IT'S TIME TO STORE WINTER CLOTHES —

Now that spring is here, it's time to store winter clothes. Special attention should be given to your wool and mohair garments. Store only clean garments. Spots and stains will be harder to remove — or they may not come out at all — a year later. Moth larvae are attracted more to soiled clothing. Send the soiled garments to a good dry cleaner and call his attention to any spots and stains.

Besides dry cleaning, brushing and sunning garments will also help rid clothing of moths including their eggs and larvae. Brush thoroughly, especially in seams, folds and pockets. For added protection, store your clothing with "moth balls" — paradichlorobenzene crystals, or naphthalene flakes or crystals. Directions on the container suggest the amount to use.

Put sweaters and other knitted garments in bags or boxes. Tightly-wrapped paper packages, airtight boxes or chests, or garment bags are the best storage places. Cedar chests are old favorites for winter clothing storage, but all garments must be moth-free before they are put into a cedar chest. Cedar oil vapor does kill small moth larvae but not older, larger ones.

As a cedar chest gets older, however, there is less cedar oil vapor. Therefore, a cedar chest that is several years old may give no more protection than any other air-tight container.

It is a good idea to remove plastic buttons, buckles and other plastic ornaments before storing. Avoid using plastic hangers, which may cause a stain or melt into the fabric. If space is available, store hangable garments in garment bags on rust-proof hangers.

Weekend visitors in the home of Mr. and Mrs. Nick Duggan were their children, Mrs. Floyd Rider, Joyce and Ed of Leander, Mr. and Mrs. Bud Smitty and David of Dallas and Mr. and Mrs. James Gilvray, Jan, Kathy and Steve and Kristy of Jacksboro. "AND THE TRUTH SHALL MAKE YOU FREE..."

The following editorial, reprinted from the Mineral Wells Index, explains why most responsible citizens of the 63rd Legislative District are supporting John Musselman for State Representative.

An Editorial

THREE GOOD REASONS

Just prior to the First Primary election The Index endorsed for State Representative from his District Mr. John Musselman from Albany. We believed then, as we still believe, that this young man is the best qualified candidate to represent us in this very important state office. The Index has been both praised and criticized for our stand and this is fine. Contrary views represent the finest tradition of the good old American custom of standing up for the candidate of our choice.

Some of our good friends from Breckenridge have taken us to task for expressing our views and seem to feel that we are prejudiced against our fine neighboring city. Nothing could be further from the truth. A search of the records will show that in campaign after campaign The Index has supported the Democratic candidates for office from Breckenridge.

This paper supported Wayne Gibbens every time he was a candidate for the Legislature. On each occasion when Jack Cox ran for the Legislature, The Index supported Mr. Cox. Prior to this time, Mineral Wells in three separate elections gave overwhelming support to our friend Lester Clark from Breckenridge, and prior to that this paper supported Bailey W. Hardy of Breckenridge when he was elected to the Legislature.

Why, then, does The Index not support Burke Musgrove?

These are the reasons.

First, we believe John Musselman to be the best qualified candidate.

Second, we believe that any man who serves us in the Legislature should be honest and his integrity above question.

Many of us have been hearing rumors and stories that Mr. Musselman's opponent has been charged, in at least three different years, of passing worthless checks. It has been further told that Mr. Musgrove who opposes John Musselman, in June of 1965, plead guilty and was sentenced to jail for "Swindling with worthless check." This paper does not believe in "Mud Slinging" politics, but all of us as voters are entitled to know if such charges are true or false. We have been asked concerning these charges and because the truth is important The Index investigated and can report that such charges are true. We have in our possession certified copies from the Criminal Court of Travis County of such charges and the Judgement of conviction swindling with worthless check. Regardless of the reasons given, a young man seeking public office must set an example for other young people, and his integrity should be above question.

Should a person with such a record represent us in the Legislature? That is the real question; The Index thinks not and doubts that honest and law abiding citizens want such representation.

Third, every man has an inherent right to be a Democrat or Republican or to belong to any other party of his choice. While some may disagree, under the law a man may vote for a Democrat in the Primary and Republican in the General Election. However, a candidate for office on the Democratic ticket should be a Democrat. We have in our possession a list which shows that Mr. Musgrove was a member of the young Republicans, at the University of Texas, and yet he is running for office on the Democratic ticket. One of his strongest supporters (who has openly endorsed him for this Democratic office) is the Republican Chairman for Stephens County. Another of his staunch supporters, who also openly endorsed Mr. Musgrove, is a Republican Precinct Chairman.

We are not opposed to Mr. Musgrove's past affiliation with the Republican Party. We strongly believe that if he is a Republican and has such strong Republican support he should at least have conviction enough to run on the Republican ticket.

Again, we are for John Musselman. Since the names are so similar and since John Musselman is the only "John" in the race, we hope it will not seem corny to say that The Index proudly endorses "Honest John" Musselman. The choice is with the voters of the District.
