## Ready To Lay Pipe

—Polaroid One-Minute Photo by The News

FRANK BUTCHER COMPANY of San Antonio is getting ready to start laying the 10-inch cast iron pipe from the Santa Anna Lakes to Lake Brownwood. The trenching machine above is cutting a ditch for the pipe to be put in. The ditch is being cut 40-inches deep. This machine will cut about 1-mile per day, but the crew is not able to lay that much pipe, so they are going to cut only as much as they can lay. It is estimated that about 1500 feet of pipe per day will be the maximum. A Mr. Gilliam is operating the machine and Porter Brannan is working on the opposite side of the machine.

The pipe will be covered with from 24 to 30 inches of dirt. Contract calls for the completion of the job by October 15, but it is hoped that it will be completed by the middle of September.

## Revival To Start Sunday At Liberty Baptist Church

Rev. Frank Gillham

A revival meeting will begin at the Liberty Baptist Church Sunday morning, August 13, at the Liberty Baptist Church, located on the Santa Anna-Bangs Highway. The meeting will continue through Sunday, August 20. Rev. Frank Gillham, student at Howard Payne College, will do the preaching. Eaf Day will be in charge of the song services.

Services will be held each night with a prayer service being held at 8:00 p. m. and the regular services starting at 8:15. No week-day morning services will be held. Sunday morning services will be at 11:00 a. m.

The general public is cordially invited to attend each service.

## 38,604 Feet Of Pipe Here For Water Line

The first of this week 38,604 feet of pipe for the water line from the Santa Anna lakes to Lake Brownwood had arrived, and more was expected before the end of the week.

The laying of the pipe is well underway, and hopes are good for the line to be completed by the middle of September.

Mr. and Mrs. Raymond Nabours of Batesville and Mr. and Mrs. Leonard Sutton and sons of Brownwood visited Mr. and Mrs. Mace Blanton on Thursday of last week.

## Mrs. Viola Hamiter Claimed By Death Last Friday Night

Mrs. Viola D. Hamiter, 85, of Santa Anna, died Friday at 10:15 p. m. in the local hospital, after a lengthy illness.

A native of Lee County, born November 1, 1864, Mrs. Hamiter had been a resident of the Santa Anna area for 45 years. Her late husband, Robert Lee Hamiter, died here in 1936.

Mrs. Hamiter was a member of the First Baptist Church, where funeral services were held Sunday at 3:00 p. m., with the Rev. Harry C. Wigger, pastor, and Rev. S. R. Smith, former pastor of Brownwood, officiating. Burial was in the Santa Anna Cemetery.

Survivors are two daughters, Mrs. Daisy McCoy, of Abilene, and Mrs. S. C. Carter, of Lamesa; and one son, Will Hamiter of Bangs.

## Schools To Open September 4th; Land Leased

The members of the Santa Anna Independent School Board met Tuesday night, August 8, and set Monday, September 4, as the opening day for the 1950-51 term of school. Other information concerning the school opening will be published at a later date.

The Board also accepted a bid from the F. D. Glass, Jr., Drilling Company, for a lease of the mineral rights on the property the Ward School is located on.

During the summer months a number of repairs, and improvements have been completed on the school grounds, with the major projects being the repairing and painting of the football field stadium. The field has also been re-sodded and will be one of the best fields in this district when school starts.

Improvements are also being made in the high school building. The interior is undergoing a complete re-decoration, and all the rooms are being painted.

## Cpl. Joe H. England Graduates From Cooks School

Cpl. Joe Hal England, son of Mr. and Mrs. George England of Santa Anna, recently completed an eight-week course for Mess Stewards at Food Service School, Fort Sam Houston, Texas. England is a member of Headquarters 142nd Infantry Division, Santa Anna, Texas, National Guard.

Daily practice in supervision of Army mess under guidance of a trained Food Service instructor is supplemented by fifteen hours a week in the classroom.

Principles of nutrition and correct cooking methods, care of equipment and administrative problems are demonstrated and discussed during classroom sessions.

Graduates of the course are qualified to direct the work of cooks and handle daily routine administration in an Army or Air Force Mess.

## Hospital Notes—

## VA Advises They Do Not Endorse Magazine Sales

Information has been received at the Veterans Administration Center in Waco that magazine salesmen in the area have claimed that their sales programs are endorsed by the Veterans Administration. According to reports, several veterans have made purchases on the strength of statements that the VA approves the sales program.

Doctor George T. McMahan, manager of the VA Center, advises that the VA does not sell magazine subscriptions. Nor does the VA endorse such salesmen and sales programs, or authorize its employees or organizations to engage in such activities for the VA.

Doctor McMahan therefore cautions veterans and others who may be approached by salesmen claiming any connection with the VA to be extremely careful before entering into any financial arrangements.

## Santa Anna Fire Department Saves Grain Elevator From Destruction Fri.

### 15 Men Called For Draft In Coleman & Runnels Counties

Eight young men in Runnels County and seven in Coleman County, probably were none too happy with last Thursday's mail. It brought them greetings from the local draft board.

Selected from a 1-A classification, potentate of 392 Coleman and Runnels County men, the 15 were to report August 8 for physicals at San Antonio.

Coleman Co. men called were: Thomas H. Young, and Lewis A. Perrie; Coleman: Gene T. Garrett, Burkett; Lester R. Brannan, Santa Anna; Earl Wesley Harding, Gouldbusk; Billy J. Pennington, Bangs; and Alvin L. Bostick, Rockwood.

Quick action on the part of the Santa Anna Volunteer Fire Department saved the Guthrie & Wise Grain Company elevator and over \$7,000 worth of maize from destruction Friday afternoon. It has not been definitely determined what caused the fire.

Only a short time before the fire broke out, one of the employees of the company had been in the top story to check on the operation of the motors there. No one was injured and damage was estimated to be approximately \$2,500.

Over 5 car loads of maize, valued at over \$7,000, was in the elevator when the fire broke out. Reports indicate that had the fire been allowed to burn five minutes longer, it would have been completely out of control and possibly would have been a complete loss.

Both Mr. Guthrie and Mr. Wise expressed sincere appreciation to all members of the Fire Department for their quick action. They said they wanted every member of the Department to know that they were grateful for the excellent manner in which they went about putting out the fire. They also expressed appreciation to citizens of the town who offered help in getting the elevator back in operation.

Necessary repairs were started immediately. The complete elevator had to be re-wired and a number of repairs had to be made to get the elevator back in operation. The workmen worked all night and by 7 a. m. Saturday the elevator was back in operation.

## A Advises Vets Of New Public Law

The manager of the Veterans Administration Center in Waco, Doctor George T. McMahan, has received rumors of interest in veterans planning to attend school terms next fall. The programs were prepared through the recent enactment of Public Law 610.

Veterans who wish to make their first change from one general field of study to another from law to engineering, for example, may do so simply by applying for a Supplemental Certificate of Eligibility from VA. The same holds true for those who completed or discontinued GI Bill training and now want to make a first change to a different general field.

Veterans who already have changed general fields of GI Bill study and now wish to change again, should apply at their VA regional office. If it's determined that the new course is in a different general field, they will be required to undergo advisement and guidance.

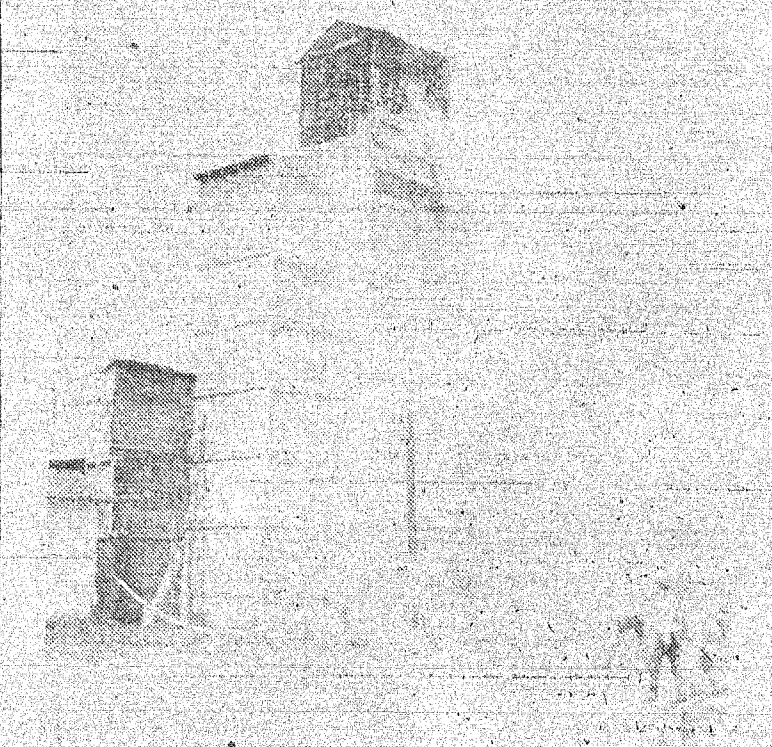

If VA doesn't come to a decision whether to approve or disapprove within 45 days after the veteran's application, the new course automatically is approved. The veteran, however, must have appeared at the appointed time for advisement and guidance, and he must have cooperated in receiving this service.

One final reminder to be considered in planning GI Bill training. July 25, 1951, is the cut-off date for starting GI Bill courses for all veterans discharged before July 25, 1947. Those few who were discharged after July 25, 1947, have four years from their discharge date in which to begin.

The liberal change-of-course procedures authorized by Public Law 610 won't apply after the deadline for starting.

Mr. and Mrs. Jack Bates spent last week-end visiting points of interest in San Antonio and Austin. They were accompanied by their son and daughter-in-law, Mr. and Mrs. Raymond Bates and grandson, Donald Ray, of Kermit, Texas.

## Grain Elevator Fire

—Polaroid One-Minute Photo by The News

FIRE OF UNDETERMINED ORIGIN, broke out in the Guthrie & Wise Grain Company elevator Friday afternoon. Damage was estimated at approximately \$2,500. The fire was confined to the upper part of the elevator and was quickly extinguished by members of the Santa Anna Volunteer Fire Department. In the picture can be seen water being concentrated on the part of the building where the fire was.

## Dr. George W. Cox Advises Sanitation For Polio Protection

Austin — In addition to general instructions for community sanitation, which are important in preventing poliomyelitis, Dr. Geo. W. Cox, State Health Officer, today issued an urgent warning to every individual in Texas to practice strict personal hygiene to protect his own health and that of those about him.

"Of course, cleanliness and personal hygiene are ordinarily taken for granted," Dr. Cox said, "but at this time with the incidence of polio having reached a total of 1395 cases, I would like to re-emphasize some personal sanitary measures which may help in preventing the spread of this crippling and often fatal disease."

The State Health Officer stressed the importance of scrupulous cleanliness of the person. Frequent bathing and immaculately clean clothing are vitally necessary.

Oral hygiene with thorough brushing of the teeth and the use of a mild antiseptic are recommended. The nasal passages should be kept clean and dental defects corrected immediately.

Sanitation and through cleanliness in the home are instinctive with the average housewife, but at this time their importance to health must be re-emphasized. Home sanitation includes those

taken-for-granted measures as washing the dishes in hot soapy water and rinsing them in hot clear water; keeping sinks, bathtubs and fixtures scoured clean and rinsed with a mild antiseptic solution; sunning and airing bed clothes, ridding the home of flies, rats and roaches which, since polio is believed to be a filth-borne disease, are suspected as being responsible for transmission.

"If good personal hygiene is combined with good community sanitation and hygiene, it is hard for any disease to get a foothold," Dr. Cox said. "With such a dread disease as poliomyelitis prevalent in the state, no precaution should be overlooked and no bars should be left down for its entrance."

The cost of constructing terraces is relatively small compared with the benefits received.

Nature controls erosion largely by supplying a vegetable covering over the ground.

The soil is a part of a farmer's capital; it should be treated as such.

Good farm management conserves moisture, stops soil washing.

The progressive man has nothing to regret and nothing to fear from the passing of time.

### Texas Schools Vastly Improved Over Last Few Years

Austin, Texas — Texas' already vastly improved public school system will be on an even higher level during the 1950-51 school year it was predicted here today.

More classroom facilities and more and better trained teachers will be available, it was pointed out by L. P. Sturgeon, state associate commissioner of education.

Under the new Gilmer-Aikin laws which went into effect last fall the teaching staff was increased by 2,000 and more than half of the school districts of the state added to their classroom facilities.

An additional 1,500 teachers will be hired for the next school year, Sturgeon said. A survey disclosed many more schools will increase their facilities, Sturgeon also said.

Increase in pay for teachers has added to their morale and made the profession far more attractive to young people, Sturgeon pointed out. More young people are preparing for careers as teachers, and these better trained instructors will be available in larger numbers next year to replace retiring instructors and those less adequately trained, according to Sturgeon.

School districts which meet the requirements of state law in order to receive additional financial aid from the state had a teacher for every twenty-five pupils in average daily attendance during the last school year, but many districts were forced to put pupils on a half-time basis.

"This will be partly alleviated during the 1950-51 school year by the construction of more classrooms and the availability of more teachers," Sturgeon said.

"This will add to the great benefits derived by a great many of our school children in the last term through their being in smaller classes, where they could get more personal attention.

"During the 1948-49 school year a survey conducted by the Texas State Teachers Association disclosed that more than half of the classrooms in the entire state were badly over-crowded.

"While the pay increases under the Gilmer-Aikin laws aver-

age only \$500 for teachers, their morale is at the highest in the history of Texas.

"I can see that in their interest in and their attendance of professional meetings I have attended throughout the entire state.

"Superintendents are almost unanimous in their reports of the willingness of teachers to accept additional assignments and to participate in extra-curricular activities.

"Teachers are satisfied and are proud of their profession. That means better education for our children in rooms presided over by well-trained instructors. It is only reasonable that happy, efficient teachers can do far more in imparting knowledge than dissatisfied, inefficient persons.

Increased enrollment in courses leading to degrees in education in the state's colleges also pointed to by Sturgeon as an in-

dication of the attractiveness of the teaching profession in Texas schools now, with its resulting benefits to the children.

### Ole Sarge—

In view of conserving shipping space and reducing the turnover of trained personnel in units, the Department of the Army has announced that, effective August

31st, foreign service tours will be extended by six months in all overseas commands.

This order does not affect the Far East Command which had previously been authorized to extend foreign service tours for such periods as may be necessary.

The only ones not affected by the new policy will be certain personnel assigned to military missions.

The Department of the Army stated that cases of undue hardship resulting from this policy, would be given consideration.

The Department of the Air Force has announced that it plans to enroll only those Reserve medical officers for which a specific need and vacancy exists.

The Air Force announcement explained that the medical recall program would be limited in order to prevent a drain upon the medical specialists required for civilian health needs.

During the month of July, the Army Ordnance Department successfully fired a test missile approximately 50 miles.

This test flight established no records, but was the first American-designed and built surface-to-surface supersonic missile to be remotely guided from the ground.

The purpose of this flight was to test several rocket components and systems which are under development and about which advance knowledge under flight

conditions is badly needed.

Two year college men who are interested in applying for Air Force cadet training should make application without delay in order to avoid long waiting periods before being called. Although waiting lists are small at present, indications point to crowded classes in the very near future. Applications for training have doubled in the last 30 days.

Accepted applicants will be given draft deferments for four months while waiting class vacancies.

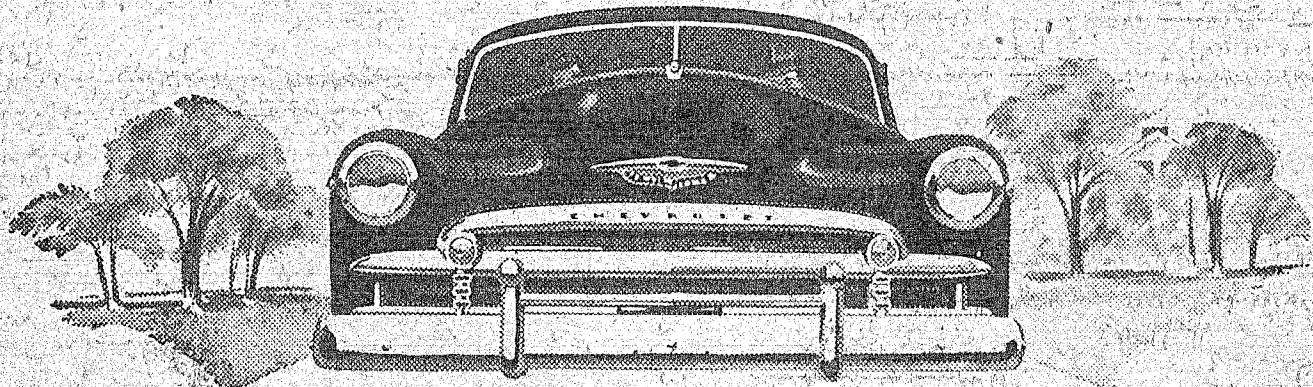

So long 'til next week  
Ole Sarge

He Loved Teaching

Lesson for August 13, 1950

WHAT WOULD you do if you had a million dollars? Several thousand school teachers were asked that question a few years ago. Seventy-five per cent of them gave the same answer: 'I'd resign.' They weren't real teachers, they were only hired help. The other twenty-five per cent were the real teachers. A great university teacher, Palmer of Harvard, wrote that he had the perfect job. Believe it or not, he said, 'Harvard actually pays me for doing what—if I could afford it—I would gladly pay Harvard to let me do.'

Dr. Foreman

No Finished Product

THE REAL thing about teaching is that you are dealing with people, young people, growing people. In every other line of business, whatever you turn out begins to depreciate almost as soon as it leaves the factory.

It doesn't take long for butter to get rancid, or bread stale. A cold-storage egg is a feeble imitation of a fresh one. A car that has changed hands once, even if it has run less than 1,000 miles, is already a "used" car on its way to the junk-pile.

But the products of the teacher's classroom are by no means "finished" products when they leave it, even if it is a finishing school. If the teacher's work has been done well, the product will go on improving for years, instead of running down.

Three Aims

PROFESSOR EZRA, of Babylon and Jerusalem, was one of history's most famous teachers. We note (Ezra 7:10) the same three aims in Ezra's life that you would expect to find in all good teachers.

First of all, he "prepared his heart" to do what he did. The "heart" is the Bible expression for character, for life as a whole. No one can be a truly good teacher who has a bad character.

Now Ezra prepared his heart to do three things. The first was to "teach the law of the Lord." What a teacher teaches may be as important as who his pupils are; and Ezra's "subject" was the law which God had given his people.

what we now call the Old Testament. Nowadays this is called research, but a simple word for it is just study. A lazy teacher is a poor one. A good teacher will spend more time studying than any of the pupils do—and will learn more, too. In fact, the best way to learn anything, including the Bible, is to try to teach it for a while.

Second, Ezra prepared his heart to do the law. The old snecr, "He who can, does; he who cannot, teaches," is true of poor teachers, not of the good ones. Particularly not true of Bible teachers. The aim of Bible teaching, from Moses' time till now, is always practical. "Truth is in order to goodness," as the Presbyterians say. One who has not tried out the Bible ideals in daily living will never do for a Bible teacher.

And third, Ezra set out to "teach in Israel." Your research scholar may or may not make a good teacher. The good teacher is not bored by teaching as some researchers are. He loves it. He is happiest at it.

Take Yourself, for Example

NOW LET US see how this comes out in your own home Sunday school. If yours is like most Sunday schools, the main trouble with it is that they can't find enough good teachers, enough people who really want to know about God's word themselves, who live and love to help others know it.

The Rev. R. M. Lewis of Texas has said in his essay, The Dividends of Teaching:

"When you begin to teach you will realize that at last you have found a purpose for your religion."

Teaching gives a motive, the highest motive, for all acts of religion and for all pursuit of knowledge—"For their sakes." Every Christian has the missionary obligation and is by virtue of his profession of faith, a missionary. "Go, teach all nations." Make your particular nation young. America and your special opportunity systematic work in the Church school. Once you believe that you must be a teacher because you are a Christian... you will have heard your life's call."

CITATION BY PUBLICATION THE STATE OF TEXAS COUNTY OF COLEMAN

In the Name and by the Authority of The State of Texas

To: Jose Delgado, Agent for The Blue Cross, whose residence is unknown, and the unknown owner or owners of the herein-after described property and their heirs and legal representatives, whose names and places of residence are unknown, and any and all other persons, including adverse claimants, owning, or having, or claiming any legal or equitable interest in or claim upon the herein-after described property delinquent to plaintiffs herein for taxes.

YOU ARE HEREBY NOTIFIED that suit has been brought and is now pending in the Honorable District Court, 35th Judicial District, Coleman County, Texas, wherein The State of Texas and County of Coleman are plaintiffs; The City of Coleman, Texas, and Coleman Ind. School District are impleaded party defendants; and C. E. Babbitt, Felix Galindo, Juan Rodriguez, and Jose Delgado, the latter being agent for The Blue Cross, are defendants, by the filing by said plaintiffs of a petition on the 27th day of April, 1950 and the file number of said suit being No. 7328-A and the nature of which is a suit to collect delinquent ad valorem taxes on the following described property, to-wit:

Lots 4 and 5, in Blk. 16, of the Santa Fe Add. to the town of Coleman, in Coleman Co., Texas, together with interest, penalties, costs, charges, and expenses of suit which have accrued and which may legally accrue thereon.

The amount of taxes due plaintiffs, exclusive of interest, penalties and costs is as follows: The State of Texas and County of Coleman, \$12.12.

The names of all taxing units which assess and collect taxes on said property not made party to this suit are: none.

Plaintiffs and all other taxing units who may set up their tax claims herein seek recovery of delinquent ad valorem taxes on the property hereinabove described, and in addition to the taxes all interest, penalties, and costs allowed by law thereon up to and including the day of judgment herein, and the establishment and foreclosure of liens, if any, securing the payment of same, as provided by law.

All parties to this suit, including plaintiffs and defendants,

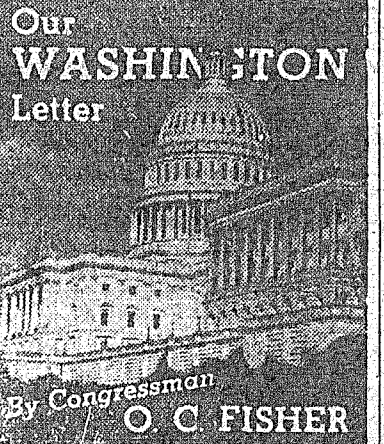

shall take notice that claims not only for any taxes which were delinquent on said property at the time this suit was filed but all taxes becoming delinquent thereon at any time thereafter up to the day of judgement, including all interest, penalties, and costs allowed by law thereon, may, upon request therefor, be recovered herein without further citation or notice to any parties herein, and all said parties shall take notice of and plead and answer to all claims and pleadings now on file and which may hereafter be filed in said cause by all other parties herein, and all of those taxing units above named who may intervene herein and set up their respective tax claims against said property.

You are hereby commanded to appear and defend such suit on the first Monday after the expiration of forty-two (42) days from and after the date of issuance hereof, the same being the 18th day of September, A. D. 1950 (which is the return day of such citation), before the honorable District Court of Coleman County, Texas, to be held at the courthouse thereof, then and there to show cause why judgement shall not be rendered for such taxes, penalties, interest, and costs, and condemning said property and ordering foreclosure of the constitutional and statutory tax liens thereon for taxes due the plaintiff and the taxing units parties hereto, and those who may intervene herein, together with all interest, penalties, and costs allowed by law up to and including the day of judgement herein, and all costs of this suit.

Issued and given under my hand and seal of said court in the City of Coleman, Coleman County, Texas, this 1st day of August, 1950.

T. H. Corder Clerk of the District Court Coleman County, Texas

(SEAL) 32-33c

TEXAS HELD ITS OWN in 1950 as sixth in population among the States, according to official returns from the census takers over the Nation. It was that way following the 1940 count. The State as a whole gained a total of 1,262,000, however. This increase may give Texas an additional congressman next year. At present we have 21. It is interesting to note the population trends over the State. As expected, the heavy gains were in the big city and coastal industrial areas at the expense of the rural sections. Harris Co. jumped from 528,961 to 301,169, to become the most densely populated county in the State. Next is Dallas County which upped its

count from 399,546 in 1940 to 612,318 this year. Bexar County now has 496,000 — a gain of 168,000.

IN CONGRESSIONAL DISTRICTS, the trend varied. Six of the 21 lost population in the 10 year span, mostly in East Texas. In our Congressional District, the Census gives us a net increase of 7,719, the total now being 266,144. Nine of our 27 counties gained population, the other 18 lost.

Several people have asked me how our district will fare in the event Texas gains another representative in the Congress. That will be determined by the State Legislature, whose duty it is to redistrict following the decennial census reports — where the total number of representatives is changed.

IT OFTEN HAPPENS that the State Legislatures hesitate to give any one county more than one congressman, regardless of its size except when big metropolitan centers are involved. If that should be the case in Texas and if Dallas, Harris and Bexar counties are allowed only one representative each, then outside of these three, the other districts would have an average of 303,562 people.

In that event, the 21st congressional district would fall short of the average by 37,418. The most a state legislature can do is to divide the districts about equal with some variations being inevitable. But if the legislature should equalize the population into districts — outside of Bexar, Harris and Dallas counties — and divide the counties on that basis among the 19 congressional districts, our district if it should remain intact would be entitled to add enough counties to bring us up to the state average, which would mean the addition of enough counties to total 37,418 people.

ON THE OTHER HAND, the district to the west — the El Paso district — which includes everything from the New Mexico border to the western boundary

of the 21st District, if it should be given the average would lose 50,326.

And, to the northwest, the Lubbock district which joins ours would stand to lose a total of 54,476 in order to bring its average down to state average outside the three big counties. But the Abilene district which joins us, having lost population, would be entitled to have its population increased by 78,221 to be average population-wise.

So, unless there should be a complete reshuffling of districts over the entire State, our district instead of losing should gain perhaps two or three additional counties when the redistricting is acted upon at Austin.

Mr. and Mrs. G. A. Wilson and daughter, Scherra, of Galveston, are visiting Mrs. W. T. Wheatley, Mrs. Wilson's grandmother.

Mr. and Mrs. Ira Hudler, of Monahans, visited last week in the home of Mrs. M. D. Eubank, and Mr. and Mrs. Jim Daniell, returning home Saturday. Mrs. Eubank went home with them for several days visit.

**Local Methodist Church News**  
Due to the fact that so many were away the first Sunday, our attendance was below average, however, we are glad that this has only happened twice since annual conference. It is hoped that all will be back next Sunday. "Victorious Faith" was the

subject for the morning hour and "How I Know I Am a Christian" was discussed at the evening service.  
Next Sunday being the second, a special invitation is extended to the boys and girls for the evening hour, at which time a special feature, a chalk-talk, is being planned for. It will be of interest to all age groups. Parents are invited to come and bring their children. If you have no children invite some child to come with you, who does not usually come.  
We want to be of any possible service, to all who need us. Hence feel free to call at any time.

## Engagement Announced

Earlene McClintock

### McCormick - Brown

Miss Norma Mae McCormick and Mr. James Thomas Brown were united in marriage at the home of Rev. E. H. Wylie Saturday evening at 8:00 p. m.

The young couple were accompanied by a number of their friends. Their home will be in Pioneer, between Cross Plains and Rising Star.

### Pierce Brooks Opens Runoff Campaign

Pierce Brooks, Dallas insurance executive who led a field of 11 opponents in the first primary, opened his runoff campaign for lieutenant governor with a charge that his opponent did nothing as a legislator to halt the runaway cost of state government.

"My opponent was a member of the Texas senate from 1941 to 1948 when the cost of our state government increased approximately 500 percent and he didn't or couldn't do anything about halting the runaway cost of state government. If he didn't or couldn't do anything about it then, what can the people expect him to do about it now?"

Brooks also charged that his opponent made no effort during his eight years as a senator to comply with the law providing for legislative redistricting after each federal census. The Dallas county candidate said he always has been a staunch advocate of redistricting.

Brooks hailed the result of the first primary which he lead, as convincing proof that the people want a lieutenant governor who is completely free from entangling alliances and political obligations and who won't be dominated by "a certain group of money hungry and power thirsty individuals who are seeking to control the office of lieutenant governor through the election of one of their key men."

Brooks said that "any man who goes into public office with the all-out support of any special group must pay for that help, one way or another, when and if he goes into office."

"My sole allegiance," Brooks said, "is to my God and the people of Texas."

### Albrus Little Training At Lackland AFB

Pvt. Albrus Little, 19, son of Mr. and Mrs. Albrus Little, Sr., of Santa Anna, has begun a course of indoctrination training at Lackland Air Force Base, "The Gateway to the Air Force," San

Antonio, Texas. Mr. and Mrs. E. E. McClintock of Santa Anna announce the engagement and approaching marriage of their daughter, Earlene, to Mr. Tom G. Scott, son of Mr. and Mrs. T. W. Scott, of Odessa, Texas.

Vows will be exchanged in the St. John's Methodist Church at Lubbock, Texas, Saturday, August 26, at 3:00 p. m.

### Ben Ramsey Praises Farm-To-Market Roads In Campaign

Dallas, Texas, August 3 — Texas \$78,000,000-a-year program of new highway construction, with emphasis on farm-to-market roads, was praised here today by Ben Ramsey of San Augustine, who is actively forwarding his runoff campaign for lieutenant governor.

"In every section of the state I've visited during my campaign, I have found farm-to-market roads completed or under construction," Ramsey said. "Many more such roads are

needed to further the development of our rural sections, and I pledge my fullest support to the members of the state highway commission who are seeking to continue this wise policy," he declared.

"It is also a great source of pride to me, as an economy-minded public servant who for many years in the Texas Legislature has helped to maintain the policies and prestige of our fine highway department, that this vast system of ours is being maintained at a minimum cost, in spite of a tremendous volume of traffic," Ramsey declared.

"This efficient maintenance by the engineering forces of the highway department thus allows the major portion of our state highway funds — some \$78,000,000 out of approximately \$100,000,000 expended annually on the Texas highway system — to be concentrated upon the construction of new highways, of which the greatest number are the badly needed farm-to-market roads.

### Accuracy Of S. S. Depends On Worker

Accuracy of social security records depends in large part on the worker himself, Ralph T. Fisher, manager of the Abilene office of the Social Security Administration, stated.

While employers are the ones who must make social security reports, workers who give their numbers from memory or from a slip of paper—or who promise to show their social security cards and don't—are responsible for most of the errors.

"Employers prefer to make correct reports," Fisher said, "but the employer does not have the same personal stake in the correctness of the record as does the worker. Benefits are based on what the record shows and workers who are careless or negligent about showing their cards to their employers are gambling with their own security and that of their families." For the convenience of persons

wishing to file retirement or death claims, or needing information about their social security accounts, Mr. Fisher will be at the Department of Public Welfare in Coleman at 1:00 p. m. on Tuesday, June 27. Anyone desiring any of the services of the Social Security Administration is invited to call at that time.

### CHEVROLET HOOD LOCK NOW AN OUTSIDE JOB

An improvement method of hood release has been incorporated in the 1950 Chevrolets. The lock is now concealed in the grille header bar within convenient reach of gas station attendants. The former remote control knob has been eliminated.

When our soils are gone, we, too, must go unless we find some way to feed on raw rock or its equivalent.

Legumes and grasses are two of nature's best tools for building and maintaining soil fertility.
