Kernel Gene:

I want to fuss a little with you. So here goes. It is about the agricultural commissioner. We elect just one now and gee, you are asking for 21 to be appointed by the Governor. Just look back to the ones appointed by Ex-Governor Shivers and think just what 21 would do for Texas. It would really be sold down the river and robbed clean, if those appointments are a fair example of the members they would appoint.

## Why Should I Have an Abstract?

... is a question that all abstracters have a ready answer for. When the ownership of real estate enters your business life, title problems also enter. Buying, selling, mortgaging or otherwise conveyancing, demand title information. You get that information from the abstract, the only means yet devised which reflects the condition of the record title which has everything to do with the question of values. If you buy only good titles based on the abstract you will have few, if any, title problems.
