

B36 Note Was 'Confidential'

WASHINGTON, Aug. 25. (AP)—The suspended Navy official who wrote the anonymous memo that touched off the B-36 investigation acknowledged today he put "confidential" into it.

Cedric Worth also told the House Armed Services Committee he had given a copy of the document to Plane Manufacturer Glenn Martin without knowing whether Martin was entitled to secret information. The document now has reached many hands.

Committee Counsel Joseph B. Keenan suggested that parts of it relating performance figures of the giant, six-engine intercontinental bomber, "might help an enemy or potential enemy."

"I don't doubt that they had it," Worth said.

The exchange on confidential material came shortly after Worth had backed down on part of yesterday's testimony.

At that time he told the House

Federal Agency Invited To Make Water Survey

CRWD Directors Turn To Bureau Of Reclamation

With the intent of making as broad an examination as possible, the Bureau of Reclamation is being invited to make a study of the upper Colorado river lake project.

Directors of the Colorado River Municipal Water district authorized the invitation to the bureau at a meeting held Wednesday afternoon.

However, the district will pursue its own study to a conclusion. Marvin Nichols, member of the firm of Freese and Nichols, Fort Worth, which has done preliminary engineering on the project for three years, was instructed to complete the studies.

DISPLAYS FOR CENTENNIAL

Local merchants will be asked to set up historical window displays during Centennial week, Oct. 2-8, Harold Steck, publicity chairman of the Centennial association, said today.

The displays will be unveiled Oct. 3. Mrs. Harold Canning has been appointed chairman of a committee to promote the show window decorations. The Business & Professional Women's club is sponsoring the project.

A then-and-now motif will be used in the displays, contrasting articles of 100 years ago with those of today. The B&PW organization will assist in finding items for the displays if merchants are unable to provide their own.

'Personal Interest' Cited By Vaughan

WASHINGTON, August 25. (AP)—Senate investigators today turned up a memo from Major General Harry H. Vaughan to State Department authorities saying President Truman was "personally interested" in a prospective European trip for John Maragon in August, 1945.

Agents of a Senate investigating subcommittee introduced into its records a memorandum by Vaughan, dated August 3, 1945, which said that Maragon was interested in visiting Italy for the Albert H. Verley Perfume Co., of Chicago.

The memorandum contained this pencilled note in the lower left hand corner:

"Col. Vaughan informed Mrs. Shipley (Mrs. Ruth E. Shipley, chief of State Department Passport Bureau) that the President is personally interested in Maragon's trip to Italy — Col. S agrees that he is I.D."

It was signed JFS 8-25-45.

The military permit procedure in effect at the time listed an "I.D." persons "whose travel is authorized by the President."

Communities Plan For County Fair

Howard county communities already are turning their attention toward preparation for the annual county fair.

Representatives from several communities, including both adults and 4-H club members, met this morning at the county farm agent's office to study methods for preparing agriculture products for exhibit.

Here to assist County Agent Edward Lewter with informal instruction in the display of exhibits was Fred C. Elliott, cotton specialist for the Texas A&M college extension service.

Cotton and feed brought in by farmers were used by the group in practicing on arrangements of exhibits.

The fair is scheduled for Oct. 6-7-8, the last three days of the Centennial celebration.

First 1949 Bale Ginned At Knott

KNOTT, Aug. 25.—The first bale of cotton from the 1949 crop in this community has been brought to gin here.

It was raised by Dick Clay and J. S. Clay on their farm immediately south of Knott. A. L. Clyburn turned the bale for them at the Paymaster Gin.

Gasoline Shortage His Industries

CHICAGO, Aug. 25.—Some industries started curtailing operations today because of motor fuel shortages resulting from a strike of 600 A.P.I. gasoline truck drivers.

Settlement of the wage dispute does not appear near.

CAN'T PAY FOR IMPORTS Europe Recovery At Slower Pace

WASHINGTON, Aug. 25. (AP)—The Economic Co-operation Administration today reported a slackening in the rate of European recovery.

In a sober report on its first year's operations, the agency said the dollars earned by the nations of Europe during the period were enough to pay for only one-fifth of their imports from the Western Hemisphere.

Ex-Constable Charged With Killing Couple

DALLAS, Aug. 25. (AP)—A big, former constable sat in Dallas County jail today, charged with the double slaying of a Bridgeport farm couple.

"I shot John Mash in a cane field and I shot Mrs. Mash while she was cussing me," W. L. (Ike) Arwine told Wise and Denton County officials.

FIRES OF REVOLT BURNING

Truman Greets Southerners, But Only On His Own Terms

WASHINGTON, Aug. 25. (AP)—President Truman put out the welcome mat today, but demanded that those who cross it get in step with the 1948 Democratic platform.

He delivered the invitation—strictly on his own terms— at a roving dinner of the Democratic National Committee a few hours after it had read five southern States Rights members from the high command.

And, leaving the door open to non-Truman Democrats in Congress to fall in line with the Truman program, the committee exempted them from the party purge.

FOR \$600 MILLION SAVING

British Treasury Orders Economy

LONDON, Aug. 25 (U)—The British treasury has asked all government departments to cut down spending. It hopes to save at least \$600 million—or five per cent of the nation's budget—in the next year.

A government source, reporting this today, said the treasury action was prompted by Britain's financial crisis. The treasury controls government spending.

Disclosure of the move follows widespread American criticism of the labor government's home spending. The informant stressed that it was not a result of any United States Government suggestions.

Another informant, close to the labor government, said Britain may have to limit her social services and drop the tax-supported educational program if monetary talks in Washington next month end in failure.

Britain's social services, together with food subsidies, cost one

quarter of the country's whole annual budget for \$12 billion.

Britons now can call on doctors without paying fees under the 13-month-old national health service, though each pays up to six shillings, eight pence weekly (\$1.33) to help support it.

If the Washington parley fails, the informant said, British leaders may have to consider having each person pay a shilling (20 cents) for each visit.

He explained that the calls on the service have far exceeded advance estimates and she cannot go on spending so much on the service out of general taxation.

Season Tickets Are On Sale For HCJC Grid Tilts

Season tickets for Howard County Junior college football games are now on sale here at the hands of the Junior chamber of commerce.

Four home games will be played with the ACC "B" team, Decatur Baptist, Eastern New Mexico "B" team, and Weatherford junior college. Decatur and Weatherford are conference games.

Four games will go at the price of three single admissions, or \$3.60 on a season ticket basis. Another combination rate offers two season tickets, plus four single game adult admissions and three student admissions which may be given to youngsters who might not otherwise be able to attend. Price on the combination is \$10.

Tickets may be secured from any Jaycee member, or by calling the HCJC office.

Probes Report Of Plane Crash

Jack Cook, Muni airport manager, left Thursday morning for Westbrook to investigate reports of a possible plane crash.

An oilfield worker near Westbrook had reported seeing a flaming plane, flying about 1,000 feet, Wednesday night. He thought the eastbound craft might have been a four-motored military plane and could have crashed. Identity of the worker was not known.

Cook said that neither the flight service, a military network, nor the CAA control tower had any reports of missing planes.

IN DEMO SQUABBLE

Skelton Says People Will Decide Case

WASHINGTON, Aug. 25 (U)—Byron Skelton, whose bid to be Texas National Democratic committee chairman was rejected, said the problem "will eventually be solved by the people themselves where all authority finally rests."

Supporters of the Temple man had protested Wright Morrow's holding the committee post. They claimed Morrow had not given sufficient support to the Truman-Barkley ticket last year.

The National Democratic Com-

Relative Of Local Residents Dies At Brownwood

Relatives of Harold C. Foy, 41, Brownwood, who died Wednesday, will attend rites.

Mr. and Mrs. Virgil Smedley left for Brownwood on learning of Foy's death. Mrs. Smedley is a sister of Mrs. Foy. Mr. and Mrs. C. B. South will leave Friday to attend interment rites at Baird. Foy was their nephew.

At the time of his death, Foy was manager of the Brown County Water Improvement district. He had attended Texas A. & M. college, served as engineer with the Texas Highway department for several years. During the war he did engineering at Camp Bowie and the Corpus Christi Naval station. Later he returned to Camp Bowie as utilities manager. A year ago he became district engineer for the water district and was made manager subsequently.

mittee yesterday upheld Morrow's claim to the job.

In so doing, it reversed the decision of the Texas state party convention last September and the state executive committee's action a month later.

The credentials committee, in its recommendation to the full Democratic National Committee, said a majority of its members "feels that the evidence did not sustain the charges (against Morrow)."

In a statement after the decision, Skelton said:

"We came to Washington for the purpose of seeing that the mandate of the Democratic Party in Texas was carried out."

"We presented evidence showing the national committee showing the overwhelming action on the national committee question of the Democratic State Convention of Texas and by our state democratic executive committee and the county and precinct chairman's association in removing Mr. Morrow as national committee-

man.

"The problem has been and will continue to be one of party principles and party loyalty. It is fundamental in our Democratic Party and over-shadows any individual or group of individuals. It will eventually be solved by the people themselves where all authority finally rests."

NOTICE: DELINQUENT TAXES

A number of people, not owning any real estate, do have assessed to them taxes on personal property.

Quite a bit of back taxes are owing the City and School on personal property, and should be paid before any suit is filed for collection.

Many of the letters sent out heretofore, were not given proper attention, and suit had necessarily to be entered.

We hope that suit will not be necessary to collect the taxes on personal property, and we will use every effort to reach each tax payer to notify as to delinquent taxes, but proper addresses are not always available.

So, please, if in doubt, on your own initiative, look into the matter as to whether you have paid off your taxes on your personal property, check for your tax receipts.

Any assistance given the School Board and the City in trying to clean up all past due taxes, and start anew with a clean slate will be appreciated by them.

Thanks for the wonderful response so far given. In nearly every instance, delinquent taxpayers have been courteous and willing to do their part, and have paid promptly. We appreciate this attitude of assistance and cooperation with us and the School and City.

Acheson, Bevin May Discuss Anti-Soviet Bloc For Asia

By JOHN M. HIGHTOWER
AP STAFF

WASHINGTON, Aug. 25. — Secretary of State Acheson and British Foreign Minister Bevin are expected to discuss possible development of an anti-Communist bloc of nations in the Southeast Asia area when they meet here next month.

Formation of such a bloc, to develop that area along western democratic lines, has been suggested by various leaders, including President Quirino of the Philippines.

It evidently is one of the things on which the American Government will have to make a decision in arriving at a new policy toward the Far East as a result of the Communist successes in China.

To date the United States officially has refrained from giving any open encouragement to the plan of Quirino and others for such an organization.

On the other hand during Quirino's official visit here officials displayed a more friendly attitude toward his idea than they had shown previously.

Responsible informants said there is no doubt that Acheson and Bevin will review the whole Far Eastern situation and seek to lay the ground work for further British-American co-operation in that area of the world.

A similar review is expected between American officials and Prime Minister Nehru of India when Nehru comes here later in the fall.

Acheson is seeking the maximum co-ordination of American policies with other friendly nations in the Far Eastern situation. He also hopes to develop those poli-

cies domestically in a "completely bipartisan" manner.

He made that point clear at a news conference yesterday in rejected charges by Rep. Judd (R-Minn.) that the State Department's recent white paper on China was a "dishonest document."

Judd had so labeled it because, he said, it did not contain some documents bearing on past relations with China which he believed would have shown up American policy there in a different light.

In his statement, Acheson took the position either that the State Department had been unable to discover the documents Judd listed or that their publication would not have added any substantially new information to that which actually was given in the white pa-

per.

After discussing the Judd charge, Acheson indicated that he would like to shake off henceforth the controversy over past policies in China and concentrate on the problem of building new policies for the whole Far East.

"I wish to repeat," he said, "that the department is deeply concerned in the task of developing lines of action which will meet the situation in China and in the Far East. We are working at that task with a full sense of its seriousness and urgency and in the hope that a completely bi-partisan approach will facilitate the evolution of our national policy . . . we do not share the defeatist attitude which some critics seek to force upon us."

Schools Must Oust Pupils In Secret Organizations

AUSTIN, Aug. 25. (AP) — Expulsion or suspension of pupils found taking part in secret societies, sororities or fraternities in public schools is mandatory for school authorities, the attorney general held yesterday.

The ruling, requested by State Supt. L. A. Woods applies only to the high school and lower levels, not junior or senior colleges or universities.

The law passed by the 51st Legislature banning secret or social groups does not affect welfare agencies such as Boy Scouts, H. Y. Girl Reserves, DeMolay, Rainbow Girls, Pan-American clubs, Scholarship societies, and other similar groups sponsored by the state or national education authorities.

Shivers Asked To Intercede In Labor Fuss

DALLAS, Aug. 25. (AP) — Gov. Allan Shivers was asked to intercede in a labor dispute that threatens a strike of 417 employees.

The Oil Workers International Union yesterday said its negotiations with the Lone Star Gas Co. had broken down and asked the governor to step in.

Fred Schmidt, international representative of the union, telegraphed the governor that the company has refused to make "any standard concessions to its employees."

Wesley F. Wright, company official, said the company had always been liberal in wages, fu-

neral leaves, holidays and other items and that "the company feels there is no reason for any threat of strike."

Only the distribution organization in Dallas would be affected in the event of a strike, Wright said. He also declared service would not be "affected in any way," even if the employees did strike.

Defense Calls For Mistrial In Commie Case

NEW YORK, Aug. 25. (AP) — Government lawyers fought today to save the Communist conspiracy case from ending in a mistrial—sought by the defense on grounds that a juror is prejudiced.

Federal Judge Harold R. Medina, adjourned the trial yesterday so he could study the defense's charges, called for argument today on the mistrial motion.

U. S. Atty. John F. X. McGohey announced he would oppose the motion "in all respects."

Defense lawyers for the 11 Communist leaders on trial charged anti-Red bias on the part of Juror Russell Janney, theatrical producer and author of the novel "The Miracle of the Bells."

If the mistrial motion is denied, the lawyers asked that Janney be disqualified as a juror and that a judicial inquiry be conducted to determine whether he has influenced other jurors.

If he should be disqualified, one of the three alternate jurors would take his place.

Counsel for the Communist leaders, charged with conspiracy to advocate violent overthrow of the government, contended the 45-year-old Janney is biased and "cannot be expected to return a fair verdict."

The defense lawyers said withdrawal of Janney from the jury would not satisfy them.

The defense demand was based largely on an affidavit filed by Miss Carol E. Nathanson, who said she is a friend of Janney and a singer-actress.

The affidavit included purported conversations that Miss Nathanson, known professionally as Carol Nason, had with Janney concerning the trial.

Score Of 1178 Wins Doubles

Vera Dozier and Otis Thornton teamed to capture first place in mixed doubles bowling competition at the local recreational center Wednesday night, accumulating a score of 1178.

In second place was Mary Fields and Fred Lonstorf, eight points in arrears of the leaders. Jessie Pearl Watson and Larry Boat had a 391 for high team game, followed by Olive Cauble and J. D. Robertson with 390.

High individual game laurels went to Boat with a 210, nine points more than the runnerup. Robertson was able to get.

High individual series was recorded by Miss Watson, who had 531. Thornton had a 515 for second place.

Russian Troops Get Mass Honors

LONDON, Aug. 25. (U.P.)—The Moscow radio announced today that mass honors had been passed out

to the Soviet Union's security troops "for successful fulfillment of special tasks for the government." The announcement did not describe the "special tasks" but said medals were given to "a large

group of generals, officers, sergeants and privates of the organs and troops of the ministry of state security."

The National AAU tug of war championship will be held at Buffalo, N. Y., on Sunday, Aug. 21.

Issue Of Race Segregation May Snarl Up Housing Bill

WASHINGTON, Aug. 25. (U.P.)—The House today threw the issue of race segregation into a sharp fight that some leaders feared might kill a big housing bill. The measure would provide about \$4 billion of mortgage insurance and aid to help persons with modest incomes build homes. The House yesterday, by a 77 to 57 vote, tentatively wrote a civil

rights amendment into the bill, making it unlawful to segregate white and colored persons in housing aided by the legislation. The amendment was offered by Rep. Marcantonio, American Labor Party member from New York.

Fearing that such an amendment would drive off southern votes and kill the whole bill, Democratic leaders immediately postponed until today any further action, and began working on a compromise.

Rep. Mahoney (D-Okla.) voiced fear that unless the Marcantonio amendment is eliminated "this might kill the bill." As the bill dies, he told newsmen, home construction throughout the nation will be severely crippled.

Banking Committee Democrats hurriedly sought to put a substitute bill. There were reports that this compromise might seek to eliminate the civil rights amendment and any authority for the government to make direct loans for the construction of homes.

The bill now embodies about \$2,750,000,000 in additional authority for the government to insure mortgages made by private lenders for the construction of homes. This insurance protects private lenders against any large losses on money they lend for housing, and thereby stimulates home construction.

Before it got into the civil rights smart the House was in an amendment authorizing \$200 million in direct housing loans to veterans. This provision previously had been dropped from the bill by the banking committee at the insistence of the rules committee.

The banking committee also eliminated from the original bill \$1 billion in direct government loans for housing co-ops. Housing Administrator Raymond M. Foley had told the committee that such direct government loans did not fit into administrative policy. He emphasized the use of loan insurance programs already set up for veterans.

Highway Aid For Texas Is Assured

AUSTIN, Aug. 25. (U.P.)—Federal aid for Texas 1950 primary highway construction has been assured and first contracts will be let in early October.

That was the announcement by State Highway Engineer DeWitt C. Greer yesterday during the course of the highway commission's road project hearings here.

Greer said he had received assurances by telephone from Washington that federal funds of \$27,500,000 would be available.

The state will match those funds dollar for dollar, enabling a \$55 million primary road building program for next year. Contract lettings postponed in August have been scheduled for October.

Nine delegations from 10 counties were scheduled to present their requests for road projects as the commission wound up its two-day session today.

During yesterday's hearings, some counties were straining at the leash in a desire to get more farm-to-market roads than they could expect under the new all-state-financed program from a \$1,250,000 allocation.

Several counties presented plans for a 75-25 construction program, the county paying 75 per cent and the state one-fourth the cost.

Santone Strikers Will Be Replaced By Company

SAN ANTONIO, Aug. 25. (U.P.)—The San Antonio Transit Co., warned striking drivers and mechanics they would be replaced if they did not "report your readiness" to go back to work by not later than 5 o'clock tomorrow afternoon.

The transit company made its announcement in full-page advertisements in newspapers yesterday.

E. A. Gauthier, transit company personnel manager, said more than 100 non-union men had applied for jobs.

Increased bus fares were discussed, then abandoned at a city council meeting yesterday as the bus strike went into its 24th day. Union drivers and mechanics struck in support of a wage hike demand.

Budget For New Year Shows HCJC Is Moving Soundly

What has all the earmarks of an excellent field of interest and activity for the older group of Boy Scouts is the proposed Emergency Service Corps for Big Spring. Organizational meeting for this unit is scheduled for this evening.

Emergency Service Corps Is Fine For Boys And Community

Not the least among the public duties that most of us choose to ignore is that of attending public hearings on budgets for various governmental units. Usually, the taxpayer ignores the schedule that sets up the cost, and squawks only when he gets the bill to cover those costs.

Airborne Film Premiere Helps Meet Hot Weather Problem

NEW YORK—Escaping the current heat wave on Broadway seemed impossible until the U. S. Navy took the situation in hand. So on a day when thermometers were busting out all over, Commander R. C. Today's Birthday

SEAN THOMAS O'KELLY, born Aug. 25, 1882 in Dublin. Second president of Eire, he started his civil service career as librarian in the National Library in Dublin. He was an early member of the Gaelic League under the late Dr. Douglas Hyde, whom he later succeeded as president of his country. In Gaelic his name is O'Ceallaigh. In 1902 he joined Griffith and other nationalists in founding the Sinn Fein party. He came to the U. S. in 1915 to raise funds for the Irish revolt in which he helped plan the Easter rebellion of 1916. He was elected the first speaker of the Dail Eireann in 1918 and in 1945 won the presidency.

Under the Red Cross committee, this Corps would serve on errand and communication work, identification duties, guard duties and even KP work—in short, would serve wherever needed.

To become competent to meet such demands on short notice, members of the Corps will be required to take an intensive training course, and a discussion of this course will be given tonight. Even before getting into the Corps, the Scouts must show proficiency in public and private health matters, know the rudiments of life saving, and be able to pass a rigid physical examination.

BEAUTY SHOW BECOMES BIG BUSINESS

Fanciest Figures On Display At Beach Are Not Feminine

ATLANTIC CITY, N. J. Aug. 25. — The fancy figures of this year's Miss America pageant are far from feminine.

Fifty-four shapely ladies will compete for the beauty title. Their body lines will figure in the judging. But, the fancy figures belong to the cash register.

Miss Lenora Slaughter, pageant director, says these are the money figures:

\$100,000 to stage the boardwalk parade that opens pageant week, Sept. 8.

\$100,000 in scholarships for competitors.

\$50,000 to stage the four-night contest in Convention Hall.

\$40,000 for transportation and maintenance expenses of contestants.

In addition, Miss Slaughter points out the 1948 Miss America, Bebe Shopp of Hopkins, Minn., has earned \$50,000 since winning the title. That's the biggest "take" any Miss America has had in the 28 years of the pageant. She collected the money for personal appearances throughout the year.

From another figure angle, this year's Miss America will be selected from an entry list of about 10,000 girls. Miss Slaughter said that number entered local and state contests to select competitors for the pageant. Every state except Delaware will be represented in the pageant. In addition, there will be misses from New York City, Chicago, Philadelphia, Washington, D. C., Hawaii, Puerto Rico and Canada.

Since the end of the war, the pageant has broadened its beauty requirements. A pretty face atop a graceful figure used to be enough to win. Nowadays, a girl must have talent, personality and poise. She is judged on all of them.

A change has been made for the opening event — the \$100,000 parade. Instead of motor-driven parade floats, all will be pulled by appropriately costumed men. For instance, a float depicting an Egyptian scene will be drawn by men dressed in clothes of the Cleopatra era.

There will be 26 floats and 12 bands in the line of march. The contestants will ride in rolling chairs spaced throughout the parade.

The contest opens the evening of Sept. 7 on the huge stage of Convention Hall. In three nights of preliminaries, the girls will appear in bathing suits, evening gowns and in demonstrations of their talent. They will breakfast with the

Judges. They will be chaperoned by local women throughout the week. They will be guarded as closely as nuns in a convent.

Fifteen girls will be selected for the finals on Saturday night. From them Miss America will be chosen.

The big prize for Miss America is a \$5,000 scholarship. The 14 runners-up share an additional \$20,000 in scholarships. Many of the girls already will have won scholarships, totalling \$75,000, in local and state contests.

For a final fling at figures, Miss Slaughter says some 25,000 persons are expected to watch the closing night performance.

New Capital Of Tiny Montenegro Looks Like U. S. Frontier Town

By ALEX H. SINGLETON
STAFF WRITER

TITOGRAJ, Yugoslavia, Aug. 25. — As the old legends have it, God's chariot girdled the globe as he created mountains from a sack full of rocks. When he reached Montenegro, the sack split. The contents spilled upon this little land a rocky blessing—and a barren curse for centuries.

Mountain-girdled Montenegro found a freedom unparalleled in the Balkans behind its steep crags until World War I came. Then the bomb bays of big planes slid open and spilled forth destruction to end the security of a legend.

Here in the heart of Montenegro, the people are building a future under difficult conditions from the rocks and ruins and rubble of their past. It's a tough task, and its success may not be measured completely for more than a generation.

Titograd—formerly a sleepy, isolated country town called Podgorica, literally "under the mountain"—was almost destroyed during the war, first by allied bombs upon German and Italian targets and later by violent fighting between Marshal Tito's partisans and the rival Chetniks.

It began rebuilding with the war's end. It's future then was uncertain. So were its peoples who came trekking back from mountain hideouts and partisan strongholds. Life had been simple. The women did most of the work, tilling an unwilling soil, tending the livestock. The men were largely mountaineers. Little more than two centuries ago, a man was hardly regarded a man unless he had the head of an enemy mounted upon his spear outside the lodge.

Commission Test Slated For Well Owned By Ford

SNYDER, Aug. 25. — A Railroad Commission test is in the offing for the oil well near here owned by Henry Ford II and others.

Operators reported yesterday that tubing has been set and connection work has been completed at the storage tanks and separator.

T. M. Pettigrew, spokesman for some of the owners, said "we are well satisfied with the progress of the well. But it does require time to condition a well with the high gravity crude we have for a Railroad Commission test."

If They're Wild, They Belong To Tikl

Saw Tik Anderson last week and was reminded of the first time I ever spoke to him. The missus had sent me out one Saturday afternoon to hunt for some blackberries.

I took a long hike and couldn't find any. Finally, I came to Tik's house along that low stretch east of the fork on River Road. "Hi there," I says, "any blackberries around here?"

Tik says, "There used to be—but I don't know much about things that grow wild." Later, I found how Tik supports his family by picking berries. Ever since, I've been like the rest of folks in town—respectful of his right not to tell where "his" berries grow.

From where I sit, respecting other folks' rights comes natural in our town... in America for that matter! Whether it's a person's right to enjoy a temperate glass of beer or ale, or whether it's Tik Anderson's right to keep secret where his berries are, it's all a big part of a real democracy!

Knowland Seeks To Add Arms Aid For Chinese

WASHINGTON, Aug. 25. — Sen. Knowland (R-Calif.) is driving hopefully to put arms aid for non-Communist China into President Truman's \$1,450,000,000 military assistance bill.

The West Coast lawmaker has been plugging for this goal for weeks; observers said that now it is at least in sight.

In a bill supposed to meet a problem of a global charity fund, it is not realistic to provide one per cent of the total for the entire Pacific area, which has a population of more than a billion," Knowland told a reporter.

He, 11 other Republican senators and one Democrat have introduced an amendment to provide \$175 million arms aid to China. The administration's bill provides nothing for this purpose.

Knowland said he is not wedded to the exact terms of the amend-

ment and that he is willing to reduce its amount to \$150 million. He declared he will insist that the bill mention China by name, rather than the Far East in general, and that it make arms available to the Chinese on the same terms as to other countries.

Brownwood Rites

BROWNWOOD, Aug. 25. — Funeral services will be held tomorrow for Harold C. Foy, 41, manager of the Brown County Water Improvement District. He died at his home yesterday.

FLUNKS ON RADIO QUIZ

WASHINGTON, Aug. 25. — A radio station manager told the Federal Communications Commission yesterday that anyone of average intelligence could answer questions on his quiz program.

The FCC tried him on a few. The manager failed to answer even one.

The commission was holding a hearing on the legality of the program, which is heard on a local station.

Red River Arsenal Not Cutting Jobs

TEXARKANA, Aug. 25. — Congressman Wright Patman said the cut in armed services civilian employees would not effect personnel at the Red River Arsenal.

He told the Texas State Gazette yesterday that only five persons in the first congressional district would be affected. He said these persons were employees of the Longhorn Ordnance Works at Karnack, Tex., near Marshall.

Texas Turkey Crop Shows Big Gain

DALLAS, Aug. 25. — Texas' turkey crop is up 140 per cent over last year, the Production Marketing Administration has estimated.

The PMA estimated the number of Texas turkeys this year would be 4,225,000. In seven turkey states, the PMA figured almost two million more holiday birds would go to market this year than last.

Body Is Recovered

AMARILLO, Aug. 25. — The body of Breck Gorman, 17, of Dallas was recovered from Buffalo Lake yesterday, 28 hours after he drowned trying to save a friend.

BIG TAX BILL PAID BY TEXAS

DALLAS, Aug. 25. — Big Texas pays a big tax bill—more than Louisiana, Mississippi, New Mexico, Arkansas, Oklahoma, Colorado and Wyoming combined with Alaska tossed in for good measure.

Internal revenue officials said Texas paid \$1,381,185,565.49 in federal taxes during the year ended June 30. That's 34.1 per cent of the national total of all federal tax collections.

Is that the mostest of any state? Nope, just seventh.

Stable Markets For Poultry Is Wooten Service

Besides a long record of service in Big Spring, Wooten Produce has a distinguishing mark in dealing with customers on two sides of the fence.

It makes no difference whether he is buying or selling poultry wares, Harvey Wooten's establishment at 505 E. 2nd is equally popular.

Wooten, perhaps more than any other individual, has contributed to the stability of the poultry and poultry products market. Before he entered the picture, those with eggs or chickens to sell brought them to town not knowing whether the market would be glutted to the extent no one would buy them except at distress prices. Now, any day of the week Wooten pays fixed prices based on major market quotations.

But more than that Harvey Wooten is concerned with maintaining an even flow of supplies. There are seasons when not enough poultry is brought to market to supply the demand. Similarly, there are seasons when the egg output here does not begin to fill local needs. In such cases, Wooten's trucks shuttle to and from the market centers, obtaining quality products at the best prices. Thus, local consumers are protected from having to pay premium prices for items that are in short supply.

The cream purchase service of H. P. Wooten Produce had done much toward encouraging dairymen as a supplemental farm income. Here again steady quotations are maintained and customers given quick service. For those who want quality feeds for best production, Wooten rounds out the service with famous Red Chain feeds. The record of winnings by Red Chain stock is proof.

Mood Supervises Westex Branches

W. R. "Pete" Mood, new manager of the Westex Oil company, assumed a big job when he came to Big Spring.

General manager of the concern here, as well as for the five branches of the company in West Texas, Mood supervises the distribution of about three quarters of a million gallons of fuel each month. Westex Shell products are distributed from centers at Odessa, Hobbs, McCombs, Denver City, and Monahans.

The task of coordinating the activities of the five branch companies with the Big Spring center includes supervision of the operation of 25 distribution vehicles, as well as maintenance of vast storage facilities in all six cities.

But management is nothing new to Pete Mood. He was district manager for the Firestone company with offices in Dallas prior to resigning to take up duties with Westex in April. He was manager and district manager for Firestone for nine years before his resignation.

A native of Georgetown, Mood is a graduate of Southwestern University. His grandfather, Dr. F. A. Mood, was instrumental in the founding of the Methodist institution, one of the oldest schools in the state.

Pete is a member of the First Methodist Church here. He was an active Shriner in Dallas where he was also a member of the Salesmanship club. In the latter organization, Mood did extensive work in behalf of underprivileged Dallas boys.

Mr. and Mrs. Mood and their two children reside at 100 Lincoln. Peter, 12, and Marie, 6, will enter Big Spring schools this fall. The Moods plan to build a new home at 700 Texas Blvd.

WESTEX SUPERVISOR — in charge of distribution through the five branches of Westex Oil company is W. R. (Pete) Mood. As a right-hand man to Ted O. Grobbel, head of the company, Mood supervises the flow of three quarters of a million gallons of motor fuel and large amounts of oil and grease through the area centers and Big Spring.

SERVING BUTANE NEEDS—Here are some of the reasons why S. M. Butane Company, Lamesa highway, is serving the liquefied gas needs of this area capably and promptly. The fleet of transports and service wagons is maintained in top shape for regular schedules. Added to this is the experience of those employed by Smith, and a policy of constant concern to maintain supplies at safe levels in summer and winter. Being on a Smith route is like being on a pipeline. (Jack M. Haynes Photo)

Fiveash Leases Runyan Plumbing

Fiveash said he would continue to operate the firm under its original name, and that all services offered in the past will be maintained.

O'Brien Grocery Pleasant, Tidy

Housewives who don't relish the job of shopping for groceries at this time because of the heat can ease that worry of patronizing the O'Brien Grocery and Market, located at 1201 11th Place.

The establishment is air-conditioned so that all customers can shop in cool comfort. That, along with cleanliness and tidiness has become a sort of trademark with the concern.

Newcomers to Big Spring will find an atmosphere of friendliness and hospitality awaiting them when they enter the O'Brien store, an air that will make them return regularly.

The concern stocks not only the best in nationally-advertised canned goods but the freshest in all cuts of beef and pork in its attractive, modern market.

Fresh fruits and vegetables, taken from the lush fields of California and the Texas Valley, are brought to the O'Brien store three times weekly for distribution to the customers.

Delivery service to any point in the city is maintained by the concern. Housewives will find they can give their orders simply by telephoning number 1622.

O'Brien's also maintain floor polishers that can be rented by the day or week, along with the best in polishes and waxes.
