THANK YOU —**

For your expression of confidence and friendship. As most of you know by now, Billy has gone to visit his Uncle Sam, and I have taken over his chores. I trust you will not be too harsh in your judgment of the paper for a month at least. Most of my work has been on the commercial side of the shop and it will take some time to get the swing of editing and printing a newspaper. Every paper has a policy and the following will be my aim for the future:

To help build and let others know about Gorman - - To keep you informed as to what is going on in our city - - and to print any constructive suggestions that you might have that will benefit our community and trade territory. In a later issue there will be a church column for all churches and ministers who are interested in having short sermons and messages printed. This will include the pastors in and around Gorman. If I should at any time offend or hurt anyone, I trust they will come and give me the opportunity to apologize.

Again, thank you, and if you see any stray buttons on the street, bring them to me because you have made me so chesky the past few days that I have popped several buttons off my vest.

February 12, 1970 — The above statement was made 25 years ago. My first experience at publishing a newspaper. How successful I have been would depend on one's point of view. I don't believe I could have enjoyed living anywhere in the world as much as I do in this area. To me success doesn't necessarily mean monetary gain. Even when I assist ministers and preachers I expect them to put a "star in my crown." I know a few people would prefer crowning me so that I would see stars and that also has happened a time or two. All in all it has been a wonderful quarter century.

Thanks to each of you for making it possible.

Times have really changed. Now a person can enter your home and if you object they can see you. Of course, if they burn, rape, murder, etc. our supreme

**LOCAL CHAMBER OF COMMERCE
HONORS ROY D. (BUDDY) BLAIR**

Roy D. (Buddy) Blair was honored by the Gorman Chamber of Commerce last Thursday at the joint meeting and dinner of the Chamber of Commerce and the Industrial Foundation.

Mr. James Mears in making the surprise presentation of the plaque stated, "the man we are honoring tonight came to Gorman in 1949 and operated an appliance store in the Gorman Hotel, he sold the store and hotel in 1966. He built the Lawndale Home For Senior Citizens in early 1963 and developed a housing addition here in 1962.

When the community wanted to build a swimming pool in 1966 he donated the land for the pool and the park as well. He has donated his time and talents in restoring the Blackwell Hospital to meet Medicare and State Hospital Health Standards and has donated his time in establishing a Hospital District and was appointed to the Hospital Steering Committee in 1969. He has donated the lions share of the land for the new hospital and is giving of his time to develop and erect the new hospital."

The plaque read: Presented to Roy D. Blair by the Gorman Chamber of Commerce in appreciation of your efforts, faith and continuing interest in the build-

court masters seem to think that is all right.

However, if a man becomes so sick of all the corrupt, vulgar and pornographic scenes he sees advertised, especially at shows, and expresses his displeasure by heaving a stone through a window, he is considered a mental case and is held without bond for psycho-analysis. How long will the people of these United States continue to permit our Senate and Congress to let this type of people rule our nation.

ing and developing of our town and community.

W. C. Browning, Chamber of Commerce president, was in charge of the meeting and recognized special guests, and new business men and women. He also gave a budget report of the Chamber of Commerce.

Mr. James Holquist, administrator of Blackwell Hospital, gave a report on the new hospital plans. He stated that plans for the new hospital are in the finalizing stage on the drawing board. The Department of Hospital Licensing has approved the basic plan. We are now gathering the specifications for the building. All specifications such as ventilation, heating, plumbing, plot plan and elevation of the land, etc., must be completed prior to final approval by the State. We expect that this information will be available by February 14. Once this has been approved we can then project our costs and have a realistic view of what funds will be required. Once we have the costs projected we can then go out and obtain financing.

Mr. Holquist also stated that the new hospital building exterior plans are similar to the new nursing home in Weatherford.

Graydon Baze, chairman of the Industrial Foundation, had just returned from a trip to Dallas in regard to the Small Business Loan for the Gorman Milling Co. plant. He stated that the \$190,000 had been granted and that construction on the plant will begin as soon as filing of titles by the lawyers is completed. This was expected to be completed within the next few days.

Two of the three owners and their wives of the milling company were present for the meeting. Mr. Jim Weatherby of Brown wood, president of the company, owns a lumber yard in Comanche and a feed lot at Beattie, and spoke briefly expressing his appreciation to the people of Gorman for their assistance in getting their plant located here. Also present were Mr. Harold Fritz and his wife of Stephenville, who is secretary-treasurer and general manager of the firm. He said the plant had already exceeded the 13 employees they first determined to have and by the time the feed mill is built the number of employees will be doubled.

Mr. Darrel Nay of Waxahachie, president of the company, was unable to attend due to illness in his family. The Industrial Foundation, in secret ballot, elected three board members. J. O. Jackson, Jr. was re-elected for a three year term; Joe Bob Browning was elected to a three year term; and Lester Seaton was elected for a one year term to fill the unexpired term of Bob Green who resigned. The dinner for the group was served by the senior class in the school cafeteria.

CARD OF THANKS

It is with grateful hearts we express our thanks for the help and kindness shown us in so many ways during the illness and death of our loved one. The flowers, food, visits and every expression of sympathy was deeply appreciated. A special thanks to the staff at Lawndale Home and Dr. Rodgers and Rev. Huron Polnac.

May God bless each of you in our prayer.

**Musgrove Pays
Filing Fee In Dimes**

State Representative Burke Musgrove said this weekend that he will file for re-election Monday and pay his filing fee with some 1500 dimes donated by supporters in the 53rd Legislative District.

Musgrove said that he would personally file with a sack of dimes in each of the five counties that includes Eastland, Callahan, Shackelford, Stephens and Palo Pinto Counties. "The dimes, a majority of which were donated by supporters in Eastland and Palo Pinto Counties, represent the healthy involvement of hundreds of concerned taxpayers in the election process. These and other taxpayers seriously question the wasteful state spending trends and the increasing tax burdens," Musgrove explained.

Representative Musgrove said he voted against and actively opposed "the sizeable \$348 million tax bill passed during the last two special legislative sessions," and he has given numerous speeches throughout the area criticizing wasteful state spending policies and other related causes for what he termed "an unreasonably large tax bill." Musgrove said that predictions are that another tax bill, estimated to run as high as \$400 million, would face the next regular session of the Texas Legislature in 1971. "The invaluable experience I gained in several of the roughest sessions in Texas history will better enable me to work towards trimming wasteful state spending and in likewise reducing the corresponding tax demands," Musgrove stated.

Musgrove, who just completed his third year in the Legislature, commented that he has had "two hard-fought primary election campaigns," his first one requiring a run-off election, and that the frequent and costly campaigns consume a great portion of the two-year term of the office holder. Musgrove was elected for a second term by the largest vote margin in the history of the predominantly conservative legislative district with approximately 8 percent of the total votes cast.

During his first term in office, Musgrove gained the state's attention when he launched a statewide investigation into the growing drug abuse problem. He later successfully sponsored legislation which he says, "provided Texas with some of the strictest, most comprehensive dangerous drug laws in the U. S."

A member of the powerful Legislative and Congressional Redistricting Committee, Musgrove expressed concern with the future of the rural position in the Legislature after the Constitutionally required redistricting that will follow the federal census to be taken this year. This legislative committee is also responsible for redistricting Texas' U. S. Congressional Districts. "We

**Annual Chamber of
Commerce Banquet
Set On March 7th**

The 1970 Chamber of Commerce Banquet has been set for Saturday, March 7th at the High School gym. This event, held annually to honor the outstanding farmer of the area and to highlight other significant accomplishments in the community, is expected to attract a large crowd of local citizens as well as out-of-town guests.

The committee appointed by the Chamber of Commerce to make arrangements for the program and other aspects of the function has secured one of the outstanding citizens of Texas, Mr. Dolph Briscoe of Uvalde, to deliver the main address. Mr. Briscoe is a rancher-farmer-businessman with interests in a large area of South Texas. In addition to his many other significant achievements, Mr. Briscoe is past president of the Texas State Chamber of Commerce.

Complete details relative to the banquet will be published later.

must do all we can to preserve our rural community of thought in our legislative district, especially in light of the fact that some 22 rural legislative districts are estimated to be abolished because of the population shift to the big cities," Musgrove stated.

The Breckenridge representative is also serving on the Highways and Roads Committee, the Education Committee, Transportation Committee and the School Districts Committee. "Two of these committees are over departments that utilize more than half of each tax dollar collected," Musgrove added. Just recently he was appointed by the Speaker of the House to serve on a Parks and Wildlife Committee that will make a comprehensive study for developing the state's park and recreational potential.

Musgrove said, "I will run the usual high level, clean campaign that I feel most voters appreciate."

4-Her Hardy Browder Learns Value of Treated Seed In Peanut Demonstration

Hardy Browder, Gorman 4-H boy, learned the value of planting fungicide treated peanut seed. In a 4-H demonstration, conducted under the supervision of County Agent DeMarquis Gordon, Hardy learned that treated seed means more money at harvest time. One seed treatment increased his income by \$72.49 per acre over the untreated plot.

Hardy is the 14 year old son of Mr. and Mrs. Bob Browder of Route 1, Gorman. His 4-H demonstration consisted of 1.1 acres of peanuts.

Four 25 pound sacks of certified Starr peanut seed were furnished by Bain Peanut Company. One sack of seed was treated

with Arasan, one sack with Ceresan-Captan, one sack with Captan-Vita-Vax, and one sack of seed was not treated with a fungicide.

Hardy planted the seed on June 17 at the rate of 110 pounds per acre. Six rows of each of the four treatments were planted. Twenty-four days after planting, Hardy and Gordon counted the young plants that were growing in a 90 foot space in each treatment. The purpose of the fungicide is to prevent diseases that normally kill young seedling plants.

In November Hardy and his father harvested and weighed the four treatments separately. The county agent converted the weights to an acre basis to compare the yield of the various treatments. Peanuts from the untreated plot produced 3,177 pounds per acre compared with seed treated with Arasan - 3,634 pounds per acre, Ceresan-Captan treated seed - 3,374 pounds per acre and Captan-Vita-Vax treated seed which produced 3,714 pounds per acre. The peanuts graded 72 and were worth \$271.40 per ton.

Based on this price, the peanuts from the Arasan treated seed were worth \$61.69 more per acre than those from the untreated seed. Ceresan-Captan increased income by \$26.59 over the untreated seed and Captan-Vita-Vax increased income by \$72.49 over the untreated seed.

Gordon says most peanut seed sold are treated with Arasan. Ceresan-Captan is also recommended for seed treatment. Captan-Vita-Vax is not yet recommended but shows great promise Gordon reported.

Other production practices that Hardy used to produce the high yield included applying 400 lbs. of 10-20-10 fertilizer per acre in early spring. He applied 80 lbs. of ammonia nitrate per acre on July 25. The weeds were controlled by the use of Treflan. Hardy irrigated his peanut demonstration three times.

The peanuts were treated with Diazinon before pegging and were sprayed with Parathion four times by airplane to control the lesser cornstalk borer. They were sprayed one time with Sevin to control leaf worms. Diathane M45 was applied with the insecticide spray two times to control the leaf spot disease.

Hardy now knows from experience why it is important to plant treated seed and follow through with good production practices.

4-H NEWS

By Brenda Browder
Girls of the Gorman 4-H Club have been working on their Foods and Nutrition project this year. The title of our project manuals are "Tricks for Treats," and "Outdoor-Indoor Meals for Teens." From these units we will study: nutrition, the science of cooking, selecting and buying foods, good cooking habits and serving and judging the foods we prepare.

We have had three meetings with seven girls attending. Brenda Browder and Jeanette Jackson are the Junior Leaders. These girls supervise the cooking classes and give demonstrations. At our last meeting Jeanette gave a demonstration on the use of eggs. She talked about the parts of the egg, the nutritional value and the many different ways to prepare an egg. Brenda gave demon-

strations on proper table settings, use of centerpiece, and making food attractive.

Junior girls taking part in group meetings also give demonstrations. Timmia Sanders talked about preparing fresh fruit and vegetables; Terry Price illustrated how to break and separate the yolk from the white of an egg; Teresa Browder gave a talk on good cooking habits and safety steps in the kitchen; Jeanette Jackson gave an informative talk on the basic 4-food groups.

We learn to prepare different foods at each meeting and then judge our food and then enjoy eating the food. We are preparing for the County Food Show which will be held in Eastland February 28th. At our last meeting we will fill out our Project Record forms and discuss the food dishes we will prepare for the show.

District Methodist Preachers, Wives Meeting Held Here

The Cisco District preachers and wives meeting was held at the local First United Methodist Church on Wednesday.

Principal speaker was Dr. Sidney Roberts, Executive Secretary of Town and Country of the Dallas-Fort Worth area. He gave an outstanding report on his trip with Mr. Perot to Vietnam. Mr. Perot has made every effort to get food, gifts and supplies to the American soldiers in prison camps in Vietnam.

Dinner for the group was served at noon by the Friendly Ladies Class and women of the church.

Girl Scout Cookie Sale Set Feb. 12-21

"Brownie and Junior Girl Scouts in Gorman will soon be participating in the 17th Annual Cookie Sale, sponsored by the Heart of Texas Girl Scout Council," Mrs. Joe Neill, Girl Scout Cookie Chairman for Gorman, announced today.

Dates of the sale are February 12-21. The 1970 Council goal is to sell a total of 81,600 packages of cookies. "If this goal is met," Scout officials stated, "it will go far in financing a third unit at Camp Wood Lake, which is needed to take care of the increase in campers." The quota for Gorman is 1,008 packages.

This is a project by and for the Girl Scouts and it affords every Girl Scout an opportunity to assume responsibility while practicing sound business methods. The girls will not only add to their own troop treasury but will aid the Council, of which Gorman is a member, in bringing better camping to more girls.

Funds for the maintenance and development of camping facilities come almost entirely from this annual sale. Council proceeds from this year's sale will be used for further development and maintenance of the camp. Proceeds retained in the troops will be used to buy essential material for troop activities.

The Southern Biscuit Company from whom Girl Scout cookies are bought, has one of the outstanding bakeries in the country. Four different kinds of cookies will be sold this year: assorted sandwich (chocolate and vanilla); mint cookies; butter flavored shorties and peanut butter cookies. Many friends of Scouting will want to buy cookies by the case, place them in their deep freeze, and serve them to friends throughout the year.

Troop leaders have been busy for the past month giving training to all girls in sales techniques, the importance of good grooming, and how to handle simple business transactions. The Scout officials, as well as parents, think this is indeed citizenship training in practice.

"With the development and maintenance of a first class girls' camp as a goal toward which to work, I'm sure the Girl Scouts in Gorman will be working hard to sell their share of cookies. We are again asking the support of friends of Girl Scouts," Mrs. Neill continued, "in making this annual sale the best yet."

Final Session Of "China In Change" Set For Monday

The third session of the WSCS midwinter study, "China in Change," under direction of Mrs. Joe Davis in the home of Mrs. M. H. Fairbetter, was opened with a devotional. Milton Fairbetter, Jr. gave a tender and soft rendition of "Near the Cross," followed by "America, the Beautiful" in observance of historical events of February. Mrs. Davis offered the prayer of invocation.

Interesting and pertinent points of discussion revealed some reasons for Mainland China's attitude toward the United States, the attitude which most Americans consider definitely perverse. Two points discussed at length were the fact that all of the small countries having borders on the sea coast were some one hundred years ago a part of China proper and are still claimed as lands to be eventually regained; the second point is the peoples of these countries are of Chinese origin.

One purpose of the study is to develop an understanding of a people with whom there must be a Christian relationship.

News of illness was reported when the meeting was closed with the WSCS benediction and refreshments were served.

Mrs. Walter Underwood was a guest.

The February 16th meeting will be held in the home of Mr. and Mrs. Rudolph Haile.

Higginbotham's Hold Meeting

The annual stockholders' and directors' meeting of Higginbotham Bros. were held on January 23rd in Comanche, Texas at the Texas Power & Light Hospitality Room. Fifty stockholders were present to hear the annual report and transact the normal business of the meeting. Fifteen directors were elected to serve for the year 1970. They were: Cecil Higginbotham, Lanham Higginbotham, R. Wilson Higginbotham, Joe M. Higginbotham, III, Rufus Higginbotham, Tom Beene, David Beene, Boswell Porter, Jay Koonce, Jimmy Boggess, Tom Cox, Jr., A. R. Horton, Thomas C. Williams, Dr. Marvin P. Knight and Irion Worsham.

position by virtue of his intimate knowledge of Higginbotham Bros. and his familiarity with diversified business interests.

Tom Beene is a Comanche native and a twenty-six year employee of Higginbotham Bros. Beene states that he looks forward to the challenge of acquiring new businesses for Higginbotham, and sees a growing market for all kinds of goods and services in the southwest.

Higginbotham Bros. is a firm which celebrates its ninetieth anniversary this year, and has stores in fourteen Central and West Texas towns.

Irrigation Short Course Slated Feb. 17-18 at Rising Star

An irrigation short course will be taught in Rising Star on February 17th and 18th. Eastland County Agent DeMarquis Gordon said the short course is being offered for the benefit of farmers who have developed irrigation in the last few years as well as those who are planning to irrigate in the future.

Wayne Keese, Agricultural Engineer with the Agricultural Extension Service at Texas A&M, will teach the short course. Each session will begin at 7:00 p. m. and will be held in the American Legion Hall in Rising Star. The Rising Star Chamber of Commerce will be hosts and serve refreshments.

Keese will discuss such topics as irrigation well construction, selection of irrigating equipment, water management and economics of irrigating peanuts, forage crops and pastures. Gordon says Keese will allow time for answering questions concerning irrigation problems.

The short course is one of several educational events planned by the Eastland County peanut committee to help increase agricultural income in this area.

Eastland Jaycees Launch Drive For Re-Hab Center

Richard Rossander of Eastland is chairman for the statewide drive for funds for the Texas Jaycee Rehabilitation Warm Springs Hospital in Gonzales.

The hospital must have \$50,000 by May 1 in order to qualify for a \$140,000.00 federal grant. The hospital will be open to all people with physical disabilities and will be able to provide services for about 300 persons per year.

The campaign will have newspaper, radio and television coverage. The governor is expected to declare a special "Texas Jaycee-Dollars for Rehabilitation Week" sometime in March. Each Texan will be asked to mail a dollar to Eastland. Rossander said all funds over the \$50,000.00 will be used for the hospital.
