Sheet Shower For Hospital

The ladies of the Sealy Hospital Auxiliary are planning a sheet shower for the Sealy Hospital. The shower is to be held before Hospital Day, which is May 12.

Every club and organization of any kind in Santa Anna and vicinity are asked to cooperate with the Auxiliary in putting over this sheet shower.

Sheets for hospital beds are 72 x 108. This is an odd size and very few are usually carried in stock in the Santa Anna stores. The ladies have said they want to give the hospital 4 dozen sheets, and Mr. Loyd Burris has already ordered the sheets, and is going to let the ladies have them at cost. The cost of each sheet will be about \$2.50.

Everyone who is interested in donating a sheet or more to the hospital is requested to drop by the Santa Anna National Bank and deposit whatever amount you care to, to the SEALY HOSPITAL AUXILIARY SHEET FUND. The sheets will be in this week and will be on display at the Burris Dry Goods and anyone is welcome to come in and see them, before buying.

The Auxiliary has been mending sheets for sometime now, and they are so nearly worn-out that the ladies want to furnish new sheets for the patients. The hospital is a worthy factor in our town and surrounding area and if you see fit to, and can, you are asked to donate what you can toward the purchase of these new sheets for the hospital.

the BACON!*

Good intentions don't make a good savings plan. What's the smart way to save? A way that's—

1. Regular
2. Convenient
3. Dependable
4. Automatic

You can get this foolproof combination by investing in U-S Savings Bonds. Either of these two ways:

Join your company's Payroll Savings Plan . . . or join your bank's Bond-A-Month Plan.

Then sit back and watch your dollars make pigs of themselves, fattening up at the rate of four for every three you put in, every ten years.

That's one sure way to bring home the bacon some day. And by bacon we mean the things you dream about for the future: a home, a business, a college education, and freedom from worry.

Go reserve a slice of that for yourself . . . TODAY!

Heaven Is Real

Easter Lesson for April 17, 1949

HEAVEN IS just as real as Chicago. More so, because Chicago will in time cease to be, while heaven lasts forever. A few atomic bombs, a whiff of some new plague, can make Chicago vanish; but no atomic bomb can touch heaven. The pity is, so few Christians really believe this. We can get mail from Chicago, but who ever heard of mail from heaven?

Dr. Foreman

Wait, though... there is mail from heaven, and you have it there in your Bible. If you accept it for what it is, the Word of God, then it is the Word from heaven. To be sure, it does not tell us much about heaven. If you were actually traveling to Chicago, you would not begin by studying a street-map of that city. What you would need is a map of the roads between.

So the Bible is not a guide-book to the "City Four-square;" it is more of a road-map to help us find the way between here and there. Nevertheless, the Bible does assure us that heaven is real.

Christians have many reasons for believing in the reality of the future life, and some of these may not be in the Bible; but the best reasons are there.

Jesus Believed It

WINIFRED KIRKLAND has truly said that Jesus did not simply believe in immortality; he lived it, Jesus would never have called this world or this life trifling or unimportant. But all around, under and over and through this visible world, Jesus was aware of another. He lived and acted as a citizen of both worlds. He talked of life after death—or for that matter, of his own life before his birth—as calmly and naturally as you would speak of next week or next summer.

Christ Is Risen

MANY PEOPLE feel it would be easier to believe in the future life is someone who had been across the line of death would return across that line to bring a message from the beyond. So they attend seances and they listen to table-tappings and go through all manner of weird performances in order to get a word or two from someone who has passed on.

But all the time we do have a record of a Return. Indeed it is The Return. We call it the Resurrection. The message of Easter is not summed up in songs about some "Beautiful Isle of Somewhere;" it is in these three words: "Christ is risen!"

He did not return in darkness, he was not under the control of any "medium," he did not make himself known by ghostly hauntings. He was seen at supper-tables, he spoke to his friends on a mountainside, he came to fishermen on a spring morning by a lake shore. The earliest Christians doubted some things; but few doubted that the Lord was risen indeed.

Heaven Begins With God

THE CURE for the troubled heart, Jesus said, is faith in God. One of the strongest reasons for believing that the future life is real, is the nature and character of God himself. Jesus said as much once, in an argument with men who did not believe in immortality: "God is not the God of the dead, but of the living." If we were God's paper dolls or toy soldiers, he might weary of us as a child wearies of its toys, and sweep us all into destruction without a moment's thought. But if we are truly his children, then when life's evening comes, he will call his tired child- ren home.

Eternal Life has two sides, the heaven-side and the earth-side. The church has never believed that simple immortality is the same thing as the heavenly life.

Peter sadly said: "To his own place." A Judas carries out his own hell with him. But a man like Paul, or any Christian who has been at home with God here on this earth, when at last death comes, will, as Whittier said:

'Unto his fitting place.'"

From where I sit ... by Joe Marsh
There'll Always Be a "Gawker"

"Harry the Hermit," as he's called, came into town last week and, as usual, caused quite a stir. He looks like a cross between Santa Claus and Daniel Boone.

We had a friendly glass of beer together and I asked him, "Don't you ever get annoyed at the way some people laugh and stare at you by?" "Shucks no," Harry says. "Only while they're laughin' at me, I'm feelin' a mite sorry for them. Imagine—folks so ungrateful they can't see I'm really just the same as they are underneath."

From where I sit, Harry is a bit more "civilized" than the people who make fun of him. He's contented, lives the way he believes is right without harming anyone—and what's more, he's tolerant of others whose tastes in living are different from his.

Maybe we all don't look the same, or act the same, or eat or drink the same, but in a free country, why should we?

THIS IS AMERICA

This is freedom—many religions, many races, living in harmony together. For freedom is more than a way of life. It is a state of spirit—and our richest asset.

Under freedom of religion, Americans attend more churches than any other nation. Under freedom of speech, we have more newspapers, more radio stations than any other country in the world. Under freedom of opportunity, our children attend more schools, have more chances to succeed in life.

We are only 7% of the world's people, living on 6% of the world's land. Yet, we who live in America have the highest standard of living the world has ever known.

Under freedom of enterprise—you may call it Democracy, or Capitalism—we make just about one-third of the world's goods, mostly for our own use. We drive three-fourths of the world's autos, use about half the world's electricity. Our homes are unrivaled for comfort and labor-saving devices. We eat more meat; buy more clothes, see more shows, own more insurance. We even save more money.

Yes, freedom pays—in the coin of tolerance and understanding, and in the coin of progress and prosperity.
