Several Boys Turn Out For Ball Practice

The first work-out for the Santa Anna Municipal boys baseball team was held Monday afternoon at the local public park. Twenty boys and their coaches were present. Practice for the first week will be held from 5:30 until 6:45 p. m. About 20 boys turned out for the beginning of practice.

Practice for the next two weeks will be from 7:30 until 9:00 p. m. This is being done so the boys who still have jobs and the ones who are still working on their farms will have a chance to get in and practice with the rest of the boys.

Only six lettermen are expected to return to the squad this year. A number of squadmen are expected, but so far only a few have reported for training. Some of the boys are away from home on summer jobs and will not be here for a week or two.

GOD'S WILL

By Douglas Estes

We miss his laugh... good natured grin;
The warmth he gave to every friend;
The way he joked... the stories he told;
These memories will ne'er grow old.
We miss "Big George"... the way he walked;
The jolly way in which he talked;
We miss him since he left today;
Never again to walk this way....
We wonder why he had to go,
And leave the ones who loved him so,
But through our tears we'll smile and say
"God's will that he should go today."
(Written in memory of Denny Wise, whose sudden passing was a real loss to each one who knew him....)

"Living Costs UP 74.1% Over 1939," Says U. S. Bureau of Labor Statistics. "Electric Service, in West Texas, DOWN 17%," Says Reddy Kilowatt. YES, IN WEST TEXAS, the average cost per kilowatt-hour of electric service to residential users is 17% LESS than in 1939! And it's getting tough, very tough, for me to keep the cost of your electric service low! I'm paying more for fuel, labor, materials, and taxes than ever before. With my fellow employees at the West Texas Utilities Company, I am using every scientific skill, every technical advance, the "know-how" of experienced management, and every economy to keep your electric service the biggest bargain in your family budget. Religion: Hand-Sewn

Lesson for August 22, 1948

THE NEIGHBORS didn't know what Tabitha's ideas were. She never went down in history as a great thinker. What church she attended, whether she ever took part in a prayer-meeting, what her spiritual life was like, the neighbors did not say. But they cried when she was dead. She was a good woman, they knew. When Simon Peter came that way, they did not tell him about Tabitha's prayers or her peace of conscience. No doubt she had these. But what the neighbors brought in to show how good their friend had been, was—"coats and garments." All made by hand, her hands; made for her poorer neighbors, widows. In those days widows were not protected by life insurance, social security or annuity plans. They could not go out and earn big money in factories. To be a widow, as a rule, meant to be in need of help. Too many of them starved. So Tabitha spent her time making clothes for the widows of her city.

Dr. Foreman

Full of Good Works
THE BIBLE says she was "full of good works." It does not say she was full of faith or full of love. Just full of good works. We can be pretty sure the faith and love, the religion, was there, but it was the good works that people noticed. Religion in Tabitha's house was translated into the language of coats and skirts. Religion always has to be translated into something we can understand. Religion uses words, of course; books full of them. We cannot get along without them. They stand for something. But where the Christian religion is concerned, we cannot stop with words.

Would They Want You Back?
THERE MUST have been a number of deceased Christians in Joppa, but the only one who seems to have been worth a miracle to bring back to life was this woman, Tabitha, or Dorcas. Her life was over, yet it was a life worth living again.

How many people would be worth bringing back to life again? How many funerals would the neighbors want done in reverse? Not many, maybe, but if the neighbors voted at each funeral, as they did at Tabitha's, on the question, "Do we want this person back again?" they would usually vote for people like Tabitha, whose religion was all hand-sewn.

What Is Service?
SERVICE is a word much used in Christian circles. We even have the world around us using the word. Department stores, government agencies, radio manufacturers, filling stations, all offer service. The trouble is that much of this is something for which you have to pay. And much so-called service is simply mending something that was not done right in the first place. Tabitha's service was of a different kind. It was genuine, doing for people who couldn't do much for themselves and who certainly could not do anything in return.

Even among Christians, when we think of service we set our sights sometimes too high. We think of Telemachus, who stopped the brutal sport of gladiators murdering one another on Roman holidays. We think of great missionaries or settlement workers, or Christian statesmen like Gladstone or Kuyper. All honor to such men and women; they inspire us all. Yet they discourage us, too. For these great Christians are "special" people; they had outstanding talent, some of them even genius. They had opportunities given only to a few; opportunities that do not come in every one's lifetime.

Religion in the Hands
WE SHOULD REMEMBER this Tabitha or Dorcas. All she had was her hands and some pieces of cloth. Her only opportunity was a poor city filled with poor people. Her only talent was one most women have: Plain sewing. Yet the Tabithas the Dor-

cases, make the backbone of Christianity. They are the salt of the church, the salt of the earth. In your own town, in your own community, if the Christian religion is loved and respected, it is not because of the famous preachers; it is because of the humble doers, the people whose Christian religion goes to their hands.
