> WINDERMERE, England, June 13 (A)-Major Sir Henry O. Segrave, internationally known speed king, died shortly after five o'clock this evening from injuries he suffered when his speed boat overturned on Lake Windermere.

The famous racer, who held the world automobile record of 231 miles an hour, lost his life while testing out his newest speed boat, Miss England II, with which he hoped to capture the international trophy at Detroit this summer. Mishap Sudden

While pounding along the lake at speed of about 100 miles an hour. the boat suddenly was seen to turn over and plunge into the water. Segrave was dragged from the wreck by the owners of speed launches which shot to his assistance. He was taken to a nearby hotel and was found to have suffered a broken arm, a broken rib and a fractured thigh. There were two companions in

The Indians' sixth consecutive victory yesterday and their second in a row from the Athletics enabled them to leap into second place while Washington was bowing to Chicago. As the race stands now, all three leaders have lost 19 games with the A's winning 33; Cleveland 31 and Washington 30.

Clint Brown pitched great ball to give the Indians a shutout triumph over the A's, 4-0, granting only four hits. George Earnshaw pitched well, but three of the eight hits he allowed were home runs. Morgan getting his 10th and 11th and Myatt another with one man on base

STAMFORD, June 13.- One of the features of the Texas Cowhoy Reunica to be staged in this sity. June 20, 27 and 23, will be a roundup and get-together of the ploneer cattlemen of the state. A permanent organization of the

old-timers will be formed to hold annual meetings in Stamford, Only those who saw actual cervice in the mddle and on the ranges of the region prior to 1805 will be eligible for membership in the organization

The program of the three-day affair will include many coloriainment features. On each afternoon western cowbay' rodeo will be staged and an old-fashioned ranch dance will be given each evening. All carly-day citizens of West Texas will be given special invita-tions to attend the affair and the directors of the offering say that people of all ages and classes will find a full program to interest and amuse them. The rodeo will be held in a no-

tural ampitheatre a mile west of the business district of Stamford. Comfortable sents will be provided for several thousand and the areas and stock pens have been arranged so as to allow presentation of the contests and exhibitions in a quick and efficient manner.

Much interest in the contests is being taken by cowbbys on the ranches in Wost Texus and Indications are that there will be at least 100 entrants i nthe events in !

# A·NICE·GIRL COMES.TO.TOWN

HER NAME was Mary Lou and she wanted to be more than "just nice." She yearned, too, for excitement, romance and the attentions of men.

.She overheard her 'escort's condescending remark that she-whom he had so urgently invited to spend a two weeks' holiday in London-was nice enough,"Too darned nice, if you know what I mean."

"But I don't want to be nice and modest, that doesn't get you anywhere. I've learned that tonight. I want to be like all other girls," she declared Whereupon her adventures began. The story i told in this delightful new serial by Maysie Greig

Keep your eyes on the car using Flashlike Gasoline! See how alertly it gets away! How smoothly, powerfully, and swiftly it slips ahead-out of the crowd-on into the lead!

Flashlike Gasoline is specially designed to afford brilliant, all-round motor performance. With an initial boiling point of 110°, and properly proportioned up to an end-point of 400°, there is instant vaporization and lightning-like release of power. In any weather or temperature, when you step on the gas, you go! Mileage is better, too, for this gasoline burns clean. There are no unburned, wasted fractions to cut down power and dilute your crank-case oil.

With Flashlike Gasoline use Velvet Motor Oil. It's service insurance for your car. Affords safe lubrication at all speeds and temperatures. Seals compression and gives longer life to your motor. Sold at all Humble Dealers' and Humble Stations.

## **OPINIONS** OF OTHERS A Shot That Stirred Chicago

WHEN A CHICAGO ganater's bullet was shot last Monday in to the back of the head of Jaks Linfle, star police reporter of the Calcago Tribune, one of the most binzen killings by members of the underworld of that great city toold. place.

For more than eighteen years lake Lingle had the police assignments for the Tribune, and it is maid of him that he was the best posted man on gangland history of e city. He personally knew most of the leaders, and a few weeks ago inited Scarince Al Capone in his liami, Fia, home. Frequently, the fribune states, underworld leaders had tried to interest him in helping them put over thei, nefarious work. but each time he not only refused bust advised against it.

That shot has stirred the entire sommunity of Chicago. The Trirune has offered a reward of \$25.-00 for the killer, and other rewards have brought the total to \$5,000. FOODS

Mrs. R. F. Jenkins and Mrs. David Waldo Jones Win Weekly Prizes for Salad Accessories

New ways to cook summer vegetables are problems that confront the best cook every day.

Such things as squash, corn. beans, black-eyed peas and othe. members of the same lowly family form a bulk of our meals, and often lack any originality in their preparation.

Send in your recipe for the preparation (make it simple please) of some summer vegetable. The two winning recipes or sets of recipes will bring their donors \$1.50 each. Mrs. R. F. Jenkins sent in a most

interesting set of recipes this week Her Forget-Me-Not rolls are worth looking into. She suggests a recip and then adds three other kind of bread to be made out of the same gh. Here are her suggestions EVER READY BISCUITS

It has been said that we here in ered songs followed by a reading by America are the greatest eaters Mrs. Fox Stripling. Rev. Bailey of salads the world has ever known.

Crisp, green salads at dinner-vegctable or meat salads for luncheon or supper-fruit salads, in infinite variety, for regular desserts or for party refreshments. Small wonder indeed, that the aspiring hostess often finds it quite a problem to create something new in this crowded field of foods and no wonder she ometimes is perplexed about just what to serve with the deliciously different course she has concocted. For the type of food that accomanies any salad will vary greatly.

#### ccording to the components of the stincipal dish. A snappy sandwich for instance, is exactly proper for se ving with vegetable or meat salads, but would be entirely unsuit-

A .- To accompany Crisp Green 1. Crisp crackers

2. Paprika crackers

Spread saltines with soft buttor and sprinkle lightly with paprika. Place in a hot oven until the butter and paprika are blended, and the crackers thoroughly crisp. Serve hot.

Roll pie pastry 1-8 inch thick. Sprinkle with grated cheese, and roll the cheese into the pastry. Cut into strips with a sharp knife and bake in a hot oven.

-To Accompany Fruit Salads: 1. Sandwiches of buttered nut bread spread with apple but ter or fruit preserves. 2. Small open sandwiches of cu:

rant or grape jelly decorated with cream cheese. 3. Cheese straws.

4. Jam tea biscuits

Prepare baking powder biscuit dough, turn out on lightly floured board and pat 1-4 inch thick. Cut with a biscuit cutter. In half of the biscuits make holes with a doughnut cutter or other small round cutter. Place a cut biscuit on a whole one, and fill the center with fruit preserves or apple butter. # STATEMENT

Have you ever stopped to consider the value of having each bill you buy itemized? It is so important to have your bills itemized that you ought to insist on having every bill you buy put down in black and white, item by item, showing the price and quantity. Just an adding machine strip is not going to carry information very far and is never comprehensive; does not put the statement of facts down in black and white as to what you paid for what you bought. With no more information than that you do not know whether you saved money or not on your purchase, you cannot show whether or not a mistake was minde in your bill, in fact you have no substantial basis for comparison or for evidence unless you GET AN ITEM-IZED STATEMENT: GET ONE EACH TIME YOU MAKE A PURCHASE.

We are writing you this letter relative to the Bad Fire Record that your city has received for the years 1927, 1928 and 1929. We believe that you are interested in knowing the facts about what the fire loss in your city has cost your people for these years and that you and your city council will gladly cooperate with this department in working out ways and means by which your annual fire loss may be reduced this year and in future debate before the final vote at 2 years.

The records of this office show that the fire losses in your city for ed by the legislation and he could the past four years are as follows: 45.88

Of Texas Company Damaged

FORT ARTHUR, June 12 (P) One man was dead, 35 were in-jured, 11 seriously, and damages estimated at more than a million dollars had been caused today as a result of an explosion and fire at the refinery of the Texas Company here.

Official investigation into the cause of the explosion was begun this morning by Superintendent W. E. Holmes, who said the re-sults would be made public. Seriously Injured

Leonard Hatch was fatally burn ed. Serioualy injured were Walter Robert, J. A. Blalock, A. M. Bur-ton, S. C. Schexmayder, R. B. D. Holloway, Earl Guidry, A. B. Cross R. B. Polk, P. Morris, E. P. LeTulle, and R. E. Davis. All were expected to recover.

The first explosion occurred at 1:22 p. m., yesterday. The fire spread as it was fed by other exolosions at intervals of only a few minutes until the area became a furnace. As soon as the debris cools, work

preparatory to reconstruction of the lost equipment will begin. The fire raged for hours out of ontrol, the intense heat preventing the plant fire department and vol-

unteers from effective work. The Texas Company Foamite train got into action quickly, but for hours seemed to make little impression on the flames. The city fire department responded to the general fire call sounded by the plant's sirens. Succeeding explosions occurred for hours during the night as new

supplies of oil were reached by the flames, and the fire was the most apectacular in years, closely par-alleling the disaster overtaking the Tacker Gulf of Venezuela at the docks here on the morning of April

11, 1926, in which 33 lost their lives. Scenss of pathos were enacted outside the gate, where several thousand spectators congregated. Admission to the plant was lim-

ited to employes. In the crowd was several hundred women, many of them frantic and in tears as they sought news of their relatives. The badger stills, recent expansion installations by the company were reported undamaged. Only a roadway separates them from the

his parents, Mr. and Mrs. J. T. Newton, Fort Worth, mutually agreed Saturday afternoon that it is all right to become "air-minded," provided it isn't carried too far.

Both parents and child realized they had done just this when the westbound Southern Air Transport plane landed and took off from the Big Spring airport Saturday.

The trio, en route to Van Horn, had stopped their tour-ing car to watch the plane land. When the plane took off, so did the automobile make progress wostward on the highway, with the eyes of the parents riveted on the aircraft.

Behind them was Jimmy, who had climbed out of the rear seat and had been left stranded on the highway.

wise to choose

1. It's Smooth! For the new Chevrolet has a 50-horsepower valve-in-head engine with six cylinders! And a Six is, above all things, smooth! In low gear or high-the power flows with a smoothness and silence that are impossible with anything less than six cylinders.

2. It's Comfortable! Four long semi-elliptic springs; four Lovejoy hydraulic shock absorbers; big, roomy Fisher bodies; and Chevrolet's sixcylinder power-flow, with its freedom from annoying vibration-all add to Chevrolet riding comfort.

3. It's Easy to Drive! Chevrolet's improved ball bearing steering mecha-nism operates without apparent effort. The clutch and four-wheel brakes respond to the slightest pressure. And six-cylinder design means less gearshifting-easier control.

4. It's Beautiful! Chevrolet is the only car so low in price with the distinction of Body by Fisher. Hence, Chevrolet style compares favorably with that of costly cars. The lines are smart, clean-cut and modern. And no other car in the low-price field offers such luxurious interiors.

5. It's Economical! No other car gives any better gas, oil or tire mileage than the new Chevrolet. Six-cylinder smoothness holds down maintenance costs by protecting the car from destructive vibration. And Chevrolet flat-rate service charges on many operations are the low-est in the industry.

> 6. It's Easy to Bay! The G. M. A. C. payment plan, with its small down payment and easy terms, is available to every Chevrolet buyer. Come in! Confirm the many reasons why it's

the needs and problems of this sec tion. Legislative experience and the administration of public af fairs should be worth something There are some great problems t solve and many important interest to be représented in this large andivertified district.

The following are some of th things I stand for: Tariff

I shall work and vote for tariff on sheep, goats, wool,' mo hair, cattle, hides, crude oil, long staple cotton, and other raw pro ducts of this district that come in competition with the cheap labor and free land of foreign countries It is nother right nor just that the manufacturer have his tariff or the finished article and that th producer have none. I am not : free-trader and neither am I for a prohibitive tariff that create monopoly, but I do strongly favor a competitive tariff. I am for a tariff with rates so adjusted as to requalize the cost of production a me and abroad. I am not going to promise in advance to vote for any and every bill that may be of fered. I am not going over bag and baggage to the Republicar Party and work an injustice and hardship on the masses of our peo ple. I will vote and fight for i just tariff bill, provided it furnish es ample and fair protection to the producers of raw material in this district. Some kind of tariff legis lation is going to be passed and 1 am going to support the best bill that it is possible to get that gives o the rancher, farmer, and inde penden oil operator the protection deserves and that he must have If he is to continue in business.

#### Farm and Ranches

I stand for a better and more ef ficient system of marketing farm and ranch products. I believe in the principle of co-operative marseting. I think that the Federal Farm Board act is a step in the many thousand soldiers in camp right direction, provided it is fairthere. I was joint author with Mr. ly and justly administered.
