PRESS POINTS . JOE BENNETT, Publisher -J-

"There'll be a hot time in the 'ole town tonight could surely describe thr huge number of folks on hand Thursday evening when the more than 600 folks in the community and surrounding area gathered for the festivities at Blackwell Hospital and Clinic. The whole program was a great big success from the beginning tea at 5 p. m., then the great flying machines, the musical entertainment, through the marvelous meal that everyone enjoyed so very much, then the entertainment continuing with dancing in the street. All this besides the introduction of special guests and the new doctors which was done so magnificantly by Bill Dunaway. Folks really appreciated his heartfelt remarks. And if the size of the crowd is any kind of an indicator, then the Blackwell Hospital will really be a busy place for a long time to come for there were a "bunch" of folks present.

Even the mix8up in the spelling of Dr. Susan Callaway's name was forgiven. We had it Calloway in the all the places in the paper and it should have been Callaway.

Everyone had a marvelous time and folks were saying that everyone should get tohether more often. Now if we can just talk Bill Nemir and Bill Dunaway of the Small Hospital Associates into sponsoring another free dinner, then we will be all set. Our thanks and appreciation to these fine gentlemen for all the effort and time and otherwise that they have put forth in behalf of the hospital and clinic and complete medical care facilities for our com-munity. Again we say a big thanks.

Another "great big thank you" goes to the Good Lord for the real fine rain received in parts of this area on Tuesday. Some parts of the community received as much as two inches while other parts received only a small amount. But whatever the amount we thank God for it as the moisture really helped the peanut crop as well as everything else. -J-

Heard a lot of good comments on the paper last week and we sure appreciate all of them. However, without the cooperation of the advertisers it would not have been possible. So let them know you appreciate them the next time you are in the stores.

We hope to be able to put a lot of pictures of the activities taking place at the gala on Thursday in this weeks paper and if the pictures came out good, there should be several pictures elsewhere in this issue which would be the finishing touch to a marvelous celebration.

Guess most folks have noticed the new addition on Highway 6. D. B. Warren in building a watermelon and cantloupe shed. It will be a permanent market. There have been large amounts of melons and cantaloupes sold here the past few years.

-J-And remember to smile - because God Loves You!

SNAKE!!!

FIVE FOOT TWO EYES OF BLUE - The five foot two inch rattlesnake that measured seven and one half inches in circumference was killed Friday by Charles Little in his mothers Mamie Little's garden in the Kokomo Community.

Mrs. Little was gathering corn when her dog spotted the snake, Mrs. Little screamed for help and a near neighbor heard her and called her son, Jimmy. She and the dog kept the snake occupied until Jimmy could get there and shoot it. Jimmy says he has seen many snakes on the farm, but this was the larget one he had ever killed. We are sure Mamie won't have any trespassers in her corn field, after seeing this type of snake that inhabits this area.

GORMAN PROGRESS, JULY 19, 1979

Howard Community.

William said that while we was working (I question this part) the other day that he saw a man sliding down the highway on his behind. One of this mans friends described it as looking like an elephant with worms. Anyway he slid about a mile before they figured it out to a little old guy on a lawn mower. Then it made sense, cause you see the highway being mowed all time. Happy, from your Friday night activities, I'd say you must have hit a highly electrified fence. They said your eyes were on a stem for days. You know, Happy told us the other day that we wanted to marry the same kind of girl that his Grandpa married. I told him that he wasn't apt to find one cause they don't make them anymore. He said, "Oh, yes they do, cause Grandpa just got married last week." He said that he and Miles were out working the other day when Miles said, "We forget to lock the safe." Happy said, "Oh, that's okay. We're both here. When they first came down here Miles asked us if we have a criminal lawyer here. We told him that we thought so but so far we hadn't been able to prove it on him yet."

Williams old Tomcat disappeared the other day so I went over to the local newspaper to place an ad offering \$1000 for his safe return. The clerk said, "That's an awfully high price to pay for the return of a cat." I said, "Not this one. I took him fishing with me the other day and I ve won't be back."

H. B. 1060 — IMPLEMENTATION OF THE "TAX RELIEF" AMENDMENT

HB-1060 as passed on May 28, 1979, implements the provisions of the Constitutional Amendment approved in November of 1978. Several of the provisions of HB-1060 reguire immediate action on the part of the school districts and other jurisdications. Below is a section-by-section summary of the bill that includes comments on which jurisdictions are effected, when the provisions take effect, and comments on actions required by the jurisdiction.

Article 6 - "Definition of Residence Homestead"

Applies only to school districts

Article 6 defines a residence homestead as a structure or separately occupied portion of a structure used as a residence (together with land and improvements used in the residential occupancy of the structure). To qualify as a residence homestead, the property must be owned by one or more individuals, be designed or adapted for human residence, and be occupied as the principal residence by the person qualifying for an exemption.

Article 6 also provides that an owner is one who holds either record or equitable title, and that a homestead is not lost if the owner temporarily stops occupying it.

Article 6 is immediately effective and requires no action from the jurisdiction.

Article 7 - "Residential Homestead Exemptions" Applies only to school districts

Applies only to school districts

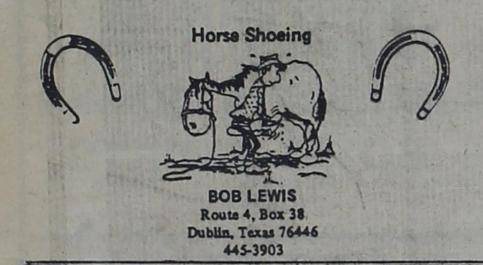

Article 7 applies only to school districts and provides that all individuals are entitled to an exemption of \$5,000 from the market value of their residential homestead. In addition, it provides that all persons 65 or older or disabled (under a disability for purposes of payment of disability benefits under Federal Old-Age, Survivors and Disability Insurance) are entitle to an additional exemption of \$10,000 from the market value of their residence homestead. A person who is over 65 and disabled may receive only one \$10,000 exemption, and only one such exemption may be received per family, per residence homestead.

8. Q: Prior to the passage of HB 1060 we were told that a rural homestead would include up to 200 acres of land and the improvements. Is that still true?

A. No. Under the terms of HB 1060, for the purposes of the \$5,000 and \$10,000 homestead exemptions, a residential homestead has been defined as the residence and the land used for residential purposes. This would limit the amount of land included in the homestead to the area immediately around the residence (probably no more than 1 to 5 acres).

ST. JOE HOMECOMING

St. Joe's Annual Homecoming Service will be July 22, 1979. Morning services will begin at 10:45 a.m. with the Rev. George Brazell of Desdemona bringing the morning service. Lunch will immediately follow morning service with enjoyable afternoon activities planned.
