March Of Dimes Square Dance To Be At High School Gym Saturday Night

The Santa Anna High School gymnasium will be the scene of a square dance Saturday night, February 18. Admission of \$1.00 for adults and 50 cents for students will be charged, with all the proceeds going to the March of Dimes fund.

This square dance is being sponsored by the Santa Anna and Coleman Lions Club and the Wagon Wheel Club of Santa Anna and Coleman. Tickets are on sale at almost every store in Santa Anna and a number of stores in Coleman.

Invitations for callers have been accepted from Coleman, Comanche, Brady, Hamilton, Hamlin, Byrds, Ballinger, Owens, and San Angelo and others are expected to be here. Master of Ceremonies for the five parts of the program will be W. F. Barnes, Kent Martin, Oscar Cheaney, F. C. (Jack) Woodward and Bill J. Adams. Several Ex-

hibition dances and novelty dances will be performed.

There is room for only approximately 100 dancers on the floor but the spectator is the one who will enjoy the show. There is seating room for over 800 to watch the performance, so plenty of room is assured for everyone.

There will be a check room for you to check your hats and coats, a concession stand with cold drinks, coffee, sandwiches, etc. When you attend this square dance, you are making a donation to the March of Dimes fund, which goes to fight Infantile Paralysis.

These organizations are putting on this square dance in order to give the donor something in return for his money, rather than ask for a donation. We assure you that you will enjoy the evening you spend, if you attend the square dance. It will be well worth your money.

P-T. A. To Have Basketball Tourney Next Week

The Parent-Teachers Association of Santa Anna are sponsoring a basketball tournament at the High School gym on Tuesday night, February 21, and on Thursday night, February 23.

All the teams that will be in the tournament have not fully been decided upon as yet, but there will be no professional players in the tournament. Most of the players will be from G. I. School, the Lions Club, the school faculty and the business men of the town. Also women teams are being arranged for a short exhibition each night.

Make plans to turn out to see the PTA basketball tournament on the two nights. Fun for all is assured.

Marshall Rutherford Practices Teaching In V. Ag. Dept.

Marshall Rutherford, of Coleman, Texas, and a senior student in Agricultural Education at Texas A & M College is practicing teaching in the Santa Anna Vocational Agriculture Department. He has been teaching all this week.

Mr. Marshall is a graduate of the Coleman High School in the Class of 1942. He is now attending A & M. under the GI Bill of Rights, after serving in the Navy for three years.

Training Union 1 To Meet Friday Night

All members of the Adult No. 1 of the First Baptist Church are urged to be at the Annex, Friday night, February 17, at 7:00 p. m., to divide into groups and visit prospective members.

Rockwood Couple Given Boys' Ranch Post; Miller Box Accepts This Week

Mr. and Mrs. Miller Box of Rockwood were appointed last week as resident manager and ranch mother for Boys' Ranch of West Texas, located at Tankersly, near San Angelo. They were appointed to replace E. D. Pate, who has tentatively been serving as ranch overseer.

Box, Rockwood farmer and ranchman, assumed the duties as resident manager of the ranch Monday. Mrs. Box, who has been dietitian for the last three years with the Rockwood school system and who formerly taught in Rockwood schools, will serve as ranch mother and dietitian for youngsters who will move to Boys' Ranch as soon as facilities are completed for them there.

Appointments were made Saturday at a meeting of the Boys' Ranch executive board, Sol Mayer, said.

Mayer announced appointments, too, of four men to head Boys' Ranch committees. Carl Runge was named chairman of a finance committee. E. E. Armistead will head a regional public relations committee designed to establish branch Boys' Ranch offices throughout West Texas. Fred Becker was charged with a committee to provide and maintain housing facilities and furnishings for the ranch at Tankersly. E. D. Webster was placed in charge of a livestock committee to oversee stocking of the ranch.

4 Boys And Teacher Leave To Attend San Antonio Show

A. D. Pettit, Vocational Agriculture teacher, took four of the FFA and 4-H Club boys to San Antonio Wednesday to enter the first San Antonio Livestock Show. The boys going were: James Donald Vercher entering 3 fine-wool Lambs; Charles Hosch, entering one Southdown lamb; Billy Ray Weathers, entering 2 Southdown muttons and 2 fine-wool muttons; and Thomas Ray Rutherford, entering one Hereford steer and one Angus steer.

The San Antonio show opens Thursday of this week and the auction sale will be on Wednesday, February 22.

New Drivers License Now Being Issued

AUSTIN, (Sp) — After years of study aimed toward better serving the motorists of this State, Texas has pioneered in improving the style and the procedure of issuance of drivers licenses, according to Colonel Homer Garrison, Jr., Director of the Texas Department of Public Safety.

Under direct supervision of A. F. Temple of the Department's Drivers License Division, the new license has been adopted, after extensive study, for greater ease of processing and with a view toward making the renewal of licenses less effort on the part of the motorist. Texas, so far as is known, is the first State to adopt the technique of notifying drivers when their licenses are about to expire.

Effective this week, the License Division will begin issuing the style Operator, Commercial and Chauffeur permits to all applicants. Licenses now in effect will remain valid and will be replaced by the new form upon the next renewal by present holder.

Complete handling of the new license will be effected by machines and the license itself will be mailed out in the form of a post card which is so arranged to permit separation to allow for proper fitting into billfolds or card cases.

One of the more important features of the new procedure will be a recorded renewal copy of the original license which will be mailed to operators about a month prior to the expiration date of their license advising them that it is about to expire. This is expected to be a real benefit to the thousands of Texas drivers who habitually allow their licenses to expire because of neglect in checking the expiration date. The new license will also carry the actual date of expiration rather than the date of issuance as previously used.

Holders of the old type license which has been in use for several years will not be required to execute a form when seeking renewal. All that is necessary is to tear off the renewal stub, make any correction as to address, etc., on same, and mail it in along with a money order in the proper amount.

Cost and validation periods of the licenses will remain the same: fifty cents for Operators License for two years; one dollar for Commercial License for one year; and three dollars for Chauffeur's License for one year.

Henderson, by letter. Simultaneously with other Baptist Churches in Coleman Association and the 8,000 Baptist Churches west of the Mississippi, we are having a Revival in April. Our revival will be April 16-23. Frank Gillham will be the preacher and Carl Lowe, the song leader. The work of the departments of the church is being focused toward this event.

City Water Mains Cleaned

Last week the water mains from the city lakes to the storage tanks on top of the east mountain were cleaned and with the job being completed enough water can be pumped through the mains to take care of the fire fighting equipment that Santa Anna has. Also a considerable saving will be made in the pumping cost of our water supply.

Before the mains were cleaned it took 160 minutes to pump a 48,000 gallon filtering tank to the top of the mountain. Now it takes 85 minutes to pump the same amount of water to the storage tanks, which means that now about 565 gallons of water per minute can be pumped from the lake supply to the storage tanks. The official test on the pumping will be made some time this week.

This will save the city from \$400 to 600 a year pumping cost. It cost \$1,008.00 to get the lines cleaned. So, according to figures, it will pay for the cleaning in less than two years. 110,000 gallons of water can be stored in the storage tanks.

With the addition of 20 water meters within the last four months, the city now has a total of over 600 water meters. There are a few bad meters in the city, but they are being replaced as fast as new meters can be obtained.

Jesse R. Magill Buried Tuesday

Funeral services were held at Fort Worth and at Santa Anna Tuesday for Jesse R. Magill, 57, who died Monday at Fort Worth. Born at Blanket in 1893, he grew to manhood in this area and was married to Miss Artie May Russell. He was a veteran of World War I.

Of three children born to the couple, only one survives, a daughter, Mrs. Martin Walling of Albany. Mrs. Magill and a grandson also survive.

The services at Fort Worth were at the Morningside Christian Church at 10:00 a. m. Tuesday, conducted by the Rev. W. A. Welch of Dallas. The service at Santa Anna was at 3:00 p. m. Tuesday, at the Hosch Funeral Chapel, the Rev. Grover Schurman, pastor of the Morningside Christian Church of Fort Worth, officiating.

Pallbearers were nephews of Mrs. Magill, J. D. and Tom Howard, Sam Powers, Billy Joe Scott, Stanley Russell and Elgen Gilliam.

Burial was in the Santa Anna Cemetery, with Hosch Funeral Home in charge.

Eastern Star To Sponsor Movie

The Santa Anna Chapter No. 247 Order of The Eastern Star are sponsoring the motion picture entitled "That Midnight Kiss" February 19 and 20.

The picture stars Kathryn Grayson and Jose Iturbi and is filmed in beautiful Technicolor. This is a good family picture with delightful music and thrilling romance.

The funds raised by the O. E. S. in this manner will be used to carry on the usual benevolent and charitable work of the organization, and every member will appreciate your attendance.

Mrs. W. E. Ragsdale is in Trident, Montana, helping to care for a new granddaughter, Little Miss Vanta Suzanne Conner. Parents of the Little Miss are Mr. and Mrs. H. L. Conner. Mrs. Conner is the former Miss Ara Belle Ragsdale. The baby was born January 31, and weighed 7 pounds. Both mother and daughter are reported to be doing fine.

Sgt. Ray Perkins, of Carswell Air Force Base in Ft. Worth, was visiting friends over the week end.

A special 7-months offer is being made for \$5.95 (which will carry the subscriber until the Fall Bargain Rates are offered again) and an introductory offer of \$1.00 for 4 weeks is being made.

Remember, this is Election Year and you will want to keep up with all the news. Subscribe now through the Santa Anna News.

Cemetery Clean-up Campaign Still In Progress

The Santa Anna Home Demonstration Club is still urging families who have lots in the Santa Anna Cemetery to get out there and get the lots cleaned up. A great number of the lots have been worked and the cemetery is looking mighty nice, but some of the lots still have not received any improvements in a number of years.

After your lot has been cleaned up and put in good shape, you can join the Santa Anna Cemetery Association and the lot will be kept in perfect order for \$6.00 per year. We urge you to see Mr. Emzy Brown about joining the Cemetery Association. The organization sees that all member cemetery lots are cleaned and well kept.

Central Texas Bible Conference February 20-21

The Annual Central Texas Bible Conference at Howard Payne College, February 20-21, is announced by Harry C. Wigger, pastor of the First Baptist Church, Santa Anna, the program chairman.

The Conference will open at 10:00 a. m. Monday, February 20, with an address by Dr. Morris Ford, pastor of the First Baptist Church, Longview, Texas. Dr. Ford, noted for his bass singing, as well as his powerful preaching, is to bring four other messages during the Conference.

Other outstanding speakers are Dr. Jesse Northcutt, Professor at Southwestern Seminary, Fort Worth, formerly pastor of First Church, Abilene, who will bring the Bible lectures on the Book of Romans; Dr. John Freeman, Nashville, Tenn., lecturing on the Country Church. The Conference will be morning, afternoon and evening of both days. This is not for preachers only, but for laymen and women of District 16 and surrounding territory. Around 500 were registered last year at these Conferences.

MRS. ODER ATTENDS FUNERAL OF BROTHER

Word was received here early this week of the death of James M. Embree, only brother of Mrs. A. L. Oder. He died at his home at Atlanta, Texas, Friday, of a heart attack, after being in ill health for many years.

Mrs. Oder, who has been staying with her sisters in San Antonio for the past several months, went to Atlanta Saturday and attended the funeral services at 3:00 p. m. Sunday at the Atlanta Christian Church.

ATTEND CHURCH SUNDAY

Neal R. Oakes, operator of the Santa Anna Piggly Wiggly was elected president of the Santa Anna Chamber of Commerce at a meeting of the entire membership on Thursday night of last week. Mr. Oakes has served the past year as vice president of the organization. Bruce Snodgrass, manager of the Santa Anna Hardware Store was elected as vice president for the coming year.

Aubrey Brewer and Loyd Purris were elected to serve a one year term on the board of directors and J. W. Riley, W. B. Griffin, John C. Gregg, O. L. Cheaney and Arlie Welch were elected to serve a two year term on the board of directors. Other one year directors are Neal Oakes, Ozro Eubank, Calvin Campbell and Bruce Snodgrass.

Reports from the secretary-manager, W. F. Barnes, reviewed a number of the projects that the Chamber of Commerce has been engaged in for the past year. Barnes also gave the financial report of the organization and the financial report of the Santa Anna Fall Fun Festival program held during the fall months of 1949.

Committees for the functions of the organization will be appointed at the next meeting night. Usually every member of the organization is appointed to serve on some committee. In this manner it gives the member something to work forward to, and makes him realize that he is a member of the Chamber of Commerce.

It was suggested that merchants of the town refer all persons who come into the town asking for money or asking to be helped in other ways, such as some of the fast talking magazine salesmen (or women) advertising solicitors for out-of-town publications, such as books, calendars, etc. be referred to the secretary of the Chamber of Commerce before you do any business with them or give them any money. The secretary will check up on these persons and if they are found to be needy or representing reliable firms, he will give them a letter on the Chamber of Commerce letterhead, signed by him, showing that they have permission to be soliciting in the town. The co-operation of the entire citizenship is urged in this matter.

In the past several months a number of unreliable persons have been traveling over the state selling advertising in magazines, church song books, and other supposedly publications that have been found not to be in existence. Also a number of beggars or panhandlers or what ever you might want to call them have been making this little town pretty regularly. A number of them that have been checked upon have been found not to be as they represented themselves. It is for your benefit that you refer all these kind to the Chamber of Commerce for permission to be soliciting funds in Santa Anna.

Texas Farmer Union Supports Full Parity For Family Farmers

The Texas Farmers Union closed its convention in Amarillo, January 28. The convention went on record in support of FULL parity for family type farmers. We urged a trial of the principals involved in the Brannan Plan. We are aware of the fact that it is not a cure all, but we realize that a plan on a national level that will protect the farmer and at the same time make surpluses available to the public at a price they can afford to pay is necessary.

The support plan that is in effect now is not endorsed by the Farmers Union. We know that to support some commodities and not to support others, to allow surpluses to accumulate, and to destroy food in large quantities, so that the farmers might receive 90% of value, will only make a political football of the whole price support program. Consumers will not stand for this type program to exist much longer, and rightly so.

Secretary of Agriculture, Brannan offered to Congress last year a plan that would support all basic crops at 90% of parity, with provisions for caring for surpluses and perishables. This plan was defeated in Washington last July, and in its place we got the price support program that we are now operating under. It is a plan that is unfair to many farmers and is certainly unfair to the consumer.

Farmers Union is the only na-

tional farm organization that is working for such a plan as Brannan proposed, but we feel that we are the only true voice of the family type farmer. The other three national farm organizations, the Farm Bureau Grange and Federated Cooperatives, have as their members anyone who chooses to pay the dues of the organization, regardless of what occupation he is engaged in and whether he lives in the city or the country. Many times those chosen as voting delegates are unfriendly to the family type farmer.

Farmers Union invites the Federal Government to protect the family type farmer, as it has industry... NOT TO CONTROL OR DICTATE. But until the farmer is in a position to protect himself, government protection is necessary. The things that the farmer must buy are on a controlled market. Production and prices are set by industry so that they will operate at a profit. Farmers themselves have not reached the point where they can control production and marketing. We have asked that the Federal Government protect our markets at 90% of parity, and that the program be directed by — FARMER ELECTED COMMITTEEMEN, ON THE COMMUNITY LEVEL.

In 1932 farmers were not protected. They received 55% of parity for their produce. The results reflected in the entire economy of the nation, and a depression resulted. It was not until 1941, after the 90% of parity law went into effect, that the

farmer received 90% of what his produce was actually worth, in comparison to the things he must buy.

While our country was at war we were told that, "FOOD WOULD WIN THE WAR AND WRITE THE PEACE." Farmers were assured of 90% of parity by our National Government. Farmers produced in abundance. Their market was protected, and they enjoyed a certain amount of prosperity that also reflected in industry, and resulted in prosperity for the entire nation.

After the war, we were asked to help feed the hungry people of the world, and we were asked to again produce in abundance and were assured of 90% of parity. Because the demand for food was greater than the supply, at one time the farmer was receiving on the open market 122% of parity. We experienced a boom in farm prices that made front page news over the entire nation. Since that time, January, 1948, supply has caught up with demand, and our parity figures has slid from 122% to 98%. The farmer on December 15, 1949, was receiving 98% of parity. We are asking that the government protect our markets at not less than 90% of parity on all basic crops, because we know that without this protection our parity figure will drop to 50 or 60% as it has already done on some of the produce that is not protected. Although farmers income has dropped 22% the things that the farmer must buy have only fallen 4%.

Before we reach the "Point of no return," as many farmers did in 1932, when they had to leave the farm, because they could not make a living; let's study the facts that we have before us, and before it is too late. Stabilize agriculture, so that we may have the land of our nation in the hands of many farmers living on free land, and caring for the land, that those following in our footsteps may be free and independent tillers of the soil.

One Moment Please!

With Gayle Oles Supt. BOLES ofphan Home in San Antonio, Texas

The penalty of success is to be bored by the attention of people who formerly snubbed you. The only way to be rid of worry about the things we have not done is to do them. That dizzy feeling many people complain of is hardly ever

caused by doing too many good turns.

Two church members met on the street on Monday morning. Said one: "I didn't see you in church yesterday." The other replied: "I know you didn't. I was taking up collection."

An All Electric Kitchen saves you time, money and work

When a Kitchen is **Practical and Pretty** of Course, It's **Electric!**

When all of your appliances are electric it costs less to use them than when you have a combination of services. That's because each time you take another step towards an all-electric kitchen you also step down the cost of each unit of electric service. The more you use the lower the rate. Yes, an all-electric kitchen is easier, cleaner, cooler, and costs less!

AN ALL ELECTRIC KITCHEN INCLUDES:

- Cooking Center:** The Electric Range automatically provides the exact cooking temperature needed. Surrounding work surfaces and storage cabinets keep cooking utensils and food supplies within arm's reach.
- Dishwashing Center:** Ample work space for stacking used dishes and cooking utensils. The Electric Dishwasher handles not only dishes and silver, but pots and pans as well — washes them shining clean, and dries them without wiping.
- Refrigeration Center:** The Electric Refrigerator provides ample food storage, and large freezing capacity. Adjacent work surfaces provide space for food preparation.
- Adequate Wiring:** This simply means: 1. Large enough electric wire. 2. Enough circuits. 3. Plenty of outlets and switches.

Why More People Wear Glasses Now

Back in the time this country was being settled, our forebears had a hardy stock that they wrested a living from the dirt. They protected their families and rights by virtue of quick trigger and sharp eye. Such activity worked the human eye in the exact capacity for which it seems to have been designed. Frontiersmen, Indians, Scouts all needed that sensitive peripheral vision that would warn them of approaching danger, or possibly of game for their table. The more their eyes scanned the horizon, the more efficient they seemed to get. During the war, after searching the skies for enemy aircraft over several months period, our airmen found

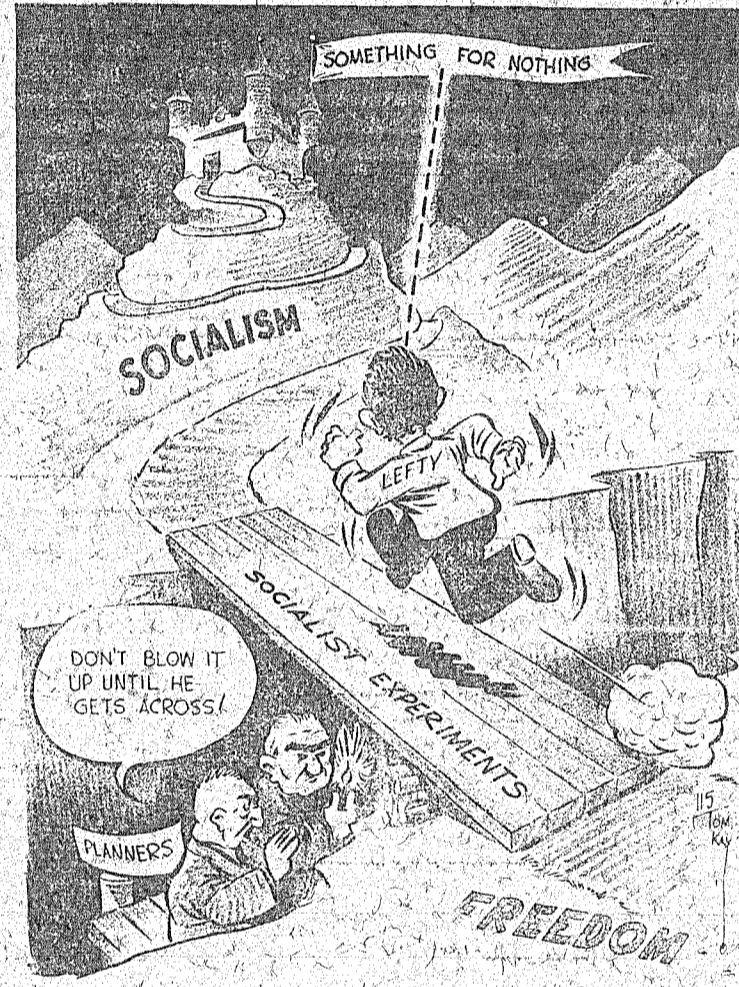

their far vision considerably improved. Almost everyone is familiar with the trick of resting so called "tired eyes" by a drive in the country, or by working in the yard, or by any activity that eliminates close eye work. To see at far seems natural and easy for most of us. Reading, sewing, figuring, typing, close work in general, seems to require more effort.

Our civilization today is primarily an urban basis. The majority of our population live and work in cities. We are a race of office workers, mechanics, shop keepers, movie goers and newspaper readers. Such tasks we can do for a while, but we are exceeding the specifications of our eyes when we do. These are impairing tasks for which we are adequately equipped. Therefore, it is understandable that so many people seek

"THE BROTHERHOOD OF MAN under the Fatherhood of God is our only guarantee of the preservation of the blessings of Democracy," Governor Allan Shivers says in an official memorandum designating February 19-26 as Brotherhood Week in Texas. Governor Shivers, far right, issued the memorandum at the request of Protestant, Catholic and Jewish leaders. Shown with the Governor from left to right are W. F. McNamara, Joe C. Carrington and Dr. H. J. Ettlinger, Austin leaders of the National Conference of Christians and Jews, sponsors of the 17th annual national observance of Brotherhood Week. In issuing the call to observe Brotherhood Week, Governor Shivers urged all to rededicate themselves to that principle of our government that recognizes "the dignity and worth of every citizen" and guarantees these rights through the Declaration of Independence and the Bill of Rights.

and receive aid from glasses, visual training, contact lenses, bifocals, sun shades and the like. Tables of expectancies compiled by insurance companies claim that the average person not previously requiring visual aid may expect to need help between the ages of 37 and 42 years. Disease, impairing tasks, psychological blocks, accidents, improper lighting, insufficient eye care may all contribute to the necessity for earlier assistance.

Preventive optometry functions as effectively as preventive medicine and preventive dentistry. Yearly examinations should be scheduled and immediate attention should be given to any unusual visual problem.

business in 1950, the people of the State need to gain a new knowledge of its significance and to convince their leaders of the importance of the support of the people, said Dr. Geo. W. Cox, State Health Officer.

The State Department of Health is the state agency responsible by law for the health of all the people in Texas. The working out of this responsibility, however, must be a joint affair shared by all the people.

The State Health Officer is the administrative and executive head of the Department. The field activities are organized in 16 different divisions. Fight for Freedom

Lesson for February 19, 1950.

THERE ARE TWO KINDS of problems with living, one is the kind of problem caused by its growing too fast; the other is the problem caused by not growing fast enough. The early church had mostly the first kind of problem. At any rate it was taking in a lot of members whom the older Christians found strange. At first all Christians had been Jews; no one thought of anything else. But in Antioch, as we have seen, and even more as the church spread westward, around the edge of the Mediterranean, the Christian churches were filling up with non-Jewish members, just as they are today.

Dr. Foreman

It is no secret that in the Masonic order there are 33 degrees. It is not possible for a new member to be taken right into the 33rd degree the first night. Everybody has to go through the lower degrees which are called the Blue Lodge. Now many persons in that early church thought of the Jewish faith as a sort of Christian Blue Lodge. All the very earliest Christians, had been members of that lodge; why shouldn't every one else be the same? So when Paul and Barnabas came back from that historic missionary tour of Cyprus and points north, telling about the large number of new Christians, these old-style Christians, shook their heads. Paul was, by-passing the Blue Lodge; he was taking in members who had not gone through the proper preliminaries, the first degrees.

What Makes a Man A Christian?

PAUL KNEW a real Christian when he saw one. So did Barnabas. And the two of them knew, right down in their souls, that they had seen real conversions, genuine cases of persons coming out of pagan darkness into Christian light, without being Jews at all, even for five seconds. The vital question was simply this: What makes a Christian? The old-style Christians, who had been Jews themselves and still were, for all their Christian faith, said: Unless you are circumcised and keep all the laws of Moses, you cannot be saved; you cannot even begin to be a Christian. Paul and Barnabas, not alone, but as spokesmen for many others in the church said: You are saved by faith. The Jerusalem Christians said: Yes, you are saved by faith, AND by keeping the law of Moses. Paul said: you are saved by faith, period.

How They Settled It

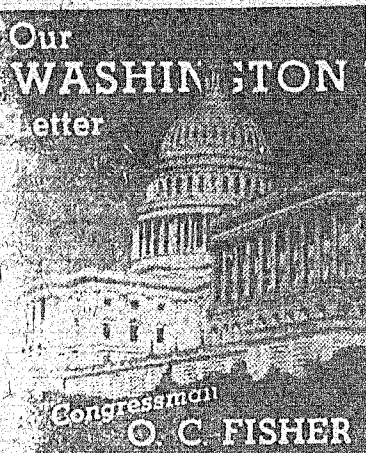

THE WAY that problem was settled is a model for all Christian churches with problems on their hands. First of all, the argument was brought out into the open; it was not a whispering campaign. Second, it was settled after giving both sides plenty of opportunity for full discussion in public. Third, it was settled not informally but by a church council, a group of representative leaders, not by a simple majority vote of all church members indiscriminately. Fourth, it was settled (as the reader of Acts 15 may see) by appeals to fact and to Scripture.

Finally, once the leaders had made up their minds, the church at large accepted their decision promptly, without further bickering. This has been the pattern for the Christian church ever since, though alas! it has not always been followed. There would have been fewer church splits if the example of the early church had been more seriously taken.

Faith and Obedience

ESSENTIALLY, that first great church council decided on the side of Paul and Barnabas. But they did not throw the Old Testament overboard. The moral law was as good as it ever was. But the council showed, once and for all, the true relations between Christian faith and obedience to the law of God.

There is just one doorway to the Father's house, the doorway of faith. We do not have to

While major legislation lagged, the hydrogen bomb and the coal strike claimed the headlines in Washington last week. Old John L. was at it again. After dilly-dallying along with slow-downs, walkouts and three-day weeks for several months in order that the Nation's surplus of coal could dwindle, Lewis decided the cupboard was about bare and the time ripe for the heavy blow.

Observers say he may have had several motives behind his strategy. First, his lust for personal power; second, his hatred for President Truman, who put him in his place a couple of years ago by using the Taft-Hartley Act when Lewis defied an injunction and the sovereignty of the United States government.

C. A. Oliver, Pastor

Keep the law of Moses, or any set of laws, first. We are saved BY obedience. We are not saved FROM obedience. But we are saved FOR obedience. A Christian's obedience to God is not a way of earning God's good-will. It is a grateful response to God's grace. And that makes all the difference in the world.

(Copyright by the International Council of Religious Education on behalf of 40 Protestant denominations. Released by WNU Features.)

Thirdly, his pretended concern over what he claimed in a letter to Mr. Truman was inadequate wages for his miners.

The latter is not believed to be of importance to Lewis, since the mine worker is the highest paid of any major group in the country, according to the Bureau of Labor Statistics. The average income of a miner—part-time and full-time—was \$3774 two years ago. And there has been an increase since then.

For several months President Truman has refused to admit what was generally known that the fast disappearing coal supplies created a national emergency. Now he is faced with a dilemma: if Lewis' maneuvering has made the Taft-Hartley law ineffective, then the President may have to face the politically explosive choice of asking Congress for a stronger labor law to cope with the situation.

So, if the strike goes on the Nation will pay the price in suffering. If it happens, it should cause the President to see the light. It may be enough to convince him that laws, stronger laws, are needed to strip from union leaders like Mr. Lewis the power to run roughshod over the public interest in furtherance of their own unjust and reckless aims.

Mr. P. H. Walser of the Soil Conservation Service in Texas dropped in to see us the other day. He said there are now 18 soil conservation districts in our congressional district. Out of a total of 17,465 farms and ranches, 4,174 now have active conservation plans in operation. Most of the others have plans pending. Mr. Walser estimates that by the end of the next fiscal year there will be only seven or eight Texas counties not in organized soil conservation districts.

Now in charge of an important government research project at the nearby Federal Agricultural Experiment farm in Maryland is Dr. C. F. Winchester, formerly of Texas. His wife was the former Miss Alma Tatch of Fredericksburg. Dr. Winchester, holder of several degrees, formerly did experiment work and taught at the University of Florida.

Of interest to our peanut growers is the provision in the House-passed cotton acreage control law which will give Texas as peanut acreage to make up for an injustice. It provides that for 1950 no State shall have its

peanut acreage allotment reduced by a percentage larger than the percentage by which the 1950 national peanut acreage allotment as heretofore proclaimed is below the 1949 national peanut acreage allotment. This applies only to 1950, and will add a total of 100,000 additional acres to the national allotment. Texas growers will get 43,000 acres of this.

Lots of mail and suggestions come across the average Congressman's desk. With President Truman's proposed FEPC getting a lot of limelight of late, a card was received by all Congressmen the other day from E. M. Biggers of Houston, reading: "The best argument against Truman's FEPC is his own blast at Drew Pearson: 'No S O B is going to tell me who to hire or fire.'"

Speaking of mail and propaganda, most of the organized pressure, economic, and political groups have their own magazines and news releases. There is a constant stream of them, hammering away at their objectives. An example is the weekly CIO NEWS, devoted these days more to politics than to labor. The other day a political issue came in, featuring a CIO-PAC format on the cover. Inside is a headline, reading: "Fair Deal Majorities Can Be Elected to Congress." "Political years," the story says, "is at work in the South. In the last election 39 Southern reactionaries were elected without opposition. But this year labor and liberal groups are making strenuous efforts to get effective opposition for all Southern reactionaries."

A reactionary in the eyes of the CIO I am told, is the opposite of a liberal. This definition of the latter came out the other day. "A liberal is a man who has his feet firmly based in thin air!"

Guide For Civic Minded Citizens

AUSTIN.—The University of Texas Bureau of Municipal Research has published a guide for civic-minded citizens. The bulletin, "Public Relations Program for a Citizen Committee," by Research Associate John P. Keith, is primarily a guide for those interested in local and state government affairs but it should be valuable in any citizen-group work, Bureau Director Stuart MacCorkle said. Copies may be obtained without charge by requesting Information Bulletin Number Four from the Bureau of Municipal Research, University of Texas, Austin.
