"He Profits Most Who Serves Best"

VOLUME LXV

SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY, AUGUST 4, 1950

NUMBER 31

No. 2 W. B. Griffin Spudded In Early This Week; Otto Lange Well Is Dry

Last week we stated that the CDFG Oil Co. No. 2, W. B. Griffin was a dry hole. It should have been the J. H. Dunn et al No. 1, W. B. Griffin, located 150 feet from the south and east lines of City Block 20. The depth was 1800 feet, which tested the Breneke and Fry sands. The Owenby Drilling Co. No. 1, J. Y. Brannan, located approximately 130 feet west of the Griffin well was also dry.

The CDFG Oil Co. No. 2, W. B. Griffin was being spudded in early this week. It is located 330 feet west of the No. 1 Griffin, which is one of the best producers in the townsite area. Location is 480 feet from the north and 875 feet from the west lines of Kilgore Survey 62. It is scheduled to test the Breneke Sand, with permit to 1900 feet.

The Otto Lange well, known as the Harry Todd No. 1 Otto Lange was plugged and abandoned early this week, after a test in the Breneke and Fry Sands. The two sands usually run about 60 to 90 feet apart in this area.

The H. M. Naylor Oil Co. No. 1, Roy Blanton, located two miles southeast of Santa Anna, was plugged and abandoned early this week. It tested the Breneke and Fry Sands.

The Stratton Drilling Co. of Pine Bluff, Ark., spudded a location on the Charlie Bruce acreage Sunday night. They are to test the Breneke and possibly the Fry Sands.

M. T. White of Coleman is to drill the No. 1 William C. Smith as a Breneke Sand try in Block 21, city of Santa Anna.

Location is 152 feet from the north and 158 feet from the west lines of the block. It is slated to start immediately. Permit depth is 1900 feet with rotary.

An amended potential has been filed for Lightfoot, Quinland & Rich No. 1 J. Y. Brannan, recently completed townsite well. It flowed 97.76 barrels of 44 gravity oil on the 24-hour retest.

Production was through 1/2 inch choke from open hole at 1792-

Mrs. E. D. McDonald Buried In Dallas Friday, July 28

Mrs. Lucille Cunningham McDonald, 47, wife of Dr. Earl D. McDonald, formerly of Santa Anna, and former Dallas resident, died last Wednesday at the home of her mother-in-law, Mrs. Myrtle G. McDonald, 3413 Cornell St. She and Dr. McDonald moved to Dallas about three months ago.

She was born in Sullivan, Ind. After moving to Dallas she studied voice and piano. She married Dr. McDonald in 1926, and later taught music and art in Dallas for several years before they moved to Santa Anna. Here she was active in the Methodist Church and was pianist and sweetheart of the Santa Anna Lions Club.

She is survived by her husband; son, Earl Dayton McDonald, Jr., a student at SMU in Dallas; mother, Mrs. Grace Travis, and stepfather, Tobie Travis, both of Terre Haute, Ind.

Funeral services were held at 10:30 a. m. Friday at Wildwood Chapel in Restland Memorial Park, in Dallas, with the Rev. Frank Dent officiating. Burial was in Restland Memorial Park.

Pallbearers were Loyd Burris, Neal Oakes, J. W. Riley, Roy Richardson, all of Santa Anna, and Herschel Martin and William Campbell, both of Dallas. Honorary pallbearers were members of the Santa Anna Lions Club.

Others from Santa Anna attending the funeral services were Mmes Burris, Oakes, Riley, Richardson, Jeanette Hensley, Miss Freddie Rowe and Douglas Johnson. A large number of friends from Coleman also attended the funeral.

1800 feet. Casing pressure was 150 pounds and tubing pressure was five pounds.

Cresslen Oil Co. of Dallas, has apparently developed oil production at the No. 1 Weaver Estate, 1,980 feet from the west and 3,823 feet from the north lines of L. Johnson Survey.

The project topped the Fry at 1,793 feet. Using cable tools, operator drilled saturated sand and bailed free oil to 1802 feet. Total depth was 1,818 feet. Casing was set on top of the sand.

Operator was reported cleaning out after shot. The No. 1 Weaver Estate is 990 feet east of the Vacuum Oil Co. No. 1-A Alice Bennett, a Fry Sand producer in the 1920's that was plugged when the price of oil was low.

R. W. Brown of Minerals Wells, is to drill the No. 1 S. A. Yancy as a 2,600-foot cable tool wildcat, four miles southeast of Coleman. Location is 330 feet from the south and 2,098 feet from the east lines of Section 7, M. D. J. Trevino Survey 668.

Operations were due to start at once.

Maxwell & Stepp et al No. 4 Paul Riddle will be an off-set to Breneke Sand production three miles south of Coleman.

Location for the project, slated for 2,400 feet with cable tools, is 990 feet from the east and 885 ft from the south lines of the 305-acre lease in S. Crooks Survey.

V. A. Blevins No. 1 Willie Blevins is an off-set to production in the Townsite area.

Projected to 1,840 feet with rotary tools, to test the Breneke, the project is 150 feet from the west and 450 feet from the north lines of the 40-acre lease in Kilgore Survey 62.

New Telephone Directories Out Next Week

The Santa Anna Telephone Company will distribute new directories to all their subscribers within the next few days.

The directories are printed on the same general lay-out as the 1949 directories were.

These directories were printed and put in book form by the Santa Anna News. The News staff has been working for the past few weeks with Mrs. Jeanette Hensley, getting copy ready and then getting the directory printed.

After you receive your new directory, the telephone company and the News office would appreciate it if you would take time to look the directory over good, and if you have any constructive ideas to make a better directory, we would appreciate it if you would discuss the matter with one of the concerns.

Miss Olga Niell and John Paul Board, son of Dr. and Mrs. J. Paul Board, former resident doctor of Santa Anna, who now reside in Waco, visited with Mrs. Olga Niell recently. During their visit here, Miss Olga and John Paul visited in Lubbock with her brother, Edwin and family. Dr. and Mrs. Board came for their son last Friday and Miss Olga returned to her duties in the Veterans Hospital at Temple Tuesday.

Mrs. S. J. Anderson of Aspermont, visited in the home of her brother, E. E. McClintock and family recently. While she was here they all attended the McClintock reunion at Hamilton on July 23.

Two nieces, Mrs. Micheal Egans and children of Chicago, and Mrs. Tyler Brownleaf and daughter of San Antonio, are spending their summer vacation with Mrs. M. L. Walker. Mr. Egans is expected this week-end to spend his vacation here.

HELP WANTED!

The Santa Anna News is in need of a young lady, married or single, to work as advertising solicitor and office girl. We would prefer to have a young lady who has passed her teenage or older.

If you are interested in a job in Santa Anna and think you might learn the newspaper work, we would be glad to have you drop by and discuss the matter with us.

Mrs. A. L. Oder Leaves For Visit In San Antonio

Mrs. A. L. Oder, local reporter for the Santa Anna News, left Friday morning, July 28, for an extended visit with her invalid sister in San Antonio. She expects to be back the latter part of August, but made no definite plans as to when she would return.

Mrs. Oder does a good job of getting the local happenings in and around Santa Anna, and we are going to miss her. However, we hope that each of you will see that the News office is notified when you have guests, or when a club is to have a meeting, etc. We would appreciate it very much if club reporters would see that we receive an outline of your meetings as soon as possible after they are over.

We want to give you as much local coverage as possible, but must have the cooperation of all in getting the news each week.

When you have visitors, or when you are visiting please notify us by telephone or through the mails. Remember also, that in order that we might publish articles coming to us through the mails, the article must be signed. However, we do not have to publish the signers signature. Your cooperation in this matter will also be appreciated.

Services For S. R. Hale Held Tuesday

Funeral services were held Tuesday afternoon for S. R. Hale, 73, who died Monday morning at 4:00 a. m. in the Coleman hospital, following a heart attack.

Hale was born in Christanna, Tenn., on May 25, 1877, and came to Coleman county in 1900 and has been with the REA since the early 1930's.

Services were held in the First Methodist Church at Coleman at 4:00 p. m., with the Rev. A. S. Gafford and the Rev. Wallace N. Dunson officiating. Burial was in the Coleman Cemetery.

U.N. Flag for Unified Headquarters

A United Nations flag, already a veteran of U.N. field missions, is given to Ambassador Warren Austin of the USA (left) by U.N. Secretary-General Trygve Lie (center) for use over the headquarters of the USA's General of the Army Douglas MacArthur, commander-in-Chief of the unified forces acting in behalf of U.N. in Korea. Looking on is Ambassador Arne Sunde of Norway, Security Council President for July. The blue-and-white flag was formerly used by U.N. military observers and the U.N. Mediator in Palestine.

Laying Of Pipe To Lake Brownwood Started Tuesday; Rapid Progress Now

Missionary Baptist Mrs. Aleene Gregg Returns Home From Korea

Rev. C. L. Carroll, pastor of the First Baptist Church at Itasca, Texas, will start the Missionary Baptist Revival Sunday, August 6, in the Cumberland Presbyterian Church building, at the corner of Avenue B and 4th St.

Rev. Carroll was a former pastor of the Watts Creek Baptist Church. He pastored this church for ten years before going to the Talpa Baptist Church, where he pastored several years.

At present the Missionary Baptists do not have a meeting place near Santa Anna, so they have acquired the use of the Presbyterian church for their revival meeting. Bill Danner, member of the Jacksonville Baptist College Quartet, Jacksonville, Texas, will direct the singing.

Services will be held at 10:00 a. m. and at 8:00 p. m. each day. The general public is cordially invited to attend each of these services.

Mr. and Mrs. Luke Pricer of Coleman, Mrs. J. W. West of Brownwood and Mr. and Mrs. E. W. Gober, returned home Tuesday night, after a few days visit in Dallas and Waco, visiting friends and relatives.

Mrs. Byrl Sparkman is attending the last six weeks of summer school at Canyon State College.

Mrs. Aleene Gregg Returns Home From Korea

Mrs. Aleene Ripley Gregg, wife of Major Joseph J. Gregg, Jr., of Brownwood, arrived home Saturday, July 26, after being evacuated from Seoul, Korea, Monday, June 26, aboard a Norwegian freighter.

Her husband, who is in the Inspector General's department, is in Korea.

She and her husband had been living in Seoul up to the time of the North Korean invasion.

On Sunday, June 25, the day the invasion started, Mrs. Gregg heard gun fire and saw planes strafing the Seoul Airport.

After she had landed in Japan she saw her husband for about 5 minutes, before he returned to Korea.

Mrs. Gregg came home from Japan in a Navy transport to Seattle, by train to Fort Worth, and by plane to Brownwood.

She stated, "Conditions where the troops are fighting are filthy. Even in Seoul, all water from the tap had to be sterilized; it was unsafe to drink."

"The weather was humid; nights were a bit chilly. The night before the invasion, the skies seemed to pour water."

It is summer now in Korea. Mrs. Gregg visited with Major Gregg's parents, Mr. and Mrs. J. J. Gregg, the past week-end.

A recent letter from her husband indicates that things are still kindly slow, and that enough men and materials have not arrived to carry on an offensive war. However, he stated equipment and men were arriving daily.

Negro Candidate Gets Several Votes

Many editors have really gotten a kick out of the returns from the Primary election, July 22. This writer really has a good one, the richest of any we have so far read, but we might have to take a prolonged vacation should we publish it as it occurs to us, in a humorous way.

There was a negro preacher living in Austin, who was a candidate for Lieutenant Governor. His name is Preston Elliott Womack. The fun comes from places where no negroes live, like over at Rising Star, in Eastland county, where no negroes have ever lived that we know of, the Negro candidate received 13 votes. This writer lived in Rising Star ten years and published the paper there, and we do not cast any reflection on the intelligence of the voters living there, for we never lived among cleaner and better people than we lived among in Rising Star. But the idea of so many people going to polls to vote without first investigating to see who to vote for. Several editors have made comments on the number of votes the negro received. But the funny part with us, he got one vote on the north side in Santa Anna. Come to think of it, one of the most respected and beloved retired ministers in these parts lives in that precinct or voting ward, and his name is Womack. Should we imagine just where the connection comes in? What about it Bro. Womack?—J. J. G.

Mr. and Mrs. Sam McCrary left Friday morning for Richland Springs, for a visit of several days with Mr. and Mrs. Bob Elliott, former residents of Santa Anna, and with Mrs. McCrary's brother, John Flores and family at Mercury.

The actual laying of the water line from the Santa Anna city lakes to Lake Brownwood was started Tuesday morning of this week. Progress on the water line has been held up due to a delay in the arrival of a number of valves that are due to go in the line.

Pipe has been arriving fairly regularly the past few weeks and early this week 19,800 feet had arrived and has been put along the right-of-way. This is not quite half of the 46,200 feet estimated it will take to complete the job. At least one more car and possibly more are expected in this week. Car loads of the pipe run from 1200 to 1900 feet to the car.

The laying of pipe at the filtration plant was completed early this week. The pipe has been arranged in such a way that water can be pumped into either lake or directly into the settling tanks. Plans are to pump both lakes full of water and then use water directly from Lake Brownwood, holding the water in the city lakes for emergency uses and standby purposes. This seems to be a very good idea to have an ample supply of water on hand, just in case something were to happen that sufficient water could be obtained from the Lake Brownwood supply in an emergency.

Work has not been started on the pump station that will be located on the shores of Lake Brownwood yet, but plans are to have it completed by the time the line reaches the lake. The pump station will be equipped with electric power, and will obtain the electricity from an REA line running near the proposed site of the pump station. The REA line is already under construction.

So far as is known at the present time the line will be completed in September unless some other unforeseen delay causes the construction company to have to hold up again.

County Democrats Endorse White

Coleman County Democrats endorsed John C. White for the office of State Commissioner of Agriculture, at the convention Saturday afternoon. White and J. E. McDonald are in the runoff in the August Primary.

The county convention was attended by some 25, and supported resolutions requiring delegates to vote as a unit at the State convention, and that all shall be required to support the Democratic nominees. Resolutions praising Shivers, Daniels and Giles for their tideland stand were also passed.

L. Emet Walker was chosen as county chairman and Wallace Dingus as county secretary.

Delegates selected to attend the state convention were: L. Emet Walker, H. H. Jackson, F. B. Simmons, Halbert O. Woodward, Wallace E. Dingus, Leman Brown, Clyde D. Allen and Steve E. Brown, all of Coleman; Frank Alexander, Talpa; W. Ford Barnes and Leroy Stockard of Santa Anna; A. B. Carroll, Rockwood; and W. C. Revel, Gould-busk.

Hospital Notes—

The following patients have been admitted to the Sealy Hospital within the past week:

- Jeanette Holland, city.
- Kathryn Stiles, city.
- Joyce Rowe, city.
- Mrs. R. W. Cupps, city.
- Mrs. J. G. Hallmark, city.
- Jerry Johnson, city.
- Mrs. Odell Collins, Coleman.
- Mrs. Willie Baugh, city.
- Danny Wylie, city.
- Mr. Venice Alford, Coleman.

Federated Missionary Society Met With Presbyterian Church

By Mrs. Jasper McClellan
The Federated Missionary Society met Monday, July 31, with the women of the First Presbyterian Church.

The meeting opened with a song, "In The Garden", sung by a girls trio composed of Sharon Hoke, Frances and Joan McClellan. Sharon Hoke gave, "Redeeming Love", as a vocal solo, and was accompanied by Mrs. J. W. McClellan.

The devotional was led by Mrs. T. J. McCaughan, who read Ps. 23. Mrs. McCaughan gave a most interesting and helpful summary of the book, "A Guide to Confident Living", by Dr. Norman Vincent Peale. This book is drawing the interest of many since Dr. Peale is an outstanding minister and radio speaker. Mrs. McCaughan gave most the points and examples from the Chapter, "How to Keep a Calm Center", which is something most people need in their individual lives to face the complex problems of the present times.

This was followed by a Bible quiz of various types of questions conducted by Mrs. J. T. Oakes, Sr.

Mrs. O. J. Albro, president, presided over the brief business session. A refreshment plate of lemonade and cookies was served to 30 women and young girls. The next meeting will be October 30, with the First Christian Church.

It was of interest to this group of church women to note that such an organization of church women has been organized in our neighboring town of Coleman. Most of the churches

are represented. They will work together as a United Council. Such a group can do much to promote Christian unity and fellowship in this changing world, where it seems a close race — Christianity or Communism.

Whon W. M. S. Has Regular Meeting

The Whon W. M. S. met Monday evening at the church for a book review. The group sang "He Leadeth Me". Mrs. E. E. Baker led in prayer. The minutes were read by Mrs. Buse. Mrs. Dick Deal gave a review of the book, "Buried Living". The review was very interesting.

The group voted to buy a gift for Mrs. Gene Alberts, who is moving away. Mrs. Alberts has been a very active member of our W. M. S. and will be deeply missed by all.

Those present were Mmes. Deal, Buse, H. Smith, E. Bager and Hext.

The next meeting will be social, with Mrs. G. Fitzpatrick and Mrs. H. Smith as hostesses.

Local-Baptist Church News

The July Sunday School attendance at the First Baptist Church (average 236 per Sunday) was the best in years for the month of July, and only one month (April) exceeded it during the past twelve months. Bro. Emzy Brown, the efficient Sunday School Superintendent, along with the fine group of Officers and Teachers are to be commended for this fine record of achievement. Just recently the 21st consecutive Sunday School Standard of Excellence Award was received. This is

another fine record of achievement made by the local Church. The Lord's Supper will be observed at the morning hour, Sunday, August 6. The members of the church is urged to be present for this quarterly observance. At the evening hour there will be a baptismal service. A change in the time of meeting for the evening service has been announced. The Training Union will meet at 7:30 p. m. and the evening service at 8:15 p. m.

The Royal Ambassadors are meeting Saturday at 4 p. m. This organization presented a program for the Bangs Royal Ambassadors last Sunday afternoon and also observed the installation of their officers.

Local Methodist Church News

Several showed their desire to keep up our splendid attendance record by driving long distances Saturday night in order to be in the services the fifth Sunday. "Remember" was the pastor's subject for the morning service while qualifications of a Good Shepherd were discussed at the evening hour.

A fifth Monday found members of the W. S. C. S. cooperating with other like groups in the Federated Society meeting at the First Presbyterian Church. These meetings which come only once a quarter furnish Christian women an opportunity to express their common interest in a world sister-hood as well as in those things of local concern.

Although some are vacationing each week we are happy that we have had commendable attendance throughout June and July. May this continue through the coming month bringing us up to the time when a full schedule in our church program is resumed.

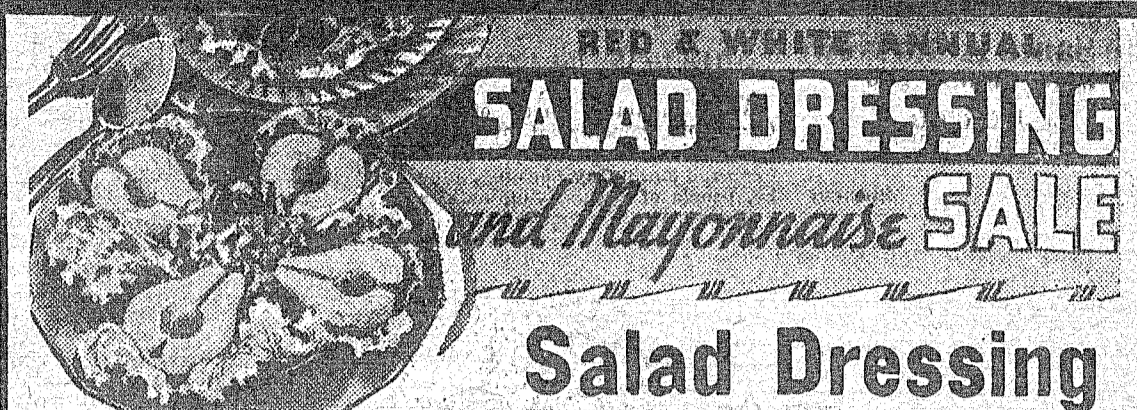

Ole Sarge

The 175th anniversary of the Army Chaplain Corps almost slipped by unnoticed this past week-end, crowded to the background by the excitement of the current Korean situation.

It would not be proper to let this occasion pass by without pausing to pay tribute to the pastors of all Faiths who are Army Chaplains. Their life is not an easy one. They give unselfishly not only their strength and wisdom, but also their lives in service to American soldiers during war and peace. Their "Parish" encircles the globe itself and today finds the Army Chaplain on the front lines in embattled Korea giving comfort and solace to the American wounded and performing last rites for the dead.

The Army Chaplain Corps is typical of our American way of life, and on this 175th anniversary, we salute them. May the Corps grow stronger with the passing of time and mellow with the memories of past sacrifices.

Changes of manpower needs continue to arrive at Army and Air Force Recruiting headquar-

ters. The Air Force announces an urgent need for men in radar, radio electronics, electrical instruments, aircraft mechanics, armament, and many other specialties, among 200 different types of jobs. In order to expedite the training of these specialists, the Air Force has planned most of its Air Training Command schools on a six-day week basis. This includes all technical schools and Lackland Air Force Base Indocination Center in San Antonio.

The Army has issued a call for Reserve Officers from civilian components. Those most critically needed are members of the Medical and Dental Corps, Corps of Engineers, and Infantry. Other openings exist in the Medical Service Corps, Chaplains, Ordnance, Signal, Staff, Finance, Chemical, Armored, Field Artillery, Coast Artillery, Army Nurse Corps, and Women's Medical Specialist Corps.

The Air Force has announced a program whereby ex-airmen can receive Air Force Commissions. Former service personnel who held one of the top three pay grades upon discharge, are eligible for direct commissions, providing they have completed two years of college work. Personnel discharged below the first three grades are eligible to apply, providing they have a col-

lege degree. Interested persons can obtain detailed information concerning this program by contacting the nearest U. S. Air Force base.

Rockwood News By Mrs. John C. Hunter

Regular services are being conducted at the Baptist Church. Mr. and Mrs. A. L. King entertained the pastor, Rev. G. W. Childers, the guest speaker, Rev. O. B. Carpenter of Bangs and the song leader, John Cox, on Sunday.

Mr. and Mrs. Cecil Davis, Lucy and Don were in Rockport last week for their vacation. They were accompanied by Mr. and Mrs. P. L. Ulstad and family of Brady.

Mr. and Mrs. James Sluder were Sunday guests of her parents, Mr. and Mrs. Leffel Estes. Wayne Boatright, of Coleman, spent last week in the Estes home.

Mr. and Mrs. Dell Ray, of Brady, visited in the Charles Porter home Sunday. Mr. Porter was a business visitor in San Antonio Wednesday.

Mrs. J. F. Maxey and son, Lowell Hando spent Thursday night with Mr. and Mrs. J. C. Hunter, en-route home after attending an encampment at Thorpe Springs. Mr. Nevans accompanied them home.

Mike Richardson, of Amarillo, is visiting his father, Cecil Richardson and Mrs. Richardson, also his grandparents, Mr. and Mrs. M. A. Richardson.

Jerry Johnson came home Monday after being a patient in Santa Anna hospital several days. Jerry was having his tonsils removed.

The Rev. and Mrs. V. E. Hankinson were in Georgetown last week attending the Pastors School. Their son, John, attended the Methodist camp at Glen Rose and Hansford, spent the week during his parents' absence with an aunt, Mrs. Perry Day, at Zephyr.

Mr. and Mrs. Roger Dudley of Sheffield, spent last week with her parents, Mr. and Mrs. M. A. Richardson.

Week-end guests in the Richardson home were Mr. and Mrs. Ronald Cooper and children of Jayton, Misses Marilyn and Marian Hayes and Joyce Richardson, of Abilene.

Dr. and Mrs. W. G. Williams and Barney, spent Sunday with Mr. and Mrs. S. E. Richardson and Betty, in Coleman.

Kay Steward returned Sunday from visiting her aunt and family, Mrs. H. S. Pearson, in Alsbee, Mrs. Pearson and boys accompanied her home to spend 2 weeks with Mrs. J. W. Wise and other relatives.

Mr. and Mrs. Woodrow Estes and children visited Sunday morning with Mr. and Mrs. J. A. Estes.

Mr. and Mrs. B. A. McSwane and family, of Brownwood, visited last Thursday in the A. N. McSwane home.

SITUATION IN KOREA

When military forces of the Communist government of North Korea invaded the new Republic of Korea on Sunday morning, June 25, people of peace-loving nations saw their negotiations to establish Korean independence burst in the flames of war.

Within hours after the attack, the United Nations, through its Security Council, resolved for an immediate end of the fighting, asking members to give every assistance to the United Nations toward that result.

The next day President Truman, in support of this request, ordered United States Air and Sea Forces to give cover and support to Korean government troops. Later in the day the United Nations Security Council called upon all United Nations members to apply military force against the aggressor. Battle and bloodshed continues.

Historically, Korea has been a high road to war and the... Japanese first invaded it with a Kwantung Army in 1922, but were driven out by Korean and Chinese forces.

Until the latter part of the nineteenth century Korea was largely under the political and cultural influence of China. In 1894-95 Japan defeated Chinese influence by force of arms.

Struggle between Japan and Russia over control of Korea climaxed in the Russo-Japanese War of 1904-05. Japan emerged the victor. From 1910 until the Japanese surrender on September 2, 1945, Korea was an integral part of the Japanese Empire.

At Cairo (1945), United States, China and Great Britain proposed that Korea would be free and independent.

The Soviet Union agreed to it when it entered the Pacific War against Japan in August 1945. When Japan surrendered, it was agreed that for military convenience the U. S. S. R. would accept surrender of Japanese forces south of the 38th parallel; and the United States, south.

But after the surrender, the Soviet Union began to block off northern Korea at the 38th parallel, finally establishing a virtual "iron curtain."

Mr. and Mrs. J. P. Hodges, Sr., Mr. and Mrs. T. A. Hodges and Ricky, visited Sunday afternoon with Mrs. Dorothy Hodges and children near Brady.

Cecil McCreary of Sweetwater was a business visitor Monday afternoon.

Mr. and Mrs. Lee Lancaster and son, Robbie, of Trickham, were Sunday guests of Mr. and Mrs. J. C. King.

Mr. and Mrs. A. S. Hall and Miss Pearl Castleman spent Sunday in Menard with Mr. and Mrs. Jack Castleman and family. Mr. and Mrs. H. O. McWilliams and family, of Hext, were also guests.

Miss Rene Steward of Brady, spent Monday night with her parents, Mr. and Mrs. John X. Steward and Nelda.

Mrs. J. L. Moss and baby of Freer, are visiting with her parents, Mr. and Mrs. R. E. Johnson.

Mr. and Mrs. Billy Maness of Brownwood visited Monday evening with Mr. and Mrs. Uless Maness.

Nothing is so valuable to the development of a wholesome personality as the devotion to an all absorbing task.

Shield News (Mrs. J. B. Weathers)

I would like to take this way of thanking the many friends who were so kind and thoughtful to me during my recent illness. The many cards and flowers I received were greatly appreciated.

Howard and Ladell Elliott and Bernice Tomme returned home Sunday morning from Houston, where they visited several weeks with Mr. and Mrs. Bill Elliott and children and Mr. and Mrs. Bernice Winder. Mrs. Bill Elliott and children returned with them for a few days' visit with the C. P. Elliotts and with the S. L. Tommies.

Those visiting in the J. B. Weathers home on Sunday were Mrs. W. E. Haynes, Mrs. Grady Melver and Terry, Mrs. J. O. Baugh and Elroy, Mrs. Joe Devall and children of Colorado City and Mr. and Mrs. Alva Doyle Eppler and family.

Mr. and Mrs. Elton Jones and Karen left on Friday with other relatives for a visit to the Big Bend National Park and several other places in South West Texas, before returning home on Sunday night.

Mrs. J. E. Lowe and Billie Gene went to San Antonio on Sunday for a few days visit with her parents, Mr. and Mrs. Manley Williams and family. Mr. Williams had a stroke recently and is not doing too well.

Mr. and Mrs. E. R. Tucker and Mr. and Mrs. Ray Earl Tucker, and children of Midland, visited on Friday night with Mr. and Mrs. J. B. Weathers and Mrs. Page.

Mr. and Mrs. Ewell Jones had as their guests last week, a brother, Mr. and Mrs. Allen Jones of Rising Star.

Pity The Poor Printer

When a plumber makes a mistake, he charges twice for it. When a lawyer makes a mistake, he has a chance to try the case again.

When a doctor makes a mistake, he buries it. When a judge makes a mistake, it becomes the law of the land.

But when a printer makes a mistake, good night! The whole world knows it. The men who move the world are the men the world cannot move. Land makes an ideal "living memorial." A hungry soil produces hungry people—Feed your soil.

CHECK THESE ADVANTAGES

Advertisement for John Deere disk plow featuring a cartoon character and a photograph of the plow. Text: 'before you Buy! Your Disk Plow Choice will be a JOHN DEERE!'

When you buy a disk plow, demand the quality features you get only in the sturdy John Deere. First of all, the John Deere is extremely easy to adjust, easy to operate, and easy to hitch properly. It's readily adaptable to the particular job you want done—turning uniform furrows, covering trash, or mixing it with the soil as your conditions require.

When it comes to strength, you'll find there's plenty to stand the gaff of the roughest jobs. The main frame is of double angle-steel, built-up design, placed above the disks for greater clearance.

Stop in the next time you're in town and check over the many features. You'll agree—there's more value for your money when you choose a John Deere Disk Plow!

Whon News
Mrs. Tom Rutherford

The Revival at the Whon Nazarene Church closed Sunday night. Good attendance was given throughout the meeting from several different communities. The church wishes to thank each and every one who helped in any way.

Mrs. Joe C. Barnes and children returned home last week after visiting her parents, Mr. and Mrs. Gilbert in Cuero.

Mrs. John Lovelady and Joe have been visiting their son and brother, Mr. and Mrs. Clyde Lovelady of Cisco.

Bert Carter, who is attending G I School in Gatesville, is home on 2 weeks' vacation, with his parents, Mr. and Mrs. Jim Carter and Leon.

Mr. and Mrs. Roy England and son are here with her parents, Mr. and Mrs. Warren Gill. Roy is awaiting his assignment into service.

Mr. and Mrs. Dick Deal and children, John Richard and Dixie, were Sunday dinner guests with Mr. and Mrs. Granvil Hext and children.

Carol Ann Hext of Fredericksburg, is visiting her grandmother, Mr. and Mrs. Babe Gardiner.

Mr. and Mrs. Bill Bryant and Francine of Fort Worth, spent the week-end here.

Mrs. T. H. Perry and children and Mrs. Annie Kindle are visiting her daughter and sister, Mr. and Mrs. T. J. Adkins and Vonnie, Mrs. Kindle will remain for a longer visit.

Mrs. Beula Kingston and Mrs. Zona Stacy of Trickham attended services at the Nazarene Church Sunday and were guests of Rev. and Mrs. Sidney Patriok. Mrs. Kingston was supper guest Sunday night in the Elgin Talley home.

Mr. and Mrs. Graham Fitzpatrick gave their little daughter, Cheryl, a birthday party Sunday afternoon from 3 to 5 p. m. The children enjoyed playing various games, after which the lovely gifts were opened. Refreshments of cake, ice cream and candy were served to Earla Buse, Deanne Hext, Lynda Sue Rutherford, Norman Jo Eubank, Linda Lee Abernathy, Jimmie Gill, Dixie Deal and Loyd Earl Rutherford, Bobbie Barnes and the honoree. Several mothers were also present.

Mr. and Mrs. Snowden and son and Miss Clifton were Sunday guests with Mr. and Mrs. Graham Fitzpatrick and Cheryl.

Mr. and Mrs. Don Gray of Coleman were Sunday guests with her parents, Mr. and Mrs. Henry Smith. Other guests in the Smith home were Rev. and Mrs. Roy Terry and Mr. and Mrs. Billie Kitchen of Brownwood.

Billie Ruth Wallace, who is attending an Instruction School in band, at McMurry, spent Saturday night with her parents, Mr. and Mrs. Buster Wallace.

Mr. and Mrs. Everett and children visited last week with relatives at Robert Lee. They have a nephew, who soon will leave

for induction into the service. Dr. and Mrs. Charles Armbrust and children were weekend guests with her parents, Mr. and Mrs. Bert Turney. Those to enjoy barbecued chicken in the Turney home Saturday night were Mr. and Mrs. Floyd Miller of San Angelo, Dr. and Mrs. Armbrust, of Houston, Mr. and Mrs. Edgar Shields and girls of Santa Anna, and Mr. and Mrs. T. J. Adkins.

Mr. Zack Bible heard from his wife Monday. Sorry to hear she isn't feeling so well. Mrs. Bible is in Houston for medical treatment.

Everett Baker Jr., is visiting relatives in Sweetwater this week.

Trickham News

(By Lea Mitchell and Mary Catherine Fellers)

Rev. Gilbert, a Presbyterian pastor, preached here last night (Monday). Bro. Gilbert held the revival services here last summer.

Friends here were grieved to hear of the death of Mr. Genz, who passed away in a Brownwood hospital, after a long illness.

Sorry to report Oil Martin has been on the sick list.

Mrs. T. H. Vernon visited briefly with Mr. and Mrs. Lewis Carter of Santa Anna last Tuesday night.

Mr. Tom Guthrie moved into his home he purchased some time ago.

A son was born to Mr. and Mrs. James Ford last Tuesday, July 25. He was named James Theodore. Grandparents are Mr. and Mrs. Marion Ford and Mr. and Mrs. Silas Wagner.

Last week Miss Peggy Ford spent several days with her aunt and uncle, Mr. and Mrs. Tom Bagley of Brownwood.

Mrs. Lula Hancock of Zephyr, spent last Friday afternoon with her mother, Mrs. Zona Stacy.

Mr. and Mrs. Oscar Boenicke and Mr. and Mrs. Lige Lancaster attended the Farm Bureau meeting held in Coleman last Thursday evening.

Ila Jean and Oliver Bradley, children of Mr. and Mrs. James Bradley, are spending a few days with their uncle and aunt, Mr. and Mrs. Key Bradley.

Visitors with Mr. and Mrs. Rankin McIver last week were her sister and family, Mr. and Mrs. H. C. Blyer and girls from Yoakum.

Mrs. Irene Bobo spent Sunday night with her father, Mr. Ben McIver.

Quite a number from here have been attending the Nazarene Revival meeting at Whon during the past week.

Some forty or fifty relatives and friends met at the church arbor last Saturday night honoring Mr. and Mrs. Gid Mathews of Brownsville, with a basket supper and social friendship hour. Mr. and Mrs. Mathews returned home Sunday morning, after spending about two weeks

with relatives here and in Oklahoma.

Visitors with Mrs. Beula Kingston last week were Mrs. Annie See and her daughter, Mrs. Ila Owen, Mrs. Lewis Burney, Mrs. Lee Vaughan and Mrs. Gene James and Sherrel.

Mrs. Carrie McClatchey and Mrs. Kingston spent Thursday afternoon with Mrs. Featherston and Miss Lou.

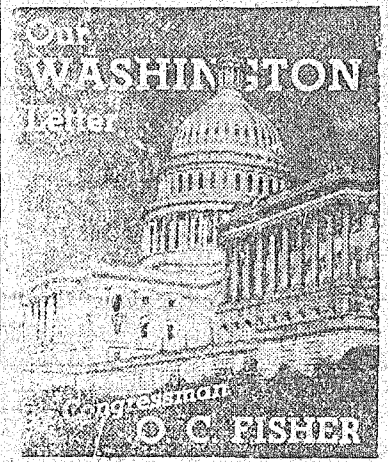

Mr. Grady McIver and sons, Royce and Doyno, spent several days in Corpus Christi last week.

Mrs. Leston Cozart, Willie Norman and Mr. and Mrs. Ots Calco left this morning (Tuesday) for several days visit with relatives of Mississippi and Louisiana.

Mr. and Mrs. Johnny Wells were honored yesterday with a wedding shower. The couple received many useful gifts.

It has just been learned that Trickham will not have school here next year.

Mrs. Vernon attended the funeral for Mrs. Jackson of Coleman last week.

IT TOOK THE CRISIS in Korea to get the green light for a 69 group air force—a program which Congress has been insisting upon for several years.

More than three years ago the Finletter Commission, created to study the air defense requirements, made a report urging that a 70-group air force was minimum need. A joint congressional committee made a similar study and made similar recommendation. Congress passed a law authorizing that program. Stuart Symington when made Secretary of the Air Force insisted upon it. The Joint Chiefs of Staff in 1949 followed suit. Funds for that purpose were voted by Congress but were, by Executive order, withheld and "frozen" by the president.

The White House took the position that the cost would be too much of an impact upon the national economy, and a budgetary ceiling was imposed upon all defense spending. The Joint Chiefs of Staff, being good soldiers, adjusted their requests accordingly.

FINALLY, HOWEVER, a 69-group program has been given the green light by the White House, along with a balanced increase in defense essentials in the other military branches. Within 30 months our air force will have jumped from 48 groups to 58 groups, and shortly thereafter we will achieve the 69-group goal. It will include more than 300 of the B-36 intercontinental bombers. These air giants cost more than \$5 million each and are by all odds the best, long-range, high altitude bombers in the world. A few of these will probably be in action over Korea in the near future.

Thomas Finletter, the new Secretary of Air, made his first appearance before our Armed Service Committee last week. He, along with General Vandenberg, spent two days outlining exactly what the new stepped-up air

force program will include. Mr. Finletter impressed our committee very favorably. He is a man of great ability and foresight. He engages in no monkey-business and we can rest assured that under his able direction, the American air force will add much to our defenses, to world security and to the chances for permanent peace.

IN KOREA the air force has been hampered by weather. It is the monsoon season over there and the low ceiling makes effective bombing difficult. Even at that our planes have made more than 5,000 sorties over enemy occupied territory. It is expected the rainy season will end about the middle of August.

Thus far we have lost but one plane by enemy action. A B-29 was shot down early in the conflict. Since then practically all Red planes have been driven from the skies. They are probably in hiding in North Korea or Manchuria and are expected to pop up for hit and run attacks in the future.

The war in Korea has proven, however, that modern wars of the Korean type cannot be won by the air force alone. Even in this air age, it is a mistake to put too much emphasis upon air power. The foot soldier, trudging through rice paddies, mud and sniper-infested terrain, is the vital key to eventual victory. And he would be helpless without the Navy to transport him, supply his needs and support him with withering naval bombardments. All three services are essential each supporting the other.

The Texas School Child Is Healthier Than Year Ago

AUSTIN—Texas school children are much healthier now than they were a year ago. L. P. Sturgeon, state associate commissioner of education, declared following a careful check made throughout the state.

Increased financial aid to school districts under the Gilmer-Aikin laws enacted by the last legislature has resulted in the establishment of hundreds of health programs in school districts which previously had none and in the expansion of old health programs.

More than 1,000,000 children who had not previously been given safeguards against diseases such as smallpox were immunized during the school year. Epidemics were discovered in their stages and halted. General check-ups of children resulted in the treatment of tens of thousands of ailments or physical defects never suspected by parents.

Increased state funds made possible the employment of hundreds of public health nurses, who have assisted doctors and public health officials to institute large scale health programs which reach into every section of many communities.

"The health program in the public schools is now based on the premise that prevention is worth more than a cure," Sturgeon commented. "The programs are receiving enthusiastic support from local residents."

The Kerrville city school system is an excellent example of what is happening all over the state, according to Charles H. Tennyson, executive secretary of the Texas State Teachers Association.

Until Gilmer-Aikin funds were made available, Kerrville schools had no nursing service other than that of a county health nurse, who was able to devote

only one day a week to the pupils of Kerrville's 3 schools.

Now a full-time nurse has been functioning a year. Kerrville's residents individually, and through civic and business clubs, have rallied. Kerrville is highly enthusiastic over what has been accomplished in one year, according to E. L. Wildman, superintendent of schools.

A clinic has been established in each school with local agencies providing the furnishings and to the lack of personnel to enforce regulations. Now every Kerrville child of school age has been tested for smallpox and diphtheria and immunized. Check ups disclosed many unsuspected physical defects. Positive reaction to tuberculosis patch tests were shown by 120 children. The Tuberculosis Society followed up with X-ray and medical examinations when parents could not afford them.

Of the 1,700 children tested, it was found 90 had defective hearing. Many children were found to have poor eyesight. Glasses were purchased for underprivileged children by the Lions Club. The Rotary Club paid for a number of operations to remove tonsils and adenoids.

Early in the school year, an epidemic of "pink eye" threatened the Kiwanis Club. Treatments were given 17 pupils every three hours for three days by members of the Parent-Teacher Association under direction of an eye specialist.

"In Kerrville the health program is a progressive and cumulative thing," said Superintendent Wildman. "While the school nurse is the first to admit she could not begin to carry out the program alone, the townspeople candidly admit that the program could not not have been possible without the nurse, which takes us back to the original cause of the improved health standards in our young citizens—the Gilmer-Aikin laws the last legislature so wisely enacted."

Labor Department Jobs Still Open

DALLAS, July 31—Federal jobs at salaries beginning at \$3225 a year still were available here this week, fourteen days after the original announcement of them was made.

The jobs, with the Wage and Hour Division of the U. S. Department of Labor, were first announced by the U. S. Civil Service Commission on July 17. Speedy action on all applications was promised. The closing date is August 7.

The Labor Department wants to add wage-hour investigators to its field staff in Texas, Louisiana, Arkansas, New Mexico, and Oklahoma.

Employment would be with the Wage and Hour and Public Contracts Divisions of the U. S. Department of Labor in one of those five states comprising the Southwest region.

Applications and additional information may be obtained from any first- or second-class post office in the region. The application forms should be sent to Fred Meyners, Executive Secretary, Board of U. S. Civil Service Ex-

Ramsey Thanks Texas Voters

BEN RAMSEY, run-off candidate for Lieutenant Governor, thanked Texas voters this week for the vote they gave him in the July 22 primary election. Ramsey, shown here in his San Augustine law office, said his heart was "filled with humble gratitude," and asked his supporters to continue the fight and elect him Lieutenant Governor in the Aug. 26 second primary. Ramsey is the only experienced candidate in the race.

aminers, Department of Labor, 1114, Commerce Street, Dallas, Texas.

60 Texans Lives Saved In June

AUSTIN—An even 60 Texans were alive at the end of June because of the Texas Highway Patrol's war against speeders. That figure represents the number of less lives lost in traffic accidents during that month than in May.

Walter J. Elliott, Chief of the Texas Department of Public Safety's Patrol Division, reported that his men filed more arrests for speeding during June than in any previous one-month period in the history of the organization. In that 30-day month, Patrolmen spread a total of 3,390 speeding charges on the arrest record of the state, thereby bringing to at least a temporary halt the continuing upward trend of traffic fatalities which has been noted each month since the beginning of the year.

Colonel Homer Garrison, Jr., Director of the State Safety Department, points to the 145 traffic victims of June and calls attention to the fact that this is a decrease of 19 over the same month of 1949. And referring to the fact that June was the first month of this year which showed a decrease he attributed it to the all-out directive issued by Chief Elliott to his men to "bear down" on the speeders.

"Speeding," Garrison stated, "accounted for the largest proportion of the 11,734 cases of all types filed during June by members of the Texas Highway Patrol."

He further stated that members of the Patrol filed 733 D.W.I. cases and 878 passing violation cases during the same period. The average rate of convictions in all traffic offenses was about 95% he said.

The city and the land should be congenial partners.

MY SINCERE APPRECIATION

To the voters of Coleman County for your loyal support of me in Saturday, July 22 Primary election. I shall contribute my very best efforts toward service to you. This service you have already merited.

Sincerely,

Bernice Johnson

SCRIPTURE: I Kings 17:18, 21. DEVOTIONAL READING: Psalm 27

God Give Us Men!

Lesson for August 6, 1939

THERE ARE WAYS of saying "No" without using that short and ugly word. A writer in the Christian Century has pointed out three of these. One is to say, "This is not the time..." Another is to say, "I agree with you in principle, but..." and the third is to say, "I am with you—but don't quote me!"

Dr. Foreman

In a large town in Kentucky recently the grand jury indicted the whole police force. In the course of the jury's report they said they had heard a good deal of testimony about cotten places and practices in and around town, but most of those who had come before the grand jury had said, in effect, "Don't quote me."

Man of Courage

WE NEED more men like the prophet Elijah. God providentially removed from him all the usual temptations to keep his mouth shut. He had no investments to protect—all he had he wore on his back, and that was not much. No family depended on him. He did not represent any institution. He could speak his mind—without worrying about the effect it might have on investors, or his family, or some institution.

So many thousand votes or voices must be right we think. But Elijah did not think so. He knew that "one man with God is a majority." He stood out against official opposition; this was more dangerous still. The crowd's favor or dislike comes and goes, the crowd soon forgets; but a tyrant like Ahab (and still more like Jezebel) neither forgives nor forgets a man who has stood up to contradict and condemn him.

Church Notices

FIRST METHODIST CHURCH Sunday school 10:00 a. m. Preaching 11:00 a. m. and 7:00 p. m. M Y F 6:15 p. m. each Sunday Mid-week services as announced.

W. F. Smith, Pastor

FIRST BAPTIST CHURCH Sunday school, 9:45 a. m.

Then Elijah stood out against the most difficult enemy of all; organized religious leadership, that is, the false prophets. Even in the Christian era that organized church has sometimes taken the wrong side of some important questions and persecuted men who were on the side of right. But church tyranny is at least as bad as any other kind, and it takes a brave man to face it.

In Our Time

THANK GOD for all the Elijahs! Every generation has seen a few, and we have them in our time. They have not all had the spectacular success of the original prophet of Carmel, but they are here all the same.

In public life one thinks of those senators—and your state is fortunate if it has even one who stands up for persons against profits, for the advantage of all against benefits for a few, true, representatives of the people as against invested privilege.

In church life we need more men like that pastor down in Alabama who was recently "fired" because he would not take his stewards' advice and use more "fact" in his sermons against sin in general and drinking in particular. It takes courage to do such things. And Elijahs are needed in the business and professional worlds, not only in the pulpit.

Is Liquor a Sacred Cow?

THE LIQUOR traffic alone, to name but one public evil, is doing our fellow-citizens a vast amount of damage. What other business makes necessary wards in hospitals to cure its customers? But how few men will stand up and be quoted for the facts! Newspapers will editorialize against gambling when they won't against liquor; gambling doesn't advertise but liquor does. Count the big newspapers or magazines which for the benefit of their readers are willing to go without the income which liquor advertising produces.

Now Is Excellent Time For Children To Have Teeth Checked

AUSTIN, Texas.—"Now is an excellent time for school children of all ages to make a trip to their dentists' offices," Dr. Geo. W. Cox, State Health Officer reminds Texas parents. Since school progress is influenced by the pupil's health, which is in turn affected by mouth conditions, it is wise to visit the dentist during the summer vacation and obtain any needed treatment before school starts.

"It is dangerous to assume that there is no need for dental attention simply because a child does not complain of a tooth ache or the parent does not notice any cavities. Only careful examination by a dentist can justify such a conclusion.

"Children entering school for the first time are particularly in need of dental attention. Usually they are at the age when the first four permanent teeth, the sixth year molars, appear. Because these erupt before the shedding of any baby teeth, they are often mistaken for baby teeth. Since these are important teeth they should receive early and regular attention by the family dentist.

"Postponement of a visit to the dentist may result in pain and discomfort for the child later on. To avoid such suffering and to prevent the development of conditions that may require more extensive dental services at a later date, parents are strongly urged to take their children to the dentist for an examination now. Prompt action will allow time to complete any needed corrections before school open."

Senator LeBlanc Does It Again!

Senator Dudley J. LeBlanc, creator of famous HADACOL is shown above breaking ground for the new HADACOL factory now being built alongside the present plant in Lafayette, Louisiana. This new building will be 80x235 feet, two stories, steel and concrete construction. The remarkable growth of HADACOL has forced the immediate construction of this new building. Only last spring Senator LeBlanc opened the present HADACOL plant and now less than a year later, HADACOL requires a 100% increase in factory space.

How To "Bag" A Bargain

- The season is always open for bargain hunters, of which there are several kind.
● There is the bargain hunter who drives miles to avoid a few pennies of cost . . . or taxes; and there is kind who depends on the expenditure of much time and effort in searching and searching, counting these as nothing.
● Then there is the "smart" hunter . . . something akin to the deer hunter who awaits the coming of his quarry while seated with his back to a convenient stump . . . or the duck hunter who relaxes in a blind until the ducks approach. This bargain hunter scans the ads in the Santa Anna News for the game he is seeking . . . and which he is almost certain to find in that way more quickly and easily.
● In this kind of hunting you will find the Santa Anna News is a long range weapon. The hunter can send out a few words in a low cost "want-ad" and he usually finds that a little money goes a long way.
● Bargain hunting, like other hunting, is fun and the savings make a pleasant jingle in the pockets of the successful.

Ben Ramsey Thanks Voters Of Texas

Ben Ramsey of San Augustine, candidate for Lieutenant Governor and former Secretary of State, thanked the voters of Texas this week for the votes and support which put him in the second primary run-off for Lieutenant Governor.

Ramsey expressed confidence in victory in the second primary election August 26.

Ramsey's statement to the voters said: "My showing in the first primary for Lieutenant Governor fills my heart with humble gratitude. It convinces me that I will be nominated in the run-off.

"Among my opponents were some of the ablest and most experienced of Texas' public servants—men whose legislative records have made them widely and favorably known. It seems clear

that they divided with me, the support of that great majority of citizens who believe that experience counts in public service, as it does everywhere else.

"I served in the Senate while three of these men were members of that body and three others were members of the House. Many of my friends are also their friends and many others who know me only from my legislative record faced a choice between several men whom they deemed competent and deserving.

"The situation in the run-off will be very different. I will no longer be confronting the popularity and prestige of men who have served ably in one or both Houses of our law-making bodies and many friends who share my own admiration for those men will feel free to cast their ballots for me. I believe that great majority of Texans will agree with me that in these crucial times about your district.

the post of Lieutenant Governor should be filled by a trained and experienced man."

Arithmetic Is Adventure

DENTON, Tex.—Arithmetic has become an adventure rather than a chore to children all over the United States through the efforts of a North Texas State College ex-student, Arvil Davis of Wichita Falls. Davis, elementary school teacher in Wichita Falls, has invented the "Attoboy Puzzle" Game which teaches children addition, subtraction, multiplication and division as they solve a jigsaw puzzle. Results of the teaching game has been favorable throughout the nation.

The Soil Conservation District for me. We believe in democracy. Learn more about your district.

Mr. Link Robinson, 519 Lindsey, is the most content and satisfied man in Newport, Ky. In fact, he says there isn't a thing in the world that can irritate or upset him now that he is on the HADACOL band wagon. If there ever was a man who thought HADACOL is the most wonderful thing in the world, it is Link Robinson, since he learned that his system lacked Vitamins B, B₁₂, Iron, and Niacin.

Here is what Mr. Robinson has to say about HADACOL, which is now supplying liberal quantities of these essential elements: "I have been a steel worker for over twenty years. When you are a steel worker, you have to do plenty of good, hard work, and you need lots of good, substantial food. But when a stomach is in as bad a shape as mine was... I couldn't eat, I had gas pains, stomach bloating and nervousness; well, I just couldn't eat the proper foods I needed. My boss told me about HADACOL and I started taking it immediately. After the second bottle I could tell a definite improvement. Now I can eat the foods I need to eat to really be on the job. In fact, I can eat anything I want to. I am not nervous anymore, either. Best of all, I haven't got those terrific gas pains and no more stomach bloating. HADACOL is the best ever. I recommend HADACOL to everyone."

HADACOL is Different
Countless thousands are benefiting from HADACOL... even hundreds of doctors are recommending HADACOL to their patients whose systems lack Vitamins B₁₂, Iron, and Niacin. HADACOL is so wonderful because HADACOL helps build up the hemoglobin content of your blood (when Iron is needed) to carry these precious Vitamins and Minerals to every organ, and every part of your body—to the heart, liver, kidneys and lungs, even to the eyes, hair and nails.

Give remarkable HADACOL a chance and if you don't feel better with the first few bottles you take—you get your money back. Only \$1.25 for Trial Size; Large Family or Hospital Size, \$3.50.

To The Voters of Precinct Two In Coleman County

- Due to circumstances over which we have no control, we were called out of town on election day, and did not return until it was too late to get my thanks to you in last weeks' paper.
- I wish to express my sincere appreciation to the voters of Precinct 2 for the fine support you gave me in the July 22 Primary. Your confidence in me makes me want to do just that much more for you and your precinct.
- I have gained a lot of experience in the last two years and I assure you that it will be used for the betterment of Precinct 2.
- Again thanking you for your kind support, and assuring you I will do my best to merit it, I remain,

Sincerely yours,

Earl Hardy

A. E. Genz Buried At Cleveland Tues.

A. E. (Gas) Genz, 72, of Bangs died in a Brownwood hospital at 12:05 a. m. Monday, following an illness of several weeks.
Mr. Genz had been a resident of Coleman and Brown Counties for 40 years and had lived at Bangs the past five years. He was born Sept. 3, 1877, in Harris Co.
Funeral services were held at 2:00 p. m. Tuesday in the Bangs Baptist Church, with Rev. O. D. Carpenter officiating, assisted by Rev. L. P. Jennings. The Bangs Masonic Lodge was in charge of graveside rites at the Cleveland Cemetery, between Santa Anna and Trickham.
Mr. Genz was a member of the Bangs Baptist Church and was a 32nd Degree Mason with the Bangs Lodge. He farmed in the Santa Anna area before moving to Bangs.
Surviving are his wife, Mrs. Rose Genz; three sons, Ernest Genz, Houston; Martin Genz, Lenora, Kansas; and Herbert Genz, Bangs; eight daughters; Mrs. J. M. Dietz, Mrs. J. M. Gilbreath and Miss Elfreda Genz of Houston; Mrs. Jack Banta, Coleman; Mrs. Marie Hillman of J. A. L.; Mrs. S. E. Blanton and Mrs. W. Cupps, Santa Anna; and Mrs. Reba Genz of California, a half-sister and three half-brothers.

Cleveland News

(By Mrs. M. F. Blanton)

The showers we have been having have made the weather some cooler.
Mr. and Mrs. Manley Blanton visited with Mrs. Blanton's brother, Steve Scott, in San Angelo, Thursday.
We are sorry to report Mrs. R. W. Cupps in the hospital. Hope she has a speedy recovery.
Ann Blanton is spending two weeks in Fort Hood, with her sister, Mrs. William Anderson and family.
Mrs. Lonnie Knutson and children and Mrs. Edwin Cox and son, visited Mrs. Drisco Woods last Sunday.
Miss Patsy Wagner has been

Vic Vet says

visiting and vacationing in Galveston the past ten days.
Mr. and Mrs. Clesby Starnes of Brownwood, spent Friday night with Mr. and Mrs. Elmer Cupps.
Mrs. Willie Baugh is very sick at Mrs. William Cupps. We hope she soon gets better. We learned later that they have taken Mrs. Baugh to the hospital.
Mr. and Mrs. James Ford are happy over the arrival of a baby boy, born Tuesday, July 24.
Mr. and Mrs. Clesby Starnes spent Saturday night and Sunday with Mr. and Mrs. Charlie Fleming.
Mrs. Elmer Haynes visited Saturday with her daughter, Mrs. Mattie Lancaster.
Mrs. Iona Moore and Patsy and Mrs. M. F. Blanton visited with Mrs. Virgil Lancaster Friday evening.
Mr. and Mrs. Edd Moore and boys of Tom Ball, Texas, had supper Friday night with Mr. and Mrs. C. T. Moore.
Mr. A. E. Genz passed away Sunday night in a Brownwood hospital. Mr. Genz lived in our community for years. He was buried Tuesday in the Cleveland Cemetery. The family has our sympathy.

County Farm Bureau News

Mr. Frank Gillespie and Mr. and Mrs. Raymond McElrath are representing the Coleman Co. Farm Bureau Federation at the State Farm Bureau Institute held at Texas A & M College this week.
The Coleman Co. Farm Bureau annual membership meeting will be held at the Breeder-Feeder recreation bldg. at the rodeo grounds August 24. A barbecue supper will be served to members and their families. Members' wives will be asked to bring a pie or cake for dessert. This annual array of pies and cakes is a sight that a person cannot see anywhere else and besides, you have never tasted anything like it. Luther Holder is in charge of the food for the meeting and Dan Flippen, W. H. Pittard, Mrs. Raymond McElrath and Mrs. W. D. Terry are in charge of the arrangements. Ben Wilson is program chairman.
Director of the week is R. E. (Cotton) Wood of Santa Anna. Mr. Wood has been a director for one term and is making a good director. He is a community committeeman for the PMA and belongs to the Santa Anna Coop-Gin Association and the Santa Anna Livestock Association.
Mr. and Mrs. Wood have two boys, Kenneth, 16 and Billy, 14. Kenneth has been a member of the Santa Anna FFA Chapter 3 years, and Billy a member of the Santa Anna 4-H club for 3 years. Both boys have been feeding Angus calves for the past three years. Mr. Wood and boys are partners with a herd of registered Angus cattle that they are improving all the time.
Mr. Wood raises cotton and small grain as his principle crops. Mr. and Mrs. Wood are valuable citizens to any community and we are glad to have him as a director in the Farm Bureau from Precinct 2.

Mothers Have Control Of New Born Syphilis

AUSTIN.—Expectant mothers have positive control of whether or not their babies will be born with congenital syphilis.
This is from State Health Officer Geo. W. Cox, who characterizes the condition of a baby being born with syphilis as "negligent, unnecessary, and entirely preventable."
"All that's necessary is for the expectant mother to place herself under the care of a competent physician as soon as her pregnancy has been confirmed," the health official said.
He believes all too many Texas babies are being born with the affliction, passed to them by an infected mother during the prenatal period. Early prenatal care, he explained, would include a blood test of the mother to determine the presence or absence of syphilitic infection.
Dr. Cox charged that many times the mother-to-be delays her visit to the doctor until a few weeks, or days, before she expects the infant. Then, he says, it may be too late to prevent the birth of a syphilitic child.
Almost 2600 cases of congenital syphilis were reported last year. Dr. Cox says he sees little indication that there will be any appreciable reduction in case reports this year. Incidence of congenital infection will probably remain at fairly constant lev-

els, he predicted, despite a slight reduction in total of syphills of all types.
"Advances in medical therapy for syphilis have progressed to the point where it is now possible to effectively prevent congenital infection—but not without the mother's complete cooperation," Cox warned.
The explanation is that even though a mother contracts syphilis just prior to pregnancy, she can be restored to health and the baby can be born sound and healthy, provided treatments are started within the first three prenatal months. Even after that time, a high index of protection for both mother and baby is assured, but the chances for a normal birth decrease with each week of delay.
Prenatal clinics are held by all local units for those women who would not otherwise have this care because of lack of financial resources, Dr. Cox said.

Four Naval Districts To Process Waves

NEW ORLEANS.—Four naval activities have been named by the Eighth Naval District to process and give medical examinations to enlisted Wave reservists who volunteer for active duty.
They are the naval station here, naval air stations at Dallas and Corpus Christi and the naval station at Orange, Texas.
Waves belonging to organized or volunteer units were asked to apply for active duty through their commanding officers. Others should apply by letter directly to the district commandant, district headquarters announced.
Volunteers must have at least one year's obligated service remaining in their enlistments. Accepted volunteers will be ordered to one of the three Texas examining activities or to the naval station here.
Qualified applicants will then be sent to Corpus Christi for outfitting and to await permanent assignment by the Bureau of Naval Personnel.

Do You Plan To Enter U. of T.?

AUSTIN.—If you are planning to enter the University of Texas this fall and want part-time work, you should come to Austin and seek your job now. Student Employment Director Joe Farar announced.
"We usually are swamped with 1,200 to 2,000 applications in September and it's impossible then to fill all of them immediately," he said. "Part-time work demand is greater now for girls who can take shorthand and type and for boys who can do retail selling."
"Writing us for work won't help. An employer wants to meet the student he's going to hire. If a student has \$200 saved before he comes to the University, I think he can complete his school year by doing part-time work."
The University maintains the Student Employment Bureau in old B Hall, just east of the Main Building. The Bureau is a cen-

Local Girls Attend McMurry Summer Band School

ABILENE, July 18—Enrollment for the summer vacation band school at McMurry College July 24-August 5 has reached 179, according to Director Raymond T. Bynum.
Among the recent registrants are June Parker, Delores Wise, and Billie Wallace.
The school will cover general musicianship, elementary and intermediate music theory, conducting, and marching. In addition, Rebecca O'Bannon, national champion twirler from Huntsville, will teach twirling.
Mrs. R. C. Gay had as weekend guests last week, her two children, Mary Gay, and Coleman Gay III.

Mr. and Mrs. Joe Waggoner and two daughters from Tennessee, visited in the home of Mrs. J. E. Bolton and Mrs. Frances Everett, Friday and Saturday of last week. Mr. Waggoner is a half brother of the late Mrs. G. S. Evans. On Friday night the visitors and members of the Evans family, in this vicinity, met in the home of Mr. and Mrs. Charles Evans.
Mrs. Joe Flores and Nancy left by plane from San Angelo early last week for a few days visit with her son, Lt. Joe Bruton Flores and family at Camp Carson, Colorado. He is due to leave soon for overseas duty.
Mr. and Mrs. Earl Hardy and Reba returned home Wednesday of last week, after being called away due to the illness and death of her mother, Mrs. P. D. Taylor, of Muleshoe, Texas.
Miss Carol Jean Craig and Mr. Ed Voight of Austin, were week-

end guests of Miss Allene Jones. Other visitors in the Jones home were, Mr. and Mrs. Dick Jones and daughter of Houston.
Mr. and Mrs. Otto Wojtek, of Robert Lee, visited here on Thursday of last week, with her parents, Mr. and Mrs. Turner Oakes.
Mrs. Harry Rupe and her four children, of Roswell, New Mexico, came Monday for a visit of several days with Mr. Rupe, who is in the drilling business here.
Rev. and Mrs. W. F. Smith and J. L. Owens were in Fort Worth Saturday for the wedding of Miss Kathleen Boling and Mr. John E. Standefer. They were accompanied home by Miss Virginia Bounds of Wortham.
Legumes add nitrogen to the soil.

Wealth In The SOUTHWEST

Twenty-five years ago only about one-fifth or 20 per cent of the agricultural income in Texas came from the sale of livestock. Today more than 45 per cent of the state's agricultural income comes from that source.

This situation, coupled with the fact that more than one-third of all the farms in Texas are operated by tenants, is creating a great need for a practical long-term lease or rental agreement. Both landlords and tenants are interested in working out long-term rental agreements that will prove mutually beneficial. Involved are such items as the division of the initial cost of the breeding animals, the division of the income from livestock, how to divide the costs of improving pastures or sharing the supplementary pastures, soil building crops and the like.

The Pictures . . .

Upper left: C. W. Chandler, Nocona (Tex.) business man, stands by his prize Angus bull, Alford's Quality Prince 151 -- purchased from Alford Angus Farm at Paris, Texas. Upper right: L. J. (Lou) Haile with one of his pet range bulls on his ranch east of Dumas (Tex.) in the Panhandle. Bottom left: Part of a herd of 96 registered Guernsey heifer calves on Cloverland Dairy Farm of Morgan Walker, Alexandria, La.

Rubber Roads Save Money

A rubber highway is attracting attention just outside San Antonio, Texas. It's only 500 feet long, but that's enough to show whether rubber is the answer to the tremendous road maintenance bill in that part of the United States.

If all roads made with a surface of natural rubber in powder form mixed with asphalt stand up as well as the rubberized stretch of U. S. Highway 81, millions of dollars may be saved by the states.

Although the section near San Antonio is the only such experiment under way in Texas, similar experiments are being made in Virginia, Minnesota, Ohio, and Canada. Behind the tests is the Natural Rubber Bureau, with headquarters in Washington.

Came from Europe

European engineers developed the first usable mixture of asphalt and rubber. When Hitler's tanks rolled into The Netherlands they struck a section of rubberized highway outside Rotterdam, Holland. Reports are that the road there is still in excellent condition despite complete lack of repairs.

During 1949 the United States spent about \$1,750,000,000 for new highway construction and \$1,200,000,000 on maintenance. Some day this nation may have all the first-class highways it can use, but the problem of maintaining them will continue — unless some super-durable highway, like a rubber one, can be found.

There is no shortage of natural rubber at the present time.

Cutworm Met His Doom

When cutworms began destroying cotton and vetch crops in Lamar County, Texas, last year, W. L. Scott, county agent, recommended a mixture of 5 percent DDT and sulphur. This proved satisfactory, as did spraying with Toxaphene and DDT.

They Carry Cork Germs

Sweet potato growers will be interested in knowing that insects have been discovered which transmit the internal cork disease of sweet potatoes. One such carrier is identified as the green peach aphid (*myzus persicae*). One or two other insects are suspected, such as a small leafhopper, according to reports from Dr. A. A. Duulap of Texas A. & M. College.

MAY SAVE PIGS

The installation of guard rails and a pig bender in the farrowing house may save many a baby pig from being crushed or chilled. Pigs must live and be healthy if they are to be profitable.

"Watch him! He may try to pull something on you!"

How My Faith Has Helped Me Through Life's Storms

By J. C. PENNEY

Nationally-Known Merchant

One of four store managers wrote me recently that these times tend to fill everyone with pessimism. That should not be.

We should recognize our times for what they are—periods of tribulation but not of pessimism. They should inspire us to re-examine our faiths and to re-establish our convictions even more firmly.

As long as we have any faith at all in God, we must know that He is all-powerful, that justice and right are His will for the world, and that eventually His purpose will be established here on earth. Good emerges slowly, but we must not doubt its final outcome.

And just as with individuals, so as a nation will our fate be determined by our choice of the hard right, instead of the easy wrong. America was founded in prayer, in faith, and in the heroic spirit of sacrifice. Comfortable living in easy-

going years tends to soften us, and both our spiritual and our physical muscles become flabby.

Times like the present are testing periods. The harder they become, the more determined we should be not to be infected by fears which bedevil the world.

The present state of the world, and of people in it, does not shake my faith in the ultimate triumph of freedom and justice.

From a worldly standpoint my parents were humble folk. My father was an old-school Baptist minister who preached the better part of his lifetime, and he never took one penny for it. He earned his living as a farmer. Though brought up strictly, I have always been thankful that my parents were God-fearing, for I learned early to honor and obey them—and also to work hard.

If I could get a message over to the youth of this country, it would be that success in life does not depend on genius. Any young man

Face Powder For The Heart

Talcum powder, which for generations has made shiny feminine noses presentable, is being used to relieve ailing hearts.

A surgeon in New York Medical College says that powder has been blown into weakened heart muscles to create a stimulating irritation. The treatment is used on persons stricken with a condition that closes a branch of the arteries supplying blood to the heart.

Of 42 persons operated on by his staff, 27 report they now are leading normal lives.

After slitting the pericardial sac, which encases the heart, the surgeon injects talcum powder into the sac by blowing. The talcum irritates the area and creates a new blood supply.

In persons who suffer from this form of heart trouble there may be an almost complete lack of blood supply to the heart muscle. Increasing the supply by talcum powder irritation remedies this dangerous condition, as the doctor reports it. The powder remains in the sac for years without undergoing any change, research has proved.

How to Hake Rolled Hem

A rolled hem is recommended for fine lingerie, neckwear, handkerchiefs, and baby clothes. It may be used on a bias or straight edge. Roll the edge of the fabric between the thumb and first finger, toward you. Then catch the roll in place with fine hemming stitches. Use a fine needle and thread.

Food More Molasses

Based on the results of two feeding trials by the Texas Experiment Station, citrus molasses has a relatively greater feeding value when fed at a level of 4 pounds per head daily to fattening cattle than when at levels of 2 and 3 pounds.

of ordinary intelligence, who is morally sound, aboveboard in his dealings, and not afraid of work, should succeed in spite of obstacles and handicaps, if he plays the game fairly and squarely and keeps everlastingly at it.

Plastic Curtain Is Favorite Item Now

There's a reason for the popularity of plastic accessories in the home-making field. Plastic products are long wearing and easy to clean. More than that, they are truly a beauty asset in the home.

Plastic curtains have been widely accepted by homemakers—and for good reason. Not only are they economical and work-saving, but they add loveliness to home decor.

Once, when plastic curtains were placed on the market, homemakers dressed kitchen windows with these practical items. Bathroom and playroom also were placed in the "practical accessories" category.

It's little wonder homemakers are clamoring for plastic curtains to add hospitable appeal to the appearance of their homes.

4811 SIZES 12-20 30-42

Your first fall casual is here! Look at that collar, the softened yokes, the pockets, and know that this is the most flattering, neat and slenderizing dress yet!

Pattern 9231 comes in sizes 34, 36, 38, 40, 42, 44, 46, 48, 50. Size 36 takes 4 3/4 yds. 35-inch.

Your new shirtdress! Most important style of the year... new crisp collar and cuffs, smart inside pockets. Best of all, it's an easy sew—no waistline seam!

Pattern 4811: 12, 14, 16, 18, 20, 30, 32, 34, 36, 38, 40, 42. Size 16, 4 3/4 yds. 35-in.; 3/4 yd. contrast.

Send TWENTY-FIVE CENTS in coins for each pattern to Southwest Magazine, Pattern Department, P. O. Box 6710, Chicago 80, Ill. Print plainly YOUR NAME, ADDRESS, ZONE, SIZE, STYLE NUMBER.

Here's a novel idea for pressing seams: Use a toothbrush to open and dampen them at the same time. Then press.

Unsightly Hair On Face Is Solved Easily By Milady

By JOHN ROBERT POWERS

The way letters avalanche into my mail box asking, "What can I do about unsightly hair on my face?" you'd think this problem constituted a crime liable to severe punishment.

As with all other beauty problems, the only "crime" involved is in not doing something constructive about it. That's why this column is only too happy to answer such pleas and help you determine the best corrective measure.

Among a number of safe and sound ways of taking care of superfluous hair on the face, the cheapest and quickest is bleaching. You need go no farther than your favorite beauty salon to find the necessary equipment and expert technicians.

Professional bleaching not only lightens the hair so that it is less noticeable but regular sessions will tend to destroy the hair altogether. Once a month is about the right spacing between bleachings.

Caution: Be sure to have a patch test on your arm before allowing any bleach whatsoever to be applied to your face. You may find that you are allergic to one bleach and will then have to experiment

with another bleach in a second patch test.

When you have found the bleach that agrees with you and gets results, stick to it. If you so desire, you can then transfer the scene of your operations to the privacy of your own room.

I can also advise one home-made and home-applied bleach as being both safe and efficient but perhaps a bit slower: To three tablespoons of white henna, add 5 to 10 drops of household ammonia, to this concoction add enough peroxide to make a thick paste. (You can get all these ingredients from your druggist).

Apply your paste with a new toothbrush to the desired areas in masklike thickness. Keep it on until it dries completely. Then, rinse it off with clear, warm water. If your skin smarts, pat on a sparing amount of a pure skin oil.

I know you are also wondering about electrolysis. This treatment is expensive and requires a great deal of time. It is safe and for some women, permanent. But it is not something you should undertake lightly—certainly not without consulting your own physician.

9226
SIZES
2-10

Try Easy Method Marking Patterns

Pattern markings are there for a purpose. They are included to simplify your sewing and to assure accuracy in putting together the garment. However, many women avoid making markings, because they require a little extra time and attention.

Try this easy method for marking patterns. Pull a double thread about 12 inches long over a piece of soft chalk a few times, until thread is well chalked.

With no knot in the thread, stitch through all the thicknesses of the material, at the point to be marked, and pull the thread through. If the material has enough body to hold the chalk, all layers will be marked both inside and outside.

Plain Towels Best To Make Beachwear

When it comes to beach wear, there's nothing so practical as terry cloth toweling. You can fashion a robe, sun suit, beach bag and even a bathing suit of bath toweling. This fabric washes beautifully, and takes to water like a duck.

The towel for one beach outfit should be 20x40 inches or larger. Wash cloths should be 12x12 inches. Three of the wash cloths should match the toweling. The other three should be in a contrasting color. The outfit also combines dark blue and chartreuse. But you may fashion your outfit of toweling in your own particular color choice.

Additional requirements for making the beach outfit are three yards of one and one-half inch grosgrain ribbon in the color of the toweling and three yards of grosgrain ribbon in a contrasting tone. You'll need six large buttons and a yard and one-half of bias binding.

Now to make the outfit: Fold the towel in half and slit, rounding it slightly for eight inches at the center for the neckline. Seam the sides, leaving six inches at the top for armholes. Bind with the contrasting ribbon.

Sew three buttons on back shoulder edge at each side. Stitch bias binding to front edge for button loops and the top is finished.

Eleanor Roosevelt Names Her Choice

One of the world's most influential women—Mrs. Eleanor Roosevelt—traveled to Sweden recently to unveil a statue of her husband, the late Franklin Delano Roosevelt.

Mrs. Roosevelt was asked by the Swedish people to name the most remarkable woman she had ever met. After brief deliberation, Mrs. Roosevelt named Mrs. Vijaya Lakshmi Pandit, India's ambassador to the United States and sister of India's prime minister, Pandit Jawaharlal Nehru.

Said Mrs. Roosevelt: "She always says all the things a man would say, and uses all her woman's wiles to say them. And she always looks lovely in her long colorful Indian robes, in the United Nations."

What a smart little girl she is in this fashion-right jumper! It has cuffed shoulders, basque top, whirly skirt and Peter Pan blouse. Practical and delightful!

Pattern 9226 comes in sizes 2, 4, 6, 8, 10. Size 6 jumper, 1 1/2 yards 35-inch fabric; blouse, 1 1/4 yards.

This easy-to-use pattern gives perfect fit. Complete, illustrated Sew Chart shows you every step.

Send TWENTY CENTS in coins for our Fall and Winter Pattern Book. The best of the new-season fashion in easy-to-sew patterns for all Christmas gifts, too, plus Free Pattern printed in the book.

Popular new items are bathtub toys for children. They provide cool amusement for summer days and make the bath tub an attractive place in which to play.

Honey Offers Variety Uses

Have you noticed honey prominently displayed at the grocery store lately? There's a reason—it's on the plentiful list. Bees worked overtime last year, and the resulting output of honey came to almost 227,000,000 pounds. For your information, that's ten per cent above the figure for the previous year.

Being an astute home-maker, you will be quick to take advantage of the oversupply.

To some, honey is merely an excellent idea for a rough throat, or a delightful spread for a hot biscuit. But to cooks in the know, honey has a wide catalog of uses. All the way from the breakfast grapefruit to sauce for the evening ice cream, honey is the source of delicate, intriguing flavor.

The quick and easy way to get the good out of honey is to spread it on toast, waffles, muffins, pancakes, and other hot breads. But honey has a more important role in the kitchen. Use it for making such things as candied sweet potatoes, custards, puddings.

Remember honey to make a glaze for ham, to sweeten fruits and cereals. And with picnic time approaching, use honey to whip up irresistible sandwich fillings. For instance, honey and peanut butter.

Her Mother's Frock

By wearing flimsy lace on her nether garments, Miss Gussie Moran, an internationally known tennis star, has become the first lady of tennis styles. Almost every week she comes out with something new in the way of apparel. First it was the lacy undergarment. Now it's a creation of white silk chiffon completely pleated and with matching pleated bloomer type underthings. Tennis fans will tell you she is not the best of the women players, but she is the easiest on the eyes.

Southwest Magazine
August Edition 1950

A Billion Dollars In Livestock

The Bureau of Agricultural Economics valued Texas livestock at \$1,106,506,000 on January 1, 1950. Beef cattle, 8,658,000 in number, led with a value of \$900,432,000. Milk cows came second, with 1,296,000 head valued at \$180,144,000. The total of all cattle is slightly above that of 1949.

The number of sheep on ranches and farms on January 1, 1950, was 6,821,000 as compared with 6,613,000 last year and 9,545,000 in the period of 1939-1948. The number of other livestock on January 1, as estimated by the bureau, as are follows: Goats 2,246,000; hogs 1,701,000; horses 352,000; mules 139,000; chickens 27,384,000; turkeys 755,000. The report shows a decline in numbers of sheep, goats, horses, mules, turkeys, and chickens. The number of horses has dropped from 565,000 during the 1939-1948 period to 352,000 in 1950, and mules from 409,000 to 139,000.

That Rooster Will Make Good Salad; So Get Out the Ax

If you have a rooster running with your flock, get the ax, chop his head off, and use him for Sunday dinner. He will make good chicken salad. If you have more than one and more than you can use at home, crate them up and pack them off to market. The hens will lay just as well without the roosters and the eggs keep better.

The only function of the rooster is to fertilize the eggs. If you are not hatching eggs, and you will find it much better to buy good chicks from a good hatchery than try to hatch them yourself, there is no need to have him around. His crowing is not going to encourage the hens to lay more.

The fertile egg will begin to incubate very slowly at about 70 degrees. When the temperature gets above 90 degrees, as it will frequently do from now on, the germ begins to develop rapidly, and then dies, causing a blood ring which makes the egg unfit for food.

If there are no roosters in the flock and the eggs are infertile, there will be no germ development. While hot weather won't do an infertile egg any good, the egg will hold its quality much better than a fertile one.

Hundreds of thousands of eggs spoil every year because they are fertile. If we could persuade all of our farmers to get the axe and "swat" the roosters, it would mean thousands of dollars saved.

Don't put it off; the weather has already turned warm and will get even warmer next month and the next.

Sirloins Are Best Broiled

If the occasion is a festive one, steak is in order. It's a perfect food choice because it's so easy to prepare. And you know that ease of preparation is important now, when long hours in the kitchen are definitely out of the question.

Another good reason why broiled sirloin steak is a proper menu choice this time of year—or any time—is its wonderfully satisfying goodness. What could be more tempting than a steak broiled delectably brown on the outside and tender and juicy within?

When ordering steak, have it cut one to one and one-half inches thick. The fat edges should be cut in several places, to prevent curling during the cooking process.

Pre-heat the broiler and place the broiler rack so that the top of the meat is about two inches from the heat. First broil one side to the desired brownness. Then season with salt and pepper.

Now turn the steak by inserting the fork into the fat (not into the lean meat) and broil the other side. Season the steak and spread lightly with butter, if desired.

HAPPY DAYS NOW—NOT CONSTIPATED

"I feel happier, younger now, not constipated! Eating your ALL-BRAN does so much for me! What wonderful relief, after so many pills and medicines. Ever your friend, W. H. Rooney, Detroit 2, Mich. Just one of many unsolicited letters from ALL-BRAN users. If you suffer from constipation due to lack of dietary bulk, try eating an ounce of crispy Kellogg's ALL-BRAN daily, drink plenty of water! If not completely satisfied after 10 days, send empty carton to Kellogg's, Battle Creek, Mich. Get DOUBLE YOUR MONEY BACK!"

Talk About Joan Crawford Is Especially Nice Nowadays

Hollywood is saying the nicest things about Joan Crawford's latest picture, "Harriet Craig." With Miss Crawford's newest movie appearance, she proves to be one of film-land's most valuable properties.

Wendell Corey, who gave an outstanding performance in "No Sad Songs for Me," is co-starred with Joan Crawford in the picture. His role in "Harriet Craig" gives him further opportunity to display his superb acting ability.

Miss Crawford never shirks work. An active person in various charitable enterprises about town, she is best known as a doting mother of four adopted children. Recently she announced she would adopt a fifth child.

Miss Crawford was rushed to the hospital when she suffered from complete exhaustion. She had worked almost around the clock—23 hours—in "Harriet Craig."

A constant companion of Joan is

her French poodle, Cliquot. He accompanies the star everywhere and is never absent from a movie set on which she is working. An intelligent pet, he knows enough to stay out of scenes being filmed.

KATHLEEN Ryan is Hollywood's newest Irish importation. She's a tall, calm beauty with freckles, brown eyes, and red-brown hair. Since she was 14, she has been her present height—five feet, seven inches. It used to cause her much agony.

Stage-acting helped Kathleen conquer her inferiority complex. "It's a question of forgetting yourself," she says. "If you have an inferiority complex, it means you have a lot of ego. If you project yourself and give yourself to other people, you overcome it."

Miss Ryan will be seen in "The Sound of Fury." She plays the wife of a jobless former G. I. (Frank Lovejoy), who is forced to steal to support the family.

ANOTHER Hollywood actress, singer, and dancer, June Haver, is hospitalized. Miss Haver is reportedly suffering from an internal injury that may require serious surgery. In any event, she will not be able to work for several months.

Eddie Cantor and his wife are in Israel, where the comedian is serving as national chairman of the United Jewish Appeal.

Jackie Coogan has quit show business to sell a kitchen gadget. "I just ran out of gas," shrugged the 35-year-old Jackie.

Joan Evans is only in her teens. But that hasn't prevented her from playing grown-up roles in films. The beautiful actress is one of the most popular young women in Hollywood's social set. She is seen often with grown-up male actors. Her most recent escort was reported to be Henry Lewis, who accompanied Joan to a movie preview in Hollywood.

Harold Lloyd, movie comedian of silent days, is now a grandfather. His daughter, Mrs. Marjorie Elizabeth Ross, gave birth to a son.

Mae West is making plans to build a \$1,000,000 casino in Las Vegas, Nev. She will run the venture herself.

The name Meredith Willson means music. Both in radio and movies, the fortyish composer and conductor has gained distinction for his musical genius. Which all goes to prove that piccolo players can come to good.

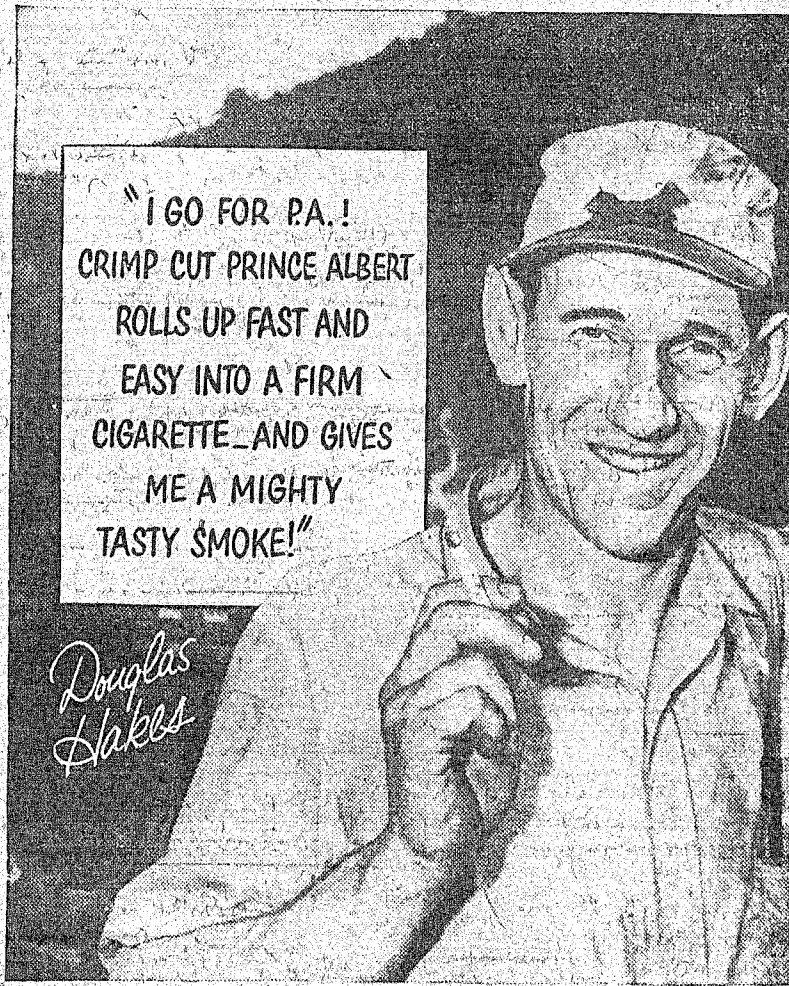

HOLLYWOOD NOTES — Eddie

Albert will appear in "The Fuller Brush Girl." At night he yaps his daily half hour radio show and between times prepares scripts for the educational films he produces. . . . George Petty, whose life story comes to the screen as "The Petty Girl", takes time off from painting beautiful damsels each year by going

big-game hunting in Africa . . .

Jeanne Crain will play a girl with spurs in her next picture. John Ford will direct it. . . . Clifton Webb says he has given up the stage "irrevocably and forever." He is in pictures for as long as Hollywood will have him, he says.

"With crimp cut Prince Albert, it's easy to roll neat cigarettes," SAYS DOUGLAS HAKES, Farm Mechanic

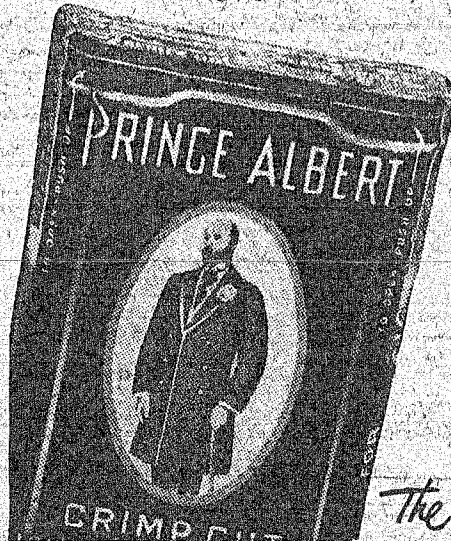

"I GO FOR P.A.!
CRIMP CUT PRINCE ALBERT
ROLLS UP FAST AND
EASY INTO A FIRM
CIGARETTE—AND GIVES
ME A MIGHTY
TASTY SMOKE!"

Douglas Hakes

R. J. Reynolds Tobacco Co., Winston-Salem, N. C.

Prince Albert's choice, naturally mild tobacco is crimp cut for easier rolling of firm, neat cigarettes. And the humidator top keeps P. A. fresh and rich-tasting for greater smoking joy.

The RANGE RIDER—and The EDITORS

By WELDON OWENS

R. H. WESSEL in The Frederick (Okla.) Press: "Olyus Hefner, four miles north of Frederick, caught an armadillo in his garden Friday night and brought it to the Frederick fire station where it is now in a cage. It is more than a foot in length from its long snout to its tail. It is well protected by bony armor, so jointed that it can move its body readily. It lives on ants and other insects, vegetation and carrion. It is very timid and tries to hide its head. When handled it tries to frighten its attacker by a queer sound."

FORTUNATE is the fire department to have such an animal. Over in East Texas during the depression, an armadillo's life wasn't worth the armor that protected it. Meat was too scarce. A possum or an armadillo wouldn't dare get out in the open until after dark. And most folks were well pleased with the taste. However, I'll never forget one fellow's complaint when they brought him into court for stealing a neighbor's possum from the case. The judge asked him: "How come you broke into that cage three times where Mr. Jones had his possums?" And the fellow answered: "Well, I got the possum the first time for my wife. And the other times was when I had to go back and change him for another."

NATHAN Bolton in The Mote-house (Ela.) Enterprise: "Ralph James, well known radio announcer on KTRY, has been promoted to program director" according to Bill Davis, station director. James is generally considered the best news announcer in northeast Louisiana and Southeast Arkansas."

I'VE ALWAYS wanted to be an announcer like Mr. James. I always felt like I had native talent. Mama could always yell so plain when she was calling us to do the dishes. And sometimes we would be half a mile away, down in the draw across the pasture. But I didn't inherit her more stentorian voice. The only time my voice sounded manly and deep was right after I took two teaspoons of sugar and turpentine for a light case of croup. So Mr. James is lucky to be called the best announcer in those parts. Maybe he'll go on up as manager, then owner. Finally he could be privileged to sign all the notes to finance the radio station while television moves in with growing business.

ATASCOSA County Tax Monitor: "In the last few days it has come to my hearing that I was a 'cheap skate' and 'a fool' and 'what have you for not getting my name on the official ballot as a candidate for Justice of the Peace.' This is erroneous and misleading. I was at George West as the dead line approached, and did not want

to announce against W. J. Bowen. I did not know he was not going to run. (Signed) W. P. (Jeff) Stallings."

THE HON. Mr. Stallings shows some of what we need more of—Courtesy, Friendliness. Like a fellow I knew once who nearly went broke giving credit in the grocery business. His name was J. C. McSpadden, the finest Pres-

Owens

byterian who ever hit a church tenor tone. He was awfully friendly. He went fishing and they got all of his worms. He folded his gadgets back into the box, turned toward the creek with clasped hands and smilingly asked: "Now, will there be anything else this afternoon?"

CECIL O. WAGGONER in The Claude (Tex.) News: "Friends of Mr. and Mrs. C. B. Hunter called at their home on Sunday afternoon in observance of their fiftieth wedding anniversary."

Mr. and Mrs. Hunter are products of adjoining communities in Collin County, Texas, near McKinney, where they were married at the home of her mother, Mrs. M. J. Sneed on July 11, 1900. The first eight years of their married life was spent in teaching in Collin and Denton Counties. In search of a permanent home in a healthful climate, they came to the Texas Panhandle in 1908. They purchased a small farm southwest of Claude where they still live. They have three daughters, Miss Laura Grace Hunter of Washington, D. C., and Mrs. Nora Leta Hargis, and Mrs. Frances Goggans, both of Austin, Texas, also three grand children.

THE RANGE RIDER congratulates the Hunters. Brother Hunter is lucky, too. It's an achievement to keep the same woman around the house for 50 years. They used to make wedding bands big and heavy—that was because they were supposed to last a long time. But the old-fashioned pattern of housewife is moving on. And few remain who would write the following verse:

Some girls just must have a career,
They sing, or act, or scribble ballads,
I much prefer to stay at home
And make cucumber salads.

LESLIE J. Herring in Beckham Co. (Okla.) Democrat: "White cleaning grass in his yard. Bill Clancy was bitten by a black widow spider. He said he felt a burning sensation on his right thumb, like a burning match head. He grabbed his thumb and squeezed

the bite and three times he got a drop of water-like substance out of it. . . then went back to work. Next day the doctor lanced it and gave him a shot. Monday it was lanced again. He is better."

MR. CLANCY'S recovery is occasion for joy. The moral, of course, is to stay away from lawn duties. Man waters the grass to make it grow, then mows it down. He sweetens the tea, then sours it with lemon. Had tradition been allowed to survive, Mr. Clancy would not have encountered the black widow, anyway. Especially in his Oklahoma surrounding where so-called civilization moved in. But was it civilization? At that time, the squaw was doing not only the work on the lawn but in the field. Man knoweth not when he fareth well.

R. H. WESSEL in The Frederick (Okla.) Press: "Weekly newspapers probably give more to worthwhile causes, according to income than any other business, profession or what have you. While they do not have the bank account to give cash, they give publicity or service."

THAT'S NOT all, Mr. Wessel. The weekly newspaper editor is always the champion sifter-upper. Not baby-sitting. Our records show that more editors sit up with the sick and the dead than any other profession. And those who have a good insurance business on the side often can afford to lay off for all-day cemetery workings and other fast-fading community events. Yea, Brother Wessel, the country editor is famous for giving his widow's mite. As you say, he has no bank account. And no need. For his lot is to sweat and work and unlike the lucky doctor whose medicine is of no avail come face to face with his errors the morning after.

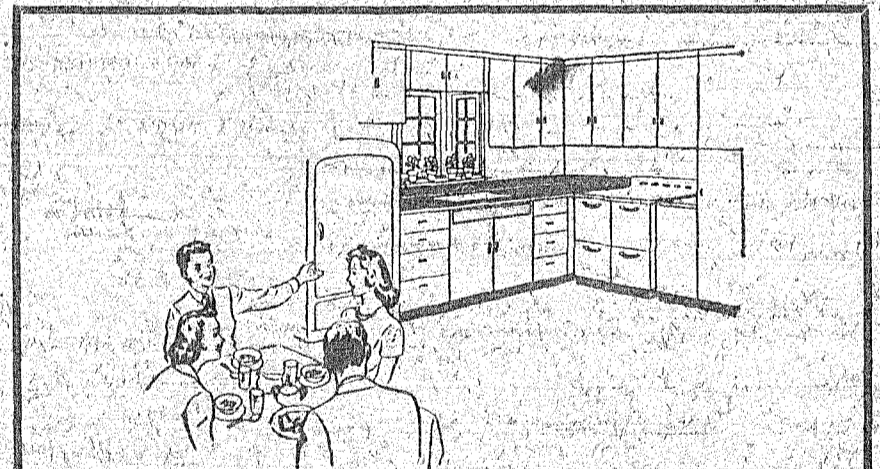

FRANK B. Knight in The Florence (Tex.) Post: "Take romance, for instance. Ever stop to watch the facial expression of a young couple? . . . The glow of pride on the face of a young maiden whose bow has just knocked over all the bottles on a carnival stand, or rung the bell of a strong man mallet exhibit can only be seen, not described."

BROTHER KNIGHT, you have brought to light in traditional fashion, another bit of food for thought. To few people realize the ecstasy of such pride. And it is well-founded. 'Tis hard to emerge victor. When I left home one summer to join a carnival, I doubled on the clarinet for a barker named Puss Doty. But my chief job was obscuring my little teen-age body behind a khaki tent where people paid a quarter to pitch three balls into a shallow barrel with a hole in it. They didn't know it, but the bottom of that keg was rawhide, and when the barker said the right word, I had to tighten the bottom of the barrel. Then the ball bounced out, the barker got the quarter, and waited for more players. Such training in my childhood was invaluable. It taught me coordination of muscle and mind—when the run during local police raids—when to listen for cues to loosen the rawhide and let a player win until the carnival man decided he had "caught" a sucker with this week's paycheck.

Papa found me the next week, and I returned to the drab life of eating regularly, building character and stopping next fall's ham hocks.

The Ol' Texan says one good thing about popular songs nowadays, is that they're not popular very long.

HERE ARE THE REASONS WHY
Ideal Step-Saving Kitchens
Are Growing in Popularity

- Made of fine, selected wood, IDEAL cabinets can be finished to suit your own taste. Wood also lends itself to re-decoration at any time.
- Can be arranged to fit any size or shape kitchen.
- Compact and streamlined with spacious cabinet, room, ample storage space.
- Doors and drawers operate smoothly, quietly without the clatter and vibration of substitute materials.
- Recessed toe space at bottom of base section units.
- Reasonable cost made possible by standard construction and mass production.

IDEAL KITCHENS ARE AVAILABLE AT
RETAIL BUILDING MATERIAL STORES

Man Who Made The Capitol Beautiful Will Be Honored

Constantino Brumidi, the virtually unknown artist whose paintings and frescoes have been viewed by millions in the United States Capitol.

Italian patriot, artist and lover of liberty—Brumidi devoted a lifetime to adorning the center stone of American democracy, only to die lonely and in poverty, forgotten by his adopted country, to which he came a refugee from European persecution, in 1852.

For 70 years his body has lain in an unmarked grave, lost to all but a few relatives until six years ago, when it was discovered by Myrtle Cheney Murdock, wife of Congressman John Murdock of Arizona.

Now Congress has voted to provide suitable recognition for the man whose great work will live as long as the Capitol stands. It has decided to erect a bronze and stone monument on Brumidi's grave in Glenwood Cemetery, in the nation's cap-

ital, and has arranged for its care and upkeep "in perpetuity."

Not Well Known

While Brumidi's name is known but to a few, his work is familiar to the countless thousands who have visited the Capitol.

His paintings and frescoes include Washington at Yorktown, which hangs in the chamber of the House of Representatives; Washington at Valley Forge, the Battle of Lexington, the Death of General Wooster, the Storming of Stony Point and the Boston Massacre.

Brumidi spent 25 years decorating the Capitol, from 1855 until his death in 1880. Probably his most exquisite work is to be found in the President's Room, just off the Senate Chamber, where he spent six years.

His greatest work was the decoration of the ceiling of the rotunda,

the great vaulted chamber underneath the dome. At the age of 60 he completed the task of painting 4,664 square feet of concave fresco, working 180 feet above the floor.

The giant figures making up the "Apotheosis of Washington" can be seen from below in all the brilliance of their color 85 years after he completed them, in 1865.

Last Great Work

At 72, an old man with snow-white hair and beard, he began his last great work in the Capitol he loved so well, the painting of the 15 scenes from American history for a frieze encircling the rotunda, 58 feet above the floor.

One day, a tired old man of 74, driven on only by his indomitable will, he slipped. His weary fingers grasped the scaffolding as he fell and there he hung by his fingers suspended in air until workmen reached him.

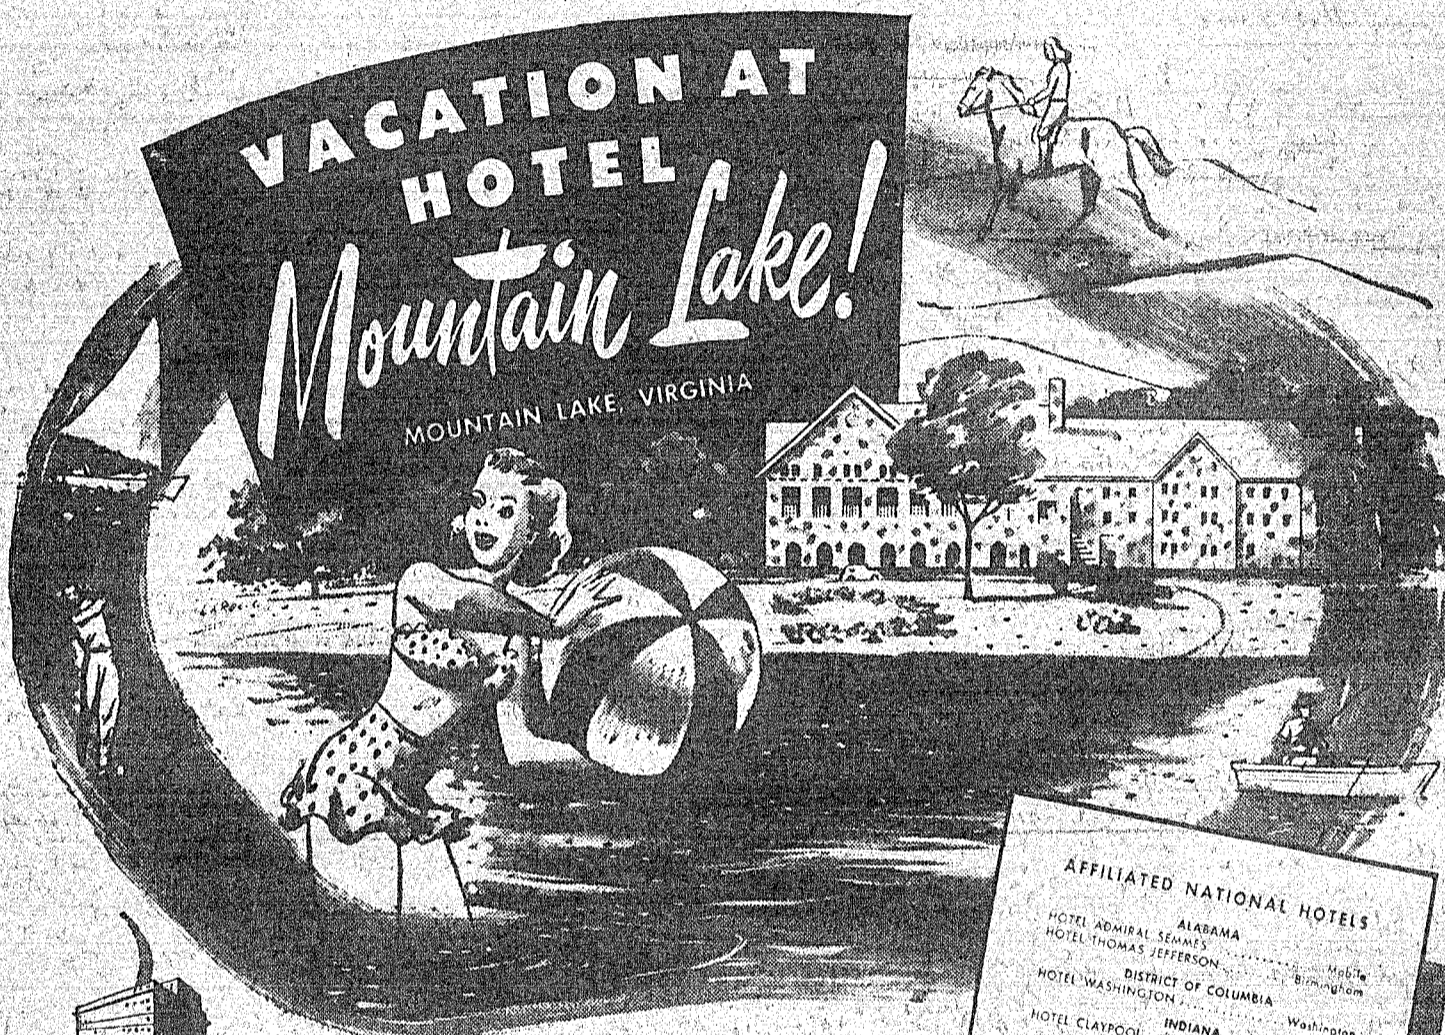

He never recovered from the shock, but died in his studio, Feb. 10, 1880, lonely and in poverty. A few friends buried him in an unmarked grave.

The Capitol guides point out to the thousands who each day visit the scene of his last great work the gap in the frieze which to this day has never been completed.

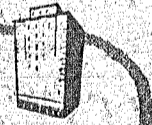

The recognition that Congress is now preparing to pay Brumidi, 70 years after his death, is due to the unselfish and untiring work of Mrs. Murdock, who spent almost 14 years in research in an effort to recreate a famous American figure.

It was Mrs. Murdock who induced her husband to introduce the bill to erect a monument on Brumidi's grave.

SPORTS

As the major league pennant races passed the halfway mark, the World Champion N. Y. Yankees found themselves in a dual battle: (1) to try to overhaul the leading Detroit Tigers; (2) to avoid being overtaken themselves by the Indians and Red Sox.

THOUGH NO baseball man had expected the Yanks to make a run-away of the race, most of them agree the club's plight can be traced to the comparative failure of three key operatives: Joe Page, Tommy Henrich and Joe DiMaggio. Ironically, this season each of these is getting the highest salary of his career. Henrich, who signed a \$45,000 contract, has been sidelined with an injured knee. His pinch-hit home runs have saved several games, but the fact remains that Tommy has appeared in fewer than half the Yankee games despite the efforts of trainer Gus Mauch (whose work in keeping the Yankees fit is told in the current Look).

PAGE, WHOSE brilliant 1949 achievements won him a \$35,000 contract, highest ever given to a relief pitcher, is no longer the clutch hurler who can be depended on to perfect slim leads. In 35 innings this season, Page has given 31 hits and walked as many batters as he has struck out.

IT MAY be odd to refer to a ball player who has hit 17 home runs and driven in 63 tallies as being in a slump, but Joe DiMaggio is a special case. DiMag has two standards to live up to: his own superb marks, set in 11 big league years, and his \$100,000 salary, highest ever paid to any Yankee and second in all baseball only to Ted Williams, reported \$125,000.

A .259 batting average, an inability to come through consistently in the clutch as he once did, an infinitesimal slowing up of super-reflexes—these are enough to make experts wonder if Joe is really passing his peak. Now 35, Joe recently was asked if he thought he was good for five more years. "That's too many," he said. "But I want to play as long as I can."

Balk Rule Cause It

The strict enforcement of the balk rule in baseball had Catcher Harry Eastwood, of the San Francisco Seals, guessing. His pitchers were violating the rule regularly. How to stop it was the question that bothered him.

Then one day a ripple of laughter went through the stands. Eastwood had come on the field with the word "Stop" printed upon his chest protector. Now every Seal pitcher comes to a full second halt at the end of each wind-up. Result: No more balks. Everyone is happy.

Fish Fighting Sport

Fish fighting has been the national sport of Siam for hundreds of years. Breeders of the 2 1/2-inch fighters (known as betta or paradise fish) give them exacting care—like that given pedigreed dogs or Thoroughbred horses in the United States. Big contests draw huge crowds and the Siamese bet large sums of money and even their wives or children on their favorites. The king reaps a handsome income from the sport. He licenses all promoters.

STARTED CAPONS

COST far less than turkey poults, are easier to raise, bring premium prices all year 'round and are preferred by many over turkeys. The demand for CAPONS exceeds the supply. When you're looking for greater profits in poultry—turn to CAPONS. We sell mail order only. Our chicks are blood tested—SURGICALLY CAPONIZED and taken thru the most tedious period for you. They grow large, fast and heavy. Information on growing and fattening CAPONS sent with each order. For further details and prices, write to:

Babe Ruth Made Less, But He Carried Home A Lot More

When the late Babe Ruth was at the peak of his baseball career in 1931 his salary was \$80,000 for the year and his "take home" pay was \$68,535.

Today, Ted Williams draws an estimated salary of \$125,000 annually as a baseball star for Boston, yet his net after taxes is only \$62,028.

"No matter how illiterate our baseball fans may be on the fundamental economics underlying the inflation that has already taken place, here are some dollars and cents facts about our own 'Reddy Williams' that can be clearly understood and which I believe they would like to know," an expert writes.

"Ted receives an estimated \$125,000 salary this year compared with Babe Ruth's top salary of \$80,000 in 1931. But Ted's net after taxes will be \$62,028 in 1950 as against \$68,535 for Ruth in 1931. Finally, Ted can buy only a little over half (57 per cent) of what Ruth could buy because of the decline in the purchasing power of the dollar during the past 20 years. To obtain the same buying power as Ruth, Ted would have to be paid no less than \$327,451.

"May all baseball fans, whether in the ball park or watching over their TV sets (paid for or bought on credit), ponder what future salaries will have to be to equal their own present dollar salaries in terms of what those dollars will buy."

Don't Fear Snakes Is Advice of The Experts

Millions of Americans will visit national and state parks, go on picnics in the woods or fish on streams and lakes this summer. Regardless of where they go, there is the likelihood that they will encounter snakes.

But naturalists will tell you:

Don't fear snakes.

They do insist that persons in the outdoors should understand and respect snakes. If they do, the chance of being bitten by a snake of some poisonous variety is almost nil.

In the first place, there are few poisonous snakes in this country.

Ones that possess deadly venom include members of the rattlesnake family, copperheads, water moccasins, and the coral snake.

There are dozens of kinds of non-poisonous snakes, however.

Any persons who spend much time in the outdoors, naturalists say, will do well to become familiar with the appearance of poisonous snakes they may encounter and which they will wish to avoid.

The principles of safety from poisonous snakes are simple.

Wear high leather boots when traveling in snake country. Be careful where you put your feet or hands, or where you sit or lie down, when in fields or woods.

Most snakes will get out of your sight with amazing speed if they are given the chance. They seem to know that man is their most deadly enemy.

If you do happen to get bitten by a poisonous snake, use a sharp knife to make incisions, to induce bleeding, at the points where the fangs entered the skin. Do not take alcoholic stimulants. And get to a doctor for proper treatment as quickly as possible.

If you travel or work in areas where there are many poisonous snakes, equip yourself with an anti-venom kit, which contains full and easily understood directions for its ready use.

It's On Record

It is on record that a man can:
Live without sleep for 115 hours.

Live without food 75 days.

Stay under water for 6 minutes, 29 seconds.

Dive below water to 500 feet.

Walk on his hands 16 miles per day for 55 days.

Have a family of 44 children.

The Tiger Staff Ace

One of major league baseball's grandest pitchers is Dizzy Trout, of the Detroit Americans, whose team currently is in the labor of a great battle for first place in the league. When this was written Diz had won four games and lost one, and his enthusiastic team-mates were playing great ball.

Millions of fans all over America, tired of seeing the New York Yankees take the pennant, are hoping the rejuvenated Tigers will come through this time. The race seems to be a triangular one among the Yankees, the Boston Red Sox, and the Tigers.
