## MAMMOGRAPHY **CAN SAVE YOUR LIFE!!!**

If you are a healthy woman over 40 who never has had a mammogram, the American Cancer Society recommends that you have this simple life-saving procedure now. Since one woman in 10 develops breast cancer at some point in her lifetime, the urgency is real.

A screening mammogram is an x-ray of the breast using extremely low dosages of radiation (usually compared to dental x-rays) and is designed to find very early cancers.

A female technologist who is highly trained in mammography will perform the examination. These images are then interpreted by a Board Certified Radiologist, and a report is sent to your own doctor. It takes only a few minutes, and can detect incipient breast cancer as small as the period at the end of this sentence.

Early detection (18 months sooner than a lump can be felt) not only permits treatment before the problem becomes serious, but the cure rate is over 90 percent. Mammography cannot only save your life, but help you avoid the need for disfiguring surgery, too.

You don't need to have been a previous patient of our to receive this screening, but you do need to make an appointment at a time convenient to you.

Hasn't the cooler weather been nice? It did get a little bit chilly when the thermometer dipped to the low forties, but the weather has been beautiful.

### LETTER TO THE EDITOR Dear Sir:

I would like to take this opportunityto encourage voters to consider Rudy Izzard for Representative of the 17th Congressional District. Charles Stenholm has been the Representative for sixteen years and by in large done a descent job. Mr. Stenholm has always promoted himself as a conservative and compared to most Democrats he is. When he first got to Washington, he took on Speaker of the House Tip O' Neill fighting for fiscal restraint. We all thought "Hooray for Charlie! He's fighting for us."

Mr. Stenholm has always had high marks with the National Federation of Independent Business (an association of small businessmen) voting their position more than 90% of the time. However this term Mr. Stenholm's voting record plummeted only voting the NFIB position about 63%. Mr. Stenholm voted against such issues as legislation requiring Congress to comply with the rules they pass, line item veto, regulatory reform, tort reform, welfare reforms, super majority vote for tax increases and the 1996 and 1997 Budget resolutions. Are these conservative votes? I think not. I believe that in the past with Democratic majorities Mr. Stenholm was allowed to vote his conscious. But now Mr. Stenholm is a high ranking Democrat and his party is now in the minority. His vote is needed. They yank his chain and he falls into line, probably under threat of removal from committee assignments. I ask you to vote for Rudy Izzard not so much against Mr. Stenholm as for the Republican majority and against the Liberal democrats who seek to stop any reforms. The Democrats have had a majority in the House for forty years. We can see what a mess they made. Their answer to anything is to throw money at it. In the last thirty years there has been more than five trillion dollars in wealth transfer and we are no closer to ending poverty. (This is not about money but dignity.) We have thrown a ton of money at education and now are told we need to hire nonprofessionals to teach our children to read. One size does not fit all. Bureaucrats in Washington, D.C. cannot provide answers for rural and urban, North and South, East and West. Let's bring control of situations to these and other problems closer to home. Remember a government big enough to give you everything that you want is big enough to take everything yougot. Vote for Rudy Izzard for Republican Party. Vote a straight Republican ticket.
