GOOD RAIN

That good rain we have been wanting for so long finally came, Even though it was not enough to put but very little water in our city lakes, it has helped our farmers and ranchers. A lot of crops that were thought dead are coming out and will make some. Other lands that have been waiting for rain will soon be planted and the prospect for a crop in this section of the Renew Your state is fair now. We still need Renew Your several more inches of rain and your editor hopes that we will get it before many more days pass. (This is not a prediction)
