

DROUGHT RELIEF TO BE RUSHED

Cause Of Dynamite Blast Unknown

Seismograph Crew Of Seven Killed In Ok.

Terrific Explosion Of Dynamite Near Norman, Okla., Is Fatal

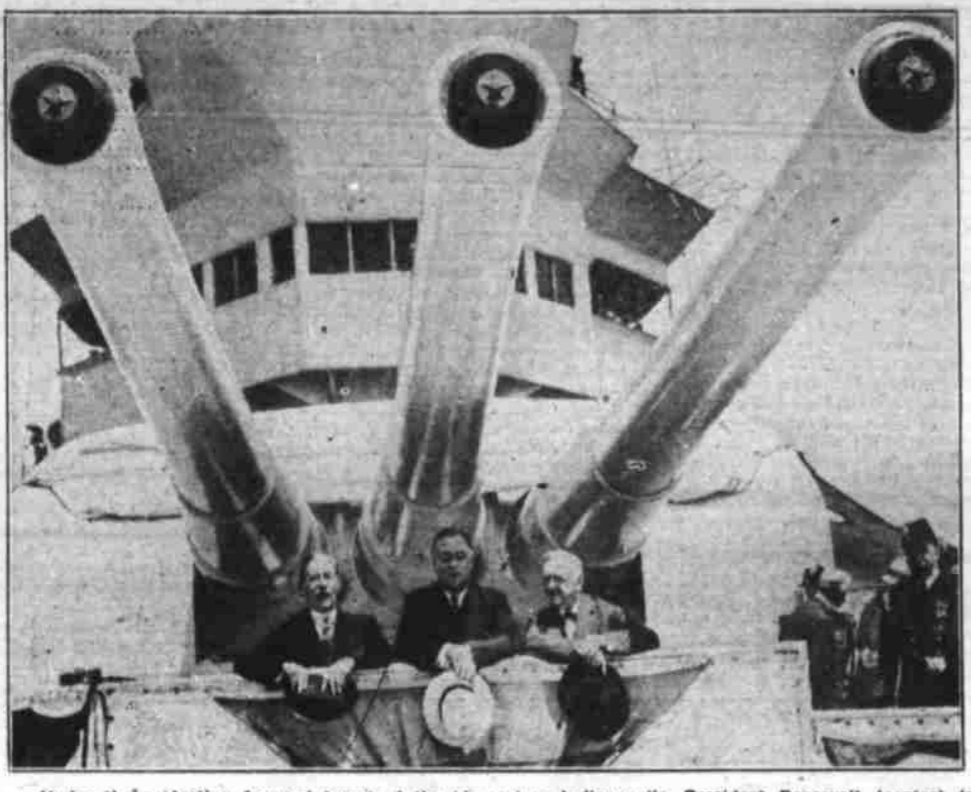

NORMAN, Okla., (AP)—Cause of the terrific dynamite blast that snuffed out the lives of seven members of a seismographic oil exploration crew probably never will be determined, investigators said Tuesday.

Wendell Crawford, member of the party making instrument observations from a truck fifty feet from the scene of the explosion said he had no idea what caused the blast which occurred while the seven were grouped around a "shooting" truck ready to set off a charge of dynamite in a sixty-foot hole.

NORMAN, Okla., (AP)—Seven members of a seismographic oil exploration party were killed in an accidental explosion of a roadside

News Behind The News THE NATIONAL

Whirligig

Written by a group of the best informed newspapermen of Washington and New York. Opinions expressed are those of the writers and should not be interpreted as reflecting the editorial policy of this newspaper.

Washington By George Durso

Politics—

Democrats are watching the Republican National Committee meeting in Chicago today and meanwhile taking stock in their own camp.

Each party is driving hard toward the November Congressional elections. Informers are passing confidential information back and forth. Result: each side knows fairly well what the brood expectations of the opposition are.

The Democrats picked up a lot of additional hope the other day when Rep. James W. Wadsworth (Rep. of N. Y.) said a gain of 80 seats in the House would represent a real victory for his party.

At the moment Democratic headquarters are openly conceding a loss of fifty House seats while the Republicans lay advance claim to a like gain.

Privately the New Dealers don't think they will lose more than 25 of their tremendous House majority. Republicans giving up an off-the-record estimate can't see a gain of more than 35 or 40 at the outside. But they're hoping conditions will change in their order in the next five months.

The Democrats are going to harp on Wadsworth's estimate of 80 as a Republican victory if the election goes as they anticipate. They'll press any unfavorable comparison particularly because Wadsworth is counted at the moment as a possibility for the 1936 Republican Presidential nomination.

Political slanders have brought word to Democratic headquarters that the Republican camp is full of bad news just now. They report that the statistical and research office set up by the combined Republican Senatorial and Congressional Campaign Committees has produced rather dour estimates of the November outlook.

Past performances implant still more optimism in the Democratic ranks. The three recent national landslides were followed by the following backslings of the pendulum in the bi-elections: Wilson lost 59 seats in 1918; Harding dropped 75 in 1924; and Hoover sloughed off 56 in 1928.

These records will stand the New Dealers in good stead if everything goes as expected. Meanwhile they'll be shouting about their expected gain of four or five seats in the Senate.

Maneuvers—

Administration strategists are still further encouraged by the seeming division within the opposition ranks.

On one hand Republican politicians of what might be called the professional type are arguing it is too early to oppose openly the Roosevelt policies. They are warning that the White House still enjoys

Posse Hunts Three Youths Who Killed Indiana Deputy

Mexican Cowboy To Receive Speedy Trial In Murder Of Prominent Van Horn Ranchers

Questionnaire Mailed To C-C Members

UNDERWOOD, Ind., (AP)—Three youths who killed Deputy Sheriff Harold Amick, of Scottsboro, and shot down Policeman John Pfaffenberger, in a wild flight through Southern Indiana Monday night, were pursued Tuesday in sparsely settled hilly country by a posse of two hundred citizens, officers, and bloodhounds.

One of the bandits kidnaped Ralph Shields, 18, forced the lad to drive him away in Shields' automobile, heading toward Salem.

Desperadoes began the flight about 9 p. m. Monday at a filling station near Seymour where they drove away without paying for gasoline.

Questionnaires calculated to draw suggestions on which the Chamber of Commerce can "formulate and carry out the most constructive community program possible" were mailed out to members of that organization Tuesday.

Each questionnaire went out with the request that it be promptly answered so as to obviate delay in making plans in some lines of activity.

Each member was asked to suggest things he thinks can and should be done for agriculture, oil, industrial, tourists, convention, civic, trade extension, transportation which includes air, rail, and highways.

Individuals were also asked to express preferences for committee service.

Manager C. T. Watson said that the organization anticipated many timely suggestions from the membership which may be used as a basis in formulating constructive programs.

Howard County Due To Get More Rain This Year, Says 'The Dope'

Unless weather runs in twenty six year cycles, this county is due to get more rain this year than last.

Rain records since 1900 show that rarely ever does one drought year follow another. The one exception was in 1917 and 1918.

In 1917 only 4.68 inches of rainfall visited the county. The following year was much better but the 12.35 inches did not go far on the parched area. The next year completely broke the spell with 34.01 inches, second greatest rainfall since 1900.

The 1928 drought here was not nearly so acute as the 1917 drought.

Last year total precipitation amounted to 11.30 inches but a great part of its fall after cotton planting time had past. This year, thus far, has been a repetition of 1928, but if the weather chart runs true to form, this county is to receive additional precipitation.

That could be perfectly true, but unless it comes at the right time, it will not do a great deal more good than add figures to the total.

Rainfall for the past 34 years follows:

1901	10.58	1915	12.30
1902	27.38	1916	34.01
1903	10.36	1917	4.68
1904	17.05	1918	12.35
1905	30.73	1919	22.37
1906	25.96	1920	26.26
1907	24.41	1921	10.89
1908	19.39	1922	18.16
1909	12.36	1923	25.35
1910	7.25	1924	13.65
1911	14.78	1925	20.04
1912	11.01	1926	22.44
1913	19.39	1927	15.97
1914	23.90	1928	34.28
1915	20.84	1929	24.28
1916	12.79	1930	11.29
1917	4.68	1931	12.30

Three Prisoners Surrender After Capturing Guard

NASHVILLE, Tenn., (AP)—Three long-term prisoners surrendered to prison authorities Tuesday after two had disarmed a guard, and with a third convict barricaded themselves in the east wing of the penitentiary.

The trio held Guard W. C. Smith captive throughout the night. After defying efforts to take them over seven hours, the convicts surrendered voluntarily.

His petition alleged that the trailer, carrying a load of poles, slipped loose from a T-23 truck as it went over a dip in the old Kokernot road and veered into the creek, causing injuries which he alleged were permanent.

Allred Speaks Wednesday At 8 At Courthouse

James V. Allred, candidate for governor, will speak at the courthouse lawn tomorrow night (Wednesday) at 8 o'clock, according to friends here who are interested in his candidacy. Judge James T. Brooks, local attorney, will introduce the speaker.

Mr. Allred will arrive here early in the afternoon, it was said, to fill his engagement here tomorrow night.

Parker's Name Certified As R. Candidate

TYLER, (AP)—Friends of R. D. Parker, chief of proration in the East Texas oil field, filed a petition with J. K. Brom, Democratic state executive committee chairman, entering him as a candidate for railroad commissioner Monday night. Those signing the petition were quoted as doing so without participation or knowledge of Parker.

Friends File Petition Without Knowledge Of Proration Officer

WASHINGTON (AP)—The Disney oil production control bill was denounced Tuesday before the house interstate commerce committee by E. O. Thompson, Texas railroad commissioner as "simply an attempt to wrest from the states their proper sovereign power over purely internal affairs."

Oil Measure Denounced By E O Thompson

Attempt To Wrest All Power From State Over Internal Affairs, Says

Candidates In Highway Meet

District, county, and precinct office candidates opened their official speaking campaigns at Highway Monday evening.

With the exception of two candidates for sheriff and a few precinct candidates, all office seekers were on hand to speak to the electorate of the Highway box.

The speaking followed a picnic sale the afternoon of C. C. Smith they doing the auction. Martelle McDonald introduced the speakers.

No other engagements have been definitely arranged as yet, but it is contemplated that a schedule for other community rallies will be made up soon.

Kokernot Ranch Visited By Hail Storm Monday

ALPINE (AP)—A hailstorm struck the H. L. Kokernot ranch, twenty miles north of Alpine, Monday, killing a great number of young calves. Kokernot said he saw fifteen dead in one short ride. The ranchman said some of the hailstones were the size of baseballs.

Floods washed out the Santa Fe railroad track near Haver, thirty miles northeast and delayed traffic several hours.

Buchanan Gets \$6000 Damages

Gordon Buchanan was awarded \$6,000 damages from the Texas Electric Service company in a judgment entered in the 70th district court Tuesday.

He had entered suit against the company after he had sustained injuries when struck by a detached trailer and its cargo.

His petition alleged that the trailer, carrying a load of poles, slipped loose from a T-23 truck as it went over a dip in the old Kokernot road and veered into the creek, causing injuries which he alleged were permanent.

Silver Term Commutated

AUSTIN (AP)—Commutation of the life imprisonment sentence of J. R. Silver, convicted in Tarrant county of robbery with firearms, to provide for Silver's release from the state penitentiary July, 1936, was revealed Tuesday.

The clemency proclamation was dated June 1, but did not come to light as of record in the secretary of state's office until now.

Silver participated in the robbery in which Roscoe Wilson, treasurer of a Fort Worth theatre, was killed.

Theater Cashier Robber Is To Be Freed From Prison In 1936

Wheat Jumps Above Dollar

CHICAGO (AP)—Wheat prices jumped above the dollar level in a late buying rally Tuesday.

Legislation To Be Enacted At This Congress

WASHINGTON (AP)—President Roosevelt Tuesday outlined the \$525,000,000 emergency drought relief program to congressional leaders. It was agreed to rush it through before the end of this session.

The relief program tentatively outlined contemplates the earmarking of \$100,000,000 for the purchase of additional beef and dairy cattle under the Jones-Connally Act.

Annual Event Taking Shape

An annual event for Big Spring is gradually taking shape in the form of a county fair, which will feature agricultural exhibits, encourage industrial and commercial displays, and offer a program of rapid-fire entertainment.

The fair is an outgrowth of a move started here this year to establish an annual, traditional event of sufficient interest to draw people here from the logical Big Spring trade area.

Tuesday morning the fair committee, headed by George Gentry, met and named O. P. Griffin, Earl Phillips and Mrs. J. E. Brigham to appoint contact committees in every community in Howard county.

These community committees will work with the central committee in promoting agricultural field, garden and orchard exhibits for the fair.

Special consideration will be given to encouraging commercial and industrial exhibits.

At the next meeting of the central committee, other committees on entertainment and additional phases of the fair will be selected and work on the fair project will get underway with a tangible result in mind.

County Fair Committee Meets Tuesday Morning To Perfect Plans

Debt Default By Britain Is Explained

LONDON (AP)—Neville Chamberlain, chancellor of the exchequer, told the house of commons Tuesday England, who announced Monday she would pay nothing on the forthcoming war debt installment. The installment, which would have paid at least a "token" June 15th but for the fact that President Roosevelt could not guarantee Britain would not be classed as a defaulter.

Spade School Closing Program To Be Thursday

The close of school program, which was planned to be held Friday morning at Spade with Jimmy Allred as principal speaker will be held Thursday morning at the same time with the same speakers appearing. A barbecue will be tendered guests during the noon hour.

Municipal Golf Tournament To Be Staged Soon

Qualifying To Open June 10

Robinson Soft Ball Clubbers Swamp Settles

Prizes To Be Given Winner And Runner-Up In Each Flight

Local golfers will be unimpaired by the fact that the first annual Municipal City golf championship is being staged in the city.

Qualifying has been set at any time between June 10 and June 17. Players must signify their intentions of qualifying by getting a signed card from Charles Akers, municipal golf pro.

There will be no entrance fee, only the regular green fee.

There will be sixteen players to a flight, and as many flights as necessary to take care of all entrants. The winner of the championship flight will be crowned city golf champion for 1934.

There will be a special flight for ladies. The winner to be crowned golf champion for women. Play will be the same dates as for men.

Dates for various rounds:
First round—June 18 to June 20
Second round—June 25 to July 1
Third round—July 2 to July 8
Finals—July 9 to July 14

Prizes will be given to the winner and runner-up in each flight.

Cy Terrazas Heavy Hitter

Big Gun In Oilers Slugging Attack Keeps Percentage At .500

By HANK HART

Cy Terrazas replaced Dutch Moxley as the batting king of the Cooden Oilers when he blasted out three hits out of five times at bat against Col-Tex Sunday. Although he slumped in the first game against Colorado, he managed to keep his average at an even .500, which was 86 points better than "Speedy" Moffett who came in second last.

Moxley went into a slump when he hit only once during the last two games, but his average was still 12 points above the 300 mark. Pepper Martin although falling below .400, came through with an average of .393 to take third place among the Oilers regulars.

Regulars who raised their percentages: Lefty Baber, who raised his average from .290 to .314, Rufe Morton, who jumped from .216 to .250, and Sam Sain who stepped up with an average of .333.

The averages:

Grocerymen In 22-11 Victory

Team Leads League No. 1 With Six Straight Wins

By HANK HART

The Robinson soft ball aggregation encountered little difficulty in winning their sixth straight game when they defeated the Settles Hotel Monday by the top-heavy score of 22-11.

Digby was the big bat for the Grocerymen, collecting 4 hits out of four times at bat. Townsend, third sacker for the Hotelmen, came through with three hits to lead the Settles team.

Hank Hart, Coots, Digby, Rogers and Lloyd Forrester crossed the plate in the initial inning for the Prusse Peddlers to run a 5-0 lead.

Rally in Second

The Settles bunch after being held scoreless in the first inning, broke through with a two run rally in the second to cut the opponent's lead. Townsend and Conner tallied on a hit and an error.

Hank Hart scored a hit after two were out in the second, and tallied when Rogers reached first on an error.

Holding the Hotelmen scoreless in the third the Robinsonites returned to score twice and run their lead to 8-2. Digby and J. Forrester led off with hits and both scored.

B'Spring Polo Team Loses To Lubbock

LUBBOCK—Captain Stewart Champlin's Lubbock motorcycle polo team, undisputed Texas champions, piled up another one-sided victory Sunday when they rode to a 20 to 9 triumph over the Big Spring team.

Lubbock jumped into the lead from the start, holding the green shirted players from Big Spring scoreless during the first half. Lubbock led, 12 to 0, at the intermission.

Big Spring began to score in the second half with surprising change of form, and at the same time to tighten its defensive lines.

Mr. Durigan Finds Relief in Kellogg's ALL-BRAN

Here is his enthusiastic letter:
"Am 70 years of age, and for 10 of these years there never was a week but what I had to take a pill or some kind of cathartic."
"I took everything, but gained only temporary relief. Until last spring my daughter, who is a nurse in a hospital, brought me some Kellogg's ALL-BRAN."
"At the end of the week, I knew I had something that was it, and I kept on taking it. I haven't taken a cathartic since. I can eat most any time, as often as I like, or any other kind of food, and no constipation." Mr. L. M. Durigan, 6811 Buffalo Ave., Jacksonville, Florida.

Laboratory tests show Kellogg's ALL-BRAN provides "bulk" to exercise the intestines, and vitamin B to help muscle tone. Also iron for the blood.

The "bulk" in ALL-BRAN is much like that of lettuce. Inside the body, it forms a soft mass. Gently, it clears out the intestinal wastes.

How much safer than patent medicines. Two tablespoonfuls daily are usually sufficient. With each meal in serious cases. If not relieved this way, see your doctor.

Sold in the red-and-green package. At all grocers. Made by Kellogg in Battle Creek.

ANOTHER AIR MAIL BLUNDER

El Paso Times:
Having extricated itself with some embarrassment from its recent air mail blunder, the administration is in the way of committing another.

The pending air mail bill (S. 2170) known as an administration measure contains this provision:
That after Oct. 1, 1934, no air mail contractor shall hold more than three contracts; and in the case of a contractor for any primary route, no contract shall be awarded for any other primary route. Further, it shall be unlawful for air mail contractors competing in parallel routes to merge or enter into agreements which may result in common control of ownership.

Chief objection is to the stipulation that no contractor may hold more than three contracts. This would be ruinous to transcontinental lines with numerous branches. For instance, American Airlines holds eight contracts at the present time. Probably other transcontinental lines also hold considerably more than three contracts for various routes flown by their ships. What incentive is there to buy and maintain the finest and most efficient equipment and pay the salaries of careful, experienced pilots when such restrictions are placed on the letting of air mail contracts as to nullify the financial benefit that may be obtained from them? One of the purposes of the air mail service is to help develop commercial aviation. This would work in the opposite direction.

The postoffice department itself is said to be against the bill, realizing it is not in the best interests of the air mail. It has the earmarks of having been drafted by some impractical "New Dealer" who sees a bogey man in every commercial aviation company.

The measure should be killed. If new air mail legislation is needed, of which we are no convinced, let it be practical and reasonable.

RACIAL TOLERANCE

Racial conflict is a bitter and destructive thing. Luckily, it can be averted—and it frequently is—by the exercise of intelligence and a spirit of fairness.

A New York broker took a taxi cab one night recently and got into an argument with the driver, a colored man. The argument waxed hot, and the broker cursed the driver, who hit him with his fist as a result.

A little later the broker died as a result of the blow. The negro was arrested.

When he got into court, the two people who urged that the case against him be dropped were the brother and the wife of the dead man—both of them residents of North Carolina.

They said they were satisfied that the negro struck in self-defense, and that no good would be done by prosecuting him. So he went free.

What might have developed into a bitter racial quarrel was quelled by the good sense and intelligent understanding displayed by these two people.

USEFUL HUMAN ENERGY IS WASTED IN CRIME

This modern world abhors waste. When it finds any source of energy going unused—a waterfall, a fac-

Drug Outfit Wins 5 To 4

Rally In Last Inning One Run Short Of Knotting Score

In the seventh of a two run rally in the seventh inning, the Post Office softball team was belted 5 to 4 by the Cunningham & Phillips outfit Monday in a league No. 2 game.

The Druggists went to bat first and jumped into the lead with two runs. The Government employees came back with one run in the first inning when Forshee tripled and came home on a single by Potter.

The C. & P. team added another run in the second frame when Rogers rounded the bases. There was no more scoring until the fifth inning when the Druggists made their last two runs. Choate and Sullivan both got doubles and later came in home for the two tallies.

Bigony, Post Office third sacker, counted in the sixth, and a short-lived rally in the last frame was just one run short of knotting the count.

Farm News Ranch News

Results To Feeding Tests To Be Announced Here Friday

Sixty Steers Have Been Fed Native Feeds

Record Breaking Crowd Is Anticipated For Feeders Day Affair

Friday more than 200 farmers and ranchers are expected to gather at the U. S. Experiment Farm to learn results of the feeding tests conducted for the past 106 days.

Weighing in of the sixty yearlings began Monday under the supervision of Superintendent Fred Keating. They will be weighed in on three separate days and the average weight will be taken.

Thursday will be spent in a feverish effort to prepare data for distribution to those inspecting the pens Friday.

While the market held steady last year and even took an upturn, the top pen represented an approximate profit of \$10.70 per head. Now grain prices are soaring but cattle are not rising in proportion since drought conditions are having the effect of flooding the market with stock. Price June 4 for top was \$9.85 as compared to \$9.00 for April 30.

Jones to Speak

J. M. Jones, head of the division of animal husbandry for the Texas extension service will be among the extension officials here. He together with others, will discuss results of the test.

Roy Snyder, meat specialist for the extension service, wired his regrets to an invitation extended him to participate in the Feeders Day program here.

Keating said there would likely be a representative of the packers here to appraise the stuff.

Native Feed

While on test the steers have been divided into four pens, each pen on a separate ration of native feeds. The identical rations fed last year were used again this year and, according to Keating, are producing approximately the same results. He added that he could make no positive statement to that effect until they had been properly weighed in and costs checked.

Estimate

All four lots of steers have been fed the same amount of cottonseed meal and roughage, but the grain was fed according to appetite and condition of the steers.

Lot No. 1 has been fed unground milo grain, Lot No. 2 ground threshed milo, Lot No. 3 unground milo heads, and Lot No. 4 ground milo heads.

Last year the pen fed on ground milo heads showed the greatest profit notwithstanding the fact that the pen fed ground threshed milo netted the greatest weight gain. Cost of threshing and poorer gains in hogs following the steers more than offset the advantage.

At that time Keating observed that there was little or no advantage in threshing milo except to get rid of dirt or molds.

Western Dinner

As has been the custom for the past Feeders Day programs, there will be a typically western dinner served at noon to those inspecting the test results.

The results will be discussed in the afternoon by qualified speakers.

Unless a general rain should arrive before Friday, Keating said that he expected a record crowd to attend the event.

Interest in the feeding tests has shown a steady increase here. More and more out of county visitors are coming here to gain benefit of the tests. As a result of the tests, several farmers have in past years found a profitable market for surplus grain through fattened livestock.

USE HERALD WANT-ADS

Weight Reduced From 180 to 137

"Wonderful," She Says

Here's today's story of a woman who knew she carried too much fat and decided the right way to get rid of it—just a few words that wise fat folks should heed—worth reading.

"I use Kruschen Salts to reduce. It's wonderful. Take it daily and eat what I want and still lose. I did weigh 180, now 137. Want to get down to 125." Mrs. Leonard Bass, 31 Atkinson, Wis., Feb. 6, 1934.

When you take one half teaspoonful of Kruschen in a glass of hot water—you not only lose in weight but you put healthy activity into your whole body—you feel younger and look it—get it at any drug store in the world—adv.

STEWARDS TO MEET

Stewards of the First Methodist church will meet at the residence of Mr. and Mrs. S. P. Jones, 1209 Wood street, Thursday evening in regular monthly session. All members are urged by the chairman to be present on time for the transaction of business. A social meeting will be held following the business session.

Mr. and Mrs. D. P. West and children have returned from Weatherford where they visited Mrs. Watt's parents.

A DASH FOR WATER DAILY FARM CHORE

COLLEGE STATION—It's more than a daily 100-yard dash to get water into the average Texas farm home, for the average distance traveled is 331 feet, and it takes several trips per day. This is one of the amazing facts discovered by the investigators in the rural farm home survey recently completed and summarized for 57,591 farms in 55 counties.

Barely one farm home in four has water piped into the house, or has an inside pump. Only one home in seven has a bath tub or a shower bath.

Sanitation is even worse, the survey reveals. Four out of five farm homes have unsanitary toilets, mostly outdoor privies of the unimproved type. In spite of the well known connection between disease and flies and mosquitoes, more than one farm home out of five is entirely lacking in screens. Screens for windows and doors in two-thirds of the houses are in need of repairs, alterations, or new installation.

"These conditions are eloquent testimony of the need of agricultural readjustment," comments Miss Morton, state home demonstration agent, Extension Service, Texas A and M College. "The facts may be a shock to many because a belief in the excellence of living conditions is one of the deepest prejudices of the American mind. We must face the facts, however, and as farm income is increased through the adjustment program our farm home improvement work must keep pace. For years we have been gradually correcting these conditions through thousands of demonstrations. These have shown how to get a cheap and convenient water supply, how to modernize the kitchen, how to make sanitary the toilet and how to beautify the living room and bed rooms. This work is slow but it should be faster now that the foundations are laid in the form of these demonstrations which are scattered generally over Texas," she concludes.

WILL EXTEND EMERGENCY DROUGHT AREA IN SOUTH

The area of emergency drought counties in which surplus cattle buying activities of the Agricultural Adjustment Administration will be undertaken is to be extended into the southwestern drought area, centering around the Texas Panhandle, Chester C. Davis, administrator of the Agricultural Adjustment Act, announced Tuesday.

A total of 121 counties in the Dakotas and Minnesota have previously been designated as "emergency" drought counties, in which the cattle removal program will be made effective. Further extensions, in addition to the counties under

immediate consideration in the southwest, are to be made as rapidly as necessary.

Dr. Davis in communication with Doctor E. W. Sheets, administration drought director, who is in St. Paul, later in the day to complete arrangements for purchase of surplus animals in the drought areas.

It is expected that cattle buying in some counties will start late this week or early next week.

The purchasing of cattle in each county will be supervised by a county director, working in cooperation with inspectors of the Bureau of Animal Industry.

RURAL WORK CENTER NOW WITHIN MEANS OF ANY COMMUNITY

COLLEGE STATION—How Texas farm communities can get financial assistance to build and develop rural work centers for carrying on small farm and home manufacturers is outlined in a circular just issued by the Texas A and M College Extension Service. It is known as C-101, is entitled "Rural Work Centers," and is available on application to county farm and home demonstration agents.

Advanced by extension director O. B. Martin in response to a call for sound plans for permanent rural rehabilitation, the rural work center idea has been adopted by the Texas Relief Commission as the mainstay of the Texas program. It is in charge of J. E. Stamford, director of rural rehabilitation, Austin.

The object of the rural work center is to furnish a means for worthy families on relief rolls, one or more of whose members are mechanically skilled, to make themselves at least partially self-supporting from small manufactures which may be exchanged or sold locally. This would supplement the usual agricultural living-at-home enterprises. In addition, the work centers and their equipment will be permanent in the community and available to all families.

To secure assistance in building a rural work center a community must first show that it can supply at least 10 suitable vacant houses to be made habitable for relief roll families by the labor of the occupants. The Texas Relief Commission will pay for the labor and a limited amount of material for repairing these houses. It can also furnish labor and some material for new construction for the use of relief roll families. The community will have some choice in the families which are to make their homes in the community.

The community must also donate the land for the center and furnish half the material and equipment for it. A plan for maintenance and use of the work center should be made to show that facilities requested will be ample for local needs and that every family will have fair privileges. It is also desirable to make a list of locally needed commodities. Applications for rural work centers should be made to county relief administrators.

ON TEXAS FARMS

By W. H. Darrow
Extension Service Editor

Collin county farmers will receive \$691,024 from the AAA this year as a result of crop and livestock reduction programs.

Four-H club girls in Wharton county continue to lead the way in showing the home folks how to make much of the living-at-home. Gardens are tended by 193 girls, 73 of whom made hotbeds late in January for getting their vegetables off to a quick start.

Lespedeza sericea, a rather new legume, is being tried by Stenwall county farmers in their effort to start pastures on rented acres. The county agent says the new lespedeza filled every water hole in that belt with more than enough stock water to fill needs for some time to come.

Other sections of the county got just enough rain to make it seem worse when it passed over. As much as half an inch fell in other areas but it tapered off to mere sprinkles elsewhere.

Roy Lockhart had just finished shearing his sheep Friday and had turned them out Saturday when the rain and hail came up. Miracle of the matter was that not one sheep was lost even though the big halibones beat plant life mercilessly. A cump of cedars furnished the shelter and for once the sheep had sense enough to get under them.

I. B. Cables last week sold 10 young bulls to Crawford and Johnson of Carlisbad, New Mexico. In fine fettle, the bulls brought the usual good price. Cables turns out quality and gets more for it. His thorough bred string of Hereford bulls have won him a name in this section.

He has six pastures on his place and has a herd bull for each pasture. In that way he is able to accurately check up on his lines. He keeps his sales bulls penned up at the place.

County Agent O. P. Griffin has started his land measuring tests or demonstrations. Tuesday he was at the T. J. Brown place northwest of Highway. Last week he conducted the first test with gratifying results. Two eleven sided fields measured tallied perfectly. Acquisition of scaled triangles has simplified his work somewhat. But to figure the thing out now one has to be a trigonometry shark. You must know more than soil and roots to be a farm agent.

R. P. Reed, farming near Stanton, reports best prospects for a fine crop since 1927. However, rain is needed badly, he said. His watermelon crop looks especially fine. Only rain near that section of the county lately has been a light shower north of Stanton.

A blessing of the rain is that it

COTTON CONTRACT CUTS WERE THE RULE NOT THE EXCEPTION

COLLEGE STATION—Cutting cotton production figures in cotton adjustment contracts was the rule and not the exception in Texas and everywhere else, according to the State Cotton Review Board. The farmer who feels badly that his first figures giving average five-year production were not accepted by the Board and were reduced by

the county committee to put them in line with the county allotment, may feel better if he knows that nearly all farmers took similar cuts.

When all the cotton production figures put by farmers into their contracts were added up it was found that they ran over the county allotment by a rough average of 20 per cent, the Board states. In some counties the over-run went more than 40 per cent.

This does not mean that farmers were dishonest in giving their production figures, the Board says, but that farmers had no way of knowing exactly what they had produced for five years. Production figures were of necessity estimates based largely on memory. The same was true of acreage figures. A farmer assumed he had 100 acres in a field but it might have been 90 acres or 110 acres if actually measured.

On the other hand, the Bureau

of Crop Estimates knows with great accuracy the total bales produced in Texas every year. The average of this for five years became the Texas allotment. This was apportioned out among counties on the basis of local ginnings, the cross county ginnings taken into account. It was imperative if there was to be a cotton program at all, that the total cotton production given by farmers in their contracts added to that of non-signers not exceed the known State total. That is why cuts were necessary the board explains.

of Crop Estimates knows with great accuracy the total bales produced in Texas every year. The average of this for five years became the Texas allotment. water truck, was badly damaged. Between the two was a fresh crater in the earth.

The frightful blast inflicted damage on the farm home of T. A. Maloy, about 200 yards away. Ceilings were caved in, partitions were broken, and chinaware cracked.

Although none of the Maloy family was hurt, three of the children had a narrow escape. Just three minutes before the explosion, the children had approached the work-

ing man and had been ordered back to their home. Reluctantly they returned—and reached shelter just before the earth trembled from the force of the blast.

Sub-surface geophysical exploration by means of the seismograph and man-made miniature earthquakes is a relatively recent development in petroleum prospecting.

Heavy blasts of explosives are detonated over the area to be surveyed, and delicate instruments record the sound wave or vibrations from formations far under ground, giving accurate knowledge of structures at great depths.

been to get the banks in the clearest possible shape for deposit insurance. Its policy has fixed much closer with that of the New York institutions than with the avowed government credit program.

Experts say the RFC attitude has been a potent—but perhaps unconscious—factor in keeping banks liquid and credit tight.

Local authorities assert that if the government really wants to stimulate intermediate industrial credit (3 to 5 year loans) the best way is to forget involved plans to have the Federal Reserve or RFC do the lending and simply make the collateral behind the loans eligible for Federal Reserve rediscount.

One reason the banks have fought shy of such loans is because they would class as frozen assets in case of a sudden demand from depositors. They couldn't be called in a hurry and the collateral couldn't be sold to raise cash.

The banks knew they could borrow from the Federal Reserve against the collateral on a moment's notice if the need arose.

Local bankers are wondering whether they belong to one of these service industries exempted from a national NRA code. NRA has never told them they needn't get together on trade practices and charges to customers but neither has it urged them to speed up their code. Exemption now would save a lot of aches.

Non-bankers remark that the banks have a heck of a nerve if they claim to give service.

The bankers and investment houses which participated in the \$13,000,000 Lackawanna loan to reconvert bank debt were canny and cautious about exposing themselves to the Securities Act.

A railroad issue doesn't require FTC registration but its sponsors are subject to the liability provisions of the Act. In this case customers were handicapped among institutions and other large investors who could be trusted to hang on to the bonds. Potential strike suiters were out of luck.

Aircraft builders can't see how the "flier plan" touted last year by Gene Vidal—Department of Commerce aeronautics director—is brought nearer by the Department's plan to buy 25 lightplanes.

Week-Day Attendance At East 4th Baptist Revival Continues To Grow

Revival services at the East 4th Street Baptist church continue to draw large crowds. Both services Monday drew the largest crowds, except Sunday, at any previous service.

Another one of Big Spring's would be golfers, who, by the way, won some kind of prize by default in the West Texas golf tournament, pulled a good one while playing the Country Club course a day or two ago.

Paul Blanks, for many years an ardent baseball fan, is all for a city hardball league. Some of the oldtimers just can't go this sandlot stuff.

A tip to some of your softball team managers: Lo and behold, if we didn't ankle into the corner drug Monday afternoon in time to see the Robinson sandlot contingent lined-up gussing sodas.

Maurice "Dutch" Baumgartner, the man Midland will be asked to support when the new grid session rolls around, is described by the Midland writer as personable, clean cut and blond.

The Herald Type Line play the post office team a practice game this afternoon on the diamond at the corner of 13th and state.

The Type Line, after playing several humiliating games with the Kiwanis softball team, gave the clubbers a lesson Monday they won't forget for a long time.

The odds are swinging more and more in favor of the mammoth Italian. Still, reports say that Barr has Dempsey's famous short job down pat.

Bob Ingram, El Paso sports writer, gives the following definition of soft ball: "Husky athletes playing with a large mushy ball. It looked ridiculous. A game for the softies. Effeminate. Even the kids in grammar schools would think it too sluffed. A few merry quips and truculent sneers. Has American sports disintegrated to this?"

J. E. Hammond and Doyle Robinson will go to Midland tonight in an attempt to match a game with some Midland softball team.

The tug-of-war between government and banks on credit expansion is still a draw. The New York banks understand they aren't exactly popular in administration circles but that no longer worries them.

Essentially the big banks' attitude is not to relax on business credit until business profits look safer. Labor unrest looms large as an obstacle. So does the New Deal idea that wages take precedence over profits.

These banks represent the strongest practical bulwark of conservatism. Either the government will make the substantial concessions to right-wing sentiment or credit expansion from private sources is out—unless the administration finds a way to crack the whip more effectively than it has so far.

The banks privately insist their non-cooperation with government wishes is motivated by the need to protect depositors—not just custodians. They resent the charge of obstructionism and sincerely hope they are keeping the nation's financial structure safe.

The R. F. C. has faithfully kept its agreement not to burn in the policies of local banks which sold its preferred stock or debentures. There would be an insurance if it tried.

Virgil B. Dunn Dies In Angelo; Funeral Today

W. B. Dunn of Foran was notified of the death of his father, Virgil B. Dunn, at his home in San Angelo Monday, following an illness lasting about a month.

Funeral services were held Tuesday afternoon at 2:30 o'clock at San Angelo, with interment taking place in Fairmont cemetery.

Mr. Dunn is survived by two sons, H. B. Dunn, San Angelo, W. B. Dunn, Foran; and two daughters, Mrs. John Kubecka, San Angelo, and Mrs. R. L. Dunn, Valdosta, Georgia.

The Lone Star lodge met in the Woodman hall Tuesday for a called meeting for the purpose of receiving instructions from the first grand vice-president, Mary Melton.

Other business houses that gave prizes were: Otero-Mayfair Hat and Gift Shoppe, Co-Operative Gin and Supply Company, T. P. and N. cafe, Warren barber shop, Leslie Thoms barber shop.

The council wishes to thank Miss Myrtle Miller, home demonstration agent in Midland, for helping with the display arrangements, and the Sweetwater agent for assisting in the judging.

E. T. Holley goes With Reserve Loan Insurance Company. E. T. Holley has resigned his position as district manager for American National Insurance Company, and has accepted a place as district agent for the Reserve Loan Insurance company.

Presbyterian Auxiliary Has Bible Study Session. Bible study took up the attention of members of the Presbyterian auxiliary Monday afternoon when they met at the church.

Mr. and Mrs. Tom Gleason and children and Miss Marjorie Hutchinson of Oklahoma City were the week-end guests of Mrs. Libbie Lane and son P. L. Lane.

April, 1933.
Marriage licenses kept up at a livelier clip with 25, or several above the average for the first five months of this year, and ten above the average for last year. New car registrations soared to a new peak since the depression began to be felt here in 1930. During May 58 new cars were registered, and this figure does not include new commercial vehicles.

It compares with 51 for the preceding month. Through May there had been 295 new cars registered here this year. If the pace should continue through June total for the first six months would probably exceed the total for the entire year of 1933.

Cars registered during May were: Dr. E. O. Ellington, Chrysler sedan; State National bank, Ford sedan; Empire Southern Service, Ford coupe; Mrs. Henry DeVries, Plymouth sedan; J. C. Harmon, Plymouth sedan; Roy Carter, Plymouth sedan; H. L. Cook, Pontiac sedan; C. Y. Chinkascales, Chevrolet coupe.

Dr. Amos R. Wood, Plymouth coupe; N. A. Holliday, Chevrolet coupe; Mrs. Edith K. Fisher, Pontiac sedan; G. L. Brown, Pontiac sedan; John L. Smith, Chevrolet coupe; Big Spring Motor company, Ford sedan; M. P. Benton, Dodge sedan; Mrs. J. L. Wood, Chrysler sedan; H. B. Bradley, Chevrolet coupe; Oble Bristow, Oldsmobile coupe.

G. E. Griswell, Chevrolet coupe; C. F. Duvall, Chevrolet coupe; L. Jennings, Oldsmobile sedan; John Nichols, Plymouth sedan; C. Yates, Plymouth sedan; J. W. Cain, Plymouth sedan; Kirby Petroleum company, Ford coupe; C. A. Murdock, Ford sedan; T. S. Currie, Ford sedan; Less Case, Plymouth sedan; S. B. Stone, Studebaker coupe; Noble and company, Ford coupe; T. L. Layne, Plymouth sedan; Gus Hepper, Plymouth coupe; H. F. Railsback, Plymouth coupe; Lee Cox, Ford sedan.

F. A. Robinson, Chevrolet coupe; Harry Adams, Plymouth coupe; C. M. Curry, Plymouth sedan; Charles Cox, Plymouth coupe; Claud Collins, Chevrolet coupe; E. G. Evans,

Chevrolet coach; T. H. McCorkindale, Ford coupe; Alan Williamson of Conbois, Oldsmobile coupe; Thomas J. Hutto of Conbois, Plymouth coupe; Wendell Bedichok, Plymouth coupe; J. R. Clara, Terraplane sedan; A. D. Webb, Ford sedan; R. P. Shelg, Chrysler sedan; Jim Ferguson, Ford sedan; Homer Hall, Ford sedan.

Charles D. Graham, Ford coupe; A. P. Kasch, Plymouth coupe; E. E. Stewart, Ford coupe; Birt Stevens, Plymouth sedan; F. H. McGinnis, Plymouth coupe; Leo Farrell, Chevrolet coupe; W. K. McDaniels of Wink, Plymouth sedan; C. S. Willis, Plymouth coupe; C. H. Quinn, Chevrolet coupe; M. E. Ooley, Ford victrola; C. G. Rodman Chrysler sedan; Charles Robinson, Chevrolet coupe; B. B. Wright, Chevrolet sedan; H. H. West, Chevrolet coupe; Y. O. Henner, Chevrolet coupe; Ben Daniels, Chrysler coupe.

G. B. Waters, Ford sedan; A. A. Spivey, Ford sedan; Mrs. A. E. Service, Buick sedan; L. J. Moursy of Odessa, Chrysler sedan; Paul E. McClanahan, Pontiac coupe; D. H. Bend, Ford sedan; M. A. Jones, Plymouth coupe; Continental Oil company, Ford coupe; Mrs. Julia McClure, Chevrolet sedan; Jimmie Eason, Plymouth coupe; Dr. P. W. Malone, Chrysler coupe; F. H. Spencer, Pontiac coupe.

H. G. Phillips, Chevrolet coupe; D. E. Harris, Chevrolet coupe; E. L. McManis, Ford sedan; A. G. Jordan, Plymouth sedan; Minnie Derwood, Chevrolet sedan; John Lewis Biles, Plymouth coupe; Woody Carp, Oldsmobile coupe; J. E. Sullivan, Plymouth coupe; T. J. Good, Chevrolet sedan; and Pat Allen, Plymouth coupe.

Alice Marble, United States Wightman cup star, is shown after she had collapsed at Roland Garros during her match with Madame Henrotin on the French courts. Miss Marble is shown lying unconscious as her opponent attempted to revive her. (Associated Press Photo)

First Christian W. M. S. Holds Monthly Session On Monday Afternoon

The Women's Missionary Society of the First Christian church met at the church for the regular monthly session Monday afternoon with Mrs. S. J. Shettleworth presiding in the absence of the president, Mrs. J. H. Purks. Mrs. Shettleworth was program leader and gave the devotional which opened the meeting.

Numbers on the program were: Piano solo by Eddie Ray Lees, paper on "Hyacinths Feed the Soul" by Mrs. L. M. Brooks; paper on "The Church on the Frontier of Service" by Mrs. Leon Smith; a poem by Mrs. Earl Reed, and biblical answers by Mrs. H. Clay Reed.

Refreshments of ice cream and cake were served to the following: Mesdames W. W. Inkman, Harry Lees, L. D. Eddens, George Hall, Cecil Westerman, W. M. Taylor and those on the program.

Personally Speaking

Mrs. Winnie Bell of Lubbock is visiting in Big Spring, the guest of Mrs. J. W. Orr. Mrs. Bell will be joined here later by Miss Helen Bell of San Angelo, and they will continue to Fort Stockton for a visit.

The growing of rhubarb has been introduced with profit in the Florida Everglades around Lake Okechobee.

Why Let Your Skin Age

Protect your skin with this new wonderful Face Powder and let MELLO-GLO give you that youthful bloom. Made by a new French process—stays on longer, prevents large pores, beautifies your complexion. Does not irritate the skin or give a pasty look. Purest face powder made. Try MELLO-GLO and you'll love it. 50c and 25c.

Girl Scout Troop No. 1 Will Meet On Wednesday

Troop No. 1 Girl Scouts will meet from 9 to 12 o'clock on Wednesday throughout the summer, it was announced Tuesday. The troop will meet in the parish house of the Episcopal church.

The girls will go for a swim in the Hillcrest pool Wednesday and each member is asked to bring a written permit from her mother in order to take part.

EMILY DELL BEARD YOUNGEST GRADUATE

Emily Dell Beard, daughter of Mr. and Mrs. George A. Beard, one time residents of Big Spring, was named the youngest student to graduate from Angelo junior college.

Spring recently was also accepted. These vacancies will be filled at the next meeting. It was planned.

Methodist W. M. S. Holds Business Session Monday

The W. M. S. of the First Methodist church observed a business meeting at the church Monday afternoon when the time was taken up with a variety of items. Mrs. C. C. Carter presided. Mrs. J. B. Pickle opened the meeting with the devotional.

The report of officers was heard. Mrs. W. D. McDonald reported that the social service committee is conducting a Bible school on the north side. Plans were made to entertain the World Friendship club at its meeting here June 12.

Henceforth the society will hold a business meeting the first Monday of each month and hold circle meetings each other Monday, according to plans discussed. The society will convene once each quarter for a social meeting.

Mrs. Herbert Keaton, vice-president and Mrs. W. H. Remie publicity superintendent, tendered their resignations since they are moving from the city. The resignation of Mrs. L. M. Pyatt who left Big

Miss Moore Entertains Friends With Party

Miss Deveda Lee Moore celebrated her sixteenth birthday with a merry party Saturday afternoon when she entertained a group of friends with games.

Delicious refreshments were served to the following: Louise Mann, Lillie Mae Penny, George Cross, Mary Louise Robinson, Sam Petty, Marjha Walling, Fred and Eddie Savage, Louise Reaves, James Bromley, Bud Johnson, A. Z. and V. Conell Pittman, Charles Talley, June Howard, Edna Mae Sanders, Marjorie Davis, Jack Tingle, Newman Phillips, Edward and Edwin Bjork, Dorothy Marie Moore, Reddie Winslow, Odie Moore, Ruth Nell Sullivan, Mrs. C. B. Sullivan and Mrs. H. T. Moore.

Month Of May Discouraging To Agriculturists, But Encouraging Industrially, Records Reveal

May, discouraging to agriculturists, was one of the most encouraging months industrially to be recorded here since 1930.

Building permits soared to a new high since the close of the boom era. A total of \$12,743 in building permits was listed at the city hall during the month. Principal items were \$5,000 projects for Co-operative Gin and Supply company and Western Grocery company.

Postal receipts continued to stay above the total for the same month last year but also showed the seasonal decline. Receipts for May amounted to \$3,400.04 as against \$2,358.20 a year ago and \$4,112.89 in April or \$4,031.90 in

•• A DOLLAR AND A HALF WORTH OF OIL PROTECTED THIS MOTOR FOR OVER FOUR THOUSAND MILES!

Low Consumption and Motor Protection proved in the most daring and convincing Motor Oil Test ever made

WHEN New and Improved Conoco Germ Processed Motor Oil was perfected, it had lubrication values so great that a mere statement of them would seem absurd. Could you believe that any motor could run 4,729 miles on just five quarts of oil before wrecking itself? It did—and Conoco proved it in competition with five widely known, nationally advertised, quality brands of motor oil!

The competition was held at the Indianapolis Motor Speedway, under the supervision of the Contest Board, American Automobile Association. Six new, strictly stock cars, were used—a different oil of the same S. A. E. grade in each.

After the cars were broken in for 2,500 miles, they were drained, examined and a fresh fill of five quarts put in each crankcase. No more oil was added. Then the crankcases were sealed by an AAA official.

real test began. It was ordered that they be driven at an average of 500 miles a day at 50 miles an hour until their motors failed to operate. Oil No. 4 was first to fail at 1,713.2 miles, Oil No. 6 failed at 1,764.4 miles; Oil No. 5 ruined its motor at 1,815.9 miles; three of them were out of the running. The next day Oil No. 1 failed to lubricate and, its motor a wreck, stopped at 2,266.8 miles.

Two cars—two oils—still left in the test. Oil No. 3, after a remarkable run of 3,318.8 miles, came to a shuddering stop, and the last competitor of New and Improved Conoco Germ Processed Oil, was out. The lone car, with this tremendously vital oil, labeled No. 2, went on and on. On the tenth day, at the almost

Warning to new car owners

Some car manufacturers are using new types of bearings which will stand greater pressures and temperatures, resulting from increased power and speed. New and Improved Conoco Germ Processed Motor Oil has been exhaustively tested on these new bearings. The results show that it gives them greater protection against damage than many straight mineral oils now on the market.

Protect your new car by using the motor oil you can be sure of.

THE HIDDEN QUART STAYS UP IN YOUR MOTOR AND NEVER DRAINS AWAY
