

Hundreds Greet S. A. F. E. Officials Here

Synod To Hear Dr. W. M. Anderson Tonight

HOME TOWN TALK

By Beddy
Apparently Big Spring is going to grow truly air-minded in spite of itself. The Chamber of Commerce and the Airport company kept hitting the ball until a real home run was smacked. Through thick and thin, lean days and fat days, criticism and everything they fought the good fight that brought Big Spring all she sought.

When the airport here was designated the West Texas air mail depot, as well as the point to which the only spur route on the new transcontinental line would join the main route, the city's aviation future was made exceedingly bright.

Big Spring has not been air-minded in the strict sense. Her people have enjoyed watching sky capers of flying machines and the idea of using airplanes as vehicles of travel has not been very widely spread. Other West Texas towns have far-outstripped us in passenger traffic. Several aid committees have, perhaps, contributed to this lack of personal air-mindedness.

Now we have the opportunity of direct benefit from air mail service. Letters dispatched from here at 11 a. m. on the westbound ship will reach Los Angeles that evening. Leaving here at 5 p. m. eastbound letters will reach Atlanta the following afternoon, making direct connection with ships there for New York. At Dallas there is a direct connection with ships to St. Louis and Chicago.

This Big Spring-San Antonio line ought to be developed especially by Big Spring people. Letters leaving here at 4:55 p. m. for the south will be in San Angelo an hour later and in San Antonio 3 hours and 5 minutes after leaving here. Train connections for an overnight trip to Houston are provided. At the latter point air mail service again is available, for New Orleans and other cities.

Use the air mail.
Big Spring put more mail on the first eastbound ship Wednesday than El Paso, where a strenuous campaign had been conducted for weeks in an effort to amass a large volume of matter for mailing on the first schedule.

The eastbound ship, piloted by Johnny Martin, made the trip from El Paso to Big Spring in 1 hour 50 minutes after having been delayed there by ceremonies. Stopping here 17 minutes, the pilot said he expected to reach Dallas by 7:10 p. m., only ten minutes late.

Which shows just how rapidly you may travel if you desire.

75th Session Scheduled To End Tonight

Evangelism Report Given At Wednesday Evening Session
Southern Presbyterians' representatives to the 75th session of Synods being held at the First Presbyterian church here, will conclude their three-day program this evening by listening to a message from Dr. William M. Anderson, Dallas, eminent minister.

This afternoon the Synod was scheduled to hear additional reports and to choose the place of the next meeting.
Thursday morning an address by Dr. Egbert Smith, Nashville, Tennessee missions director, was the most interesting feature.

The morning devotionals were led by Dr. W. R. Hall. Dr. C. T. Caldwell spoke on some assembly agencies, principally the foundation project.
It has been decided, following reports from the special annuity committee, to concentrate efforts at raising the Texas Synod's quota of the proposed \$3,000,000 fund during the month of November. This fund would be used to provide annuities for ministers after reaching the age of 65 years.

A statistical report on the Brownwood Presbytery was read during the morning. Church Paper Week was announced and discussed.
The finance and audit committee report on the report of Rev. E. K. Tenney, secretary-treasurer of funds for Synod institutions was heard. This included reports for Texas-Mexican Industrial Institute, Schreiner Institute, Kerrville Presbytery, School for Mexican girls; Southwest Presbyterian Home and School for Orphans; Austin College, Sherman, and Westminster Presbyterian Encampment, Kerrville.

The report of the stated clerk-treasurer was approved by the finance and audit committee which took occasion to compliment highly the accuracy and efficiency of the work of that official, who is Dr. Stonewall J. McMurry of Bartlett. He has served as stated clerk for many years. He was permanent clerk from 1904 to 1914 and from 1919 to 1922, when he became stated clerk. He has been in this Synod since 1886 with the exception of four years in Oklahoma. Dr. J. D. Leslie, now Dr. McMurry succeeded, whom Dr. McMurry is the general assembly, making headquarters of the entire Presbytery church in the United States at Dallas, Dr. Leslie's home.

A special committee to name a standing special committee on evangelism was named, as follows: Rev. W. R. Minter, Rev. B. O. Wood, Rev. J. R. Hall.
Wednesday following the afternoon session pastors and elders were called on to drive over the city, ending on scenic Mountain following a ride over Scenic Drive. From there the visitors were carried to City Park where an old-fashioned West Texas barbecue was tendered them by the Rotary, Lions and Kiwanis clubs of the city. Rev. W. G. Bailey of the Methodist church, Dr. W. Bristow Gray, moderator of the Synod; Dean J. M. Gordon of Texas Technological college, an elder and Rev. R. L. Owen, host-pastor, were heard in brief talks. E. A. Kelley, an elder of the host congregation, was master of ceremonies for the informal program.

Wednesday evening's service had as its dominant topic, "Evangelism."

Pilot Escorting Plane With Japanese Copy Of Treaty Dies In Crash During Snow Storm
CHICAGO, Oct. 16 (AP)—Lieutenant I. E. Woodring paused in his eastward flight for ten minutes in Chicago today. He landed at the Curtiss-Wright airport at 11:55 o'clock and took off at 12:05 o'clock for Cleveland, carrying with him Japan's ratified copy of the London Naval Treaty.

Cheyenne, Wyo., Oct. 16 (AP)—Victim of an early winter storm, the body of Lieut. William W. Caldwell, army flier escorting the treaty of Japanese ratification of the London Naval Treaty, was found in the wreckage of his craft army pursuit ship today.

Annuity Leader

DEAN J. M. GORDON
Lubbock

The dean of Texas Technological College, Lubbock, delegate to the Synod of Texas, Presbyterian Church, U. S., now in session here, is chairman of a special committee of the El Paso Presbytery appointed at the last meeting to cooperate with the general assembly in raising \$3,000,000 as a minister's annuity fund.

Report of the committee to the Synod here led to determination by the Texas Synod of the fund during the month of November.
Other members are Dr. P. C. Coleman, Colorado; H. L. McClintic, Midland; Prof. E. E. Jones, El Paso; T. S. Currie, Big Spring; B. G. Alexander, Knoxville, Tenn. A report of the general assembly's committee was due to attend Synod here.

The plan is to provide all ministers on reaching the age of 65 with an annuity of not less than \$600 or more than \$2,000, depending upon term of service and salary received.

Aid Sought Of Federation By Strikers
BOSTON, Oct. 16 (AP)—William Green today was re-elected president of the American Federation of Labor. He is a member of the United Mine Workers of America.

BOSTON, Oct. 16 (AP)—An appeal by two young women asking support for the 4,000 striking textile workers in Danville, Va., brought immediate contributions from the delegates to the American Federation of Labor convention today and a promise from President Green that the federation "would rise to the necessity of the occasion."

BOSTON, Oct. 16 (AP)—The desirability of amending the patent laws of the country to protect workers was taken up by American Federation of Labor at today's session of the annual convention.

In discussing patent laws and displacement of labor by machinery, President Green declared the patent laws offered a fertile field for study and that the "displacement of skill by machinery is a tragedy."

In the report of the resolutions committee it was said that the federation never had opposed the introduction of labor-saving machinery or the development of scientific processes. It had, however, the report said, protested against what it termed the failure of industry to recognize the needs of the workers affected by new methods of production.

The executive council submitted an optimistic report on national legislation and cited as of outstanding importance the failure

Posse Seeking Kidnapers Halts In Downpour

GREENFIELD, Mo., Oct. 16 (AP)—Temporarily halted by a downpour last night, possemen from several southwest Missouri counties today were ready to resume their search for the abductor of Mrs. Alma Wilson McKinley, 24-year-old oil heiress.

Mrs. McKinley, whose story of nearly 24 hours with the kidnaper has stirred this section of the state, was under the care of a specialist, who said her condition was "not good." Effects of the long exposure, the doctor said, sent her temperature to 101 last night. She is an expectant mother.

For a time late yesterday, members of a sheriff's posse believed they had the abductor surrounded in a dense woods near Stockton. After sending for additional help, they searched in vain for the man, who told Mrs. McKinley he was a former convict and would rather hang than return to prison.

Because of last night's downpour, investigators said today bloodhounds would be of no further aid to them.
Although Mrs. McKinley, in her high school days at Greenfield, was the greatest woman basketball player in the world, talked freely of her experiences, she refused to confirm a report she had agreed to pay the kidnaper \$10,000 after her release.

The abductor treated her with "utmost respect," she related, "and before he finally let me go we became downright confidential."
Although the kidnaper, who invaded the Wilson home Monday night armed with a sawed-off shotgun and forced Mrs. McKinley to drive away in her own motor car, repeatedly told her about "the gang" investigators today were inclined to believe he worked alone. He appeared familiar with the Wilson family, even mentioning the exact amount involved in a law suit involving Benton Wilson, Mrs. McKinley's father, several years ago.

Big Spring Man Given Four-Year Term At Abilene
ABILENE, Tex., Oct. 16 (AP)—Following dismissal of a murder charge upon which he had been formerly convicted and given 20 years, D. W. Freeman, Big Spring, drew a four-year sentence here last night for failure to stop and render aid after an automobile collision.

Charges against Freeman were the aftermath of a motorcycle-truck accident near Tye, near here, in May of 1929 in which Warren W. Hudson was swept from his motorcycle and, fatally hurt, and his young wife, riding with him, severely injured. Freeman was tried here last year on a murder charge and convicted but the case was reversed on the ground that the indictment had failed to include the clause "with malice aforethought."

Eastland Group Seeking Special Session At Once
EASTLAND, Texas, Oct. 16 (AP)—Gdy Dabney of Cleco today was empowered to appoint a committee which would call upon Gov. Dan Moody at an early date and request that a special session of the legislature be called to pass relief measures for drought-stricken areas of the state. Dabney, president of the Eastland County Bankers' association, was elected chairman of a mass meeting held here yesterday, attended by more than 50 representative bankers, legislators and business men.

Veterans Pilot Thursday Ships

HOMER RADER

These veterans, who have been regular pilots on the S. A. F. E. Dallas-El Paso passenger line almost constantly since it was established in March, 1929, were at the controls of the two huge tri-motor Fokker Thursday morning when they brought mail and a party of high officials of the Aviation Corporation and Southern Air Fast Express, Inc., to Big Spring on the second scheduled westbound flight of the new southerly "all-weather" transcontinental air mail and passenger line. Rader has had more than 4,000 hours flying and Woodall almost as many.

Barrett And Party Flying New Route

HOWARD WOODALL

"We're glad to be the first back seat drivers on this new air line," Miss Ruth Nichols and Miss Elinor Smith declared today as they alighted from a special Fokker F-10 plane bearing a party of high officials of the company.

The "back seat driving" experience is something new in their line. Veterans of the sky—and two of the foremost aviators in the world—are more at home with the controls than they are in one of the roomy chairs on the passenger ship.
They slipped away from the crowd a minute to inspect the Stearman plane used on the Big Spring-San Antonio route.
"How that plane can fly," Miss Smith declared.

"The trip over this morning was wonderful," the fliers said. "It was cool and we flew high and fast. We were 6,000 feet the greatest part of the time."
They didn't talk much of their own experiences in the clouds. They were more interested in talking about "aviation" in general, and the new transcontinental route in particular.
"Your crowd here indicates aviation is sweeping this section as well as others. This new line is one of the greatest steps forward, and should develop into one of the biggest units in the airmail system."

Postmaster E. E. Fahrenkamp today announced "dead-line" time for mailing letters for air mail delivery.
For a letter to be placed on a westbound plane, it must be in the postoffice by 10:30 a. m. The plane arrives here at 10:40 a. m. Letters to be placed on the 4:40 p. m. craft must be in the postoffice by 4:20 p. m., Fahrenkamp said.

Fahrenkamp also urged residents to mail letters at the postoffice instead of taking them to the airport.
The Southern Air Fast Express is conducting a contest between cities and towns along the route to encourage the use of airmail. The city showing the greatest number of pounds, in comparison with population, will have one of the giant Fokker planes named for her.

When letters are left at the airport the next station the plane stops gets credit for them, Fahrenkamp said. The letters must bear a Big Spring postmark to be credited to this city.

Women Air Stars Here 16,000 Letters Mailed From Here

High officials of Aviation Corporation, and Southern Air Fast Express, with Miss Elinor Smith and Miss Ruth Nichols, world famous fliers, as guests of honor, landed at the local airport today in a special Fokker F-10 ship, to mark the second day of a two-day celebration which launched the new transcontinental route over the southern system.

The party traveled in a special craft, arriving here before the regular mail plane. Homer Rader was pilot and Dick Fagin, co-pilot of the craft.
Those in the party besides Miss Smith and Miss Nichols, were Mrs. Loma Laughlin, Mrs. Lola Dalton and Miss Fred Roemer, of Fort Worth, F. G. Coburn, New York, president of Aviation Corporation, Graham B. Groves, New York, vice chairman of the board; Marie P. Halliburton, chairman of the board of Southern Air Fast Express, and A. P. Barrett, vice president, Aviation Corporation.

The mail plane, piloted by Howard Woodall, had six passengers, H. J. Broderick, representative of the International News Service, and R. B. Armstrong, Los Angeles Times reporter.
T. J. Hairre was co-pilot of the westbound mail plane.
Pictures
Pictures were taken of the party, after which short talks were made by Miss Smith, Miss Nichols, Barrett, Halliburton and Groves.

The special plane took off for El Paso a few minutes ahead of the regular mail plane. Both ships were serviced here.
Sandwiches and coffee were served at the party. Red carnations were given as favors to the pilot and members of the official party.
Six pounds of mail, 540 letters, were placed on the westbound ship here, representing the Big Spring consignment. The northbound plane from San Antonio this morning brought 22 pounds of mail, and these pouches were distributed to the west and east bound pouches, and local distribution.

Since the first plane landed here Wednesday morning, postoffice officials have been rushed to distribute the air mail to the planes.

Air Mail Rules Are Outlined

Postmaster E. E. Fahrenkamp today announced "dead-line" time for mailing letters for air mail delivery.
For a letter to be placed on a westbound plane, it must be in the postoffice by 10:30 a. m. The plane arrives here at 10:40 a. m. Letters to be placed on the 4:40 p. m. craft must be in the postoffice by 4:20 p. m., Fahrenkamp said.

Baby Girl Perishes In Well After Volunteers Work All Night Seeking To Save Her

LEVELLAND, Texas, Oct. 16 (AP)—A 22-month-old baby girl, daughter of a cotton picker on a farm near here, perished in a windmill well, where she had fell.
Volunteers from Levelland worked all night in an effort to extricate the child, whose little body slowly descended down the narrow and deep hole as the workers above tried every conceivable means of rescue. Gradually the baby's cry became fainter and presently there was silence after death had stilled the childish voice but, not until one of her arms had been broken by a rope that had been looped around her wrists in an effort to dialogue her.

The child was toddling around outside her father's hut when she attempted to walk a plank placed over the newly drilled hole for the windmill well. The plank gave way and the baby slipped into the hole. At first, she was barely out of reach of her mother's arms as she lowered them to bring her child back. Their fingers touched. Presently the little form had slipped farther down, beyond the reach of any arms.

Lynn Austin - New Manager For Settles

Appointment of Lynn Austin, identified for some time with Baker hotels, and formerly of the Robert E. Lee, St. Louis, as manager of the new Settles here, was announced by the owners Thursday.
Mr. Austin assumed the position here Wednesday. He succeeds F. W. Crow, who resigned to become manager of the William Len, being opened in Memphis, Tenn.
The new manager is a man of many years of experience in the management of large modern hotels. He will have with him an efficient organization, which is practically intact since formal opening of the hotel two weeks ago.

Communists Lose In Diet

BERLIN, Oct. 16 (AP)—A communist motion of non confidence in the Prussian cabinet was defeated in the Diet today by a vote of 223 to 196.
The defeat of the non confidence vote helped to clarify the situation in Reich politics because the Communist party voted solidly for the Prussian social Democrat-Centrist-Democratic coalition headed by Otto Braun, Prussian premier.
The government bloc showed that it would not be lured away from the Social Democrats, as the national socialists had demanded and as the Peoples and Economic parties would prefer.
As there had been frequent conferences between the Socialist premier, Chancellor Bruening, and President Von Hindenburg during the last few days, it had been expected generally that the Social Democrats in the Reichstag would, under Premier Braun's influence, save the Bruening cabinet from a fall when a non-confidence motion should threaten that body.

G.O.P. Candidate Due Here Friday

W. E. Talbot, Republican nominee for governor, will speak in Big Spring Friday night at 7:30 p. m., according to E. W. Wilke, chairman of the county Republican executive committee.

Colonel Talbot will speak at the courthouse. The speaking will be held in the district courtroom if it is too cold to hold it outside, Wilke said.
It was previously announced in The Herald several days ago that Colonel Talbot would speak here Thursday.

Mrs. R. C. Pender Dies At Abilene

ABILENE, Oct. 16 (AP)—Funeral services will be held here at 10 o'clock Friday morning for Mrs. Mattie Lee Pender, wife of Dr. R. C. Pender, who died last night. Her husband, field secretary for the Buckner orphan home of Dallas, has been a Baptist minister for fifty years.

Postmaster General Pleased At Success In Inaugurating New 'All-Weather' Mail Route

FORT WORTH, Tex., Oct. 16 (AP)—Practical operation of the new southern transcontinental "all-weather" air mail route was a demonstrated fact today as Postmaster General Walter F. Brown and other officials who made the trip here yesterday by plane from Atlanta reviewed the success of the first day's schedules.
The planes of Southern Air Fast Express, Inc., from Atlanta to Dallas, Dallas to Atlanta, Dallas to Los Angeles and Los Angeles to Dallas all arrived safely with their cargoes of mail and passengers, although delayed in several instances far later than their schedules by receptions and celebrations along the routes.
Postmaster General Brown seemed greatly pleased. Last night he was attired in a "10 gallon" hat,

Typical 4-H Pair Chosen

ST. LOUIS, Oct. 16 (AP)—A college girl from Wisconsin and a football player from Tennessee today had the distinction of being the typical 4-H girl and boy for 1930.

Out of 550 boys and girls sent to the National Dairy Show to represent the 850,000 American 4-H club members, Miss Elsie Onard, 19, of Stoughton, Wis., was selected as the typical girl, and Lyman Davis, 16, Madison, Tenn., the typical boy. Although both have many interests other than 4-H work, both rate their club activities ahead of all else.

Miss Onard, a co-ed at the University of Wisconsin, lives on a 100-acre farm. Her Jersey calf recently brought her the title of Wisconsin state champion calf club member.
Davis resides on a 180-acre farm eight miles from Nashville, and next to 4-H club work he likes football best. He is a crack guard on a Nashville high school team. He has a herd of eleven Jersey cows and calves, which have won three first prizes for him in Tennessee fairs.

The Weather

FORECAST: West Texas: Fair, colder in north portion, frost in the Panhandle tonight; Friday, fair, 100-acre fairs; increasing cloudiness, colder in northwest portion tonight; Friday, partly cloudy, colder in north portion. Light to fresh southerly winds on the coast.
Oklahoma: Cloudy, colder tonight, probably frost in northwest portion; Friday, generally fair.
Arkansas: Cloudy and unsettled, colder tonight; Friday, partly cloudy, colder except in northwest portion.
Louisiana: Increasing cloudiness tonight; Friday, mostly cloudy. Light to moderate southerly winds on the coast.
Flying weather forecast: Texas and Oklahoma for today: Partly cloudy, probably showers in extreme north portion. Light to moderate southerly winds in south portion, and fresh to strong westerly to southerly winds in extreme north portion up to 5,000 feet; fresh to strong westerly winds at higher levels.

The ROSE in the DARK
A STIRRING ROMANCE

Church Relation To Business Is Speaker's Topic

The relation between the church and business was the subject of the Rev. Guy Davis, Presbyterian pastor of San Angelo, who was the principal speaker at the regular luncheon of the Business Men's Club Wednesday.

The Rev. Mr. Davis declared the "finest things in business today come from the church."

"We are finding every day," he declared, "that the finest things in business have come from the teachings of the Sunday school and church. The business man is slowly realizing that the Golden Rule applies in business as well as in every day life. Do unto others as you would have them do unto you, should be the principle of every business, and the successful ones are following it."

"There are some that believe the Golden Rule has no place in business. We are learning, however, that it is most necessary to treat the other fellow as you would have him treat you."

"I think each business should become more alert to apply the things the church has stood for—and along with it—some of the things that are just a case of taking the old tools and using them in a modern way—taking the teachings of the church and applying them to business."

"This thing called 'business ethics' is nothing new. It has come to us through the ages in the church and Sunday school."

The Rev. W. G. Bailey, pastor of the First Methodist church, also spoke along the same line.

He declared a total of 1,500 attended Sunday school in the various churches of Big Spring each Sunday. The average attendance, he declared, at churches is below that mark. A weekly average of 432 attend the Methodist church for Sunday school services, with between 225 and 265 attending the First Baptist church, and 166 to 210, the East Fourth Street Baptist church.

He urged parents to accompany their children to the Sunday school services. "Statistics show," he declared "that eighty-five per cent of the men and women in the penitentiaries never attended Sunday school."

Wisconsin Losing

Veteran Players
MADISON, Wis., Oct. 16.—Northwestern hasn't had all the hard luck in football this season. Wisconsin has had more than its share.

The Badgers have lost two lettermen and two promising sophomores by broken bones already. Nello Pacetti, veteran halfback, and Paul Ellicker, flashy sophomore halfback, broke their collar bones; Neil Hayes, varsity quarterback and George Thunder, sophomore end, broke their ankles.

Turner was the latest casualty. His broken ankle was discovered yesterday.

Do your eyes give you trouble? We fit you a better pair of glasses for less money and positively guarantee every job. We fit Tillyer and Orthogen lenses—the two finest grades on the market. Glasses from \$2 to \$30. Try our Anti-Squint Lenses.

ROBBER IS SHOT
WESTVILLE, Okla., Oct. 14 (AP)—The \$3,254 robbery of the Peoples National bank here yesterday cost one of the two men who obtained the loot his life. Tom Hayworth, 34, died from bullet wounds after he was found in the robbers' abandoned motor car three miles west of here a short time after the robbery.

Before he died Hayworth said his companion was Elmer Jones. Officers were searching for Jones, whom they believed left Hayworth to die when a tire on their car went flat. Jones was believed to have taken the loot.

F. S. Howard, president of the bank, the only one in Adair county, received a slight wound in the arm in the gun fight which followed the robbers' entrance into the bank.

CARD OF THANKS

We wish to express to our friends our deep gratitude and grateful appreciation of the sympathy expressed through kindness and the beautiful floral offerings at our bereavement and loss of our darling baby, Edna Murie.

Tires are SO cheap now

TIRE prices today are at the lowest point in the history of the rubber business.

The difference in price between the best standard tire and one that you can't be sure of, is, if anything, hardly enough to count.

That removes the last excuse a sensible man can have for not buying as excellent a tire as the Goodyear All-Weather Tread Balloon.

It is the standard of quality of the world; it outsells any other tire in the world; it is the basis of

why not have the BEST

the eloquent fact that "more people ride on Goodyear Tires than on any other kind!"

You want the biggest possible money's worth in safety, traction, dependability and mileage when you buy a tire—you can get it

now at no premium in the standard Goodyear All-Weather.

Your size is waiting for you at a price you can afford to pay—no farther away than the nearest Goodyear Dealer!

Goodyear can give you greater tire values because Goodyear builds more than

1/4

of all the tires sold in America, the remainder being divided among some forty manufacturers. "More people ride on Goodyear Tires than on any other kind."

IT WILL PAY YOU TO SEE THE SUPERTWIST DEMONSTRATION

Three Bridge Clubs Met Yesterday

Hallowe'en Decorations Used At Each

Three-Four, Kilkare And Pioneer Groups Meet

Three bridge clubs met here yesterday, each carrying out a Hallowe'en motif in the decorations, refreshments and brige accessories.

They were the Kilkare, the Pioneer and the Three-Four. The Work Bridge Club, which was to have met with Mrs. J. B. Young yesterday afternoon, has been postponed until tomorrow.

Mrs. L. H. Hamlett entertained the members of the Three-Four bridge club at her home on Runnels street yesterday afternoon.

Her house was decorated with traditional Hallowe'en witches, black cats and jack o' lanterns. Orange and black was used as the color decoration.

Mrs. C. C. Carter won high cut and was presented with a box of individual guest powder puffs.

Mrs. Raymond Winn won high score for guests and was presented with a vase.

Mrs. J. E. Kuykendall won high score for members and was also presented with a vase.

Tea guests were: Mesdames J. C. Holmes, Jake Bishop and M. Wentz.

Refreshments, also carried out in the Hallowe'en colors, were served to the following: Mesdames Jake Bishop, W. T. Strange, Jr., C. C. Carter, Mae Howard, V. W. Larson, J. C. Moore, M. Wentz, Adams Talley, J. E. Kuykendall, C. S. Ditts, Harry Lester and Bob Roberts.

Mrs. Phillips Has Pioneers Mrs. Shine Phillips entertained the members of the Pioneer Bridge Club at her home on Scurry Street yesterday afternoon.

She carried out a Hallowe'en motif and the colors of black and orange in the decorations, refreshments and brige accessories.

Mrs. Bernard Fisher won high score for club members and Mrs. Ira Thurman won high for visitors.

Mrs. W. W. Inkman assisted Mrs. Phillips in serving two courses of refreshments to the following: Mesdames Bernard Fisher, Ira Thurman, V. R. Smitham, E. J. Mary, J. D. Hiles, John Clarke, Albert Fisher, Homer McNew, Harry Hurt, Joe Fisher, E. O. Ellington.

Three Study Clubs To Meet On Saturday

Junior Hyperion, E. S. A. And Hyperion Will Gather

The Epistol Sigma Alpha Study Club will meet with Miss Georgia Kirk Davis at her home on West Ninth street Saturday evening.

Those on the program are: Mrs. Frank Etter, Miss Vallia True, Miss Edith Gay, Miss Elizabeth Owen, Mrs. Leslie Dahme, Miss Frances Melton, Miss Clara Cox, Miss Kittie Wingo and Miss Mary McElroy.

Miss Clara Pool To Be Jr. Club Hostess The Junior Hyperion Club will meet with Miss Clara Pool as hostess at her home Saturday afternoon with Mrs. Robert Parks as leader.

The following program will be carried out: "Condition of Mexico" - Mrs. Harry Hurt. "Relation of U.S. to Spain" - Miss Jena Jordan. "Nolan, Magee and Long's Expedition" - Miss Dorothy Jordan. "Lafitte and the Legends of Lafitte" - Miss Ada Lingo.

Hyperion Will Meet With Mrs. G. Wilke The Hyperion Club will meet with Mrs. George Wilke with Mrs. Bruce Frazier as leader.

The following women will have parts on the program: Mesdames William Fahrnkamp, H. S. Paw, Albert M. Fisher, V. H. Fiewallen and Steve Ford.

Ruth Horn Has Birthday Party Entertains Friends At Home Tuesday Afternoon

Ruth Horn entertained at her home Tuesday afternoon in celebration of her eleventh birthday.

The party favors carried out the Hallowe'en motif and the favors were small baskets filled with candy.

She received many lovely gifts including a canary bird and a cage.

The birthday cake, a gift from Charlie Powell, was served with brick ice cream to the following: Nancy Bell Phillips, Edith Ray Lee, Mary Louise Inkman, Winnifred Piner, Doris Cunningham, Eloisa Kuykendall, Mozelle Glaser, Camille Koberg, Anna Katherine Ringler, William Lane Edwards, Ralph Lamar, Jack Starkey, Bobbie McNew, Tommy Higgins and the hostess, Ruth Horn.

1922 Bridge Club Postpones Party

The 1922 Bridge Club has postponed its evening party which was to have been at the Settles Thursday evening.

Pioneers To Sponsor Bridge Tournament

The Pioneer Bridge Club will sponsor a bridge tournament on Friday, October 24, at the club house at three o'clock.

The reservations committee includes Mrs. J. D. Bibbs and Mrs. W. W. Inkman.

Table prizes will be given and the tables will have the privilege of playing either contract or auction as they desire.

HERE FROM EL PASO Mrs. W. J. Miller of El Paso is here visiting her daughters, Mrs. V. Van Gieson and Mrs. J. B. Young and attending Synod.

HERE FROM COLORADO Mr. and Mrs. Randolph McEntire spent Tuesday evening and Wednesday in Big Spring. They returned to their home in Colorado yesterday afternoon.

JR. HIGH P.T.A. NOTICE All mothers of children in the fourth, fifth, sixth and seventh grades are reminded to send their seventy-five cents membership fee and re-join the organization.

End motor writes with Couden Liquid Gas Special. Fire's Service Station, 2nd and Scurry, adv.

"I fail to see any beauty in that dress." "Oh, she might hear you!"

Ruth Class Has Business And Social Meet

Mrs. Carol Kokanour Is Hostess To Group Tuesday

The Ruth Class of the First Baptist church held its regular business and social meeting Tuesday afternoon at the home of Mrs. Carol Kokanour at 2202 Runnels street.

The social hour, led by Mrs. J. A. Coffey, followed the business session and included games and contests.

Refreshments were served to the following: Mesdames Homer Wright, Loy Knight, H. L. Fulton, Tom Cantrell, L. A. Roach, E. J. Heywood, John Whitaker, Morris Burns, W. W. Pendleton, Dee Davis, Val Williams, Richard Lytle, Guy Tansitt, Vernon Mason, Aubrey Stephens, O. C. De Loach, Joe Chere, F. B. Timmons, Bill Stevens, Alton Underwood, L. M. Short, J. A. Coffey, Carol Kokanour, and Lloyd Dalton.

Personally Speaking

S. F. Hofues of Fort Worth arrived in Big Spring Thursday morning and will be here for a few days in the interest of the Worth Construction Company.

G. R. Crain and C. D. Hay, both of Sudan, Texas, are in Big Spring for a few days, on business.

F. W. Covull of Fort Worth is here for a few days in interest of his Ameradr Oil company.

R. C. Sanderson arrived here today from Fort Worth.

S. F. Massie of Alexandria, La., is expected in Big Spring Friday. Mr. Massie is an official of the Big Spring Public Service company.

Judge E. S. Fritchett of Eastland is here on legal business this week.

Mr. and Mrs. G. W. Brenner of Hot Springs, Arkansas, arrived in Big Spring Tuesday night enroute to Carlsbad, New Mexico. They are on an advertising tour for the Howe Hotel of Hot Springs.

Charles Cohen of San Angelo is in town on business for several days. He is stopping at the Crawford Hotel.

H. E. Williams and John E. Penny were Big Spring guests Tuesday returning to their home in Lubbock Wednesday.

Dr. Thomas Gordon Watts, and Rev. Bermer Pos of Bryan are attending the Presbyterian Synod now in session in this city.

This paper's first duty is to print all the news that is fit to print honestly and fearlessly.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in any issue of this paper will be cheerfully corrected upon being brought to the attention of the management.

The publishers are not responsible for copy omissions, typographical errors that may occur, or for any other errors that may appear in this paper.

Back To Earth: INTEREST in the beginning of air-mail service, with Big Spring an important depot on a transcontinental line having been high through the week.

Value of permanent improvement of roads is indisputable. No opinionated person would argue otherwise.

When a county can afford to levy the necessary tax to retire a bonded issue for state roads, and when its roads are obviously in real need of improvement, it is time for that county to get to work and vote bonds.

The state and federal departments will pay two-thirds of the bill on the two state-federal roads across Howard. Expenditure of more than \$1,500,000 on these roads would naturally have a good effect upon employment and business conditions.

To say the least such a project could not harm economic conditions and would be calculated naturally to improve them.

We have procrastinated long enough, too long in fact. The state highway department is the supreme authority under the law in the location and choice of type of paving for state roads.

Action by the people of Howard county is the remaining unperformed step. Let's act.

OPINIONS OF OTHERS

Darrow Fights The Law

Indianapolis News effect upon attempt to defend a gangster in Chicago, held as a vagrant under heavy bond. Clarence Darrow believes himself to be defending American liberties as written in and safeguarded by constitution and law. It is, of course, true—and this is fundamental—that the basest and most dangerous criterion is entitled to this protection. Indeed it was devised for those most in need of it. So the character of the man in this case, who are held under an old vagrancy law as "public enemies," has nothing to do with the case.

Engineers Say "Shutting In" Ruins Oil Wells

OKLAHOMA CITY, Oct. 15 (AP)—Petroleum engineers are agreed that shutting in of oil wells in the Oklahoma City field damages them, causing greater economic waste than if the oil were permitted to flow freely. A. V. Boswell, engineer and operator, testified today before the corporation commission.

THE ROSE IN THE DARK

Chapter 1 THE GIRL ON THE CLIFF. Sunset. The cliff-head looked out to the west, straight into the last molten gold of the day.

"Sunset," said the man, "you have seen a sunset until you've seen the end of an African day. It all goes with a rush—reds and greens and purples rushing up from the skyline, the sun rushing down, all the beauty and all the savagery clashing together and becoming one."

"What is the matter?" asked the girl quickly. "I was remembering that perhaps I shall never see any kind of sunset again."

"Oh!" There was such pain in her exclamation that he became incoherently apologetic. "I'm sorry! I can't imagine what made me say such a thing! Must need more exercise or something. I don't usually indulge in cheap melodrama."

"What is the matter with your eyes?" He answered the question as simply as she had asked it. "Nobody quite knows. I got a germ—a poisonous germ—in them while I was out-in-the-wilds. Two or three doctors—fine fellows—are on the germ's track, and although they haven't really found out much about him they believe they know what will kill him."

"I can see fairly well in a shaded room," he was explaining in a matter-of-fact way. "Sometimes if one shaft of light falls on a face, I can see it as well as ever. But out here in the air I have to wear these dark glasses and that obscures everything; even—the sunset!"

"She believed he had been going to say 'even you,' and she clasped her hands tightly in her lap. She was amazed at herself. What was she doing? What was this chance encounter with a man whose name she didn't even know? She had been waiting for another man of an utterly different type—the man she loved. She repeated it firmly to herself—the man she loved and was going to marry."

Well, she had been waiting for him rather impatiently because he was so inexcusably late. Then this stranger had come uncertainly into the shelter. And he had asked her if he might smoke—or perhaps she had spoken to him first. She couldn't remember quite how the conversation had started because so much, so wonderfully much, had been said.

"I can see that you are slender and fairly tall and that you move rather slowly," he told her. "And that is about all. Perhaps it is because I can see so little of you that I feel I should know your voice again the moment I heard it. You said bravely, 'I shall never forget yours.'"

"Then at our next meeting," she said bravely, "I must be the first to speak!" He had hoisted himself to his feet and stood now as though he looked out over the sea. And she, her head flung back, studied him intently.

"What a big man! And yet he was not outlandishly tall and not burly, either. He managed his height and his weight perfectly—even the trouble with his sight did not make him clumsy."

"Please tell me your name," she ventured. He answered her almost absently. "Grannock. Saxely Grannock."

"Grannock. Saxely Grannock." She turned the name over in her mind. She had come to this little village on Long Island because her lover lived here. She had stayed here for nearly three weeks and had grown to know most of the residents by sight but Saxely Grannock she had never seen until this evening.

STEERS CRIPPLED FOR LOBO TILT

The name of Bill Flowers—Big Spring's gift to the all-district pickers—is sweeping over the belt. Even those who have not had the pleasure of seeing the lightweight in action, marvel at his fleet feet and his shifty gallop. Even those who have not had the pleasure of seeing the lightweight in action, marvel at his fleet feet and his shifty gallop. Even those who have not had the pleasure of seeing the lightweight in action, marvel at his fleet feet and his shifty gallop.

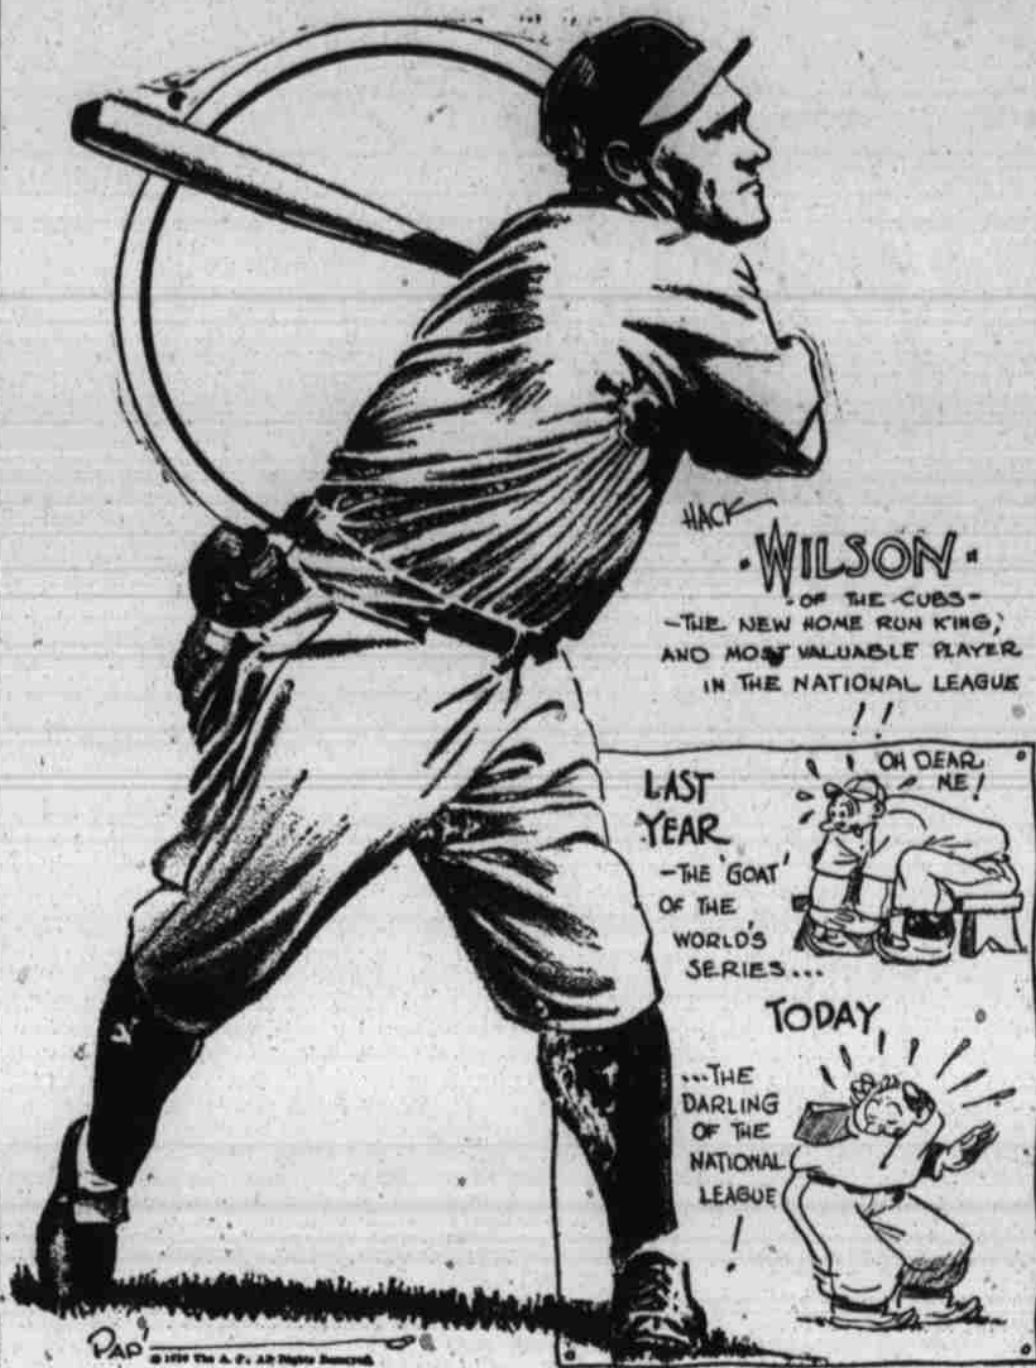

Flowers May Be Out Of Tussle

Glover, Kidwell, Hopper Nurse Injuries as Game Nears

A bunch of crippled Longhorns—with twisted knees, bad legs, bruises and abrasions—will leave early Friday morning for Cisco where they will take on the bigger and better Cisco Lobo machine of 1930.

Bill Flowers, the greatest backfield threat the Steers have to fling at the contenders for the flag may not be in a condition to do the battering stunt. Flowers has a leg injury—an old one which came back to greet him in the Breckenridge contest. It is possible he will not be able to get into the fray. Bill Stevens, however, indicated the trend of the game would have a lot to do with whether he injected his backfield ace into the deck. If the Steers hold the Lobo aggregation to a reasonable tally, Flowers will go into the contest. If not he will be saved for the fight with the Angelo Bobkittens.

Hack Comes Back

W. A. Prescott Seeks District Clerk's Office

W. A. Prescott has authorized The Herald to announce that he is a candidate for the office of district clerk of Howard county subject to the general election to be held November 4, 1930.

Mr. Prescott received 1,234 votes in the first primary of the Democratic party, in July, as a candidate for district treasurer in spite of the fact that he was an opponent of the incumbent, whom Mr. Prescott declares is one of the strongest men in the county.

"I thank the people for what they did for me in the primary and will appreciate it if they will write my name in on the ballot in the general election," said Mr. Prescott.

He has resided in Howard county 18 years, the past eight in Big Spring, where he has every dollar he ever made invested, he said.

Mr. and Mrs. H. M. Newton were the Sunday guests of Mr. and Mrs. H. P. Wooten.

Mr. and Mrs. Marion Farrar of Clyde visited relatives in Howard county the past week.

Mr. and Mrs. L. M. Newton moved to Big Spring Saturday.

107 Fascist Reichstag Members Are Belligerent

BERLIN, Oct. 18 (AP)—The German Reichstag convened at three o'clock this afternoon for the election of a president. Although the 107 fascist members appeared in business suits they took a militant attitude immediately by joining in a demonstration against President Loeb on the ground that he was opposed to bearing arms.

The fascists and nationalists joined in a stormy demonstration which was precipitated by the national socialist thuringian premier, Wilhelm Frick, who made a strong denunciation of the Reichstag president.

The Belligerence of the Hitlerites showed that while they had left their war paint at home they were none the less ready to plunge into any controversy against the government.

Helen Hicks In Quarter Finals

By PAUL ZIMMERMAN Associated Press Sports Writer

LOS ANGELES, Oct. 18 (AP)—The par rading play of Miss Helen Hicks of Inwood, N. Y., feature of the first three days in the Women's National Golf Tournament, carried her into the quarter finals to meet Mrs. Leona Pressler, runner-up to the 1929 title holder.

The momentum of the 19-year-old New York girl's self-made game sent her over the most difficult course ever used in the thirty-four years of the classic yesterday at a dazzling pace which brought defeat to Miss Barbara Lee, Oakland, Calif., 8 and 7. She was six strokes under women's par for the eleven holes.

Miss Hicks had a 36 on the strenuous out nine, one under perfect score for men, and three under women's par. To make her game more impressive, she took a birdie on the tenth, her fourth birdie of the round, and won the match with an eagle 2 after driving her tee shot 223 yards, three from the pin.

This followed a qualifying card of 80, one under standard figures, Monday, which put her in second place, and a potential 77 Tuesday, when she defeated Miss Lucille De Long, Coronado, Calif., 3 and 1, in the first round match play.

Mrs. Pressler, from San Gabriel, the Pacific coast's outstanding hope for its first women's championship, also was well up on her game yesterday, winning from Miss Hermine Wacker, Burlingame, Calif., five and four.

Mrs. Opal S. Hill, medalist from Kansas City, former Western champion, created a sensation by shooting a 79 in the qualifying round, and then went out to eliminate Miss Bernice Wall, Oshkosh, Wis., in the first round match play. Yesterday she won from Mrs. Brent Potter of San Jose, Calif., four and three.

Miss Maurine Orcutt of Hawthorn, N. J., who was still in swaddling clothes when Mrs. Dorothy Campbell Hurd of Philadelphia won her first national title in 1909, won her way to the quarter-final bracket by defeating Mrs. Hurd 2 and 1.

The only other former champion, outside of the defender, Miss Glenna Collett, was also thrust aside when Miss Virginia Van Wie defeated Miss Marion Hollins, Santa Cruz, Calif., 3 and 2.

Miss Van Wie met Mrs. Roy Green of Culver City, Calif., today.

The other duel of the quarter finals favored the great Glenna, four times champion, to win out over a fellow stateswoman, Miss Peggy Wattles, Buffalo.

Miss Collett fought the going unaltered yesterday although she defeated Miss Helen Lawson, Los Angeles, 5 and 3.

AL SIMMONS BEATS OUT GEHRIG

CHICAGO, Oct. 16. (AP)—Al Simmons, cleanup man for the World's Championship Athletics, beat out Lou Gehrig of the Yankees for 1930 American League batting championship by two points, official averages revealed today.

So close was the struggle between the two for the batting crown that a rush order was filed with the league statistician by the American league and the results placed Simmons' average at .381 and Gehrig's at .378.

Usually, the official results are not announced until the calm of winter when they refresh the fan's memory of the past season and increase his interest in the approaching one.

The official final standings of the two batmen:

Player	Games	At Bat	Hits	Pct.
Simmons	138	554	211	.381
Gehrig	154	581	220	.378

LAST NIGHT'S FIGHTS

By The Associated Press

PEORIA, Ill.—Ellen Whitlow, Superior, Ariz., outpointed Eddie Shea, Chicago, (10).

PITTSBURGH—Soldier Dombrowski, Detroit, stopped Joey Thomas, Chicago, (9).

STRATFORD, Ont.—"Frenzy" placed Simmons' average at .381 and Gehrig's at .378.

Usually, the official results are not announced until the calm of winter when they refresh the fan's memory of the past season and increase his interest in the approaching one.

Henny Butler, the proprietor of the Cisco sports department, refers to Flowers as the lad with "speed and power," and predicts the Lobos are just a bit overconfident over their tussle with the Herd. Of course the Lobos have every reason to be that way. Ray Hat, her goes on to point out the danger of logging along on that kind of a record, warning them of the pitfalls along the route. "The Steers, sayeth the sage," went against Breckenridge and held them 7 to 0 for three quarters. There are some who think perhaps Breckenridge will beat Cisco this year. It is well to consider the Big Spring aggregation. A wealth of football material, including big oxes and speed, is on hand at the Steer home. Cisco could do worse things than watch the Steers."

Some there are who are tottering around town taking the Navy against Southern Methodist University and giving from six to ten points. They will be suffering with Hoover prosperity on that kind of a wager. If anything the Ponies should chip merrily along against the Navy. They held Notre Dame to a one touchdown victory, and Notre Dame pranced right over the blue shirted boys to the tune of 25 to 2.

Probably the greatest display of football talent will be given when the Ranger Bulldogs go against the Breckenridge Buckies. It will be Boone Magnussen and Danger and McCarty pitted against one another for honors. They say these dopsters—that Dangerous Dan has just about overshadowed the work of Chuckaluck Bird, and they've almost forgotten he plays on the same team. There is always a power house concealed in the Bird boy, however, should McCarty get weary and want to call it a day. Big Spring fans will have a chance to see both of the boys in their fighting togs Saturday when the Doggies rush up to Sweetwater to mix and mingle with the Thundering herd of Mustangs.

Just as a matter of routine, it might be said that Ahlene is expected to spank the Brownwood Lions. Angelo is favored to send the Mountaineers back to Mineral Wells to do some more mountain climbing. Ranger is due to chastise the Sweetwater Ponies. Breckenridge is set to administer her annual whipping to the Eastland Mavericks and the Lobos are ballyhooed to send the Steers down.

Our friend and contemporary, the Angelo Shakespeare, informs that Cisco today looks like the King of the Belt. He witnessed the Cisco-Spur game, and after predicting the Lobos will mace hash meat of the Steers and that "If Bill Bissett had the Spur team he would wait through the district to a championship," the youthful albino declares, "Cisco today, by the way, on its power and speed looks like the class of the Colliery. The team appears considerably stronger than Ranger, much for man. But we cannot say much for Coach Chapman's wing-back formations. There is too much waste of energy and strength, too many offensive men who do not get into the play."

It is well the Steers do not consider all of these predictions as the outcome of the next battle with one of the Huge Quartet. The Steers just keep plugging along, wondering where Cisco is located, and realizing that just another game is around the corner. All that want to do is have the Lobos come out from under their blankets and take the game seriously instead of crowing. "Just a sweet breeze from the west."

The Steers probably will witness the Ranger-Sweetwater game. They have been warned to stay away from any of the various busy managers the Bulldogs have and to flatly refuse all offers unless they raise the ante from \$2.50 per seat fire to \$3 for each fire, wet or dry. We understand that during the Ranger-Angelo game there was a fire, the siren sound of and Chuckaluck Bird almost ran out of the park before he collected his wits again.

Others Hurt

Flowers is not the only one on the stretcher list. Bob Kidwell, one of the scrappingest members of the Jackrabbit backfield, has a twisted knee that is expected to keep him out of the fray. He too was hurt in the clash with the Shotwell behemoths. Glover, guard, and Big Hopper, end, also are on a mercurychrome down and Hopper has a game leg to contend with. Neither will be in shape to do their best against the Chapman clan.

Outside of that the Steers are in perfect condition to take on the ballyhooed 1930 champions at Chesley Field. The fray will be a night affair, with the switch being thrown about 8 o'clock.

The Lobos have sailed along the district sea with no storms to encounter so far. They spilled the Eastland Mavericks 26 to 0 in the first, and suddenly became enraged at the Brownwood Lions and topped them over beneath a 78 to 0 tally. The Steers are expected to stage a better game against the yellow and black aggregation than either of the other occupants of the cellar.

Test With Spur

Really the only test the Lobos have had was with Spur. The Spur eleven was hefty, and they say it was any team's ball game until the last quarter was over. Played on a muddy field, the Lobos crashed through to a 20 to 0 victory.

The Steers have a record of having defeated Mineral Wells and Eastland, lost to Ahlene 33 to 0, lost to Breckenridge 19 to 6. The greatest feasts of the season were the victory over the Mavericks, and the manner in which the Longhorns held the Buckaroos to a 13 point margin. The Steers were in excellent shape, however, when they clashed with the Shotwell charges, handicapped by injuries.

Should Kidwell and Flowers not be in the fray, a fourth man for the backfield will have to be chosen from the ranks of substitutes to fill in with Rogers, Neel and Mims. Little Coats probably will start on one end with Phillips holding down the other wing position. The line hole left by Glover can be filled with several hefty should the occasion call for it.

Are Newspapers Wet Or Dry? Questionnaires To Determine Attitude

WASHINGTON, Oct. 16 (AP)—Whether newspapers of the country as a whole are predominantly wet, dry or neutral on the subject of national prohibition is to be learned by the prohibition bureau.

Three thousand newspapers have been sent questionnaires prepared by the division of research and public information of the bureau. Along with the forms went a letter informing the editors that the prohibition bureau wished to get the attitude of the press of the nation upon the subject of the eighteenth amendment and the administration of the dry laws.

The findings will be made public later in the form of a monograph analyzing the replies received. This publication is planned as one of a series, for the issuance of which the bureau will draw up a \$50,000 appropriation which congress must appropriate for conducting an educational campaign in favor of the dry laws.

Some other educational campaign plans proposed before the transfer of the prohibition unit from the treasury to the department of justice, met with various opposition and did not get far. One of these involved posters for use in schools.

The questionnaire to the newspaper specifically asks the editors to express themselves on whether they favor the eighteenth amendment and the national prohibition law, whether they are opposed to the law, or whether their editorial position is neutral.

PLAYER BETTER

CHICAGO, Oct. 17 (AP)—Johnny Watson, young White Sox star who suffered a fractured skull during the recent city series when he was struck on the head by one of Pat Malone's speed balls, has recovered so rapidly that he will be permitted to leave the hospital this week.

Milk Ordinance Terms Discussed By Commission

The milk ordinance flared up again Tuesday night in the City Commission when the question of the nature of cards to be used by cafes and drug stores was brought up.

The city solons recently adopted the ordinance, but did not make it compulsory for milk to be graded, allowing farmers to sell ungraded milk with only a permit number as a designation.

The question Tuesday night was whether handlers of milk, including drug stores, cafes and grocery stores, would be compelled to display placards stating whether they were handling graded or ungraded milk.

Cards will be printed bearing the signature of the city and conveying to the public that Grade A milk is sold. These cards may be used by firms handling the Grade A milk. If the grade falls below this standard, a card designating the grade must be displayed in a prominent place. Where ungraded milk is sold, a card bearing the permit number of the dairyman selling the milk is to be used.

The commissioners were of the opinion the matter would adjust itself soon after it goes into force. According to the monthly report submitted by J. M. Williams, city sanitation inspector, twenty dairies will be ready for grading by Nov. 1. Two creameries also will be ready for the grading process.

The report of the sanitation officer covered inspections of dairies, cafes, slaughter pens and drug stores.

CONSIDER TEXT BOOKS

AUSTIN, Oct. 16 (AP)—The board of education continued its executive sessions today, considering bids for the textbook contracts. Members of the board would not discuss what transpired in the session room.

The lists of textbooks contracted for probably will be made public tomorrow.

EVERYDAY QUESTIONS

Answered By
Dr. S. Parkes Cadman

Questions from readers are answered by the Rev. Dr. S. Parkes Cadman, Pastor, Minister of the Federal Council of Churches of Christ in America. Dr. Cadman seeks to answer inquiries that appear to be representative of the trends of thought in the many letters which he receives.

Albiontown, Pa.
When you recall in memory a place or a person almost as plainly as if they were actually before you where is that image located, in the brain or in the mind?

A full discussion of the matter you refer to cannot be given in the space at my disposal. Read Professor William James on Psychology, either in the two-volume edition or the shorter course, of that remarkable work. A closely knit argument that the "recall" you mention is more than a psychological process can also be found in Bergson's "Matter and Memory." A review of his interpretation translated into English is contained in Chevalier's "Henri Bergson."

Strictly speaking, the images which baffle you are not "found" anywhere. They are purely mental and have no definite location, so their recall is purely psychical and can only be effective when every psychological condition is present and active.

Two factors are always essential and those are effort and association. Conscious recall cannot happen without the mind's cooperation. The image thus conceived is neither "in" the brain nor "in" the mind. It is simply a result of the mind's working under favorable auspices. You cannot localize a reality like the mind which is itself placeless, any more than you can definitely place what the mind conceives. Doubtless all this sounds frightfully technical and dry but it is profoundly interesting for advanced students of psychology who should consult the books to which I have referred.

Bridgeport, Conn.
My wife recently left me and four small children and is now employed in another town as an office worker. Her reasons are nervousness brought on by the birth of our last child and the desire to have her own means to provide clothes and amusements which my income of \$45 a week won't afford.

We quarreled constantly before she went because she wanted money on herself and deceived me about it. What is a man faced with no situation to do?

Possibly your wife might say that she bought only necessities, not luxuries, and that you were abusive that her services was justifiable. Since your domestic journal has an economic basis, and too many of Cupid's casualties occur around the household, you should give her a reasonable weekly allowance, determined by the family's common needs. In many instances that is essential for domestic peace and welfare.

On the other hand, many wives are not graduated in the art of homemaking, and according to what you say about your wife's methods, she has some things to learn concerning that important matter. Be patient with her. Four children under eight years of age are quite a chore. Yet it is difficult to conceive how she could for-

make them. But nerves are treacherous, and if I were you I would approach her as an invalid who has shaken her health and life in the marriage compact.

When she has recovered poise and bodily strength, she will probably return to the youngsters. No true woman would stay away from them permanently. When she does, see to it that those haggling about money stop. If you cannot do without them, you cannot do without her. Rebuild your home, take your wife out twice a week and be her sweetest again.

Dayton, Ohio.

Why are the miracles of the Bible insisted upon by good people who do not seem to know that miracles do not happen? You quote Matthew Arnold's domestic distrust as an unimportant moment. Consult any competent psychoanalyst and he will tell you that medical science admits cures due to faith as well as works, some of which would have been done a few years ago. Read "The Miracles and the New Psychology," by E. R. Micklethwait.

As I have previously said in this column the authenticity of every supernatural event in the physical realm, to which a religious significance is attached, should be studied accurately and with all available knowledge of the circumstances and evidence belonging to each case.

The instance you criticize is logical. Harnack, himself, an ardent and liberal theologian, admits that it is impossible to disentangle the teaching of Jesus for the "signs, wonders and mighty works" which accompanied it. The incarnation means for us who accept it that the mechanistic operation of the universe is impossible. We do not know the laws that govern the relation of the Incarnate One to that universe. We do know that the extraordinary deeds He wrought were entirely harmonious with His character and precepts. It is important to note, however, that miracles were subordinated to Jesus to His larger purpose, and further, that their occurrence depended on the co-operative faith of those whom He benefited.

Laughter Defined

From the Montreal Star. Pupil (to learned professor)—What causes laughter?

Professor—My boy, a laugh is a peculiar contortion of the human countenance, voluntary or involuntary, superinduced by a concatenation of external circumstances, seen or heard, of a ridiculous, ludicrous, jocose, mischievous, facetious or fanciful nature, and accompanied by a cackle, chortle, cackinatio, giggle, gurgle, guffaw or roar.

Rev. Thigpen Retained By Sterling Baptists

STERLING CITY, Oct. 16.—L. A. Thigpen, pastor of the Baptist church, was called Sunday for another year. He has finished two years of service with this church. The first year there were twenty-seven additions to the church, and last year there were forty-one additions. During the past year there were two B. Y. P. U.'s and one Sunbeam Band organized. The prayer service has grown from a few to between thirty and forty.

Last Sunday, October 12, was marked by the largest attendance at Sunday School during the past two years, with the exception of one Sunday during the revival meeting. Also had one addition at the morning service Sunday.

3,000 Lambs Sold In Sterling City Saturday

STERLING CITY, Oct. 16.—About 3,000 lambs were sold here Saturday, to a Colorado state buyer. The lambs are to be shipped out this week, the price being 4 cents per pound. Some of those who sold are: Everett Brothers, Green Williams, Glass Brothers, Ben McWhorter and Dave McGill.

Says

Science is revolutionizing all forms of manufacture. The manufacturers of LUCKY STRIKE cigarettes have extended me the courtesy of an invitation to their factories, I was not able to accept but have taken the opportunity to read the reports of scientific men as to the achievements in their factories.

"It is clear that in no line has science been more intelligently applied than in the making of cigarettes."

"It's toasted"

Your Throat Protection—against Irritation—against cough

Consistent with its policy of laying the facts before the public, The American Tobacco Company has invited Mr. Clark Howell to review the reports of the distinguished men who have witnessed LUCKY STRIKE'S famous Toasting Process. The statement of Mr. Howell appears on this page.

HOOVER, JR., TO BE MOVED SOON TO ASHEVILLE

WASHINGTON, Oct. 16. (AP)—Herbert Hoover Jr., who is suffering with tuberculosis at the Hoover lodge in Virginia, is to be taken later in the fall to Asheville, N. C., for treatment.

Capt. Joel T. Boone, the White House physician, announced today that a home on Sunset mountain overlooking Asheville had been leased by the son of the president and he would be taken there early in November.

The site was selected over other localities believed by Dr. Boone to be climatically favorable for treatment of tuberculosis largely because of its proximity to Washington and the patient's family.

Dr. Boone said the president's son has responded well to treatment and has made satisfactory progress since he was taken to the presidential camp in the mountains of Virginia several weeks ago.

Girl Secretary Of State Dismisses Tea

BATON ROUGE, La., Oct. 16. (AP)—Ten employees of the state department, including the widow and brother of the late secretary of state James J. Bailey, were dismissed last night by Miss Alice Lee Grosjean, recently appointed secretary of state.

Assistant Secretary R. H. Flower and six others were retained in the reorganization, no comment being made on the dismissals either by Miss Grosjean or Governor Long.

Those dismissed were: Charles F. Bailey, chief of motor vehicle license bureau and brother of the late secretary of state; Mrs. James J. Bailey, the widow who held a clerical position; Duncan Conrad, Fred Conrad, Miss Anna Weber, Miss Liza Weber, N. B. Aucoin, Mrs. M. B. Carter, Mrs. Fannie Samuels and Mrs. John Ralston. Miss Grosjean assumed office last Saturday and announced that a preliminary audit of the records revealed a shortage of \$20,000 in accounts handled personally by Mr. Bailey. The audit is still in progress.

Farmer and Daughter Charged With Murder

SHERMAN, Texas, Oct. 16. (AP)—O. B. Martin and his daughter, Miss Velva Martin, 18, were charged with murder, today in connection with the fatal shooting of Jim McMenemy, 45, farmer, who was found dead in the yard of the Martin home, 2 1/2 miles south of Whitesboro yesterday.

McMenemy had been shot over the right eye with a small rifle. His body was on the front porch of the Martin home. McMenemy and the Martins were neighbors.

Duck Hunter Drowned In Fort Worth Lake

FORT WORTH, Oct. 16. (AP)—Vic Cimens, 19, drowned early today at Lake Worth while duck hunting. The body had not been recovered late this morning. He lost his life in swimming after a boat that had become unmoored from a duck blind.

He was an apprentice steno-typist of the Fort Worth Star-Telegram.

Gloriously Alive At 45

My Friends: Correct Your Eating Faults and Lose Your Fat With Kruschen Salts

Yes! I'm forty-five today—built like a race horse, my friends say—and I know I feel 10 years younger than I did three months ago—and I'd hate to tell you how much fat I lost with Kruschen.

I call Kruschen Salts the "magic salts" because when I was fat and wretched, despondent and half sick all the time—it took only one bottle that I bought for 85 cents at Collins Bros. and Cunningham and Phillips to lighten me up—but ambition and energy into me—make me feel years younger and with the help of a change in diet show me how to lose the fat I was so ashamed of.

Cut out pastries and desserts—go easy on potatoes, cream, cheese, and butter—eat lean meats, chicken, fish, vegetables and fruits—and never fail to take one half teaspoonful of Kruschen Salts in a glass of hot water before breakfast every morning.

Every drug store worthy of the name in the World sells Kruschen Salts—an 85 cent bottle lasts 4 weeks—not much to pay for buoyant health.—(Adv.)

Postmaster

(CONTINUED FROM PAGE 1)
thus far."

He also pointed out that although the United States is not warlike in its aviation development, the emergency value of commercial air lines cannot be denied.

Secretary of War Patrick J. Hurley who came here from Oklahoma City yesterday afternoon and remained for an hour before returning by plane to Oklahoma said he saw in the new line another element of defense and preparedness and predicted that "the complete conquest of the air is at hand."

Hurley, whose parents resided in South Texas before they moved to Oklahoma, where he was born in the "nation," was presented with a ten-gallon hat, a .45 calibre pistol belt and holster and was made a deputy sheriff of Tarrant county.

Crowd

(CONTINUED FROM PAGE 1)
from the time the first west bound Fokker roared away from here Wednesday morning, until the one today took off, over 16,000 letters bearing the postmark of Big Spring have been placed aboard the craft. This represents 188 pounds, on a scale of 90 letters to a pound. All were hauled to the airport in a special panel body international truck furnished by J. & W. Fisher, Inc.

The largest consignment of the two days was sent on the east-bound plane Wednesday afternoon when 149 pounds, 13,410 letters, were placed aboard. This was one of the largest mail shipments received Wednesday at any of the stations between Atlanta and Los Angeles, officials said.

82 Pounds

Eighty-two pounds was brought by the northbound plane yesterday and transferred to east and west bound ships.

The mail plane from Los Angeles landed here over an hour behind schedule Wednesday with no passengers.

A crowd, smaller than the one which attended the first day's celebration, saw the two giant Fokkers brought to earth this morning.

The pony express method of transferring a pouch of mail again being used today, C. A. Cowan again being the rider.

Miss Smith and Miss Nichols referred to themselves as the "back seat drivers" of the party. Miss Smith was very enthusiastic in her praise of the newly established line and the luxurious planes which are being used. They will continue to Los Angeles with the party.

LEVELLAND—New steam laundry proposed for this place.

Synod

(CONTINUED FROM PAGE 1)
The Evangelism Commission's report, presented by Dr. C. T. Caldwell, Waco, chairman, and Dr. Marshall Monroe, Houston, showed that the most extensive evangelistic campaign in Synod's history was waged during the year. A total of 1,614 members were added by confessions of faith and 1,298 by certificates of membership. The commission's financial report showed \$900 in its treasury. Dr. Monroe read recommendations for future evangelistic activities.

Dr. T. W. Currie of Austin spoke on "When Does The Kingdom Come?" Dr. W. M. Anderson, Dallas, a commission member, led a testimony meeting in which many ministers told of the blessings received from evangelistic services in their respective churches and from their work in other pulpits. Among those heard were Rev. E. O. Wood, San Angelo; Dr. T. S. Knox, Abilene; Dr. B. K. Tenney, Dr. W. R. Hall, El Paso, Rev. Pierce, Rev. Alexander, Rev. McCullough, Baker and Foster.

A vocal number was given by 12 members of C. T. Watson's Sunday school class of the Methodist church.

Aid Sought

(CONTINUED FROM PAGE 1)
CORRIGANA, Texas, Oct. 15. (AP)—The Texas Synod of the Cumberland Presbyterian church will open a four-day meeting here tonight with delegates expected from Louisiana, Texas, California and China.

Navy Department Believes Blaze On Ship Incendiary

WASHINGTON, Oct. 16. (AP)—The Evening Star today said that the Navy Department believes the fire which has disabled the battleship Colorado since June was deliberate and investigators in the guise of seamen have been aboard her in an effort to find the guilty parties.

The paper said Secretary Adams had disclosed the investigation was under way.

Naval intelligence investigators, its account said, had found the fire resulted from a short circuit of electric cables "into which ordinary phonograph needles had been thrust."

NEW YORK—Scores of medals, plaques, cups and other tokens received by the French transatlantic fliers are in a hotel room, but would Dieudonne Coste pose with them? Too much like a cattle show or a tradesman behind a counter for him.

BALTIMORE—General Pershing has acted as best man at the wedding of his former aide de camp, Col. George Marshall, 45 Mrs. Catherine T. Brown.

MOTOR OILS
Are Enthusiastic in their Recommendations
Read This:
We have used Valvoline in six-cylinder Fagol coaches for about three years. The route over which we operate is half gravel and half concrete, with some severe hills. Immediately after changing to and standardizing on Valvoline, we were pleased to learn that the life of the block and piston assemblies had doubled, bringing the average mileage on these parts up to 80,000 miles without even replacing piston rings. Also the carbon deposit was slight, as is demonstrated by the fact that we find it necessary to grind valves only once between block and piston changes.
