NUMBER TWENTY-SEVEN

HULLS by Kernel Gene, aPe

We enjoy your paper, especially the letters concerning politics. I read the column that Mr. Stokes and Mr. Riddell wrote bout the Hoover rabbit being a are speciman. I wonder if they slept as Rip Van Winkle did, since they don't recall Mr. Truman's "Red Herring" without any tartar sauce.

Sincerely, Troy Raulsters Bobby Christian

Thank you, Troy and Bob. I this week. Several of my friends are ribbing me about wanting a Two-party system in Texas but I still think it's a good idea. I know Mr. Johnson is a great man and has done lots for Texas. However, I don't think any man is so great that he should be allowed great man and did a grand job during his first two terms of office. Some folks thought our country couldn't exist without him. (I am sure it could without Mrs. Eleanor). I think Johnson is going to lose a lot of votes by his action. In other words, it will want him as Senator will scratch

Panthers. However, with the locals in good shape, they will play the Bearcats a good game.

The boys in Red and Blue will have nine returning lettermen but will be depending on new men in several positions. Jim Rodgers, freshman, and an outstanding player on the Cub team last year, will be running in the fullback slot this season. Also, there will be a few more new faces in the line, including John Paul Bolt, Larry Campbell, Gene Simmons, and Butch Boyd.

Kick off time will be 8 p. m.

Bible Material: Amos 2:6; 5; 8:4-6. Devotional Reading: Romans 15:1-6.

Social Justice

THE CHRISTIAN religion is A said to be a religion of love, and so it is. It is love that makes it beautiful and gives it meaning. But just as the beauty and meaning of literature is built on the humble

the security of a house go down to the unseen foundations, so love itself is a stammering weak thing if it is not built on the foundation of justice. Love without

justice is sloppy Dr. Foreman sentimentality, it is double-talk, it is drivel.

Social Justice

God's prophets, whose writings are part of the Christian Bible, were interested in social justice. They were interested because God was interested. People who think that social justice is no affair of religion at all, either haven't read the prophets, or really don't believe them. Let us get straight what "social justice" is. It has nothing to do with socialism, or with social affairs as written up for the society pages. It is different from political or legal justice. (These two, of course, should also be a concern of Christians.) An example of political justice would be giving major parties equal time on the radio and TV. An example of legal justice would be getting paid a fair price for land the government has taken for a highway.

Social justice is broader and more basic than that. In a word, it means fair treatment all around. It does not mean treating everybody exactly alike, because people's needs are not always the same. But it does mean giving everybody a "fair shake," an honest deal; it means not handicapping people for "reasons" that make no difference. It means giving every one a chance to develop all he's got.

In the time of the prohpet Amos, the people who needed social justice and were not getting it were the poor. He speaks of them, and of the Israelites' mistreatment of them, over and over. They were cheated out of justice in the courts because they could not afford to offer the handsome bribes that richer people gave. They were cheated in the marketplace because the merchants used dishonest weights and measures. They had no one to speak for them-no one but the God who spoke through his prophets.

Social justice now also is often needed by the poor. Discrimination -a fancy word for unfairness-is practiced also against racial groups-Negroes, Puerto Ricans, Chinese and others. But the poor, of all races, always need help. For example, housing projects are not a way of wasting the taxpayers' money. They are a way of helping people live in humanly decent surroundings. There is a city which is the capital of one of the states of the Union. In it there is a slum that can be seen by any visitor to town. The city has had a slum clearance authorized now for some years; but they are doing little about it. Why? It is against the law to move a family out of the most rotten tenement except into a better house. But most of the people who live in that particular slum can't afford to move. So there they sit.

Backlash of Injustice

Amos told his people that unless they paid more attention to the welfare of the bottom layers of FOR SALE - 160 acre farm society, the whole country would not only suffer-it would be destroyed. Social injustice is always self-destructive. Consider only one modern example. Here in America we need educated leadership -scientists, thinkers, men of trained minds and skills. One of the reasons we do not get enough of them is that (as studies have demoncapacity never show it, for the simple reason that their homework in high schools has to be done in crowded, leaky, insanitary 'homes" where you could hardly raise a prize pig, let alone a prize boy. Every time we in America, for reasons of poverty, or race or any other reason, deny a good education to young people who could take it, we are weakening our country by just that much.

Chambers Heads Desdemona Staff

bers has been elected superintendent of the Desdemona school system, replacing J. R. Williams. Chambers has been a teacher in the Desdemona schools. Before coming to the schools there he

taught in May and in Rising Star. The school has an approximate enrollment of 100 for 12 grades with nine professional units on the faculty.

Desdemona, one of the smallest school systems in Eastland County, is located in the extreme southeast corner of the county.

ANNOUNCING

A PROGRESS PROGRAM FOR

The Opportunity Frontier OF TEXAS

Our Company is pleased to announce that we are launching a program of Area development advertising to attract new industries to this territory, which is truly THE OPPORTUNITY FRONTIER OF TEXAS.

These advertisements will tell what the area we serve has to offer industry - including stable citizenship, rich resources, agricultural wealth, growing industry, investment opportunities. They will appear in the publi-

cations read by American businessmen and industrial leaders who make the decisions in connection with the location of new plants, warehouses or branch offices.

As citizens of the communities we serve, we want to do our part in creating more jobs . . . more prosperity . . . more financial stability. We are fully appreciative of this fact: We can grow only if the area we serve grows.
