Plans Being Made For Homecoming Variety Program

Plans are being made to have a Variety Program at the annual Homecoming of the Ex-Students of Santa Anna this year. Homecoming dates have been set for Friday and Saturday, October 14 and 15, with registration being on Saturday morning at the high school. All former students of any Santa Anna school is invited to attend.

All former students the association has addresses of have been notified of the dates and requested to notify officers of the organization if they have any talents in the entertainment field and would like to participate in the program. Some replies have already been received.

Cecil Curry has been appointed as the chairman of a committee to arrange a Memory Room in the high school building. In this room will be all the old school pictures, annuals, awards and other items available from students reminding them of their school years. Anyone who has anything you think might be of interest to be placed in this room, is requested to contact Mr. Curry and tell him what you have. Every effort will be made to take good care of anything loaned for this purpose and all will be returned.

Mr. Curry will likely appoint a number of other former students to serve on this committee with him, and all concerned will appreciate it if the ones he asks will work with him.

Charles Wristen has been appointed as Chairman of the Dance Committee. Others on the committee with him are M. L. Guthrie, Jr., and W. B. Griffin. It is planned to have the dance in the Armory building this year and possibly some other kind of entertainment in the gym.

The officials of the organization would appreciate it if all the local former students would make every effort to encourage all former students you know to be present. Any suggestion any one has will also be appreciated.

Her flowers were a white orchid surrounded by stephanotis.

The Maid of Honor was Mary Jo Garland of Merkel, who wore an aqua antique taffeta, designed with a fitted bodice, featuring a shoulder wide neckline traced in summer beads. Her swing skirt was tea length. She wore matching headdress and mitts and carried a colonial shaped bouquet of pink carnations.

Carroll Kingsbery's Own Mystery Farm No. 17

Carroll Kingsbery, owner of Mystery Farm No. 17, as appeared in The Santa Anna News last week, really believes in diversified method of farming. He raises small grains, numerous row crops, purebred Herefords, purebred sheep, registered Thoroughbred horses and Quarter horses.

The ranch, located 6 miles south of Santa Anna on the Whon Road, is known as the Bar K Ranch and contains some 1250 acres of land, and seven large stock tanks and one lake that can be used for irrigation purposes.

Mr. Kingsbery has lived on the ranch all his life. He was born there in 1897, soon after his father purchased a part of the old Upton Henderson estate. He inherited a part of the ranch and purchased the remaining part.

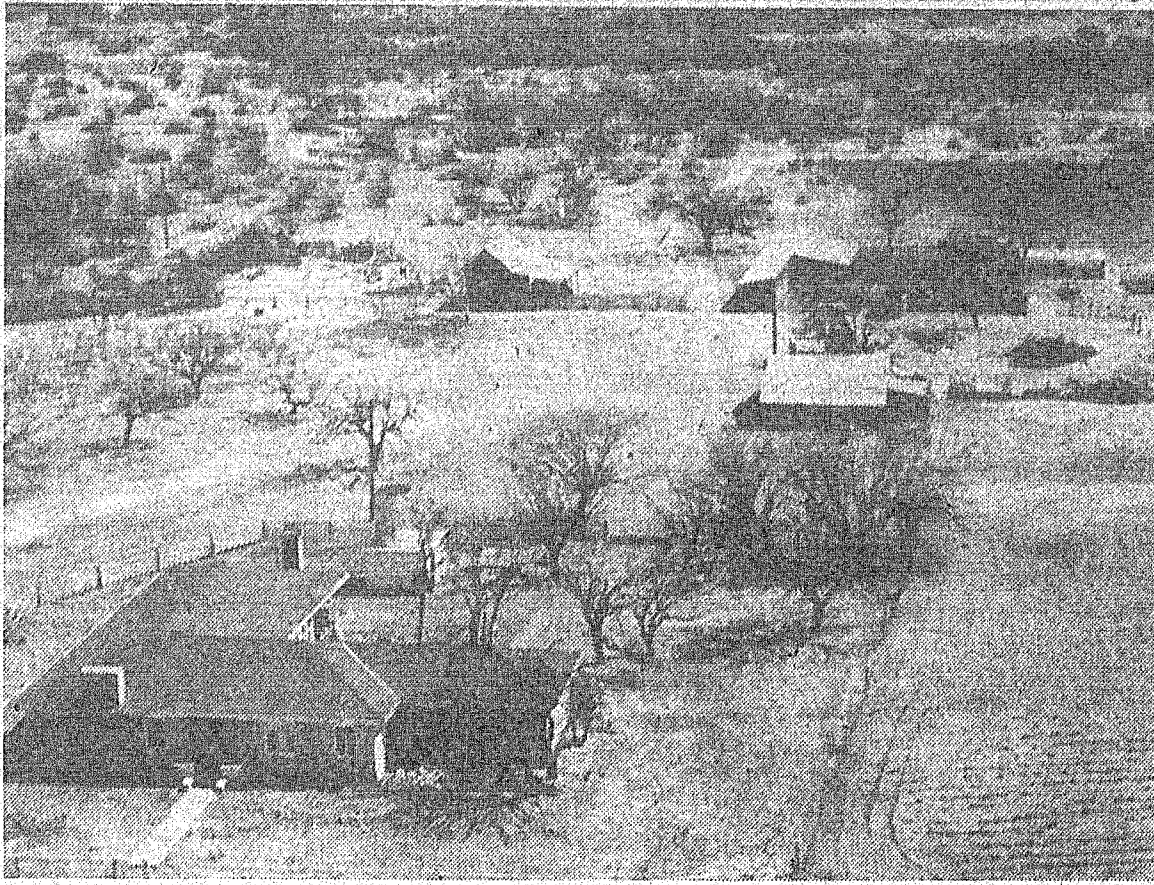

Asked when his father came to this part of the country, Mr. Kingsbery said his father drove cattle through this part of the state in about 1876-1878 and decided to settle here. He first settled on the old Turner Ranch between Santa Anna and Rockwood and in 1896 purchased the place where he lives now. The house was remodeled in 1906 and then he built his present home four years ago. The home is a modern 10-room house with all the modern facilities and he has his own natural gas. It is built of Gatesville Stone.

He said the farm was probably put under plow in about 1880's, as there was an orchard of pear trees as large as the general run of pear trees now days. He said he sold pears from the trees when he was just a boy and some of them are still bearing fruit.

He uses the Bar K Brand on all his livestock and receives mail from numerous foreign countries addressed to The Bar K Ranch.

Asked why so many water

The Home Of Mr. And Mrs. Carroll Kingsbery

tanks on the ranch and he said in the winter of 1921-22 he had to drive cattle four miles every other day to water for about four months and that cured him. He now has water where his stock does not have to go more than 1/2 mile in any direction.

The Kingsberys are members of the local Methodist Church. He is a member of the Farm Bureau, Breeder-Feeder Organization, four cattle associations and two horse associations. At present he runs 51 head of registered Polled Herefords, 225 head of purebred Rambouillet sheep, three registered Thoroughbred mares and three registered Quarterhorse mares.

Mr. Kingsbery said sheep will make more money per investment than the cattle, but he enjoys working with all the livestock he raises.

He raises more small grain than any other crop. However, he has several acres in sorghum and sudan and this year he put 50 acres in Blue Panic grass and will make this into permanent pasture. He plans to put about 150 acres in Blue Panic grass in the next few years. This will be on land with shallow soil, where the grass has made excellent re-

turns on about 20 acres tested last year. He said it furnished good grazing and he also harvested a nice crop of seed in the summer and then got grazing off the land until after frost. He does not use any fertilizer.

In 1924 he married Miss Marguerite Barnes and they have three children and three grand children. Their oldest

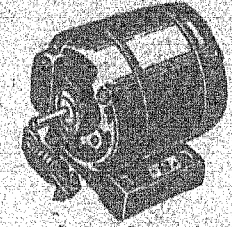

daughter is married to J. T. Garrett of Santa Anna and they are living at Lake Jackson, Texas, where Mr. Garrett is employed and is also commander of a National Guard Company recently formed in that section of the state. The Garretts have two sons, Mike and Charles. Their only son, Maurice, is married and lives at Strawn, Texas. He has one son, Barnes. Their other daughter, Kay, will be a freshman in high school this fall.

Mr. Kingsbery was in military service during World War I, but was not stationed outside the United States. His son-in-law, J. T. Garrett, was in the Air Force during World War II and served in the China-India-Burma Theater. His son, Maurice, was in military service during the Korean Conflict and served on the West Coast, inspecting foods that were shipped to Korea and Japan.

Mr. and Mrs. Hardy Blue visited Sunday with their son-in-law and daughter, Mr. and Mrs. Oran Henderson and Ora Beth at Snyder, Texas.

Dr. and Mrs. L. O. Garrett left Sunday for Temple where she is in the hospital and had surgery several months ago, having a check-up and treatment.

Standing Alone

Lesson for August 14, 1955

THEN what? What happens next? What is going to happen to me if I don't do what you want? What does "or else—" mean? If the person who asks such questions doesn't get answers he likes, but goes right on in his determined way, we say he is brave. If a man does what he does when everybody else is doing it, when he gets well paid for it, praised and rewarded, we do not call that brave. But when a man does what he does knowing that he will get hurt because he does it, we call the man brave.

Dr. Foreman says that he will get hurt because he does it, we call the man brave.

Two Kinds of Courage

There are two kinds of bravery or courage. One we call physical courage, the other is moral courage. The physical hero dashes into a burning building or into a swift river, to save some one else at real peril to his own life. He may refuse to disclose an important secret even though he is being tortured to make him reveal it. The moral hero stands up for what he knows is right even though this makes him unpopular or ridiculous in the eyes of people whose good will he would like to keep. We might say that physical courage is determination in spite of the prospect of bodily pain; moral courage is determination in spite of the prospect of mental or spiritual pain. Sometimes the two are combined in the same act and the same person, as with Daniel in the stories assigned for this week. Moral courage being rather more unusual than physical, let us take a look at that, especially.

Loneliness

Standing with the crowd never takes courage. Standing alone against the crowd always calls for courage, no matter what the crowd is carrying. Are they picking up stones? Then facing them calls for physical courage. Are they laughing their heads off? Then facing

them calls for moral courage. The one thing that most people are afraid of more than anything else is being laughed at. Ridicule can be as cruel as any instrument of torture. Even men with a keen sense of humor don't like to be made fun of. Why do people who really know better, who down in their consciences know it is wrong for them to drink, drink and even get drunk all the same? The reason is, they can't stand being laughed at. It takes courage to stand alone against a laugh!

Contempt

Most men do not like to admit having made a mistake. It sounds a little like admitting one was a fool. And it has been observed that most men can more easily admit to being knaves than fools; we would almost rather be wicked than look silly. We can stand opposition more easily than we can stand contempt. But that is exactly what calls for moral courage in the man who stands alone. No one likes to be looked down on, no one likes to be thought of as so stupid or out-of-line that no one will respect him. But that is what young Daniel was facing in Babylon, it is what many today have to face. To take our temperance illustration again: Why do many people drink alcoholic liquors against their better judgment? They can't stand up against the crowd. Within the memory of living men there was a White House hostess who would not serve liquor at State dinners, no matter who was there. Many foreign ambassadors wrote home contemptuously about it; but she stood to her convictions. Not many have courage of that sort.

Loneliness

"Dare to be a Daniel, dare to stand alone!" is easy to sing, hard to do. The sheer weight of numbers overpowers people. They will climb aboard any bandwagon if it looks crowded; they will not venture into a heavenly chariot if they have to ride alone. It takes a little moral courage to stand up and be counted with a minority. It takes a great deal more to stand up and be counted THE minority of One. But such courage is possible. Daniel showed it; he showed that his moral courage was matched by his physical courage. And after all, he was not in the minority after all. God was on his side, or rather he was on God's side; and that made the difference. Many a time a good cause has been lost not by weakness but by cowardice; but on the other hand good causes have been saved by men who believed in their rightness so deeply that rather than deny their faith, they would be buried alive in loneliness. CEMETERY IMPROVEMENTS

A drive or walk through the Santa Anna cemetery will reveal some important work being done. Mr. and Mrs. C. L. Eeds are donating calche, which is being put on the streets and the

walks in the north part of the cemetery and wherever else needed to keep the ground from washing. The calche should help some in keeping down weeds.

Caliche is also being put from the attractive entrance down the main street to the rear and from the tool house to the north fence. The work is being sponsored by the Mountain City Garden Club, an organization that has perennially manifested their interest in the cemetery. Other organizations backing the effort are the Cemetery Association, the County Commissioner, Walter Holt, and the City of Santa Anna. Enzy Brown continues faithfully at the head of the Cemetery Association.

From where I sit... by Joe Marsh

"Light" Snack For Ducks

Coming back from Balesville the other night I noticed a powerful light at Whitey Fisher's Duck Farm. Seemed to be shining out over the water.

I stopped to ask Whitey what went on. He took me down to his pond and pointed out a 200-watt bulb—rigged up on a pole about three feet above the surface. The light was attracting thousands of insects for the ducks to eat.

Seemed kind of odd to me—but Whitey was enthusiastic. "Best idea I ever heard of," he claims. "Keeps the feed bill down—and

the bug population, too. Why do you suppose I never thought of it before?"

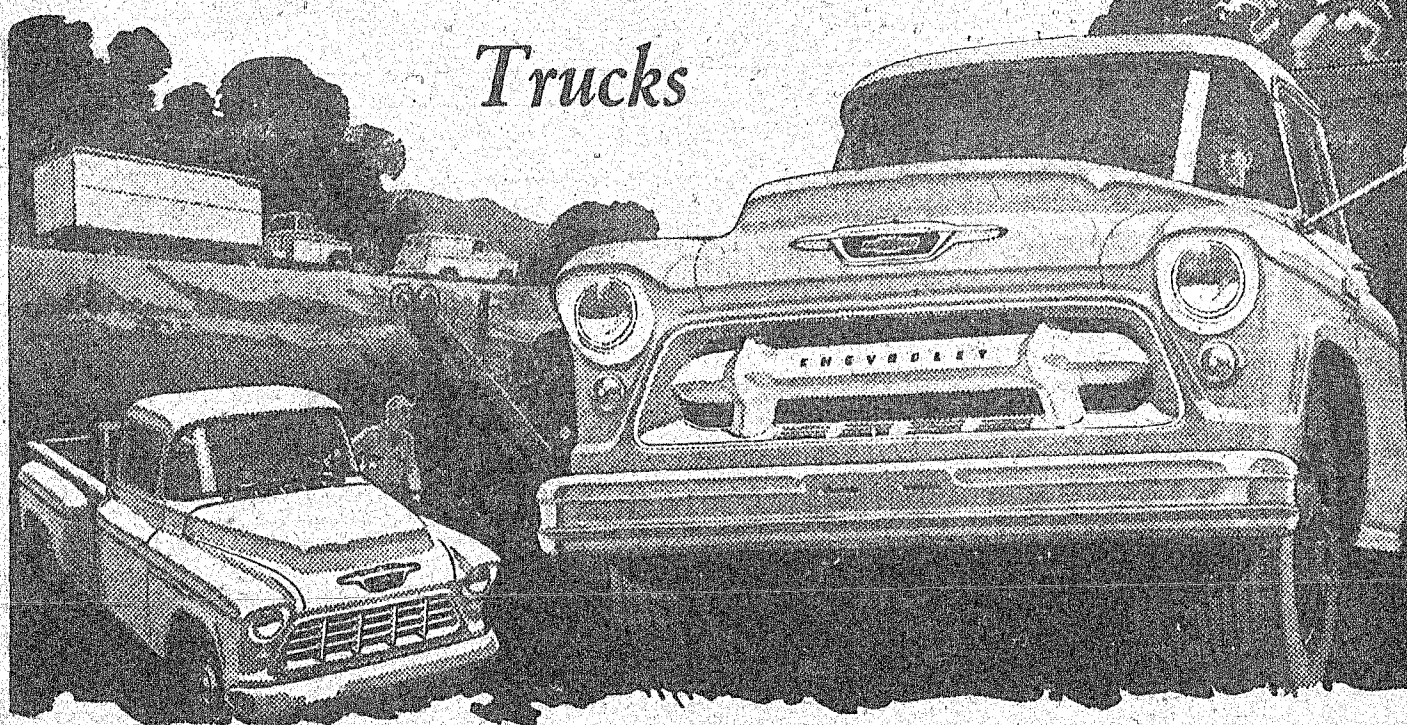

From where I sit, Whitey's the type who's always ready to pioneer a worth-while new trick. Me, I stick to old methods. Just a case of personal feeling, I guess... like the way you may prefer coffee with meals while I always prefer a traditional glass of beer. Not that I'd claim you're wrong—respect for the other man's opinion is my "guiding light."
