Prophets False & True Lesson for December 4, 1949

GOD is neither silent nor dead. He has his spokesmen today. We hear myriads of voices-preachers, teachers, editors, columnists, poets and politicians, all professing to tell us the fruth.

When a mun claims to speak in the name of truth. there ony way by which his claim can be tested? It is an old problem." Away back in l Bible tinter every prophet had his

rivals, the false Dr. Foreman prophets. The fal. were far more numerous, they often had immense prestige and

government subsidies besides. How was the common man to tell the true prophets from the false? A 10 4 10 4

C

Notion of Man or Word of God?

ONE DIFFERENCE between the true and false prophets, of course, was that the false ones passed out their own ideas, while the true ones gave voice to the ideas of God. Some of the false prophets even dug down into what we now call the subconscious, and told their dreams as if they meant something.

The false prophets of our own times are still the people who draw on their own minds, oven on their day-dreams, to furnish messages for the people. The gypsy dreambooks are still with us. Astrologert flourish, and not always on the side streets. All sorts of queer cults profess to tell us what is comingnext and what we ought to do.

Before we take a modern "prophet" seriously we should ask: Is what he is saying his own idea or God's idea? In this 20th century after Christ, it should be easier to know God's ideas are than it was 27 centurles ago in Jeremiah's time.

For now that Christ has come, we can safely check all the self-styled prophets with the measage and the mind of Christ.

. .

Is the voice of the people the voice of God?

THE FALSE PROPHETS were always popular, the true ones
