SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY, JUNE 29, 1951

NUMBER 26

PICTURED ABOVE IS THE ARCHITECT'S sketch of the proposed new Courthouse for Coleman County. The new courthouse will be a remodeling of the old building, with wings added on each side and the old rock will be re-faced with new, modern building materials.

The proposed plan was accepted by a large group of county citizens at the courthouse last Thursday morning.

Dedication Service Held At Christian Church Sunday

On Sunday morning, June 24th a dedication service was held at the First Christian Church in memory of Mr. and Mrs. W. Edd Baxter. Mrs. Dorothy Baxter Thomson of Dallas presented to the church a beautiful Ivers and Ponds Console piano as a gift in the memory of her parents, Mr. and Mrs. Baxter.

The Rev. E. H. Wylie, pastor, expressed appreciation on behalf of the church. The dedication was held in the morning when the robbery occurred, Ann Bailey.

Miss Glenna Green, as pianist and Mrs. Ronny Bates, as soloist both of Brownwood, presented a lovely recital replacing the regular Sunday morning service.

Editor & Family Enjoys Short Trip

Your editor and family left Santa Anna shortly after noon last Tuesday and spent the rest of the week in the piney woods of East Texas, visiting in Nederland, with Mr. and Mrs. W. J. Cole and family, a brother of Mrs. Gregg, on the first leg of their journey, and then traveling to Joquin, Texas, for a short visit with Mrs. Gregg's father, Mr. Clyde Cole and Mrs. Cole and other relatives.

It seems that a lot of the East Texas country is about as dry as we were here before the recent rains came. However, we saw a lot of good crops in the area of Temple and on south through Herne and Bryan. It seems that cotton and corn are the principal crops through most of this area.

Your editor has a number of friends in the East Texas country we traveled through, but being pressed for time, we did not take time to visit with any of them. We did wonder what anyone would want to leave the nice cool climates of West Texas for, and go to some of the places we visited in and went through though. And if there are any red-bugs left on the banks of the Sabine River, we wonder where they were, as the entire family brought back so many of them, that we do not see how there were any left, however, all the fish that were in the river while we were there are still there.

We all had a very nice trip and again want to express our appreciation to our readers, and advertisers and correspondents for your cooperation in giving us a few days vacation.

You can't carve anything out of rotten wood.

Transfers of pupils, from one school district to another must be made during July, D. E. Lovelless, County School Superintendent, reminded. Parents or guardians may obtain transfer blanks, and file applications at his office in Coleman, he said.

Explaining the transfer of pupils, Lovelless said, "Scholastics of each district in the county wishing to attend a school other than their home district school must file a transfer application during July". That does not include, however, pupils enumerated last March in the following "dormant" school districts as a blanket transfer of all has been executed by an act of consolidation as required in Article VIII of the Minimum Foundation School Law: Loss Creek, Shields, Cleveland, Liberty, and Whon.

The County Superintendent urges all pupils above the grades to be taught in Rockwood, Cross Roads, Buffalo, and Mukewater districts to transfer during the early part of July. Rockwood has been classed to teach six grades, Buffalo to teach eight grades, and Mukewater to teach six grades during the 1951-52 term of school.

Lovelless said it will not be necessary for the pupils of the Trickham School District to file individual transfers since all pupils can be contracted to Santa Anna by the local school board. However, any pupil of the Trickham wishing to attend a school other than Santa Anna must file individual transfer applications.

The Cow That Can't "Run Dry"

Sandy Johnson showed me his Jersey cows last week. It was a warm day and they were all under the trees near a watering trough.

And darned if one cow wasn't nipping water into the trough! It's a fact—she'd raise the pump handle with her nose, and use her throat to push it down again.

"That's Mabel," Sandy explained as she moved away. "Sometimes they drink that trough dry, and she's learned how to fill it again. But she doesn't know her own strength—turns the place into a swamp if we don't watch her."

From where I sit, Mabel isn't the only one who sometimes doesn't know where to stop. For instance, people often carry personal opinions too far—like the person who wants everyone to accept his choice of political parties, or ball-players . . . or beverages. I prefer a glass of beer with my meals. I know that a lot of other people prefer milk. But nobody ought to insist on "herding" others around to his way of thinking.

You Are Important
 Lesson for July 1, 1951

YOU are important! Whoever you are, wherever you live, what ever you do, you are important to others, to yourself and to God. You are the one and only "you"; you will ever be you have but one life to live, one destiny to fulfill, one soul to save.

Dr. Foreman

The Sunday schools of America are going to put in the rest of the summer studying Christian teachings about human relationships. This is the basic principle which underlies the teaching of the Bible. It is the foundation of the Christian religion. It is the key to the understanding of the Bible. It is the key to the understanding of the Christian religion. It is the key to the understanding of the Bible. It is the key to the understanding of the Christian religion.

In The Image of God
 HOW HAS GOD MADE YOU? The first principle of the Christian religion is that man was made in the image of God. In spite of man's sinfulness, there is still some trace of the image of God. John Calvin, as is well known, was far from optimistic about the nature of man; but even Calvin wrote that the only good reason why we should love our enemies and do good to the undeserving, is that even in the worst of men there is still the image of God, so that what we do for any man we are really doing for the God whose image is in him.

Every man is in some sense a fresh creation. Widely used, child's catechism asks the question: Who made you? And the answer is, God made me and all things. Every one has the right to give that answer to that question.

Bought With Blood
 ANOTHER reason why we believe that every individual is important is summed up in what St. Peter said (1 Peter 1:18): We have been redeemed—that is, ransomed, bought back—with what is more precious than jewels or gold, the "precious blood of Christ."

Does this mean "only those who are now Christians"? Surely not. You have a right to say to any man, anywhere: Christ died for you. If you cannot say that, then you are reduced to saying, Christ died for a limited number of people, and for anything I know to the contrary, you may be one of them.

That is a puny sort of gospel. If there is one thing which every evangelical church teaches with universal enthusiasm, it is that the gospel is offered freely to all. If there is one verse in the New Testament that sums up the gospel it is John 3:16: God

So loved the world... that whosoever believeth... That is no light word. And no one who takes it seriously can look with scorn on any thing that Jesus has warned us against, even a child. Isaac Watts once let a non-Christian idea get into one of his hymns— for such a worm as I! That is not a Scriptural idea. Christ did not die for worms, he died for men.

If So, Then What?
 MOST Christians do not need even as much argument as this to make them believe in the worth of the individual; they are sufficiently convinced by the attitude of Jesus himself. Nobody could think seriously about Jesus' treatment of children, or his parables about the lost sheep and the lost son, without coming to the same conclusion.

The key-question always is: What is this action, this attitude, this plan, this arrangement, this institution, this system,—what is this doing to persons?

Persons are more important than anything else in the world. This by no means goes without saying. For the world of our time is riddled and raddled with other and contrary ideas: as for instance that man is only an animal, or that he is simply the highest of the animals, or that a man's value comes from his family, or his race, or his bank account.

Against all these mistaken views the Christian must stand, firmly knowing that he, no more than others but no less, is made in God's image and an object of God's love; and so in himself, small though his place may be, not only has a value that can never be described in dollars, but is worth more than the human race can ever own.

283 Polio Cases Reported In Texas

Austin. — During the first five and one-half months of this year 283 cases of poliomyelitis, polio for short, have been reported to the Texas State Department of Health. Dr. Geo. W. Cox, State Health Officer, has issued the following suggestions concerning the disease and its control.

All the methods of transmitting the disease may not be known, however, sufficient information is at hand to demand certain precautions and these include personal hygiene and campaigns for sanitation im-

provements. Stringent efforts should be made to eliminate house-flies, mosquitoes, and rodents and to destroy their breeding places.

Every effort should be made to institute approved garbage collection systems, and secure safe water supplies. Where adequate municipal sewage disposal systems are not in operation, it is necessary to install and maintain sanitary septic tanks and outdoor privies.

All raw foods and vegetables should be washed thoroughly before use and protected from filth and insects. All food handling establishments should adhere strictly to the State law concerning the sterilization of dishes and utensils. Those restaurants with insufficient personnel to maintain approved sanitation, should close one or two hours a day so that employees can assist in maintaining cleanliness and high sanitation standards.

Over-exertion in children should be avoided. Children should not visit homes where there is illness. Early symptoms of infantile paralysis are headache, fever, vomiting, drowsiness, followed by stiffness in the neck and back. When suspicious symptoms appear, a physician should be called immediately.

Singing increases the blood pressure, says a southern doctor but he neglected to say whose.

A report is being circulated that a 60-year old man has a new tooth but it may be false.

One reason why every woman tells her troubles to her husband is because they are him.

It's a sign of prosperity when men's pants bag at the pockets instead of the knees.

Poor eyesight won't keep you out of the army nowadays. They just put you up front where you can see better.

Price Daniel Receives First Copy Texas Press Publication Laws Book

Texas' Attorney General Price Daniel has a big job and a big family.

In spite of that, during the past two years he has found time to compile and edit the first complete book on Texas Publication Laws, a work long needed by Texas newspapers, public officials and newspaper lawyers.

The first copy of the new book, published by the Texas Press Association, was presented to Price Daniel by his four children on Father's Day.

In addition to his distinguished career as a country lawyer and then as the aggressive attorney general of his native state, Price Daniel is co-publisher of his hometown newspaper, the Liberty Indicator. His newspaper partnership with Jake Smyth and John Manthey also includes the Anahuac Progress at Anahuac, Texas.

Daniel is the son of a weekly newspaper editor. It was in the high schools of Fort Worth at the age of 15 years that Daniel first published his own newspaper, the Fort Worth High School Student. He also worked as a cub reporter for the Fort Worth Star-Telegram, and then for the Waco News Tri-

bune while attending Baylor University. At Baylor, Daniel edited the Daily Lariat and the college annual.

"I paid my way through law school by working in the newspaper business," Daniel has often said. He is an active member of Sigma Delta Chi, professional journalism fraternity, as well as his many legal associations.

From the standpoint of a lawyer and a newspaper man, Daniel was well equipped to write the book which contains all newspaper and public notice law in the state. The Texas Press Association is making it available to newspapermen, lawyers, public officials, and others at actual cost of publication. "It is a public service project made possible by the work of our attorney general," Brad Smith of Weslaco, president of the Texas Press Association said.

The only thing which rates higher attention than the law and the newspaper with Price Daniel is his attractive and devoted family. His wife, the former Jean Houston Baldwin of Houston, is a great-granddaughter of General Sam Houston. The four children are Price Jr., 10, Jeanie, 9, Hous-

ton, 5, and John, 4. They now live in Austin in a rambling house on three lots covered with oak trees—the nearest thing they could get to the open spaces of their permanent home in Liberty.

In his first five years as Texas' Attorney General, Daniel has gained distinction for his fight against federal seizure of the tidelands from the Texas public school fund. He insists that Texas will win in Congress if Texans keep on fighting and refusing to compromise or surrender. He has been outspoken in his belief that federal officials are violating the Texas Annexation Agreement in attempting to take these lands.

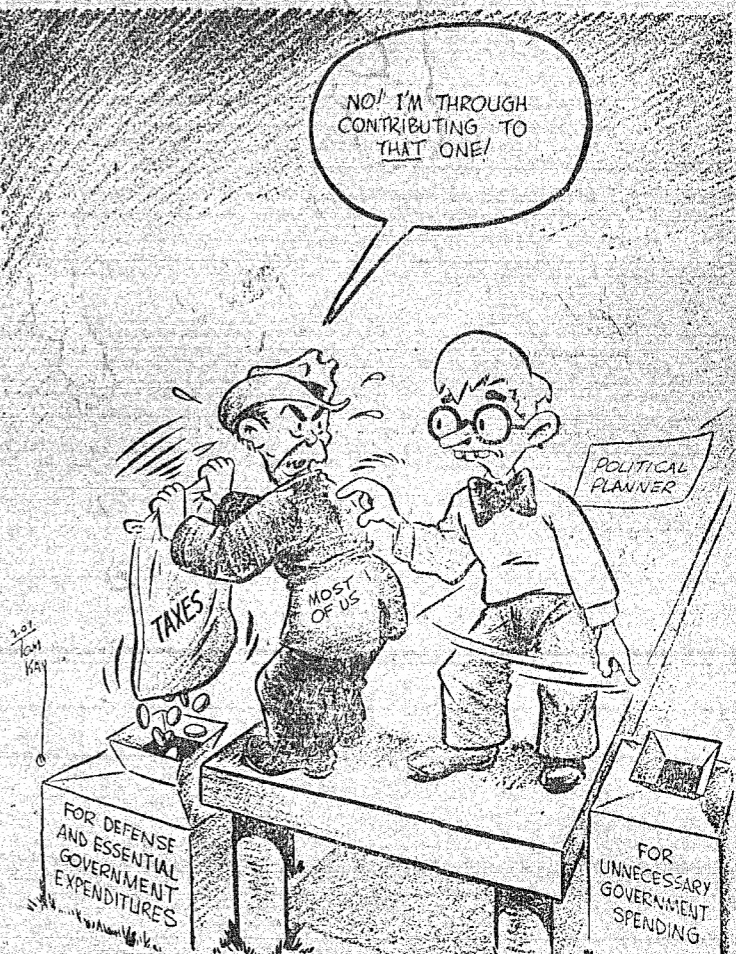

Daniel has been equally persistent against other federal encroachments upon the powers and property of the states and of individual citizens. Also, he has been leading the state's fight against organized crime, vowing that Texas will soon lead the nation in its clean-up of syndicated gambling and warning outside hoodlums and racketeers to stay away from Texas.

Daniel is a veteran of World War II, having retired from the office of Speaker of the Texas House of Representatives to enter the service as a private. After three years, the last few months of which were spent in General Douglas MacArthur's occupation of Japan, he was discharged as a captain.

That he is a hard worker in his job as "the people's lawyer" is evidenced by a record of 4832 lawsuits and 2498 official opinions disposed of by his administration since January 1, 1947.

Babson Discusses Prices

By ROBERT W. BABSON

(Editor's note. The following article is furnished this office by the Publishers Financial Bureau, Inc., and we feel that it is of primary interest to all readers.)

New York City. — What is the outlook for prices of foods, clothing and rent for the balance of this year? The scare buying is over. Installment sales are in the decline. Does this mean that the prices of all the things you buy will tumble?

GOVERNMENT PRICE FIXING

The Federal attempts to lower prices is largely a political gesture. Very few high-quality goods will sell for less for some time. The only way prices will now be lowered is by reducing quality or forcing unemployment. As long as full employment exists, prices will continue to depend — not on Washington rulings — but on supply and demand. If American families go back to having a good beef roast only on Sunday, then the price of beef will decline. If, on the other hand they decide to have a roast twice a week, then the price will remain high.

Here in New York City is the great central market for men's and women's clothing. Upon inquires today I learn that the prices which you see in windows and advertisements may be kept down, but the quality will not be good. If you want good-quality suits or dresses you must pay more. This does not mean that the manufacturer of the brand you have always bought has marked up his goods, but that his old best-quality goods are no longer available. Hence, to get good quality you must buy a brand which has always cost more. This applies to almost everything — clothing, furniture and canned goods.

WHAT ABOUT WAGES?

The "take home" wages are determined by supply and demand. Labor Unions can make manufacturers pay more wages, but they cannot make the public buy more merchandise. The bureaucrats at Washington can get a "fair" hourly wage, but they cannot assure work to the Union members. The "take home" pay is the product of the hourly wage multiplied by the number of hours worked. I believe this will hold for some time; but it must decline before prices of food, clothing and shelter will tumble.

Yet, we must remember that only 25% of our workers are now unionized. The great mass are still free to work where they wish, as they wish and for what they wish. These are the true Americans. In my judgement, These will supply the foremen, managers and future employers of our great growing country. If you always want to work for someone else, then join a Union.

If, however, you want to be a free man and climb to the top of some business, don't be tied to Union rules.

DOLLARS ARE WORTH LESS

Another reason why the Government cannot now reduce prices is because the dollar will be worth less next year. Just now President Truman is balancing the nation's budget, but he can't do this next year. He must print money or bonds to help pay for the military expenditures. Paper dollars are little different from paper dolls or any other commodity. As the supply increases above normal, the price goes down. Government bonds have already dropped in price; dollar bills will tumble again soon.

Many readers of my column send me charts and figures showing how prices have temporarily been controlled in the past, but they forget we are now living in an entirely new economic age. During his administration, President Roosevelt destroyed the Gold Basis for our dollar bills. This Gold Basis prevented prices from going too high. Now the only thing that can prevent prices, wages, real estate, etc., from staying up is either "a reduction in the supply of printing press money," or a business bust. Surely the price of gold will again be marked up.

SHALL YOU BUY NOW?

Don't buy now for hoarding. Prices will not skyrocket. There will continue to be enough necessary goods. On the other hand, don't wait for lower prices on goods you really need. Buy naturally; save naturally; and live naturally. Be neither a hoarder nor a speculator; be neither a scrapper nor a waster; be a God-fearing, sensible citizen and insist upon quality even if you must buy less.

Mr. and Mrs. Floyd Cornett are the proud parents of a baby boy, born June 16. The young man weighing 11 pounds and 2 oz., was named Douglas Gene. Mrs. Cornett is the mother of 9 children, 7 of whom are living.

Mr. and Mrs. Tommy Scott of Lubbock spent the week end with her parents, Mr. and Mrs. E. E. McClintock.

Mrs. Gail Russell and baby daughter are spending two weeks with her parents, Mr. and Mrs. E. E. McClintock, while her husband is at Great Lakes Training Station.

Mr. and Mrs. Roy Billrey went to Spur last week for a stay of

several weeks with their son-in-law and daughter, Mr. and Mrs. Ernest McKinzie, having been notified of the illness of Mrs. McKinzie.

Mr. and Mrs. Harold Hellem of Toledo, Ohio, visited Monday in the Earl Irick home. Mrs. Hellem is a cousin of Mr. Irick, and they had not seen each other in approximately 30 years.

Joyce McClintock, K. G. Leffingwell Wed Recently

Miss Joyce McClintock became the bride of Kenneth G. Leffingwell Sunday afternoon at 3 o'clock in a double ring ceremony in the parlor of the First Christian Church of Lubbock. Rev. J. E. Montgomery read the ceremony before members of the family and close friends of the couple.

Baskets of white gladiolus and ferns, arranged before the fireplace, created the bridal scene.

The bride is the daughter of Mr. and Mrs. E. E. McClintock of Santa Anna, and Leffingwell is the son of Mrs. Thelma Leffingwell of Wichita Falls.

Attending the couple were Miss Rosalee Cravey and Garland Carey, Kenneth Weatherford of Olney was usher.

Given in marriage by her father, the bride wore a white ballerina-length dress of lace over slipper satin. Her fingertip veil was attached to a satin and lace half hat trimmed in velvet. Matching gloves and white linen pumps completed her attire.

She carried a tapered bouquet of white gardenias. A gift belonging to her mother was the traditional something old and something borrowed. Completing the saying were her new clothes and a blue garter. For luck she carried a penny in her shoe.

Miss Cravey wore aqua lace over pink tulle. Her ballerina-length dress was complemented

with pink and aqua accessories, and she carried a small bouquet of white gardenias.

Miss Dorothy McBride furnished the wedding march and recessional at the piano and accompanied Tommy Drake in vocal numbers before the ceremony. "Be My Love" and "Always" were the pre-nuptial numbers.

Mothers of the bride and groom both chose navy. Mrs. McClintock wearing navy and white accessories, and Mrs. Leffingwell choosing white accessories. Both had white corages.

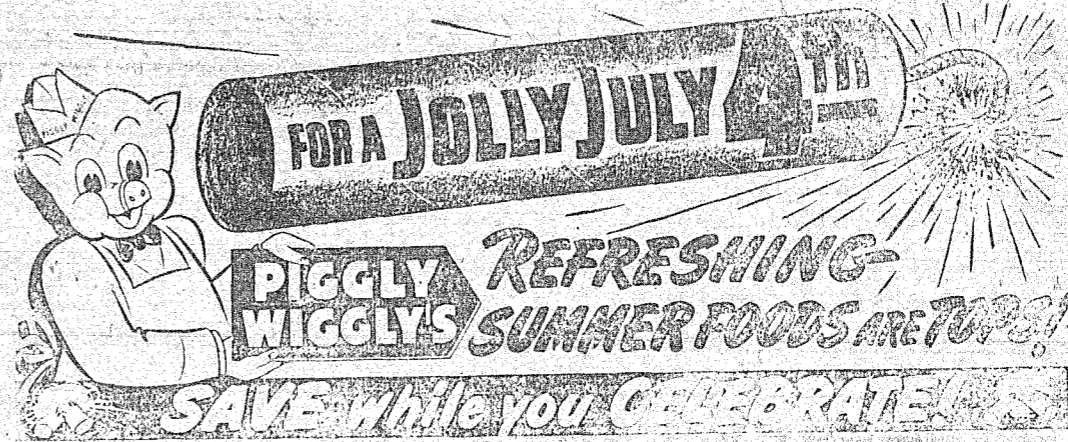

A reception honored the couple in the Garland Carey home immediately following the ceremony. Mrs. Carey poured punch and Mrs. Joe Adams served the three tiered wedding cake, which was topped with miniature bride and groom. Miss Jeanette Cravey presided at the bride's book.

Centering the table, laid with a white lace cloth, were the bride and bridemaid's bouquets,

arranged on a mirror. After a short wedding trip the couple will be at home in the Jack Roberts apartments.

Mrs. Leffingwell is employed in Breckenridge at Sears Roebuck and Co., and was formerly working at Western Union. She has lived in Breckenridge since October, and is a graduate of Brownfield High School.
