New Doctor To Arrive In Santa Anna Saturday

A new doctor for Santa Anna, Dr. W. P. Johnson, 58, of Fayetteville, Texas, will arrive here Saturday of this week to open a clinic. Dr. Johnson has been here and looked the situation over and seems to think he likes Santa Anna. In fact he has already purchased a home, and is moving his household furnishings here. He has his own office equipment and will locate in the building formerly occupied by the Santa Anna Jewelry Co., and later by Dr. John E. Green. Dr. Johnson was raised in Kentucky, but has been in Texas several years. His wife was raised near Rising Star, Texas, and for the past few years he has been located at Fayetteville, near Houston. He has purchased the Ford Barnes house, located on High School street, where Mr. and Mrs. Bill Adams are living at the present time.

He plans to have his office open early next week. He will open the office formerly occupied by the Santa Anna Jewelry Co., and will have his own reception room.

Dr. Green left Santa Anna early this week to go into the Armed Forces.

Mr. and Mrs. Tommy Starnes and children of Odessa, spent the week end in the home of her parents, Dr. and Mrs. L. O. Garrett. They carried their youngest daughter, Ruth Ann, home with them. She had been visiting the Garretts for about three weeks.

Mr. and Mrs. Oscar Barnett of Wanda Dixon. Grandparents are Mr. and Mrs. Hayes Dixon of Santa Anna and Mr. and Mrs. L. M. Barnett of Coleman.

Denny Densman Well After Polio Attack

Denny Densman

The First Christian Church of Santa Anna has donated \$35.00 to the March of Dimes fund in Santa Anna. This money was donated in honor of Denny Densman, who suffered an attack of polio during the summer, but now seems to be recovered from the dreaded disease. It seems to the editor of this newspaper that some other clubs and organizations should follow the example set by the First Christian Church.

NAMES OMITTED FROM HONOR ROLL LAST WEEK

Lucy Davis, a sophomore in the Santa Anna High School was intentionally omitted from the honor roll last week, and Clyde Windham, Jimmy Priest, Dwan Cozart, Barbara Harris, Kathryn Stiles and Carlene Mills names were left off the Eighth Grade honor roll.

Wilfred Ray Schultze's name was also omitted from the Freshman honor roll.

March of Dimes Auction Postponed

Due to the extremely cold weather we have been enjoying this week and the forecasts that it will continue through the remainder of the week, the March of Dimes Committee has decided that it would be better to postpone the Auction Sale for a week. The sale will be held Saturday, February 10, on the street between the bank and hotel in Santa Anna.

So far we have not been notified that anyone else has anything they would like to donate to the March of Dimes Auction. We have a registered Hereford calf, a quilt and a pair of boots.

The report has got out that the calf was donated by John Will Vance, but this report is not true. The calf is from the Vance herd but was donated by persons who do not want their names mentioned in connection with the calf. They just felt like they wanted to give to the March of Dimes and that this was their best means of doing so.

The drive is going very slow at the present time. It seems that very few seem to realize the value of the money donated to the March of Dimes. This money is needed to carry on the National Foundation of Infantile Paralysis and the local March of Dimes Fund.

Abilene Trio Charged In Local Burglary

Bonds of \$2,000 each have been set for three Abilene men charged in the burglary of a Goldsboro service station and the attempted burglary of the Parker Auto Supply last Wednesday night. The three men, J. T. Key, 23, E. J. Crews, 21, and Joseph A. Huddlestone, 19, all gave their home address as Abilene.

About 1:30 a.m., Thursday, Mace Blanton, local nightwatchman, saw the three men walk into town from the eastern outskirts and watched them until he saw they were going to attempt to break into the Parker Auto Supply. He immediately telephoned the Deputy Sheriff, Raymond Greaves, and then arrested Key and Crews before Greaves arrived. Greaves stated that after attempting for about 20 minutes to get Huddlestone to come out of Parker Auto Supply, he heard him going up stairs and in the dim light saw him. Greaves gave him one blast with his sawed-off shotgun in the legs. Huddlestone was not seriously injured, but was carried to the Coleman hospital, and he is expected to be released sometime this week.

The trio was riding in a 1937 Ford and had a flat in the east part of town. The fan belt also broke on the car, and they claimed they were trying to find a tire and fan belt. However the safe had been ransacked, and what cash was in the cash drawer had been removed.

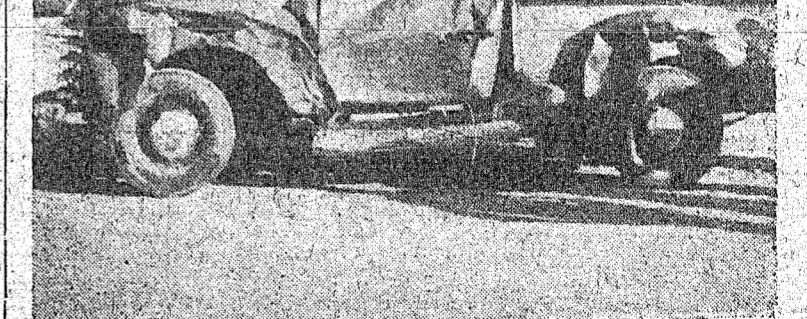

Key and Crews were lodged in the local jail and later moved to the Coleman jail. So far none of the men have made bond.

From the G. E. Bullard Service Station in Goldsboro the men had taken a number of foreign made knives, ear jack, candy, cigarettes and numerous other items. Separate charges were filed in each case.

Mr. and Mrs. W. E. Vandertord and Mrs. Bill Pritchard visited with their daughter and sister, Mrs. Rip Mayo, in Coleman Saturday.

Investigating officers said the car was damaged to the extent

of \$1,000. Another car wrecked in the accident was one driven by Patsy Rose Buckley of Sacramento, Cal. Mrs. Whitley's car was passing Miss Buckley's. Trickham H. D. Club Met On January 24th

Mrs. Bond Featherston told the Trickham H. D. Club when they met Jan. 24 at the club room what to do if Polio comes our way. First keep children with their own friends away from other people they have not been with. Try not to get over tired by work or hard play. Keep from getting chilled, keep clean and watch for early signs of sickness. Polio starts in different

ways with headache, sore throat, upset stomach, sore muscles, or fever, also may feel nervous, cross or dizzy. Often there is stiff neck or back.

Mrs. Rankin McIver told us you must act quickly. Call a doctor and do what he says. Ask for help if you need it. Your National Foundation Chapter is standing by to aid you.

Mrs. A. H. Dean told the facts about polio in 1950. Mrs. Lige Lancaster. Told what the qualifications of the County T. H. D. A. chairman are. 1. How she is elected. 2. Her term of office. 3. Her duties.

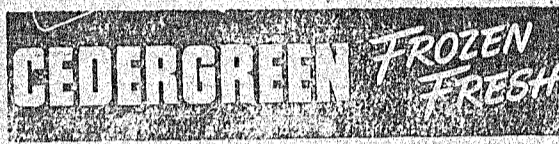

There were 10 members present and each one give a report on one good article read in a magazine and brought the magazine for exchange. Next meeting will be Feb. 14 at the club room. Each member to bring a white elephant for exchange.

"THE FRIENDLY BANK"

A wise man once said that you cannot build character by wishful thinking . . . you must use the hammer and forge . . . Figuratively speaking, that is correct . . . words are good when backed by deeds.

The Boy Scouts of America are doing something about building character . . . every Boy Scout Law is directed to that end . . . every Boy Scout activity has its place in a definite program of character building. That is why the Boy Scout movement should have the wholehearted support of every person in the world. And on this, the 41st Anniversary of the Boy Scouts of America, we want to assure you that you have our wholehearted support in all your activities.

Boy Scouts A Community Asset

February, a month of notable birthdays, sees the celebration of a "birthday" in which all Americans can properly join. Boy Scout Week, Feb. 6 to 12, reminds us that one of America's largest youth organizations has reached another milestone.

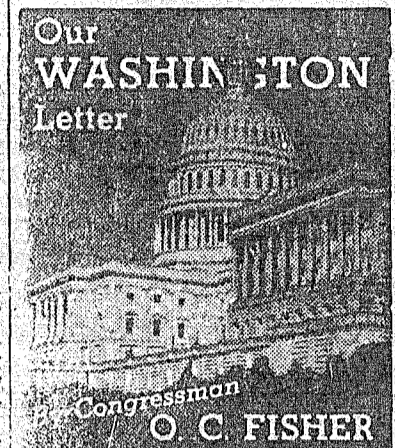

The Boy Scouts of America has reached its forty-first anniversary. Since Feb. 8, 1910, more than 17,750,000 American boys and men have been influenced by the Scout Oath and Law. They have benefitted by using their leisure-time energies in outdoor living and activities of cultural and practical values which lead boys to become dependable men.

Today over 2,750,000 boys and men are actively enrolled in over 75,000 units. Fortunate indeed are communities where Scouting flourishes. American adults of good character give generously of their time to give leadership. Others help by raising funds and are members of Local Boy Scout Councils which in turn provide training for leaders, camp facilities, worthwhile year-round activities, personal advancement

and opportunities for Scouts to render community service.

In celebration of this birthday, the Boy Scouts are engaged in a nationwide clothing collection to meet emergency needs abroad, are stepping up their training for Civil Defense and are promoting greater interest in conserving the nations natural resources.

May you have many more happy birthdays, Scouts!

OF PARTICULAR INTEREST to the farmers and ranchmen of Texas, as well as other states, is the negotiations now going on in Mexico City between Mex-

ican officials and the American State Department relative to a renewal of a labor agreement. The confab began on January 25 and is due to last for two or three weeks.

The treaty that has been in operation has been unsatisfactory. It has been bogged down in red tape and in many respects has worked an unfairness and hardship on the employers. As it has been, the employer has had to make a bond to deliver the laborers back at a given time, but the employees have been under no obligation to remain. This unilateral arrangement has been unfair and unjust to the ranchmen and farmers.

A House Agriculture sub-committee, headed by Rep. Bob Poage, of Waco, has been probing this subject and is observing the Mexico City proceedings in an advisory capacity. The Texas Farm Bureau Federation, the Sheep and Goat Raisers Assn., and the Cattle Raisers, have all urged an improved and more workable agreement.

Heading the State Department negotiations is Dick Ruebottom, of Brownwood. A native of Corsicana, Ruebottom is thoroughly acquainted with the practical problems of farmers and ranchmen. He will strive for the best agreement that can be obtained from the Mexican representatives.

Preceding the Mexico conference, a dozen Texas Farm Bureau men came to Washington to plug for a simplified, common sense treaty to replace the old one. Sam Allen of Lamesa, formerly of Christoval, took a leading part in the Washington talks. The Texans urged entry of agricultural workers upon work permits, then to be processed at recruiting stations on this side of the border. No unilateral bonds would be required to assure the return of the Mexican worker, and "wet-backs" would, when apprehended, be taken to recruiting stations for processing if they desired. These were among the points emphasized.

Incidentally, the Farm Bureau spokesmen also conferred with legislators about possible amendments to the Wage and Hour Act in order to allow itinerant Mexican cotton pickers to let their children work during the brief rush harvest season before re-

Power of God
Lesson for February 4, 1951

ONCE upon a time, miracles were one of the strongest arguments supporting Christianity. In our times, it is quite the reverse; miracles are for many Christians a major embarrassment, and for others a principal reason for not believing what Christians teach. There is no room in one column to debate this question. A very readable recent book on this line by Dr. Foreman Lewis, called "Miracles," may help to clear the reader's mind, showing that the common idea that miracles are impossible, is a mistaken idea.

Christ the Power of God
PAUL calls Jesus Christ "the power of God" (I Cor. 1:24). Whether you believe that Jesus could perform miracles or not, whether you find such a belief hard or easy, depends a good deal on what you think of Christ. If you think of him as a man much like yourself, and no more, then you have as hard a time believing that he could work miracles as in believing that you yourself could do so. But if you believe that in some way he was more than simply a man like yourself, but that God was in Christ (as Paul said), that in his mind was the wisdom of God and through him surged the power of God, you will not have much difficulty with the miracles.

But suppose you cannot start with the high faith in Christ as Son of God; at least you can start with historical facts which no one can reasonably doubt. One of these facts is that there lived a person named Jesus of Nazareth. Another fact is that it was believed about him, already in his lifetime, that he could do all sorts of astounding things—cure hopeless cripples, bring people back from the dead, stop a storm in its tracks, drive demons back to hell.

You will have to admit that this Jesus must have been an extraordinary character, to have such things believed of him, even if they were not true. Starting from that point, you may be led to look into this man's story further, and—like many others—may come out at last believing in Christ as the divine Lord.

Motive for Miracle
ONE THING the thoughtful reader will see in these miracles told of Jesus: they were not done to show off. Jesus himself did not brag about them, nor call attention to them, nor talk much about them. He saw people in trouble and he came to their help. It was as simple as that. He is not reported to have stopped all the storms in Galilee, but only one; and that one not to save himself nor even to save any one else from

death, but to save them from fear.

He sent the demons tumbling into the lake, not to create a wonder-tale nor to show how much stronger he was than demons, but he did it to help a poor wild madman back to sanity. He did not go around to funerals in Palestine bringing all the corpses back to life and cheating the undertakers for three years running. On the contrary, he went to Jairus's house only when asked.

There is a certain modesty about all these miracles; and there is love in each of them. The great difference between miracle-working power in the hands of Jesus and such power in the hands of ordinary men, is suggested in the remarkable tale by H. G. Wells, "The Man Who Could Work Miracles." It is the tale of a man who found to his dismay that his supernatural powers brought only disaster to the world.

The Most Personal Miracle

SOME YEARS ago there was a young man in Austria who had for a long time put up an unsuccessful struggle with himself. To put it shortly, just had him in its grip. He had about given himself up as a bad job, when he made the acquaintance of two young priests.

He asked himself: What do these men have that I do not have? And he discovered the answer: Christ. That was how Baron von Hugel, one of the great minds of our century, became a Christian.

He discovered that Christ, now can work a miracle in a man; and one miracle, experienced in one's own life, can be of more value than a hundred miracles recorded on paper.

Dimes Fund Aids Hard Luck Texan

AUSTIN, Feb. 2 — Richard T. Churchill, native of Three Rivers, Texas, has been accustomed to working his own way out of life's cruel crises. But he needed, and got, some help recently through the Texas March of Dimes.

Churchill, a University of Texas law school student, was cut down by bullets in Germany late in 1944. He rejoined his outfit, the 104th (Timberwolf) Division, six weeks later. The dark-haired, handsome young lieutenant, who was a platoon leader, was dropped from combat for good within two weeks. This time it was a land mine.

They picked shrapnel out piece at a time over the agonizing months. After three years, Lieutenant Churchill was medically discharged. He returned to Texas, began shaping his pre-law program and got married. By the time little Michael arrived two years later, Churchill's dream of good health, a home, family and a career brightened.

Then last fall Michael got polio. Twelve days later, Mrs. Churchill joined her son in the polio ward maintained in Brackenridge Hospital by the National Foundation for Infantile Paralysis thru March of Dimes funds.

Churchill tried to carry on at home and at school. But his heart wasn't in it. "Our home was cheerless," he explained. "I kept going to classes, but nothing happened. I just sat there."

For the holidays both Michael and his mother returned home, the latter in a wheel chair. Churchill's training gained from self treatment after his own wounds enabled him to apply physical therapy at home.

In overcoming this family tragedy, spirit was a great factor—the spirit of the parents and little Mike, too. But Churchill credits March of Dimes financed treatment for expediting their recovery. And somehow, as he catches up on back studies and shares the physical therapy routine and household duties, he expects to get out and help actively with the current March of Dimes to prove his own gratitude.

Nothing Better Than Good Food, Says Ohio Man

If a man isn't able to eat the foods he likes he's in mighty sorry shape—imagine going through life without being able to enjoy a fine big platter of bacon and eggs. That is the way

Joseph N. Damillot, 3414 E. 5th Street, Dayton, Ohio, used to be, but since he's been taking HADACOL, he says he feels just fine and is able to enjoy lots and lots of fine foods. Mr. Damillot found that taking HADACOL helped his system overcome a deficiency of Vitamins B₁, B₂, Nicotin and Iron.

Here is Mr. Damillot's statement: "My first bottle of HADACOL convinced me that HADACOL was what I needed for the gas on my stomach at night. I could not keep food on my stomach, but after the first bottle I was going great. Now I eat bacon and eggs, and other foods that never would stay with me. I also can sleep well at night. Thanks to HADACOL, I will never be without it, and can recommend it to all who suffer with the above ailments that I had. I know, because I have suffered for quite some time."

Local Methodist Church News

The coming of the unusually cold weather resulted in a noticeable decrease in attendance the fourth Sunday. "Living Praise" was the subject discussed at the morning hour.

Although the effect of the weather was even more evident at the evening hour, the men, who were sponsoring the attendance, were well represented. Two beautiful harmonica solos were rendered by Mr. Green. The pastor spoke on "The Man Everyone Admires."

Miss Elsie Lee Harper, with

others from the W. S. C. S. was hostess to the Federated Society Monday afternoon. A brief business meeting followed by a timely devotional by Mrs. Crews was held. During the social hour a Bible Quiz was greatly enjoyed.

Our women are enjoying their new study, the meeting of this week being postponed until Friday morning. Unless otherwise is Commitment Day, a time when every Methodist has an opportunity to take a stand for total abstinence.

Rev. H. B. Loyd, our District announced the sessions are held on Tuesday mornings at 9:45.

Let us not forget that Sunday Superintendent, is to preach for us Sunday evening. The atten-

dance is being sponsored by the Intermediates, who are to present a candle-lighting feature.

Since next week is Minister's Week at S. M. U. Dallas, the Men's Breakfast and the meeting of the Board of Education are being called off.

It is hoped that the weather is more favorable by the first Sunday, and that the attendance will again be normal. Visitors are always welcome.

It seems to us that the average person of today isn't quite so average as he used to be.

The World Day Of Prayer

FRIDAY, FEBRUARY 9, 1951
 Methodist Church — 2:00 P. M.
 THEME: "Perfect love casts out fear"—1 John 4:18.

MEDITATION
 A Prayer for the women of the world written by German Christian women.

(Please pray this prayer in silence upon entering the church). Lord Jesus Christ, we women and mothers come to Thee and implore Thee:
GIVE US PEACE

Give us peace in our hearts. Help us to change our thoughts of strife and hate into words and deeds of love. Make us Thy messengers for our children, and for all with whom we live. Let our homes be centers of peace in the confusion of this warring world.

Our hearts are beset with fears; therefore we implore Thee, O Lord, strengthen us with the courage that comes only through faith in Thee. Guide the thoughts of the nations; and of all those who govern them, toward peace. Transform the anguish and grief that wars have brought upon us into quietness and peace. Comfort the distressed. Grant help to the forsaken. Be Thou the father to the orphan and a shield to the widow. Awaken in us the love that helps the poor and feeds the hungry.

Strengthen all women whom Thou hast called into the special ministry of Thy love and Thy peace. Comfort them when weary and disconsolate. Supply their daily needs. Grant them love, patience, and hearts full of courage. Let their words and their works be blessed.

Thou who hast promised to comfort as a mother comforts, help us to do the work Thou hast entrusted to us in this world. Amen.

Echoes From The Alamo City

and singing equalled or eclipsed anything I had ever heard.

They gave the same type of program — They give in the hospitals and is quite spiritual. It is their custom when visiting a hospital to see and talk to each patient — if possible. The speaker of the evening told many interesting incidents.

The speaker said he is told that in many cases, mental and physical, patients are able to be dismissed and go to their homes, but their families don't want them. Some of these patients go for months without a letter or visit from any one they know. It is astounding.

Okra To Furnish A Substitute For Blood Plasma

The papers announce that a Marquette University research team have been able to make from okra "a cheap and plentiful substitute for life-giving blood plasma." It is further stated, the new material has all the advantages of blood plasma, and none of its disadvantages.

It is claimed this plasma substitute can be easily obtained in powder form, and less than an ounce of the powder makes up the equivalent of a quart of human plasma, when a salt solution is added.

I have always been interested in scientific advance, especially in the field of chemistry, and this announcement of making a plasma substitute from okra is the

most interesting development I have read of in a long time.

Maybe within a few years we will be seeing throughout the South, fields of okra being cultivated for this new purpose — since okra will grow anywhere that cotton does.

The Drouth Continues

The worst drouth this area has known in several decades continues with a likelihood that the city may have to place some restrictions on the use of water,

unless heavy rains fall soon. I hope Santa Anna and Coleman County, may soon be blessed with an abundance of rain.

Katy, Joan and Susan Wristen spent the week end in Abilene, visiting their sister and aunt, Mrs. Jack Sherwood and Cynthia.

Mr. and Mrs. Don H. Janes of Waco, spent the week end with his sister, Mrs. Bill J. Adams and family.
