## Looking 'round

BY THE EDITOR

NEW CORRESPONDENT

This week we have added another correspondent to our very much appreciated country correspondents. Mrs. J. B. Weathers of the Shield community has been added this week. There are several other communities that we would like to have correspondents from, and we would appreciate having someone call on us from each of the communities where we don't have a correspondent.

## OUR DWINDLING WATER SUPPLY

The City Commission is in the process of trying to help supplement our dwindling water supply. In an article elsewhere in this paper an information concerning a well that is being drilled is given. However, this should not get our hopes too high for the present. It is highly possible that, with the plans the city has the water situation will be helped some, it is also possible that it may not help at all. There is always the possibility of getting a good producing well, but until we have that, all we do have is a dry hole in the ground and no water can be produced from this kind of holes.

In my rounds the past few weeks, water is about the main conversation of a great number of the people. It seems that some of the people that are used to having good gardens and a lot of flowers that are trying to help conserve all the water they can, watch their neighbors and see how much water the outside appearance of their homes show they are using. I have had some call names to me and tell me they are watering lawns and gardens and some say that they can't see how some people can have such pretty gardens and flowers and not water them.

The water meter tells the story to the city of who is using an excessive amount of water and who isn't. Some seem to think that "Just because I am Mr. So and So I can use all the water I want, and my neighbors don't need to use as much as I do." This is the wrong attitude to take toward saving water. If each of us would put ourselves on the level with our fellow man and say to ourselves that we are not entitled to use any more water than we absolutely need, the small amount we now have might last until September. Under present conditions the supply will be exhausted in August.

## The Lions Roar

Thirty five members of the Lions Club were present for the regular meeting this week. Lion Lloyd Burris had the only guest present, Mr. Toby Travis, of Terre Haute, Indiana.

The program committee failed to produce a program and as there was no business to be taken care of, the club was dismissed immediately after the luncheon program.

## MISS LENA BOYD TO RETURN HOME

## Brownwood Host To Central Texas Softball Tourney

Brownwood is preparing to be host again to 16 of the top-notch softball teams in Central Texas, July 21-26, inclusive for the second annual Central Texas Softball Tournament.

As you no doubt know, Rising Star defeated Bilton Tire of Brownwood last year in the championship finals and was given an expense paid trip to the State Amateur Softball Tournament at Houston. The Night lost a 16 inning, 2-1 decision to the Odessa Oilers.

Play in the Central Texas Tournament will begin on the night of July 21 and continue through the championship finals on Saturday night, July 26. The winner will be awarded a trip to the State Tournament at Wichita Falls, August 15-17.

The first 16 teams to enter the tournament will compose the bracket. Naturally, we want the strongest team or teams in your area for the tournament.

The entrance fee will be \$10. In addition, a \$25 deposit will be necessary, but will be returned if the team competes in its regularly scheduled tournament games. The deposit is merely a guarantee of good faith, and will be forfeited if a team fails to show up for a scheduled game.

All play will be at night with games starting at 7 o'clock each evening, and three games scheduled for each night.

Information concerning the awards, limitations of the tournament, etc., will be mailed you by return mail upon request. Write, H. Don Rodgers, Softball Commissioner, Brownwood, Tex.

## Four Local Boys Admit Robberies

Four youths who have lived about all of their lives in and around Santa Anna confessed to the robberies of the Phillips Drug Store and Wristen Service Station Friday night, May 30. The four youths signed statements last Wednesday night before District Attorney R. P. Haun, confessing the burglaries.

Two of the youths have been charged with burglary and the other two with receiving and possessing stolen jewelry. At present they are being held in the county jail and their bonds have been set at \$2,000 each. Two of the boys are expected to make bond this week.

The youths were taken into custody Monday, June 9 by Sheriff H. F. Fenton, Jr., who carried them to Austin, where they underwent the lie detector test. Later in the day the boys made oral confessions.

According to Sheriff Fenton, the youths took jewelry valued at \$585 and \$5 in cash from the Phillips Drug and \$2.50 from the Service Station. The jewelry consisted of 26 rings and six watches. Rev. E. H. Wylie conducted the services.

Frances Webb was born June 6, 1872, in Tennessee and came to Texas when a child.

She was united in marriage to J. D. Sparks in 1888 in Ellis county. To this union were born three daughters and two sons, two dying in infancy.

Surviving are two daughters and one son, Mrs. J. B. Scott and Mrs. B. G. Brown of Santa Anna and Calvin Sparks of Coleman.

Mr. Sparks preceded her in death in 1933.

In 1935 she was married to Mr. L. W. Guthrie, who survives.

She became a member of the Christian church 42 years ago and loved the Lord unto the end of life and read his word as long as she was able and then asked others to read it to her.

Other survivors include one sister and four brothers; Mrs. Patsy Willis of Corpus Christi, Joe and George Webb of Miles, H. R. Webb of Deport, and I. K. Webb of Knoxville, Tenn.; 11 grandchildren and 14 great grandchildren, and a host of other relatives and friends.

Dr. and Mrs. L. O. Garrett returned Saturday night from Willsboro, where they had gone to be at the bedside of his 87 year old mother, Mrs. J. D. Garrett. When they left she seemed somewhat improved.

After quite a bit of consideration and planning the City Commission has decided to begin a process of drilling for water to supplement the now very critical supply of water that we have. It is hoped that enough water will be obtained from these wells to supply the city with a better water supply.

The first well is in the process of being drilled now. The location of the well is east of Lake Sealy about three quarters of a mile on the Roy Stockard place. The well is to be drilled to about 300 feet. After checking logs of wells that have been drilled in this vicinity, if there is water in a big enough amount to be used for city use, it should be found between 200 and 300 feet. There are a number of wells in the vicinity of the location of this well and there are good prospects for a good well.

The city is taking a chance on getting enough water to supply the city until the other proposed water plan becomes a reality. If there is a good supply of water in this well that is being drilled, plans are being made for two others to be drilled. The location of the other wells will be decided after the completion of this well.

At the present there will be no increase in the water rates. The city is in good enough financial condition to have these wells drilled without an increase in the water rates.

## Fathers Day More Generally Observed Than Ever Before

It seems that Fathers Day in our own community and throughout the country was more generally observed than usual on last Sunday.

Everywhere in church services, family gatherings, by radio programs and in gifts fathers were made to feel their importance at least for a day.

It seems that in the wide variety of gifts showered upon fathers — sports shirts lead the list.

It seems that fathers, because of the increased interest centered in them, are realizing more the duties and privileges of fatherhood.

Most any father will become a better one if he is accorded the full cooperation of the mother and children.

In every father's body there beats a human heart and in every human heart there is something divine.

**State Dept. Of Health Letter**

A statement released recently by Dr. Geo. W. Cox, state health officer, indicates that the incidence of whooping cough in Texas is at present almost three times as high as the seven year median.

"Prevention and control of whooping cough, especially in infants and small children, may be accomplished through use of approved vaccine and convalescent serum," Dr. Cox asserted, "and it is important that such measures be taken to protect them. Neglecting to do so, and allowing the young child to suffer an attack of this disease, may seriously impair his future health."

"The infectious agent, or germ of whooping cough is transmitted by droplets expelled in coughing, sneezing or speaking," Dr. Cox said. "The discharges from the nose and throat are dangerous to susceptible persons; the need for early recognition and careful isolation of whooping cough is obvious."

The first sign of the disease is usually a dry cough, which persists day and night and tends to become increasingly severe. The disease is fully developed when vomiting of food and whooping accompany the paroxysm of coughing. Dr. Cox stressed the fact that children who have whooping cough should not attend school and should be isolated so that they will not come in contact with other children until three weeks after the appearance of typical signs of the disease.

Mr. and Mrs. Jodie Baker and Jo Ann of May were here Wednesday visiting with her sister, Mrs. Oscar Cheaney. Billy Don was attending a Boy Scout encampment at Camp Billy Gibbons. Trickham News (By Mrs. Beulah Kingston)

Tom Lowry, son of the late Mr. and Mrs. W. J. Lowry, passed away at his home at Hobbs, New Mexico, May 31, after a long illness. He was buried at Staff in Comanche county, Monday afternoon, June 2. He is survived by his wife, Mrs. Lena Lowry, one son, Opie Lowry of Eunice, New Mexico, and two grandchildren, two sisters, Mrs. Luther Adkinson of Amherst and Mrs. Lizzie Bates of near Trickham, and one brother, Culver Lowry of Coleman. Mr. Lowry formerly lived here and we extend our sympathy to his loved ones.

Mr. and Mrs. W. M. Hancock of Zephyr brought her mother home last Friday. Mr. Ernest Hancock came with them.

Willie Calcote came home last Saturday after spending the week at Natchez, Mississippi. He reports a nice visit with his relatives but failed to see his aunt, who he especially made the trip to see. She was gone on a visit, not knowing he was coming.

We are sorry to hear that Mr. John McClatchy of Coleman had suffered a heart attack last

Wednesday. He was doing reasonably well the last news I heard.

We enjoyed being with Mrs. Ben Nichols and her daughter, Mrs. Ollie Russell of Grosvenor, Mrs. Marvin Nichols and son, Mr. Charlie Downs and daughter, and Miss Katie Downs a few minutes last Thursday afternoon. They had come down to go to the cemetery, so I went with them. There have been some improvements made up there. A new entrance gate has been made, several have had cement curbs made around their lots, and a number have cleaned off their lots, while some like mine look as though no one knew they were buried there. Why not come some time and clean your lot off?

Mr. and Mrs. Elmer Haynes and Lois were Sunday dinner guests of Mr. and Mrs. Glenn Haynes and Nancy Jo.

Mr. and Mrs. Buck Mitchell and girls spent Sunday with his brother, Doug Mitchell and family of Baird.

Mr. and Mrs. Marvin Whitley spent Sunday with his brother, Morton and family of Clyde.

Key Bradley and family, her mother, Mrs. Emma Paulson, her sister, Mrs. R. R. Bearden and children from Hereford, spent Sunday with Key's parents, Mr. and Mrs. J. W. Bradley in Brownwood. Several of the other children came in, too, for Fathers Day.

Nancy Jo Haynes spent Thursday night with Wanda Lou Stearns.

day, but he plans to preach here the fifth Sunday. We were glad to have Noah Stacy and family, Mrs. Irene Bobo, Mr. and Mrs. Glenn McClatchy and family and Mr. and Mrs. Dean and Ruth out for Sunday School.

Mr. and Mrs. R. S. Stearns were happy to have a number of their children home for Fathers Day. Ed and family, Harley and family, Glenn and Verda, G. K. and family, Pat and his wife and Mr. and Mrs. Elmer Sealey and baby were there.

Mr. and Mrs. Glenn McClatchy and family of Temple are here visiting her parents, Mr. and Mrs. Thompson and his father, Mr. Ed McClatchy.

Believe it or not, they tell me that new school bus I see down in town is for Trickham, Crossroads and Cleveland schools. Don't you know those children will enjoy riding in it?

Miss Delma Martin spent a few days here with her parents last week and will be leaving the latter part of this week for a visit with her cousin in the state of Washington.

Mr. and Mrs. Walter Stacy attended church at Brookesmith Sunday night.

To you who are interested in Mr. L. E. Page's physical condition, I will say he doesn't seem to be suffering but stays on the bed a lot, complaining of being cold most all the time.

There were so many who went from here for Mrs. Joda Lou Churchill's funeral at Brookesmith Sunday afternoon, I won't begin to call names.

We were surprised to hear late Saturday afternoon that Mrs. Clay Churchill of near Brookesmith had passed away that afternoon at the Sealy Hospital. Joda Lou was the daughter of Mr. and Mrs. Off Martin and had been in ill health for several years but was up and about most of the time. She was taken seriously ill Thursday. After death

She is survived by her husband, Clay Churchill, one son, Kenneth of John Tarleton College, her parents, Mr. and Mrs. Off Martin, and one brother, Gerald Martin of California. Career Woman! MEET the greatest career woman of all! She doesn't manage a business, write novels, paint portraits, or sing over the radio. Eat her job's big and it's important—she runs a home! What a job that is! In a year she washes more than 6 tons of dishes, cooks more than 1,000 meals, wades through mountains of laundry, trundles her vacuum cleaner across acres and acres of rug! The more Mom depends on electric service, the less work is in her household. And how little electric service costs! A penny's worth a day will rescue Mom from the drudgery of dishwashing. A few more pennies will cook her meals. Electricity will help her wash and iron for less weekly than the cost of a bar of soap. And when Mom balances her budget, she's bound to note that electricity is one of its smallest items. Actually, the average family now gets twice as much electricity for its money as it did about 20 years ago. This bargain comes to Mom—and to you, too—through the practical experience of your friends and neighbors in this company, under sound local business-management. West Texas Utilities Company

**Can't Break His Good Habits!**

Bert Childers was saying, it's funny how so many of our wartime habits stick with us.

Bert likes plenty of butter on his bread, but even now he can't get over spreading it like it was scarce as hen's teeth. And as a war-worker, Bert used to stick to a temperate glass of beer on time off; and he still holds fast to beer and moderation.

Same way with Bert's wife. She not only has no trouble saving used fats, and waste paper. She's learned from wartime necessity to

save every single thing that might possibly be used again.

From where I sit, it's mighty good that so many of these common-sense habits like thrift and moderation have stayed with us. Because they belong in America—along with tolerance, and mutual respect for one another's rights. They're habits that have helped to make this country strong and neighborly and free.

**THE TRAGIC END OF A NATION**

LESSON TEXT—II Kings 25:1-12. MEMORY SELECTION—Righteousness exalteth a nation; but sin is a reproach to any people.—Proverbs 14:34

The end of the road! Down, down, down went Judah in its sinful refusal to keep God's Word, and ultimately came the final day of reckoning. It always does! The catastrophe which had long been approaching had arrived at last.

The fall of a capital city, which carries with it the empire, is a world-shaking event! The fall of Rome shattered the world for a thousand years. The fall of Berlin and Tokyo are within the memory of all of us, and the results are seen in a disordered world.

The destruction of Jerusalem, which our lesson presents, was even more serious; for it was not only a national tragedy, but also one with deep religious significance.

The wicked king Jehoiakim was succeeded by his son Jehoiachin, a mere boy who reigned only three months. He gave way to Nebuchadnezzar, who appointed as his successor his uncle, Zedekiah.

It is in the verses just preceding our lesson that we learn that Zedekiah turned against Babylon in an act of

**I. Rebellion (v. 1).**  
Zedekiah ignored his oath of allegiance (II Chron. 36:13), for which he was condemned by Ezekiel as a traitor (Ezek. 17:13-18). Zedekiah has well been called the vanishing point in a diminishing line of kings. It was an evil thing he did (II Kings 24:19), and one which showed his conceit, vanity and rashness.

True it was that he only followed what he had learned from his predecessors, but that is never a good excuse for a man foolishly to turn against God's will.

Observe that God was not just a disinterested spectator, and yet he had come to the place where he let Judah go down to its own awful doom. The worst thing that can happen to a man or a nation is to be left alone by God!

Zedekiah's act of folly quickly brought

**II. Retribution (vv. 2-10).**  
Jeremiah urged Zedekiah to surrender (see Jer. 37, 38) in order to save Jerusalem and himself, but he refused, and the city was besieged. The king's refusal to hear God's prophet and his turning to Egypt for help speak to us of the manner in which unrepentant sinners reject God's mercy and then seek help at the hopeless cisterns of this world (Jer. 2:13).

The king tried to flee, but was taken captive. Then came the siege of Jerusalem. For one and one-half years the enemy gradually closed in, while famine and distress grew apace in the city. Jeremiah went through this period sharing his people's troubles. The book of Lamentations is the record of this eyewitness.

Sin does its terrible work. Even as it can take a great city and turn it into a plague spot marked by cruelty, suffering and death, even so it can bring forth its inevitable and unspeakable results in the life of the individual who persists in resisting the voice of God.

Note also that the sin of Zedekiah brought quick judgment, not only on himself, but upon his innocent children (v. 7), and on many in the besieged city who were equally guilty of wrongdoing. It is again a picture of what sin does today in the homes and communities of our nation.

**III. Removal (vv. 11, 12).**  
The fall of Jerusalem prepared the way for the closing scene of the immediate history of the nation as the people went into captivity. It also ended for the time being the history of the city that had once so proudly held a position of privilege and power, but was now brought down by its sin and rebellion against God.

We say rightly that history repeats itself. We see that any nation that lifts itself up in pride and forgets God will inevitably perish. We ask ourselves where our beloved country stands. As we consider its debauchery and drunkenness, its disregard of moral standards, its indifference to the things of God, we feel that instead of pointing a finger of scorn at Judah, we ought to be on our faces before God in penitence and shame.

**Our WASHINGTON Letter**

While awaiting the action of President Truman on the labor and tax bills, the house and senate busied themselves last week with appropriation bills, more conference reports, and routine matters.

The president spent most of the week talking good will to the Canadians, a fine gesture begun by him a month earlier in Mexico. Observers see in these visits inestimable good in cultivating friendly relations and promoting peace and understanding.

Before the senate committee on agriculture last week appeared Secretary of Agriculture Anderson to plead for restoration of some of the cuts made by the house approved appropriations bill.

Anderson pointed out that last year the congress, in an amendment to the appropriation bill, indicated that for the year beginning this coming July 1, a total of \$300 million would again

be made available for soil conservation purposes, while in the house that amount requested by the bureau of the budget was whacked to only \$165 million. This, he said, was a breach of good faith on the part of the government.

The secretary also pleaded for the school lunch program, cut by the house from \$75 to \$45 million.

He declared that the farmers were entitled to aid under the soil conservation program to help build back the soil depleted by heavier demands for food.

The house version of the appropriations bill for agriculture reduced the total budget request for \$1,188,571,318 by more than \$383 million. As finally passed, the cut amounted to 32 per cent.

When the bill was before the house we failed in our attempt to restore some of the cuts which appeared unjustified. Among these was the REA item where \$25 million was cut from the request for \$250 million. Some people do not understand that loan money for REA cooperatives is no loss whatever to the government. Under this program the RFC borrows the money from Wall Street at a low rate of interest and in turn loans it to the individual coops for expansion of electric service. These REA coops pay their loans and interest and there is no loss whatever to the government. These loans to coops are most important because it is in that way that new lines are built and more service given to rural people.

Likewise, all efforts to restore the funds for soil conservation purposes were in vain. The figure of \$300 million for the crop year of 1947 was cut by nearly half, to \$165 million.

In addition, the bill, as passed by the house and now before the senate, provides that the Farmers Home Administration, successor to FSA, must discontinue the farm ownership program known as the Farm Tenant Purchase Program.

Funds for soil conservation service to be used in connection with the conservation districts, and otherwise, were cut by 10 per cent.

In previous years 30 per cent of tariff receipts have been available for supporting farm prices and disposing of agricultural surpluses. The bill as passed by the house reduces this program by two thirds.

It is believed the senate will restore some of the cuts made in the house, and some reasonable compromises will be reached before the bill is finally passed.

Among our recent visitors from the district have been Arthur Stehling, an attorney, and Walter McKay of Fredericksburg; R. L. Ferguson, J. M. Shaver, Jr., and J. E. McDaniel, all of Coleman; Mr. and Mrs. W. A. Stroman and two daughters of San Angelo; Mr. and Mrs. L. L. Clardy of Spring Grove, Penn., formerly of Brownwood, James Kilgore of Del Rio, Wm. F. Drake of San Angelo, Mrs. Guida Wilson of San Angelo and John Blake of Brownwood.

The Coleman Garment Co. of Coleman, began operations a few months ago. In the interest of that concern, Ferguson, Shaver and McDaniel were in Washington working toward future expansion. The growth of that business has been phenomenal. Now employing 94 people, it spec-

ializes in clothes for workmen, cowboys, etc., and is filling orders to retailers in every state in the union. The payroll amounts to nearly \$3,000 a week and is steadily increasing.

Let us not assume that we hold a place of favor with God, which exempts us from the certainty of judgment. Israel was, his chosen, and they still are, for his promises of ultimate blessing to them have never been withdrawn. But their sin brought certain punishment, and the same is true today not only of the nation but of the individual. The Sunday school lessons will take up the history of Israel again at this point in April, 1949, when we consider the captivity and the partial return of the people to their land.

### 'I Give You Texas'

#### Boyce House

Many years ago when Tom C. McRae was running for governor of Arkansas, one of his opponents was assailing him. McRae's only comeback was, "A wise hunter doesn't waste ammunition on a dead duck." McRae was elected and made a great chief executive.

In these days when so many best sellers are filled with filth, I am so old fashioned as to count it a real tribute when someone says: "None of the things in your books have to be fumigated."

And a speaker can be humorous without being vulgar.

Touring Texas: At Guthrie, a big rock house enthroned on a hill visible for miles. The castle-

like mansion is the main ranch house of the 6666.

On west is Red Springs. I did not see the springs but in nearly every yard were red flowers that looked like tulips.

It is a scenic drive. To one side is broken country which is the divide of the Wichita river. Then there is picturesque Blanco canyon.

And in Plainview is a "honey house", a store where nothing

but honey is sold. And a little way north of the town is a row of trees, half a mile long, beside the highway. One house is surrounded by trees taller than it is and the house is two stories high. I can remember when it was said that trees wouldn't grow on the plains. Now, they have big nurseries up there.

Between Abilene and Coleman during May there were several miles of hills and valleys clad in

solid sheets of light yellow flowers.

Hollywood has its Brown Derby — and Bangs has its Sombrero, a little cafe built in the shape of a Mexican hat.

And approaching Brownwood on the highway from the west your car drops down on the city almost as though you were coming in on an airplane.

Mrs. Charles Rendleman and her niece, Carolyn Wilson of Little Rock are here visiting with relatives and friends and attending to business. They have visited her sister-in-law, Mrs. Eph Rendleman, who continues to be very sick at the home of her niece Mrs. Edd Tisdale. From here Mrs. Rendleman and niece will go to Pampa and Perryton to see after the harvesting of her grain.

Mrs. Johnnie Lockwood of San Angelo, who is employed by the San Angelo Standard Times visited over the week-end with her grandmother, Mrs. G. W. Myers and her son, Billy, who is making his home with Mrs. Myers.

Mrs. A. L. Hill was quite sick last week but is much improved. Her daughter, Mrs. Jack Mayfield and husband of Crane, visited from Thursday until Sunday with her and Mr. Hill.

Miss Kathlyn Baxter came in last week from Waco, where she has been teaching. Before returning home she visited with her niece, Mrs. P. B. Snook and family at Gladewater.

## National and International News Hi-Lights of the Week

John L. Lewis, United Mine Workers (AFL) cut loose Friday with grim forecasts of a decade of industrial, political and economic hell as the deadline drew near for presidential action on the republican sponsored programs to curb labor and cut personal income taxes. The president has vetoed the bill.

The senate appropriations committee Friday cut out all appropriations for the Southwestern Power Administration with the exception of \$125,000 for administrative expenses. It also refused to give the agency authority to use the unexpended funds.

Ernest Bevin declared Friday that Britain will take the initiative in organizing the American proposed program for rebuilding the shattered economy of Europe. The British Foreign Secretary in endorsing the program recently outlined by U. S. Secretary of State George C. Marshall, welcomed American inclusion of Russia among countries eligible to participate in the plan.

It seems that Fathers Day, last Sunday, June 15th, was more widely observed throughout the nation than at any time in the history of its observance. One Fathers Day gift brought death to the recipient. Leo Streich, 53, of Mishawaka, Indiana, received a rowboat Sunday from his son, Charlie, 14, and Paul, 12. The father and Charlie watched as Paul rowed the boat on the St. Joseph river. When the father stepped into the boat it capsized and he was drowned. The son clung to the side of the boat.

The CIO and AFL announced Monday that they have 655,000 new union members in their year old organizing drives in 13 southern states.

President Truman see no evidence of recession. He told congress in his lax veto message Monday that "despite the many gloomy predictions, there is no convincing evidence that a recession is imminent." He summarized the major points in the present economic picture in these words. "Total employment in May increased by 1,500,000 over April and the total number now em-

employed is over 58 million. He also stated "The number of houses begun by private enterprise in May was the largest in any month since V-J Day."

## Army Air Rescue Covers Local Area

An emergency air search and rescue service for fliers lost or forced down within this area is now being conducted by the Army Air Rescue Service operating from Biggs Field, El Paso. Assistance will be given whether the planes in trouble are civilian or military, and the unit is also authorized to transport by air, anyone injured in ground accidents when other transportation is not available.

All persons who have knowledge of an airplane crash or emergency landing in this vicinity are urged to place a collect long distance telephone call to the Army Air Rescue Service, El Paso, Texas, telephone East 3181, Extension 3991.

The area covered by the Biggs Field unit includes more than 463,000 square miles and takes in Texas, southeastern New Mexico and the southern portion of Oklahoma. A force of 32 officers and enlisted men is constantly standing by on a 24 hour alert basis to respond to calls for assistance.

Equipment provided for rescue expeditions is elaborate and complete. Six aircraft of various specialized types are used. They include two C-47 transports, three L-5 reconnaissance planes and a helicopter. Transports are especially equipped for flying supplies and emergency equipment to accident scenes and for dropping supplies by parachute when necessary. The smaller reconnaissance planes are capable of landing in remote and rugged terrain and are equipped as ambulances for flying injured persons to hospitals. The helicopter, a whirling winged aircraft which can take off straight up and land straight down, can reach quickly by air, places inaccessible from the ground.

Among the emergency equipment carried by rescue planes is a medical bomb which was developed by the Biggs Field Air Rescue Service for parachute delivery to injured men when landings of rescue planes cannot be made immediately. This contains blood plasma, morphine, splints, antiseptics and other medical supplies of an emergency nature. When required, medical

officers especially trained for rescue work, jump by parachute to give first aid treatment to the downed fliers.

Since the Air Rescue Service unit was activated at Biggs Field in September of 1946, its men and planes have spent more than 900 hours in the air searching for lost aviators. A total of 13 missing aircraft have been located during this period.

The Service has recently been

expanded and authorized to go to the aid of civilian as well as military aircraft which encounter difficulties in flight. Prompt reporting of aircraft accidents by witnesses is of great assistance in rescue operations.

The long time value of legume crops is the fertility that they add to the soil, and the fact that they prevent erosion by holding the soil in place.
