

62 Year Old Gorman Land Mark Being Razed

The Old Ross Lumber Yard building is being razed this week by members of the First Baptist Church.

The weather-battered two-story frame building has been given to the church by the children of the late Tip Ross, who was for 40 years, a prominent business man and a deacon in the local church.

The donors of the family are Rueben Ross of Brownwood, Brooks Ross of Plainview and Mrs. Jack Ross Miller of South America.

Rev. Huron Polnac, pastor of the church, stated that the salvaged lumber and shelved lumber and other equipment will be sold and money from sales will be added to the local Baptist Church Building Fund.

According to Tom Bennett, local verbal historian, Gorman's first lumber yard was a shed built by Terry Miller of De Leon on the railroad, who later sold to Charlie Gray, who erected the present site in 1903, and sold in 1905 to Eppler Mercantile and Associates, Tom Hamrick, Ted Barton, Rufus Eppler, Quinton Eppler and T. L. Gates.

A decade of bad years followed, then, Mr. Ross, who also came from De Leon, bought the lumber yard just in time to profit from the easy money and home building of the oil boom days of 1918 and 20's.

Mr. Bennett, a teamster in the early days, recalls that he and Ossie Snell took a car load of lumber for H&TC Railroad, hauled and unloaded it for a sum of \$5.00, and as late as 1905 settlers were clearing and breaking land with oxen. Bacon could be had for 8c a pound and flour \$3.00 a hundred pounds, corn 65c a bushel. From his parents home on the old Eastland-Comanche road, he has seen many cattle drives which were sometimes days in passing.

The peach tree beside the building has been producing fruit for as long as anyone can remember and has never failed to bear fruit. It has been protected from the winters late frosts by the lumber yard building, and has provided many good peaches for youngsters who had the strength to climb the high wall inclosing the lumber yard to reach the branches to pick the fruit.

Folks of long time residence (lest you resent the moniker Old Timer) if you know of a place which merits an Historical Marker see our publisher Gene Baker, who is a member of the Eastland County Historical Society.

Request For Return Of Encyclopedias For Local School Library

I find that a great number of reference books are missing from the High School Library. You may not realize the fact that these single volumes cannot be purchased. When a volume is missing, the set becomes useless as far as that volume is concerned. I would like very much to complete these sets so that our library might have an ample supply of reference books.

I feel sure that most of the books that are missing can be found and return to the library. I am sure that the books were taken home in most cases for a special report and were left there. I am making a plea to all families in the Gorman School District to take a good look around the house and see if any of the books listed below can be found. If any are found, they may be left at the Gorman Progress office.

The books that are missing are: Vol. 1 & 19 of the New (red) Encyclopedia Americana.

Vol. 2 & 9 of New (red) World Book.

Vol. 13, 16, 28 & 29 of Blue Encyclopedia Americana.

Vol. 4, 7 & 20 of the old (blue) World Book.

Vol. 2, 9, 12, 14, 21, 26, 28, 29 & 30 of the brown bound Encyclopedia Americana.

Vol. 5, 7, 14, 26, 29 & 30 of the green bound Americana.

Vol. 13, 16, 17, 18, 19 & 20 of the Compton Encyclopedia.

Summer cooking make your kitchen "like an oven"?

Change to cool flameless electric cooking!

Women who cook electrically will tell you that electric cooking makes a big difference in kitchen comfort during hot weather. That's because flameless electric surface cooking units transfer heat by direct metal-to-metal contact with utensil bottoms. They send their heat through the utensils and into the food, not into the kitchen air. Electric oven cooking is cooler, too. There's no flame, so no intake and exhaust of air is needed to support combustion. The oven is insulated all around, including the bottom, to keep heat inside where it belongs. See your electric range dealer soon and start cooking the cool, flameless electric way!

Section 5. Nothing contained in this Resolution shall be construed so as to extend the term of office of any officeholder previously elected to a two-year term.
