When You Have Year 'Round AIR CONDITIONING

Springtime in August ... in December ... IN TEXAS? That's right ... You can enjoy the wonders of healthful, refreshing airconditioning in your home every month in the year at a surprisingly reasonable cost!

In addition to being delightfully cool all summer, your home can be comfortably warm all winter. You choose the exact climate you wish any month in the year. Besides all the climatic comfort you enjoy, YEAR 'ROUND AIR CONDITIONING cuts housekeeping practically in half ... curtains, walls, moulding, furniture and carpets stay fresh and new looking longer. And you, too, will stay fresh as a daisy through hot Texas days and chilling wintery blasts.

Co-Eds and Actors and Building Contractors - All Kinds of People Are Giving Blood So That Our Wounded May Live!

# But-

WHAT HAPPENED TO THAT PINT OF BLOOD YOU WERE GOING TO GIVE?

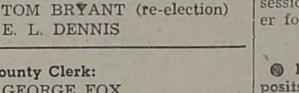

Today's medical and surgical techniques are sending L back more and more wounded men to lead normal, constructive lives. These techniques require repeated transfusions of whole blood for operations, for skin grafting, for plastic surgery. That's why America has been asking for voluntary blood donations at the rate of 300,000 pints a month.

But . . . the quota is far from being filled.

/ That's the picture. And now that you know it, we think that you, too, will thoughtfully give your blood.

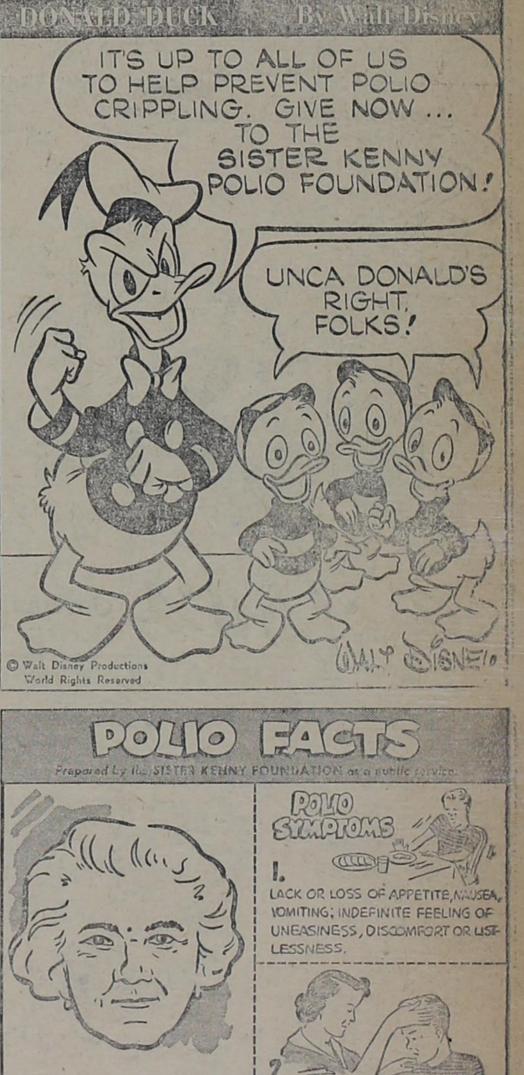

Be assured that your Red Cross, its nurses and doctors, will allow you to donate only if you are physically capable of doing so. As to after-effects, any doctor will tell you that you'll continue to feel fine-that your body quickly and easily manufactures lots more new blood to replace that which you've given. In many instances, people say that giving blood has helped them feel better; sharpens appetites, and makes them feel "simply wonderful"!

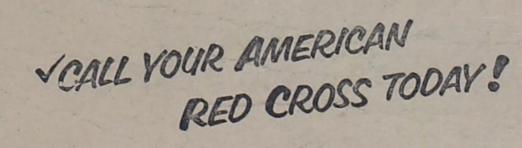

So make your appointment before you leave on vacation. Roll up your sleeve along with all the other Americans who give the gift for which there is no substitute-life-giving, health-giving, joy-giving blood!
