preserve the win, they came through and stopped the Buffs. Its hard to pick out just one or two players on defense because most all did their job when they were tested.

The Panthers will have another tough district game on October 22 when they travel to Santa Anna to take on the Mountaineers following a much needed open date to rest up.

The Panthers came out smoking on Friday night when they hosted the Cross Plains Buffaloes in a District 8-A contest and scored on their opening drive, but then let down and the Buffs went ahead 8-6 before the Panthers woke up and came back to take the victory 26-16 before a fair crowd at Brogdon Field.

The Panthers took the opening kickoff and moved right down the field, going 82 yards in 10 plays with Mark Swanner getting the final 7 yards for the TD with 8:16 left in the first quarter.

However, the Big Red seemed to go flat after the initial drive and just could not muster enough offensive power to score.

Without their usual offensive punch, the first half ended with the Panthers hanging onto the 6-0 lead.

Then following the intermission, the Buffs took the kickoff on the Gorman 47 yard line and moved the distance in 10 plays, featuring an outstanding run of 27 yards by Tommy Johnston, before Johnston carried it for the TD on a 1 yard blast into the line with 8:17 left in the third quarter.

The Panthers came back to reality following the Buff score and decided to get cranked up as they took the kick on their own 33 and went the distance in 8 plays with Swanner getting the final 6 yards on a run with 4:04 left in the third. The drive featured a pass of 21 yards to Eddie Pettit before Swanner took it in for the score from the 6 yard line.

The Panthers came back after recovering a Buff fumble on the 20 and scored in one big blast as Swanner took the handoff and raced 20 yards for the score with 3:42 left in the quarter.

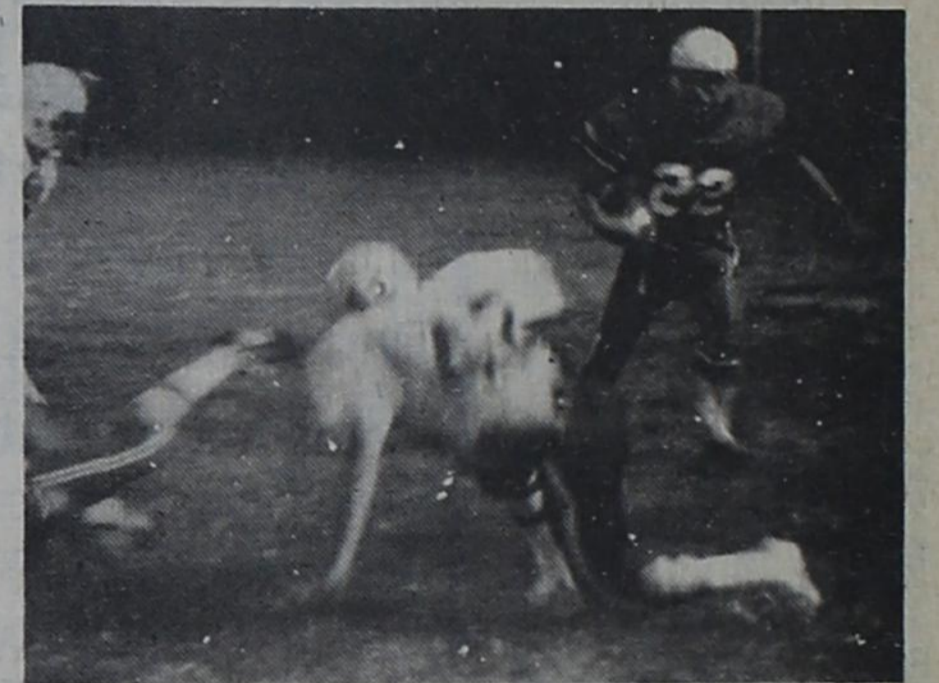

Then the Buffs got things going and went 68 yards in 13 plays with Dennis Koenig getting the final yard on a QB sneak play with 9:40 left in the fourth. Johnston added the two pointer on a run and Gorman's lead was cut to 20 to 14.

The teams exchanged possessions before the Big Red could get cranked up again. After Dane Gressett intercepted a Buff pass at the Buff 36, the Panthers scored in 5 plays with Swanner again getting the honors, scoring from 5 yards out with 4:38 left in the contest to ice the victory.

The Panther defense looked good most of the way except for the let down in the mid part of the game. However, when they had to hold the Buffs later in the game to

I'll tell you.

Tell the editor to just hang in there with his editorials. So maybe he does make a mistake once in awhile - who is counting.

And the Senior Citizen is still doing "his thing" and so well, in spite of his faltering eyesight and the falling around, he's been doing lately - tell him to take care - cause I'd sure hate for him to not write his memories.

We won't make the homecoming, but our hearts will be there. So saddened about those dear friends who have passed away.

Tell all your family hi for me. I see when they are in the hospital or released from it, and when they visit, etc.

We're really proud of the athletic teams Gorman puts out, girls and boys. Its a great little town. I ought to know, I grew up there and have nothing but happy memories.

Will see you if and when! Love, Christine Kinser Don't let that critic read this, O.K.!

Thanks for the kind words. It makes us feel like we are doing something worthwhile.

And the rains came, seems to be the topic around the coffee table and elsewhere this week as we have received good rains in the area. It sure has perked things up in the community, even though it may be too late for doing a lot of good for peanuts.

The Lions Club will hold their annual Broom and Mop Sale to benefit the blind this Saturday, October 16th. The house-to-house sale will begin around 8:30 or 9 a. m. and the truck will be located downtown across the street from G&L Auto for those who want to look over the merchandise while shopping or who were not at home when the Lions knocked on their door.

Also we urge everyone to remember the PTO's Fall Fair slated for Saturday evening, beginning at 6 p. m. with the coronation, auction and masquerade getting underway at 8 p. m. This is a most worthy project and it deserves all the support that we can give.

We will try this week to get some pictures of the homes being completed in the area if the camera works. Two or three are now completed and I think we can get a good picture now that all the "Honey-Do Boys" are completing their clean-up of the yards, etc. and getting the landscaping done.

We wish to welcome the new business of Gorman Automotive Repair located in the ole Thompson Hardware building behind Jay's Grocery. Larry Rainey and Jim Blackshear will be operating the business and will appreciate your patronage.

Received the following letters the past week and thought they should be included in the column.

Dear Joe and Progress Staff; Just want you to know we like the Progress just as it is! And if the typist hits a wrong letter, we're smart enough to know what the word is, really!

If we want news from a big city we read their paper. The Progress has PEOPLE news to keep us aware and concerned with our friends and neighbors. This is why a new family, Mr. and Mrs. J. C. Akers, who have moved back to Gorman from big Odessa, said "I had forgotten how friendly people can be."

"Remember to smile, because God loves you" and we do, too.

Wade and Letty Craddock The other letter read:

I wish we could have seen you and your daughter while you were in California. Hope you enjoyed it out here. Did we have an earthquake for you? That's an experience,

Bob Glasgow promised no new State taxes. There were none.

I promised before my first term in office that there would be no new state taxes and I upheld that promise. During my first term I supported legislation repealing the state property tax and exempting livestock, poultry and farm implements from taxation. I also sponsored legislation that would have exempted small businesses from the utility sales tax. I promise to continue this record of fiscal responsibility.

Some facts that
will curl your hair.

If you've been thinking about giving yourself a home perm, there's something you should know. The reason perms curl your hair is because they literally rearrange the molecules within the hairshaft permanently. Whether you end up with soft waves or frizz depends on how, and how much those molecules are rearranged. At our salon, our stylists are trained in the chemistry of permanent waving. They don't take it lightly. Before each perm, you can ask them to analyze your hair to be sure it can take the chemical change and come through it beautifully. So if you want the curl and easy care of a perm, come to our salon. We recommend perms by Redken, the scientific hair care company. So don't risk your hair's beauty. Come into our salon and make a permanent change—for the best!

Memories

Hil How's all on this Sunday morning, after the shower? My, how we need so much moisture now, to put a season in the ground and rejuvenate the pasture grasses and weeds for winter grazing and also to sow the peanut fields to help hold the soil and keep it from blowing. That would help all of us.

I remember one time on the farm I had a 4 acre field fenced off. So in the fall, I planted two acres in Vetch on West end and East end I planted two acres Australian Winter peas. In early next spring I had some sows with pigs and they would eat those peas. They would walk thru the vetch to get to peas. Sure made pigs grow. You see gate was on West end of field. When I plowed the peas and vetch up, I turned it under, then after a shower I opened gate for stock to graze, they would walk thru part that had been in vetch to get to part where peas had been planted. I was always experimenting on such as that. Always trying to improve production and the same time trying to improve my land.

That was one thing reason I quit peanuts. I went to cattle, sheep, goats, hogs and chickens. That was when I found out that was the best way for me.

Last week on Bees, the best for honey raising here is the little Black Bee. Tho they are awful fighters. The Scientists say a Bee can find a certain place where nectar is very plentiful and they will go back to hive and make a dance and it tells others how far it is and the direction. I know I have taken old honey in a sealed bucket probably a mile from hive, trying to locate a Bee, two and in a few minutes a Bee will come and you can dust him and in a few minutes she is back with several others. The African Bee can sting and keep it up. Tho U.S. Bees sting one time and die. The African Bee gathers more honey. Tho they will never live in U.S., cannot stand cold weather. We do not need them.

I told Graydon that I heard Jack had lost his marbles. He said that he had a few left. As he went by Jacks house and he was wearing

knee trousers, bare footed and a bald head. He was playing marbles and was trying to cheat as usual. They told him to knuckle down and Jack said if the marbles was his, according to Hoyle he had the right to do as he pleased. They wanted to know where Hoyle was. Jack told them he was Bookies Bald Headed Brother. They all knew Bookie to be as straight as Okra Head and about as slick. So the gang said you win "Little David."

I notice where in Mass., where Medicare, Stamps, etc., are running rampant. They found some witch with a \$50,000.00 Bank account drawing food stamps. Out of 600 investigated 113 had large savings. Why not open prison doors and let them in and fine them very heavy.

Our deepest sympathy goes out to the O'Neal family in the death of, John O'Neal, born in Gorman. May you look to the Master of All in you time of sorrow.

My! They Big Red handled the Hornets rather rough. You must have clipped their stingers early in the game. Congratulations. THE RAMBLING REPORTER

Hil! This Sunday after the little sprinkle Friday night. We have

just one good hope; it is getting one day closer each morn, the sun comes over the eastern horizon.

Thursday, my bud Roy, Big Spring, and nephew, Dalton Sellers of Los Angeles came by for an enjoyable visit. Also Mrs. Mauney and her bald headed husband also came.

Jack is No. 2 Bookie now. As Mr. Bookie Landry is with his wife at Lometa. As she is seriously ill. We wish her a speedy recovery. We have several here that are on the sick list. I have been where I stagger for last several days. I have missed singing, etc. so many times that I always enjoy.

We have such a fine dedicated personal bunch of employees here. The food is fixed and seasoned right. Tho there are a few times that meals may not please us all. Just remember the depression days and you will really enjoy them.

Chrysler workers are striking. The U.S. billed them out. So let them strike. We have paid them too much and it will never be paid back. Just like New York State. They borrowed billions and no pay, just Santa Claus.

Our sympathy goes out to John O'Neal

UPPER LEON SWCD DIRECTOR ELECTION TO BE HELD OCTOBER 14

An election for a director to serve in Zone 4 of the Upper Leon Soil and Water Conservation District is scheduled for Thursday, October 14, at the Recreation Building, First Baptist Church, Rising Star, announced Norman Moore, Chairman of the Board. The election will be preceded by a tour of oak brush controlled by Grassland pellets at 5:00 p.m. The group will return to the church for hamburger supper at 6:00 p.m. and the election will be held at approximately 7:00 p.m. Refreshments will be furnished by the Production Credit Association.

State law decrees that to be eligible to vote in a soil and water conservation district director's election, a person must own agricultural land within the zone where the election is being held. The person must also live in a county all or any part of which is in the district and the voter must be 18 yrs old. Zone 4 covers approximately

family, and Minnie Newell family. May you look to the Master of All during your time of need.

Poor Roland, Tho the residents say we will pay their debt. I object to that, as it is paying money to a communist Country as well as a Catholic Religion debt. You are supporting a communist and a Religious organization. U.S. Constitution says keep Church and State separate.

Gorman To Be Represented in County Fair Oil Show Parade

The Eastland County Fair and "Oil Show Parade" seems to be the talk of Eastland and the surrounding area, what with plans being made, floats being designed, booths being prepared, and overall plans being developed.

And there is good reason, because this years parade should be bigger and better than last, and to top that it will take a lot of time and dedicated people to pull it off. Many, many entries have been received for the parade and with the deadline drawing to a close there are bound to be those who have not sent in the entry.

Reminder: anyone the west half of Eastland County and includes the cities of Rising Star, Cisco, and Carbon.

Current members of the board of directors of the Upper Leon SWCD are Norman Moore, Chairman; Sidney; Edwin E. Jones, Vice-Chairman, Dublin; J. W. Sadberry, Secretary, De Leon; George Steel, Rising Star; and W. D. Brown, Gorman.

The purpose of the Upper Leon SWCD is to promote sound soil and water conservation programs on farm and ranch lands and to serve as a voice for farmers and ranchers on conservation matters. All conservation programs managed by the district are of a voluntary nature of the landowner or operator.

**ARMADILLO TROT
SET OCT. 23**

Preparation are underway in Stephenville for the running of the third annual 5K Armadillo Trot, scheduled for Saturday, Oct. 23.

"We hope to have some entrants from Gorman this year," said Steve Young, president of the Stephenville Runners Club, "since we've had runners in the past from both Dublin and De Leon."

The 3.1 mile race is co-sponsored by the Runners Club and Town & Country Bank. It will begin at 9:30 a.m. at the Hardin Drive entrance to the Tarleton State University Memorial Stadium parking lot, following race day registration and check-in of pre-registered runners from 8:15 to 9:15 in the parking lot.

Entry fee is \$6.00, which includes a race cap of all runners. There will be no extra charge for late registration on race day.

Awards will be given to the overall male and female winners, as well as to the first three finishers in each of the following age categories (male and female): 15 and under, 16-22, 23-29, 30-39, 40-49, and 50 and over.

The race will follow a loop course over paved streets on the northwest side of Stephenville. Split times will be given at the one and two mile marks, and liquids will be provided both before and after the race.

Entry forms and more information are available from Steve Young, Box 1115, Stephenville, Texas, 76401. Entry forms are also available at Sunbelt Savings offices in Gorman and Dublin, and at Town & Country Bank and Presley's Sports in Stephenville.

**SENATOR BOB GLASGOW
WEEKLY REPORT**

For the next several weeks, I will be discussing with you the Six proposed Constitutional Amendments that will appear on the November 2, 1982, ballot. From this information, it is hoped you have enough facts to decide how you wish to vote on the issue.

The first reference is how the proposed amendment will be stated on the ballot, and the rest is a discussion thereof.

Amendment No. 1.
"The constitutional amendment repealing the state property tax."

This proposed amendment repeals the State property tax. This tax is pledged for funding construction at 17 named state universities. These 17 universities do not participate in the Permanent University Fund. North Texas State University and Texas Woman's University are the colleges from this Senatorial District that received funding for construction from this tax.

This property tax is the only remaining state property tax that is set at a value of 10 cents per \$100 evaluation. In 1979 the Legislature attempted to effectively repeal the tax by reducing the tax rate to .001 cents per \$100 evaluation (thus making the tax revenue so minute that the amount would not even justify collection). Legal scholars and subsequently the Legislature agreed that this "back door repeal" of a part of the Texas Constitution could not be done by statute but must be done by submission of voters for a repeal. This tax has not been collected since 1979.

Underlying arguments for and against the repeal are as follows:

FOR

(1) Property taxes are the primary means of support for local governments, which are generally hard-pressed for revenue. The State, which has other means of support, should not compete with local governments for taxes by continuing to tax already overburdened property owners.

(2) The need for dedicated construction funding for universities is not as great as it once was. The Constitutional provision that is being repealed was passed in 1947, at a time when college enrollments were booming because of the GI Bill and other reasons. In the 1980's the colleges are not expanding nearly as rapidly as they once were.

(3) Constitutionally dedicated funds unnecessarily limit legislative discretion to appropriate funds where the most need is shown. Also, in the appropriations process the needs of the colleges can be compared and weighed along beside the needs of the State.

AGAINST

(1) The constitutional provision providing for source of funding construction at non-PUF colleges provides the most rational and cost effective method of providing construction monies for these universities. Construction requires an orderly, planned process and is most efficiently achieved through the issuance of bonds to carry out the plans. Constitutionally dedicated funds, allocated according to an equitable formula provide for orderly, planned growth based on anticipated and actual need. The few universities that have political "muscle" of those that will be competing will receive a disproportionate share of the funds allocated through the appropriations process.

- Stephanie Long
- Ricky Cagle
- Darla Cagle
- Kelli Whately
- Jana Yowell

(2) Although a 10-cent state property tax levied against 100 percent of market value might generate more money than actually needed, repeal of the tax is not the proper answer to that problem. Proposals such as reducing the tax to 3 cents could generate the amount needed without imposing a burden on property owners or threatening local government revenues. A 3-cent tax on a \$50,000 home would result in a tax liability of only \$15 a year, disregarding any applicable exemptions. The State itself faces potential revenue problems, and repealing the tax will increase the drain on general revenue.

(3) Article VII, Section 17, is part of a tradition in this state. Beginning in 1845, each Texas constitution has provided some form of dedicated funding for elementary or secondary education. If education is to retain its status as a top priority, all forms of dedicated funding for that purpose should be preserved. The repeal of Article VII, Section 17, would result in an inequitable situation in which only a few preferred universities in The University of Texas System or The Texas A&M University System have dedicated construction funding.
