

See Anyone You Know?

SNAGGLE-TOOTHED and roguish of mien, the gay group below is the vanguard of millions of Jack-O'-Lanterns soon to gleam from the windows of America as citizens again take knife in hand in the annual move to carve these symbols of Halloween.

HALLOWEEN'S MYSTERY is reflected in this youngster's eyes as she wonderingly contemplates arrival of "the witching time."

THE OMINOUS threat, "Trick or Treat," again will echo across the land as adults pay nervous tribute to stave off disaster.

PUMPKINS, the golden fruit of frosty autumn, are loaded into an International truck to begin the trip to market. Some will become pie fillings, others will be given the more romantic assignment of appearing as grinning Jack-O'-Lanterns.

Carol Hatcher, Reporter

In spite of rain and flu, some eighteen young people were present for Methodist Youth Fellowship last Sunday evening. Following our usual custom, we sang, had prayer, and took up collection. During our business session, we again discussed the party we have been trying to have. We hope that by next week flu and rain will subside, and we can set a definite time and place. In fact, we have some real plans in mind. Come to MYF next Sunday, and we'll tell you all about them.

David Revels had charge of the program, "The Way of Personal Worship". This program was the first of three in a series, "Ways We Know God", in the program area of Christian Faith. We shall be trying to know God better for ourselves. Next Sunday night we shall study "The Way of the Bible."

If you looked for us to come by your house Trick or Treating for CROP as we had planned, we're sorry we were not able to come. So many of us had the flu that it seemed wiser for the rest of us to stay apart and possibly not spread the flu further. Some of you have told us you had your money ready and looked for us. May we say that we really appreciate your interest in our projects.

Rev. Haynes and Mrs. C. R. Day met with us Sunday evening. Those who were early for church were with us for part of our session. We welcome you all.

We closed with all repeating our MYF benediction together. Remember our time change - MYF now meets and begins at 6:00 p. m.

CARD OF THANKS

To all who were so very kind to us at the passing of Mrs. Mattie Jones, we give our heartfelt thanks. For the many kindnesses of good neighbors and friends during her long illness; to the ministers for their comforting words; to those who gave the beautiful music; to those who acted as pallbearers; to those who sent the lovely flowers; and to those who helped in any way, we wish to express our deep appreciation.

Jack Webb, who is a very young man in years, but one who is grounded in the truth, with his wife, Jane, is doing a splendid work here by coming from ACC every weekend.

If you are not attending the services, certainly you are missing much. Therefore, we urge and invite all to attend Bible study every Wednesday night and Sunday morning and regular worship services at the eleven o'clock hour.

All night services will begin promptly at seven o'clock and young peoples class at six o'clock Sunday night.

Highlights and Sidelights

From Our State Capitol
By Vern Sanford.

AUSTIN, Tex. — Gov. Price Daniel's special session legislative program apparently is on the way to being passed — with additions and changes here and there.

Both Senate and House passed water bills — differing quite a bit from each other, and even more from the measure the governor requested.

Governor Daniel asked for a statewide water planning division with an appropriation of \$1,024,000. He also asked for state authority to contract with the federal government for water storage in federal reservoirs.

Cut out of the House Bill was the water storage provision. Appropriation also was reduced to about \$951,000.

Senate cut the appropriation to 600,240 and gave the proposed new division authority to do research, but not to formulate an overall plan. It authorized conservation storage agreements, but only if they are first approved by the legislature.

Biggest wrangle came when some House members tried to insert an amendment that would allow landowners to use water from small farm lakes for irrigation. Present law limits these lakes to domestic and livestock uses except with a special permit.

Result was a city vs. farm battle of the sort that has derailed overall water programming efforts for years. Amendment was added in the House.

LOBBY PROPOSALS — After all the furore, both House and Senate lobby control bills looked pretty mild.

Both would require registration of paid lobbyists and reports on how much they spend to influence legislation (over \$50 in the Senate bill; over \$25 in the House bill).

Neither would require details on how the money was spent.

A proposed substitute measure in the House would make the

lawmakers responsible for reporting money spent on them by lobbyists.

SECRET STUDY PROPOSED — Supporters of the crime study commission bill were dismayed at the turn it took in the House.

Before passing, the House put in a provision that the commission's sessions should be behind closed doors. It also gave it no power to subpoena witnesses.

It was the secret session part which disturbed the governor. Main purpose of the commission, he said, was to give the public more information on law enforcement and crime prevention.

TANGLED TRAIL — Senate investigating committee continued efforts to chop through the tangled financial history of three Dallas insurance firms.

Apparent purpose is to discover whether these companies were playing fast and loose with the policy and stockholders' money without restraint from the state regulatory agency.

Chairman Sen. Charles Herring said at the beginning of the inquiry that he felt the Legislature was catching the brunt of public indignation that sometimes stemmed from negligence by state agencies.

Pierce P. Brooks and Lester Hall of National Bankers Life were questioned about the complicated exchanges and re-exchanges of money and stock between that company and now-bankrupt ICT Corp.

Outcome was a \$2,000,000 loss to ICT stockholders. Hall said

hindsight made some of the deals look bad now, but they seemed perfectly all right at the time they were made.

Former employees of Preferred Life testified they had been instructed to conceal records from Insurance Department examiners. Company books didn't balance, they said, and there was a backlog of unpaid claims.

TAX STUDY LAUNCHED — For the first time in Texas history, work is under way to draw up the "big picture" on state taxes.

State Tax Commission, created by the last Legislature, has begun its work of finding out who pays how much to the state. Plan is to have the Texas Research League do the data-gathering with help from eminent experts in the field.

Findings will be presented to the next regular session which is expected to be faced with a deficit and the necessity of putting new taxes on someone.

But commission members emphasized they would present no recommendations for new taxes, only facts on current ones.

EARLY END — An early freeze caused a sharp halt in crop growth for about half the state. It damaged some sorghum fields, reports USDA, and hit all areas which still had late cotton crops to be harvested. Other areas reported ruined maize and damaged grazing.

Freeze was not unexpected in the Panhandle, said USDA, but came unusually early for many south central counties.

AT IT AGAIN — For the third time in a row, a new Travis County grand jury has set to work with the charge to discover any possible misconduct by state officials. Gov. Price Daniel urged the investigation. "Wild and unwarranted charges do great harm," he said, "and the makers should be given opportunity to put up or shut up."

Judge Mace Thurman echoed this view at the swearing-in session. Any citizen with information on malfeasance in office has not only the right, but an obligation to go to the grand jury, he said. Object: to indict the guilty and clear the innocent of charges from "insinuation or rumor."

PRISON EDUCATOR HONORED — Some 100 Texas notables attended an Austin luncheon honoring Dr. George Beto, credited with giving Texas the nation's first school behind bars.

Dr. Beto, a member of the Board of Corrections, is given chief credit for establishing a program whereby men in state prison can complete a high school education. Some 188 have received diplomas.

Former Gov. Allan Shivers, who appointed Beto to the board, served as master-of-ceremonies for the luncheon. Governor Daniel also joined in the tribute. Beto is president of Concordia Lutheran College in Austin.

CARD OF THANKS

To our many friends who showed us so much kindness and consideration at the loss of our loved one, W. F. Cornwell, to those who sent flowers and cards, and to those who brought food, we wish to say "thank you". We appreciate these acts of love more than words can express.

May God richly bless each and every one of you.

Mrs. W. F. Cornwell and Family

CARD OF THANKS

I wish to take this means of expressing my sincere appreciation to the doctors and nurses for their kind care and attention while I was in the hospital. Also to the ones who sent flowers, cards, and visited me.

May God bless you all.

Flu played havoc last week with football games involving the members of District 8-B as two games were cancelled. After the district game between Jim Ned and Gorman was cancelled because of flu at Gorman, Jim Ned scheduled a game with the Winters "B" team on Saturday night and won, 13-6, in the only game a member of this district played. The non-district game matching Baird and Aspermont was called off due to flu at Aspermont, but since it was not a conference game Baird was not awarded a forfeit. Gorman won by forfeit over Jim Ned because of a previous agreement, and because a district game must either be played or forfeited. Moran had an open date.

This week only one district game is scheduled. That would be Baird at Jim Ned on Saturday night. Moran has another open date, and Gorman goes to Rising Star for a non-district tilt.

In District 8-AA action last week Hamilton drubbed De Leon 33-7, and Dublin and Comanche tied, 6-6. Hamilton is undefeated this season and De Leon was the only hurdle for the district title. This week Dublin comes to De Leon for a district scrap. De Leon looks strong enough to win the remaining district games, and wind up in second place in district standings.

Eastland is out of the running for the District 10-A crown, since the Mavericks have lost 2 district games and Albany is undefeated. Albany took over first place by beating Throckmorton 14-6, last week. Albany has only Wylie and weak Clyde left on the district schedule. Eastland is host to tough Throckmorton this week. Albany is the only team to beat Throck this season.

From one extreme to another! 100 percent last week — 55 percent this week. My average on picks in college football dropped like a thermometer in a Texas norther as four upsets and one tie mauled peerless pigskin prognosticators. Notre Dame, Duke, Texas, and Rice were upset, and Iowa tied Michigan. That makes my season average 68 percent.

A & M took over the top spot in the Southwest Conference after co-runner Texas was whipped by SMU last week. SMU takes on A & M at Aggieland this week. TCU is idle. A&M over SMU (still No. 1) Rice over Arkansas (at Houston) (on TV) Texas over Baylor (on the rebound) Auburn over Miss. State (powerful Plainsmen) Duke over Navy (seasick sailors) Michigan State over Notre Dame (Sputnik II) Iowa over Minnesota (Land of Sky-Blue Waters) Ohio State over Purdue (Rose Bowl bound) Oklahoma over Missouri (just wait) Oregon over Washington (peaceful Pacific)

If you have spent your money for a farm or home in town without an abstract you are one of the very few who have. Better be safe than sorry. NEW CHEVY STYLE FRESH, LIVELY

The side and rear treatment of the Biscayne four-door sedan points up the complete job of restyling on the 1958 Chevrolets. Note the broad, flat rear deck lid, the graceful gull-wing sweep of the rear fender line and the full-length molding that marks the latest development in Sculpturamic styling. The Biscayne series is in the middle price range of the 1958 Chevrolet line.
