"He Profits Most Who Serves Best"

VOLUME LXVII

SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY, JANUARY 25, 1952

NUMBER 4

## Jewell Harlee Announces For County Clerk

Jewell Harlee, chief deputy county clerk, has authorized The Santa Anna News to announce her candidacy for the office of County Clerk of Coleman County subject to the 1952 elections.

In so doing she points out that County Clerk George Smith, for whom she has been chief deputy since 1942, will not seek re-election in 1952.

"Since Mr. Smith is not going to ask re-election, I am asking the people of Coleman County for the opportunity to advance to the office of County Clerk, she states.

"I have spent 13 years in the office of the County Clerk, 11 of them as chief deputy, and feel that I understand the duties well and that I can promise the people of Coleman County that this office will be administered properly if you will give me the opportunity," she adds.

"Most of my life has been spent in Coleman County. I attended the Coleman schools and later the Metropolitan Business College in Dallas, and have spent several years in private business, and in serving the people."

"In this time, I have come to know most of the people in Coleman County, and have attempted, in my capacity, to serve them well."

"Too, I need the job, but ask for it only on the basis of rendering the type of service the people of the county desire and need," she emphasizes.

"During the coming several months, in the limited time I will have for campaigning, I will try to see everyone in the county. Should I fail to see anyone, I want now to ask your vote and support, and to express my sincere appreciation for them."

## Funeral Services For Lt. P. B. Lightfoot Wed.

LT. P. B. LIGHTFOOT

Funeral services were held at the First Methodist Church in Santa Anna Wednesday, January 23, for Lt. P. B. Lightfoot, who died Thursday, January 17, at Camp Roberts, California, of coronary thrombosis. He was 33 years, 1 month and 23 days old at the time of death. Rev. Carroll H. Thompson, pastor of the Methodist Church and Rev. Harry C. Wigger, pastor of the First Baptist Church, officiated.

Lt. Lightfoot was a graduate of the Santa Anna High School in the class of 1937 and later attended Texas Tech College at Lubbock. He was a member of the old 30th Division of the Texas National Guard and was mobilized with them during the early stages of World War II. He was credited with 401 days of actual combat time, during which time he took part in the landings at Salerno and Anzio, Italy. He has five major battle stars and a unit citation. During World War II Lightfoot was a sergeant. He received his commission on October 31, 1951.

He received his discharge from the Army August 1, 1945 and re-enlisted on November 25, 1945. Since that time he has served as a Sergeant Instructor for the National Guard from the Fourth Army Headquarters. He served at stations at Little Rock, Ark., Columbus, Ga., Amarillo, Brownwood, Lampasas, Brady, Stephenville, Coleman and Santa Anna. At the time of death he was living at Morro Bay, Calif. with his wife and daughter. His hobbies were hunting and fishing.

Lt. Lightfoot was married to Miss Elta Lois Burleson, daughter of Mr. and Mrs. J. E. Burleson of Coleman, on January 26, 1946.

Survivors are the widow, Mrs. Lois Lightfoot; one daughter, Linda Lois, age 4; and his parents, P. B. and Lola Lightfoot of Santa Anna.

Lt. Lightfoot's remains arrived in Santa Anna by rail at midnight Tuesday, escorted by Capt. W. W. Harwell, a friend of the family. He was carried to the home of his parents, where the body remained until funeral time. Due to floods and winter storms in California, the body was not able to leave there until late Sunday night.

Active pall bearers were: James West, Bill White, O. T. Oakes, Capt. O. L. Hopkins, Capt. Jesse K. Barton and Thomas Wristen. Honorary pall bearers were: Lt. J. C. McClung, Maj. R. G. Neill, M/Sgt. Robert McCune, Maj. Frank Quinn, M/Sgt. Gerald J. Austin, Lt. Col. Albert Hoffman, O. L. Cheaney, Ozo Eubank, M. L. Guthrie, Jr., E. J. Haden, Rev. A. B. Lightfoot, Brown Lee Hunter, Wilbur Weaver, and Capt. Woodrow W. Harwell.

Flower bearers were: Mmes. John Wofford, Darris Perry, M. L. Guthrie, Jr., Myrna White, Opal White, Charles Wristen, Gerene Rowe, John Hensley, Ben Vinson, Clarence Jenkins, Sylvia Herring, Marvin Green and Miss

## County Judge Ira Gallaway Receives High Honor As Outstanding Young Man

### March Of Dimes Campaign Gets Underway

The committee appointed by the Lions Club to assist in the annual March of Dimes drive this week put jars in most of the business houses in Santa Anna and are making plans for other ways of raising money to put the drive over. It is considered that at least 50 cents per capita in the Santa Anna area is needed in order to raise the needed money.

The Queen Theatre is also co-operating again this year. Beginning Wednesday night of this week they will run a film on the March of Dimes, following the first feature attraction, then the lights will be turned on and a committee of high school girls will pass among the crowd with containers for donations to be put in. The chairman and his committee sincerely appreciate the cooperation of the theatre in helping to put this drive over.

The First Christian Church opened the donations last week by contributing all the money taken in their Sunday School collection. This collection amounted to \$26.00, which is a very nice start. Another donation received at the Santa Anna National Bank was a \$5.00 donation from Mr. V. L. Grady.

Anyone who cares to make a donation at the Bank may do so by depositing any amount you care to, to the Infantile Paralysis Fund. If you care to you may bring your contributions to The Santa Anna News or drop it in any of the jars in the stores.

Let's all get behind this March of Dimes drive and put it over the top.

## Lions Den

The Lions Club opened their regular meeting this week with the program chairman, Lion Clinton Lowe introducing his guests for the meeting. The program consisted of musical numbers by Misses Sandra Shields and Frances McClellan, accompanied by Miss Evelyn Oakes at the piano.

Lion John Dix of the Coleman Club was a visitor and State Game Warden John Wood of Brownwood was a guest of Lion Hardy Blue. Wood gave a talk on the conservation of wildlife in Texas and also talk about the safe handling of firearms.

A March of Dimes jar was passed around to members of the club and \$18.40 was contributed.

W. V. Priddy, Vice President in charge, stated that only one week remains in January and urged members to attempt to get new members in the club.

Lions T. K. Martin and D. W. McBride will have charge of the program for the next meeting.

## George Havens At Coleman Nazarene Church Sunday Night

Rev. L. P. Jennings, pastor of the Coleman Nazarene Church, announces that George Havens will speak at the Coleman Church Sunday night, January 27, at 7:30.

A cordial invitation is extended to the general public to attend this service.

Pauline Eubank. Full military honors were conducted at the Santa Anna Cemetery with the Santa Anna and Brownwood National Guards participating. Hensch Funeral Home of Santa Anna was in charge of arrangements.

Ira Gallaway, now serving his first elective term as County Judge of Coleman County, Saturday night received one of five awards presented by the Texas Junior Chamber of Commerce, to the five outstanding young men of Texas.

Awards were presented to Lee McLemore of Houston; William G. McDaniel of Sherman; Emil C. Rassman of Midland; Lucian Thomas of Lubbock; and Gallaway of Coleman.

The citation for Gallaway stated that he put through three measures to modernize the local county government and said he acted "with less regard for his political future than for the welfare of the people whom he served". The measures Gallaway headed were the salary increase for the county officials; modernization of the court house; and overhauling of the financial set-up in the county.

Gallaway, 28, became County Judge at the age of 28, when he was appointed to fill the unexpired term of the late Judge Lemman Brown. He had been elected to succeed Brown.

The awards were presented by Governor Allen Shivers at the Texas Junior Chamber of Commerce banquet in San Antonio Saturday night.

## Mrs. Janell Buse Joins Staff Of The Santa Anna News

Mrs. Janell Buse, recent bride of Jerry Buse and daughter-in-law of Mr. and Mrs. Grady Buse of the Trickham Community, this week joined the staff of the Santa Anna News and will work in the advertising and circulation departments.

Mrs. Buse succeeds Mrs. Gene Rinne, who resigned last week.

Although Mrs. Buse has never had any experience in newspaper work, she will do her utmost to be of service to all of Santa Anna. She and The News office staff will appreciate suggestions as to how we may serve you better.

## Elementary Honor Roll For Rockwood

Mr. M. B. Williams, Principal of the Rockwood Elementary School, announces the following students as being on the honor roll:

**FIRST GRADE:** Carolyn Williams, Mickey Steward and Kay Davis.

**SECOND GRADE:** Betty Straughan and Louise Cooper.

**THIRD GRADE:** La Quinn Cooper, Peggy McIntire, Mary Rehm and Barbara Collins.

**FOURTH GRADE:** Dixie Deal.

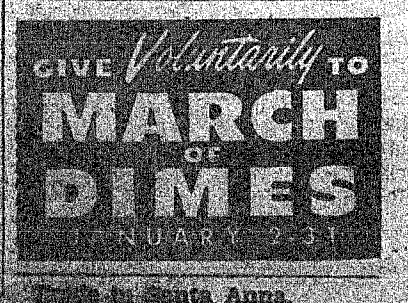

**FIFTH GRADE:** Dahlia Davis, Vita Rehm, Don Hunter and Billy McIntire.

**SIXTH GRADE:** Patricia Bryan and Belva Dene Hellman.

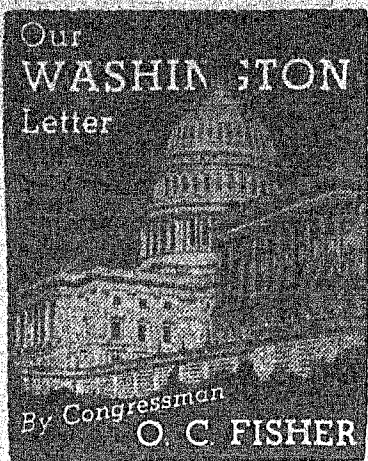

## Dorsey Hardeman Visit Here Wednesday

Dorsey B. Hardeman, State Senator, from San Angelo, was a pleasant visitor in Santa Anna Wednesday morning. Hardeman stated that he would announce for re-election to his present position in the near future.

While Mr. Hardeman was here he was extended an invitation to speak to the Lions Club on February 12 and he tentatively accepted the invitation.

**THE OUTLOOK** for a new Mexican labor agreement, and what it may have in it if one is worked out, remains uncertain. The present agreement expires on February 11.

Last week a Special Farm Advisory Committee to the Farm Placement Service, met in Washington to study the problem and make recommendations concerning the terms of a new agreement, if one is made.

On that committee are two Texans — Kirkland of Pecos and Sam Reed of Haskell County. Upon invitation, Ernest Williams

and Wille B. Wilson, of San Angelo, attended the meetings and presented the view of sheep, goat and cattle raisers.

They insisted that any new agreement include ranch as well as farm labor; that the contracts be simplified, with more choice by employers in selecting experienced men, and more latitude be given in firing incompetents. It was urged, among other things, that work contracts be lengthened and that wages, etc. be no higher for ranch than for farm work.

I joined the Texans in urging that these and other views be included in recommendations to those who do the negotiating for our Government.

**IN THE MEANTIME**, on Capitol Hill the House Judiciary Committee was busy drafting amendments to the present immigration laws with the view of meeting President Truman's demand for tighter anti-wetback laws.

Early in January at my suggestion a member of the press asked Mr. Truman what his attitude was regarding the renewal of a labor agreement to replace the present one when it expires. The President said he had pro-

mised the President of Mexico—at the latter's insistence—that drastic laws would be enacted controlling the working of so-called wet-backs in this country before any new agreement is negotiated, and that he would insist upon that being done.

When asked for my comments on that development, I stated that in my judgment the matter of what immigration laws are enacted in this country should be decided by the Congress—not by the President of Mexico. I pointed out that there's a simple solution to the so-called wet-back problem; simply work out a sensible and workable labor agreement, free of so much red tape and discrimination against employers, so Mexican workers can be processed to work on our farms and ranches where adequate domestic labor is not available. If that is done there will be little reason or incentive for the Mexican nationals to seek employment on this side of the Rio Grande without first being processed.

**OUR FEAR IS** that certain proposed amendments before the Judiciary Committee will be violative of fundamental protection to our farmers and ranchers against unreasonable searches of their premises. In other words, the proposal that Immigration officers have free access to premises without first obtaining search or arrest warrants would be a dangerous invasion of personal rights of people, and would undoubtedly cause much dissension and possible trouble. Such searches cannot now be done, without warrants, with respect to narcotics, stolen property, etc.; so why give Immigration officers such blanket rights with respect to search for wetbacks?

We need laws against illegal aliens, but such laws should apply over all the nation and should recognize the rights of the people as against invasion of their premises by officers, with or without reason. If they have good reason, they can obtain authority from Magistrates to make any necessary searches for proper arrests.

On the Judiciary Committee, now studying this phase of the proposed legislation is Congressman Wilson of Dallas and Pickett of Palestine. They are both fighting for reasonable laws that will be adequate but which will not be violative of fundamental rights.

**IT NOW APPEARS** likely that a new immigration law will be enacted within the next few weeks, but probably some time

after the February 11 deadline. Just what it will provide remains to be seen. It also remains uncertain at this time whether the present agreement may be extended pending passage of the legislation on the subject insisted upon by the President. If and when negotiations are begun on a new agreement with Mexico, it is indicated that they may be held in Washington this time.

**Carelessness May Cause Pneumonia**

Carelessness in the treatment of respiratory disease is not only foolish but very hazardous, according to Dr. Geo. W. Cox, State Health Officer, who warned Texans today to be on guard against such illnesses as lead to pneumonia.

Dr. Cox pointed out that pneumonia can and does strike with little or no warning, and in many instances its forerunner is a simple cold, an attack of influenza, or some respiratory infection.

A cold or any other infection of the breathing passage which makes one constitutionally weak, especially if it is accompanied by fever, demands the immediate attention of the family physician. To self treat and fight on ones feet a condition of this kind is to endanger life unnecessarily. It is advisable to take all possible steps to avoid respiratory illnesses since they so frequently lead to that dangerous complica-

tion—pneumonia.

Dr. Cox stressed the fact that it is important to build up, normal physical resistance by sufficient sleep, but added that the family physician should be called immediately if, in spite of such care, a respiratory disease develops.

"Guard against pneumonia which is a communicable disease. It may be acquired by direct or indirect contact with a pneumonia patient. Reduced bodily resistance resulting from habitual disregard for normal physical requirements make pneumonia doubly hazardous. A physician should be consulted immediately upon the appearance of any respiratory ailment."

Roy Newman of Dallas, visited here on business and with his mother Saturday. While here he was a pleasant visitor in The News Office and renewed his subscription.

Alba, Texas, was so named because settlers did not permit negroes to live there.

**Scholarship At McMurry Established**

On the first anniversary of the death of O. P. Thrano, his wife has established a scholarship fund for McMurry College in his memory in order to continue his policy of giving financial assistance to worthy students that they might attend college.

Mr. Thrane who served McMurry College for fifteen years, first as Business Manager and later as Vice-President, died January 3, 1951, following brain surgery.

During his years at the college it became a policy with him to give financial aid to worthy students. According to present college officials there is no real record as to how many students he helped, but it is estimated that hundreds of students were assisted by thousands of dollars.

In desiring to keep this policy continued throughout the coming years, Mrs. Thrane has given an initial gift of \$2,500 to establish the scholarship in his memory, with the intention of adding to the capital sum each year.

The first income from the fund will be available to some student at the fall semester, 1952. Students who need financial assis-

tance to attend school and are recommended by local school superintendents, principals or church pastors will be eligible for the scholarship.

Junior had just returned from his first visit to a farm where he had seen lots of pigs and several litters of offspring. To his mother's query as to what he found most interesting, he replied "A lot of little piggy banks robbing one big piggy bank."

I think of all man's customs, And this one is the creepiest: He goes to bed when he's wide awake And gets up when he's sleepest!

You should see the house we lived in when I was a kid. It was so old, it was already paid for!

Women get all the attention in this world. Just stop and think: when a man is born, everybody says "How's the mother?" When he gets married, they say "What a lovely bride!" And when he dies, they all ask, "How much did he leave her?"

Our early snowfall this year did some good. It made a lot of neighbors return lawn mowers so they could borrow snow shovels.

**High School Boxers Will Dominate Golden Gloves**

High school boxers, for the first time in history, will dominate—in numbers at least—the 15 annual Abilene Regional Golden Gloves tournament, officials have announced.

The tournament is scheduled at Rose Field House on the Hardin-Simmons campus Friday, Saturday and Monday nights, February 1, 2 and 4.

An increased interest in boxing as a part of high school athletic programs, as well as on the part of individual boys themselves, has resulted in a Golden Gloves entry list in which at least 50 percent of the contestants are high school athletes. The other half is divided between the Novice and Open classes.

What could amount to a district or regional high school tournament, with eligibility confined to athletes coming under Texas Interscholastic League restrictions, is in prospect. Close supervision regarding conduct of bouts, awarding of prizes and naming of individual and team champions will guarantee physical safety as well as protection of amateur and scholastic eligibility.

Only amateurs, including high school boys are eligible to compete in any Golden Gloves tournament. The novice class is for inexperienced boys who are not attached to a high school team. The open class is for more experienced boxers who aspire to compete in the latter State tourney at Fort Worth. Championship awards will be made in eight weight divisions of each class. With runner-up awards, a total of 48 prizes, not including the high school team prize, will be distributed.

Teams and individuals from at least 17 cities over West Central Texas have been entered for the Regional tournament, suggesting a field of some 100 contestants. The entry list will remain open until 10 o'clock Friday morning February 1 at which time physical examinations and weighing-in ceremonies will begin at Rose Field House.

Requests by boxers and coaches for more detailed information should be addressed to: Golden Gloves Director, Reporter-News, Abilene, Texas.

**High Winter Polio Demands Greater March Of Dimes**

Austin — Reports of a warning of high polio incidence in Texas, unusual for winter months, called for a better March of Dimes than ever, Lloyd Gregory, State Chairman of the polio drive, declared recently. Gregory recalled a recent warning by the State Health Officer, Dr. George W. Cox, who was quoted in an Associated

Press dispatch as warning that continuance of the high winter incidence into the new year could give the state a fast push-off toward what might become the worst polio year in Texas history.

Dr. W. A. Spencer, director of the Southwest Polio Center in Houston, this week verified a report that Harris County is having an unusual number of patients for this time of year. Galveston health officers recorded 21 cases since December 21st.

Gregory stated, that although no one can predict accurately the number of cases in 1952, it is certain that over \$1,800,000 will be needed by National Foundation for Infantile Paralysis chapters for patient care alone. "During the past four years," the polio leader noted, "Texas county chapters have been spending approximately one and one-half million dollars annually. The cost in 1952 may be even greater, considering the large number of patients being carried over who still require treatment."

"The time has come for us to examine our March of Dimes activities to make certain that no potential contributor is overlooked. Everyone must be given an opportunity to contribute voluntarily to the campaign for our success will depend upon organization in every county."

**Profits Made On Homes Sold Not Taxable Now**

Changes in the Federal income tax law make the purchase of a new, modern home more attractive to families in Santa Anna and Coleman County than at any time since individual incomes first were made subject to tax, according to O. J. Albro, local lumber and building materials dealer and member of the National Retail Lumber Dealers Association.

"Under the new law, the profit realized from selling an existing home which has been occupied by the owner is not taxable provided the entire selling price is reinvested in a new residence within one year," Mr. Albro explained.

"Until the new law was enacted by Congress, any profit received from the sale of a home was subject to the capital gains tax, which ranged as high as 25 and 50 percent, depending on how long the owner had held title to the property."

"The new tax provision is expected to encourage a number of local families to purchase new homes at the first opportunity, whereas the prospect of having to pay a substantial tax had previously discouraged many such transactions, despite the additional comforts and conveniences which a new home offers."

"In as much as the average older house sold in recent years has brought up to twice its original cost, many owners have had to pay substantial taxes after selling their homes."

"Losses incurred in the sale of a house still are not deductible in computing income taxes, but few owners have taken a loss on the strong market which has prevailed in the last few years."

**Official Highway Travel Map Offered To Texas Motorists**

Austin, Texas — Need an official Texas map? You will have an opportunity to get one when you register your car this year. The Texas Highway Department in cooperation with the County Tax Assessor-Collector is once again offering a free Official Highway Map to each registrant through a post card plan inaugurated last year.

**Highway Department and County Tax Assessor-Collector is intended to provide a means by which the Texas car owner can get something extra for his registration fee. These cooperating state and county agencies feel that every motorist who desires one of the colorful maps is certainly entitled to it.**

The Official Highway Map not only shows the 40,000 miles of state highways but many of the Texas scenic highlights for the next vacation or week-end trip. Chock-full of information, the map encourages everyone to "See Texas First."

Here is the way you may take advantage of this opportunity. Every Texas resident who registers his vehicle will be offered a return addressed post card at the same time he purchases the 1952 license plates. If the car owner so desires, he may affix a two cent stamp to the card along with his name and address and mail it to the Highway Department. In return, a free copy of the colorful Official Highway Travel Map will be dispatched to the addressee.

**Health Department Offers Help In Clean Up Drives**

State Health Officer Geo. W. Cox today spelled out in one-two-three order the requirements for a city-wide sanitation drive that will "show results in fewer flies, fewer rats, and less disease."

His plan in brief: Apply the idea of a good spring cleaning outside as well as inside the house.

The long-time exponent of clean environment said the State Department of Health would, on request, send a team of sanitation experts to survey any Texas town for health hazards.

"An untrained person might fail to see the significance of horse lots, surface toilets, or stagnant water holes where flies and mosquitoes can breed. Our people, by training and experience, know how to locate and correct hazards to community health," the health officer said.

The survey would include a check on the manner of garbage storage, collection, and disposal, and a look into food handling establishments to see if their foods are coming from safe sources.

The team, according to the doctor's plan, would make a study of the local water supply. Contaminated? If so, what's the reason and how can it be corrected most efficiently?

They would investigate the sewerage system. Do lines extend into all areas of the city? Are all residents connected? Is the plant itself adequate to accommodate the city? How is the sewage processed?

Residential and business districts would be inspected for sanitary violations, and each property owner would be strictly accountable for cleaning up his premises, with the city hauling away accumulations of trash.

"If we all begin work right now, using tried and proved methods, we can cut down the incidence of diseases caused by insanitary environments, contaminated water, and improperly handled foods. We can stage a fight against flies and stop them from spreading disease."

"We're here to help," the doctor said.

**Price Daniel Announces**

Price Daniel, attorney general, announced this week that he would make a vigorous race for the democratic nomination for the United States senate. In a hard-hitting, militant address he advocated a house-cleaning in scandal-ridden Washington bureau, lashed out at "blunders of the foreign policy in Korea and the Far East" and demanded an end to government waste and increasing taxes. He pledged a continuation in the senate of his fight for Texas to keep its tidelands for the public free school funds.

**"Wille Wrethand" SAYS**

Pumping water electrically saves you as much as four hours a day and 70 miles of carrying heavy, stopping buckets totalling about 60 tons each year. And all this is available at such a low cost. One farmer found that his water system only costs 33 cents per month to operate his 180 acres with 50 cows and 150 chickens.

The needs for each member of your family is from 35 to 50 gallons per day. Each cow on your place can drink from 25 to 35 gallons and every 100 chickens around 4 gallons per day. Lots of fresh water pumped with an electric pump means health for your family as well as energy saved for other chores.

Enjoy the comforts of city water at your farm home. Install a water pump soon. And see to it that your present system gets proper over-hauls.

As one fellow says "The water system is the turning point between a good electric user and a poor one."

**Public School Week To Be Held In March**

Fort Worth — Thousands of Texas adults will go back to school during the week March 2-8 in observance of the Second Annual Public School Week, which has as its theme "Democracy in Action".

Governor Allan Shivers recently proclaimed March 2-8 as Public Schools Week in Texas. In his proclamation the Governor said:

"One of the basic institutions upon which we rely for the furtherance of our American ideals is the public school system. Public schools, by enabling every child to gain a liberal education regardless of station in life, promote recognition of the responsibilities of citizenship and constitute a major bulwark against subversive doctrines.

"We in Texas are proud of the school system that has been developed in our state. Its success has been due to many factors—the interest of mothers and fathers in their children, the cooperative efforts of state and local officials, and the energy and determination of those public spirited men and women who are devoting their lives to teaching of our children.

**Vehicle Inspection Law Extended Until September 7, 1952.**

Austin, Texas. — Homer Garrison, Jr., Director of the Texas Department of Public Safety, announced today that the period for securing initial motor vehicle inspections in Texas has been officially extended until midnight, September 6, 1952. As originally specified, all vehicles would have been required to pass inspection before they could be registered on April 1st.

Garrison made the announcement following an opinion issued by the office of Attorney General Price Daniel which ruled that the Safety Department might legally extend the inspection date, and that no inspection certificate would be necessary for 1952 registration.

Director Garrison had pointed out in his request for a ruling by the Attorney General that it would be impossible to complete an inspection of the nearly 3½ million vehicles in the State by

**Ed Got Red In His Own "Hot Water"**

Big Ed started a "Pay-Your-Bill" campaign last week and ended up with a slightly red face. Ed's been our Water Commissioner for ten years, and for ten years now he's been getting riled up over slow payments of bills.

So, he finally decided to do something drastic about it. Last week he sent notices that if the slackers didn't pay up by Friday, he'd shut off their water.

Naturally, some still didn't square accounts. Ed ordered their water turned off, and 14 homes

went without all week end—the Commissioner's among them. Seems Ed forgot to pay his bill.

From where I sit, Ed's mistake is one we all make at times. We are too quick to accuse others while forgetting our own faults. Lots of us do it, for instance, over a difference in taste for a soft drink or a friendly glass of beer. Let's respect each other's preferences and we'll all stay out of "hot water."

April 1st. Effect of the new action will mean, according to Garrison, that all motor vehicles in Texas must be inspected and bear an approved sticker prior to next September 7th. Following that, a second inspection will be required after September 7 but prior to April 1, 1953, before vehicles can be registered for 1953. George W. Busby, Chief of the Department's Motor Vehicle Inspection Division, stated that he had, today, issued the 1000th license to official inspection stations. Another 1,500 are currently in the process of being approved.

**Born Again**

Lesson for January 27, 1952

In many places one often hears the expression, "born-again Christians". As a matter of fact, there are no other kinds. If a person is not born again he is not a Christian.

The first birth is of the natural self, the awakening, so to speak, to this natural world. The second birth is of the supernatural self, the awakening to the spiritual world, the beginning of "living unto God." Sometimes this new birth comes very early in life. Dr. Warfield, a very conservative theologian, used to think that the second birth might in some cases actually come before the natural birth. (See Jeremiah 1:5).

Dr. Foreman

A man may become very distinguished, may be a great scholar, and still not have been born again. Nicodemus is a case in point. He was a man who had everything, as the saying is; he was a judge in the Jewish High Court, a man both wealthy and respectable. But he had not been born again.

**God Is the Life-Giver**

THE English translation of John 3:7 has given many persons the idea that being born again is a duty. Now a duty is something that you ought to do, and that by your own choice you can do if you will. It's up to you. But (taking the teaching of the Bible as a whole) being born again is not a duty. It is the act of God.

What Jesus was saying (as the Greek of John 3 indicates) is that it is necessary, it is indispensable, to be born again. There can be no development, no growth, in the spiritual life unless there is somewhere the beginning of that life. You must have been born once in order to see the sunshine. You must be born again in order to see God.

The seed which we sow in field or garden must have the germ of life in it or it will never grow. But no farmer can give life to lifeless seed. God alone is the life-giver, in the first birth or in the second.

**Turn; Follow**

SOME people get this far in their thinking and then they become discouraged. "If only God can give life," they think, "what is the use of my trying to obey him? If God takes the first step then all I can do is to wait for him. No matter how much I want to be a Christian in my heart, I may not be able to, for God may not see fit to make it possible for me to do what I want to do." This is a mistaken thought.

John Calvin, as is well known, was a very strong believer in predestination. As pastor of a large church, he had numbers of people in his congregation who heard him talking about predestination, the doctrine that we are in God's hands and that spiritual life can come only as he himself begins it in our souls.

They would ask just about this same question: I want to be a Christian, but how do I know that God has chosen me? I want to be a Christian, but how can I know whether I have been born again? Calvin's answer was a simple one: If you really want to be a Christian in your heart, that is a sign, the very best sign, that you have been born again.

**Turn; Follow**

In the Bible, the commands are "Turn"; "Follow"; "Believe"; "Obey". If we have not been born again these commands fall on deaf ears. If they stir our conscience, if they make us respond, then that is a sign we have been born again.

Then can't we tell when we are born again? Certainly we can tell; just by being alive. "We know that we have passed from death unto life, because we love the brethren," said the same apostle who recorded Jesus' conversation with Nicodemus.

We wish very much we knew whether Nicodemus himself was ever born again, but students of the Bible have never agreed on this. And the reason for the uncertainty

is that Nicodemus never did come right out.

We know Matthew was born again because he turned his back on his former life and followed Jesus. We know that Nicodemus said some kind things about Jesus. We know that after Jesus was dead, Nicodemus came through with a handsome contribution for the funeral. Was that only late, or was it too late?

**Cpl. Gene R. Griffin At Home For Army-Air Force Maneuvers**

Fort Hood, Texas. — The 365th Ordnance Battalion had scarcely arrived at Fort Hood this week when Cpl. Gene R. Griffin was bouncing off to a family reunion. And he didn't have far to bounce. The Corporal's home is Fort Hood.

He is the son of Mr. and Mrs. E. N. Griffin, Hood Village. Mr. Griffin works at the Quartermaster laundry. Gene's mother is an operator at the telephone exchange. Four sisters attend Fort Hood High School.

He is here with the 365th for "Exercise Long Horn". The unit's home is Red River Arsenal, Texas.

Being sent to his home town for maneuvers appears to be a typical bit of Griffin family luck. Two of his three brothers met on Okinawa during World War II. The Griffins came to Fort Hood in 1946 from Santa Anna.

Gene has been in khaki for nearly a year, serving most of that time as a personnel clerk. He is a graduate of Killeen High.

Mrs. C. T. Conley was called to Crockett Friday, because of the sudden death of her brother, George Cheney.

**Governor Urges Aid To March Of Dimes**

Austin. — Governor Allan Shivers emphasized the impact of polio on the family, community, state and nation in officially designating the period from January 2-31 for the 1952 March of Dimes.

In an official memorandum, bearing the Seal of Texas, which was signed December 26, the Chief Executive cited the heavy expenditures of March of Dimes funds by the National Foundation for Infantile Paralysis in combating four consecutive years of heavy polio incidence.

"As a result of these attacks," said Governor Shivers' statement, "thousands of patients from previous years as well as approximately 75% of those stricken during 1951 have required financial assistance from the National Foundation for Infantile Paralysis."

"No one can predict when this upward curve of polio incidence will be curbed."

"Texas county chapters of the National Foundation for Infantile Paralysis continue to spend annually large sums of money in patient care and health educa-

tion. "During the March of Dimes, its sole source of revenue, the National Foundation for Infantile Paralysis asks for generous contributions to continue its laboratory research, professional and health education, and patient care programs."

"Therefore, I, as Governor of Texas, hereby designate the period January 2-31 for the 1952

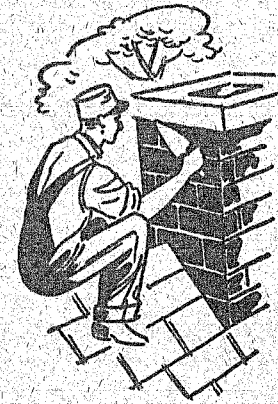

MARCH OF DIMES in Texas, and urge every citizen to contribute as he is able to the success of this worthy campaign."

## Echoes From The Alamo City

By MRS. A. L. ODER  
TO MY GOOD FRIENDS

I so much enjoyed my stay of nearly five weeks at home, and in your midst, your neighborliness, and the interest shown in my affairs, is most heartening.

Your expressed appreciation of my "Echoes From the Alamo City", have warmed the cockles of my heart, and makes me feel determined to keep on trying to "write something worth reading". I am glad to announce to my friends that it looks like things will soon be wound up here, so I can be at home permanently.

### THE JOURNEY

Of course all of you know how dry it is, in the Santa Anna area and far beyond. That condition prevails almost all the way to the Alamo City. This place has the cheapest water rate of any

primary base for air operations into Korea. This brought on an unprecedented expansion of the air base and many new problems for the weather station.

Major Mooney met the expansion with immediate and aggressive action. He made a forecast available, on a 24-hour basis, for the sole purpose of keeping the air commanders briefed on the latest weather conditions. This plan insured the maximum utilization of aircraft at a minimum loss of personnel and equipment.

Unable to obtain any weather reports from stations in Korea, he established a plan to obtain reports from pilots returning from combat missions over Korea. Using procedures established by him, these reports were relayed to the weather central in Japan for use by weather stations throughout the Far East. These reports were, for many weeks, the only weather information available from Korea and proved invaluable in planning air operations against the enemy.

Realizing the need for still more information about Korean weather, Major Mooney worked out a plan whereby forecasters would accompany certain flights into Korea to obtain tactical weather reconnaissance information. He personally performed many of the flights to insure that maximum information was obtained and that the personnel concerned were utilized to the utmost.

In addition to his duties of commanding officer and forecaster for this weather station, he performed the duties of Staff Weather Officer for the 8th Fighter Bomber Wing which was responsible, at the time, for the Air Defense of Southern Japan.

Major Mooney is presently assigned as a Commanding Officer and forecaster for a weather detachment of the 20th Weather Squadron on the island of Honshu, Japan.

## Texas Reserve Officers Needed At Ft. Hood Maneuvers

One hundred Texas Army reserve officers are needed for a sixty-day tour of active duty as umpires for the giant Army-Air Force field exercise "Long Horn" to be held at Fort Hood in March and April, Col. C. M. Culp, Chief of the Texas Military District announced today.

The service is voluntary and members of the Organized and Volunteer Reserves are eligible. Officers of the National Guard also may submit applications through their local commanding officers to the Adjutant General of the state.

Officers selected for this service will receive regular active duty pay and allowances as well as receiving credit toward retirement benefits.

Col. Culp stated that reserve officers of both combat and technical services of the Army are needed, however, the greatest number will be Infantry, Artillery and Armored Corps officers.

This maneuver will involve the use of some 150,000 Army and Air Force personnel. Realism will be the keynote of the exercise, making use of the latest in logistical and tactical methods learned in Korea.

The duty will start February 20 and interested reservists are requested to submit applications immediately to local Organized Reserve Unit instructors or write Chief, Texas Military District, Austin, Texas.

place that I know of, consequently most lawns are watered some and there are some flowers in bloom. We have narcissi in bloom and our nandinas are just loaded with their pretty red berries.

To make the view from the highway less attractive coming down, are the thousands of dead mesquites standing stark and black with limbs fallen and falling. The trees were killed in a pasture improvement program, and I suppose it would cost a sizeable amount to destroy the dead trees. I noticed that live oaks added attractiveness to the landscape. I believe today (Saturday) is Arbor Day, and we are urged to plant trees. While at home I had several seedling peach and apricot trees transplanted.

### WHY NOT PLANT A PEAR TREE

If you are going to plant even one tree soon, why not let it be a pear tree. They outlive any kind of a fruit tree that I know of and

the fruit is delicious. I read of a pear tree in New York City that was 100 years old and still bearing heavy crops.

I noticed on the way, some one had planted a large piece of ground with beautiful little pine trees, nicely spaced. "Only God can make a tree" and only He can send rain. If He sends rain, let's plant some more trees and shrubbery.

### NO SCARCITY OF CASTOR OIL

With other scarcities and restrictions looming on the horizon, you who are fond of Castor Oil can take heart, for it seems there is going to be a sufficiency of that. Brownwood seems to be the center of an expanding effort in the growth of castor beans, and the counties of south of here are having to organize and plan for their growth. I heard someone say when I was quite young, that you never saw an advertisement of castor oil, but it was widely used. By making it taste better and ad-

vertising it, maybe more would have been sold. A fine old lady living next door to us when I was a child, said she couldn't keep castor oil on the place, to oil her carriage, because the Negroes she hired would drink every drop of it.

Mrs. Alford England of Abilene, visited her mother, Mrs. Collin Price, briefly Saturday. Mrs. England was enroute to Austin to attend a newspaper convention, where she gave a demonstration on color advertising.
