered all the rural communities, but within the next week all will be covered. The main drive hasn't been put on in the city as yet and that is also to take place within the next few days.

We want 300 members and we expect to reach that goal in a very short time from now.

When you are asked to join his club, give it your careful consideration, ask any question that you want to about the purpose of the club. We recommend it to each of you.

Attending Texas, 4-H and Youth Day at the Dallas Fair this Saturday will be some 75 students from the Santa Anna schools. The Coleman County Breeder Feeders Auxiliary was indirectly instrumental in obtaining the buses which will be chartered for the trip as their public improvement committee, composed of Mrs. C. D. Bruce and Mrs. Carroll Kingsbery of Santa Anna and Mrs. Jess Hinds of Voss wished to award free trips to the fair to some 4-H boys and girls. Ten free trips were given by the committee working with Joe Glover, county agent and Miss Garland, county home demonstration agent, and of these, two were given to Santa Anna students. Mr. Glover and Miss Garland have chartered buses for the trip and a fine representation.

Plan to attend the Lions Club Carnival Saturday, Oct. 12.

Mountaineers To Meet Melvin Here To Night

Tonight, Friday, October 4, the local Mountaineer team will meet the eleven from Melvin in the third of a series of non-conference games being played before the conference schedule begins on October 18.

With one win and a loss to their credit, the local boys are working hard this week to put themselves in shape to meet the strongest team of the season so far. The Melvin boys have two wins to their credit beating both San Saba and Richland Springs. The coach has promised us a better team than has been on the field so far this year. In the two games they have played he has been able to see their weak spots and has had two weeks to correct the boys in the things they have been doing wrong. With the prospects of a very good game, let's all get out and give the boys all the support we can from the stands and when the game is over we can say we won again.

The men that are to help at the gate this week are Roy Richardson, C. E. Kingsbery, J. L. P. Baker, Ad Walker, J. W. Burgett, W. V. Priddy, Earl Hardy and Bill Stiles. These men are requested to be at the gates by 6:45 p. m.

The probable starting lineup for the Mountaineers is England, LE; Goodwin, LT; Stafford, LG; Austead, C; Fulton, RG; Henderson, RT; Gilmore, RE; Sherrold, FB; Stewardson, LH; Lovelady, RH and Kingsbery, Q.

Organ Concert at Methodist Church Sunday Night

Mr. Billy Muth of the Shield Company, Ft. Worth, will give an organ concert at the First Methodist church Sunday night, October 6.

The new Hammond Organ, which has been installed, is a gift which has been given to the Methodist church in honor of Mr. and Mrs. S. D. Harper by their children.

A cordial invitation is extended to the public.

Community Singing

There was a fine attendance at the singing at the Christian Church Sunday afternoon, also the new books and the Church hymnals. People from all the religious organizations of the community attend these gatherings and mingle their voices in praise. The next meeting will be at the Cumberland Presbyterian Church Sunday afternoon Oct. 27th. Why not attend these gatherings and help to "make a joyful noise unto the Lord"?

W. M. U.

On Friday the W. M. U. of the Baptist church had an all day meeting at the church in observance of the Week of Prayer for State Missions. All the week's programs were given in the one day. A nice covered dish luncheon was enjoyed at noon and 21 members were in attendance.

Mr. I. V. Boren of Mexia came last Thursday and brought his mother, Mrs. E. A. Boren and his sister, Mrs. F. Z. Payne home. Mrs. Boren, who broke her right thigh several weeks ago, is getting along very well and bearing her affliction with patience. Both limbs are in casts which will have to remain on four weeks longer.

Mrs. Tulley Allison visited several days last week with her aunt, Mrs. Oliver Perry at Bangs. Mr. A. R. Brwn who has been quite sick for some time at his home, is improving, being able to be up some around the house.

Mr. and Mrs. W. S. Stacy had as guest Sunday Mr. and Mrs. Rambo and their daughter Wilma Yazelle of Bangs.

Hardy Stewardson Wins Grand Champion at Abilene Stock Show

That Coleman county has some of the best southdown breeding sheep in this section of the county was proved at the Abilene Sheep Show Friday of last week when H. E. Stewardson and sons exhibited the grand champion southdown ewe. The ewe, a yearling, showed against the top aged ewe, owned by T. B. Poe of Winters, for the grand championship. Other placings made by the Stewardson sheep were as follows: Second place in the yearling ram class, fourth place in the aged ram class, second place in the aged ewe class, third place in the get of sire class third place in the pen of three ewes. Boyd Stewardson is a member of the Santa Anna F. F. A. chapter and J. L. Stewardson is a 4-H club member at the Shield school and they are partners with their father, H. E. Stewardson, in the southdown breeding sheep project.

Stanley Blackwell and Mark Griffiths, members of the Coleman

F. F. A. chapter, exhibited their southdown yearling rams, placing third and fourth in their class. In the swine show, held on the second day of the show, Saturday, September 28, Tom Garrett, son of Mr. and Mrs. Rex T. Garrett, exhibited the grand champion boar of all breeds. Johnny Jamison, son of Mr. and Mrs. Manton Jamison, had the reserve champion gilt of all breeds. Tom is a member of the Buffalo 4-H club and Johnny is a member of the Vos 4-H club. Both boys were awarded registered jersey heifers, valued at \$125 each, by the Sears Roebuck Foundation.

The reserve champion boar of the show was purchased as a weaning pig last spring by Arnold Wedeking of Jones county from Glen Starborough of Shield, a former 4-H club boy, and now a first year member of the Santa Anna F. F. A. chapter. Photo courtesy Abilene Reporter-News.

Turkey and Poultry Show Here in November

November 8 and 9 have been the dates selected for the annual Turkey and Poultry show in Santa Anna. There is no entry fee to the show and all raisers of turkeys and poultry in the state are requested to begin to get their birds in shape for the show. All birds will be judged on the quality of the bird itself.

The committee is working on the show and getting the judges and speakers for the program to be held on Saturday, November 9. The judging will take place Friday afternoon and the birds have to be left at the show until 4 p. m., Saturday. The F. F. A. and 4-H club boys will be on hand to help take care of the entries.

Rules and regulations of the show and judges and speakers will be announced at a later date.

Mrs. A. S. McDavid returned Saturday to her home in Brownwood after visiting several days with her son, Bill McDavid and wife.

Mrs. Annie Munger is having quite a bit of improvement going on at her home including a nice paint job.

Mr. and Mrs. Frank Crum and Mr. and Mrs. R. P. Crum attended the funeral of Mrs. Fred Crum at Snider Monday. She had died in a hospital in Roscoe Saturday after an illness of several weeks.

Mrs. Willie Hudler and Ora returned Monday from a weeks visit in Ft. Worth with her sons, Arnold and Quentin and their families.

National Fire Prevention Week

America is facing the most acute housing shortage in the nation's history. We are short three million homes today.

Persons who are desperately looking for shelter will tell you that a house as a home was never more precious.

Yet FIRE — preventable fire — is destroying more homes every year. Half of all the fires are in the home. One out of every homes are damaged or destroyed by fire each year. These fires are preventable fires.

Fire is a killer worse than war. In the two major wars since 1900 there were 388,000 Americans killed. During the same period of time 22,000,000 fires in the United States cost the lives of 450,000 Americans and destroyed \$1,000,000,000 in property; 886,211 Americans were wounded in the two wars, while fire burned or disfigured 675,000 persons.

In the first six months of this year the fire damage totals more than it does for eight of the last 14 years. If fires keep on like they have the rest of this year, the nation will suffer a greater loss than has ever been known before. YOU can stop these fires. Fires are caused through carelessness. If you are not careful, you are not apt to have a fire.

Some time during Fire Prevention Week Fire Chief Arlie Welch and Fire Marshal Ben Vinson will inspect every business house in Santa Anna for fire hazards. Now is the time to clean up your premises and make them ready for fire inspections. And then when you get them ready for the inspection, keep them that way!

REMEMBER: Every minute, day and night a fire breaks out. Every hour a life is lost due to fire. One third of the lives lost are children under 15 years of age. Let's put a stop to this now.

Fire Chief Welch says "the last major fire we had was on October 13, 1944 when the nurses home was completely destroyed and the life of one nurse was taken. I firmly believe that since that time fire prevention has paid big dividends to every citizen in Santa Anna. Today your fire insurance dollar is worth more than it has been in a long time. Let's keep it that way."

Dr. and Mrs. Dodson Garrett visited with her parents Mr. and Mrs. J. Frank Turner from Friday last until Sunday. They were enroute to their home in El Paso from Pittsburg Pa. and other points in the East where he had taken some special work. Mrs. Garrett was until her marriage, Miss Rebecca Turner.

William Wheeler and wife and little son returned to their home at Albany Monday, after a week end visit with his mother, Mrs. Taylor Wheeler.

Mr. and Mrs. Homer Burden and Evans Burden and family and Mrs. Alvin Burden and children went to Bertram Sunday to visit Alvin Burden who is working there. Alvin was not apprised of their visit and when they got home he was here visiting them.

Mrs. Sam Lowe of Brooksmith visited Tuesday with her sister in law, Miss Mollie Lowe. Mrs. Lowe's father, Mr. Chas. Fletcher, who lives with her, has been quite sick but is improving. He formerly lived in this vicinity.

Mr. and Mrs. Jeff Farris of Dumas, Texas visited from Sunday until Wednesday with his parents, Mr. and Mrs. H. Farris and her sister, Mrs. Dick Griffin and family. Jeff is employed by the Southwest Public Service Company.

Mrs. Claud Hodges returned Tuesday afternoon from a three weeks stay with her daughter, Mrs. Pleas Ellis and family in Brownwood. Mrs. E. S. Rowden and Tommie went over Tuesday morning and visited with her sister, and returned with her mother.

Remember the Lions Club Carnival, Saturday, Oct. 12.

Whon News

Mrs. Tom Rutherford and friends of Mrs. Oscar Lovelady are very sorry to know that she is in the Sealy hospital and has spent the past week there. Although she has been quite sick since going to the hospital we are all very glad she is much better at this writing and trust she will soon be home again.

Attend the Lions Club Carnival in Santa Anna, Saturday, Oct. 12.

Rev. Nellie Hill and Miss Laura reported a wonderful time at the assembly in Waco the past

week. They also reported lots of rain. They visited with friends at Pearl, Texas while away.

Mr. Oscar Lovelady and son, Darwin went to Midland Tuesday to take Mrs. Lovelady's father, Mr. Sam Smith to visit a son, Mr. and Mrs. Rodger Smith.

THE DAY, SAT., OCT. 12. Santa Anna Lions Club Carnival.

Rev. and Mrs. Riddler and son were greeting friends in Whon last Tuesday afternoon. Mrs. Riddler was pastor of the Nazarene church here several years past. Since the war Mr. Riddler has spent lots of time in the service with almost two years

being overseas. Although he received his discharge last February. The Riddlers spent Tuesday night with Mr. and Mrs. Henry Smith and children.

Mrs. John Lovelady and son, Joe spent Thursday night in Cross Plains with her son, Mr. and Mrs. Clyde Lovelady. A daughter of Mr. and Mrs. Lovelady had just returned from the Hawaiian Islands.

Ima Smith spent Sunday with Louise and Evelyn Averetts.

Mr. T. J. Adkins is at Clifton this week attending a Hereford sale, accompanying calves for Jim and Faye Gill. T. J. plans to be away quite a while, attending sales in several different states.

Leon Carter was sick several days the past week and unable to drive the school bus. A substitute driver was well on the job.

Mrs. Adkins carried her daughter, Vonnle to the doctor Friday suffering from a rising on her face.

Mr. and Mrs. Jim Carter and son, Leon were shopping in Santa Anna and Coleman Saturday.

Mr. and Mrs. Bud Smith and daughter of Brownwood and Elder Smith spent several days of last week visiting their brothers, Mr. and Mrs. Dee Smith and Mr. and Mrs. I. O. Smith of Iraan. They returned Friday and Mr. Ben Smith carried the Bud Smith family to Brownwood Saturday afternoon.

Billye Joyce Cozart, who is employed in Santa Anna, spent Saturday night and Sunday with her parents, Mr. and Mrs. Etoil Cozart, returning to Santa Anna Monday morning.

Fun and frolic for all at the Lions Club Carnival, Sat., Oct. 12. Jimmie Frank Smith spent Saturday night with John Henry Rutherford.

Mr. and Mrs. Buster Wallace went to Brownwood Sunday afternoon to visit Mrs. Wallace's parents, Mr. and Mrs. Halcom.

Mr. and Mrs. Charles Bengé visited Mr. and Mrs. Etoil Cozart Sunday afternoon.

Meet your friends at the Lions Club Carnival in Santa Anna, Saturday, Oct. 12.

Mr. and Mrs. O. H. Taylor returned to their home at Victoria last week after visiting several days with her mother, Mrs. T. T. Perry and other members of the family.

Mr. and Mrs. Carl Horne of Waco came last Saturday and took Mrs. Fred Turner to Lubbock where they visited with two other of Mrs. Turner's daughters, Mesdames Kimmel and Goodloe over the week-end.

For the first time, Eversharp CA Pen. Guaranteed forever, \$15. Corner Drug Store.

Mrs. Rex Cooper and children of Rockwood visited Sunday and Monday with her mother, Mrs. B. C. Walters.

Attend the Lions Club Carnival in Santa Anna, Saturday, Oct. 12.

Adrian Speck, who lives in San Angelo, has enrolled in the San Angelo Junior College.

We now have in stock a few '51 Pens. Corner Drug Store.

THE DAY, SAT., OCT. 12. Santa Anna Lions Club Carnival.

Does your child have this new schoolbook?

PICTURED above is one of the most important schoolbooks your child can have.

It's a U. S. Savings Stamp Album, and from it your child will learn a wonderful lesson—old-fashioned thrift!

In schools from coast to coast, children are regularly saving their dimes and quarters by buying U. S. Savings Stamps.

As a parent, you owe it to your child to encourage his investing in Savings Stamps. It's the best, safest, most convenient way for him to save—and to learn the virtues of saving.

And remember: these stamps mount up fast, and can be turned into U. S. Savings Bonds—which will bring him back \$4 for every \$3 he puts in!

HAVE YOUR CHILD BUY U.S. SAVINGS STAMPS AT SCHOOL EACH WEEK!

Trickham News

By Mrs. Beula Kingston
Mr. W. D. Craig of Coleman passed through here last Tuesday and stopped long enough to say howdy to a few friends. Why not bring Mrs. Craig and stay longer next time?

I have been informed that next Tuesday, October 8 is cemetery working day. Let's not forget this and be sure and come. Of late people don't come and help work like they used to.

Mr. and Mrs. Fain Eeman of Brownwood were brief visitors with Mr. and Mrs. Roy Bradley Saturday.

Sgt. Talmadge McClatchy, Jr. returned home last Friday after serving 18 months overseas in the Nagora area of Japan. His wife met him in San Antonio and at the present time they are with his parents, Mr. and Mrs. Talmadge McClatchy, Sr. All close by relatives, with his sister, Mrs. Hilburn Henderson and family of Santa Anna and his grandparents, Mr. and Mrs. John McClatchy of Coleman were down to see him Sunday.

Mrs. Maggie (Wells) Lenard's husband, T-5 Edward Lenard returned home Friday night from Yokohama, where he spent 11 months. We welcome these boys back home again.

Attend the Lions Club Carnival in Santa Anna, Saturday, Oct. 12.

Mrs. and Mrs. A. J. Martin, Rev. and Mrs. Howell Martin visited their daughter and sister, Mrs. Byron Moore and family of Winchell Sunday afternoon.

The P-T-A met Thursday night with a fairly good crowd out considering the threatening weather. One enjoyable feature of the program given was an old fashioned spelling match and did you ever try to spell a very little word in a place like that? If not, try it. Not so easy is it?

Mrs. Cora Thornton of Slaton and her niece, Mrs. Clark Miller stopped in for a few minutes with Mrs. Kingston Wednesday

morning. Miss Mary Jo Garland, home demonstration agent of Coleman county, met with a few club members at Mrs. C. F. Shield's home last Thursday afternoon. Owing to the rain many club members could not get there. Mrs. Oscar Boenicke demonstrated yeast bread making with several different varieties.

Mrs. Kirkpatrick, our school teacher, goes home every week-end. Mrs. Zona Stacy went with her this week-end and visited her daughter, Mr. and Mrs. W. M. Hancock, who are neighbors of Mrs. Kirkpatrick at Zephyr. Mrs. Doris Calcote Watson and THE DAY, SAT., OCT. 12. Santa Anna Lions Club Carnival.

daughter of Brownwood spent the week-end with her parents. Doris says her husband is stationed at San Diego and they will go to him this week-end.

Mr. and Mrs. J. Y. Seward of Eden spent the week-end here with her mother, Mrs. May Ruth-erford, T. C. and Dorothy. Mr. and Mrs. Wayne Whitley spent Sunday with his parents.

Cullen, son of Mr. and Mrs. George Bobo of Winchell visited his grandparents, Mr. and Mrs. Ben McIver Sunday afternoon and said his father had typhoid fever and had been ill for several weeks. We are sorry to hear this of George and hope he soon recovers.

Mr. and Mrs. Elmer Haynes visited Mr. and Mrs. Ben McIver and Mrs. Shield Friday afternoon.

Mrs. Irene Triplet and sons, Cecil and Wayne and his wife of Artesia, New Mexico, Mr. and Mrs. Glenn Haynes and Nancy Jo and Bettie Mitchell visited Mrs. Emma Perry of Bangs Sunday afternoon.

Mrs. Charlie Thompson left today, Monday, for Temple, to visit her daughter, Mrs. Glenn McClatchy, also her son, Vassar, who is still in the veterans' hospital at Waco.

Mr. and Mrs. Oscar Boenicke visited Mr. and Mrs. Zay Shirley one night last week. At this time Mr. Shirley seems to be improving some.

Mr. and Mrs. Elmer Sealy visited Mr. and Mrs. R. S. Stearns Saturday.

Polly Downs, who has been employed at Denison, has been transferred to Burket. Her parents visited her Sunday.

Mrs. L. E. Page went to Coleman Sunday afternoon with Roy Tucker's family to see Mr. Zap Weathers, who is seriously ill at his home there. His son, J. B., married Mrs. Page's daughter, Deon Williams.

Walter and Carrie Stacy and Mrs. Kingston spent Sunday with Mr. and Mrs. Will Haynes.

Mrs. C. F. Shield and Oscar and Mary attended church in Brownwood Sunday and were guests of Miss Pauline Boenicke, who has prepared Oscar a birthday dinner.

Mr. Arthur Wickersham and daughter, Miss Dixie from Paris, Texas, spent several days here last week with his brother in law, Charlie James and other relatives.

Peggy Ford spent Saturday night with Lois Haynes.

In the election of Sunday School officers and teachers here Sunday, Bernice McIver was re-elected superintendent; Mr. Whitley, assistant superintendent; Reba Haynes, secretary-treasurer; Albert Dean, song leader. Teachers, Mrs. A. J. Martin, Walter Stacy, Mrs. Whitley, Mrs. Bernice McIver, Mrs. Will Haynes, Mrs. Clarence Ford, Mrs. Walter Stacy and Mrs. Gertrude Martin.

Remember the Lions Club Carnival, Saturday, Oct. 12.

Mr. Waymon Matthews and family and his mother, Mrs. Hughes spent Sunday with Mrs. "Ma" James and other relatives.

Rankin McIver spent the week-end in San Antonio with his sister, Mrs. Bernt Johnson and attended the football game between Texas A. & M. and Texas Tech.

Mrs. J. S. Laughlin's children and their families all came in to see her Sunday, also James and family from Brownwood.

Mr. and Mrs. Bobo and their son and family from Brownwood spent Sunday with Mr. and Mrs. R. H. Mustian.

Roberta James and several other school children are having to miss a few days from the schools on account of colds and sore throats.

Mr. and Mrs. Marvin Whitley visited Mr. and Mrs. John Pentecost Sunday night. Mrs. Pentecost seems to be recovering nicely from a recent illness.

Mr. and Mrs. Bernice McIver and family were Sunday visitors in the Marion Ford home.

**Feed Prices Lower
Eggs Higher**

Egg prices are much higher this week and feed prices have dropped considerably.

The feed-egg price ratio is now very favorable and good profits can be made from producing eggs.

Now is the time to feed your flocks Red Chain Lay Feed and cash in on these conditions.

SCHOOL DAYS ARE HERE ONCE MORE... Gradually the days will grow shorter and nights longer. More and more of the family's work and play will be done under artificial light.

Start now, at childhood, to insure your children's good vision in future years.

It is a known fact that 3 out of every 4 people have defective vision by the time they reach 50. In most cases, it is traceable to poor lighting or the improper use of eyes in childhood. Therefore, use adequate and glareless light in your home—it will not only safeguard young eyes, but help older eyes as well.

Our lighting engineers will gladly assist you in obtaining the proper seeing conditions. This free service is yours for the asking.

The Mountaineer

Betty Ann McCaughan
 Editor-in-Chief
 Coyita Griffin
 Associate Editor
 Reba Goodgion
 Senior Reporter
 Ruby June Humphries
 Junior Reporter
 Donietta Robinett
 Sophomore Reporter
 David Hunter
 Freshman Reporter

BY THE EDITOR
 "The Mountaineer" is off to a good start this year with Miss Anglin as our sponsor.

This is our first issue with some of the old Press Club members helping out. We hope to be organized very soon. Our desire is to put forth our very best efforts and to publish a better "Mountaineer." With the full cooperation of the members of the Press Club, I feel sure we can accomplish this.

We sincerely hope that the citizens of Santa Anna will have a clearer understanding of the work of S. A. H. S. through the reading of the "Mountaineer".

FOOTBALL REVIEW

This year the Mountaineers started off with a bang by beating Rising Star 6-0 on September 13. Every boy did his very best and made some outstanding plays. Here we welcome a new player, Gene Sherrod from Waco. He is a credit to our team. Many of the outstanding plays were made by him in each game. We also welcome James England, a last year's outgoing senior who stayed to play football another year. Three cheers for Bob Hen-

derson, who hurt his leg last year and attempted to play this year in our first game and hurt his leg again! He will be unable to play any more this year. We all hope he will be on the line-up next year.

The following Friday night, September 19 they were up against a much stronger team — the Early High Longhorns. The results of this game were Longhorns 7 and Mountaineers 6. On September 20 a game was played between Coleman and Santa Anna B teams. With the hard playing of a new player, Joe Sellers from Lakeview, the score stood at 21-0 in favor of Coleman, but it was a good experience for both teams and a great thrill for all. With the leadership of Coach Whitaker and everybody rooting, the boys, Boyd Stewardson, LH; Howard Lovelady, FB; Arthur Dean Talley, RH; Gene Sherrod, Q; Pat Gilmore, RE; Freddie Henderson, RT; Jerry Fulton, RG; King Auestead, C; Bob Stafford, LG; Jim Goodwin, LT; James England, LE; Maurice Kingsbery, FB; Jonnie Hartman, RH; Jackie Watkins, C; and Stanley Cobb, RT can make the Melvin game on October 4 a success. Everybody be sure and come to yell for our boys. They need support from the spectators as well as on the line.

SCHOOL NEWS

School got off to an excellent start with September 2 registration day for seniors and juniors, and September 3 for sophomores and freshmen.

High school days are running smoothly on seven 45 minute periods with those in the band staying after school under the

direction of Miss Dorothy Jean Burrage, who is also sponsoring the pep squad.

A new subject was offered this year. The subject is public speaking with 23 enrolled and taught by Miss Erma Anglin.

The Homemaking Club, Student Council, Pep Squad, F. F. A., and Press Club have been organized with many interested in all. The students are backing the football team 100%.

The freshmen boast the largest class of 60 students. The juniors have 51 enrolled, the sophomores have 49 and the seniors last with 37, making a total of 197 students enrolled in the entire school.

Principal Whitaker has expressed his desire to have less failures this year than in previous years. He and Superintendent Kettner are doing a good job with the combined efforts of Mrs. Charles Evans, Mrs. Henry Davis, Mrs. L. A. Singleton, Miss Erma Anglin, Mrs. Earl McQueen, Mr. A. D. Pettit and Miss Dorothy Burrage.

Fun and frolic for all at the Lions Club Carnival, Sat., Oct. 12.

SENIOR NEWS

Monday, September 30 the senior class had their last meeting for electing officers. These are president, Pat Gilmore, vice president, James England; secretary treasurer, Betty Ann McCaughan; reporter, Reba Goodgion, historian; Howard Lovelady

dy and prophet, Doretha Faye Casey.

We have two new members of the class who are Faye Hartman and James England.

The class elected Rhoda Howard and Howard Lovelady as the senior representatives to the student council. Maurice Kingsbery was elected by the student body as president of the student council.

The two senior girls elected to run in the race for F. F. A. sweetheart were Zona Douglas and Reba Goodgion.

Senior football boys are Jackie Watkins, Bob Stafford, Maurice Kingsbery, Howard Lovelady

dy, Raymond Steward, James England, Jerry Fulton and Pat Gilmore.

The girls of the class are well represented in the pep squad. Reporter.

Plan to attend the Lions Club Carnival, Saturday, Oct. 12.

For the first time, Eversharp CA Pen. Guaranteed forever, \$15. Corner Drug Store.

Mr. and Mrs. Fred Hamons of Donna visited Tuesday with his sister, Mrs. Floyd Hale and his nephew, Bruce Snodgrass. The Hammons were on their way to Dallas to visit with a daughter.

**Improved
Uniform
International** SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D.,
Of The Moody Bible Institute of Chicago.
Released by Western Newspaper Union.

Lesson for October 6

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education, used by permission.

PAUL'S BACKGROUND AND EARLY LIFE

LESSON TEXT—Acts 21:39; 22:3, 27, 28; 23:4, 5; Philippians 3:5, 6.
MEMORY SELECTION—Remember now thy Creator in the days of thy youth—Ecclesiastes 12:1.

God works through men. When we study his work we study the lives of men—all types of men—but all yielded to him, and used by him.

Paul stands out as one of the most influential characters in all history. His life and letters, which we are to study the next three months, have had a tremendous effect on the human race. Especially is this true of his position and influence in the Christian church.

Under God he was the one who carried the gospel to the Gentile world, and then began the great missionary program of the church, which goes on to this very day. His writings are the steady and extensive foundation of much of our study and teaching of Christian doctrine.

I. Birthplace (Acts 21:39).

The place of a man's birth has a definite influence on his personality and usefulness. Tarsus, where Paul was born, was one of the most cosmopolitan cities in the world of that day. It was a Roman province, where men proudly held their citizenship in the great empire. Greek, the language of world culture, was spoken there.

Tarsus was a great educational and university center. It was in a rich and fertile area. It was at the head of navigation on the river Cydnus and on a great Roman highway. It was the capital of the province.

II. Education (Acts 22:3).

After his early training in the home and under rabbis in Tarsus, he went to Jerusalem to study in what was probably the best-equipped Hebrew college of that day, under one of the greatest teachers, Gamaliel.

Somewhere in his rearing he was taught a trade, for every Jewish boy learned to support himself with his own hands (see Acts 18:3). He was instructed in the Word of God, and had a consuming zeal for religious things. Until he was converted, it counted against Christianity, but afterward it became a flaming fire to spread the truth in all the world.

His combined zeal and knowledge made him a man of truly broad mind and tolerant spirit (Acts 5:35-39).

III. Citizenship (Acts 22:27, 28).

The mighty power and prestige of Rome stood behind every Roman citizen. Paul used his citizenship for protection. It helped him in his service for the Lord. Its prestige was used for God's glory.

It is a good sign when a man is proud of his national background, and it speaks well for the nation to which he belongs. But Paul came (as every Christian does) to know and appreciate a higher citizenship.

IV. Religion (Acts 26:4, 5).

Though a free-born Roman citizen, Paul was a Jew, and loyal to the religion of his people. He was a member of the strictest sect, the Pharisees, in which his family had held membership for generations.

He lived consistently in the observance of the laws and customs of his religious faith, and none could point to any flaw in his doctrine or failure in his life.

When he became a follower of Christ, there was no ground on which anyone could dismiss his conversion and his witness as the outbreak of a new viewpoint on the part of a renegade Jew.

It is to a man's credit that he faithfully lives up to the beliefs of the religion he professes. The result of such sincerity will be conversion, if he, like Paul, meets Christ and honestly faces the question of loyalty to him.

V. Race (Phil. 3:5, 6).

Paul counted it to be an honor to be known as a Hebrew and gloried in the fact that he was born, trained, and lived within that racial as well as religious circle.

No one need ever be ashamed of his race, although he may be ashamed of things which members of his race have done. But there are even more things of which to be proud, and a man may add to the standing of his race by living his own life in cleanness of character

Rockwood News
(Mrs. Ray Caldwell)

There was a fair sized crowd out for Sunday School and church Sunday considering the weather. It was cold and raining. Bro. and Mrs. R. A. Pape and family of Brownwood spent Sunday in the home of Mr. and Mrs. R. L. Stewart.

The good women of this community met last Wednesday in the home of Mrs. Boss Estes and sewed for Mrs. Billie McIntire. The McIntires lost their home and contents in a fire.

Mrs. Lucy Shamblin of Aspermont has been visiting with her daughter, Mrs. Herman Estes and family.

Mr. and Mrs. Collins Wise of Ft. Worth visited this past week with his mother, Mrs. J. W. Wise and other relatives.

Mr. and Mrs. Clyde Box and son, Mr. and Mrs. Arthur Box of San Angelo spent Sunday with their mother, Mrs. Velma Box.

Mr. and Mrs. Jack Bostick spent the week-end with relatives in San Saba.

Mr. and Mrs. Victor Payne and girls of Lubbock are visiting here with her parents, Mr. and Mrs. F. E. McCreary.

Mr. and Mrs. F. E. McCreary and Mr. and Mrs. Payne visited in San Antonio over the week-end with Captain and Mrs. Frank McCreary, Jr. and son.

Mrs. F. E. McCreary attended the funeral of her father, J. G. Inghram of Eddy. He was laid to rest there last Thursday. We extend our heartfelt sympathy to the bereaved.

Mr. and Mrs. R. L. Stewart and Mrs. Ray Caldwell visited in Ft. Worth last week with their son and brother, Capt. and Mrs. Robert Stewart and baby daughter, Mrs. Claude Hardee and Mrs. Charm Cullum of Dallas joined them there also.

You are invited to attend the Santa Anna Lions Club Carnival-Joe Fred Estes, who is attending

school at Hardin Simmons, visited his parents, Mr. and Mrs. Sam Estes this week-end.

Hamilton Caldwell of Houston visited this past week with his uncle and aunt, Mr. and Mrs. Fred Shufford. John Carl Box was a luncheon guest in their home also.

THE DAY, SAT., OCT. 12. Santa Anna Lions Club Carnival.

Mrs. W. E. Ragsdale, who has been quite sick lately and in the Sealy hospital for several days, was moved to her home last week and is considerably improved.

We now have in stock a few '51 Pens. Corner Drug Store.

Attend the Lions Club Carnival in Santa Anna, Saturday, Oct. 12.

Mr. and Mrs. W. H. Thate of Comanche visited and attended to business in Santa Anna Tuesday.

Eversharp Pens and Pencils. Pens are \$3.95 to \$15.00. Pencils are \$1.50 to \$3.75. Corner Drug Store.

From where I sit... by Joe Marsh

Bert Childers and the Melon Patch

Bert Childers put an ad in the Clarion the other day. Here's what it said:

"Planted more melons than I can eat this year. Stop by and pick as many as you want. All free."

As you can guess, plenty of folks sent their kids over and plenty of the parents came too. Stripped Bert's melon patch in no time. And as they went away, Bert treated the kids to lemonade, and offered the grownups a glass of ice-cold sparkling beer.

Naturally it puzzled some folks... but Bert explains: "It gives me a kick to share things when I can afford to—whether it's the melons, or the lemonade, or beer. I guess I just like to indulge my whims."

From where I sit, if we had more "self-indulgent" people like Bert—who believe in share and share alike, live and let live, this tired world would be a whole lot better off!

Joe Marsh

acter and nobility of purpose. It is never a commendable thing to be ashamed of the race of one's fathers.

We must remember, however, that all the things in which Paul gloried, he found to be but refuse when he compared them with Christ (see Phil. 3:7, 8).

Everything worthwhile in a man's life God can glorify and use. But none of them, no matter how precious they may seem to be, compares with fellowship with and service for the Lord.

Federated Missionary Society Entertains

The Missionary Society of the First Presbyterian church entertained the Federated Societies Monday afternoon at the church.

The meeting was opened by singing "Jesus Calls Us". The thirteenth chapter of First Corinthians was read responsively. Miss Gale Collier sang "The Holy City" with Novelle McClellan at the piano. Mrs. Jasper McClellan presented the Rev. Ben H. Moore, pastor of the church as speaker of the afternoon. He brought a fine message on "The Challenge of the Great Commission" and urged those present to have a part in sending the Gospel throughout the world. After the message the congregation joined in singing "Blest Be the Tie that Binds".

During a short business session presided over by Mrs. McClellan, the minutes of the previous meeting were read and announcement made that the next meeting would be on December 30th with the Cumberland Presbyterian women.

Lovely refreshments consisting of open faced sandwiches, nuts, angel food cake and coffee were served to the approximately 40 ladies present.

Syble Phillips Weds Lee Ray Huggins

On Friday, September 27th at 2 o'clock in the parsonage of the First Methodist church of Coleman, Miss Syble Phillips became the bride of Lee Ray Huggins. The pastor of the church, Rev. L. Bowman Craven, performed the ceremony.

The bride wore a light blue suit with black accessories. For something borrowed she wore ear screws belonging to Lennie Robnett, and for something old she carried a lace handkerchief belonging to the groom's mother. They were accompanied by the bride's brother, Leon Phillips. The couple left immediately after the ceremony on a trip including Ft. Worth, Abilene and San Angelo.

The bride is the daughter of Mr. and Mrs. D. S. Phillips and the groom is the son of Mr. and Mrs. Thomas Huggins. The groom is employed at the Coleman Airport and the bride was employed until recently at Grammer's store. The couple have an apartment in the home of Mrs. Nettie Mitchell.

Mr. and Mrs. Arthur Talley received a telegram Tuesday morning informing them of the birth of a son, Arthur Alexander Allen, at 1:15 a. m. Tuesday, October 1 to Mr. and Mrs. Chas. Allen in Albany, N. Y. Mrs. Allen is the former Miss Aline Talley. Plan to attend the Lions Club Carnival, Saturday, Oct. 12.

Tommy Upton visited last week-end with friends in Lubbock.

Eversharp Pens and Pencils. Pens are \$3.95 to \$15.00. Pencils are \$1.50 to \$3.75. Corner Drug Store.

Dr. and Mrs. E. D. McDonald accompanied by Mr. and Mrs. Newman Upton of Coleman spent last week fishing at Aransas Pass and Rockport.

A group of Methodist women attended a Seminar at the Central Methodist Church in Brownwood on Thursday of last week. They were Mrs. Dan Blake, Mrs. O. A. Etheredge, Mrs. Bill Griffin, Mrs. Arch Hull, Mrs. Oscar Cheaney, Mrs. A. K. Marney, and Mrs. Tom Hays. At this meeting the fall study course for the Womans Societies of Christian Service was planned.

CARD OF THANKS
I wish to take this means of expressing my thanks and gratitude to my friends and customers for their patronage while I was operating the Texaco Service Station. It has been a privilege to serve you. — Thank you, Bob White.

CARD OF THANKS
To my friends and customers I send my word of thanks and appreciation for their patronage shown me while I was operating the Gulf Service Station. I enjoyed serving you. Again I say thank you. W. A. Davis.

CARD OF THANKS
We wish to express our thanks to our many friends for the kindness shown us in the death of our beloved husband and father, Jasper M. Weathers. We also thank you for the nice floral offering. May God's blessings be upon each of you. — Mrs. Jasper M. Weathers and children.

Miss Syble Phillips Honored With Shower

Mrs. John Perry assisted by Mrs. Woods, Mrs. D. S. Baugh and Mrs. Hibbits entertained at her home Wednesday afternoon September 25 with a miscellaneous shower honoring Miss Syble Phillips. The lovely brides book was made by Mrs. Woods, was presided over by Mrs. Dorothy Wallace. Cht flowers decorated was played throughout the afternoon, after which many lovely gifts were opened by the bride and admired by all. Refreshment's of cookies with pink topping and soft drinks was served to 27 present and the bride's book contained the names of forty attending or sending gifts.

Self Culture Club

The Self Culture Club met Friday afternoon, September 27th, with Mrs. W. R. Kelley. Roll call was answered by name of a famous woman and a program on famous women was given. Interesting facts concerning the lives of Queen Ester, Susanna Wesley and Susan B. Anthony were given by Mrs. Norval Wylie, Mrs. Hardy Blue and Mrs. Preston Bailey, respectively. The next meeting will be at the home of Mrs. Harry Crews instead of Mrs. Blue as stated in the year book. Those in attendance were, the hostess Mrs. Kelley, Mrs. Banister, Mrs. Bruce, Mrs. Oder, Mrs. Blue, Mrs. Eeds, Mrs. Crews, Mrs. L. O. Garrett, Mrs. Lon Gray, Mrs. Glen Williamson, Mrs. Prestin Bailey, Mrs. Jim Harris, Mrs. Rex Golston and Mrs. Norval Wylie.

Meet your friends at the Lions Club Carnival in Santa Anna, Saturday, Oct. 12.

Buffalo Class Elects Officers

The Junior Class of the Buffalo High School met Monday, September 16 to elect the class officers. The following officers were elected: President, Rita Jean Walton; vice-president, J. H. Crockett; treasurer, Eugene Lobstien; reporter, Darald Studdard; sponsor, C. R. Lowe.

A class meeting was called again on Monday, September 23, by the new president, for the purpose of electing a social committee.

Mr. and Mrs. J. Edd Bartlett returned last week from a stay of several weeks in Mineral Wells. Mr. Bartlett didn't catch as many fish as he hoped but Mrs. Bartlett improved in health in a fine way, which was the main object of the trip.

Mrs. Edd Jones has returned from Austin, where she visited with her daughters, Mrs. Nye Reed and Aline Jones.

Plan to attend the Lions Club Carnival, Saturday, Oct. 12.

Mrs. Lovell Richardson and Mrs. Clifford Stephenson and Vernetta were in Abilene Wednesday visiting and attending to business.

I am in the market for cotton. See Elm Wallace. 40p

Mrs. Alex H. Riddle, who has been quite sick recently and was hospitalized for some time, is convalescing nicely at her home.

Members of the Home Demonstration club wishing to attend the meeting at Mrs. Neely Evans Friday afternoon and having no conveyance are asked to be at the Corner Drug Store at 1:30 where a way will be provided.

Remember the Lions Club Carnival, Saturday, Oct. 12.

Mr. and Mrs. C. O. Miller of Cross Plains visited several days last week with her parents, Mr. and Mrs. T. H. Upton.

Mrs. L. L. Coffman and two children, Mrs. Carl Sheffield and Mrs. Edward Bailey and son from Brooksmith visited with Mrs. Hattie Shields Tuesday afternoon.

Mrs. John Campbell returned Monday from Mullin where she had visited two weeks with her sister, Mrs. L. V. Kimmons.

Mrs. Fred Turner, Mrs. John R. Banister, Mrs. C. D. Bruce and Mrs. H. W. Kingsbery spent last Wednesday in Stephenville and Hico. They took Mrs. Turner's sister, Mrs. Addie French, to her home in Stephenville, visited there with Evelyn Bruce and visited in Hico with Mrs. Kingsbery's sister, Mrs. Roberts.

We now have in stock a few '51' Pons. Corner Drug Store.

Mrs. Toy Post of Santa Anna and Mr. and Mrs. Matt Estes of Rockwood went to San Antonio last Friday where they visited with Mrs. Walter Martin, daughter of Mr. and Mrs. Estes. On Saturday night they attended the football game between Texas A. & M. and Texas Tech, which was held as scheduled regardless of the flood. The game resulted in a final score of 6 to 0 in favor of Texas Tech. Gerald Post plays in the A. & M. band.

SOVIET RUSSIA'S Post-War Aims And Long-Range Planning

(Condensed from St. Louis Post-Dispatch)

THE attitude of the top men in Russia's diplomatic circles toward the conciliatory efforts of the Western powers has been hard to understand. It has often seemed needlessly aggressive and the overall planning somewhat lacking in cohesion and long-range intelligence.

To explain even partially the current Soviet attitude it is necessary to remember that the men who lead Russia's international corps today are semi-Orientalists who not only have had little to do with the Western world but have been actively discouraged from having anything to do with it.

They have been reared in an atmosphere of distrust for what they have been taught is a heretical system of selfish exploitation. They believe that there can be no good in a capitalistic nation because such nation is founded on a fallacious principle of government.

The attitude of the fanatical Soviet statesmen to the run-of-the-mill Democracy is similar to that of an ancient Mohammedan zealot toward the Christian nations.

Russia's Aims

In view of this fanaticism it is important for us to ask what Russia's aims are in the post-war world.

The pattern is becoming increasingly clear and it is obvious that the overall plan was made many years ago. It is not an improvised pattern, but a carefully considered one.

Russia wants, first of all, to maintain an iron hand both from a military and a political point of view in her adjacent satellite nations. She has twice been attacked through neighbor territory within the last thirty years and she does not want this to happen again. Therefore, she insists on having either friends or slaves along her borders. That is why she insists on Poland, Austria, Romania, Bulgaria, Czechoslovakia and Yugoslavia following her orders.

She wants to fortify the Dardanelles and to obtain navigation rights along the Danube so she can have a full share in the control of the Mediterranean. She fears British dominance in the Mediterranean and in other areas of Europe, Asia and Africa.

Russia insists on "protecting" her people from what she claims is capitalistic propaganda in much the same way that the Christian churches seek to protect their communicants from heresy.

She is accomplishing this by developing the nationalistic spirit to a high degree and by constantly pointing out the alleged weaknesses in democratic processes.

In short, Russia wishes to gain everything she can short of war. She does not want war now, but is trying to win

PREMIER JOSEPH STALIN
Stalin said recently he does not believe there is danger of a new war.

the peace according to her own strategy and way of thinking.

Fear of Encirclement

The Russians have often stated that they are in constant fear of "encirclement" by the Western powers, although in a recent statement Stalin said this could not be done.

It is obvious that Russia intends to

build up an ideological hedge of buffer States between herself and the rest of the world. She intends to maintain the famous "iron curtain" indefinitely and will emerge from behind it only to negotiate or, perhaps, threaten to make war.

This insistence on buffer states is responsible for some of the weirdest political mix-ups taking place today in the Russian zone of Germany. The Soviets have complained loudly about the slowness of our de-Nazification of the American zone of Germany, but they themselves are accomplishing that objective by the simple expedient of enrolling all the known Nazis they can lay their hands on into the Communist party.

Perhaps the most notorious case of this is that of Erwin Berghaus, a former Goebbels hireling. Berghaus is the author of "U. S. S. Nakt" ("U. S. A. Naked"), an important Nazi propaganda tract during the war.

When the war ended, despite international agreements that all known Nazi propagandists would be barred from all German media of information, Berghaus had no trouble in getting a job on one of the most popular illustrated weeklies within the Russian zone.

Nazis Preferred

The Berghaus case is not unique, nor is it an accidental oversight. There are even some categories of employment for which the Soviets actually seem to prefer former Nazis. One such category is the efficient corps of German spies, propaganda agents and agents provocateurs who have been taken over en masse by the Russian agencies.

Another category of even greater interest is the corps of leaders and organizers of the "Free German Youth." General Zhukov has incorporated this highly organized group into a Soviet imitation of the Hitler Jugend. There is the same regimentation, the same political emphasis (though from a different angle), the same arrangement of special training and indoctrination for youth leaders. The most important school in this regimented hierarchy is a huge chateau which formerly belonged to Goebbels.

These bands of Soviet youth were filled up by giving Hitler Jugend leaders a short probationary course and then putting them in business again at the same old stand.

Former Nazis who did not hold too conspicuous positions under Hitler are

arrangement, incense burning, marriage, dress, tea ceremonies, and fishing with ceremonies. All this is part of the program to promote understanding and, coincidentally, friendship toward the Japanese people.

Problems still remain, of course. As General MacArthur pointed out, much remains to be done. Food has become an important political issue. The people have grown increasingly doubtful about the ability and strength of Premier Shigeru Yoshida's government. That doubt has become stronger since the government's efforts to regulate the production and distribution of the nation's food supply have so far failed to work out effectively.

The Allied occupation has given the government some help as to food, however, by extending the sea territory into which the Jap fishing fleet may penetrate. Since fish is a staple on the Japanese family table, this will give a substantial boost to the national diet.

Another headache for the Yoshida government is difficulty encountered in attempting to renew the Japanese economy. The coalition of so many widely different economic philosophies within the cabinet, ranging from the extremely conservative to the extremely radical, has made the establishing of a vigorous plan of action toward a national economy impossible so far.

Union labor is on the march in Japan, and the number of unions has more than doubled in the last three months. Wages have increased, although they still lag behind the cost of living. Japan has more than five million unemployed at this time. Black market activity is increasing at a rate of approximately 24,000 additional cases each month.

Danger of Communism

Japan, as General MacArthur pointed out in his report on the first year of occupation, can be "either a powerful bulwark for peace or a dangerous springboard for war." He declared that the "dread uncertainty" of conflict between Democracy and Communism hangs over the nation, and that the outcome of this conflict will affect all men.

(Continued on Page 5, column 4)

allowed to purify themselves automatically by joining the Unity Party in which the Soviets have forcibly merged Socialists and Communists in their zone.

At a single meeting in Zepernick, 110 former Nazis were herded together and told that they could gain forgiveness for their former sins by joining the Communist-controlled Unity party there and then. All 110 signed up en masse. They knew from experience what would happen if they refused.

Among Scientists

The Russians are particularly eager to let bygones be bygones when dealing with top Nazi scientists. Since every scientist in Germany had to be a party member, our own industrial aims in the American zone have been hampered by our rigid de-Nazification policy.

But not so among the Soviets. While we have been throwing many of the best German scientific brains out of jobs, the Soviets are hiring them as fast as they can. And they continue to attack our slow de-Nazification processes while they do so.

The Soviet hiring is done by organized agencies. Naval construction engineers are badly wanted by the Reds, for instance. Since the Potsdam agree-

ments, German shipyards have been shut down tight. So the Russians have hired all the best German naval construction men.

Among those that have been hired are the great engineers, Hartung and Geister, who took leading parts in the development of the revolutionary long-range, radar-proof submarine which the Germans completed but never got to use during the war. Geister and Hartung are now working in Russia, presumably developing this highly useful underwater vessel for the Soviets.

Lesser scientists are being put to work in the Soviet zone of Germany. More than 1,000 are employed in one plant in the South Harz where V-A rockets are being manufactured. And this development of a Soviet war-potential on German soil is taking place everywhere behind the "iron curtain."

The Soviet aim in Germany is simple. The Hitler Jugend were trained by the top Nazis in an efficient, though perverted, school of leadership. They were trained to take over the country and the Germans were trained to accept them as future leaders. Should America, France and England withdraw from Germany the Russians will also effect a token withdrawal. But the highly trained youth leaders will infiltrate into every corner of Germany and possibly take over the political reins. Only, now they will be working for

(Continued on Page 5, column 1)

RODEO, Thrilling and Hazardous Sport

By BOOTH MOONEY

1339 Liberty Bank Bldg., Dallas, Texas.

WITH the war out of the way, scores of Texas communities this year turned again to the great sport of rodeo. Tens of thousands of Texans again thrill to the sight of intrepid cowhands riding rearing, bucking bronchos to a finish, sitting astride mad Brahma bulls, roping skittish calves and trick-riding recklessly and skillfully.

The rodeo came back with a bang in Texas. Many annual rodeo events that were suspended during the war

commodate visitors attending its Fat Stock Show and Rodeo in November. The "Preview Madison Square Garden Rodeo," tuning up for the big national rodeo in New York City, was held in Dublin, Erath county, last month. A highly successful rodeo was recently staged at Arlington, Tarrant county, and the 29th annual Panhandle-South Plains Fair, held in Lubbock, in the heart of West Texas, featured a rodeo.

These are only a few of the outstanding cowboy-and-cowpony shows staged in Texas during the year. Hardly a sec-

Bronco busting—most popular rodeo event.

were staged again, and as the season draws to a close plans already are being laid for bigger and better rodeo shows in 1947.

Many Texas Rodeos

From the Panhandle to the Gulf, from the western to eastern borders of the Lone Star State, the corrals went up, the flags were hung, and spectators streamed in from over the countryside to see the cowboys and cowgirls strut their stuff.

At Fort Worth, in the Spring, the rodeo held in connection with the Southwestern Livestock Exposition, attracted huge crowds. The annual Fourth of July Rodeo in Stamford, Jones county, was one of the most successful ever held. Houston is preparing to throw open the city gates to ac-

tion of the State was without its rodeo. Some were big, professionally-managed affairs, others were community rodeos, with professional entrants bared. All were very much in the tradition of Texas, where the rodeo originated, growing out of the duties the cowboys performed in their daily work on the range.

The spectacular rodeo is the Southwest's distinctive contribution to the field of sports. It is a sport which is advancing rapidly in public favor and may well outrank all other sports within a few years. The first rodeo offered to the public as a paid entertainment feature was fifty-nine years ago.

Events of the Rodeo

The basic event of all rodeos is sad-

(Continued on Page 7, column 3)

JAPAN One YEAR After Occupation

By SPECIAL CORRESPONDENT

ONE year after the surrender of Japan, Gen Douglas MacArthur, Supreme Commander of the Allied Powers, issued a summary of the first year of the American occupation of that country. Much has been accomplished during that year, General MacArthur said, and much remains to be done. The year, he said, has shown a significant gain for the "forces of democracy in furtherance of a durable peace."

In issuing his report, General MacArthur recalled the principal purposes announced by the occupation authorities when they took over the country a year ago. His report showed that definite progress has been made in certain important respects.

Free Election

For one thing the Japanese, wholly unaccustomed to democratic processes, held their first free election during the year. This election enabled them to choose a government of their own and was participated in by women as well as men, thus marking a definite break from past customs of Japan.

Another important purpose of General MacArthur and his aids was to break down military caste and military worship by the Japanese people. Long strides have been made in that direction. The military is pretty well discredited, the army and navy have lost face and should never again be able to ride roughshod over the Japs generally.

The Emperor of Japan, still regarded by his people as their true leader, has been "humanized" to a remarkable degree during the last year. His picture has appeared in newspapers. He has moved among the people, and many of them have seen him at close range for the first time in their lives.

Another aim was to rebuild the Japanese economy and to get the na-

tion back on its feet. Japan, it should be remembered, was ravaged by war less than Germany. The atomic bombs, terrible as they were, affected only two cities. Today the other Japanese cities that were bombed are being re-built and intensified interest in agriculture is being encouraged.

General MacArthur was concerned

JAPANESE WOMEN now can help rule their country, but they still are bound by age-old traditions and customs. Above, a woman delivers a radio broadcast with her young child strapped to her back.

from the first with establishing and maintaining friendly relations between the occupation forces and the civil population. Great progress has been made in this particular. The 190,000 American soldiers in Japan are being led by the Army to a knowledge of Japanese customs. Every soldier receives at least one hour of instruction each week in such non-combat subjects as flower

CURRENT COMMENT

By STAFF EDITOR.

Cream of German Science Skimmed
EXPERTS of the U. S. Office of Technical Research are carefully reading approximately 3,500,000,000 pages of secret and confidential German scientific data in Berlin and sending the cream of it back to the United States.

Approximately 100 OTS editors, supervisors and microfilm experts and 600 German technicians, plus an undisclosed number of military personnel, are engaged in the task. Approximately three million pages of the material will reach the United States, or slightly less than ten per cent of the total mass.

The OTS authorities say that Germany was the only country in the world with any quantity of scientific data which was not available in this country. Much of the data includes first hand reports on important experiments and numerous secrets of the famous I. G. Farben munitions firm.

OTS is making many of its secrets available to American industry. Already listed are reports on the German manufacture of soap, leather, adhesives, paints, varnishes and synthetic waxes.

Auto Makers Hopeful

Although the nation's car builders expect little improvement in their production figures in the immediate future, they still hope to build as many automobiles and trucks during the remainder of the year as they turned out during the last eight months.

If this figure is reached, the aggregate production for 1946 will reach 2,300,000 passenger vehicles and 1,000,000 commercial units. That figure will be a few thousand short of the 1939 production.

Main difficulties being encountered are shortages of parts and raw materials and of manpower.

Thunderstorm Problems Studied

"Operation Bluestreak" is a phrase that Americans will grow familiar with during the next few years.

It represents an effort by the U. S. Weather Bureau, working in close conjunction with the Army and Navy, to solve mysteries of thunderstorms. The Army Air Forces consider this attack on one of nature's most perverse and powerful mysteries so important that it has granted it a priority second only to atomic research.

It will result in the gathering of information so precise that experts will be able to predict possible eventualities arising out of any given storm. It will also enable control tower personnel to tell pilots whether they should fly around or through a storm or not fly at all.

Mailing Dates Revealed

Christmas packages for soldiers overseas may be mailed without request slips between October 15 and November 15 this year. The dates are a month later than those prevailing during the war.

Packages for soldiers in far distant places, such as Korea, should be mailed in October, however, postal authorities warned. The smaller number of men overseas has made a later gift mailing date practicable, the announcement said.

Weak Reich Forecast

Lt. Gen. Lucius D. Clay, deputy military governor of the American zone in Germany, has declared that it will take "at least until 1950" to bring Germany even to the low subsistence level agreed upon by the occupation powers.

Clay said Germany no longer has any war potential of its own and, even if left completely alone, could not develop the physical necessities for making war within ten years. He said the U. S. military government could turn over its duties to a civilian agency at a moment's notice. He added, however, that the German mass mind has not moved very quickly along the paths of democracy.

A Cure for Plague

Plague, which has been the curse of almost every country of Asia and Africa at one time or another, can now be wiped from the face of the earth by widespread application of the common drug, sulfadiazine, according to Dr. Karl F. Meyer of the University of California.

The drug is now being used in China, a perennial plague spot. It is used as a preventative and not as a cure and has cut down plague outbreaks to a minimum.

Dr. Meyer said he believed the vicious plague chain of flea-to-rat-to-human could be broken by employing sulfadiazine among humans and DDT among the rats and fleas. The cost of eliminating plague comes to about 15 cents a person.

Pensions Mount

A flat 20 per cent increase has been added to all First and Second World War pensions as the result of action taken by Congress at its last session.

Pensions and compensations cost

Uncle Sam \$1,250,000,000 during the 12 months ended last June 30. The cost would be greater this 12 months even without the increase. Many Second World War veterans who have applied for pensions haven't yet been awarded them. Others who haven't applied will do so soon.

The new pension legislation will cost somewhere around \$300,000,000 the first year, the Veterans' Administration estimates. Two million veterans of both world wars and 400,000 dependents of deceased veterans will profit.

The tongue-tied suitor.

U. S. All-Atomic Air Bombardment Force

The first U. S. all-atomic air bombardment force is now training at a half dozen air bases in the Southwest.

The shaping and molding of an unparalleled unit of bombardment destruction is underway, should it ever again be needed as a national or international force.

Only a working nucleus of the eventual force of 12,000 men who will comprise this country's initial step into the atom-bombing field on a mass scale are now assigned to Brig-Gen. Roger Ramey's 58th Very Heavy Bombardment Wing.

Next spring will mark the first time these atomic bombers will maneuver on a global scale. They will operate as a completely air-borne entity and as one of the fastest moving task forces, if not the fastest in the world.

Airmen who will fly the "A-bomb-

ers" will watch the world shrink. Berlin no longer will be 2,900 miles away, but will be nine flying hours, allowing for so much gas load at specific altitudes.

Women to Outnumber Men

The U. S. Census Bureau claims the population of the United States will reach a peak of 165,000,000 people in 1990 and that the women will continue to outnumber the men. Present population is 140,840,000.

The forecast, based on assumptions of medium mortality and medium fertility, contends that females will maintain the 370,000 population edge they now hold over the males until the year 2,000. It also predicts that the population will fall off after 1930 at a rate of approximately 180,000 a year.

Third Bikini Blast Put Off

President Truman has postponed indefinitely the third Bikini atom bomb test, a deep underwater explosion which had been tentatively set for March 1, 1947.

The President said the first two tests had provided enough information for the experts to make a proper evaluation of the weapon and further results would not justify the expense of the \$35,000,000 necessary to conduct the experiment. The first two Bikini blasts cost the government about \$90,000,000.

Potatoes for Stock Feed

The North Dakota Research Foundation has reported to the American Chemical Society that a cheap method of converting potatoes into stock feed has been discovered. The report said that farmers will now be able to market inferior grades of potatoes which are usually unsalable.

The new process reduces the potatoes to a pulp and dries the pulp to the consistency of ground grain. It costs about one cent a pound.

Post-War Treatment of Germany

Secretary Byrnes thinks the time for a showdown on post-war treatment of Germany is now.

In order to dramatize his action, he traveled to Stuttgart in a train formerly used by Adolf Hitler. He could have delivered his speech in Paris, but he chose to go into Germany to find a spotlighted stage for his address. The American people, he knew, were looking forward to the speech for an indication of our foreign policy. The Russians, he was certain, were keenly interested, and his remarks were addressed—actually—to them.

Secretary Byrnes said the United States was in Europe to stay and that it proposed to keep a military force there until the German question was settled.

"We intend to continue our interest in the affairs of Europe and the world," he declared. "We will not shirk our duty. As long as an occupation force is required in Germany the Army of the United States will be a part of that occupation force."

This was serving blunt notice on the Russians that the United States does not intend to abandon Germany to Communist influences which are trying to convert the former followers of Hitler into being followers of Stalin.

Editors Urge World Freedom

The American Society of Newspaper Editors has formally asked the United Nations to adopt a covenant to establish world freedom of information and of the press.

Similar resolutions have been presented to the United Nations previously, but no definite action has ever been taken. "We believe that if the peoples of the earth are to get along together in peace there must be tolerance, good will and understanding," the editors stated in their resolution. "There is but one road leading to this imperative world estate and that is freedom of information, by which all peoples shall know and understand the problems of others. Our object is, in short, to spread the truth."

Planes Serve Whole Nation

Express and freight are taking wings in the United States.

All kinds of goods, from orchids to automobiles, are traveling through the skies. Giant planes, called flying boxcars, drop down on big airports with their loads of freight. Other powerful machines tow trains of gliders across the country. And packages tumble out of the skies by parachute to express and post offices in communities so small that they are not major stopping points on the air lines.

In time, say leaders of the industry, delivery of freight and express by airplane will equal the present air mail service.

Hoover Explains Yugoslavia Ingratitude

An interesting footnote to the Marshal Tito incident is contributed by former President Herbert Hoover, who points out that Yugoslavia received some \$200,000,000 worth of food, clothing, and farm implements from the United States.

Instead of gratitude Tito's regime responded with violence against United States fliers.

Why should a people which we aided so generously act like our enemies instead of our friends? Mr. Hoover gives the answer to that one. He explains that the Yugoslavs know nothing about these gifts because they live in a communistic State with a completely controlled press. It never suited the purpose of their Red leaders to reveal the source of food and other supplies distributed to the people. They themselves took credit for providing these supplies, thereby seeking to increase their prestige and power over the people.

Mr. Hoover makes one other point in his discussion of Yugoslavia. Tito, he says, maintains an army of 750,000 men out of a population of 14,000,000. If these men had been home farming and helping to rehabilitate the nation, Yugoslavia would not have needed so much help from the United States.

Millions of Vets Drop Life Insurance

World War II veterans have allowed upward of 90 billion dollars in government life insurance to lapse through non-payment of premiums. More than 10,000,000 soldiers have failed to keep their policies in force after leaving the service and only 2,700,000 have kept up the premiums.

Veterans can reinstate their policies without a physical examination before February 1, 1947, by paying premiums for two months and signing a statement that their health is as good as it was when they allowed their policies to lapse.

Urges Fight On Communistic Elements

Fritz G. Lanham, retiring as Texas' district 12 Congressman after 27 years' service, sounded a call to arms against "subversive and communistic forces," which he charges are promoting the trend of centralized government and industrial strikes in their effort to destroy our capitalistic system and replace it with communism.

"Unless we of America awaken, they will turn us into a communistic State," he warned, adding that "in a communistic State all are government serfs and slaves except the little group doing the bossing."

Food Supply Cut

The world's food production, on a per capita basis, is about 12 per cent lower today than it was before the war.

Despite tremendous losses of life from war, the world's population is 7 per cent greater than in 1939. Meanwhile, war devastation and labor shortages have reduced the actual production of food about 5 per cent.

Vet Housing Looks Dim

Housing Expediter Wilson W. Wyatt says that there is little hope for the nation to complete 1,200,000 new homes for veterans by January 1 as previously planned.

At the end of July only 287,000 new units had been completed and a mere 194,200 of these were permanent. The rest were trailers, conversions of existing buildings or surplus war housing.

Wyatt is making a drive to stop all unnecessary non-residential building. Not only has this commercial building interfered with priorities for veterans' homes but it has drained off the majority of skilled laborers in the building trades. Plumbing is one of the major shortages; many houses stand complete except for pipes and fixtures.

Heart Disease Spreads

About 4,000,000 persons in the United States have some form of heart disease and the number of cases is rapidly spreading, according to statisticians of the Metropolitan Life Insurance Co.

Main reason for the prevalence of heart disease is the much larger percentage of older people in the population of this country today, the statisticians said.

Aviation Speed Record Set

New aviation records were written into the books at the recent revival of the National Air Races. Alvin "Tex" Johnston set a mark for conventional type planes by averaging 373.9 miles an hour for 300 miles, and Maj. Gus Lundquist took the jet plane trophy by averaging 518.8 mph over a 180-mile course.

Johnston used a specially souped-up P-39 for his flight. Lundquist performed in a Lockheed P-80 Shooting Star.

The sustained flight speed prize was won by Paul Mantz, who piloted a P-51 Mustang 2,045 miles, from Van Nuys, California, to Cleveland, Ohio, at an average speed of 435.5 miles an hour.

Grass Root Reveries

By JOE GANDY

(Copyright, 1946, by the Southwest Magazine Co.)

GOOD old September came through gloriously with rains that improved crops and brought cooler weather. We now go into October refreshed and ready for a full program of fall work. I have plowed and planted grain, repaired the barn and chicken house and fixed up the fences. Wife says I am not as lazy as I used to be though it takes me longer to do the job. She is right. Once upon a time I had a strong back and weak mind, now I have a strong mind and weak back.

These cool October days and nights remind us that winter is on its way in and summer on its way out. We talk a lot about summer heat, but we need heat to grow and mature crops and kill off insects. The world needs all kinds of weather and all kinds of people. Who would care to live in a world that is all winter, or all summer, or all Republican, or all Democrat, or all New Deal, or all Communist?

About the only happy people these meatless days are vegetarians. The meat eaters are sad and worried; they miss their breakfast bacon, their juicy roasts, steaks and pork chops. Meat eaters will learn something, will learn that man can live and be healthy without meat if he eats meat substitutes, such as whole milk, cheese, butter, eggs, nuts, whole wheat bread and cereals. While meat substitutes do not appeal to many folks, they are a lot better than some meat now sold over the counter. This meat is tough, stringy, that long cooking does not make tender. The more you chew it the more it resists chewing until finally you give up in disgust and toss what is left to the cats and dogs. Takes pati-

ence, forbearance and old-time religion to cope with the meat situation.

"Women are better auto drivers than men," according to State Highway Patrolman John H. Boyd of Fort Worth. "Men drivers figure in more accidents than women drivers, are overconfident and think they know it all," Boyd said. Good auto drivers have to be alert against careless drivers who weave in and out of traffic, make left turns without signaling and pass other autos on the road at high speed without sounding their horns. Many careless drivers have the physique of a man and the mentality of a child.

"We poke fun at the horse and buggy days, but 'them was the good old days,'" said an old-timer to me recently. He talked on: "Yes, sir, food was plentiful and cheap — you could buy a good porter house steak from any butcher for 25 cents, breakfast bacon for 10c a pound, eggs 10c a dozen, butter 25c a pound, fryers 15c each, hens 25c each, turkeys \$1 each. At the store a good white shirt cost a dollar and a good suit of clothes \$15. The finest kind of food and plenty of it was served at restaurants and boarding houses for 25c a meal." This old-timer was telling the truth, "them was the good old days," and we shall not look upon their like again.

Another factor in the soap shortage is that housewives have grown careless about saving kitchen fats. During the war housewives were conserving fats at the rate of 200,000,000 pounds a year, a great part of which went into soaps. However, with no patriotic impulses to continue the practice, much fat is now going down the drain or into the garbage can, the Commerce Department estimates, and further says that the

laundry-soap shortage will continue until the end of the year. This soap shortage has hit the Gandy family. Wife is compelled to use toilet soap to wash the dishes. As a consequence, some dishes in which food is served smell of heliotrope or lavender, depending on what brand of toilet soap was used to wash them.

More than a million United States veterans of World War II are back on the farm. Indeed on July 1, an announcement by the Bureau of Agricultural Economics shows, there were 1,045,000 veterans employed on farms. Of these, 713,000 were either farm operators, or members of farm operators' families, while 332,000 were hired workers. This trend of veterans to farms is a hopeful sign. May more of them choose farming as a vocation. The coming years will prove that owning and operating a farm is one of the surest and safest investments.

On his eighty-third birthday Henry Ford was asked what advice, if any, he had to offer young people. The aged industrialist, whose success, through hard work, is typically American, advised the youth of today to "work hard." But it's a sad fact that many youths today do not want to work hard. They want an easy job and a fat salary. They dream of starting at the top instead of at the bottom as did their fathers and grandfathers. However, it doesn't work out that way. Youth must learn that hard work is essential to the winning of success and happiness.

What really counts in life are the things we learn after we know it all. I knew it all when I was only 16 years of age. I was as ignorant as a jackass at 16 but knew it all. At 20 I still knew it all, knew more than either mom or pop. At 25 I still was a very smart young man and could tell anybody how to run their business. At 30 I was still a wise guy, ready to hand out gobs of advice to all who would stop and listen. At 35 I had some doubts about knowing it all. At 40 I began to have some sense, realized I was ignorant and had been a dam fool all my life.

TEXAS BRIEF NEWS --- from Over the State

16,720 IN TEXAS UNIVERSITY
The University of Texas fall registration came to a close September 21 with 16,720 paid fees and a possible 50 fees yet to be paid. This number is the highest in the University's 63 years.

POOR PLACE FOR A ROBBERY
Two would-be holdup men picked the worst time and place in Dallas to rob C. C. Ross, a taxi driver. They pulled a gun on him just as Ross' cab arrived in front of the police station during a shift change. Eight police officers were on hand to stop the holdup.

RATTLESNAKE WAR WAGED
Citizens of Nolan county have killed 1,196 rattlesnakes this year and have collected 50 cents for each rattler brought in. The county pays the bounty and the skins are turned over to A. N. Prince for his museum. Prince has 11,682 rattlesnake tails in his collection.

SPANISH WAR VET GETS PAY
A Spanish War vet in Dallas, with the help of the Dallas Veterans' Service Center, recently received transportation pay of \$200, due him ever since his discharge in 1900. The soldier had paid his own way home from the West Coast and it took him 46 years to collect the railroad fare from Uncle Sam.

WANTED TO BUY A TOWN
The War Assets Administration in Dallas received an inquiry recently from a man who wanted to buy a small Texas town, "fully equipped." The prospective purchaser said the town had to have a postoffice, church, store and nearby farms, and he wanted it on 40 years credit, 3 per cent interest rate. The WAA turned down the offer.

HUNT ZONE PLEA DENIED
The Department of the Interior has denied the plea of North Texas sportsmen to divide Texas into two sections for hunting purposes. The sportsmen had complained that ducks would already have migrated out of North Texas by the time the official hunting season for Texas had opened. The Department of the Interior claims it is impossible to make equal hunting opportunities for everyone.

BANK DEPOSIT GAIN
Texas registered the second largest percentage of gain in bank deposits during the war period of any State in the Union. Deposits more than doubled between 1940 and 1945. Texas bank deposits now rank fifteenth in the nation, with deposits totaling more than two and a quarter billions. The State of Washington was the only State showing greater gains than Texas in bank deposits.

LEMON DEHYDRATION PLANT
Valley lemon production received an additional shot in the arm recently when C. P. Melton, a veteran citrus grower of Mercedes, Hidalgo county, announced a plan for dehydrating lemons. He says dehydrating will not only allow the farmers to sell their low quality lemons but they will also get better prices for high grade lemons. He said his plant hoped to dehydrate 700 tons of lemons during the current season.

ELLINGTON FIELD REACTIVATED
Ellington Field, near Houston, is back on active duty with the Army Air Forces. The field, which was placed on a temporary inactive status last April, will provide facilities for air reserve training. According to Maj. Gen. Howard M. Turner, commanding officer of the 10th Air Force, under whose jurisdiction Ellington will be operated, the field is being opened to air reservists in Houston and the surrounding territory so they can maintain the flying proficiency they built up during the war.

INVENTOR TURNS TO DOLLS
Marcus P. Exline, Dallas insurance agent, has made a profitable hobby of inventions. In his spare time over the years he invented the waxed-paper stamp container, the three-to-a-page check book and many forms of loose-leaf ledgers which have become popular. Now Exline is concentrating on making life more pleasant for the shut-in children of Dallas by inventing and manufacturing a new type of doll with an India-rubber face. The pliable features of the doll enable the child to change the expression on its face at will.

NEW PLASTIC PLANT
The Monsanto Chemical Plant has announced that it will install a major plant for the production of styrene plastic at Texas City, Galveston county. The plant will use basic raw material produced in a 50,000-ton styrene monomer plant in the Houston area town which the Monsanto Company bought recently for \$9,500,000 from the War Assets Administration. The company chose Texas City because of its freight cargo shipping facilities and hopes to turn out 60 million pounds of plastic a year in its new plant.

TEACHING VACANCIES ANNOUNCED
There are 5,000 teaching vacancies in Texas, according to L. A. Woods, State Superintendent of Public Instruction. Woods advocates higher salaries to make teaching more attractive to competent persons. He also advocates a 12-month program of all-round education.

TRAFFIC DEATHS KEEP GOING UP
More fatal traffic accidents are occurring in Texas this year, according to an announcement by the State Highway Patrol. For the first eight months of the year the toll was 1,185 deaths in 1,011 accidents, compared with 835 deaths in 732 accidents in the first eight months of 1945. Greatest increase was in towns of less than 2,500 population, where there were 773 per cent more fatal accidents and 70 per cent more deaths.

YOUTH TRAINING WORK
The University of Texas this year is offering a degree program new to the Southwest, one which will train men and women for jobs as executives of youth-serving organizations. The new courses are designed as an answer to the needs of such groups as the Boy Scouts, Girl Scouts, Camp Fire Girls and similar organizations. The program offers the bachelor of science degree in education.

FOOD LOCKERS INCREASE
There are now 402 food locker plants doing business in Texas. A survey by the Farm Credit Administration shows that only six other States in the union have 400 operating locker plants. There are now 8,025 plants in the United States, while there were only 2,870 in 1940.

NAZI LIKES TEXAS
Anton Schuler, age 21, an escaped German prisoner of war and veteran of the Afrika Korps, came to like Amarillo, Texas, so much while he was a prisoner there that he tried to return recently. He had been transferred to a POW camp in France and grew homesick for the Lone Star State, so he stowed away on a freighter bound for Texas. He was caught and returned to France.

SAFE DRIVING PRACTICES ARE TAUGHT IN STATE SCHOOLS
A number of public schools of the State this year are offering courses in safe driving of automobiles. Most ambitious safety teaching program is that of Crozier Tech in Dallas, where an effort is being made to establish a course that will serve as a model for other schools.

HUSBAND STUDENT, WIFE TEACHER AT SAN ANTONIO COLLEGE
Mr. and Mrs. John R. Edwards, of San Antonio, both go every day to San Antonio Junior College. Like many other Texas war veterans and their wives, they are striving to achieve the ambitions that were postponed during the war. The unusual thing about their story is that Mr. Edwards is a freshman student in the college and Mrs. Edwards is a teacher in the same institution.

STORED LOOT IN WOODEN LEG
A one-legged suspect in a Hempstead, Waller county, robbery was searched for the money he had stolen without success. Puzzled policemen could not find the money they knew he had stolen. Finally an officer requested the suspect to unscrew his wooden leg. Inside the leg the police found the loot neatly stored.

WAR DADS CONVENE
The Texas State Association of War Dads, meeting in Fort Worth recently, passed numerous resolutions designed to give aid to GI Joe and Jane. Resolutions included a petition to Congress to increase the allotment ceiling of married men in on-the-job training; a demand that the War Assets Administration grant veterans a top priority on household goods; a petition to Congress to create an emergency building program on the same scale as the war plant building program during the war and similar constructive suggestions. The War Dads also asked Governor Coke Stevenson to set aside an annual "Remembrance Day" on the Sunday closest to Pearl Harbor day each year.

CAMP HOWZE GOES ON SALE
The veterans' housing program got a major boost late in September when Camp Howze, near Gainesville, Cooke county, went on sale as surplus property. This was the nation's first post-war sale of an Army camp. The North Texas installation, where thousands of infantrymen were trained during the war, extends over 58,000 acres, about 3,000 acres of which were pretty well covered with buildings.

U. T. SCHOLARSHIPS AWARDED
New fellowships and scholarships at the University of Texas, amounting to \$9,425, have been awarded by the Board of Regents. The scholastic prizes went to nine individuals and were mostly for scientific research. Highest award went to Harold Schmidt, of Austin, who received a \$2,100 fellowship given annually by the National Gasoline Association of America for research in chemistry.

PAVED STREETS WITHOUT TAXES
Poth last month became the first town in Wilson county to have paved streets. A San Antonio construction company put down 38,765 square yards of paving for the little city, which at the last census showed a population of 509. This covered 20 blocks and the entire plaza at a total cost of \$31,092.20. The total sum was paid without any tax, each property owner paying his own share.

TEXAN TALLEST BASKETEER
Elmore Morgenthaler, of Amarillo, Potter county, is the tallest basketball player in the nation. He stands seven feet one inch and he will lead the Boston College, Mass., team this year. In his freshman year at New Mexico School of Mines he was the second highest scorer in the land. Morgenthaler weighs 216 pounds and believes he is still growing.

PAN-AMERICAN FAIR PLANNED
The Pan-American Fair and Livestock Show, planned for Laredo, has been given the go-ahead signal by the Webb county commissioners' court. The court passed an order to authorize the Webb county judge to acquire priorities and materials for the construction of buildings, including a large, modern \$350,000 coliseum. Construction of the buildings will be financed by the issuance of time warrants.

EXCUSE UNUSUAL, FINE SUSPENDED
Dallas City Judge Joe M. Hill suspended a traffic violation fine recently because the defendant produced an original excuse. Hart Bowman appeared in court on an overparking charge, and said a swarm of bees prevented him from moving his car in time. "When I came for the car," he said, "a swarm of bees had taken over. I was scared." The judge said he would have been, too, and suspended the fine.

BOMBAY MARCHERS—Moslem students hold peaceful parade on "direct action" in Bombay, India, in contrast to the riots which accompanied Calcutta demonstrations.

PAYMENTS TO JOBLESS VETS
Unemployed veterans in Texas are currently being paid in excess of \$1,650,000 a week, according to Veterans Administration figures. Most recent statistics show that there are 83,867 vets without jobs in the Lone Star State who are receiving their \$20 a week as provided under the GI Bill of Rights. Maximum time for receiving the \$20 pension is 52 weeks.

TEXAS GETS MELON CHALLENGE
Governor Ben Laney, of Arkansas, has challenged Texas to an all-out final-decision fight regarding the size of the watermelons prevalent in each State. The Arkansas Governor sent Governor Coke Stevenson what he called "a slightly stunted melon from our 1946 crop" weighing 125 pounds and also sent a whopping 140-pound melon to the Dallas Morning News. The chief executive of Arkansas challenged Texas to send him any melon as large as one of his entries.

DRINK IS DEER'S DOWNFALL
Buck, a handsome high jumping deer in the Fort Worth Zoo, eloped recently with True Love, a very attractive doe. Their break for freedom failed when True Love was captured by zoo attendants shortly after her escape. Buck proved more elusive, however, and was trapped by a negro maid who left cool drinking water out for him in an enclosed yard. The zoo authorities nipped the illicit romance by putting the two in separate pens with taller fences.

GOVERNOR TESTS RADIO-TELEPHONE
Governor Coke Stevenson and Mayor Otis Massey, of Houston, had a strange telephone conversation recently. The Governor was at his desk, but the mayor was cruising around Houston in an automobile. It was the first time the new mobile radio-telephone test had been attempted in Texas.

AT LAST A PENSION
William Henry James, of Grand Saline, Van Zandt county, entered the Confederate Army when he was 15 years old, 82 years ago. On Sept. 1, 1946, he received his first pension check for his service. The pension will amount to \$100 a month.

MORE NEW CARS IN STATE
If it's any consolation to people with ancient automobiles, the official report is that those shining new 1946 model cars are increasing in numbers all over Texas. The University of Texas Bureau of Business Research has reported that August sales of new automobiles were 22 per cent above those of the previous month.

LICENSE RULES RELAXED
Out-of-date drivers' licenses may now be renewed without examination because the State examiners are just too busy to make sufficient tests. The respite is only temporary so that examiners can catch up on their work. Eighty examiners gave 308,488 tests during the first seven months of the year, as compared with 180,261 during the same period last year. This increase in business was handled with no increase in personnel.

TEXANS GET LEGION OF MERIT
Two Army colonels and a Women's Army Corps major from Texas have been awarded the Legion of Merit for wartime service in the United States, according to an announcement by the War Department. The two men receiving the award were Col. George D. Barnes, of El Paso, and Col. Simpson R. Stribling, of Waco. WAC major Treila M. Welch, of Houston, also was cited for her wartime work.

TEXAS VETS GET SHELTER
Nearly 50,000 Texas veterans are now living in public housing provided by the Federal Public Housing Authority, according to Marshall W. Amis, regional FPHA director. Of that number, 40,279 are quartered in war housing units; 4,366 in low-rent housing, and 4,878 in temporary housing.

BUILDING PERMITS UP
Building permits in 44 Texas cities totaled \$18,338,253 in August, 15 per cent above July values, according to a report by the Bureau of Business Research of the University of Texas. The August figure was 169 per cent above that of August, 1945.

STATE OFFICIAL ACCIDENT VICTIM
Weaver H. Baker, chairman of the State Board of Control, was killed in an automobile accident September 22. Baker was a former law partner in Junction, Kimble county, of Gov. Coke Stevenson.

TEXAS POSTAL RECEIPTS HIGH
Postal receipts totaled \$2,254,563 in 53 Texas cities in August, the Bureau of Business Research of the University of Texas reports. Receipts were some 2 per cent below those for July but were 2 per cent above August of last year.

TRAIL DRIVERS HOLD REUNION
The Old Trail Drivers' Association of Texas held its 30th reunion in San Antonio October 3, 4 and 5. The ranks of original pioneer members have been thinned by time, but the association is still a leading organization of its type in the State.

GOOD REASON FOR DELAY
When 108 mothers in Sherman, Grayson county, failed to receive their regular diaper deliveries, a near crisis developed. But in the nick of time relief appeared in the person of ex-GI Leonard Abramowitz, now operating a laundry diaper service. With fresh supplies he brought an alibi: He had been pacing a hospital corridor awaiting the arrival of a son.

WHARTON COUNTY CENTENNIAL
Wharton county, in South Texas, celebrated its centennial September 25-29 with a well-attended fair. The exhibition, resuming after four years' suspension due to the war, celebrated 100 years of agricultural and industrial development.

COYOTES BECOMING SCARCER
The coyote population of Howard county is rapidly declining, and County Trapper Earl Brownrigg is hoping to maintain the trend. Brownrigg has bagged 54 coyotes since January, about half the usual total for that period of time. Scarcity of coyotes has forced the trapper to extend his lines, but he also has more time for inspection and checking.

BIG WINTER CITRUS CROP
Texas and the other three U. S. citrus States face the problem of marketing the biggest crop in history this winter, declare officials of the Texsun Citrus Exchange in the Rio Grande Valley. A total crop of 175,000,000 boxes is expected, based on increased production in Texas, California, Florida and Arizona. The Texas crop is expected to advance from last year's 28,000,000 boxes to 30,000,000 boxes, and prospects for marketing the crop are good.

SCHOOL CHILDREN DOOMED TO DIE
A total of 189 school-age children will be killed in Texas during the current school year unless traffic fatalities are drastically reduced, according to George Clarke, executive secretary of the Texas Safety Association. More than 700 other Texas kiddies are marked for death through other types of accidents, he added. "Most of the fatalities will be first-graders who do not remember pre-war traffic and have not been taught at home to obey traffic signals," Clarke said. "Fourth-graders will probably lead the State in bicycle fatalities." More than 880 kiddies were killed in all types of accidents last year and fatal accidents have shown a 45 per cent increase in Texas during the first six months of this year.

Ran Far Enough

The train was pulling out of the station when a young man threw his bag onto the observation platform, and swung himself up over the handrail. He stood panting but triumphant as the train gathered speed.

An elderly party on the platform observed him with some scorn. "You young fellows don't keep yourselves in condition," he snorted. "Why, when I was your age I could carry a cup of coffee in one hand, run half a mile, catch the 8:15 by the skin of my teeth, and still be fresh as a daisy."

"You don't understand, sir," puffed the young man. "I missed this train at the last station."

Jesus saith unto him, Rise, take up thy bed, and walk. John 5:8.

WATERPROOFING

Let us seal your collar against leaks, seepage, dampness with the amazing scientific surface coating—

It's NEW! It WORKS!!

For all porous masonry surfaces. Inside, outside, above or below ground. Application cost nominal. Call us for estimate.

A LITTLE FUN Jokes to Make You Laugh

Back Seat Wreck

There was a fearful crash as the train struck the car. A few seconds later, Mr. and Mrs. Pickens crawled out of the wreckage. Mrs. Pickens started to say something but he stopped her. "Never mind talking," he snapped. "I got my end of the car across. You were driving the back seat and if you let it get hit don't blame me!"

Still Wants to Go Fishing

Just ahead in the supermarket a new bride was confiding to an older friend the likes and dislikes of Bill, her husband. Pausing before the shelves of canned fish, the bride picked up a can of tuna and gazed at it thoughtfully. "You bought tuna yesterday," her companion remarked. "I know," said the bride, "I've been giving Bill tuna every evening for a week, and he still wants to go fishing!"

Fair Exchange

A very poor Chinese had his small laundry business next door to a more prosperous Chinese who ran a restaurant. Every day he would take his bowl of rice, put his chair as close as he dared to the restaurant, and sniff the appetizing odors.

One day he received a bill from the prosperous Chinese for "the smell of his food." The poor Chinese promptly went indoors and appeared with a small money box and rattled it in the ears of his "creditor" saying, "I hereby pay for the smell of your food with the sound of my money."

No Geranium

Little Johnny went to school one day; as usual, he wasn't very clean. The teacher sent Johnny home with a note to his mother which read:

"Please see that Johnny is clean before he comes to school, he positively smells."

The mother sent back a note to the teacher which read: "Johnny is no geranium, he goes to school to be learned, not to be smelled."

Shaking Evidence

Sam had passed through a harrowing experience. He had seen a ghost. "Ah jes' come out of the cowshed," he said, "an' ah had a pail o' milk in mah hand. Den ah hears a noise by de side of de road an' de ghost rushes out." "Did you shake with fright, Sam?" asked one of his audience.

"Ah don't know what ah shook wid. Ah hain't sayin' for suttin' ah shook at all. But when ah got home ah foun' all de milk gone, and two pounds of butter in de pail."

High Style Any Season

"Now," said the saleslady in the hat shop, assuring a prospective customer, "here's a number that will never go out of style. It will just look ridiculous year after year."

Mass Production

There is the story about a family of hillbillies who lived near a camp for parachute jumpers. They had 6 boys and 7 girls.

One day about 50 paratroopers were out on maneuvers and about 10 of them bailed out over the hillbillies' shack. One of the kids saw them and ran into the house shouting: "Oh, Pa, the stork is delivering them full-grown now!"

They Came From the Country

Bob Burns speaking: "Most of my folks came from the country—as soon as they found out I was making good in the city."

The Price of Gallantry

A stout woman, wedged into a crowded streetcar, had difficulty getting her fare out of the pocket of her tightly buttoned jacket. "Madam," said the man next to her, during her fruitless struggles, "let me pay your fare."

She indignantly protested. "Please let me pay your fare," he persisted. "You have already unbuttoned my suspenders three times trying to get into your pocket."

Poultry News

(Condensed from American Poultry Journal)

House Only Good Pullets

The use of poultry house pullets for low producing pullets is a poor policy, since a low producer takes just as much time and feed as a high producer in the flock. This situation can be avoided by housing only the best pullets or those that show possibilities of becoming good pullets within a reasonable period, say about three weeks—if they are of the same hatch. In any case it will pay to put only pullets of the same stage of development together so those that are not quite so far advanced will have more of an opportunity to develop. Discard any pullets that are definitely no good; it will not pay to bother with them.

Keep Careful Flock Records

Like any well organized business, careful records should be kept on the poultry flock to determine the cost of production and the profit being realized. A record should be kept of the amount of feed consumed and the egg production realized from each pen. In figuring the cost of production and the profit made, it is important to figure the labor spent and the amount of investment in the flock. This may seem to be a tiring job at first, but if the records are brought up to date each evening, the work will not be so tedious and should well pay for itself in profits.

Provide Enough Litter

The use of built-up litter is a practice that has come into use during the past few

years and is a great labor saver for the poultryman.

In the fall of the year, about 3 or 4 inches of litter is placed on the floor and to this another 3 or 4 inches is added about once a month during the winter until there is about 10 to 12 inches of litter on the floor. When this level is reached, no more floor covering is added until the poultry house is cleaned out in the spring or during the regular summer cleanup. The most important thing is to see that the litter remains dry. This may be accomplished with proper ventilation and occasionally going through the poultry house with a pitch-fork stirring up the litter.

Whatever plan is used in the poultry house be sure that the chickens have plenty of clean dry litter the entire winter.

Begin Fattening Turkeys

The fattening period for turkeys should not be too different from the way they were handled and fed during the growing season, the major change being in the ration. It may simply be a matter of feeding more grain or fattening pellets than they have been used to.

Thirty days is considered a long enough period to finish turkeys out for the market. Many breeders like to wait until the birds are in top condition before selling them, thus all through the holidays they will have some birds on the way to market demanding top prices.

Also a wise precaution now is to be doubly on the alert for thieves and predatory animals; since the birds are nearly ready

create a threat," Stalin replied, "but at least two remedies exist against it:

"Monopolistic possession of the atomic bomb cannot last long, and use of the atomic bomb will be prohibited."

Diplomatic officials in Washington expressed hope that the peaceful words of Prime Minister Joseph Stalin would be backed up by Russia with peaceful deeds.

Stalin's statements of confidence in the ability of a Capitalist West and Communist Russia to work together may well herald a new approach by the Soviets to the problem of international co-operation, it was said, but this can only be proved by what the Russians do.

It has long been a basic assumption of State Department policymakers that the Russians do not actively want war but have been willing to skirt war dangers to expand their possessions and influence. Among the experts on Russia in Washington there was a general agreement that Stalin had made a useful contribution to international relations at a critical time. They said his comments should tend to restore confidence and relieve the world's jitters.

Says War Not Inevitable

Gen. Dwight D. Eisenhower declared recently that he does not believe another war is inevitable. Liberty-loving nations must keep up their defenses, he said, until a world organization takes over the job of maintaining the peace. "The world can't stand another war," General Eisenhower said. "But we must face realities. No country which values liberty and independence can neglect its security and defenses until a world organization can take over the job of preserving world peace."

Japan

(Continued from Page 2)

and the whole future course of civilization.

The Supreme Commander explained that the Japanese people long have been regimented under a philosophy of extreme conservatism. They might, he added, prove easy prey to those seeking to impose a doctrine leading again to regimentation—this time under the philosophy of extreme radicalism. Patience, determination and democratic statesmanship will be required, he said, to prevent this.

Certain it is that the present trend in Japan is toward the political left. The newspaper Asahi recently conducted a public opinion poll which showed the majority of more than 250,000 Japanese questioned favored a leftist tendency.

The belief in a government centered more to the left than at present does not, however, foreshadow an immediate overthrow of the Yoshida government. The present regime has the tacit approval of MacArthur's headquarters and is almost certain to remain in office until it obtains the legislation demanded by the Allies. This legislation includes a new constitution, redistribution of the land and a series of economic measures which will bring financial order out of chaos.

Incidentally, the Asahi newspaper poll revealed that, despite the furor they are creating, the Japanese Communists have shown very little gain. They polled 3.2 per cent of the electorate in April and 4.8 per cent in the Asahi poll. It should be pointed out, however, that the Asahi poll did not in-

clude Hokkaido, Japan's northernmost island, which is nearest to Soviet Russia and is a stronghold of the Japanese Communists.

"New Yen" Breakdown

One reason for the decline in conservative influence is the breakdown of Yoshida's "new yen" policy as a curb on inflation. A salaried worker who sees his "take-home" pay arbitrarily limited to an amount that barely can keep him alive also sees that the present weekly note issue of the Bank of Japan is nearly as high now as it was when the anti-inflationary "new yen" policy was introduced. Prices have scarcely declined at all since that time, and all bank accounts have been frozen so that the average Jap is cut off from his savings.

The effect of this on the Socialist trend is apparent by the fact that Socialist strength is centered in the great cities where the salaried population is largest. It is weakest in the countryside where the peasant receives cash from the government in payment for his grain.

In any case, Socialism in Japan is not really very radical. The Japanese Socialists favor retention of the Emperor under constitutional safeguards and look with disfavor on appropriation of private property although they do favor government operation of key industries.

Significantly, the Socialists turned down co-operation with the Communists even though it probably cost them the opportunity to be Japan's dominant party. That, perhaps, was one of the things General MacArthur had in mind when he stated that the first year of occupation has shown a significant gain for the forces of democracy.

it's "CUP-TESTED"

"Cup-Tested"? Yes, that's exactly what I mean. The same experts who have been guarding the goodness of ADMIRATION for nearly thirty years personally "Cup-Test" all ADMIRATION coffee to see that the same fine blend of rich, fragrant coffee goes into every package. Cup after cup, day after day, year after year, ADMIRATION is tested BY TASTE to make it the distinctive coffee that never varies. The personally "Cup-Tested" ADMIRATION way is the ONLY way to assure the same perfect blend—package after package.

for market, they represent a heavy investment of time and money.

Keep Out the Rats

Rats are a menace to the poultry raiser, not only because they eat large amounts of feed and attack baby chicks but also because they are carriers of some diseases and parasites.

Training cats and dogs to hunt them is one measure of control; the use of commercial rat traps and poisons is another. You can tear down any rat harbors that may be on your farm and any wooden floors that are undermined with rat burrows and go after them with dogs or a small calibre gun.

Limiting the feed supply by rat proofing the feed bins is another good measure of control. In double walled houses where rats are located, one of the most

efficient means of control is to seal the known rat holes. Also wait till the house is empty and special gas for this purpose can then fumigate, stopping up all rat burrows.

"WHAT'S THE NEWS" with Ted Gouldy, Saturday, 12:30 Noon, Texas Quality Network.

Soviet Russia's Aims

(Continued from Page 2)

the Soviets instead of for the Nazis. Now they will be "heiling" Stalin instead of Hitler, and there is little doubt that Germany will be a satellite nation of Russia unless the Western powers develop a more aggressive and a more unified attitude toward Russian domination.

Hungary Causes Trouble

The nation where Russia is having most trouble is Hungary. And, as a result of the Hungarians' loud refusal to play ball with the Soviets, Moscow has announced that the Red Army will remain in Hungary for at least six more years.

The Russians are not generous to those who oppose their sweep of conquest. For example, in July the United States formally protested that Russia was robbing Hungary of its food supplies and industrial materials. Russia's reparation demanded 80 to 90 per cent of all Hungary's heavy industry and much of it is being transported lock, stock and barrel into Russia. It is also reported that Russia takes 50 per cent of all the output of what is left of Hungary's heavy industry.

Outside the Iron Curtain

Communist activity among the Western powers has been vigorous and successful. Out of 57,455,000 votes cast in free elections outside the Communist sphere of influence, Communists have 11,202,000, an increase of several hundred per cent over their prewar vote. Even such fiercely independent nations as the Netherlands, Belgium, Denmark,

Norway and Sweden complain that the Communists have begun to throw their weight around at legislative programs.

The foregoing are some of the highlights of what Russia is doing and what she plans to do. Her aims are clear and unmistakable. She has imperialistic intentions and has been striving to become the dominant power in Europe and the far East.

Stalin's Optimistic Personal Views

Premier Josef Stalin said, September 24, he does not believe there is danger of a new war, but urged that the atom bomb be outlawed.

Stalin revealed his optimistic personal views on relations between Russia and the Western world in a series of exceptionally frank answers to questions submitted by Alexander Werth, Moscow correspondent of the London Sunday Times. The exchange was broadcast by Radio Moscow.

"I do not believe in the danger of a new war," Stalin answered unequivocally when Werth asked the question which has been disturbing the entire world.

"I do not consider the atom bomb to be a serious threat, as certain political persons are wont to think," the Soviet premier said. "The atom bomb is meant to frighten the weak-nerved, but they cannot decide the fates of war since atom bombs are by no means sufficient for this purpose."

Werth asked if Stalin considered the United States' monopoly on the atom bomb a chief threat to peace.

"Certainly monopolistic possession of the secrets of the atomic bomb does

Texas Farm News Reports

The Rural Electrification Administration has approved loans totaling \$4,366,000 to 14 borrowers in nine States, according to the Extension Service of Texas A. & M. College.

In the late September Jersey show at the Oklahoma State Fair, Draconis Royal Baron, entered by D. T. Simons, of Fort Worth, took honors as the grand champion bull.

One million of the World War II veterans who left farms have returned or will return to the farms, the Veterans' Administration reports. Ninety per cent of these plan actually to be farm operators.

Forty acres of Rhodes grass and Hubam clover pasture on the Frank Reising farm near Edinburg, Hidalgo county, furnished grazing for more than two and one-half animals per acre for seven months. Only exceptions were two short periods when the cattle were taken off to allow for irrigation, reports County Agricultural Agent J. A. Oswald.

The 1946 official show and sale of the Texas Polled Hereford Association will be held in Waco, McLennan county, Nov. 18-20. The show and sale will be the forerunner of an annual fair in Waco, which is planned to become a complete agricultural and livestock exposition to include all breeds of livestock and displays of farm and ranch equipment.

WILLKE CHEMICAL CO.

3501-9 Texas Avenue, HOUSTON 3, TEXAS.

D. V. Davis, Cass county farmer, plans to add 75 to 100 acres to his 156-acre sericea lespedeza meadow next year, after harvesting \$100 worth of hay from the meadow this year. Cass county farmers are expected to seed around 3,000 acres of sericea lespedeza in 1947.

Approximately 350 pounds of poison grain for killing rabbits and ground squirrels were purchased from County Agricultural Agent Jamie N. Caviness during a single month. Many of the rodents are being killed, it is reported.

Recreation needs of rural areas were discussed in great detail this month as five recreation institutes in various parts of the State got underway. The schools were held in Marshall, Harrison county; Sweetwater, Nolan county; Plainview, Hale county; Gilmer, Upshur county; and Dumas, Moore county.

There will be plenty of turkeys this year for Thanksgiving dinners in Texas. The U. S. Department of Agriculture has reported that Texas farmers are raising 4,466,000 turkeys, five per cent less than the record 1945 crop but still 13 per cent larger than the 1938-42 average. Texas again this year is the leading turkey-producing State. Minnesota is second and California third.

A new selection of combine milo, known as No. 7078, is showing good production possibilities in Taylor county, according to County Farm Agent Elmo V. Cook. The new selection was developed by the Lubbock Experiment Station. It is believed that it may out-produce Martin's combine maize, which is the most popular combine grain sorghum in Taylor county.

Texas has a great deal to gain by adopting a voluntary egg grading program, since it has large numbers of producers and large numbers of hens, and produces much of its own feed. At a recent meeting of representatives of the State's poultry industry, leaders agreed that grading of poultry products would be beneficial to producers, handlers and consumers alike.

Combine maize has enriched farmers of McCulloch county by approximately a million dollars this year. This includes maize shipped and fed as well as that now in storage. Average yield was around 1,500 pounds per acre, in spite of lack of rainfall during much of the growing season.

Fertilized and inoculated legumes are a great aid to soil improvement, according to the results of recent tests by Texas A. & M. agronomists. Tests show that the yield of cotton following unfertilized vetch was increased only five pounds of lint an acre. But on other plots where the vetch had been inoculated and fertilized, the improvement amounted to 59 pounds an acre. For fertilization the agronomists claim 200 pounds to an acre of 20 per cent superphosphate or its equivalent will work well on loam soil. Light sandy soil and old fields will require 300 pounds of 0-14-7 mixed fertilizer per acre.

In a turkey improvement plan during 1945, Texas led the 23 States participating in breeding improvement work. There were 1,091 U. S. approved turkey flocks reported in the State.

Texas A. & M. authorities have high hopes for the new "Dixie Crimson Clover." It is expected to supersede the common variety in the South because it has an extremely hard seed and will not germinate so quickly.

Frank Scofield, of Austin, Travis county, well-known Hereford breeder, says the cattle in Herefordshire, England, do not compare in quality with their aristocratic off-spring, the Texas Hereford. Scofield examined cattle stock in England last month.

Low protein feeding, and not breeding, causes bronze turkeys to sprout white feathers, according to Prof. D. H. Reid, of the poultry husbandry department of Texas A. & M. Reid suggests, as a preventative, five pounds of meat and bone scraps to each 100 pounds of feed.

Bexar county needs 500 new 60-cow dairies and each should bring in \$12,000 per year gross business, Bryon Blalock, of Marshall, president of the Texas Dairy Institute, recently told San Antonio businessmen. Encouragement of more herds in the San Antonio area would help the back-to-the-farm movement, he said.

Cass County Agricultural Agent E. M. Trew, Jr., reports that the new weed-killer 2,4-D has completely killed common thistle and bull nettle wherever he has tried it. He says persimmon and pin oak are resprouting, but claims that his treatment date, in mid-summer, was too late for best results.

Sudan grass—the common variety — was introduced into the United States from the Sudan, Africa, in 1909, and now, after several years of development, is being re-introduced into the Sudan, Africa, from the United States in its improved form of sweet sudan. This announcement was made recently by Dr. A. W. Young, head of the department of plant industry at Texas Technological College, Lubbock, who said the college has shipped 500 pounds of Texas State certified sweet sudan grass seed to South Africa in response to an inquiry from the government there.

Net income of Texas farmers fell off sharply in 1945 as production costs went up, the Agriculture Department has reported. Average realized net of farm operations was \$1,794 each last year in Texas, a substantial drop from the \$2,068 they averaged in 1944 and the \$2,105 of 1943. Total net income for the State's farms, including government payments, was \$701,246,000 in 1945. This year's gross cash receipts from the sale of crops and livestock in Texas is also running lower than last year, the department reported.

George W. Lyles, of Co-tulla, LaSalle county, recently sold his 14,193-acre ranch, lying in Webb and Dimmit counties, to Dan J. Harrison, Jr., for around \$175,000.

An official Texas swine directory will soon be available to hog growers through the efforts of the Texas Swine Breeders' Association. The directory will list every breed of swine in Texas, the names of breeders and the types they raise and also articles on breeding, selection and management of swine.

Wolves are preying on goats in Hill county. Emmett Hart, who lives north of Aquilla, reported that he had lost 200 goats to timber wolves this year. Dudley Hudson, who lives in the same community, has lost 49 goats. Hundreds of turkeys and chickens are said to have been killed throughout the area.

The third carload of horses to be expressed from Brady, McCulloch county, during the last two months went out late in September, consigned to Westchester, Pa., according to Ben Strickland, shipper. The horses will be used for fox hunting in the East, and thus will be trained as jumpers, Strickland said. The top horse brought its owner \$600, and none sold for below \$200.

The Cuero Turkey Show, to be held November 15-16, will offer more than \$1,000 in cash for the top turkeys in the show, according to officials of the Cuero Turkey Egg Association. The show is being planned as the largest of its kind ever held in Cuero, with entries expected from DeWitt, Lavaca, Gonzales, Karnes, Goliad, Victoria and Jackson counties. The show will present both live turkeys and dressed birds.

Carl Black, of Cameron, who is sheriff of Milam county, feels certain that Hubam clover is the best ash and soil building crop that can be grown in the blacklands of Texas. Jones owns an "old eroded farm" in the Jones Prairie community and he seeded Hubam clover on a 50-acre field that had not been cultivated in two years. He used 20 pounds per acre and let his sheep, goats, horses, cattle and hogs all graze on the hitherto worthless land. Even after all that grazing the 50-acre plot yielded 7,700 pounds of seed.

More than a million acres of the new Austin wheat were grown in Texas in 1946. The wheat, which is rust-resistant as well as being a soft, red, winter variety, resists leaf and stem rust and loses smut to a remarkable degree. It was developed in 1942 from a cross of Mediterranean, a wheat with highly desirable milling and baking characteristics, and Hope, a rust-resistant spring wheat. Austin has a slightly lower flour yield and protein content than Mediterranean, but it also has a lower ash content, which is desirable. In baking tests Austin made better cookies but slightly poorer cake.

Texas chick hatcheries slumped drastically during August and commercial output was 80 per cent less than a year ago. The output reached only 275,000 chicks. Department of Agriculture authorities blamed the slump on the weakened demand for poultry while red meats were available and on the very hot, dry weather.

A complete livestock exchange building will soon be constructed at Amarillo with plentiful offices for livestock traders, commission agents and trucking contractors. The building follows the lead of Kansas City and Fort Worth, both of which cities have thriving exchange buildings.

Adverse August weather reduced the prospect for the Texas cotton harvest by 125,000 bales, leaving the possibility that the crop will be the lowest in the State since 1899. The September 1 forecast of the U. S. Department of Agriculture indicates a 1,775,000-bale crop. Last year's crop was 1,795,000 bales and the 1935-44 average was 3,137,000 bales.

Silage, as a substitute for pasture, is cheap, high in nutrient content and an excellent dairy cow conditioner. When fed to dairy cows as silage, crops like corn, hagar, feterita and red top will yield twice as much food nutrient as they would have if fed at harvest time, according to G. G. Gibson, dairy husbandman with the Texas A. & M. College Extension Service. Silage is also cheap, if handled properly, because there is little or no waste involved in feeding.

Texas is giving all-out support to the cotton industry's campaign for a two-million-dollar fighting fund to meet the challenges of cotton's competition, George G. Chance, of Bryan, Brazos county, leading cotton producer and chairman of the Texas Unit of the National Cotton Council, announced recently. A total of 861 Texas cotton ginners already have agreed to support the Council program of sales promotion and research, compared with 608 for the same time last year.

Thirty-eight registered Suffolk sheep which Ralph Pembroke, ranchman of Big Lake, Reagan county, purchased on a recent plane trip to the British Isles are expected to arrive at his ranch Nov. 1. The shipment is made up of 25 ewes and 13 rams. Pembroke paid \$1,700 for the top ram, five of the lambs ranging from \$1,300 \$1,600 a head. The ewes averaged more than \$235 each.

Dates for the 1947 San Angelo Fat Stock Show and Rodeo have been set for February 27-28 and March 1-2. Auction of the boys' fat stock show will be conducted March 3.

Rural communities in Texas are today undergoing progressive deterioration because of wearing out of the soil, according to Dr. C. L. Lundell, of Dallas, outstanding Texas agronomist. Dr. Lundell declared that a carefully planned State-wide program to revitalize agriculture is urgently needed, because a prosperous agriculture is the basic support of Texas.

A month in advance of the expected opening of the 1946-47 Texas citrus season, growers in the Rio Grande Valley surveyed their crop prospects and predicted grapefruit yield will be about the same as for last season, with general fruit sizes averaging larger than in 1945-46.

UGH! GET RID OF ROACHES

Stearns' Electric Paste

95¢-1.00 AT DEALERS
USED 66 YEARS

How you can get the most out of your home-butchered meat

In flavor, variety, keeping quality

HAMS • With its faster curing action, the two-way Morton Cure captures the full flavor of your meat... Gives a sounder cure from rind to bone. For a special treat, try an all-Tender-Quick Cured Ham. See page 35, "Home Meat Curing Made Easy."

LOINS • One of the most practical ways to use the loins is to cure them as Canadian Style Bacon. It's delicious! Use a Sweet Pickle Cure made of Morton's Tender-Quick dissolved in water. Then bake or slice and fry.

SIDES • Of course, you'll put these up as bacon. But this year try a special box cure which "Home Meat Curing Made Easy" tells about on page 40. For variety, you can use either Morton's Tender-Quick or Sugar-Cure.

SHOULDERS • Handle shoulders just as you do hams. Or, bone and grind them up for sausage. "Home Meat Curing Made Easy" gives recipes for sixteen varieties of sausage — which use beef, veal, or lamb, as well as pork trimmings.

TRIMMINGS • Mixed with Morton's Sausage Seasoning, a rare blend of salt, peppers, sage, and spices, these trimmings make delicious country style sausage. Just mix with the meat and grind. Also stuff and smoke some for mealtime variety.

Yes Sir! There's a lot of good eating... and plenty of variety... in home butchered meat. There's no safer way to cure it than the two-way Morton Method. It starts the cure at the bone... avoids waste, bone-taint, off-flavor, and imparts a rich, old-fashioned smoke flavor. Try it this year — be sure to ask for Morton's Sugar-Cure and Morton's Tender-Quick.

FIRST: Dissolve Morton's Tender-Quick in water and pump along the bones.

This fast-acting curing pickle starts curing INSIDE... at the bone area, helps prevent bone-taint, off-flavor, under-cured spots.

THEN: Rub with Morton's Sugar Cure which strikes in, curing from the OUTSIDE toward the center... giving you a thorough cure, long keeping quality, and a rich, wood smoke flavor. Two-way Morton Cures gives you results you can get in no other way.

It's easier, safer, surer to cure the

Our Boys and Girls

HOLLYWOOD PETS PAY OFF

By GUY K. AUSTIN
(Condensed from Star Weekly)

You will not find any zoos in Hollywood, but in the backyards of San Fernando Valley homes there are enough animals to fill one. They are owned by the men who make their living supplying the movie studios with all kinds of dumb animals.

Each studio has a list of these men and their own particular line of training—from dogs and cats and horses to tigers, birds, monkeys and even snakes.

Today the owners-trainers of animals in Hollywood are reaping a rich harvest. But only a few years ago they had no standing in the community. When a film was being made that needed a dog, the studio property department called every man or woman on the list with a dog of the required breed. The owners would be kept waiting for hours to show off their charges, with the one agreeing to the lowest price getting the job.

However, the producers have learned through bitter experience that a poorly trained animal, no matter how cheaply hired, can cost them thousands of dollars because of poor acting ability. The result is that today the studios hire dog actors solely through the Dog Owners and Handlers Association, an organization of top men in the game.

Through this association every dog used in movies is hired at set prices. For a walk-on dog for "atmosphere" on a leash, the price is \$10 a day. One that has passed an obedience test to sit, walk, lie down and follow simple directions get \$15. For any stunt, such as jumping over a fence, \$15 a day—all plus \$10 for the handler.

However, the top dog stars, like the famous Lassie, are under contract at sums ranging up to \$500 a week.

The leading trainer of horses in Hollywood is Jack "Suede" Lindell. He bought and trained the magnificent star horses for the films "My Friend Flicka" and "Thunderbird, Son of Flicka."

Lindell, who works out his charges at his ranch, is so expert at his profession that his horses do not appear to be acting at all. With hand signals, he controls all their actions, trains them to run, whinny, stop at a mark on the ground—in fact, go through any routine the script calls for.

Another colorful character is curly Twiford, who started in the business 14 years ago. All he owned then was a Boston Bull

DOODLING "LET'S OFF STEAM"—In nursery schools across the country tiny tots like Stephen Bobrovnikoff at Ohio Wesleyan University's pre-school are wielding a wicked brush. Many another, like Bonnie Bruce, looks on puzzled.

Jimmy, the raven, can smoke a pipe.

and three canaries. The birds were trained to ride on a stick held in the dog's mouth. Every day Twiford put on his performance outside Paramount Studios.

Finally, Twiford caught the eye of a director, who was impressed by the act and gave him his first job in movies. Today Twiford has a private zoo of 200 trained pets. Over 100 of them worked in one film alone this year.

Twiford's solid bread and butter, however, is Jimmy the raven, veteran of 100 films. Jimmy can write his name on a typewriter, unlock a padlock, smoke a pipe, obey practically every spoken command. Twiford caught Jimmy in Death Valley, California.

When an animal actor has to appear with a human, usually days beforehand the actor and the animal get acquainted. Some amusing incidents have occurred between dumb and human actors.

For instance, there was Bob Hope's experience with a big brown bear, weighing over 700 pounds, which had some important scenes in "The Road to Utopia." The bear had to enter a cabin where Bob was supposedly sleeping. It was to deposit its huge hulk in the bed beside Hope, and he in the darkness, was supposed to believe it was Dorothy Lamour wrapped in a bear-skin coat. Hope wanted no part of the bear, but, never at a loss for a gag, suggested that if the owner would take out the bear's teeth he would also remove his own.

MYRTLE

Right Around Home

Dear Bill:
I know you're one of the many stockmen who want to be sure your animals get the best protection against disease. Let me tell you from my own experience—you ought to try using CUTTER Vaccines and Serums. They're made the same as the CUTTER Vaccines your family doctor uses on you and your family—always trustworthy, dependable.

If not available locally, write CUTTER LABORATORIES, Berkeley, Denver, Helena, Ft. Worth, Los Angeles, San Antonio, or Seattle.

Rodeo

(Continued from Page 2)
die bronc riding. To qualify in this event the cowboy must stay astride his fighting, kicking, twisting, jumping horse for ten seconds. That seems a short time—but it all depends on whether one is sitting in the grandstand or in the saddle! Riders must be able to ride all kinds of horses. They draw their brones by lot, and they never know when some "oney animal" is going to pull a brand new pitching stunt never before witnessed at a rodeo. No rider is permitted to ride the same horse twice.

Brahma bull riding is one rodeo event that did not grow out of the regular ranch work of the cowboys. It did grow out of their regular "fun," however. Brahma bulls are said to be the hardest bucking animals in the world, and it's no cinch for even an experienced rider to stay on one of them until the sound of the bell. The bulls have a habit of turning on a thrown rider and trampling or goring him. These belligerent animals have seriously injured many riders. They are ugly in both appearance and disposition, and it is a rare rodeo program in which at least one rider, or would-be rider, does not receive injuries in the Brahma bull riding events. The rules of the contest call for the cowboy to ride with one hand on the rope and the other hand in the air. And the rider gets no marking on his ride until the judges sound a bell.

CalF roping is another standard rodeo event. Texans excel in this fast pastime. It is a time event, and the cowboy has to make every split second count. Texas and the great Southwest are the home grounds of the rodeo. Since its birth the rodeo has spread far and wide over the earth, and rodeo fans are numbered today in the millions.

HOUSEHOLD HELPS

By MARGARET MOORE

TEA TOWELS

By MRS. ANNE CABOT Embroider these gay little Peter Rabbit figures on a set of kitchen towels. They'll make amusing quilt block squares, too, for a child's bedspread. Stitches are simply and quickly done in bright colors.

To obtain transfer designs for seven "Peter Rabbit" figures, (Pattern No. 5102) color chart for embroidering, amounts of flosses specified, send 15 cents in COIN plus 1 cent postage, YOUR NAME, ADDRESS and the PATTERN NUMBER to Anne Cabot, Southwest Magazine, 4150 Ave. Americas, New York 19, N. Y.

Please do not send order to Mrs. Margaret Moore, Fort Worth, Texas. Send order to Anne Cabot, Southwest Magazine, 4150 Ave. Americas, New York 19, N. Y.

**ACCESSORIES BRIGHT AND
COLORFUL THIS FALL**

A simple pair of gloves or a bag can make or break a woman's outfit, and this fall a wider choice of such touches is offered than at any time since the war. Fine leathers and richer materials are available this year, and fashion designers are showing brighter colors than usual.

It's the style this fall to wear at least one piece of costume jewelry, and nine chances out of ten it will be white. White pearls and rhinestones mounted in pale gold settings are being worn often. The shoulder by the way, is the favorite perch of these pieces which have moved up from a more humble spot on the lapel.

Satin is the star of the show among the fabrics. You probably will own a pair of gloves with satin cuffs, or maybe an ascot of that shimmering queen of the dress goods world. Some of the simpler suits are appearing with satin lapels.

The big-brimmed hat, which shows off a pretty pair of eyes so well, is around a lot this season. Strangely enough, the completely brimless tam-o'-shanter is also fashionable.

Taffeta is another fabric making a big splash in the fashion pool. And more of ten than not it is colorful. Most women, however, practical their ideas, have a real yen for color, and this is certainly the year

5102

to let it go. A bright green scarf, for instance, draped about a quiet gray hat, can change a woman's entire outlook—and like as not some man's, too.

Tricolor long gloves are worn a lot for church and social occasions. They go well with the new push-up sleeves and are smart when their color is repeated in a small hat. Red cobra, by the way, is the very latest color for shoes, bags or even umbrella cases. It is very nice with blue.

HUNGER MAY BE SIGN OF REAL HEALTH

(Catherine Prosser in Denver Post) Do you like to eat? Do you look forward to the dinner hour with pleasure and anticipation? Do you love to sniff the appetizing smells that come from the kitchen? If so, you are a healthy girl, not likely to be troubled with many beauty problems. Your digestive motor, says Helen Follett, New York beauty expert,

Do you have goose flesh at the thought of food? Does the sight of a pork chop put your teeth on edge? Do you sit down to the table thinking, "I have to eat, I suppose, so here goes?" If you are that girl you are not in a tiptop state of health. Some part of the physical system is out of kilter. A normal individual has a normal, healthy appetite.

Food that is not properly cooked or served daintily will destroy appetite. Cooking in America is not the fine art that it should be. Every wife and mother should en-

deavor to become a culinary expert. It should be her pride and her pleasure to offer to her family simple, nourishing meals that appeal to all of them. If daddy and the kids are properly fed there will be less nursing for the mamma to do, less worry about sickness.

Hurried meals are a strain on the digestive organs. It was never intended that we should gobble and run as so many people do at breakfast time. People who argue and quarrel at the dinner table are plain crazy or ignorant. For one thing, it is a demonstration of bad manners, a bad example to set before the children. It creates emotional strain that interferes with digestion.

Dinner should be a pleasure, a time when every member of the family has something pleasant or interesting to offer in the way of conversation. All these matters of family habit have an effect upon the appearance of the daddy, the mamma and the young ones.

FARM WOMEN HAVE 64½-HOUR WORK WEEK

Three household jobs—preparing meals, house cleaning and care, and dish washing—take the major share of the housewife's working time, according to a recent study of time expenditures in homemaking. Field workers interviewed 183 representative farm housewives as to their working schedules.

The findings showed that these women spent an average of 64½ hours a week in doing housework. This amounted to 59 per cent of their waking hours and 38 per cent of the total time. A fourth of the women interviewed spent from 75 to 120 hours a week on housework, half of them spent from 55 to 74 hours, and the remaining fourth less than 54 hours. Those who spent the most time at housework had large families and young children. Those who spent the least time had hired help in their homes or the help of daughters or other women in the family. Many of these women spent less time at housework in order to do farm

work because of a shortage of farm labor. Analysis of the work schedules showed that three jobs took a very large share of the time spent in housework. Food preparation took one-fourth of the total time—26 per cent; housecleaning and care almost another fourth—22 per cent; dishwashing about a sixth—15 per cent. Other household jobs took considerably less time. Care of children and the sick amounted to 9 per cent of the time; laundry, cleaning, mending and sewing together took only 9 per cent; canning and preserving, 6 per cent; and marketing and household business, 3 per cent; and other household activities, 10 per cent.

Any study of more efficient working methods in the home should start with the three jobs that appear to take up an undue large share of the housewife's time—meal preparation, housecleaning, and dish washing. These three jobs were frequently described by the women as "most tiring" and "most disliked."

BOILING IS OUT OF DATE

"Boiled" ham is not boiled by good cooks today. Neither are "boiled" eggs boiled, nor is "boiled" fish cooked by this method. Instead, these protein foods are simmered—that is, cooked in water just below the boiling point. It has been found that the high heat of boiling toughens proteins. Greater tenderness results from cooking longer at a lower temperature. Even "boiled" coffee is an out-dated phrase that no longer means quite what it

says. The finest flavor in coffee is achieved by having the water just below boiling, tests have shown.

The common use of "boiled" in connection with these foods is simply a case of an old term that has lagged behind modern cooking knowledge and techniques. Home economics experts suggest that if cookbooks would adopt new names as cooking methods change, this would call the attention of housewives to better ways of cooking.

TESTED RECIPES

- Spanish Cream With Fruit Cocktail**
1 tablespoon unflavored gelatin
¼ cup cold water
3 cups milk
½ cup sugar
¼ teaspoon salt
3 eggs, separated
1 teaspoon vanilla flavor
1 (No 2½) can fruit cocktail
Soften gelatin in cold water. Scald milk in the top of a double boiler. Place over hot water and add the softened gelatin, sugar and salt and stir until dissolved. Pour slowly over slightly beaten egg yolks. Return to the double boiler and cook, stirring constantly until the mixture thickens (about 5 minutes). Cool and when mixture begins to set, add the vanilla flavor. Fold in the egg whites beaten until stiff but not dry. Turn into a ring mold which has been rinsed in cold water. Place in the refrigerator and chill until firm. When firm, unmold onto a plate and fill the center with drained cocktail. (Use syrup from cocktail in beverage or another dessert).

- Southern Fried Chicken**
Southern style of frying chicken is one that gives a crisp-crust coating over the outside of the meat. The method is best for birds weighing from one and one-half to two pounds each. The pieces of chicken can be dipped in egg and crumbs or simply rolled in seasoned flour for frying which is done entirely without a cover. If the chicken is quite young it can be cooked tender in 20 to 30 minutes.
Season the pieces with salt and pepper, then dip in fine cracker crumbs or meal which also should be seasoned with salt and

- pepper. Beat one egg and add two tablespoons of water or milk. Dip chicken in egg-milk mixture, then repeat the dipping into cracker crumbs. Have ready a hot skillet containing enough fat to generously cover the bottom. Place pieces of chicken in the hot fat, taking care that they do not overlap each other. Reduce heat under skillet and cook slowly until browned on all sides, turning them frequently.
Remove chicken to heated platter and keep in warm place while gravy is being made from the drippings in the skillet.

- Peach Delight**
Drain peaches; reserve peach juice. Arrange peach halves with hollow side up in shallow baking dish. Place a marshmallow in the center of each peach. Pour peach juice into baking dish. Bake in a moderate oven 375 degrees F. about 20 minutes, basting occasionally. Serve warm.

- Stuffed Cabbage**
1 medium-sized head cabbage
1 (1 lb.) can corned beef hash
3 tablespoons chili sauce
1 teaspoon onion salt
1 teaspoon Worcestershire sauce
1 tablespoon fat
3 to 4 whole cloves
1 small onion
4 peppercorns
1 bay leaf
Cut a half inch slice from the top of cabbage. Scoop out middle of cabbage and leave about half inch wall. (Reserve this cabbage for cole slaw or soup.) Mix together the hash, chili sauce, onion salt and
(Continued top next column)

THE GET UP AND "GO" BREAKFAST

**FINER FLAVOR
GETS THEM UP**

"Early Morning" appetites are whetted by the delightful, whole-grain flavor of 3-Minute Oats. They're Fireless Cooked—For 12 Hours—At The Mill—you can taste and see the difference! Ask for the package with The Big Red 3.

3-MINUTE OATS
QUICK OR OLD FASHIONED
THERE IS A DIFFERENCE IN OATS—BUY THE BEST!

Worcestershire sauce. Cook in a skillet with 1 tablespoon fat until lightly browned. Put hot hash in the cavity of the cabbage, top with slice removed from cabbage and tie on securely with a string.
Stick cloves in onion and tie together with peppercorns and bay leaf in a piece of cheesecloth. Place in a kettle of boiling salted water with the cabbage. Cover and cook until the cabbage is tender (15-20 minutes). Cut cabbage in wedges and serve with tomato sauce.

- Salmon and Egg Casserole**
4 tablespoons of vitaminized margarine
3 tablespoons onion
¼ cup chopped celery
4 tablespoons flour
2 cups milk
1/3 cup grated American cheese
1 teaspoon salt
Dash of pepper
1 teaspoon Worcestershire sauce
1/2 teaspoon dry mustard
6 shelled, hard-cooked eggs
1/4 teaspoon salt
Dash of pepper
1/2 teaspoon prepared horse-radish
2 tablespoons lemon juice
1 (1 lb.) can salmon
Melt butter in the top of a double boiler. Add the onion and celery and cook until tender. Place over boiling water; add the flour and stir until well blended. Gradually add the milk and cook, stirring constantly until the mixture thickens. Add cheese, 1 teaspoon salt, Worcestershire sauce and mustard and stir until the cheese melts. Cut eggs in halves lengthwise. Remove yolks and reserve whites. Mash yolks and add ¼ teaspoon salt, pepper and horse-radish. Moisten with 1/3 cup cheese sauce. Refill whites with this mixture. Arrange half of eggs in bottoms of a greased casserole. Add lemon juice to salmon and arrange in layer over eggs. Add remaining cheese sauce and top with remaining eggs. Cover and bake in a moderate oven 350 degrees F. for 25 minutes.

- Lima Bean and Shrimp Curry**
1 (12 oz. approximately) box frozen lima beans
1 (12 oz. approximately) box frozen shrimps
3 tablespoons butter or vitaminized margarine
¼ cup chopped onion
3 tablespoons chopped celery
3 tablespoons flour
1 tablespoon powder
1 teaspoon salt
Cook lima beans according to the directions on the package. Drain and reserve liquid for soup. Cook, peel and clean shrimps as directed on the package. Arrange lima beans and shrimps in alternate layers in a greased casserole. Melt butter in the top of a double boiler. Add onion and celery and cook until tender. Place over boiling water, add flour and curry powder and stir until well blended. Gradually add milk and cook, stirring constantly until mixture thickens. Add the salt. Pour curry sauce over lima

beans and shrimps in casserole. Cover and bake in a moderate oven 350 degrees F. for 15 minutes.

**ARMY PREPARES TO
POLL NEXT OF KIN**

Most families who lost a son in battle overseas in the Second World War want the body returned to this country for burial, American Legion officials predicted as the Army prepared to poll next-of-kin as to their wishes. In its questionnaire next month the War Department will offer families four choices: Burial in a permanent overseas American military cemetery; burial in a national military cemetery in the United States; burial in a private cemetery in the United States; burial in a foreign land where the deceased may have been born.

**Luxury
EVERY
Day!**

**And So Economical
You'll Be Amazed!**

STEP right up into the luxury class next time you buy coffee. Just ask your grocer for Folger's. Then, without warning, serve Folger's to your family and watch their reaction. There are very few men who don't prefer the upsurging lift of vigorous coffee—so watch the man of the house come alive with compliments for you when you serve him Folger's.

Sure, you might have to make more coffee and serve extra cups but you will love the doing—

Then when the pound of Folger's is all gone—especially if you have tried using ¼ less Folger's than with lesser flavored brands—you will have discovered for yourself that Folger's Coffee is both luxury and economy.

Yes, try giving Folger's luxury to your family every day, and be amazed at the economy that goes with it, for "There's a mountain of flavor in every spoonful of Folger's."
