U.S. Economic Power Tempts Soviet Orbit

PRAGUE, Czechoslovakia, Sept. 13. (AP)—Russia's inability to match the economic power and political freedom of the United States has left the Soviet sphere in Europe still open to "western infiltration" after three months of the so-called "Molotov Plan."

Fears Of 'Bust' Are Sounded By Senator Ives, Paul Porter

CHICAGO, Sept. 13. (AP)—Fears that the nation might be riding its upward price spiral toward a "bust" were sounded today by Senator Ives (R-NY) and Paul Porter, last federal price boss under the OPA.

AAF Buildings To Be Sold

Any one can buy, without delay or red tape, any of the 167 buildings at the Big Spring Army Air Field at public sale on Sept. 30.

AAF Buildings To Be Sold

Under the simplified procedure, any persons will be able to submit bid on a building, pay for it, move it intact or dismantle it.

The real estate office of the corps of engineers, war department, Albuquerque, N. M., has announced that 185 buildings at the Pyote AAF will be held on Sept. 29.

Reviewing The Big Spring -Week-

Big Spring is suffering happily from a bad case of baseball fever, which started in Sweetwater the other night when things got so exciting that Bro. Lloyd Hawkins, announcing the game, had the "stands filling out."

Only three could take prizes in the crape myrtle contest which was terminated last week. But no one lost. Almost everyone who entered came out with one or more plants which will become increasingly beautiful with the years.

Both issues lost at the polls last week. Like many such incidents, this did not end interest, for it is still a topic for conversation. Interest in schools is a good sign and out of it some avenue of hope for progress may be found.

Tours of the Hereford Breeders, such as the annual autumn junket the past week are attracting increasing attention. Not only are breeders seeing what one another livestock industry.

Race For U. N. Presidency Is In Spotlight

Favorites Are Brazilian And Australian

NEW YORK, Sept. 13. (AP)—The diplomatic spotlight today centered on the election of a president for the United Nations general assembly in the midst of intensified security preparations for Tuesday's opening session.

Word leaking out of hotel conferences among many of the 55 delegations showed Dr. Herbert V. Evatt of Australia and Dr. Oswaldo Aranha of Brazil running ahead for the assembly leadership.

Backing for Dr. Evatt, Australian minister of external affairs and regarded as a major spokesman for the small nations, was reported to be concentrated in the British dominions and the middle east including the Arab countries.

Aranha, who was president of the special spring session on Palestine, will open the session as temporary chairman. With full support from the 20 Latin American republics, he would be hard to beat for the permanent job.

A special bomb squad from the New York City police force was assigned to comb the massive assembly building on the old world's fair site at Flushing Meadows.

Colleges Expect Record Number For Enrollment

Enrollment in Texas colleges this season seems likely to break last year's record-breaking number.

Major colleges and secondary schools over the state report they expect enrollments equalling or exceeding those of last September.

Only at Texas A & M college, rocked last spring by dissent between the cadet corps and the administration, was there any prospect of a fall-off in new students.

Registration at Southern Methodist at Dallas will not begin until Sept. 17, but officials predicted an enrollment of 7,000. Last year's figure was 6,781.

Friendship Marks Mexican Celebration

MEXICO CITY, Sept. 13. (AP)—Mexico marked the newly strengthened friendship among the American republics today as part of her 100th anniversary ceremonies to honor heroes of the 1846-47 war with the United States.

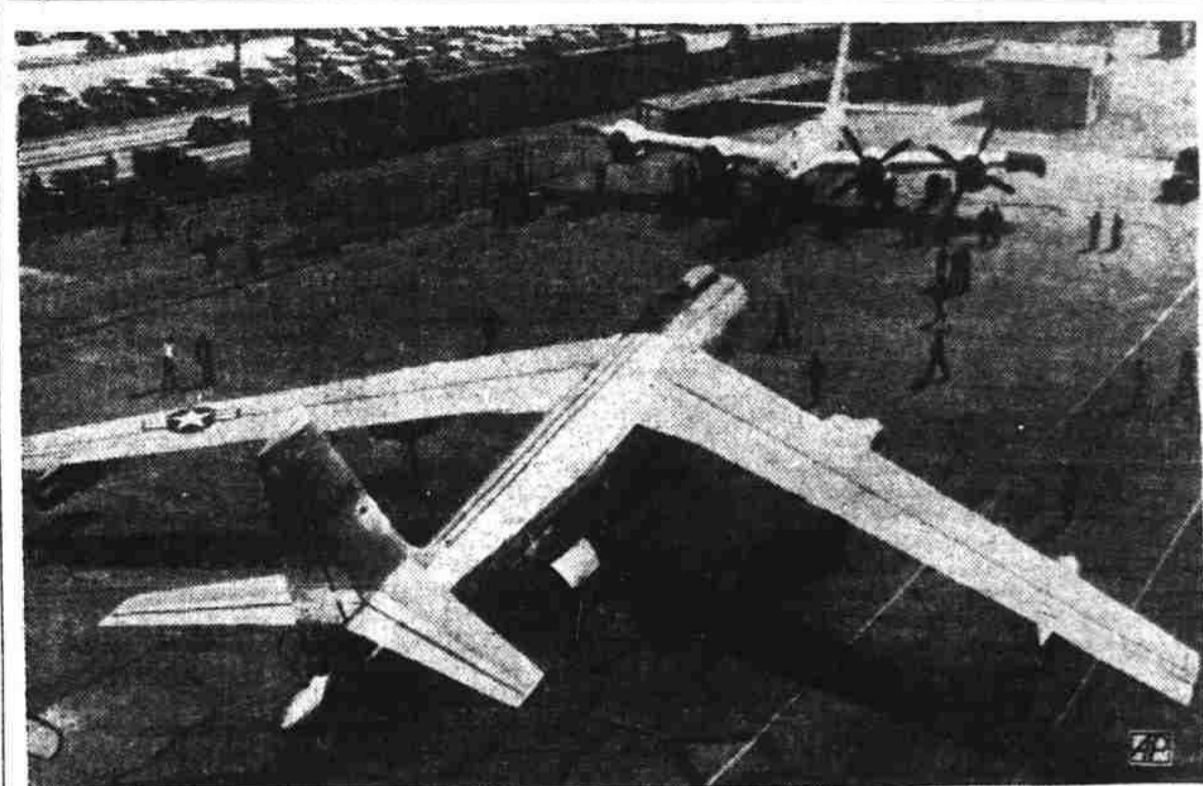

Five West Point cadets and those of eleven other republics joined in the honor to the six Mexican cadets ("ninios heroes") who died a century ago in Chapultepec castle in a last stand against the invading forces of U. S. Gen. Winfield Scott.

Steam Roller Charge Hurdled At Congress

SYRACUSE N. Y., Sept. 13. (AP)—A. F. Whitney, president of the brotherhood of railroad trainmen, declared tonight that the republican-dominated 80th Congress, in its first session, "was controlled by a corporate lobby and operated under a steam roller."

In an address prepared for the annual convention of the brotherhood's New York state association, Whitney urged voters in 1948 to "politically slaughter every reactionary and near fascist who curtails freedom and liverty in the interest of greed and monopoly."

Texas Borders Shut To Farm Laborers

NEW JET BOMBER AND B-29 FACE OFF—The new Boeing experimental XB-47, propelled by six jet engines and of radically new wing and tail design, was pulled near one of the wartime Superfortresses as plant workers towed it out of a hangar for first public display on Boeing field at Seattle.

North, East Are Offering Lush Cash

CORRECT LEGAL PROCEDURE WILL ALLOW PASSAGE

MARSHALL, Sept. 13. (AP)—Texas slammed shut its borders at 6 o'clock tonight to keep 60,000 Latin-American migratory farm workers from leaving the state for the lush pay offered by northern and eastern farm labor crew recruiters.

A United States department of agriculture migratory farm labor agent, William H. Yeager, Jr., declared that the border would be closed to Louisiana, Arkansas and the portion of the Oklahoma border from Denison, east.

He said that individual families could leave but that workers recruited by labor agents who have not paid the Texas franchise tax would be stopped.

Yeager said the federal government had entered the picture under wartime migratory labor powers which will be in effect in Texas until the first of the year, when the state will take over control.

The U. S. Agent added that enforcement will apply equally to United States and Mexican citizens. The law invoked is an old Texas statute originally designed to protect migratory workers against unscrupulous labor recruiters.

Yeager said that Texas farmers were paying \$1.50 to \$2.00 per hundred pounds for picking cotton, while Arkansas and Mississippi farmers were offering \$3.50 per hundred. He said that the workers also were tempted to leave Texas because of better housing conditions in the North and East.

Approximately 60,000 workers planned to cross the border by next Wednesday, Yeager estimated. A halt was expected next Tuesday, when the Latin-Americans will celebrate Mexico's Independence day, and the flood of workers was expected to dry up by Wednesday, he estimated.

Yeager said the border was blocked after pressure by Texas farmers who wanted to keep the workers in the state. Already, 13 labor agents have been arrested at Marshall, each with approximately 50 workers in tow. The halted workers were placed on Texas farms until they could obtain clearance, which requires about two weeks.

He estimated that only two per cent of those attempting to leave the state were Mexican citizens. Approximately 17 per cent of the family heads were in the United States military service in the last war.

German Professor To Teach At UT

AUSTIN Sept. 13. (AP)—Dr. Rudolph Plank, a German expert in refrigeration, arrived today at the University of Texas where he will be a visiting professor for a year.

He declared himself a non-Nazi Nazi regime. Dr. Plank will teach thermodynamics and courses in refrigeration.

Jester Rejects Three Pardons Recommended

AUSTIN, Sept. 13. (AP)—Gov. Beauford H. Jester today reported his rejection of favorable recommendations by the board of pardons and paroles on three conditional pardons, five reprieves, restoration of a driver's license and two other clemencies.

The Governor also revoked two conditional pardons. He did not give details of the sentences being served by the prisoners whom he refused clemency, but his memorandum to the board of pardons included the following observations:

Regarding conditional pardons—"It appears from the record that the subject is a parole violator, having been convicted of robbery while on parole."

"In view of the previous criminal record of the subject, and the dissent in the recommendation, I am unable to approve x x x."

"On the basis of the subject's bad record, both in and out of the penitentiary, I am unable to approve the recommendation."

"It appears x x x the subject has not served enough time on his 26-year sentence."

"Since the trial officials have all protested the granting of clemency, and the fact that there is evidence of a bad record x x x I am unable to concur in the recommendation."

Jester said he was unable to approve an application for restoration of driver's license in view of the evidence that the party was driving his car without a license after the date of his conviction.

Truman Will Get Facts On Europe

WASHINGTON Sept. 13. (AP)—Top Administration officials expect to be able to supply President Truman with enough "hard facts" on the European economic crisis when he returns to Washington next Saturday so that he can speedily decide whether a special session of Congress is warranted.

Mr. Truman is expected to make known within a few days after his return whether he considers the situation sufficiently grave to bring the lawmakers back together.

The state department, obviously plunging for urgent congressional action to provide further assistance to Europe this year, has moved to slash red tape at the Paris economic conference.

DEFIANCE OF LAW

Lewis Won't Sign Anti-Red Affidavit

CHICAGO, Sept. 13. (AP)—John L. Lewis defiantly asserted today he chose to refuse to sign an affidavit that he is not a communist, and he challenged the government to do something about it.

Lewis' refusal to comply with a requirement under the Taft-Hartley labor-management relations act, as interpreted by General Counsel Robert N. Denham, counsel for the National Labor Relations Board, deprives 105 AFL unions of resort to the board.

Denham ruled that no AFL or CIO unions could use the board's election and complaint machinery until the top officers of the two big labor federations signed affidavits disavowing communism.

The members of the AFL executive council, concluding a week's sessions here today, all are officers of the AFL. All, including Lewis, are ardent foes of communism.

Lewis, with a sometimes scathing reference to those of his colleagues on the executive council who wanted to sign, held out all week against complying. Single handedly he forced the council to announce last night it was "unable to conform to Denham's ruling."

Unless an expected recurve to the north begins by noon tomorrow, the weather bureau used to broadcast a preliminary hurricane alert for the Florida east coast.

Storm forecasters and hurricane hunters, teamed together in a constant study of winds aloft, pressure distribution and other factors governing the movement of these great storms, confidently predicted that the northward recurve would begin early Sunday morning.

Not to be caught off base by a trick storm, however, they set a deadline of noon for the recurve to begin before they will sound the preliminary alert. The storm will even then have time to recurve and roar off through the open waters of the Atlantic, threatening no land area.

'BE CAREFUL' SIGN

Warning Is Issued On Tax Cut Drive

WASHINGTON, Sept. 13. (AP)—Emphasizing the uncertainty of America's future foreign spending, Rep. Doughton (D-NC) raised today a "go slow and be careful" sign ahead of Republican plans to launch a new drive bent on slashing individual income taxes by \$4,000,000,000 or more.

This stand by the veteran lawmaker, who managed tax legislation when Democrats controlled Congress, foreboded a tax battle when Congress returns.

Doughton supported the last Republican effort to reduce taxes, by \$4,000,000,000 next January 1, but he indicated today that he feels the world situation has presented new considerations that must be taken into account.

President Truman, who twice used his veto power earlier in the year to kill Republican tax reducing efforts, recently estimated that the treasury surplus in the fiscal year ending next June 30 will be almost \$5,000,000,000. But he said this should be used to pay on the public debt and as a standby fund ready for any emergency at home or abroad.

Report Tells How Britons Foiled Nazis

LONDON Sept. 13. (AP)—The power of Winston Churchill's words, the tides of the English channel, and the do-or-die British air fighters proved insurmountable barriers to Hitler's intended invasion of England.

These forces against aggression, which tipped the scales even in the heyday of Nazi strength, received credit today in a British admiralty report based on German naval documents captured by British and American intelligence officers during the war.

Steel Strike Ends

PITTSBURG, Sept. 13. (AP)—A strike which idled more than 18,000 and which company officials said cost enough steel production to build 64,000 automobiles ended today as inter-plant railroad workers in Carnegie-Illinois Steel Corp. district mills returned to work.

Stock Showmen Form National Association

FORT WORTH, Sept. 13. (AP)—The National Livestock Show Management Association was formed here today by 25 executives of 11 expositions of Texas, Oklahoma, Arkansas, Colorado and Tennessee to improve the shows for benefit of exhibitors and spectators.

W. R. (Billy Bob) Watt, president of Fort Worth's Southwestern Exposition and Fat Stock Show, was elected president.

Vice presidents chosen were John T. Caine III, Manager of the National Western Stock Show at Denver; Albert Lee, acting president of the Houston Fat Stock Show; Perry Shankle, chairman of the auditorium committee of the contemplated San Antonio Stock Show; Ray Willoughby of the San Angelo Fat Stock Show and Rodeo; L. C. Clark president of the Tulsa Livestock Exposition.

Russell Nix, vice president of the Houston show, and Joe Freeman, chairman of the agriculture committee of the San Antonio show, Amon Carter was elected chairman of the board, to which each member exposition will furnish one member, and J. M. North Jr. of Fort Worth was named secretary-treasurer.

An executive committee composed of Toy Parks of Midland, representing the Sand Hills Rodeo and Livestock Show at Odessa; Sen. Clyde E. Byrd, secretary of the Arkansas Livestock Show Association at Little Rock; Mason King, director of the Amarillo Exposition and Fat Stock Show and the Tri-State Fair; North and the vice presidents also were named.

No Help Seen In State Labor Laws

DURHAM N. H., Sept. 13. (AP)—John W. Gibson, assistant secretary of labor, expressed serious doubt tonight that state laws regulating labor "will contribute greatly to industrial peace."

"And if employers try to take undue advantage of them," he said in a talk at a conference of New Hampshire industrial supervisors, "they will, no doubt create industrial unrest."

MORE IMPROVEMENTS

Laboratory System Installed At HCJC

The installation of a \$20,000 laboratory system for science classes at the Howard County Junior College and the incoming order for a complete set of materials for an industrial woodwork course are among improvements added to the college for the fall term opening Wednesday.

The laboratory, which will serve organic and inorganic chemistry, physics and biology classes, uses the most modern equipment available. A special feature is individual lockers for each student's science materials. Previously all laboratories for the college were held at the high school building.

work course have been added to Bible classes. Latin-American history and sociology are other new courses which will be offered this year.

Indications are that complete new outfits will be purchased for the athletic teams. Remodeling work has been done on the equipment rooms, dressing rooms and gymnasium.

Six additional faculty apartments have been converted to provide housing for the approximately 16 faculty members who will live on the campus. A new dormitory will be opened for boys and men. No provision has been made for women's dormitories.

**Many Towns Are Known For Hobbies**

When the Packers—a professional football team—loses a game, the players sometimes sneak down the back streets of Green Bay, Wis. They can't stand the sight of so many sad faces.  
That's because Green Bay is a town with a hobby and the fortunes of the Green Bay Packers are the direct concern of almost the entire population.  
There are hobby towns all over the United States, in which a single project, game or legend is the

avocation of almost everyone.

Hobby towns are happy towns. Catching tourists is only an incidental by-product.

Consider Prescott, Ariz., and its annual Snake Dances. Back in 1921 a group of local residents decided to put on an entertainment. Part of it was to be a burlesque of the old Hopi Indian snake dances.

Something happened that switched the project from burlesque to a serious imitation—and a hobby was born. The students of Indian lore banded together as an organization called the "Smoki people." Waving live snakes and hinting that their rituals will bring rain, the Smoki present their dances annually before large crowds.

Ethnologists who have seen the smoki performances say it is hard to tell between the Hopi McCoy and the white man's facsimile.

Seventeen years ago the Gainesville amateur theater was on its last, shaky legs. The little theater enthusiasts decided to give a burlesque circus to put the project in the black. That was the birth of a famous town hobby, the Gainesville community circus.

High school kids do the tumbler act, the undertaker takes tickets, a railroad switchman does a trapeze act. It's a real circus, complete with home-trained animal acts, high-wire performers and a troupe of clowns. Last year it netted \$25,000.

Apart from the financial returns Gainesville's happy hobby has brought about decline in juvenile delinquency. It has united a town of 12,000 in a common cause, providing year-round physical exercise for young and old performers.

Roanoke Island, N. C., is a whole hobby land. Ten years ago someone wrote a symphonic drama, "The Lost Colony" about the founding of the English colony on the Island 250 years before and retold the story of Virginia Dare. The island folk whose daily language still sounds like Elizabethan English, put on an amateur production for their own delight.

Today in the big show—an annual affair—draws crowds from all over the United States. When the open-air Waterside Theater burned this summer, in mid-season, volunteers by the score appeared to rebuild it in jig time so the show could go on.

Most rodeos are small town picnics where the local boys and girls show how good they are. Around Cody, Wyo., for instance, ranchers and their families spend plenty of time in the early Summer polishing up saddles and chaps and practicing bulldogging. Then at the July roundup, men and women, young and old, perform with only a handful of competition from outsiders.

The hobby of Bemidji, Minn., is spinning tall tales about Paul Bunyan, the lumberman's hero, and Babe, the Blue Ox. Bemidji is headquarters for Bunyan lore and an annual celebration.

New Orleans has its Mardi Gras, a festival which is one of America's great off-season (February) attractions for tourists, vying with ski centers and Florida beaches.

Long before the big show held an important spot in travel agents' pamphlets, the residents of the old French city in Louisiana held their traditional blowout. The Mardi Gras, which literally means Fat Tuesday, is a carnival with roots deep in Old World legends.

St. Petersburg, Fla., a semi-tropic Valhalla for retired men and women, has a sports hobby: shuffleboard. The city has thousands of ardent players, ranging in age from teens to eighties. There are four shuffleboard clubs with a year-round membership of around 10,000. One club has 103 courts and a concrete, covered grandstand which holds a cheering section of 500 persons.

But perhaps the most fanatical hobbyists of them all are the 50,000 residents of Green Bay where the football season officially opens Aug. 1.

Football became Green Bay's principal obsession after 1923 when almost everyone in town bought, for a fin apiece, shares in a shabby pro club which couldn't even manage \$250 to keep its National League franchise. Today the crowd packs a stadium of 24,000 seats for at-home games.

Psychiatrists and physicians prescribe hobbies for busy men and women and for bored ones. The prescription seems to work out well even when applied on a wholesale basis.

**Horace Fort Will Speak On Alcoholism**

**HORACE FORT**

Horace Fort, assistant to the director for the National Committee for Education on Alcoholism, is to address a community-wide meeting Tuesday at 8 p. m. in the auditorium on "Alcoholism—Public Health Problem No. 4."

In his capacity with the national committee, Fort comes fresh from the Yale Institute for Study on Alcoholism and recent developments from the institute will be reflected in his address.

Mayor George W. Dabney will preside at the open meeting, which includes vocal and instrumental music, a brief talk by an anonymous and recovered woman alcoholic, and Fort's address.

Controversy is studiously avoided in the meeting, which concerns itself with rehabilitation of people suffering from alcoholism. Thus, special emphasis is placed on a large number representative of the entire community at the auditorium.

Fort is a graduate of SMU, where he was associated with the 1923 championship football team. He also served as principal of an El Paso high school and is a recovered alcoholic. Pat Murphy, who was football coach under Fort at El Paso, will introduce the speaker.

There will be music by Roy Rogan's sextet, an accordion solo,

**Streamlined 8th Air Force Is In Prospect**

FORT WORTH, Sept. 13. (UP)—The Star-Telegram will say Sunday that streamlining of the 8th Air Force organization into "wings", with each wing divided into several groups capable of expansion to full operating strength on short notice, is in immediate prospect.

The change was described as a phase of the entire Army Air Forces reorganization which will convert it into the "United States Air Forces" under the National Armed Forces Unification Act passed in the spring session of Congress. The 8th Air Force, already engaged in global training flights to Japan, Alaska, Europe and the Caribbean, this will be given the framework for greater initiative and mobility.

Effect of the shift in organization lines on the 8th Air Force headquartered in Fort Worth will be to give to each of its four bases the status of a "wing", where local units are now at the "group" level, and to give the several subdivisions of each such new wing the form of a "group", the paper reported.

"Down the line, as the reorganization becomes effective, the wings will subdivide into smaller commands which in reality will be cadres of highly trained men, capable of training others quickly if the USAF were handed the problem of personnel expansion."

Maggie Moore, arrested by members of the Texas Liquor Control board Wednesday on a charge of possession of whiskey for purposes of sale without a permit, was fined \$100 and costs in county court Friday.

and the Lamun's quartet. The meeting will last for only an hour and a half. While here, Fort addresses a closed meeting of the local Alcoholics anonymous Monday at 8 p. m. at 910 Johnson.

### Bids For Addition To Fire Station Receive Attention

COLORADO CITY, Sept. 13. — Bids for an addition to the fire station here are under study by Mayor Peter Martin.

The addition is to house a \$7,500 fire truck which has been expected here for several weeks. The mayor also is to secure model copies for a proposed electrical code for the city.

### Major To Meet With Reserve Officers

Maj. Huddleston W. Wright, Amarillo, will be present for the meeting of the Reserve Officers association in room No. 1 of the Settles hotel at 8 p. m. Monday.

Grover C. Blissard, captain and head of the local association, said that Maj. Wright would have a training film with him. He is instructor for the organized reserve at Amarillo. Maj. Wright is a former Big Spring resident, having attended high school here. For a number of years before he was called into service with the national guard he resided in Lubbock. His unit was captured by the Japanese in this historic "Plum" operation.

The area of Turkey is somewhat larger than the state of Texas.

## SCHOLARSHIP, NO DEBT Garden City School District Sets Example For Good System

GARDEN CITY, Sept. 13. — Come Monday, the Glasscock Independent School district walks out from under all debt with one of the most modern plants in the state.

The final \$4,000 will be paid Monday on the bonded debt refunded in 1939 for \$39,000. Without any obligation over it will be plant, buildings and cafeteria equipment valued at \$290,000.

No formal ceremony will mark the occasion, but trustees privately happy about the sound financial condition of the county-wide system.

Today the school at Garden City consists of a high school, an elementary school, a gymnasium, (\$250,000) four teacherages housing 11 of the 14 faculty members (\$20,000), and a cafeteria serving 140 students and faculty members and valued at \$4,000. In addition, there are six buses (\$16,000) which transport 119 of the 175 enrolled.

This is a far cry from the days when Glasscock county had 14 common and one independent school districts operating 12 small schools. Besides the 866 square miles in Glasscock county, the district now is in the last year of a contract accommodating the McClinton rural high school district of 34 square miles in Midland county.

In addition to the faculty of 14, there are six buses (\$16,000) which chanic, three lunchroom operators and two building custodians. Headed the system is C. G. Parsons, superintendent, who holds a bachelor's degree from Hardin-Simmons and his masters from the University of Texas. Gordon Griggs, high school principal and coach, holds an MA from Sul Ross, and Mrs. Rosemary Griggs holds her masters from the same college.

Those with bachelor degrees are Gracia Ross, who is beginning her third year as elementary principal and her eighth year with the system. Mrs. Rube R. Ricker, Lillian Carr, Thelma Carr, Mrs. Vernay Cook. Others on the faculty are Mrs. Frank Ramsel, Vivian Carr, Mrs. Myrtle Sheffield and Dalton Sheffield, formerly of Jasper, L. O. Shelley, former

C. G. PARSONS

Itasca high school principal, and Mrs. Vera Neely, former Rock Springs high school principal. The faculty has an aggregate of 180 years teaching experience, ranging from 14 to 25 years individually.

Some 30 classes are taught in high school, where the enrollment is 50, and emphasis is placed on English, mathematics and science. There are 14 seniors, and the district knows of 16 graduates now in colleges.

In charge of the lunchroom is Mrs. Emabel Fulton, assisted by Mrs. Chris Schafer and Mrs. Jessie Kirk. Directing the policies are these board members: H. A. Haynes, president, Mack O'Branon, T. Haley, P. R. Stroud, W. E. Hughes, Henry Hilger, Carl Hightower. Still interested in the program they helped develop are W. G. Underwood, Ray Hightower and Joy Wilkerson, former board presidents.

Today the district has a budget of \$70,000, exactly half marked for instruction, \$12,000 for transportation, \$7,000 for administration. Only \$12,750 comes from the state per capita, \$66,000 coming from the \$1.40 rate assessed on the four million roll.

The school has met or exceeded state minimums on this structure. The high school is affiliated and the district is one of three of its size recognized by membership in the Southern Association of Colleges and Secondary Schools.

## Report Is Made On Cold Vaccine Experiments

HOUSTON, Sept. 13. (AP) — A "progress report" on a possible common cold vaccine under development at the University of Texas medical branch at Galveston was released today by Dr. Morris Pollard, one of two doctors working on the vaccine. His colleague is Dr. Coleman H. Caplovitz, son of a Houston physician.

Describing their vaccine as a "good step" toward a vaccine for the common cold, Pollard said much work remains to be done before the vaccine is a complete product.

"Although we think we have something worthwhile," he said, "we will have to vaccinate thousands of persons with the vaccine to determine its effectiveness before it could possibly be accepted by medical authorities as a vaccine."

Pollard stated he and Caplovitz must determine whether their vaccine is effective against all types of cold viruses. "And," he added, "we are not sure whether there is more than one type of cold virus."

## TEXAS POLL Most Texans Back College Education

AUSTIN, Sept. 12.—Go to college, young man, and learn how to make a living. And you, young woman, would learn how to be a good wife.

These are overtones of public opinion today as thousands of young Texans prepare to start or resume their college training.

The public believes a young man's best bet is vocational and technical training. He will be helped most in later life by studying business administration, engineering, and other courses designed to help him earn a living. The public places little emphasis on the humanities or classical education.

Young women, the public thinks, would do well to study home economics, including courses in marital relations, child care, cooking,

and sewing. Next to these things, for women, come studies which may be helpful in earning a living.

The Texas Poll probed into public attitudes on higher education by asking a cross-section of the adult population, including those who have been to college and those who have not, these questions:

1. "How important do you think it is today for a young man to have a college education—very important, only fairly important, or not so important?"

Very important	70%	84%	78%
Only fairly important	20	14	18
Not so important	4	1	4
No opinion	4	1	3

2. "What about a young woman today, do you think it is very important, only fairly important, or not so important for her to have a college education?"

Very important	49%	56%	52%
Fairly important	27	21	26
Not so important	19	12	16
No opinion	5	1	4

3. "What courses of study in college do you think will help a boy most in later life?"

The business he hopes to follow, "something to earn a living," differs with each boy: etc.

Business administration	18%
Engineering	12
Vocations or trades	12
Agriculture	10
Bookkeeping, typing, shorthand, etc.	10
Professional training	4
Mathematics	4
General education	3
Law	3
Medicine	3
Economics	3
Sciences	3
English	1
Psychology	1
Mechanics	1
Teaching	1

Mentioned by less than one per cent of those interviewed: religion, social sciences, history, chemistry, languages. Ten per cent had no opinion.

4. "What courses of study in college do you think will help a girl most in later life?"

Home economics, "homemaking," marital relations, child care, etc.

Home economics	49%
Secretarial courses	13
Business administration	10
Whatever she plans to do in life, etc.	4
General education	4
Teaching	3
Nursing	3
Vocations or trades	2
Social sciences	2
Psychology	2
Medicine	2

Mentioned by less than one per cent: economics, sociology, music, and sciences. Fourteen per cent had no opinion.

As a group, women attached greater importance to college education, for men as well as for women, than the men who were interviewed.

# Attention Remains On Sterling Test

Attention continued to be focused on Plymouth Oil No. 1 Georgia Frost, north-central Sterling county wildcat at the end of the week as operators attempted to squeeze off water thought to be coming from behind 5 1/2-inch casing above the perforated section in pay from 8,358-78.

It had squabbed 110 barrels of oil and 112 barrels of water in 24 hours, the water being salty. Thirty additional sacks were squeezed in the attempted shut-off on water. Location is in the center of the NE SW 39-1, H&TC, 11 1/2 miles north and slightly west of Sterling City. In the center of section 201-29, W&NW, Ray Albaugh prepared to start his No. 1 Paramore, an Ellenburger exploration five miles south and slightly east of the Howard-Glasscock pool.

Mitchell county chalked up a deep failure when Humble No. 3 Pratt, in the northeastern part of the county and three miles northwest of Lorraine, hit sulphur water in the Ellenburger and was plugged and abandoned at 8,131 feet in lime and granite wash. Location was in the C NW NW section 28-35, T&P.

Unfavorable also were reports was below 200 feet in section 119-

97, H&TC. Strain, Weiner and Hull were rigging for a 2,000-foot test in semi-proven area of north-west Mitchell county.

Magnolia No. 1 Guy Guffee, section 58-20, LaVaca, extreme north-eastern Howard wildcat being deepened to 9,000 feet, was at 6,354 feet in shale and lime. A. N. Lacy No. 1 P. M. Buchanan, section 29-31-in, T&P, three miles north of Cosden, was at 3,760 feet in brown lime on a deepening decision to extend contract depth from 3,600 to 4,500 feet. The test was high on structure.

Cole and Darden (Cecil Guthrie) No. 2 Lucy Mildred Coleman, 990 feet from the west and 330 feet from the north lines of section 76-97, H&TC, Coleman Ranch pool of northwest Mitchell cleaned out after shooting from 2,535-2,740, bottom of hole. Butram et al No. 2-B Lucy M. Coleman, in the northeast quarter of section 70-97, H&TC, was at 1,950 in lime.

Other developments in the pool were: C. T. McLaughlin No. 3 Coleman, 330 feet from the south and 990 feet from the west lines of the north half of section 70-97, H&TC, 1,900 feet in lime; Magnolia No. 1 Solomon, 330 feet from the north and east lines of the southeast quarter of section 71-97, 2,054 feet in lime; Dr. W. H. Cooper No. 1 Coleman, 330 feet from the northwest corner of the west half of the southwest quarter, section 70-97, spudded.

# Baptist Association Convenes Monday

REV. VERNON YEARBY

REV. ARTHUR DELOACH

Baptists of the Big Spring association will inventory their work for the past year when they convene at 10 a. m. Monday at the 1st Baptist church in their 39th annual session.

Divided into two days and two sites, the associational meeting will be concluded Tuesday afternoon at Calvary Baptist church in Midland. Embraced in the Big Spring association are Baptist churches in Howard, Martin, Midland and Ector counties.

Annual sermon for the association will be delivered at 11:50 a. m. Monday by Dr. P. D. O'Brien, pastor of the host church here. Missionary sermon will be by the Rev. Vernon Yearby, pastor of the First Baptist church in Midland.

On the concluding day there will be meetings on Sunday school and Training Union work, and a prospectus by the Rev. J. William Arnett, Big Spring, district No. 8 missionary. The Rev. W. C. Williamson, Prairie View, is to bring the doctrinal sermon at 11:20 a. m. Tuesday and reports of all committees at 1:30 p. m. that day will conclude the meeting.

During the morning session here Monday, the Rev. R. R. Hawkins, Stanton, is to speak on how the association can meet present needs, and how to change to meet

these needs. There also will be speakers for Buckner Orphans home, Texas United Drys, and the Rev. Morris A. Roberts, Marshall, is to report on the American Bible Society and the Baptist Standard.

During the afternoon there will be sectional meetings for the Women's Missionary Union and the Brotherhood.

Speakers for the women include Mrs. James Parks, Mrs. A. S. Woods, Mrs. J. S. Shepherd, Mrs. J. T. Cross, Mrs. Joe Ride, Mrs. A. W. Page, Big Spring, Mrs. C. Oliver Watts, Vincent, Mrs. E. R. Joe Pickle is to speak on a "Layman Loyal to His Pastor," Rev. Vernon Yearby, Midland, on a "Pastor Loyal to His Layman," and Rev. Arthur DeLoach, Odessa, recently returned from the World Baptist Alliance at Copenhagen, Denmark, on "The Layman in a World Wide Program of Christian Conquest." The Rev. W. C. Harrison, Odessa, is associational moderator.

## BEDTIME STORY IN BIG CITY

CHICAGO, Sept. 13. (AP)—This bedtime story turned Chicago's loop into a mess of clanging fire engines and rerouted trolley cars.

Jacob Heiman, 74, fell asleep on a street car yesterday.

Passengers thought he was in a coma and screamed to the motorman that a man was dying.

Fire department rescue crews were summoned. Fire Capt. William McDonald shook Heiman.

"You're a sick man," the Captain said. "Here's an inhalator for you."

"Nonsense, replied Heiman. 'I'm just sleepy.'"

"You should go to a hospital," said a street car line official.

"I'm not sick, just sleepy," the old man protested.

At Henrotin hospital physicians reported: "Nothing wrong, he's just sleepy."

Mr. and Mrs. Troy Gifford and son, Troy Amos, have returned from a business trip to Dallas. Enroute home they visited with his relatives in Fort Worth. Earlier in the week Mrs. Gifford's uncle, Albert Stephens, Wyatt, La., whom she had not seen in 21 years, visited them here.

## NBC TO DELAY CRIME PROGRAMS

ATLANTIC CITY, N. J., Sept. 13. (AP)—The National Broadcasting Company and its affiliates agreed today that, beginning Jan. 1, 1948, it would not broadcast any series of detective, crime, or mystery-type programs before 9:30 p. m. (New York Time).

The decision by the NBC and 160 of its affiliates attending the network's first annual convention was taken "in order to further reduce the exposure of juvenile and adolescent minds to crime suggestions."

## To Enter University Of Colorado Soon

FORSAN, Sept. 13. — Fletcher N. (Spooky) Green, grandson of Mr. and Mrs. O. N. Green of Forsan and employe of Continental Oil during the summer, has been accepted for entry in the University of Colorado as a member of the naval reserve officers training corps.

He is to be sworn into the USNR as a midshipman upon reporting to Boulder, Colo. soon. The expense of his training will be borne by the Navy.

Fletcher is the son of Malcolm Green, Brookhaven, Miss., and Mrs. Jackie Green, Levelland, where he graduated from high school after attending Forsan schools.

## Suspect Arrested After Knifing

A Negro man was arrested and brought to City Jail Friday shortly after a woman was treated for serious knife wounds resulting from an affray on the north side of town.

Police said the man probably would be charged with attempted murder.

Minnie Lee Randolph, Negro woman, was said to be in a serious condition at a local hospital. She was on the receiving end of a knife allegedly wielded by the suspect.

## DOS PASSOS HAS EYE REMOVED

BOSTON, Sept. 13. (AP)—John Dos Passos, 51, noted writer and playwright, was reported to be fairly comfortable today at the Massachusetts eye and ear infirmary, where his right eye was removed after an automobile accident in which his wife, Katherine, 50, was killed.

The accident occurred late yesterday as the couple drove through Wareham on the main road to Boston from Cape Cod where the Dos Passos live in Provincetown.

Dos Passos told Aareham police the setting sun prevented him from seeing a parked truck until it was too late to avoid it.

Helpful also will be his knowledge of governmental procedures gained by service at the Navy Department during the latter part of the war. A Marine Corps colonel, he spent many months on Pacific islands while they still were infested with Japanese, then was ordered here for a special assignment.

The 51-year-old Texan was winner in a special election Aug. 23 to fill a vacancy created by the death of the late Rep. J. J. Mansfield of Columbus.

First elected to Congress on June 24, 1933, to succeed the late Clay Stone Briggs, Thompson served throughout the remainder of the 73rd Congress which ended Jan. 3, 1935.

The district he represented then was cut up when the Texas legislature redistricted the state; Galveston county was placed in Mansfield's district, other counties attached to other adjoining districts. Consequently, Thompson did not seek reelection.

Incidentally, among his Texas colleagues there are now only three House members who served with him during his other tenure of office. They are Bonham's Sam Rayburn, Milton West of Brownsville and Wright Patman of Texas.

The intervening 13 years have seen the following drop out of the Congressional picture, some through death, some by defeat and others through retirement or resignation to accept federal judgeships:

George B. Terrell of Alto, Sterling Price Strong and Joseph W. Bailey, both of Dallas, all three of whom served as congressmen-at-large; Martin Dies, Jasper; Morgan Sanders, Canton; Hatton W. Sumners, Dallas; Fritz G. Latham, Fort Worth; Judge Luther A. Johnson and Judge Marvin Jones, both of Washington, D. C.; Judge Ewing Thomason, El Paso; Joe Henry Eagle, Houston; J. J. Mansfield, Columbus; James P. Buchanan, Brenham; Oliver H. Cross, Waco; William D. McFarlane, Graham; Richard Kieberg, Corpus Christi; Thomas L. Blanton, Abilene.

Thompson is one of the few Texans who have been reelected to Congress after a term or more away from the national legislature. Former Congressman Eagle was the last exception before Thompson.

**THICK ELLENBURGER LOGGED IN ECTOR**  
 By JOHN B. BREWER  
 SAN ANGELO, Sept. 13. — Ector county continued to hold the spotlight in West Texas oil development this week with the drilling of more pay indicated to be over 300 feet thick, in an Ellenburger discovery; extending of TXL Devonian production more than a mile north and finding of a new producing zone in the middle Permian in the Goldsmith field.

A clear fork discovery producer in western Gaines county was finalized on the pump, as was a 1 1/2-mile south outpost to the Fuhrman-Mascho (San Andres) pool in Andrews county.

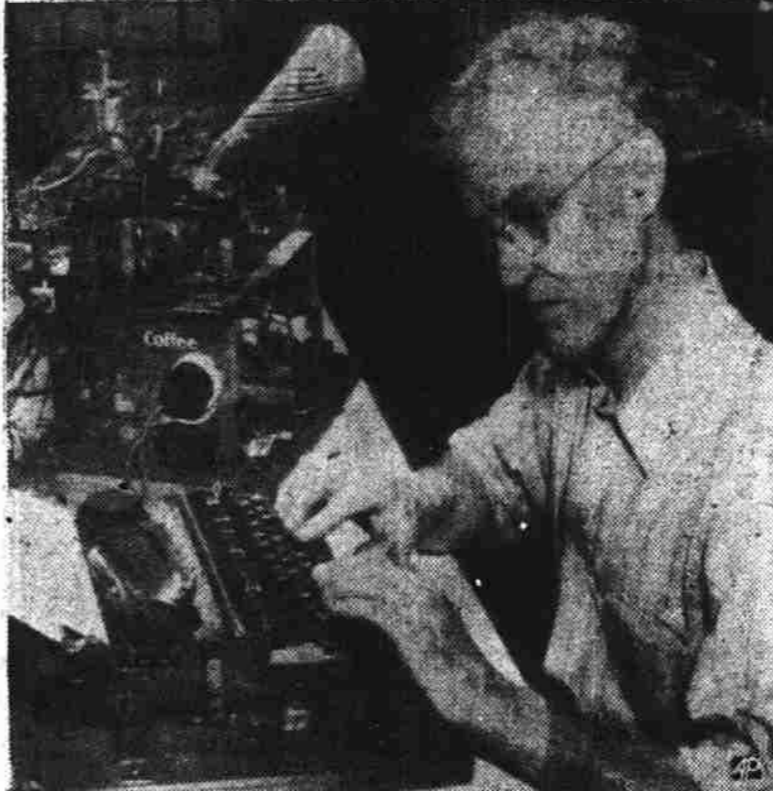

Phillips and Texas No. 1 McIntire, northwestern Ector's latest Ellenburger strike, flowed 118 barrels of oil in one hour on a drillstem test from 8,180-8,230 feet, 105 barrels in one hour from 8,330-80 and 115 barrels in one hour from 8,380-8,430 feet. It entered the Ellenburger at 8,066 feet, 4,863 feet below sea level.

The well is in the C NE NE 18-44-In-T&P, only 1 7/8 miles southeast of the nearest Ellenburger producer in the Andector field but probably shutoff from it by an Ellenburger failure one mile north and a quarter mile west.

Gulf No. 437 Goldsmith at the south end of the Goldsmith field flowed 66 barrels of oil to storage, in one hour on a drillstem test from 6,698-6,693 feet. The zone is below the regular San Andres pay at around 4,180-4,265 and above the Clear Fork pay around 6,100-6,200. The well is 5 1/2 miles south of the nearest Goldsmith Clear Fork production, being 440 feet from the north, 1,333 feet from the east line of section 28-44-1s-T&P.

Phillips No. 1-P University, north extension to TXL Devonian production, C SW SE 29-45-In-T&P, flowed naturally 232 barrels of pipeline oil in 15 hours at plugged back depth of 7,960 feet, with a packer at 7,834. It had drilled to 8,435.

**LIGHTNING STRIKES**  
 NEW YORK (U.P.) — A youth who could run so fast he was called "Lightning" by police finally was caught after two patrolmen chased him for 10 blocks. Admitting he had struck out once too often, "Lightning" identified himself as Kenneth Artis, 19, and confessed a series of purse snatchings in Central Park.

**TYPEWRITER THAT TALKS** — George Coffey, 59-year-old tool company machinist and home tinkerer, demonstrates in Providence, R. I., his machine (above) which through an arrangement of electrical contacts and phonograph recorder and reproducer, announces the name of whatever letter or number key is struck on the typewriter keyboard. For example when the operator strikes the letter "W", the machine promptly announces: "Double-you." (AP Wirephoto).

**Thick Ellenburger Logged In Ector**

By JOHN B. BREWER  
 SAN ANGELO, Sept. 13. — Ector county continued to hold the spotlight in West Texas oil development this week with the drilling of more pay indicated to be over 300 feet thick, in an Ellenburger discovery; extending of TXL Devonian production more than a mile north and finding of a new producing zone in the middle Permian in the Goldsmith field.

Honolulu No. 1 J. M. White and Geo. M. Shelton, western Gaines county wildcat which struck Clear Fork oil in May, pumped 156.91 barrels of 31.5 gravity oil plus 4.83 barrels of water in 24 hours from open-hole pay between 6,830 and plugged back depth of 6,959 feet, which had been acidized. Location is the C NE NE 40-4-G-CCSD&RGNG, 4 1/2 miles northwest of Cities Service No. 1 Thos. S. Riley, small basal Clear Fork discovery producer from 7,060-7,237 feet.

Stanolind No. 1-AC University in Andrews County, C NE SW 8-9-U, 1 1/2 miles south of the Fuhrman-Mascho field, registered a 24-hour

pumping potential of 63.26 barrels of oil from 4,190-4,447 feet after acidizing. It failed in the Clear Fork in drilling to 7,000 feet and plugged back.

Byrd and Frost and Gulf No. 1 Mayberry-Tippett, discovery in the panhandle of northwestern Crockett county in section 39-31-H&TC, drilled ahead at 7,001 feet in the Simpson after blowing out from the pay section at 6,309-89 feet, reported by some the Devonian. It was scheduled to explore the Ellenburger.

A. P. Groebel No. 1 Hayden Baugh, Schielcher county wildcat, gassed heavily and showed some oil through perforations at 5,715-65 feet from acidized Strawn. It cemented the section and will re-perforate. No shows were found in the Ellenburger, topped at 6,548 feet, 4,134 feet below sea level, in drilling to 6,591. Location is the C SE SE 8-M-GH-SA, 4 1/2 miles north and slightly west of the Page (Strawn) field.

J. A. Chapman and E. B. McFarlin No. 1 Luke Robinson, wildcat C SW SW 49-1-GH&SA, seven miles northeast of the Page field, was abandoned dry at 6,513 feet in Ellenburger lime topped at 6,130.

York & Harper, Inc., of Midland staked No. 1 C. O. Edwards, slated 5,500-foot wildcat in Lynn county, 440 feet out of the southwest corner of section 58-GTRR (G. T. Preston), 11 miles west of Tahoka.

Texzona Producing Co. of Fort Worth, while preparing to complete its No. 1 Tunstill Bros., Delaware sand discovery in northwestern Reeves county, staked No. 1 John Camp 1 1/4 miles south and a quarter mile east, 330 feet out of the northwest corner of section 14-56-2-T&P. No. 1 Tunstill recently flowed 105 barrels of oil and one barrel of salt water in 15 hours through a 3-8 inch tubing choke from 3,275-3,308 feet after a shutin period.

**C. L. King Will Re-enter Tech**  
 FORSAN, Sept. 13. — C. L. King, Jr., son of Mr. and Mrs. Claude King, is maintaining his military connections through the ROTC and at the same time continuing his education.

He is to re-enter Texas Tech soon for his senior year as a petroleum engineer major. He had two years in the school before he enlisted in the navy in the summer of 1945 and spent most of his 13 months in the Pacific near the Philippines.

Upon receiving his naval discharge, he volunteered into the army reserve and qualified for his second lieutenantcy after six weeks in Camp Hood during the summer. Since then he has been rough-necking in the oil fields at Andrews.

**Books Given To Library**  
 Contributions totalling 79 volumes of both fiction and non-fiction have been received during the past three days by the Howard County Free Library, Mrs. Benny H. Collins, librarian, announced Friday.

Mrs. Andrew Merrick donated 75 books, some of which were non-fiction, and Mrs. Daniels contributed four volumes of fiction.

The library schedule is continuing with night hours twice a week. On Tuesdays and Thursdays it is open from 11 a. m. to noon, from 1 p. m. to 5 p. m. and from 7 p. m. to 9 p. m. On Mondays, Wednesdays, Fridays and Saturdays the hours are from 9 a. m. to noon and 1 p. m. to 5 p. m.

Of Nebraska's 77,520 square miles about 712 square miles are water surface.

**Shine Phillips Returns From Trip**  
 Shine Phillips has returned from Waco where he and other members of the state pharmaceutical board conducted examinations for three days ending Thursday. Upon his return here he learned of the death Friday of M. E. Dooley, Wolfe City, board member, in Austin on Friday morning.

**Last Rites Said For George Bullock**  
 STANTON, Sept. 13. — Last rites were said Friday at Sweetwater for George Bullock, former resident of Stanton. Bullock died Thursday morning at Sweetwater where he had been associated with a funeral home as accountant for several years. Prior to that time he had been with Higginbotham-Bartlett company in Stanton.

A dark red rose is a symbol of mourning.

**Which Dad would you rather be?**

NATURALLY, any father would like to see his children have a college education. Yet this September, next September, every September, there'll be many a boy or girl who wants to go to college, but can't.

The reason: *lack of money in the family.*

There's one way you can avoid this kind of disappointment for your kids. That's by buying U.S. Savings Bonds regularly... and holding on to every one you buy.

You can do it easily... automatically...

... on either one of two bond-buying plans. The Payroll Savings Plan, if you're on a payroll.

The Bond-A-Month Plan, if you're not on a payroll, but have a bank checking account.

Give yourself, and your children, a break. Buy Bonds every month. You'll get back \$4 for every \$3 at maturity.

And you'll be making the *safest investment in the world.*

Save the *easy, automatic way* with U.S. Savings Bonds

**A General Electric Washer gets clothes REALLY CLEAN!**

FOR really clean washings, the General Electric Washer has a reputation that can't be beat! And this improved G-E Washer is built for just one thing... "quick-clean" washing every time.

See for yourself how the time-tested "three-zone" Activator\* chases out hard-to-remove dirt... yet is gentle with the finest fabrics. See how convenient it is to have a One-Control wringer that gives the correct pressure and you'll bless the day you bought a G-E.

Come in and let us show you the only washer that has the G-E Activator, the One-Control Wringer, and a Permadrive Mechanism (only four moving parts!) For quiet operation, long, dependable service, and really clean washings, the improved General Electric Washer is a top-notch value.

ABILENE, Sept. 13. —A new, comprehensive freight rates study, commodity rates, has been launched from West Texas. It is a joint undertaking conducted by the West Texas Chamber of Commerce, its Freight Rate Equality Federation, various state and commodity groups, and six trunk line railroads serving the territory. The announcement from WTCC headquarters gave the personnel of the special 22-member committee and recalled the regional chamber's action leading to the group on June 7 when railroads and others were invited to join the study.

**Flowers Readied For Winter Market**

FORT WORTH, Sept. 13. —Florists in the Southwest's largest glass house are at work this month readying more than 100,000 roses, poinsettias and chrysanthemums for the booming winter flower market. Under the 125,000 square feet of glass at Fort Worth's Greenwood Floral company, 45,000 rose bushes are "resting" against the day in mid-October when they will start producing nearly 700,000 buds to be distributed through five states.

eties that bloom more quickly if shielded from light, while increased sun or artificial light slows blooming. But the florists will play no tricks on the roses. They will be allowed to bloom steadily from October until next summer.

**CIRCUS CLOWN** — The inevitable clown will be going through his antics here Tuesday when Roger Bros. Circus comes to town for 3 p. m. and 8 p. m. showings at W. 3rd and Bell streets. The circus includes more than 100 performers, wild animals, horses with some of them boasting movie experience, aerobatics and aerialists.

**UNIFORM TRAFFIC CODE**

**Pedestrians Are Affected By Laws**

(Herewith is the fifth in a series of articles aimed at orienting motorists of Big Spring and Howard county with the changes in the traffic laws, which went into effect Sept. 5). The new state traffic laws were not designed for the motorist alone but for both the man behind the wheel and the pedestrian. The latter is amply protected by the new code but he must also lend his co-operation if he hopes to cut the death and accident rate. When traffic-control signals are not in use, the driver of the vehicle is required to yield the right-of-way, slowing down or stopping completely, to a pedestrian crossing the street or road within a cross-walk when the pedestrian is

yield the right of way to all vehicles. Between adjacent intersections at which traffic control signals are in operation, pedestrians should not cross at any place except in a marked cross-walk. Pedestrians should move, whenever possible, upon the right side of a cross-walk. Where sidewalks are provided, it is unlawful for any person ambulatory to walk along and upon an adjacent highway. Where sidewalks are not provided, pedestrians should face the traffic while walking on the left side of the roadway, especially at night. The traffic code pertains to persons driving motorcycles, busses, bicycles or motorized scooters. **CONSCIENCE SOOTHED** PITTSFIELD, Mass. # WHAT GIVES 'ROUND TOWN

By Leatrice Ross

The time nears for the town to lose its college gang to the universities. During the past week a number have departed—getting to school early enough to make social contacts before the bother of classes.

Jimmy McAllen left Friday morning for Columbia university, New York City, to enter as a pre-med student. Jimmy, by the way, won a scholarship there from Price (Catholic) junior college in Amarillo. Bill Underhill and Woody Baker got away to Fort Worth Thursday night. Both are enrolled in TCU. Wesley Deats leaves Monday evening for Dallas and SMU.

Martin Dehlinger left Thursday night to join a group at El Paso, from where he will launch a field trip to Arizona in the interests of geology. Martin will be a senior at the College of Mines, which opens about the 30th. Stewart Smith and Joe Bruce Cunningham left Wednesday for Texas U. Gloria Strom probably will go down that way Monday evening. Billy Clanton will be at Texas Tech Monday.

Strolled through the local Junior college Friday afternoon. Find the registration fever has spread early there, too. Sonja Weaver, Betty Stuterville and Patsy Sue Tompkins, all grads of BSHS last year, and Ed McConnell, who attended college in New Mexico last time out, were groping through schedules. With assistance, as it were, of Dave Platt and Earl Lusk, bound for Tech, and Jean Ellen Chowns.

Ladd Smith departed this weekend for Fort Worth to visit a brother. Lester Vinson of Winters, a student of Hardin-Simmons university, is here today to see Babe Snyder. June Fields of Hobbs, N. M., at one time a Big Spring resident, was through here Wednesday to visit Charlene Tucker. Toar Bryan and Jackie Barrow hunted birds somewhere around here Friday afternoon.

Hear much said concerning the Ringling Bros., Barnum and Bailey circus in Sweetwater Thursday eve.

Going over were Wesley Deats, Richard Deats, Bobbie June Bobb, Jimmy Feden, Betty Rawlins, William Williams, Bill Merrick. Run onto in places where we escaped from the rain Thursday night: Ruth Stripling, Darrell Webb, Patti McDonald, Pee Wee Simmons, Evelyn Green, Tip Anderson, Bobbie Green, Dee Thomas, Beverly Stulting, Kenny Thompson.

Ever see a baseball game from a two-by-four lying seven feet from first base? Such was the case Wednesday night for us Big Springers who arrived in Sweetwater a bit late to find room in the grandstands. Sitting alongside: Betty Lou McGinnis, John Bill Gary, Marjorie Thurman, Bob Berryman (visiting here from Sterling City with John Bill), Mary Ann Goodson, LaVerne Kinman. Elsewhere sat Louise Ann Bennett, Jimmy Tolbert, Jackie Barron, Dabs Douglas, Doris Thomas, Mary Joyce Sumner.

Couples out Friday evening: LaVerne Hampton, John Bill Gary, Faye Newton, Raymond Stalings, Jean Ellen Chowns, Donald Williams, Vera Dell Walker, Robert Swann, Lee, Dorothy and Buzzy Hubbard. Lyan Martin is back from a vacation to Amarillo. Billy Garrison is at A&M again after spending the past three weeks on a trip through West Virginia and other southern states.

Robert 'Beans' Miller left Saturday morning for Austin to enroll in Texas U this year as a petroleum engineering major. After he registers, Beans and brother, John, will spend several days in Corpus Christi. Mickey Butts departed Saturday night for TU. Buddy Gound will be down that way very soon. D-Eon Priest is enrolled in the American School of Commercial Art in Dallas.

Ancient Roman officials banned all but their own private vehicles from that city's crowded streets.

### Laverne Reynolds Becomes Bride Of Billy Chrane In Church Service

Rev. P. D. O'Brien Reads Double Ring Vows

LaVerne Reynolds daughter of Mr. and Mrs. Leon S. Cole, became the bride of Billy Chrane, son of Mr. and Mrs. B. T. Chrane Saturday night in a candlelight service in the parlor of the First Baptist Church.

MRS. BILLY CHRANE

The Rev. P. D. O'Brien read the double ring ceremony at an altar banked with fern. Baskets of pink gladiola and white candelabra supporting white tapers marked the place where the wedding party stood.

The bride, who was given in marriage by her father, wore a gray botany suit with black accessories. She carried a white Bible topped with a white orchid. As something blue she carried a blue streamer in the Bible and as something old and borrowed she carried a handkerchief belonging to Frank Cathey that he brought back from France after the First World War. She also wore a penny in her shoe.

Janetta Byers dressed in a gray suit with black accessories and a pink carnation corsage lighted tapers.

Norma Lou Jones was maid of honor. She wore a black suit with black accessories and a corsage of pink carnations.

A medley of pre-nuptial music was played by Leslie Cathey. She also played the traditional wedding marches.

Billy Crunk was best man.

Mrs. Cole, mother of the bride, wore a black dress with black accessories and a white carnation corsage. Mrs. Chrane, mother of the bridegroom, was dressed in a gray suit with a corsage of white carnations.

The bride graduated from Big Spring high school in 1947 and is now employed with the Telephone office.

The bridegroom is a graduate of Big Spring high school and attended Texas Technological College and Howard County Junior College. He is now working for the T. & P. Railroad Company.

A reception was held at the home of the bride's parents immediately following the ceremony.

The three tiered wedding cake and punch were served from a table laid with lace to close friends and relatives.

After a short wedding trip to Carlsbad, N. M. the couple will be at home at 402 Donley.

Receiving guests with the hostess were Mrs. Hughes, her mother, Mrs. B. R. Wilson and Mrs. Earl Hughes. Guests were registered by Mrs. M. M. Hines.

Refreshments were served from a table laid in lace with a mixed floral centerpiece. Presiding at the refreshment table and at the gift display were Mrs. A. D. Barton, Mrs. Johnson, Mrs. Wilson and Joyce Jean Sewell.

All members of the house party wore corsages of purple and orchid asters.

Present were Mrs. O. W. Fletcher, Mrs. J. B. Anderson, Mrs. Erda Lewis, Mrs. Berl Griffith, Mrs. J. M. Craig, Mrs. C. E. Chattin, Mrs. Idella Alexander, Mrs. H. L. Tiernand, Mrs. J. D. Leonard, Mrs. J. N. Seward, Mrs. Paul Gordon, Mrs. Bob Ewell, Mrs. Vera

Gold Strike No Good

HONESDALE, Pa., (UP.)—A grader operator who turned up pieces of glass containing gold while working on a road here had visions of another bonanza. But the metal was only refuse of a local glass works abandoned 60 years ago. In early days, bits of gold were thrown into a batch of molten glass to add luster, color and tone.

### Big Spring Women Express Opinions Of New Longer Length Fall Fashions

THE WOMEN OF BIG SPRING — Say that they will wear the new longer skirted fall fashions like those pictured above which were shown at a recent fashion show, but some with many misgivings.

By BILLIE JEAN BURRELL  
What do you think of the new longer skirts  
This is the question that brought a multitude of answers when asked of a representative group of Big

Spring women. All were agreed on the fact that they would wear them despite their own personal feelings. But not one admitted that she liked the shoe top length.

Ina McGowan, head of the Settles Beauty Shop and La Donna Beauty Clinic said, "I don't like the extremes; but suppose that I would wear them if the fashion were that way. I didn't like the extreme short skirts but I wore them. I like the longer skirts for a change."

"I like the longer skirts, so long as they don't go beyond, say, about 14 inches from the floor," said Gloria Strom, who will return to the Texas University this week as a junior. "I still say that the best thing to wear is a pair of pedal pushers on the golf course."

Mrs. Tommy Gage, one of the younger housewives, likes for them to be about two inches below the knee. She says she is against the extremes.

Mrs. E. H. Strauss does not like them. "I am so short that when I put one on I look as if I were all dress and feel as if I were running around in my nightie I think that they are glamorous on tall stately people and now that they are in fashion I wish I were tall."

Mrs. F. D. O'Brien, a minister's wife, likes them at a moderate length, which to her is about 14 inches from the floor; but she doesn't think that the shoe top length would be comfortable or desirable.

Marguerite Wooten expressed the opinion that they are pretty if not too long. She is employed at Hemphill-Wells.

Mrs. Jimmie Mason, president of the City Council Parent-Teacher Association, thinks that every woman should wear the length that looks best on her no matter what the trend of the times happens to be.

"I think they are tacky," is the reaction of Mrs. Howard Schwarzenbach.

"My opinion is that the individual should wear the length that is most becoming to her height and width. Since I am short I like the shorter length," is the reply of Mrs. Bob Satterwhite.

Mrs. L. E. Hutchins, former

school teacher of the elementary grades, likes the longer skirts because as she says they are better for the larger women.

Mrs. J. B. Young declined to say what she thought of the longer skirts, saying that her opinion was too biased for it to count. She also added that as an elderly woman she thought she would leave the matter to the younger generation to settle.

According to this poll, it will be safe to conclude that the feminine population of Big Spring has decided to lower the hemline without a struggle.

### Mrs. Reed Entertained With Morning Coffee

Honoring Mrs. Johnny Reed, who recently has moved to Big Spring from Dallas, Mrs. Avery Faulkner

and Mrs. Joe Elrod entertained with a morning coffee Saturday in the Elrod home. Mrs. Reed was presented with a gift. The hostesses served coffee and

coffee cake to Mrs. David Elrod, Mrs. Louis Amon, Mrs. James McWhirter, Betty Collins and Mrs. J. W. Elrod.

**Men Have Hemline Problems Also**

NEW YORK—While women mobilize for the battle against long skirts, men are faced with the problem of high-water pants this fall.

Predicting that men's trousers will be two inches shorter this fall, and that shoulder pads will be missing from new suit jackets, Tony Williams, leading New York tailor, warned gloomily that the way things are going, men will be

lucky if they have any pants at all, adding:

"The shorter trouser with cuff will barely touch the top of the shoe."

A shop catering to college men reported that trousers shortened to the top of the socks is the new rage on eastern university campuses.

Commenting on the no-shoulder-pad vogue, however, Leonora Corbett, well-known British actress, said:

"I don't think it's wise to take the stuffing out of gentlemen."

Built  
on  
Sand?

Is this lighthouse built on sand? Seemingly so! All you can see at its base is sand.

Actually this towering structure is built on rock. Underneath these dunes of sand is a rocky ledge, firm and enduring. The sand may be carried away by sea or wind, but this lighthouse will stand secure. There's a rock, a firm foundation, underneath!

Some people look at the Church and see only sand. They see the shifting sands - of custom - and fashion - and passing personalities pile up and wash away around the Church. "Why is it still standing?" they ask - for they see only sand.

The Church would have fallen long ago were it built on anything so fickle as fashion, so casual as custom, so impermanent as mere people. The Church is built on rock, firm and enduring. It will stand secure for all ages, shedding light and imparting strength to all who are guided by it. It stands on the "Rock of Ages," the divine personality of Jesus Christ and His message of hope for all mankind.

**THE CHURCH FOR ALL . . .  
ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the church of his choice. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church on Sunday and read your Bible daily.

### Faculty Members Honored At PT-A Meeting In Forsan

FORSAN, Sept. 13. (Sp.)—Teachers in Forsan schools were honored at a social hour held in connection with the Parent-Teacher association's first meeting of the new school year, at the high school gymnasium this week.

Following a prayer by Jesse Overton and devotional conducted by Mrs. G. D. Kennedy, Mrs. Bill Conger sang two songs, with Mrs. J. T. Holliday as accompanist.

Mrs. Jim Calcote was in charge of the business session, and reports were given by Laura Whittenberg, secretary and Mrs. C. V. Wash, treasurer.

Two new members of the Forsan faculty, Miss Betty Rose and J. T. Martin, were introduced by Mrs. Holliday. Other teachers have been here in former years.

Betty Jo Roberson and Johnita Griffith served the guests, who included:

Mr. and Mrs. J. T. Holliday and Nan, Mr. and Mrs. D. W. Roberson, Betty Jo, Robert Lee and David; Mr. and Mrs. M. M. Fairchild and Mary Ann, Mr. and Mrs. E. A. Grissom and De Alma; Mr. and Mrs. G. B. ## The CHIROPRACTOR-and You

No. 17 of A Series of Articles Published in The Public Interest To Explain and Illustrate The Practice of Chiropractic.

**WHAT WILL CHIROPRACTIC DO FOR NERVOUSNESS?** The brain is like any other organ in the body. It is dependent for normal function upon the proper supply of mental impulses to it. Tiny fibers convey these impulses from one part of the brain to the other. They pass out from the spinal cord and turn back into the cranial cavity, and are known as recurrent fibers. If anything happens to prevent these fibers from carrying the proper quantity and quality of vital energy, then the tissues which they supply become abnormal in their function. Such a condition often exists as a result of slight displacement of the small bones which form the spinal column. When the vertebra is adjusted to its normal position and the pressure upon the nerve fibers is relieved, the cause of nervousness has been taken away. The reason that Chiropractic is of inestimable value in cases of nervousness is that the effects are lasting, and the effects are lasting because the cause of the condition has been eliminated.

**CASE HISTORY No. 988.** A child of nine suffering from Encephalitis—a disease of the brain—and pronounced incurable. The child's breathing had become abnormal; she had spasms resembling epilep-

sy; she was extremely nervous. She was placed in hospital but discharged six months later in even worse condition. Believing that "where there's life, there's hope," the mother tried every specialist recommended to her, but without benefit to the child. Eventually she was talked into trying Chiropractic. Spinal analysis revealed a severe nerve pressure at the base of the child's skull, and adjustments were given to remove it. Within two weeks she began to improve and continued improving. Three months later she was discharged as well.

**CASE HISTORY No. 117.** A typical case of neuritis. A letter carrier with severe pains in the right shoulder and arm. The pain was so intense he was unable to sleep, had to quit work and was continually seeking relief with this medicine and that. A fellow carrier persuaded him to give Chiropractic a chance, and after his first spinal adjustment he was able to sleep for the first time in weeks. At the end of 15 days he was back at work and able to move his arm in every direction without pain.

**FOR FURTHER INFORMATION** concerning the modern Chiropractic and what he can do for you. Phone 419.

# Betty Grable Sings, Dances In Gay Film, 'Mother Wore Tights'

Another story of show folk—the wonderful breed of people carrying on the traditions of vaudeville—has been brought to the screen, and the result is "Mother Wore Tights," a happy tale of a pair of hoofers that plays at the Ritz theatre today and Monday. The picture is in Technicolor.

AT LYRIC — Favorite cowhand of them all, Gary Cooper returns in a re-issue of "The Westerner," a stirring melodrama of the old range days which is at the Lyric theatre today and Monday. Doris Davenport is his leading lady, Walter Brennan is a featured player.

marital adventures of a talented, hard-working dance team, and their fight to combine a successful vaudeville career with the raising of two rambunctious children. And while the film is geared to set a fast pace in motion picture spectacle and melody appeal (it introduces six new songs), it is primarily devoted to unfolding the private drama and joys of the Burt family.

The beautiful Betty is said to be given more song and dance assignments than she has had in any previous picture. She has much help in the dancing and comedy sequences from Dailey, who has just been discovered as a hooper of no mean degree.

Connie Marshall appears in the role of the Burt's youngest daughter, while Mona Freeman has the part of the elder daughter, whose romance with a wealthy society boy prompts a crisis in the family.

Others in the cast include Vanessa Brown, Robert Arthur, Sara Allgood, William Frawley, Ruth Nelson and Anabel Shaw. Lamar Trotti handled the story for the screen, and produced it. The songs are by Gordon and Myrow, and include such numbers as "Kokomo, Indiana," "On A Little Two-Seat Tandem," "There's Nothing Like A Song," "This Is My Favorite City," and "Fare-You-Well Dear Alma Mater."

LOVE MY WIFE BY OH, YOU KID — Dapper Dan Dailey is the flirtatious gentleman pictured with Betty Grable in this scene from the Ritz theatre's feature for today and Monday, "Mother Wore Tights." It's a sprightly song-and-dance affair, done in Technicolor, and telling of a vaudeville family's adventures.

BOY GROWING UP — Gregory Peck and Claude Jarman are shown here in one of the heart-warming scenes from "The Yearling," a Technicolor production from the Marjorie Kinnan Rawlings novel which is at the State theatre today and Monday. Jane Wyman is the other principal in this poignant story of the Baxter family of the Florida scrub country.

# 'The Yearling' Is Featured Attraction At State Theatre

Greeted universally as a celluloid presentation of strong background, stirring story and top casting is the State theatre's feature for today and Monday, "The Yearling."

Based on Marjorie Kinnan Rawlings' fine story of the Florida brush country, the picture has Gregory Peck and Jane Wyman in the leading roles as Pa and Ma Baxter, along with a new film discovery, Claude Jarman, Jr., who appears as Jody.

## AFTER WORLD TRIP Mrs. Hobby Gives Impressions Of Struggles For World Peace

HOUSTON, Sept. 13. — First hand impressions of the problems of nations, large and small, in their peacetime struggles of economy and diplomacy have been published in the Houston Post by Oveta Culp Hobby, executive vice president of the Houston paper, who recently completed a 13-day plane trip around the globe.

Mrs. Hobby, former director of the Women's Army Auxiliary Corps, told her readers of meeting Prime Minister Attlee in London, General Douglas MacArthur in Tokyo, Generalissimo Chiang Kai-Shek in Nanking, and of her personal observations in England, Turkey, Arabia, India, Siam, the Philippines, China, Japan, Guam and Hawaii.

Of Attlee, she said, "He gave the impression of being very timorous and wary. His attitude was not so much one of fear of the American press, but rather of uncertainty as to the present conditions of Great Britain and its future policy. One gets the impression that Britain "has been through the hoop a bit."

After observing the atomic bomb destruction of Hiroshima and Nagasaki and the mass bombing scars of Tokyo, Mrs. Hobby said, "we shall not soon forget. I think, either the pictures or the emotions these pictures produced."

Killer Of Sea Life

# Scientists Fight 'Red Tide' Plague

MIAMI, Fla. —A strange plague rides the world's seas, striking unpredictably, killing fish and other life by the countless millions. It's called by various names—"red tide," or "yellow tide," or again "rotten water." With it comes a gas which can set humans coughing.

Its latest outbreak cost half a billion dead fish upon the west coast of Florida both south and north of Sarasota, University of Miami bacteriologists estimated. It was the second appearance of the plague in Florida waters within a year. There had been none before that since 1916, or before that since 1905.

Similar disturbances have occurred in California, India, Africa, Europe, Australia and Japan at infrequent intervals.

Tiny organisms with two whip-like tendrils cause the plague. The Miami scientists said they are a species of *Gymnodinium*—*Gymnodinium brevis*—which belong to a group of organisms known for their poisonous tendencies. They are so tiny that 900 in a row equal an inch in length, and millions live in a quart of water.

So abundant are these organisms that they discolor the water. At first it is yellow, but may change to red or dirty green. Fish die after swimming into the colored water.

What causes the sudden outgrowth of the organisms has not

been ascertained. Gov. Millard F. Caldwell has been asked for an appropriation for further research by the University of Miami and the University of Tampa. Numerous studies have been made by Drs. F. G. Walton Smith, Gordon Gunter, Charles Davis, and Robert Williams of the University of Miami marine laboratories and by Dr. Claude T. Reed of the University of Tampa.

Dr. Reed said fish might be smothered by organisms that stick to the gills and block respiration. But other investigators believe the fish are poisoned.

The irritant gas, said Dr. Smith and his associates usually is released when the organisms begin to decay. It is odorless, but causes coughing when blown shoreward.

"Abatement of the red tide should take place in any one area within a week or two of the first appearance," a University of Miami bulletin said.

"The yellow water along beaches does not appear to harm the skin of human beings. It has not been determined whether the water is poisonous to human beings when taken in at the mouth, but bathers should avoid swimming in the colored water."

## Safety Patrols Are Organized

First of several proposed student safety patrols has been organized and activated at the South Ward school, W. D. Green, chief of police, has announced.

Work of the initial unit has been encouraging, the police chief said, and similar groups will be organized soon at other elementary schools.

The South Ward patrol consists of 21 boys. From this number, groups of eight are selected to work on a morning.

They are stationed at street intersections during the noon hour and before and after classes to direct their classmates and motorists during the periods of traffic congestion.

Green said the police department would expect local motorists to co-operate with the student patrolmen in promoting safety in school areas. Generally, cooperation has been creditable, he said, but a few exceptions already have been noted.

## Excuse For Aggression

# Overcrowded Japan Is Threat To Peace

TOKYO—The cry of over-population is rising again from these crowded islands, a serious, articulate and accurate cry on an issue as important to the rest of the world as to Japan.

There are 73,000,000 people huddled together on Japan's four main islands in an area smaller than the state of Montana. They are jammed together 497 to the square mile as compared with little more than 44 per square mile in the United States.

Never in Japan's modern history has the country's area been able to support the population, which has more than doubled in 60 years.

Since the occupation, some 535,000 additional acres have been put into production through land reclamation programs which if carried out faithfully will give the country another 1,000,000 acres by 1950.

But by that time—if the population rise continues, if the birth rate is maintained, if infant mortality decreases further as a result of Allied health teachings—there will be 80,000,000 people in these islands.

Japan's population is certain to be an issue among the peacemakers, most of whom will remember that Hitler, Mussolini and the Nipponese themselves cried "over-

population" as one excuse for expansion and aggression.

It is becoming a more pronounced issue with Japanese leaders themselves, who are suggesting tentative remedies.

Prime Minister Tetsu Katayama told The Associated Press that he "hopes" the Allies will "consider our overcrowded conditions" when writing the peace treaty.

Foreign Minister Hitoshi Ashida classified the Japanese emigration problem as "a problem for negotiation" after the treaty is signed, evidence that he at least looks to emigration as one way to solve the over-population.

State Minister Mitsusuke Yonekubo asserted recently, "I think it may be an idea to petition the Allied powers to allow return of our nationals to foreign countries."

There is no doubt that Japan is over populated but there is no doubt either that the Japanese could relieve the pressure somewhat themselves.

One way would be to settle another million people on Hokkaido, Nippon's frontier island to the north. Allied headquarters experts say that this island, containing almost one-fourth of the acreage in Japan and only about 1-24th of her population, is "agriculturally underpopulated."

Most Japanese, however, shud-

der at the "cold difficult living" when asked why this partial solution of sending more people to Hokkaido is not more successful.

Japanese always are choosy about the locations to which they wish to emigrate. They have and would again leap at moving to Hawaii, California or Brazil but they show little inclination to do any pioneering.

When the Japanese overran Manchuria and held it up to the homefolks as "living space," only a few hundred thousand—and those mostly businessmen or government officials—headed that way.

Repatriation figures further bear out the Japanese reluctance to leave their homeland for other than sunny climes and good living conditions. Of 5,500,000 repatriates returned to Japan since the end of the war, only 2,890,000 were civilians.

Birth control movements have had little success in Japan, largely because militarists sought more men for the armies and industrialists a brimming labor pool.

In an outline of Japan's natural resources by Allied headquarters one suggestion mentioned in connection with Nippon's future economy is "reducing the rate of population growth."

The natural resources section of headquarters which prepared the outline lists as other possibilities for bettering the lot of Japanese: development of higher yielding staple crops; elimination of raw material waste in manufacturing; conservation of resources; substitution, when practical, of domestically produced raw materials for imported materials; and use of synthetic materials.

The question is, can Japan peacefully, through close attention to her own resources and through foreign commerce, provide for her evergrowing self?

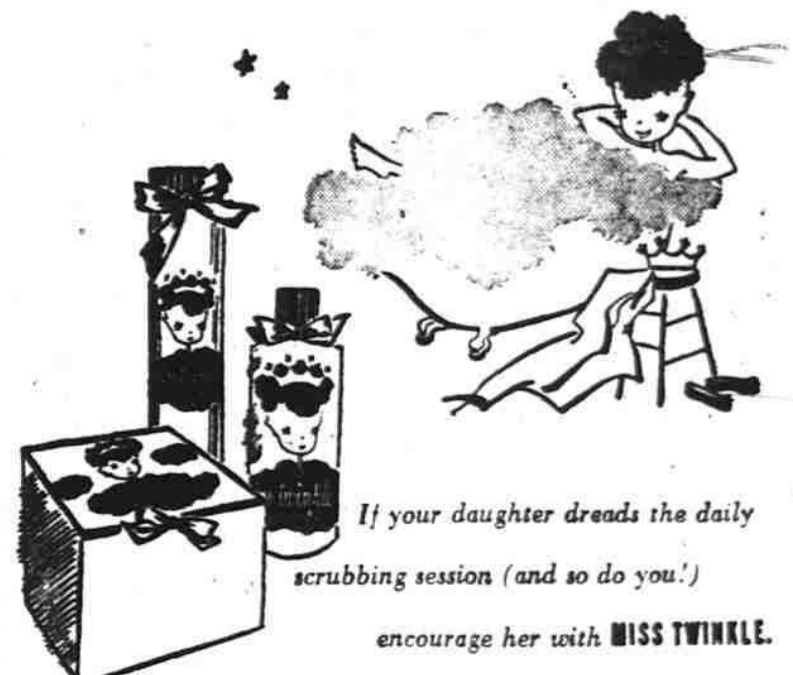

## District Attorney At Gonzales To Quit

GONZALES, Sept. 13 (AP)—District Attorney Denver E. Perkins has announced his intention of resigning from office next month to accept a job with the legal staff of

the Cities Service Oil company in Houston.

Perkins served as district attorney here for seven years prior to entering the Navy during World War II. After returning from the service, he became district attorney again last January.
